

EBRO FOODS, S.A.

Management report for the year ended December 31, 2018 (Thousands of euros)

1. COMPANY SITUATION

Ebro Foods S.A. is the parent of the Ebro Foods Group, Spain's largest food group. Through its subsidiaries, it commands a presence in the rice and pasta markets in Europe and North America, as well as a growing presence in other countries.

As a holding company, its overriding objective is to lead, coordinate and foster the development of the Group it heads up, whose strategy is articulated around the provision of healthy food solutions to consumers that enable it to differentiate its brands by means of innovation and new product and format development.

The Ebro Foods Group articulates its management around business segments that combine business activities and their geographic location. Its key business lines are the production and distribution of pasta and rice and their culinary derivatives and accompaniments. Geographically, it is structured into four major regions: the Americas, Spain, Europe & RoW.

Decision-making is spearheaded by the Board of Directors, which is ultimately responsible for defining the Company's general strategy and management guidelines. The Board delegates certain tasks in its Executive Committee, including, notably, monitoring and oversight of delivery of the strategic and corporate development guidelines, while the Management Committee, on which the heads of the various business areas are represented, is tasked with monitoring and preparing the decisions taken at the management level.

The Annual Corporate Governance Report contains detailed information on the Group's ownership and governance structure.

The Management Report accompanying the consolidated financial statements provides detailed coverage of key trends in and the performance of the various segments and businesses that comprised the Ebro Food Group in 2018.

2. BUSINESS AND EARNINGS PERFORMANCE OF EBRO FOODS, S.A.

Ebro Foods, S.A.'s key sources of revenue are the dividends paid by its subsidiaries, the services it provides to these subsidiaries and certain real estate transactions. Its expenditure relates mainly to staff costs and the financial cost of the borrowings taken on in its capacity as parent of the Ebro Foods Group. In addition, depending on developments with respect to the value of its investments in its subsidiaries, it recognizes and reverses impairment provisions on its portfolio of investees as required. Recurring expenditure was in line with that of prior years. Certain services provided to subsidiaries were pared back.

Operating profit amounted to 5,230 thousand euros in 2018, compared to 63,291 thousand in 2017. The decrease in operating profit is primarily attributable to the drop in dividend income from subsidiaries (note 8), offset by lower performance-based employee benefits expense in 2018.

EBRO FOODS, S.A.

Management report for the year ended December 31, 2018 (Thousands of euros)

Net finance cost amounted to 12,711 thousand euros, compared to 4,456 thousand in 2017. The higher net cost is attributable to higher borrowing costs as a result of the trend in the corresponding rates of interest and the year-on-year decline in exchange gains on the liabilities denominated in US dollars as a result of the trend in that currency during the year.

As a result, the Company recorded an after-tax loss of 4,776 thousand euros in 2018, compared to a profit of 58,101 thousand euros in 2017.

The most significant developments last year related to its activity as parent of the Ebro Foods Group were the following:

Key investments and exits concluded by the Group

Note 8 to the financial statements lists Ebro Foods, S.A.'s direct investments in group companies and associates. The main transactions coordinated by Ebro Foods, S.A. in 2018:

Investment in Bertagni

On March 29, 2018, through the Panzani Group and Pastificio Lucio Garofalo, S.p.A., the Group acquired 70% of Italy's Bertagni 1882, S.p.A ("Bertagni"). Bertagni has factories in Vicenza and Alvio (Italy) and a headcount of 275. Bertagni is known as the oldest filled pasta brand in Italy and is an expert in the production of fresh pasta in the premium segment.

The investment totaled 96.5 million euros and was financed using a mix of equity and debt. In addition, there is a put option over the remaining 30% (exercisable by the other shareholders over a 10-year period from April 2022). The acquisition price in the event this option is exercised will be determined as a function of the target's average earnings metrics over a series of years, as well as other terms and conditions customary in arrangements of this nature.

There were no other significant changes in the Group's scope of consolidation during the reporting period.

3. NON-FINANCIAL INFORMATION

The non-financial statement required under Spanish Law 11/2018 (of December 28, 2018) on non-financial and diversity reporting was authorized for issue on December 13, 2018 and is included in the Management Report accompanying the consolidated financial statements.

4. EMPLOYEE AND ENVIRONMENTAL DISCLOSURES

Human capital

Ebro Food's ultimate objective on the labor front is to foster mutually-beneficial labor relations, by making its employees feel vested in the organization, encouraging their career development, promoting equal opportunities and taking a zero-tolerance stance on discrimination and establishing, in a nutshell, a tranquil workplace climate.

EBRO FOODS, S.A.

Management report for the year ended December 31, 2018 (Thousands of euros)

Each of the Group companies is governed by the labor legislation prevailing in the countries in which it does business. In addition, the bigger subsidiaries have formulated their own human resource policies that regulate relations between management and employees. Above all of these policies, and notwithstanding the terms of the collective bargaining agreements of the various companies comprising the Ebro Foods Group, there is a corporate Code of Conduct designed not only to ensure the ethical and responsible conduct of the professionals of all Ebro Foods Group companies on the job but also to serve as a guide for defining employment policies and safeguards, workplace health and safety policy, training issues and the principles for guaranteeing the absence of discrimination and the promotion of diversity and equality in hiring decisions.

The key staff disclosures are provided in notes 18 and 19 of the accompanying financial statements.

Environmental disclosures

Although the Company's business activities do not imply environmental consequences *per se*, one of Ebro Foods's basic management commitments is to provide its companies with the tools and measures needed to strike an optimal balance between their business activities and environmental protection. Refer to note 19.d to the financial statements for additional information.

5. LIQUIDITY AND FINANCING

Ebro Foods, S.A. manages the Group's financing requirements in respect of strategic matters such as dividend policy and the Group's organic growth. To this end it relies on the cash generated by its subsidiaries which act as guarantors on the long-term loans taken on to facilitate this role.

The Management Report accompanying the consolidated financial statements provides an in-depth overview of the Group's liquidity and financial position.

6. BUSINESS RISK MANAGEMENT TARGETS AND POLICIES

Ebro Foods, in its capacity as the parent of a group of companies, is indirectly exposed to risks affecting its subsidiaries via the valuation of its investment portfolio and the amount of dividends it receives from them. The business activities performed by the Ebro Foods Group companies are carried out in an environment shaped by exogenous factors that could influence their business and financial performances.

These risks are mainly environmental, business, financial, borrowings, labor and technology related. These risks and the measures taken to identify, manage and mitigate them are described in detail in both the Management Report accompanying the consolidated financial statements and in the Group's Annual Corporate Governance Report.

EBRO FOODS, S.A.

Management report for the year ended December 31, 2018 (Thousands of euros)

On the basis of the main risks identified, management assesses the instruments in place for mitigating them and the main associated processes and controls.

Financial risk management and use of financial instruments

The main financial instruments used are bank loans, bank overdraft facilities, cash and short-term deposits. The overriding goal of using these instruments is to expand the sources of financing available to the Group.

In the past, the Company has written derivatives to hedge interest and exchange rate risk. It is Company policy not to use financial instruments for speculative purposes.

The main risks arising from the financial instruments used are credit risk, cash flow interest rate risk, liquidity risk and foreign currency risk.

The Board of Directors, through its Audit and Control Committee (in turn supported by the Risk Committee) reviews and establishes the policies put in place for managing each of these risks, while the Finance Department identifies and manages them with a view to minimizing or ring-fencing their potential impact on the Group's performance.

Credit risk

Ebro Foods, S.A.'s exposure to credit risk is not significantly concentrated. Moreover, it deposits its cash and arranges its financial instruments with highly solvent and creditworthy financial institutions.

Cash flow interest rate risk

The Company is exposed to changes in market interest rates, mainly on account of its non-current payment obligations arranged at floating rates of interest.

The policy deployed to minimize this risk is to combine floating and fixed rates and to strive to achieve a well-balanced debt structure so as to reduce borrowing costs while containing volatility. To this end it tracks interest rate trends with the help of external experts. Whenever deemed necessary, Ebro Foods, S.A. arranges interest rate derivatives.

Foreign currency risk

As a result of the investments made in the US, the carrying amounts of the Company's assets and liabilities are significantly exposed to changes in the USD / EUR exchange rate. It has mitigated this structural exchange-rate risk by denominating specific borrowings in this currency. In this manner, it has hedged the majority of its US investments.

EBRO FOODS, S.A.

Management report for the year ended December 31, 2018 (Thousands of euros)

Foreign currency risk also arises from the purchases and sales made by the various subsidiaries in currencies other than the functional currency. In this instance, the subsidiaries themselves arrange their own forward contracts or other exchange rate hedges, in keeping with Group policy.

Liquidity risk

Ebro Foods, S.A.'s objective is to maintain a balance between continuity of funding and flexibility through the use of renewable credit facilities, bank loans and short-term deposits.

7. EVENTS AFTER THE REPORTING PERIOD

There have been no other significant events or developments between the end of the reporting period and the date of authorizing the accompanying condensed consolidated financial statements for issue.

8. BUSINESS OUTLOOK

Ebro Foods' earnings performance going forward will depend on the dividends received from its subsidiaries, the gains recognized on properties deemed non-core and the finance costs incurred on the debt taken on to finance its assets.

The Company's directors believe that the dividends declared by its subsidiaries will be sufficient to enable Ebro Foods to fund an adequate shareholder remuneration policy.

9. R&D

R&D initiatives are shaped by the subsidiaries' strategic initiatives (to which end we refer the reader to the Management Report accompanying the consolidated financial statements).

10. OWN SHARE TRANSACTIONS

In 2018, the Parent had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meeting held on June 3, 2015 for a period of five years (and duly notified to the CNMV in keeping with prevailing legislation). In 2018, under the scope of the employee share plan, it bought back 33,348 shares and delivered 33,348 own shares to employees. The Company did not hold any own shares as treasury stock at December 31, 2018.

A.10. Indicate the term and conditions of the authorisation granted by the general meeting to the board to issue, buy or sell own shares:

The Annual General Meeting of Shareholders held on second call on 3 June 2015 resolved, under item twelve on the agenda, to authorise the Board of Directors to buy back own shares and reduce the Company's capital and to authorise subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in law.

a. Conditions of the authorisation

To authorise the Board of Directors, with the power to delegate, to buy back shares in Ebro Foods, S.A., directly or through its subsidiaries, by purchase, swap or under any other title and on one or several occasions, on the terms and conditions established in sections 146 et seq and sections 509 et seq of the Corporate Enterprises Act, and the following conditions:

- The par value of the shares purchased directly or indirectly, together with those already held by the Company or its subsidiaries, shall not exceed 10% of the subscribed capital.
- The buy-back, when added to the shares previously acquired by the Company, or any person acting in their own name but on behalf of the Company, and held as treasury stock, shall not have the effect of reducing equity to below the amount of the capital plus the legal or restricted statutory reserves. For this purpose, equity shall be the amount considered as such according to the principles for drawing up the annual accounts, less the amount of gains attributed directly thereto, plus the amount of uncalled subscribed capital and the par value and share premium of the subscribed capital recognised in liabilities.
- The shares thus acquired shall be fully paid up.
- The cap and floor values for buy-back shall be the market value of the shares on an official secondary market at the date of buy-back and a value equivalent to the par value of the own equity instruments acquired, respectively.

b. Contents of the authorisation

- To authorise the Board, by direct resolution or delegation to the Executive Committee, or by delegation to such person or persons as the Board of Directors may authorise for this purpose, to buy back own shares to hold them in its treasury stock, dispose of them or, as the case may be, put a motion to the General Meeting for their redemption, within the legal limits and complying with the conditions established in this resolution.

This authorisation is extended to the possibility of buying back own shares for delivery, on one or several occasions, to the Company or group employees, directly or following exercise of their option rights, pursuant to section 146.1(a), third paragraph, of the Corporate Enterprises Act.

It is also extended to acquisitions of shares in Ebro Foods, S.A. by its subsidiaries.

- To authorise the Board of Directors to reduce the capital in order to redeem the own equity instruments purchased by the Company or other companies in its group against the capital (for their par value) and unrestricted reserves (for the cost of the acquisition in excess of that par value), by such amounts as it may deem fit from time to time and up to the maximum own shares held at any time.

- To delegate to the Board of Directors to implement the aforesaid resolution to reduce the capital, which it may do on one or several occasions or declare it null and void, within a period not exceeding 5 years from the date of this General Meeting (3 June 2015), taking such actions for this purpose as may be necessary or required by law.

The Board of Directors is especially authorised so that it may, within the times and limits indicated in this resolution, proceed to: (i) make or declare void the reduction of capital, naming if appropriate the specific date(s) of the transactions, taking account of any internal or external factors that may influence this decision; (ii) specify in each case the amount by which the capital is reduced; (iii) determine the destination of the amount of the reduction of capital; (iv) in each case adjust Articles 6 ("Capital") and 7 ("Shares") of the Articles of Association to reflect each new amount of capital and new number of shares; (v) apply in each case for delisting of the redeemed shares; and (vi) in general adopt such resolutions as may be considered necessary for redemption and the consequent reduction of capital, designating who is to put it on record.

c. Term of the authorisation

The authorisation contemplated in this resolution is granted for a maximum of five years from the date of the General Meeting (3 June 2015) and covers all transactions in own equity instrument made hereunder, without requiring reiteration for each acquisition made. It also covers any provisions or earmarking of reserves made in accordance with the Corporate Enterprise Act.

 Partial policies

If yes, describe those diversity policies, their goals the measures established, how they have been implemented and the results obtained during the year. Describe also the specific measures taken by the board of directors and the nomination and remuneration committee to achieve a balanced, diverse composition of directors.

If the company does not apply a diversity policy, explain why not.

Description of the policies, goals, measures and implementation and the results obtained

Ebro Foods, S.A. has implemented a Policy for Selection of Directors and Diversity in the Composition of the Board of Directors, the scope of which is extended to the appointment, ratification and re-election of Directors by the General Meeting of Shareholders and the appointments made directly by the Board of Directors. For candidate Directors who are legal persons, the principles and criteria of the Policy must be observed in respect of the individuals who are to represent them on the Board.

According to that Policy, all proposals for candidates must be based on a prior analysis of the needs of the Board, the results of which will be set out in the corresponding report by the Nomination and Remuneration Committee, to be published when calling the General Meeting at which the ratification, appointment or re-election of each director is to be submitted for approval.

The goals established in the Policy are:

- Avoid any implicit bias in the processes for selecting Directors that may imply discrimination against any of the candidates on any grounds whatsoever.
- Under equal conditions, opt for the candidate whose gender is least represented on the Board at that time.
- Favour diversity of expertise, professional experience and gender within the composition of the Board.
- Achieve a composition where the least represented gender on the Board accounts for at least thirty per cent of the total Board members by 2020. This target has already been met.

To achieve these goals set in the Policy, the Company has established the following measures to be applied in each appointment of Directors:

- prior analysis of the composition of the Board of Directors in aspects regarding the categories of Directors, presence of the least-represented gender, profile and professional experience of the Directors and capital represented on the Board of Directors;
- analysis of the legal, statutory and regulatory requirements applicable to both the classification of Director of the candidate and the procedure for their appointment;
- analysis of the experience, qualification and vocational training of the candidate and their availability for adequate performance of their duties;
- verification that the appointment of the candidate complies with the requirements of diversity, non-discrimination and equal treatment established in the Code of Conduct and the Directors Selection Policy.

Through its implementation of the Policy for Selection of Directors and Diversity in the Composition of the Board and correct monitoring of the measures described above, Ebro Foods, S.A.: (i) has a pluralistic, diverse Board of Directors in terms of gender, expertise, experience and professional profiles of its members and (ii) has reached in advance the goal set for 2020, whereby the gender least represented on the Board (women, in the case of Ebro Foods) accounts for at least thirty per cent of the total members of the Board of Directors.

C.1.6 Explain any measures agreed by the nomination committee to ensure that the selection procedures are not implicitly biased against the selection of female directors and that a conscious effort is made to include women with the target profile among the candidates so that a balance may be struck between male and female directors:

Explanation of the measures

Although the Nomination and Remuneration Committee has not adopted specific measures in this regard, in accordance with the gender diversity measures and the principles of non-discrimination and equal treatment applied by the Company when selecting candidate Directors, the Company will: (i) seek at all times a diversity of expertise, experience and gender in the composition of the Board; and (ii) under equal conditions, it will opt for the candidate whose gender is least represented on the Board at that time.

The main principle followed by the Company in this regard is that the selection procedure must avoid any implicit bias that might imply discrimination against any of the candidates on any grounds.

Furthermore, the aforesaid Policy for Selection of Directors and Diversity in the Composition of the Board expressly includes the target that by 2020 the gender least represented on the Board of Directors of the Company must account for at least 30% of the total Board members.

The Company has already met this target, as female directors currently represent 38.46% of the total thirteen Board members.

See section C.1.5 of this Report.

If, despite the measures taken, if any, there are few or no female directors, explain the reasons that justify this situation:

Explanation of the measures

N/A

C.1.7 Explain the conclusions of the nomination committee on compliance with the policy for selecting directors and, in particular, on how that policy is promoting the target that by the year 2020 the number of female directors should represent at least 30% of all the board members.

The Nomination and Remuneration Committee considers that the appointments of new Directors resolved in 2017 and 2018 both increase the number of Independent Directors, in keeping with the good governance recommendations, and conform to the principles of diversity, non-discrimination and equal treatment established in the Policy for Selection of Directors and Diversity in the Composition of the Board. Those principles are intended to: (i) enhance the diversity of expertise and experience on the board, (ii) avoid any implicit bias that may imply any kind of discrimination, and (iii) favour gender diversity.

The Nomination and Remuneration Committee also considers that the application of the Policy for Selection of Directors and Diversity in the Composition of the Board has been positive, because it has enabled the Company to meet early the target set for 2020, of women (the gender least represented on the Board of Directors) representing thirty per cent of the total Board members.

See sections C.1.5 and C.1.6 of this Report.

C.1.8 Explain, if appropriate, why proprietary directors have been appointed at the request of shareholders holding less than 3% of the capital:

Name of shareholder	Justification
No details	

State whether any formal requests for presence on the board have been rejected from shareholders holding interests equal to or greater than others at whose request proprietary directors have been appointed. If appropriate, explain why such requests were not met:

Yes

No

C.1.9 Indicate the powers delegated by the board to particular directors or committees, if any:

Name of director or committee	Brief description
ANTONIO HERNÁNDEZ CALLEJAS	<p>Antonio Hernández Callejas has no powers delegated by the Board of Directors. Mr Hernández Callejas is a class A general attorney of the Company by virtue of the power of attorney granted in deed no. 4802, executed on 4 December 2014 before the notary Andrés Domínguez Nafría and entered in the Madrid Trade Register, volume 29950, folio 202, section 8, page M-272855. In addition, in accordance with the rules on investments and divestments, strategic expenditure and corporate operations approved by the Board of Directors at its meeting on 21 March 2001, the following actions by Antonio Hernández Callejas shall require prior authorisation from the Board of Directors or notification to the Executive Committee: a) for investments/divestments or strategic expenditure, if exercise of the powers entails the acquisition of economic obligations or commitments in excess of two million euros, a resolution must previously be adopted by the Board of Directors; and for less than two million euros but more than three hundred thousand euros, the Executive Committee must be notified; b) for corporate operations, a prior resolution of the Board of Directors is required if they are for more than two million euros, and the Executive Committee must be notified if they are for less than two million euros but more than three hundred thousand euros.</p>
Executive Committee	<p>The Board of Directors has delegated all its powers to the Executive Committee, save any, which may not legally be delegated. This notwithstanding, in accordance with the rules on investments and divestments, strategic expenditure and corporate operations approved by the Board of Directors at its meeting on 21 March 2001, the powers of the Executive Committee in these areas are internally limited to the sum of two million euros per investment/divestment, expenditure or corporate operation. See section C.2.1 of this Report for the duties attributed to this Committee in the Articles of Association and applicable regulations.</p>

- Javier Fernández Alonso represents the Director Corporación Financiera Alba, S.A. on the Board of Directors of Euskaltel, S.A.

C.1.12 Indicate and, where appropriate, explain whether the company has established rules on the maximum number of directorships its directors may hold, if so, indicating where those rules can be found:

Yes
 No

Explanation of the rules and identification of the document in which they are regulated

Article 32.2 of the Regulations of the Board establishes, among the "General Duties of Directors", that the Directors shall dedicate such time and attention to the Company as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the Company.

C.1.13 Indicate the amounts of the following items in the overall remuneration of the board:

Remuneration of the board (thousand euros)	5,054
Amount of the vested rights of current directors in pension schemes (thousand euros)	
Amount of the vested rights of former directors in pension schemes (thousand euros)	

The Directors' remuneration indicated in this section C.1.13 includes the attendance fees received by the Chairman of the Board of Ebro Foods, S.A., Antonio Hernández Callejas, as Director of the Group subsidiary, Pastificio Lucio Garofalo, S.p.A., totalling 5,000 euros and paid by that company.

In addition, the Chairman of the Board of Directors received 5,200 euros from Riso Scotti, S.p.A. in attendance fees as Director of that company.

C.1.14 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position(s)

MANUEL GONZÁLEZ DE LUNA	INVESTOR RELATIONS AND FINANCIAL INSTITUTIONS MANAGER
GLORIA RODRÍGUEZ PATA	CORPORATE ASSETS MANAGER
Total remuneration top management (thousand euro)	2,050

The company executives named in this section C.1.14 include the Chief Operating Officer (COO), the highest-ranking executive of the Ebro Foods Group after the Executive Chairman, and the heads of the principal departments of Ebro Foods, S.A. even if they do not have a senior management employment relationship with the company.

C.1.15 State whether any modifications have been made during the year to the Regulations of the Board:

- [] Yes
 [v] No

C.1.16 Describe the procedures for selection, appointment, re-election and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

The procedures for selection, appointment, re-election and removal of the Directors are regulated in the Articles of Association and the Regulations of the Board.

There is also a Policy for Selection of Directors and Diversity in the Composition of the Board of Directors, which specifically and verifiably establishes the basic criteria and principles to be followed in the selection of candidates.

The Policy is applicable in the appointment, ratification and re-election of directors by the General Meeting and any appointments made by the Board. For candidates who are legal persons, the principles and criteria of the Policy must also be observed in respect of the individuals representing them on the Board.

A. Procedure for selection, appointment and re-election of Directors

Procedures for selecting Directors shall be designed to favour diversity of expertise, professional experience and gender within the Board, avoiding any implicit bias that may imply discrimination against any of the candidates on any grounds. Under equal conditions, the Company will opt for the candidate whose gender is least represented on the Board at that time.

The General Meeting is responsible for deciding on the number of directors the company is to have, within the minimum (7) and maximum (15) established in the Articles of Association, and for appointing or re-electing directors as proposed by the Board, subject to a favourable report by the Nomination and Remuneration Committee.

The Board may also appoint directors by cooptation, subject to a report by the Nomination and Remuneration Committee and by the Board of Directors on the terms stipulated in law.

In any case, the initiative of the Board regarding the incorporation of members by no means detracts from the sovereign power of the General Meeting to appoint and remove directors, or from any potential exercise by shareholders of their right to proportional representation.

The proposals for the appointment or re-election of Directors made by the Board of Directors, or by the Nomination and Remuneration Committee in appointments or re-elections of Independent Directors, must be based on a prior analysis of the needs of the Board, the results of which will be set out in the corresponding report by the Nomination and Remuneration Committee, to be published when calling the General Meeting at which the ratification, appointment or re-election of each director is to be submitted for approval.

B. Procedure for removal of Directors

The removal of Directors is regulated in Article 31 of the Regulations of the Board. See section C.1.19 of this Report in this respect.

Without prejudice to the initiative of the Board regarding the inclusion of its members, the General Meeting has sovereign power to resolve on the removal of Directors.

The Nomination and Remuneration Committee is competent to study, issue reports and prepare proposals for the removal of Directors of Ebro Foods, S.A.

Following a report by the Nomination and Remuneration Committee, the Board of Directors shall table a motion at the General Meeting of Shareholders for removal of the Director in question if the Director in question fails to resign in the circumstances contemplated in Article 31 of the Regulations of the Board.

If a Director retires from office before the end of their term, through resignation or on whatsoever other grounds, they shall explain the reasons to the other Board members and the Company shall state those reasons in the Annual Corporate Governance Report, as well as reporting the cessation in a regulatory announcement.

If a Director opts to resign following adoption by the Board of decisions on issues on which that Director has expressed qualifications or reservations in the sense contemplated in Article 32.5 below (".../...whenever they consider that some of the decisions proposed to the Board may go against the corporate interests and/or those of the shareholders not represented on the Board."), they shall explain the reasons as per the preceding paragraph.

The measures described in the preceding two paragraphs shall also be applicable to the Secretary of the Board, regardless of whether the secretary is a director.

C.1.17 Explain to what extent the annual assessment of the board has given rise to major changes in its internal organisation and the procedures applicable to its activities:

Description of changes

After completion in 2018 of the 2017 annual assessment of the Board, Committees and Chairman, made with assistance from an independent external adviser, the Company took the following measures, although it should be noted that none of them has given rise to any major changes in the Company's internal organisation or the procedures applicable to its activities:

1. Bring forward the times of Board meetings, at least when the agenda includes especially complex or important issues or matters which may, for any other reason, require a greater, more thorough debate among the Directors.
2. Schedule longer meetings of the Audit and Compliance Committee, at least when the agenda includes issues which are especially complex, require the participation of third parties or for any other reason, making a greater participation by Committee members foreseeable, with requests for explanations or greater detail in the reports and debates. In especially important cases, the Committee may meet one or two days before the date scheduled for the Board meeting, in order to debate at greater length and in greater depth, with extra time for reflection after the meeting. This will in turn allow better preparation of the business to be transacted and the conclusions, reports and proposals that the Committee is to submit to the Board of Directors.
3. Include meetings of the Strategy and Investment Committee in the annual calendar of meetings. These meetings should coincide, where necessary, with the meetings of the Executive Committee, every two or three months, both to prepare and define strategic plans and to follow up and monitor them. The report on business discussed at meetings of the Strategy and Investment Committee should be included as an item on the ordinary agenda for Board meetings.

Describe the process of assessment and the areas assessed by the board, assisted where necessary by an external consultant, on the performance and composition of the board and its committees and any other area or aspect that has been assessed.

Description of assessment process and areas assessed

A. Self-assessment process:

A self-assessment process is carried out every year on the Board, its Committees and the Executive Chairman of the Company. That process is based on (i) a report prepared by the Nomination and Remuneration Committee for presentation to the Board, (ii) the activity reports of the Audit and Compliance Committee and the Nomination and Remuneration Committee, and (iii) the resolutions adopted by the Board of Directors in view of the foregoing.

B. Methods used:

The following methods were used during the last assessment procedure made by the Company (assisted by an independent external adviser) during 2018, in respect of 2017:

- The Board members completed a questionnaire previously approved by the Nomination and Remuneration Committee with a number of questions in which they rated certain aspects regarding the composition, quality and efficiency of the Board procedures, the actions performed by the Chairman of the Board, who is at the same time the Chief Executive of the Company, and the procedure of the Executive Committee and other Board Committees.
- The replies to the questionnaires were kept by the Secretary and the external adviser who made the assessment. Both guaranteed confidentiality.
- In the light of the preliminary conclusions drawn from the answers and comments expressed by the Directors in those questionnaires, the external adviser conducted an interview with the Lead Independent Director at that time, José Ignacio Comenge Sánchez-Real, to discuss and qualify the results and obtain from the latter any aspects or matters that the Non-Executive Directors had mentioned to him in the contacts he had had with them.
- The independent external adviser issued an assessment report with all the information collected, and a proposed plan for improvement based on the conclusions of the report.
- The final assessment report and proposed plan for improvement were presented to the Board of Directors, once they had been checked and evaluated by the Nomination and Remuneration Committee.

C. Areas assessed:

- Composition of the Board and actions by the Directors: assessment on diversity, powers, the quantitative and qualitative composition of the Board and their perception of the performance by other Directors of their duties.
- Procedure of the Board: assessment of the functioning of the Board, frequency of meetings, procedure for calling meetings, remittance of documentation for the meetings and quality of those documents, transaction of business at Board meetings (segmented by subject matters) and the powers of the Board.
- Chairman of the Board: assessment of the dedication and actions by the Chairman, both as such and in his capacity as chief executive of the Company.
- Committees of the Board: assessment of the Directors' perception, from the Board, of the role of the Board Committees and perception of the members of the Board Committees on their functioning.

C.1.18 In any years in which an external consultant was called in to assist with assessment, describe any business relations between the consultant or any company in its group with the company or any other company in its group.

During 2018, the external consultant provided personnel selection services for various subsidiaries of the Ebro Foods Group, for a charge of 50 thousand euros.

C.1.19 State the events in which directors are obliged to step down.

The retirement and resignation of directors are regulated in Article 31 of the Regulations of the Board:

- Directors must step down at the end of the term for which they were appointed and in all other events stipulated in law, the Articles of Association and the Regulations of the Board.

- Directors must also tender their resignations and step down in the following cases:

a) When they are affected by one of the causes of incompatibility or disqualification established in law, the Articles of Association or the Regulations of the Board.

b) When they step down from the executive post to which their appointment as Director was linked, when the shareholder they represent on the Board disposes of all its shares in the Company or reduces its interest to an extent requiring a reduction in the number of Proprietary Directors and, in general, whenever the reasons for their appointment disappear.

c) When the Board, following a report by the Nomination and Remuneration Committee, considers that the Director has seriously defaulted his obligations or for reasons of corporate interest.

C.1.20 Are special majorities differing from those stipulated in law required for any type of decision?

Yes

No

If yes, describe the differences.

C.1.21 Are there any specific requirements, other than those established for directors, to be appointed chairman of the board?

Yes

No

C.1.22 Do the Articles of Association or Regulations of the Board establish an age limit for directors?

Yes

No

C.1.23 Do the Articles of Association or Regulations of the Board establish a limited term of office for independent directors other than as stipulated in law?

Yes

No

C.1.24 Do the Articles of Association or Regulations of the Board establish specific rules for the delegation of votes to other directors at board meetings, how they are to be delegated and, in particular, the maximum number of proxies that a director may hold, and whether any limitation has been established regarding the categories to which proxies may be granted, other than those established in law? If yes, include a brief description.

Both the Articles of Association (Article 24) and the Regulations of the Board (Article 20) contemplate the possibility of Directors attending Board meetings through a duly authorised proxy.

The proxy must be made in advance, in writing, specially for each Board meeting, in favour of another Director.

The represented Director may issue specific voting instructions for any or all of the items on the agenda.

Non-executive directors may only grant proxies to other non-executive directors.

No limit is established on the number of proxies any one Director may hold, nor is there any constraint on the categories to which proxies may be granted.

C.1.25 State the number of meetings held by the Board of Directors during the year, indicating, if appropriate, how many times the Board has met without the Chairman. Proxies made with specific instructions will be considered attendances.

Number of board meetings	11
Number of board meetings held without the chairman	0

Indicate the number of meetings held without the attendance or representation of any executive director and chaired by the lead independent director:

Number of meetings	0
--------------------	---

Indicate the number of meetings held by the different Committees of the Board:

Number of meetings of the Audit and Compliance Committee	8
Number of meetings of the Strategy and Investment Committee	3
Number of meetings of the Nomination and Remuneration Committee	11
Number of meetings of the Executive Committee	6

No issue was raised at the last meeting held on 17 December 2017 between the former Lead Independent Director and the Non-Executive Directors that required or recommended the holding of a further meeting in the first few months of 2018. Therefore, it was planned to hold the next meeting in the second half of 2018, unless anything were to arise in the meantime making it advisable to bring it forward.

That meeting finally did not take place owing to the appointment of Mercedes Costa García as new Lead Independent Director in November 2018, when her predecessor lost his status as Independent Director (see section C.1.3 of this Report). The new Lead Independent Director is expected to hold a formal meeting with the non-executive directors in the first half of 2019, once she has completed the logical adaptation process required by her appointment. This notwithstanding, she has informed the other Non-Executive Directors that she is prepared to discuss any business they may deem fit within her remit.

C.1.26 State the number of meetings held by the Board during the period attended by all its members:

Number of meetings attended by at least 80% of the directors	9
Attendance / total votes during the year (%)	91.72
Number of meetings attended by all the directors, in person or by proxies made with specific voting instructions	11
Votes cast with attendance in person or by proxies with specific instructions / total votes during the year (%)	100.00

In connection with the information provided in this section, it should be borne in mind that there were 12 Board members up to 13 December 2018 and 13 after that date.

C.1.27 Are the separate and consolidated annual accounts submitted to the Board for approval previously certified?

Yes

No

If yes, name the person(s) who certify the separate or consolidated annual accounts of the company before they are approved by the Board:

C.1.28 Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the separate and consolidated accounts laid before the General Meeting.

Relations with the auditors are expressly regulated in Article 43 of the Regulations of the Board.

The Board shall establish an objective, professional and continuous relationship with the external auditors of the Company appointed by the General Meeting, guaranteeing their independence and providing them with all the information they may require to perform their duties. This relationship and the relationship with the Internal Audit Manager shall be channelled through the Audit and Compliance Committee. Furthermore, the Board shall endeavour to draw up the Annual Accounts in such a way as to avoid a qualified Auditors' report.

Within the specific duties attributed to the Board in certain areas, Article 9 of the Regulations establishes that the Board shall see that the separate and consolidated Annual Accounts and Directors' Reports give a true and fair view of the equity, financial position and results of the Company, as stipulated in law, and each and all of the Directors shall have all the necessary information before signing the Annual Accounts.

Article 24.4 of the Regulations of the Board gives the Audit and Compliance Committee certain powers to ensure that the Annual Accounts are filed without a qualified auditors' report (see section C.2.4 of this Report).

Finally, there is a Risks Control and Management Policy established in the Group laying down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which the Company and other companies in its Group are exposed.

As regards the control of financial reporting, the Group has procedures in place for checking and authorising financial reporting and a description of the financial reporting internal control system (FRICS), responsibility for which lies with the Economic Department, the Risks Committee, the economic and finance departments of the different business units, the Audit and Compliance Committee and the Board. Financial information is checked and authorised by the Economic Department of the Group on the basis of the information confirmed in the different business units.

The information to be remitted to the market is supervised by the Audit and Compliance Committee and approved by the Board.

C.1.29 Is the Secretary of the Board a Director?

Yes

No

If the secretary is not a director, complete the following table:

Name of secretary	Representative
LUIS PEÑA PAZOS	

C.1.30 Describe the specific mechanisms established by the company to preserve the independence of the external auditors, if any; the mechanisms to preserve the independence of financial analysts, investment banks and rating agencies; and how the legal provisions are implemented.

A. With regard to the external auditors:

Both the Articles of Association and the Regulations of the Board vest in the Audit and Compliance Committee the power, among others, to contact the auditors and receive information on any issues that may jeopardise their independence, for examination by the Audit Committee, as well as any other issues relating to the auditing of accounts. The Committee shall also receive information from and exchange communications with the auditors in accordance with prevailing auditing standards and legislation, notwithstanding the ultimate responsibility of the Board of Directors, which, pursuant to Article 8.1.3.(a) of the Regulations of the Board, is responsible for ensuring the independence and professional suitability of the external auditor.

Article 43 of the Regulations of the Board addresses relations with the auditors, obliging the Board to establish an objective, professional, continuous relationship with the External Auditors of the Company appointed by the General Meeting, guaranteeing their independence and putting at their disposal all the information they may require to perform their duties. It further establishes that the aforesaid relationship with the External Auditors of the Company and the relationship with the Internal Audit Manager shall be conducted through the Audit and Compliance Committee.

Finally, Article 24.4 of the Regulations of the Board establishes the following powers of the Audit and Compliance Committee in this respect:

- Establish regular contact with the external auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the external auditors in accordance with prevailing auditing standards and legislation.

- Ensure the independence of the external auditors and the existence of a discussion procedure enabling the external auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the external auditors and any supplementary services they may have provided.

In accordance with the foregoing and through the Audit and Compliance Committee, the Company keeps a strict, constant watch for any circumstances that might affect the independence of the external auditors. Accordingly:

(i) The Audit and Compliance Committee issues an annual report on the independence of the external auditors, once the latter have provided the necessary information. That report is submitted to the Board of Directors and made available to shareholders as from the call to the General Meeting.

(ii) Constantly throughout the year, the Commission receives timely notification of any potential engagement of the external auditors to provide services in addition to auditing the annual accounts. In this regard, in February 2017 the Audit and Compliance Committee established a protocol (the "Protocol") for the notification, review and, if appropriate, authorisation of the potential contracting of the external auditors by any company in the Group for non-audit services. The protocol covers the "pre-approval" required for the events contemplated in Article 5(3) of Regulation EU 537/2014 and any other potential service.

B. With regard to relations with analysts, investment banks and rating agencies:

The Company has a Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors approved by the Board of Directors, and a Shareholder and Investor Relations Department, through which communications and information for investors in general are channelled.

Article 42 of the Regulations of the Board regulates the Company's relations with shareholders and the markets in general, providing that the Board of Directors shall take such measures as may be necessary to enable participation by shareholders in general meetings and organise meetings to inform the shareholders and investors (particularly institutional investors) on the progress of the Company and, where appropriate, its subsidiaries.

The Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors contemplates the following general principles applicable in this matter:

- Communication and relations with shareholders, institutional investors and proxy advisors shall be conducted in accordance with the principles of transparency, truth and permanent, adequate, timely reporting.

- The principle of non-discrimination and equal treatment is recognised for all shareholders who are in the same conditions and not affected by conflicts of interest or competence.

- The rights and legitimate interests of all shareholders shall be protected.

- Continuous, permanent communication with shareholders and investors shall be encouraged.

- Reporting and communication channels shall be established with shareholders and investors to ensure compliance with these principles.

The Company's Audit and Compliance Committee is responsible for overseeing compliance with the rules and principles set out in the Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors.

In accordance with the aforesaid Policy, the Investor Relations Department shall make sure that any information to be issued to the market, analysts or third parties is: (i) previously checked by the Audit and Compliance Committee and, where appropriate, approved by the Board of Directors; and (ii) always the same.

The Investor Relations Department ensures equal treatment (from the point of view of access to information) of all third parties, assisting those who so request in a professional manner so that those third parties can make such valuations and considerations as they may deem fit independently and according to their own criteria.

C.1.31 Indicate whether the external auditors have changed during the year. If so, name the incoming and outgoing auditors:

- Yes
 No

Explain any disagreements with the outgoing auditor:

- Yes
 No

C.1.32 State whether the firm of auditors does any work for the company and/or its group other than standard audit work and if so, declare the amount of the fees received for such work and the percentage it represents of the total fees invoiced to the company and/or its group:

- Yes
 No

	Company	Group companies	Total
Charge for non-audit work (thousand euros)	268	214	482
Charge for non-audit work / Total amount invoiced by auditors (%)	50.33	11.35	19.93

C.1.33 Indicate whether the auditors' report on the annual accounts of the previous year was qualified. If so, state the reasons given by the Chairman of the Audit Committee to explain the content and scope of the qualifications.

- Yes
 No

C.1.34 State the number of years in succession that the current firm of auditors has been auditing the annual accounts of the company and/or its group. Indicate the ratio of the number of years audited by the current auditors to the total number of years that the annual accounts have been audited:

	Separate	Consolidated
Number of years in succession	5	5

	Separate	Consolidated
Number of years audited by current auditors / Number of years that the company has been audited (%)	17.90	17.90

C.1.35 Indicate, with details if appropriate, whether there is an established procedure for directors to obtain sufficiently in advance any information they may need to prepare the meetings of the governing bodies:

- Yes
 No

Details of procedure

According to the obligations and duties assigned by law, the Articles of Association and the Regulations of the Board, the Secretary of the Board is responsible for channelling the relations between the Company and the Directors in all matters concerning the procedures of the Board of Directors and the Board Committees in which he participates, following instructions received from the respective Chairman, and for implement and foster exercise by the Directors of their right to information (Article 15.2(c) and (d) of the Regulations of the Board).

At each year-end, the Secretary of the Board sends all the Directors an annual calendar of meetings previously agreed among all the Directors, setting the dates and times of the meetings of the Board of Directors, Committees, General Meetings and meetings with analysts for the following year. That calendar is also sent to the different professionals of the Company involved in preparing the documentation and information for the Directors for each meeting, to enable them to plan their work and make sure that the corresponding information and documentation are prepared sufficiently before each meeting.

When the documentation for each meeting is complete, it is sent to the Secretary of the Board, who sends it to the Directors, if possible together with the notice of call to the meeting, or in highly justified cases, as soon as possible after sending the notice of call.

Finally, the opinions expressed by the Directors on the matter in the latest performance assessment of the Board of Directors, Chairman and Committees were as follows:

- Regarding the time prior to Board meetings that Directors receive the corresponding information: 58% of the Directors consider that time "Very adequate", 42% "Adequate" and 0% "Inadequate".

- Regarding the quality and quantity of the information distributed for monitoring of the Company's and Group's activities: 83% of the Directors consider it "Very adequate", 17% "Adequate" and 0% "Inadequate".

C.1.36 Indicate, with details if appropriate, whether the company has established any rules obliging Directors to report and, if necessary, retire in any situations that could be detrimental to the prestige and reputation of the company:

- Yes
 No

Explain the rules

Under the Regulations of the Board, Directors must step down and tender their resignations, among other cases, if the Board, in view of a report by the Nomination and Remuneration Committee, considers that a Director has seriously defaulted his obligations or that for reasons of corporate interest, which include any event in which a Director may have brought the Company into disrepute (Article 31.2.c).

The Regulations further stipulate that if a Director fails to tender his resignation when so obliged, the Board of Directors shall, subject to a report by the Nomination and Remuneration Committee, tender a motion to the General Meeting of Shareholders for his removal (Article 31.4).

C.1.37 Have any members of the Board informed the company that they have been sued or brought to trial for any of the offences contemplated in s. 213 of the Corporate Enterprises Act?

- Yes
 No

C.1.38 Describe any significant agreements entered into by the company that enter into force or are modified or terminated in the event of a takeover of the company following a takeover bid, and the effects thereof.

Most of the financing agreements signed by the Company include takeover clauses on the usual terms for this type of contract. By virtue of those provisions, the lender reserves the right to terminate the financing agreement in the event of a takeover of the Company. Although there is no universal definition of "takeover" for this purpose, the lender's right is triggered if there is a substantial change in the Company's significant shareholders.

C.1.39 Indicate individually for directors and globally in other cases, and describe in detail any agreements made between the company and its directors, executives or employees contemplating golden handshake clauses or any other indemnities in the event of resignation or unfair dismissal or termination of employment following a takeover bid or any other type of transaction.

Number of beneficiaries	2
Type of beneficiary	Description of agreement
Executives	Although the contracts of two executives contain golden handshake clauses for cases of dismissal or takeover, those clauses are no longer applicable, on their own terms.

State whether, apart from the cases contemplated in law, these contracts have to be notified to and/or approved by the governing bodies of the company/group companies. If yes, specify the procedures, events contemplated and nature of the bodies responsible for approval and notification:

	Board of Directors	General Meeting
Body authorising the clauses	√	
	Yes	No
Is the general meeting informed of the clauses?	√	

C.2. Committees of the Board

C.2.1 Give details of the different committees, their members and the proportion of executive, proprietary, independent and other non-executive directors in each committee:

Audit and Compliance Committee		
Name	Position	Category
MERCEDES COSTA GARCÍA	CHAIRMAN	Independent
CORPORACIÓN FINANCIERA ALBA, S.A.	MEMBER	Proprietary
FERNANDO CASTELLÓ CLEMENTE	MEMBER	Independent
GRUPO TRADIFÍN, S.L.	MEMBER	Proprietary
PEDRO ANTONIO ZORRERO CAMAS	MEMBER	Independent

% executive directors	0.00
% proprietary directors	40.00
% independent directors	60.00
% other non-executive directors	0.00

Explain the duties attributed to this committee, including any duties additional to those stipulated in law, and describe the procedures and rules of organisation and procedure. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

The Audit and Compliance Committee is governed by the applicable legal provisions, the specific rules on its composition, organisation, procedure and powers set out in Article 28.2 of the Articles of Association and Article 24 of the Regulations of the Board, and by the provisions on organisation and procedure common to all the Committees, set out in Article 22 of the Regulations of the Board.

This Committee has a minimum of three Directors and a maximum of five.

All the members must be Non-Executive Directors, at least most of whom must be Independent Directors and one of them will be appointed on the basis of their expertise and experience in accounting, auditing or both.

The Board shall appoint one of the Independent Directors on the Audit and Compliance Committee to chair that committee, subject to a report by the Nomination and Remuneration Committee. The Committee Chairman shall be replaced every four years and will become eligible for re-election one year after his retirement as such.

The Audit and Compliance Committee shall meet as and when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

In addition to the powers and duties established by law, the articles of association and regulations, the Audit and Compliance Committee has the duties of supervision, oversight, control and reporting to the Board of Directors established in Article 24.4 of the Regulations of the Board in each of the following areas:

- Risk management and internal control: supervise and promote internal control of the company and the risk management systems and submit recommendations to the Board for a decision on the risk management (including tax risks) and control policy and ensure the adequacy and effectiveness of the internal control systems in relation to the accounting principles and policies used to draw up the financial statements and annual accounts of the Company.
- Financial reporting and annual accounts: ensure that: (i) the systems used for preparing the financial statements and annual accounts conform to current laws and regulations and portray a true and fair view of the equity, financial position and results of the Company; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.
- Relations with the internal and external auditors: submit to the Board, to be tabled at the General Meeting, proposals for the selection, appointment, re-appointment and replacement of the company's External Auditors and their terms of contract, the scope of their commission and the renewal or revocation of their engagement; ensure the independence of the External Auditors, issuing an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the External Auditors and any supplementary services they may have provided.
- Intragroup transactions, related party transactions and conflicts of interest: supervise and report to the Board on intragroup and related party transactions of the company or subsidiaries and settle any conflicts of interest that may arise between the company or the group and its directors, executives and significant shareholders.
- Whistleblowing channel: investigate and solve any issues reported through that channel, paying special attention to those involving possible falsehood or misrepresentation in financial or accounting documents and possible fraud.
- Internal codes of conduct and corporate governance rules: oversee compliance and, in particular, supervise the implementation of and compliance with the internal regulations and codes applicable to the risk management and control systems relating to the financial reporting process.

During 2018, the Audit and Compliance Committee performed activities of supervision, control, monitoring and reporting to the Board of Directors in respect of the matters falling within its competence, including financial reporting, annual accounts, relations with the auditors, risk management (including tax risks) and control systems, related party transactions, conflicts of interest, whistleblowing channel and compliance.

The Company will issue a detailed report of all the activities performed by the Audit and Compliance Committee during 2018, which will be made available to all shareholders prior to the forthcoming AGM 2019.

Name the member(s) of the audit committee appointed on account of their expertise and experience in accounting, auditing or both and indicate the date of appointment of the chairman of this committee.

Explain the duties attributed to this committee and describe the procedures and rules of organisation and procedure. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

Article 28.4 of the Articles of Association stipulates that the Regulations of the Board shall also contemplate the existence of a Strategy and Investment Committee, on which any Directors may sit.

The composition, organisation and procedure of the Strategy and Investment Committee are governed by the provisions common to all the committees set out in Article 22 of the Regulations of the Board and the specific provisions established in Article 24 of the Articles of Association, its powers being regulated in Article 24.3.

This Committee has a minimum of three and a maximum of five Directors, including a Chairman, appointed by the Board of Directors subject to a report by the Nomination and Remuneration Committee.

Meetings are held when called by its Chairman or at the request of two of its members, and in any case whenever the Board of Directors requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The Committee is competent to study, issue reports, review and submit proposals for the Board on the following matters:

- setting of targets for growth, yield and market share;
- strategic development plans, new investments and restructuring processes;

- coordination with subsidiaries in the matters contemplated in paragraphs (a) and (b) above, for the common interests and benefit of the Company and its subsidiaries.

During 2018, the Strategy and Investment Committee monitored the Strategic Plan of the Ebro Foods Group 2016-2018, worked on preparation of the Strategic Plan of the Ebro Foods Group 2019-2021 and analysed possible investment strategies in different business lines.

Explain the duties attributed to this committee, including any duties additional to those stipulated in law, and describe the procedures and rules of organisation and procedure. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

The Nomination and Remuneration Committee is governed by the applicable legal provisions, the specific rules on composition, organisation and procedure established in Article 28.3 of the Articles of Association and Article 25 of the Regulations of the Board and the provisions on organisation and procedure common to all the committees set out in Article 22 of the Regulations of the Board.

The powers of the Nomination and Remuneration Committee are regulated in Article 25.4 of the Regulations of the Board, without prejudice to any others that may be assigned to it by law, the Articles of Association or the Regulations of the Board.

This Committee has a minimum of three and a maximum of five non-executive directors, at least two of which must be Independent Directors. The members are appointed by the Board of Directors.

The Board shall appoint one of the Independent Directors who are members of the Nomination and Remuneration Committee to chair it, subject to a report by that Committee.

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board of Directors requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

Pursuant to Article 25.4 of the Regulations of the Board, the Nomination and Remuneration Committee is competent to study, issue reports and submit proposals to the Board on the following matters:

- selection of candidates to join the Board of Directors;
- appointment of the Chairman, and Vice-Chairman if any, of the Board, Managing Director(s), Lead Independent Director and the Secretary, and Vice-Secretary if any, of the Board;
- succession of the Chairman and chief executive;
- appointment of Directors to the Committees of the Board of Directors;
- appointment and possible dismissal of senior executives and their termination benefit clauses;
- directors' emoluments, according to the system of remuneration established in the Articles of Association and the executive directors' relationship with the Company;

- remuneration of Directors and executives indexed to the value of the shares in the Company or its subsidiaries or consisting of the delivery of shares in the Company or its subsidiaries or the granting of options thereover;
- selection policy for Directors, targets for the representation of the least represented gender on the Board and issuance of guidelines on how to achieve them;
- remuneration policy for Directors and senior management of the Company and Group subsidiaries;
- management training, promotion and selection policy in the Company and Group subsidiaries;
- Annual Report on Directors' Remuneration.

With regard to the activities of the Nomination and Remuneration Committee during 2018, following the appropriate studies and assessments, the Committee has drawn up the proposals and issued the corresponding favourable reports to the Board of Directors in respect of the following: (i) appointments, ratifications and re-elections of Directors and their representatives, where appropriate, and their assignment to the different Committees of the Board of Directors, and appointment of a new Lead Independent Director; (ii) self-assessment procedure for the Board of Directors, Chairman and Committees for 2017; (iii) Directors' Remuneration Policy for 2019, 2020 and 2021; (iv) remuneration systems and remuneration of Directors, including the Executive Chairman, and of the key executives of the Company and Group; (v) Directors' Remuneration Report for 2018; and (vi) Share Delivery Plan for Group employees for 2018.

The Company will issue a detailed report of all the activities performed by the Nomination and Remuneration Committee during 2018, which will be made available to all shareholders prior to the forthcoming AGM 2019.

Executive Committee		
Name	Position	Category
ANTONIO HERNÁNDEZ CALLEJAS	CHAIRMAN	Executive

Explain the duties attributed to this committee and describe the procedures and rules of organisation and procedure. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

Articles 19 and 27 of the Articles of Association contemplate the delegation of powers of the Board of Directors to the Executive Committee.

The composition, organisation and procedure of the Executive Committee is governed by the provisions common to all the committees set out in Article 22 of the Regulations of the Board, and the specific regulations established in Article 28.1 of the Articles of Association and Article 23 of the Regulations of the Board.

The powers of this Committee are set out in Article 23.2 of the Regulations of the Board, without prejudice to what the Board may establish in its resolution to delegate powers.

The Executive Committee shall have no fewer than three nor more than seven members, including the Chairman and Vice-Chairman of the Board, who will form part of this Committee.

The Committee shall be presided by the Chairman of the Board. In general, one Executive Committee meeting will be held a month. Its meetings may be attended by such members of the management, employees and advisers of the Company as the Committee may deem fit.

Without prejudice to the autonomy of decision of the Executive Committee in respect of the delegated powers, its resolutions normally being fully valid and effective without ratification by the Board, if the Chairman or three members of the Committee consider this necessary in the circumstances, the resolutions adopted by the Executive Committee shall be submitted to the Board for ratification. This will also be applicable when the Board has delegated the Committee to study certain matters while reserving for itself the ultimate decision, in which case the Executive Committee shall merely submit the corresponding proposal to the Board.

During 2018, the Executive Committee assessed several investments, divestments and sales of assets, as well as the strategic decisions to be adopted in respect of the different business lines.

C.2.2 Complete the following table with information on the number of female directors on the board committees over the past four years:

	Number of female directors							
	2018		2017		2016		2015	
	No.	%	No.	%	No.	%	No.	%
Audit and Compliance Committee	2	40.00	3	60.00	2	40.00	1	25.00
Strategy and Investment Committee	0	0.00	0	0.00	0	0.00	0	0.00
Nomination and Remuneration Committee	3	60.00	2	50.00	1	25.00	1	25.00
Executive Committee	0	0.00	0	0.00	0	0.00	0	0.00

The percentage of female Directors on the Audit and Compliance Committee in 2018 indicated in this section C.2.2. has been calculated omitting Belén Barreiro Pérez-Pardo, who was a member of this Committee up to 19 December 2018.

C.2.3 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each committee.

In general, Article 28 of the Articles of Association establishes the basic regulation of the Committees of the Board, contemplating the existence and composition of: (i) the Executive Committee, (ii) the Audit and Compliance Committee and (iii) the Nomination and Remuneration Committee. It also refers to the Regulations of the Board regarding the possible existence of a Strategy and Investment Committee.

The Regulations of the Board regulate the Board committees in the following specific provisions:

- General provisions applicable to all the Committees: Article 22
- Executive Committee: Article 23
- Audit and Compliance Committee: Article 24
- Nomination and Remuneration Committee: Article 25
- Strategy and Investment Committee: Article 26

The Regulations of the Board also contemplate in different articles the powers of the different Committees of the Board in different areas (e.g. modification of the Regulations).

No changes were made during 2018 to the regulations of the Committees.

Both the Articles of Association and the Regulations of the Board are available for consultation on the Company's website (www.ebrofoods.es). The Regulations of the Board are also published and available for consultation on the website of the National Securities Market Commission (www.cnmv.es). Both texts are delivered to the Directors when they are appointed, together with the Regulations of the General Meeting, the Internal Code of Market Conduct, the Internal Code of Conduct and the Policies of the Ebro Foods Group.

Both the Audit and Compliance Committee and the Nomination and Remuneration Committee issue annual activity reports, which are submitted to the Board of Directors for its information and consideration within the assessment of the Board and its Committees. Those activity reports are made available for shareholders on the company's website coinciding with the call to the Annual General Meeting.

D. RELATED PARTY AND INTER-COMPANY TRANSACTIONS

D.1. Explain the procedure, if any, and competent bodies for approval of related party and inter-company transactions.

Apart from cases which, by law, require approval by the General Meeting, related party transactions are approved by the Board subject to a report by the Audit and Compliance Committee.

Article 24 of the Regulations of the Board establishes the power of the Audit and Compliance Committee to report to the Board prior to the adoption of any decisions on related party transactions submitted for its authorisation and to supervise and report to the Board on intragroup and related party transactions of the Company or subsidiaries of the Group.

With regard to related party transactions, Article 37.3 of the Regulations of the Board expressly establishes that other than in the cases in which this power is reserved by law to the General Meeting, any transactions made by the Company or Group companies with Directors, significant shareholders, other related parties or shareholders represented on the Board must be authorised by the Board. That authorisation is not necessary when the transactions meet all of the following three conditions:

- (i) they are made under contracts with standard terms and conditions applied "en masse" to numerous clients;
- (ii) they are made at prices or rates established generally by the supplier of the goods or provider of the services in question;
- (iii) the amount thereof does not exceed 1% of the Company's annual revenue.

General, prior authorisation by the Board, subject to a report by the Audit and Compliance Committee, for a line of transactions and their conditions will be sufficient for bilateral or recurring transactions made in the normal course of the company's business. Finally, in cases where urgent action is necessary, related party transactions may be authorised by the Executive Committee, subject to subsequent ratification by the Board.

Finally, the company makes intragroup transactions on arm's length terms, documenting them according to the requirements of the laws (essentially tax laws) in place in each jurisdiction. This is one of the practices required by the Risk Management and Control Policy established in the Ebro Group.

D.2. List any transactions for a significant amount or object between the company and/or companies in its group and significant shareholders of the company:

Name of significant shareholder	Name of company or group company	Relationship	Type of transaction	Amount (thousand euros)
SOCIEDAD ANÓNIMA DAMM	HERBA RICEMILLS, S.L.U.	Corporate	Sale of goods (finished or otherwise)	5,190
CORPORACIÓN ECONÓMICA DELTA, S.A.	EBRO FOODS, S.A.	Corporate	Dividends and other distributions	10,092

See section A-5 of this Report regarding the related party transaction between Sociedad Anónima Damm and Herba Ricemills, S.L.U. mentioned in this section D.2.

D.3. List any significant transactions for a significant amount or object between the company and/or companies in its group and the directors or executives of the company:

DEMETRIO CARCELLER ARCE	---	---	Dividends and other distributions	19

With regard to the transactions made with Instituto Hispánico del Arroz, S.A. and mentioned in this section C.3, the Directors Grupo Tradifin, S.L. and Heralianz Investing Group, S.L. each own 50% of Instituto Hispánico del Arroz, S.A., the parent of a Group with which the Ebro Foods Group habitually conducts commercial transactions on arm's length terms. The transactions made by the Ebro Foods Group with that company and its subsidiaries in 2018 have been reported for their total amount in this section as made with the related party Heralianz Investing Grupo, S.L. (Director), although they should also be considered related with the Director Grupo Tradifin, S.L. by virtue of its 50% interest in Instituto Hispánico del Arroz, S.A.

It should also be noted that during 2018 Ebro Foods, S.A. distributed a sum of 19 thousand euros as dividends to the executives listed in section C.1.14 of this Report.

- D.4.** Report any significant transactions with other companies in the group that are not eliminated in the consolidated financial statements and which, by virtue of their object or terms, do not correspond to the normal business of the Company.

In any case, inform on any inter-company transaction with companies established in countries or territories considered tax havens:

Name of group company	Brief description of the transaction	Amount (thousand euros)
No details		N/A

Ebro Foods, S.A. has a 40% interest in Riso Scotti S.p.A., an associate consolidated by the equity method.

Riso Scotti S.p.A. is an Italian company with business activities similar to the objects of Ebro Foods, S.A.

The transactions made from 1 January to 31 December 2018 between companies in the Ebro Group and Riso Scotti (associate that is not part of the Ebro Group) are indicated below:

- Purchase of goods (finished or otherwise): 1,330 thousand euros
- Sale of goods (finished or otherwise): 3,236 thousand euros
- Services rendered (income): 8 thousand euros.

- D.5.** Report any significant transactions made between the company or group companies with other related parties that have not been reported in the preceding sections:

Name of related party	Brief description of the transaction	Amount (thousand euros)
FÉLIX HERNÁNDEZ CALLEJAS	Services rendered (income) between a subsidiary of the Ebro Foods Group and Hernández Barrera Servicios, S.A.	4
FÉLIX HERNÁNDEZ CALLEJAS	Services received (expense) between a subsidiary of the Ebro Foods Group and Hernández Barrera Servicios, S.A.	293

Hernández Barrera Servicios, S.A. is closely related to Félix Hernández Callejas, the individual representing the Director Herculanz Investing Group, S.L. on the Board of Directors of Ebro Foods, S.A.

- D.6.** Describe the mechanisms established to detect, define and resolve possible conflicts of interest between the company and/or its group, and its directors, executives or significant shareholders.

Apart from the powers of the General Meeting and the Board of Directors on conflicts of interest of the Directors, under Article 24 of the Regulations of the Board, the Audit and Compliance Committee has the power to settle any conflicts of interest that may arise between the company or the group and its Directors, executives, significant shareholders and listed subsidiaries, if any.

With regard to the Directors, Article 36 of the Regulations of the Board provides that Directors may not perform activities for their own or third party account that effectively or potentially compete with the Company or which otherwise puts them in a permanent conflict of interest with the company; and Article 37.1 establishes the obligation of Directors to take such measures as may be necessary to avoid situations in which their interests, for their own or third party account, may conflict with the corporate interests and their duties to the Company.

For this purpose, Article 38 of the Regulations of the Board stipulates that Directors shall inform the Board of any direct or indirect conflict of interest that they or any of their related parties may have with the Company. Furthermore, pursuant to Article 32.4 of the Regulations of the Board, Directors shall abstain from participating in the corresponding debates and voting on resolutions or decisions in which they or any person related to them has a direct or indirect conflict of interest, except in the cases in which they are authorised by law to participate in the discussion and voting.

Rule 13 of the current Internal Code of Market Conduct stipulates that any Relevant Persons (Directors, senior executives and their closely related parties) who are or may be in a conflict of interest shall:

- (i) inform the Compliance Unit of their situation;
- (ii) abstain from participating in or influencing any decisions on the matters affected by the conflict;
- (iii) act with freedom of judgement, loyalty to the Company and its shareholders and independently of their own interests;
- (iv) abstain from requesting or having access to any information or documentation related with the conflict of interest.

It also provides that the Audit and Compliance Committee, assisted by the Compliance Unit, shall make such decisions as may be necessary in respect of any conflicts of interest that may arise.

Without prejudice to their obligation to inform, both the Directors (and in the case of corporate directors, also their representatives on the Board) and the significant shareholders of the Company are asked each year, when drawing up the Annual Accounts and preparing the Annual Corporate Governance Report, to confirm: (i) any transactions that they may have made with the Company and/or other companies in the Group, (ii) their engagement in activities similar or complementary to those included in the company's objects, and (iii) that there have been no other conflicts of interest during the year.

D.7. Is more than one company of the Group listed in Spain?

- Yes
 No

E. RISK MANAGEMENT AND CONTROL SYSTEMS

E.1. Explain the scope of the company's Risk Management and Control System, including tax risks:

As an integral part of the corporate policies passed by the Board, the Risk Management and Control Policy lays down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which Ebro Foods, S.A. and other companies in its Group are exposed.

Within this general framework, the integral, homogenous Risk Management and Control System is based on the preparation of a business risk map, through which, by pinpointing, assessing and grading of the risk management capacity, the risks are ranked from greater to lesser impact for the Group and by probability of occurrence. The risk map also identifies methods for mitigating or neutralising the risks detected.

The risk universe is structured in four main groups: compliance, operational, strategic and financial, and they are all subdivided into a large number of categories.

The risk classification process dynamically assesses both the inherent risk and the residual risk after application of the internal controls and action protocols established to mitigate them. These controls include preventive controls, adequate separation of duties, clear levels of authorisation and definition of policies and procedures. These controls can in turn be grouped into manual and automatic, made by data processing applications.

This model is both qualitative and quantitative and can be measured in the Group's results, for which purpose the risk level is considered acceptable or tolerable on a corporate level.

The Risk Management and Control System is dynamic, so the risks to be considered will vary according to the circumstances in which the Group's business is performed.

E.2. Name the corporate bodies responsible for preparing and implementing the Risk Management and Control System, including tax risks:

The Risk (including tax risks) Management and Control System and control of financial reporting is based essentially on the following structure:

- The Board of Directors, as ultimately responsible, defines the policy for control and management of risks, including tax risks, and control of financial reporting. Article 17.3 of the Regulations of the Board provides that the Board shall receive information on the most important aspects of business management and any foreseeable risk situations for the Company and its subsidiaries, together with the actions proposed by the senior management in respect thereof.
- The Audit and Compliance Committee, through the Risks Committee, performs the duties of oversight and monitoring of the financial reporting and risk control systems, reporting regularly to the Board on any significant aspects arising in these areas. It is responsible for supervising and promoting internal control of the Group and the risk management systems and submitting recommendations to the Board on the risk control and management policy and possible mitigation measures in those areas.
- The Risks Committee, based on the policy established by the Board of Directors and under the supervision of and reporting to the Audit and Compliance Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and control of the Group's financial reporting. The Risks Committee also analyses and assesses the risks associated with new investments.
- The Management Committees of the core business units of the Group, on which the Chairman of the Board and the Chief Operating Officer (COO) sit, assess the risks and decide on mitigation measures.
- Risk officers of the core business units of the Group. The Risks Committee designates individuals in the major subsidiaries to monitor the systems for management and control of risks (including tax risks) and financial reporting and report to the Committee.
- Internal Audit Department. Within the internal audits of the different subsidiaries, the Company's Internal Audit Department checks that the testing and control of the financial reporting and risk management systems have been performed adequately in accordance with the indications by the Risks Committee.

- E.3.** Define the main risks, including tax risks and, to the extent that they may be significant, those deriving from corruption (the latter within the scope of Royal Decree Law 18/2017), that could have a bearing on achievement of the company's business goals:

The main risks that might have a bearing on achievement of the business goals set by the Ebro Foods Group are listed below and explained in greater detail in Explanatory Note Three in section H of this Report.

A. OPERATIONAL RISKS:

- Food safety risk
- Commodity supply risk
- Market risk (prices) risk
- Customer concentration risk
- Technological risk

B. RISKS RELATED WITH THE ENVIRONMENT AND STRATEGY:

- Environmental risk
- Climate risk
- Competition risk
- Reputational risk
- Changes in lifestyle
- Country or market risk
- Natural disasters, fires
- Strategic planning and assessment of strategic opportunities for investment or divestment

C. COMPLIANCE RISKS:

- Sectoral regulatory risk
- General regulatory risk
- Tax risks

D. FINANCIAL RISKS:

- Foreign exchange risk
- Interest rate risk
- Liquidity risk
- Credit risk

- E.4.** State whether the company has a risk tolerance level, including one for tax risks:

Risks are measured by both inherent and residual risk.

A scorecard is made each year of the principal ten risks to which the Group may be exposed (the TOP TEN), which are rated and measured as far as possible. If the economic consequences of a risk could cause a loss (or a loss of profit) of more than 5% of the consolidated EBITDA budgeted, or over 20% of the individual EBITDA of a business, it is considered a threat requiring corporate action.

In general, the heads of the different business units (the Management Committee of each unit) define the risks affecting their respective businesses, assess the possible economic impact of those risks and, according to the specific circumstances prevailing, establish whatever mitigation measures they deem fit.

Without prejudice to the supervision by the Risks Committee and Audit Committee, the Management Committee of each unit implements and monitors the mitigation measures taken and assesses the results thereof.

This notwithstanding, when a threat is identified that requires action on a corporate level (as mentioned in the first paragraph above), the persons responsible for risk management and control in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as they may consider adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit.

E.5. What risks, including tax risks, have occurred during the year?

The following risks occurred within the Ebro Group during 2017, further details of which are provided in Explanatory Note Four in Section H of this Report:

- Food safety risk
- Supply risks
- Country risk
- Competition / market risk
- Regulatory and reputational risk

E.6. Explain the response and supervision plans for the main risks, including tax risks, to which the company is exposed and the procedures followed to ensure that the board of directors provides solutions for any new challenges that may arise:

The management committee in each subsidiary is responsible for monitoring the subsidiary's risk supervision system. Management committees usually meet monthly to analyse any risks that may have materialised and follow up the contingency plans and actions taken to mitigate them. Control and monitoring of the economic variables in each subsidiary against the corresponding budget also ensures the immediate detection of unforeseen risk situations. The subsidiaries with greatest weight within the Group, such as the North American subsidiaries, have "Crisis Management Plans" (CMP), which specify the main risks to which the company is exposed, the protocols for responding to them and the company officers responsible for implementation.

This notwithstanding, when a threat is identified that requires action on a corporate level (see section E.4), the persons responsible for risk management and control in the corresponding unit must inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit. The Risks Committee reports regularly to the Audit and Compliance Committee on the actions taken and plans proposed and the latter in turn reports on all this to the Board of Directors.

The measures to control, reduce and, as the case may be, mitigate the risks are established according to the following basic criteria:

- They shall seek to neutralise the risk detected, maintaining coherence between the importance of the risk and the cost and means required to neutralise it.
- If neutralisation is not feasible, measures shall be designed to reduce the potential economic consequences, if possible to within tolerance levels.
- The management and control shall, as far as possible, forestall rather than remedy.
- The control mechanisms shall adequately separate management and oversight.
- The different people responsible for risk management shall coordinate their actions to be efficient, seeking the utmost integration between control systems.
- Maximum transparency shall be ensured in the identification and assessment of risks, specification and implementation of mitigation measures and assessment of the results of those measures.
- Compliance must be guaranteed with the requirements of internal reporting to the bodies responsible for supervision and control.

F. INTERNAL RISK MANAGEMENT AND CONTROL SYSTEMS FOR FINANCIAL REPORTING (FRICS)

Describe the mechanisms comprising the financial reporting internal control and risk management systems (FRICS) of your company.

F.1. Control environment

Report on at least the following, describing their principal features:

F.1.1 What bodies and/or units are responsible for: (i) the existence and maintenance of an adequate and effective FRICS, (ii) its implementation and (iii) its oversight?

As established in its Regulations, the Board of Directors is ultimately responsible for the existence, maintenance and oversight of an adequate, effective internal control system for the company's financial reporting (FRICS).

The Audit and Compliance Committee is responsible for: (i) supervising and promoting the procedures and systems used to prepare and control the company's financial reporting; (ii) checking any public financial information; and (iii) ensuring implementation of and compliance with the internal regulations and codes applicable to the risk management and control systems in relation to the financial reporting process.

The Management Committee is responsible for the design, implementation and functioning of the FRICS through the Group Finance Department and the Finance Departments of the different business units. The different general managements are responsible for effective implementation of these systems within their respective areas of activity. There are also officers responsible for the different processes documented within the FRICS, who must ensure that those processes are kept up to date, informing the Risks Committee, through the finance department and general management of the corresponding business unit, of any modifications or adaptations required.

The Risks Committee, reporting to the Audit and Compliance Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and controlling the Group's financial reporting.

F.1.2 State whether the following elements exist, especially in respect of the financial reporting process:

Departments and/or mechanisms responsible for: (i) designing and reviewing the organisational structure; (ii) clearly defining the lines of responsibility and authority, with an adequate distribution of tasks and duties; and (iii) ensuring that there are sufficient procedures for adequately informing the company:

As established in its Regulations, the Board of Directors is responsible for defining the general strategy and guidelines for management of the Company and its Group and encouraging and supervising the actions taken by the senior officers, establishing an organisational structure that will guarantee the utmost efficiency of the senior management and the management team in general.

According to the Regulations of the Board, the Nomination and Remuneration Committee is responsible for checking the criteria followed regarding the composition and structure of the Board and for selecting candidates for the Board. It also nominates the Chairman, CEO or managing director(s) and Secretary of the Board and proposes the assignment of Directors to the different Board Committees.

In turn, under the policies approved by the Board, the Nomination and Remuneration Committee supervises the senior executive remuneration and incentives policy.

Within each group company, the organisational structure of the units participating in the preparation of financial reporting depends on several factors, such as the volume of operations or type of business, but in all cases it corresponds to the need to cover the main duties of recording, preparing, checking and reporting the operations performed and the economic and financial position of the company. The Executive Chairman, Chief Operating Officer (COO) and executives of the different business units of the Ebro Foods Group participate actively in the management committees of the Group's subsidiaries, thereby ensuring direct communication through the lines of responsibility and authority.

The senior management and the human resources departments of the Group and each of the Group subsidiaries are responsible for designing the organisational structure according to local needs. The most important subsidiaries have organisation charts that include a description of the duties and responsibilities of the main areas participating in the internal control of financial reporting.

The different job descriptions of positions and responsibilities are maintained by the Human Resources Department of each subsidiary and the management of all the subsidiaries, especially the financial management, are informed of any new member of a subsidiary.

- Code of conduct, body responsible for its approval, degree of publicity and instruction, principles and values included (stating whether there is any specific mention of the recording of transactions and preparation of financial reporting), body responsible for analysing default and proposing corrective measures and penalties:

The Code of Conduct of the Ebro Group, an update of the earlier Codes of Ethics and Conduct drawn up by the Ebro Foods Group in 2003, 2008 and 2012, was approved by the board on 25 November 2015 and all levels of the organisation were notified.

The Code of Conduct provides guidance on how to act in the Group's internal and external relationships, strengthening the values that distinguish us and establishing a basic reference to be followed by the Group.

The Code aims to:

- Be a formal, institutional reference for personal and professional conduct
- Guarantee the responsible, ethical behaviour of all the Group's professionals in their work
- Reduce the element of subjectivity in personal interpretations of moral and ethical principles
- Create a standardisation tool to guarantee progressive implementation throughout the Group of the ten principles of the UN Global Compact
- Grow responsibly and committed to all our stakeholders.

As established in the Code of Conduct, the Group assumes a principle of conduct based on transparent reporting, consisting of an undertaking to report reliable financial, accounting or other information to the markets. Accordingly, the company's internal and external financial reporting will give a true and fair view of its real economic, financial and equity situation according to generally accepted accounting principles.

Employees formally sign the Code of Conduct when they join the workforce of most Group companies and all new Group employees during the year were informed and given a copy of the Code.

The Code of Conduct is published in the Intranet, where it can be consulted by any employee, and on the Group's website.

The Audit and Compliance Committee is responsible for monitoring and controlling application of the Code. The Compliance Unit, which has sufficient initiative, autonomy and resources, is responsible, among other duties, for assisting the Audit and Compliance Committee in the supervision of compliance, publication and interpretation of the Code of Conduct.

Ebro Foods, through its Secretary, has an e-mail address to which any Group employee may send queries and suggestions regarding the interpretation of the Code of Conduct.

The Audit and Compliance Committee reports regularly to the Group's Board of Directors on any queries raised in respect of the interpretation and application of the Code of Conduct, how they have been solved and, where appropriate, the interpretation criteria followed.

The Code of Conduct provides that any violation or breach of the Code that is classified as a labour offence shall be penalised according to the labour laws, without prejudice to any other liability that the infringer may incur and the remedial measures that may be established by the different Group companies in pursuance of prevailing laws. On a Group level, the Audit and Compliance Committee, assisted by the Compliance Unit, shall receive reports of any violation of the Code of Conduct and act accordingly.

Whistleblowing channel, through which the audit committee can be informed of any financial or accounting irregularities, any breaches of the code of conduct and any irregular activities within the organisation, indicating whether this channel is confidential:

As established in the Regulations of the Board, the Audit and Compliance Committee is formally responsible for implementing a confidential whistleblowing channel accessible to all Group employees and defining a protocol for prioritising, processing, investigating and settling reports according to their importance and nature, especially any concerning possible financial or accounting misrepresentations.

For this purpose, in its Code of Conduct the Ebro Group has established a whistleblowing channel, through which any irregular conduct in financial, accounting or other areas and any breach of the code of conduct can be reported confidentially.

Through that whistleblowing channel, therefore, any employees may report whatever conduct they may consider necessary and contact the Chairman of the Audit and Compliance Committee directly to inform on potential breaches. Access to that e-mail account, technologically protected to prevent any unauthorised access, is limited exclusively to the Chairman of the Audit and Compliance Committee who, as an Independent Director, has no relationship with the management structure of the Group.

The Audit and Compliance Committee guarantees the confidentiality of the reports handled, according to a confidentiality commitment signed by all those involved in handling the reports and other precautions included in the "Report Handling Protocol". That protocol, approved by the Audit and Compliance Committee in 2012, establishes the procedure to be followed on receiving reports, regarding their processing, prioritising, solving and notification.

Training programmes and regular refresher courses for employees involved in the preparation and checking of financial information and evaluation by the FRICS, covering at least accounting and auditing standards, internal control and risk management:

The Ebro Group has a policy of making sure it has personnel with sufficient training and experience to perform the duties and responsibilities assigned to them. The Ebro employees involved in the preparation and checking of the financial information and FRICS appraisal participate in training and refresher courses regarding the laws and standards in place from time to time and good practices to guarantee the reliability of the financial information generated.

The Ebro Group also encourages and provides means and resources for its employees to keep their accounting knowledge up to date through the attendance of seminars, on-line information and other means, and regular meetings are held with the external auditors to assess in advance the standards in place or those about to enter into force.

During the year the Ebro Group has focused its training for personnel involved in the preparation and checking of financial information and FRICS appraisal on the following aspects:

- Accounting updates
- Management and control of costs for business decision-making
- Training in the tax laws in different countries
- Financial Reporting Internal Control System Manual

In addition, the external auditors of the Company and its Group regularly attend the meetings of the Audit and Compliance Committee to give training on the principal novelties in accounting and auditing, especially those that have or may have a greater effect on the Group's accounts.

F.2. Measurement of risks in financial reporting

Report at least on:

F.2.1 The main features of the risk identification process, including risks of error or fraud, in respect of:

Whether the process exists and is documented:

Within the risk management and control policy approved by the Board, the financial reporting internal control system is supervised by the Audit and Compliance Committee, assisted by the Risks Committee and the Group Finance Department.

The potential risk events that could affect the organisation are identified and assessed through the financial reporting internal control system, pinpointing and assessing the risks corresponding to each line of business. Through this risk control and management system, the Ebro Group has drawn up a consolidated risk map by compiling and combining the risk maps of its major subsidiaries.

This process is coordinated by the Risks Committee, which manages and establishes the permitted tolerance to the risk and coordinates actions to align the measures addressing risks with the Group's global risk policy so that the exposure to risk assumed by the Ebro Group overall is known at all times.

Based on the results obtained, systems are devised for addressing risks and internal control, to keep the likelihood and impact of those risks on financial reporting within the tolerance levels, thereby providing reasonable certainty regarding achievement of the strategic business goals.

- Whether the process covers all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations), whether it is updated and how often:

The Ebro Group has established a continuous improvement process to minimise the risks related with financial reporting by improving the design and effectiveness of existing controls.

For this purpose, it has a process identifying the risks affecting the reliability of financial reporting, based on and beginning with a definition of the scope, according to quantitative criteria of materiality in respect of the consolidated amounts and other qualitative criteria (error, fraud, uncommon transactions, etc.). Companies in the major business units or divisions that meet any of the afore-mentioned criteria and the material accounting items of each one are defined according to those criteria. Once the material items have been defined on a company level, the processes and sub-processes they affect are established, according to a relationship matrix.

For each of the sub-processes included within the scope, the inherent risks and the checks made by the responsible persons to mitigate those risks are identified, setting this information down in a Risks-Controls Matrix. Those risks take account of all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations).

The financial reporting risks are identified in the Ebro Group's Risks-Controls Matrix and updated to take account of any changes in the scope of consolidation of the Group or development of its business and their reflection in the financial statements, making a comparative analysis every year of the variations in material processes and sub-processes to establish any risks that have not been previously identified.

- The existence of a process for defining the scope of consolidation, taking into account, among other aspects, the possible existence of complex corporate structures, base companies or special purpose vehicles:

The Ebro Group has a process based on internal regulations that guarantees the correct identification of the scope of consolidation through an adequate separation of duties in the requesting, authorising, reporting and recording of any operation entailing the incorporation, merger, division, acquisition or sale of companies and any other corporate operation, directly involving the Legal Department and the Board of Directors.

This process considers the possible existence of complex corporate structures, base companies or special purpose vehicles, among other means by establishing an adequate structure to separate the duties of requesting, authorising and reporting for any corporate operation within the Group. No transactions or complex corporate structures that might entail off-balance sheet transactions that should be recorded within the reporting period were identified this year.

- Whether the process takes into account the effects of other types of risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) insofar as they affect the financial statements:

The Risk Management and Control System of the Ebro Group is designed to identify potential risk events that might affect the organisation. At present there are four types of risks: Operating, Compliance, Strategic and Financial, and the conclusions are taken into account insofar as the risks may affect financial reporting. For this purpose, the Risks Committee acts as a unit of coordination and interrelation of the effect of the risks detected on the different areas (management, business, financial reporting, legal, reputational etc. risks).

- Which governing body of the company supervises the process:

While the Board has the power, which it may not delegate, to determine the policy for control and management of risks, including tax risks, and supervision of the internal control and reporting systems, the Audit and Compliance Committee is responsible for supervising and promoting the procedures and systems used to prepare and control the Company and Group financial reporting, and controlling the implementation of and compliance with the risk management and control systems, both in general and in respect of the financial reporting process.

F.3. Control activities

Inform whether the company has at least the following, describing their main features:

- F.3.1 Procedures for checking and authorising financial information to be published on the stock markets and description of the FRICS, indicating who is responsible for these tasks, and documentation describing the flows of activities and controls (including those checking for the risk of fraud) in the different types of transactions that may have a material effect on the financial statements, including the procedure for closing of accounts and the specific review of judgements, estimates, valuations and significant projections

The priorities established within the Ebro Group include the quality and reliability of the financial information, both internal information for decision-making and external information published for the markets. The information to be provided by the different units is requested by the Group financial department, paying special attention to the processes of closing the accounts, consolidation, measurement of intangibles and areas subject to judgement and estimates.

The Ebro Group has procedures for checking and authorising the financial information and description of the FRICS, responsibility for which corresponds to the Financial Department, the Risks Committee, the Audit and Compliance Committee and the Board of Directors.

The Audit and Compliance Committee checks and analyses the financial statements and any other important financial information, as well as the principal judgements, estimates and projections included and discusses them with the corporate financial department and the internal and external auditors to confirm that the information is complete and the principles applied are consistent with those of the previous full-year accounts.

The procedure for checking and authorising the financial information corresponds to the Group financial department, based on the information checked and validated by the different units. The Audit and Compliance Committee supervises this information to be published on the market and it is approved by the Board of Directors.

The Group has implemented a process to enhance the quality and quantity of documentation and make the generation of financial information and its subsequent supervision more effective and efficient.

The significant processes involved in the generation of the Group financial reporting are documented based on the COSO internal control model. The main processes documented are:

- Closing of Financial Statements and Reporting
- Consolidation
- Sales and Receivables
- Purchases and Payables
- Fixed Assets
- Inventories
- Payroll

The documentation outline is extended progressively, according to the materiality and the general criteria established in the Group's financial reporting internal control system.

The persons responsible for each of the documented processes in each subsidiary have been identified. They are responsible for keeping those processes up to date on an annual basis, reporting any modifications or adaptations to the Risks Committee through the Group's financial department.

Process documentation includes details of the flows and transactions and the financial reporting objectives and controls established to ensure they are met. It also contemplates the risks of error and/or fraud that might affect the financial reporting objectives. The documentation of flows of activities and controls that may have a material effect on the financial statements, including the accounts closing procedure, includes the preparation of narratives on the processes, flow charts and risk and control matrices. The controls identified are both preventive and detective, manual or automatic, describing also their frequency and associated information systems.

- F.3.2 Internal control procedures and policies for the IT systems (including access security, track changes, operation, operating continuity and separation of duties) used for the significant processes of the company in the preparation and publication of financial information

The Group has rules for managing financial information security. Those rules are applicable to the systems used to generate financial information and the IT Department is responsible for defining and proposing the security policies.

Within its policies and infrastructure management the Ebro Group has procedures to secure each of the following points:

i) Both physical and logical access are controlled to ensure that only authorised internal and external personnel can access the Ebro centres and systems. Ebro has several Data Centres, the main one in Spain where the company's critical systems are housed. The major subsidiaries also have local data centres. They all have their own infrastructure to guarantee adequate control of access to the installations. In small subsidiaries, the general rule is to have external service providers to provide that security. When external service providers are used, the Ebro Group makes internal audits of the information systems and their architecture, including the security aspect.

Logical access control is secured with efficient management of access to our systems, whether internal or external, and through a user management coordinated with the human resources department and the company's group of managers. Ebro has user access control systems and workflow tools to guarantee inter-departmental integration and efficient updating of user status, regularly identifying those who no longer access the systems. Ebro Foods is in the process of implementing a system to control the separation of duties and access to critical functions of the SAP GRC SoD system. This system is already operational in the major subsidiaries of the Group and its implementation programme contemplates extension to all the important subsidiaries of the Ebro Foods Group.

External access is guaranteed through specific users and controlled management. The necessary elements have also been provided on a network level to ensure that only authorised users and processes have access from outside.

ii) The larger subsidiaries mainly use the ERP SAP system. In all those cases, Ebro has procedures underpinned by systems that systematically filter, assess, manage the life cycle and inform on production changes after acceptance by specific users and impact analysis in the systems currently used in production.

iii) The separation of duties is underpinned by the use of roles by groups of users, which allow access only to the information and transactions previously approved by the organisation. The modification or creation of new roles is backed by the same procedure that guarantees management of the user life cycle and is applicable to the major companies of the Ebro Group. Special attention is paid to separation in IT support processes to make sure that the tasks of development, sending to production and administration of the system are duly separated. In addition, as mentioned above, Ebro Foods is in the process of implementing the SAP GRC SoD system throughout the Group, ensuring adequate access control, separation of duties, anti-fraud elements within ERP and mitigating measures where necessary.

iv) Ebro has internal tools which, combined with the user support departments and systems (Help Desks), guarantee the management and traceability of any incidents in the IT systems. Programme changes are managed within that system, which is based on ITIL best practices and management.

The critical information systems are always housed in our data centres and there are individuals assigned to each one who are responsible for proactive monitoring of the automatic processes and proactive assessment of the yield and functioning of the systems.

Ebro has global contracts with security control tool providers, which guarantee the installation of such tools in all the computer and data processing equipment used in the company.

v) Ebro has tools to guarantee the continuity of business support by its IT systems in the event of a fatal error or system crash. There are backup systems and policies in its data centres that guarantee access to information and systems in case of a crash. The use of tape or disk backups and replicating the information in several computers with subsequent triangular distribution are habitual procedures for making incremental or complete backup copies. The current systems allow recovery of the information up to the specific time of the fatal error or system crash.

F.3.3 Internal control procedures and policies to oversee the management of outsourced activities and any aspects of valuation, calculation or measurement commissioned to independent experts, which may have a material impact on the financial statements

In general, the Ebro Group manages all activities that may have a material impact on the reliability of the financial statements, using internal resources to avoid outsourcing. There are very few outsourced activities and the procedures and controls of those activities are regulated in the contracts signed with the service providers in question.

The valuation, calculation or measurement activities commissioned by the Ebro Group to independent experts are mainly concerned with the appraisal of properties, actuarial studies of employee benefits and impairment testing of intangibles.

Only service providers of internationally recognised standing are used for these valuation reports, making sure that they are not affected by any circumstance or event that could compromise their independence.

The reports obtained from these firms are submitted to internal review to check that the most significant assumptions and hypotheses used are correct and that they comply with the International Valuation Standards (IVS) and International Financial Reporting Standards (IFRS). Furthermore, the valuation processes and the hypotheses and assumptions used by independent experts are reported to and considered by the external auditors of the Company and its Group.

F.4. Information and communication

Inform whether the company has at least the following, describing their main features:

- F.4.1 A specific department responsible for defining the accounting policies and keeping them up to date (accounting policy department or division) and solving queries or conflicts deriving from their interpretation, maintaining fluent communication with those responsible for operations in the organisation, as well as an updated accounting policy manual distributed among the units through which the company operates

The Ebro Group has adequate procedures and mechanisms to inform the employees involved in the preparation of financial information on the applicable criteria and the IT systems used in that preparation. This is done through the Management Control Unit and the Corporate Financial Department, whose powers include the following, among others:

- Define, administer, update and report on the Group's accounting policies, in compliance with the applicable accounting standards and rules of consolidation for the preparation and presentation of financial information to be disclosed.
- Prepare, update and report on the Accounting Policy Manual to be applied by all financial units in the Group. This manual is updated regularly.
- Settle any queries or conflicts regarding the interpretation and application of the accounting policies, maintaining fluent communication with those responsible for these operations in the organisation.
- Define and create templates, formats and criteria to be used for preparing and reporting the financial information. All financial information distributed on the markets is prepared by consolidating the reports of the different business units, prepared using mechanisms for data input, preparation and presentation that are homogenous for the entire Group. These mechanisms are designed to enable compliance with the standards applicable to the principal financial statements, including accounting criteria, valuation rules and presentation formats, and embrace not only the balance sheet, profit and loss account, statement of changes in equity and statement of cash flows, but also the obtaining of other information that is necessary to prepare the notes to the financial statements.

- F.4.2 Mechanisms for collecting and preparing financial information with homogenous formats, applied and used by all business units in the company or group, valid for the main financial statements and notes, and the information given on the FRICS

The Group's financial information is prepared using a process of aggregating separate financial statements at source for subsequent consolidation according to the applicable accounting and consolidation standards, to obtain the consolidated financial information to be presented monthly to the Board and published periodically on the markets.

The process of aggregation and consolidation of the Group's financial statements is based on homogenous, common format templates that include different tables and reports to be completed. They also have automatic internal controls to check the integrity and reasonability of the data input.

These templates are validated each month by a financial manager in each subsidiary before sending them for checking and consolidation. To complete the automatic checks, those data and the estimation, valuation and calculation principles used to obtain them, as well as the accounts closing procedure, are checked by the financial manager at each level of aggregation and consolidation until the Ebro Group consolidated financial information is obtained, prepared and checked by the corporate financial department.

The Ebro Group has established a reporting system for the Financial Reporting Internal Control System, which is available in the Group for all the subsidiaries included within the scope of the FRICS. Through that reporting, the parent coordinates maintenance of the system in the rest of the subsidiaries annually through the assignment of persons responsible for their maintenance and updating in the event of any significant change to be taken into consideration in the documentation. Finally, if any weaknesses are detected in the financial reporting internal control system, the subsidiaries are notified of the necessary action plans and they are monitored by the parent.

F.5. Supervision of the functioning of the system

Inform on at least the following, describing their main features:

- F.5.1 The FRICS supervisory activities performed by the audit committee and whether the company has an internal audit department responsible, among its duties, for assisting the committee in its supervision of the internal control system, including the financial reporting internal control system (FRICS). Inform also on the scope of the FRICS appraisal made during the year and the procedure through which the department or body responsible for the appraisal informs on the outcome, whether the company has an action plan defining any possible corrective measures and whether their impact on the financial information has been considered

The Board of Directors is ultimately responsible for the existence, maintenance and supervision of an adequate, effective internal control system for the financial reporting. Among the duties defined in the Regulations of the Board, the Audit and Compliance Committee assists and supports the Board in its supervision of the accounting and financial information, the internal and external audit services and corporate governance.

The Audit and Compliance Committee, assisted by the Risks Committee, must see that the internal audit procedures, the internal control systems in general, including the risk management control system and, in particular, the financial reporting internal control system, are adequate.

The Audit and Compliance Committee also ensures that the external auditor and Internal Audit Manager are selected on the basis of objective, professional qualifications, guaranteeing their independence in the performance of their duties; reports to the board on any related party transactions submitted for its consideration; controls any possible conflicts of interest; and, in general, makes sure that all the company's information and reporting, particularly financial, complies with the principle of truth and maximum transparency for shareholders and markets.

The Risks Committee, as the central control system, monitors adequate fulfilment by the risk officers of the respective units of the following duties: (i) monitoring, updating and review of the business risks map and the different financial reporting processes; (ii) compliance with the reporting protocols for business risks and financial information; (iii) assessment of the measures for mitigating and controlling any risks detected, and (iv) assessment of the effectiveness of the systems and controls by implementing the test processes indicated by the Risks Committee, assisted by the heads of the different units and, where necessary, external advisers. The Risks Committee, based on the policy established by the Board and supervised by and reporting to the Audit Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and checking the Group's financial information.

Within the business risks control and the financial reporting internal control system, the Internal Audit Department makes sure that the testing and control of risk management and financial reporting systems have been done properly, within the internal audits carried out on different subsidiaries during the year, under the Internal Audit Plan.

The Internal Audit Department has submitted its annual working plan to the Audit and Compliance Committee and reported directly to said committee on any incidents detected in the performance of that work, proposing the corresponding action plan defining any necessary corrective measures; and at the end of each year, it has submitted an activity report.

The results of audits made by the Internal Audit Department and any incidents detected by the Risks Committee have been reported to the Audit and Compliance Committee. Moreover, the action plan devised for remedying those incidents has been sent to both the person responsible for remedying them and the Audit and Compliance Committee.

F.5.2 Inform on whether the company has a discussion procedure whereby the auditor (according to the provisions of the auditing standards), the internal audit department and other experts can inform the senior management and audit committee or company directors of any significant weaknesses detected in internal control during the auditing or checking of the annual accounts or any other processes commissioned to them. Indicate also whether the company has an action plan to remedy or mitigate the weaknesses observed

The Audit and Compliance Committee has a stable, professional relationship with the external auditors of the principal companies in its group, strictly respecting their independence. That relationship favours communication and discussion of any internal control weaknesses pinpointed during the auditing of annual accounts or any other audit work commissioned to them.

In this regard, the Audit and Compliance Committee receives information from the external auditor at least every six months on the audit plan and outcome of its implementation, and checks that the senior management heeds the auditor's recommendations.

In addition, as established in the Regulations of the Board, it is responsible for overseeing the Internal Audit Services, examining the financial reporting process and internal control systems.

During 2018, the External Auditor and Manager of the Internal Audit Department each attended 5 meetings of the Audit and Compliance Committee.

F.6. Other significant information

N/A

F.7. External auditor's report

Inform on:

F.7.1 Whether the FRICS information sent to the markets was checked by the external auditor, in which case the company should include the corresponding report in an annex. If not, explain why not.

The report issued by the external auditor is appended hereto.

G. EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the degree of compliance by the company with the recommendations of the Good Governance Code for Listed Companies.

If any recommendation is not followed or is only partly followed, include a detailed explanation of the reasons so that shareholders, investors and the market in general have sufficient information to assess the company's actions. General explanations are not acceptable.

1. The articles of association of listed companies should not limit the maximum number of votes that may be cast by an individual shareholder or impose other restrictions hampering takeover of the company via the market acquisition of its shares.

Complies Explanation

2. When both the parent company and a subsidiary are listed, they should both publish a document specifying exactly:

- a) The types of activity they are respectively engaged in and any business dealings between them, and between the listed subsidiary and other group companies.
- b) The mechanisms in place to solve any conflicts of interest.

Complies Partial compliance Explanation Not applicable

3. During the annual general meeting, to supplement the written distribution of the annual corporate governance report, the chairman of the board should inform the shareholders orally, in sufficient detail, of the most important aspects of the company's corporate governance, especially:

- a) Any changes made since the previous annual general meeting.
- b) The specific reasons why the company does not follow any of the recommendations of the Code of Corporate Governance and the alternative rules applied, if any.

Complies Partial compliance Explanation

4. The company should define and promote a policy of communication and contacts with shareholder, institutional investors and proxy advisors that fully respects the laws against market abuse and gives similar treatment to shareholders who are in the same position.

And the company should publish that policy on its website, including information on how it has been implemented, naming those responsible for such implementation.

Complies Partial compliance Explanation

5. The board should not table a motion at the general meeting for delegating powers to issue shares or convertible securities excluding the preferential subscription right in a sum of more than 20% of the capital at the time of the delegation.

And when the board approves an issue of shares or convertible securities excluding the preferential subscription right, the company should immediately publish on its website the reports on that exclusion required by commercial law.

Complies Partial compliance Explanation

6. Listed companies that prepare the following reports, whether mandatory or voluntary, should publish them on their websites sufficiently in advance of the annual general meeting even though that publication is not compulsory:

- a) Report on the independence of the auditor
- b) Reports on the functioning of the audit committee and the nomination and remuneration committee
- c) Report by the audit committee on related party transactions
- d) Report on the corporate social responsibility policy.

Complies Partial compliance Explanation

All the sections of this Recommendation are met, except (c).

The Audit and Compliance Committee checks that all the related party transactions with significant shareholders, Directors, representatives of corporate directors and other related parties have been made on arm's length terms, at market prices, transparently, fairly and reasonably, and always in the interests of the Ebro Foods Group, and issues a report to the Board in favour of their approval. After studying this Recommendation the Company does not consider it convenient to publish the contents of that report because it contains sensitive commercial information that is confidential for the Group in respect of its rivals.

7. The company should broadcast general meetings live, through its website.

Complies Explanation

General Meetings of shareholders of Ebro Foods S.A. are not broadcast live through the corporate website owing to the size and capitalisation of the Company.

Furthermore, considering the little use made of the technical means intended to increase shareholders' participation at general meetings (such as the shareholders' forum or electronic voting and proxies) and the ample quorum at general meetings (79.0325% at the last AGM held on 5 June 2018), the Company considers it unnecessary at present to invest economic resources in the live broadcasting of general meetings.

All information on what happens at the general meeting is subsequently published in Spanish and English on the corporate website, where it is fully available, downloadable and easy to access, with no limitations or restrictions of any nature.

The Company has studied this Recommendation and for the time being does not contemplate live broadcasting of the AGM to be held in 2019, considering that its general meetings comply with the principles of transparency and adequate information recommended by the Code of Good Governance.

8. The audit committee should make sure that the board endeavours to avoid a qualified auditor's report on the accounts laid before the general meeting, and in exceptional circumstances when such qualifications exist, both the chairman of the audit committee and the auditors should clearly explain to the shareholders their content and scope.

Complies Partial compliance Explanation

9. The company should publish permanently on its website the requirements and procedures it will accept as proof of ownership of shares, right to attend the general meeting and exercise or delegation of shareholders' voting right.

And those requirements and procedures should favour the attendance and exercise by shareholders of their rights, not being in any way discriminatory.

Complies [X] Partial compliance [] Explanation []

10. If a legitimate shareholder has exercised their right, prior to the general meeting, to supplement the agenda or submit new proposed resolutions, the company should:

- a) Immediately distribute those supplementary items and new proposed resolutions.
- b) Publish the model attendance card or proxy form or postal/electronic voting form with the necessary modifications to enable voting on the new items on the agenda and alternative proposed resolutions on the same terms as those proposed by the board of directors.
- c) Put all these items or alternative proposals to the vote and apply the same voting rules as those applicable to the proposals by the board, including in particular the presumptions or deductions regarding votes.
- d) After the general meeting, report the details of the voting on those supplementary items or alternative proposals.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

11. If the company plans to pay attendance fees for general meetings, it should establish in advance a general policy on those fees and that policy should be stable.

12. The board should perform its duties with unity of purpose and independence of judgement, give the same treatment to all shareholders in the same position and be guided by the company's interests, namely the achievement of a profitable business sustainable in the long term, promote its continuity and maximise the economic value of the company.

And in its search for the company's interests, apart from respecting the laws and regulations and acting in good faith, ethically and with respect for generally accepted use and good practice, it should endeavour to reconcile the corporate interests with the legitimate interests of its employees, suppliers, customers and other stakeholders that may be affected, as the case may be, and the impact of the company's activities on the community and environment.

Complies [X] Partial compliance [] Explanation []

13. The board should have the necessary size to operate effectively, with participation. The recommended size is between five and fifteen members.

Complies [X] Explanation []

14. The board should approve a policy for selecting directors which:

- a) Is specific and verifiable.
- b) Ensures that nominations or proposals for re-election are based on a prior analysis of the board's needs.
- c) Favours the diversity of expertise, experience and gender.

The results of the prior analysis of the board's needs should be set out in the report by the nomination committee published when calling the general meeting at which the ratification, appointment or re-election of each director is proposed.

And the policy for selecting directors should promote the target that the number of female directors on the board should be equivalent to at least 30% of the total members of the board by 2020.

The nomination committee shall check compliance with the policy for selecting directors annually and inform on its conclusions in the annual corporate governance report.

Complies [X] Partial compliance [] Explanation []

15. The proprietary and independent directors represent an ample majority of the board and the number of executive directors is the minimum necessary, taking account of the complexity of the corporate group and the percentage stake held by the executive directors in the company's capital.

Complies [X] Partial compliance [] Explanation []

16. The ratio of proprietary directors to total non-executive directors should not be greater than the ratio of capital represented by those directors to the rest of the capital.

This may be eased:

- a) In companies with a high capitalisation, in which shareholdings legally considered significant are scarce.
- b) In companies with a plurality of unrelated shareholders represented on the board.

Complies [X] Explanation []

17. The number of independent directors should represent at least one-half of the total directors.

This notwithstanding, if the company does not have a large capitalisation or if it has a high level of capitalisation but has one shareholder, or several acting in concert, that controls more than 30% of the capital, the number of independent directors should represent at least one-third of the total directors.

Complies [X] Explanation []

18. Companies should publish on their websites and keep up to date the following information on their directors:

- a) Professional and biographic profile
- b) Other directorships held, in listed or unlisted companies, and other remunerated activities performed, of whatsoever nature
- c) Indication of the category of director, indicating for proprietary directors the shareholder they represent or with which they are related
- d) Date of first appointment as director of the company and subsequent re-elections
- e) Shares and stock options held in the company

Complies [] Partial compliance [X] Explanation []

All the sections of this Recommendation are met, except b).

Although there is no specific section on the corporate website containing the information contemplated in paragraph (b), information on the Directors of Ebro Foods, S.A., including directorships held in listed companies and positions and activities performed, remunerated or otherwise, in companies engaged in similar or identical activities as Ebro Foods, is set out in the annual accounts and corporate governance report each year published in the corresponding sections of the website.

After studying this Recommendation, the Company considers that it informs on the directorships held in listed companies and positions and activities performed, remunerated or otherwise, in companies engaged in similar or identical activities as Ebro Foods, S.A. in sufficient detail to comply with the transparency in reporting sought by the Code of Good Governance.

19. Once checked by the nomination committee, the annual corporate governance report should include an explanation of the reasons why proprietary directors have been appointed at the request of shareholders with an interest of less than 3% in the capital, as well as the reasons, if appropriate, for not meeting formal requests for presence on the board from shareholders with an interest equal or greater than others at whose request proprietary directors have been appointed.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

20. Proprietary directors should resign when the shareholder they represent disposes of its entire shareholding in the company. They should also resign in the corresponding number when the shareholder disposes of part of its shares to an extent requiring a reduction in the number of proprietary directors.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

21. The board should not propose the removal of any independent director before the end of the period for which they were appointed, unless there are just grounds for doing so, as appreciated by the board subject to a report by the nomination committee. In particular, just grounds are deemed to exist when the director takes up new positions or contracts new obligations preventing them from dedicating the necessary time to performance of their duties on the board, or if they breach their duties or any circumstances arise by virtue of which they would no longer be considered independent, according to the applicable legal provisions.

The removal of independent directors may also be proposed following takeover bids, mergers or other similar corporate operations entailing a change in the ownership structure of the company, when changes in the structure of the board are required by the principle of proportionality contemplated in Recommendation 16.

Complies [X] Explanation []

22. Companies should establish rules obliging directors to report and, if necessary, resign in any cases that may jeopardise the company's credit and reputation. In particular, directors should be obliged to inform the board of any criminal proceedings brought against them and the subsequent development of the proceedings.

If a director is prosecuted or tried for any of the offences contemplated in company law, the board should study the case as soon as possible and, in view of the specific circumstances, decide whether or not the director should remain in office. A reasoned account should be included in the Annual Corporate Governance Report.

Complies Partial compliance Explanation

23. All the directors should clearly express their opposition whenever they consider that any proposed decision submitted to the board may go against corporate interests. The independent and other directors not affected by the potential conflict of interest should also do so when the decisions may be detrimental to shareholders not represented on the board.

And when the board adopts significant or reiterated decisions about which a director has expressed serious reservations, the latter should reach the appropriate conclusions and, if they opt to resign, explain the reasons in the letter contemplated in the following recommendation.

This recommendation also affects the secretary of the board, even if they are not a director.

Complies Partial compliance Explanation Not applicable

24. If a director resigns or retires from office on whatsoever grounds before the end of their term of office, they should explain the reasons in a letter sent to all the board members. Regardless of whether the retirement is announced as a regulatory disclosure, the reason shall be stated in the Annual Corporate Governance Report.

Complies Partial compliance Explanation Not applicable

25. The nomination committee should make sure that non-executive directors have sufficiently availability to perform their duties correctly.

And the regulations of the board should stipulate the maximum number of directorships that may be held by its directors.

Complies Partial compliance Explanation

Although the Regulations of the Board do not stipulate a maximum number of directorships that may be held by the Directors of Ebro Foods, S.A., it does impose on the Directors the obligation to dedicate to the Company such attention and time as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the company (Article 32 of the Regulations of the Board, "General duties of Directors").

Moreover, the Policy for Selection of Directors and Diversity in the Composition of the Board of Directors stipulates within "Conditions to be met by candidates" that candidates must have sufficient availability to be able to duly perform their duties. This point is confirmed by the Committee with the candidates before submitting any proposal to the Board of Directors.

After studying this Recommendation, the Company considers that the principles pursued by the Code of Good Governance in this respect are met with the obligation regarding dedication imposed in Article 32 of the Regulations of the Board and the Policy for Selection of Directors and Diversity in the Composition of the Board of Directors. It considers this a complex issue and believes that it is not necessary to establish a maximum number of directorships that may be held by the Directors in order to achieve this.

26. The board should meet as often as may be necessary to secure efficient performance of its duties, and at least eight times a year, following the calendar and business established at the beginning of the year, although any director may individually propose additional items to be included on the agenda.

Complies Partial compliance Explanation

27. Non-attendance of board meetings should be limited to inevitable cases and stated in the Annual Corporate Governance Report. If a director is forced to miss a board meeting, a proxy should be granted with the appropriate instructions.

Complies Partial compliance Explanation

28. When the directors or the secretary express concern over a proposal, or, in the case of directors, the company's performance, and those concerns are not settled by the board, they should be put on record in the minutes, at the request of those expressing them.

Complies Partial compliance Explanation Not applicable

29. The company should establish adequate channels for directors to obtain any counselling they may need to perform their duties, including, should circumstances so require, external counselling at the company's expense.

Complies Partial compliance Explanation

30. Regardless of the expertise required of directors to perform their duties, companies should also offer their directors refresher courses in the appropriate circumstances.

Complies Explanation Not applicable

31. The agenda for meetings should clearly indicate the items on which the board is called upon to adopt a decision or resolution, so that the directors can study or obtain in advance the information they may need.

In exceptional cases, for reasons of urgency, the chairman may submit decisions or resolutions not included on the agenda for approval by the board. The prior, express consent of most of the directors present will be necessary for this, leaving due record in the minutes.

Complies Partial compliance Explanation

32. Directors shall be regularly informed on any changes in the ownership of the company and the opinion held by the significant shareholders, investors and ratings agencies of the company and its group.

Complies Partial compliance Explanation

33. Being responsible for the efficient procedure of the board of directors, apart from performing the duties assigned by law and in the articles of association, the chairman should prepare and submit to the board a schedule of dates and business to be transacted; organise and coordinate the periodical assessment of the board and chief executive, if any, of the company; be responsible for managing the board and for its efficient operation; make sure sufficient time is allotted to the discussion of strategic issues; and resolve and review refresher programmes for each director whenever circumstances so require.

Complies [X] Partial compliance [] Explanation []

34. When there is a lead independent director, the articles of association or regulations of the board should assign the following powers, apart from those corresponding to them by law: preside over board meetings in the absence of the chairman and vice-chairmen, if any; echo the concerns of non-executive directors; hold contacts with investors and shareholders to find out their points of view and form an opinion on their concerns, particularly regarding the corporate governance of the company; and coordinate the plan for succession of the chairman.

Complies [] Partial compliance [] Explanation [X] Not applicable []

Although the Articles of Association and Regulations of the Board do not expressly assign to the Lead Independent Director the powers contemplated in this Recommendation, said Director is entirely free to exercise them.

The Articles of Association and Regulations of the Board do not establish any limit on the exercise of those powers by the Lead Independent Director or any other Director.

After studying this Recommendation, the Company considers that the fact that any Director, not only the Lead Independent Director, may exercise the powers contemplated in this Recommendation, together with the ample majority on Non-Executive Directors on the Board of Directors, this is sufficient to avoid any concentration of powers in the Executive Chairman, as sought by the Code of Good Governance.

35. The secretary of the board should especially ensure that the actions and decisions of the board follow the recommendations on good governance contained in the Code of Good Governance that are applicable to the company.

Complies [X] Explanation []

36. The full board should assess once a year and, where necessary, adopt an action plan to correct any deficiencies detected in respect of:

- a) The quality and effectiveness of the board's actions.
- b) The procedure and composition of its committees.
- c) Diversity in the composition and powers of the board.
- d) The performance by the chairman of the board and chief executive officer of their respective duties.
- e) The performance and contribution of each director, paying special attention to the heads of the different board committees.

The different committees should be assessed based on the reports they submit to the Board and the Board will be assessed on the basis of the report it submits to the nomination committee.

Every three years, the board will be assisted in this assessment by an external consultant, whose independence shall be checked by the nomination committee.

The business relations that the consultant or any company in its group has with the company or any company in its group should be described in the Annual Corporate Governance Report.

The process and areas assessed should also be described in the Annual Corporate Governance Report.

Complies Partial compliance Explanation

37. When there is an executive committee, the balance between the different types of director should roughly mirror that of the board and its secretary should be the secretary of the board.

Complies Partial compliance Explanation Not applicable

38. The board should be informed at all times of the business transacted and decisions made by the executive committee and all board members should receive a copy of the minutes of executive committee meetings.

Complies Partial compliance Explanation Not applicable

39. The members of the audit committee, especially its chairman, should be appointed on account of their expertise and experience in accounting, auditing or risk management, and the majority of those members should be independent directors.

Complies Partial compliance Explanation

40. Under the supervision of the audit committee, there should be an internal audit unit to see that the internal control and reporting systems work properly. This unit should report to the non-executive chairman of the board or the chairman of the audit committee.

Complies Partial compliance Explanation

41. The head of the internal audit unit should submit its annual work programme to the Audit Committee, report directly any incidents that may arise during its fulfilment and submit an activity report at the end of each year.

Complies Partial compliance Explanation Not applicable

42. The audit committee should have the following duties, in addition to those contemplated in law:

1. In connection with the internal control and reporting systems:

- a) Supervise the preparation and integrity of the company's, and where appropriate the group's, financial reporting, checking compliance with the legal requirements, adequate definition of the scope of consolidation and correct application of accounting principles.
- b) Oversee the independence of the internal audit unit; propose the selection, appointment, re-appointment and removal of the internal audit manager; propose the budget for this unit; approve its approach and working plans, making sure its activity focuses mainly on the material risks of the company; receive regular information on its activities; and check that the top management heeds the conclusions and recommendations set out in its reports.
- c) Establish and supervise a mechanism through which employees can confidentially and, if possible and where appropriate, anonymously report any potentially important irregularities they observe within the company, particularly in financial and accounting aspects.

2. In connection with the external auditors:

- a) Investigate the circumstances giving rise to resignation of any external auditor.
- b) Ensure that the remuneration of the external auditors for their work does not jeopardise their quality or independence.
- c) See that the company reports the change of auditor to the CNMV in a regulatory disclosure, attaching a declaration on the possible existence of disagreements with the outgoing auditor and the contents of those disagreements, if any.
- d) Make sure that the external auditors hold an annual meeting with the full board to inform on the work done and the evolution of the company's risks and accounting situation.
- e) Ensure that the company and external auditors respect the provisions in place on the provision of non-audit services, limits on the concentration of the auditor's business and, in general, any other provisions regarding the independence of auditors.

Complies [] Partial compliance [] Explanation []

The Company complies with all of this Recommendation except for paragraph 2(d).

The Audit and Compliance Committee is responsible for maintaining relations with the external auditors, receiving information and exchanging all the necessary communications with them. The external auditors attend Committee meetings whenever this is necessary in view of the business included on the agenda.

The Audit and Compliance Committee provides timely information to the Board on the contents of all the meetings held, including those attended by the external auditors. The Board is thus informed in a timely manner of all business transacted by the Committee, particularly the work done by the external auditors and the Company's relations with them.

This notwithstanding, the external auditors attend Board meetings if this is considered appropriate by the Audit and Compliance Committee, the Board of Directors or any member of the Board.

The Company considers that the Audit and Compliance Committee makes sure that the Board receives all the necessary information regarding the work of and relations with the external auditors.

43. The audit committee may call any employee or executive of the company into its meetings, even ordering their appearance without the presence of any other senior officer.

Complies [] Partial compliance [] Explanation []

44. The audit committee should be informed on any corporate and structural operations that the company plans to make, so that it can analyse them and submit a preliminary report to the board on the economic terms and impact on accounts, and particularly on the exchange ratio proposed, if any.

Complies [] Partial compliance [] Explanation [] Not applicable []

45. The risk management and control policy should identify at least:

- a) The different types of financial and non-financial risk (including operational, technological, legal, social, environmental, political and reputational) to which the company is exposed, including contingent liabilities and other off-balance-sheet risks among the financial or economic risks.
- b) The risk level that the company considers acceptable.
- c) The measures contemplated to mitigate the impact of the risks identified, should they materialise.
- d) The internal control and reporting systems to be used to control and manage those risks, including contingent liabilities and other off-balance-sheet risks.

Complies [X] Partial compliance [] Explanation []

46. Under the direct supervision of the audit committee or, as the case may be, an ad hoc committee of the board, there should be an internal risk management and control role exercised by an internal unit or department of the company expressly having the following duties:

- a) See that the risk management and control systems work properly and, in particular, that all the major risks affecting the company are adequately identified, managed and quantified.
- b) Participate actively in the preparation of the risk strategy and in the major decisions on their management.
- c) See that the risk management and control systems adequately mitigate the risks within the policy defined by the board.

Complies [X] Partial compliance [] Explanation []

47. Companies should ensure that the members of the nomination and remuneration committee -or the nomination committee and the remuneration committee, if they are separate- have adequate experience, skills and expertise for the duties they are to perform and that the majority of those members are independent directors

Complies [X] Partial compliance [] Explanation []

48. Companies with a high level of capitalisation should have a separate nomination committee and remuneration committee.

Complies [] Explanation [] Not applicable [X]

49. The nomination committee should consult the chairman of the board and the chief executive of the company, especially on matters referring to the executive directors.

And any director should be able to request the nomination committee to consider potential candidates to fill vacancies on the board, in case they were suitable in the committee's opinion.

Complies [X] Partial compliance [] Explanation []

50. The remuneration committee should perform its duties independently, having the following duties in addition to those assigned to it by law:

- a) Propose to the board the basic terms of contract of the senior executives
- b) See that the remuneration policy established by the company is observed
- c) Periodically review the remuneration policy applied to directors and senior executives, including the systems of payment with shares and their application, and ensure that their individual remuneration is in proportion to that paid to other directors and senior executives of the company
- d) Ensure that any conflicts of interest that may arise do not jeopardise the independence of the external counselling provided to the committee
- e) Check the information on the remuneration of directors and senior executives in the different corporate documents, including the annual report on directors' remuneration

Complies [X] Partial compliance [] Explanation []

51. The remuneration committee should consult the chairman of the board and the chief executive of the company, especially on matters referring to the executive directors and senior executives.

Complies [X] Partial compliance [] Explanation []

52. The rules of composition and procedure of the supervision and control committees should be included in the regulations of the board and be coherent with those applicable to the committees required by law according to the foregoing recommendations, including the following:

- a) The members should be exclusively non-executive directors, the majority independent directors.
- b) They should be chaired by independent directors.
- c) The board should appoint the members of these committees on account of the expertise, skills and experience of the directors and the duties of each committee; and the committees should discuss its proposals and reports; and report on its activities at the first board meeting following their meetings, answering for the work done.
- d) The committees should be able to obtain external counselling whenever they may consider it necessary to perform their duties.
- e) Minutes should be issued of their meetings and made available to all directors.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

53. The supervision of compliance with the rules of corporate governance, internal codes of conduct and corporate social responsibility policy should be assigned to one or distributed among several committees of the board, which may be the audit committee, the nomination committee, the corporate social responsibility committee, if any, or an ad hoc committee that the board, exercising its powers of self-organisation, may decide to set up. These committees should specifically have the following minimum duties:

- a) Oversight of compliance with the internal codes of conduct and the company's corporate governance rules.
- b) Supervision of the strategy of communication and relations with investors and shareholders, including small and medium-sized shareholders.
- c) Periodical assessment of the adequacy of the company's corporate governance system to ensure that it fulfils its mission of promoting corporate interests and takes account of the legitimate interests of the other stakeholders, where appropriate.
- d) Review of the company's corporate responsibility policy, making sure that it is geared towards creating value.
- e) Monitoring of the corporate social responsibility strategy and practices and assessment of the degree of compliance.
- f) Supervision and assessment of the processes of relations with different stakeholders.
- g) Assessment of everything related with non-financial risks in the company, including operational, technological, legal, social, environmental, political and reputational risks.
- h) Coordination of the reporting process for non-financial information and diversity, complying with the applicable legal provisions and international benchmark standards.

Complies [X] Partial compliance [] Explanation []

54. The corporate social responsibility policy should include the principles or commitments that the company voluntarily undertakes in its relationships with the different stakeholders and define at least the following:

- a) The corporate social responsibility goals and the development of supporting instruments.
- b) The corporate strategy related with sustainability, the environment and social issues.
- c) Specific practices in matters related with shareholders, employees, customers, suppliers, social issues, environment, diversity, tax responsibility, respect for human rights and prevention of unlawful conduct.
- d) The methods or systems for monitoring the results of applying the specific practices contemplated in the preceding paragraph, the associated risks and management thereof.
- e) The mechanisms for supervising non-financial risks, ethics and business conduct.
- f) The communication channels, participation and dialogue with stakeholders.
- g) Responsible communication practices to avoid manipulation of information and protect integrity and honour.

Complies [X] Partial compliance [] Explanation []

55. The company should inform, in a separate document or in the directors' report, on matters related with corporate social responsibility, using one of the internationally accepted methodologies.

Complies [X] Partial compliance [] Explanation []

56. The remuneration of directors should be high enough to attract and retain directors with the desired profiles and remunerate the dedication, qualification and responsibility required by their office, but not so high as to jeopardise the independence of non-executive directors.

Complies [X] Explanation []

57. Variable remuneration linked to the company's yield and personal performance and the remuneration paid in shares, stock options, rights over shares or instruments indexed to the value of the share, and long-term savings systems such as pension plans, retirement schemes or other welfare systems, should be limited to executive directors.

The delivery of shares as remuneration to non-executive directors may be contemplated when it is conditional upon holding those shares until they retire from the board. This will not be applicable to any shares that the director may need to sell to pay the costs incurred in their acquisition.

Complies [X] Partial compliance [] Explanation []

58. For variable remunerations, the remuneration policies should establish the limits and technical precautions required to make sure those remunerations are linked to the professional performance of their beneficiaries and do not merely derive from general trends on the markets or in the company's sector of business or other similar circumstances.

In particular, the variable components of the remuneration should:

- a) Be linked to predetermined, measurable yield criteria, which consider the risk assumed to obtain a result.
- b) Promote the company's sustainability and include non-financial criteria that are adequate for the creation of long-term value, such as compliance with the internal rules and procedures of the company and its policies for the control and management of risks.
- c) Be based on a balance between meeting short, medium and long-term goals, permitting the remuneration of yield achieved through continuous performance over a sufficient period of time to appreciate their contribution to the sustainable creation of value, such that the elements for measuring that yield are not related only with one-off, occasional or extraordinary events.

Complies Partial compliance Explanation Not applicable

59. The payment of a significant part of the variable components of remuneration should be deferred for a minimum time that is sufficient to check that the yield conditions established above have actually been met.

Complies Partial compliance Explanation Not applicable

60. Earnings-linked remuneration should take account of any qualifications made in the report by the external auditors that may reduce those earnings.

Complies Partial compliance Explanation Not applicable

61. A significant percentage of the variable remuneration of executive directors should be linked to the delivery of shares or financial instruments indexed to their value.

Complies Partial compliance Explanation Not applicable

Of the two Executive Directors, only the Chairman of the Board of Directors, Antonio Hernández Callejas, receives remuneration for his executive duties. Heralianz Investing Group, S.L. does not receive any such remuneration, for the reasons explained elsewhere in this Report.

The current variable remuneration systems of the Executive Director are described in the Annual Report on Directors' Remuneration 2018 and are linked to the achievement of pre-established measurable, quantifiable objectives related with financial and non-financial factors that promote the Company's and Group's long-term sustainability and profitability.

Although Article 22 of the Articles of Association contemplates the possibility that Directors may receive remuneration in the form of shares, stock options or any other system of remuneration indexed to the price of the shares, the Board of Directors has not so far submitted this form of remuneration to approval by the General Meeting, considering that the systems of variable remuneration of the Executive Director currently used are most appropriate for stimulating his motivation and personal performance, and his commitment to and relationship with the Group's interests.

After studying this Recommendation, the Company considers that, in view of the special relationship of the Executive Chairman as shareholder of the Company, the current system for remuneration of the only Executive Director who receives remuneration for his executive duties (the Chairman) is adequate for his professional talent and profile. The Company also considers that this system incorporates the necessary mechanisms to avoid excessive exposure to risks and reward for unfavourable results, as recommended by the Code of Good Governance.

62. Once the shares, stock options or rights over shares corresponding to the remuneration systems have been distributed, the directors may not transfer the ownership of a number of shares equivalent to twice their annual fixed remuneration or exercise the stock options or rights until at least three years after being allotted those shares, options or rights.

This will not be applicable to any shares that the director may need to sell to pay the costs incurred in their acquisition.

Complies [] Partial compliance [] Explanation [] Not applicable []

63. Contracts should include a clawback clause whereby the company may to claim repayment of the variable components of remuneration when the amounts paid do not correspond to fulfilment of the conditions regarding yield or when paid on the basis of data subsequently proved to be misstated.

Complies [] Partial compliance [] Explanation [] Not applicable []

64. Termination benefits should not exceed a specified amount equivalent to two years' total annual remuneration and should not be paid until the company has confirmed that the director has met the performance requirements established above.

H. OTHER INFORMATION OF INTEREST

1. If you consider there to be any important aspects regarding the corporate governance practices applied by your company or other companies in the group that have not been mentioned in this report, but which should be included to obtain more complete, reasoned information on the corporate governance practices and structure in the company or group, describe them below and give a brief explanation.
2. This section may be used to include any other information, clarification or qualification relating to the previous sections of the report, provided it is relevant and not repetitive.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

3. The company may also state whether it has voluntarily applied any international, sector-based or other codes of ethical principles or good practices. If so, it should name the code in question and the date of its accession. Particular mention shall be made of whether the company has acceded to the Code of Good Tax Practices of 20 July 2010.

EXPLANATORY NOTE ONE, ON SECTION C

A) The name of the audit committee in the company is "Audit and Compliance Committee" and the name of the nomination and remuneration committee is "Nomination and Remuneration Committee".

B) All the members of the Audit and Compliance Committee were appointed on account of their accounting and audit experience and expertise, including Grupo Tradifin, S.L. and Corporación Financiera Alba, S.A., which were elected on account of the expertise of their representatives in these areas (Blanca Hernández Rodríguez and Javier Fernández Alonso, respectively).

EXPLANATORY NOTE TWO, ON SECTION C.2.3

The following changes were produced in the composition of the Committees during 2018:

EXECUTIVE COMMITTEE:

Javier Fernández Alonso stepped down as member of this Committee as of 31 January 2018. On the same date, Corporación Financiera Alba, S.A. joined the Committee, represented by Mr Fernández Alonso.

- STRATEGY AND INVESTMENT COMMITTEE:

- Javier Fernández Alonso retired as member of the Committee as of 31 January 2018. On the same date, Corporación Financiera Alba, S.A. joined the Committee, represented by Mr Fernández Alonso.
- José Ignacio Comenge Sánchez-Real joined the Committee on 22 November 2018.

EXPLANATORY NOTE THREE, ON SECTION E.3

The main risks that could have a bearing on achievement of the company's business goals listed in section E.3 of this Report.

A. OPERATIONAL RISKS:

- Food safety. Owing to the nature of the Group's business, aspects regarding food safety are a critical point to which the Group pays the utmost attention, as we are bound by a large number of laws and standards in each of the countries in which the Group's products are put on the market.
- Commodity supply risk. The availability of commodities in the quantity and quality required to meet our commitments to customers and the requirements of our brands is a key factor for our business both nationally (Spanish paddy rice) and internationally (semi-processed rice for the Group subsidiaries).
- Market risk (prices). Unexpected variations in the prices of our commodity supplies may affect the profitability of our commercial transactions, in both the industrial and brand-based segments. The main risk lies in the prices of the different rice varieties and durum wheat, although it extends also to other materials consumed, such as packaging material and oil derivatives.
- Customer concentration risk. The concentration of customers, which can occur in both the industrial and brand segments, may lead to less favourable commercial terms for our sales and affect our credit risk.
- Technological risk. In our sector, one of the most important tools for competing with our rivals is based on constant technological innovation and searching for ways to adapt to consumers' desires. Consequently, "technological lag" is considered a possible risk. The risks relating to the security of the Group's IT systems and data (cybersecurity) is also included here.

B. RISKS RELATED WITH THE ENVIRONMENT AND STRATEGY:

- Environmental risk. Respect for the environment is another critical point for the Group, considering our industrial activity, with a large number of plants distributed internationally. We aim to adopt a set of good practices, complying scrupulously with the law.
- Climate risk. The effects of droughts, flooding and other weather perils in the countries where we source our supplies can cause problems of availability and unstable commodity prices, in both rice and durum wheat.
- Competition risk. In general, the pressure from white label brands is the main threat for maintaining the market shares of the Group's brands.
- Reputational risk. This is the risk associated with changes of opinion resulting in a negative perception of the Group, its brands or products by customers, shareholders, suppliers, market analysts, employees, institutions, etc., as they may adversely affect the Group's ability to maintain its commercial and financial relations or its interaction with social partners.
- Changes in lifestyle. The proliferation of low carbohydrate diets or other food habits could alter consumers' perception of our products.
- Country or market risk. Owing to the international nature of the Group's activities, political and economic circumstances in the different countries in which we operate and other market variables, such as exchange rates, interest rates, costs of production, etc. may affect our business.
- Natural disasters, fires. As an industrial group, a significant part of the assets on the Group's balance sheet corresponds to its factories, so any natural incidents (earthquakes, fires, etc.) that may affect the integrity of the Group's plants are a business risk.
- Strategic planning and assessment of strategic opportunities for investment or divestment. Risk deriving from the possibility of making a mistake in the selection of alternatives and/or assignment of resources to reach the Group's strategic goals. In the short term, this includes aligning the budget with the goals defined for the medium and long term.

C. COMPLIANCE RISKS:

- Sectoral regulatory risk. The food industry is a sector subject to numerous regulations affecting export and import quotas, customs duties, intervention prices, etc., subject to the directives laid down in the Common Agricultural Policy (CAP). The Group's activity may also be affected by changes in legislation in the countries in which it sources raw materials or sells its products.
- General regulatory risk. These include risks of compliance with civil, commercial, criminal and good governance provisions. In the area of criminal risks, the Group has a Crime Prevention Model, monitored and controlled by the Compliance Unit. At the date of this report, the Compliance Unit is beginning a process of review and update of its criminal risk map and mechanisms for mitigating those risks, while working on the necessary training for employees in this area. These activities are expected to be performed throughout 2019.
- Tax risks. Any changes in the tax laws or the interpretation or application thereof by the competent authorities in the countries in which the Group operates could affect its earnings.

D. FINANCIAL RISK:

This category includes foreign exchange, interest rate, liquidity and credit risks. The foreign exchange risk is particularly significant because the functional currency of the Group is the euro, but a considerable part of its commodity supply transactions are in US dollars and a very large part of the Group's investments are also in that currency.

The current risk map does not identify within the major risks any that might be considered to derive from corruption. However, the Group has measures to mitigate those potential risks on both a global level (Code of Conduct) and a local level. It also has a Crime Prevention Model that identifies several means for mitigating the risk of corruption offences being committed.

EXPLANATORY NOTE FOUR, ON SECTION E.5.

Details are provided below of the risks that have actually occurred during 2018, listed in section E.5 of this Report.

FOOD SAFETY RISK

In the summer of 2018, our French subsidiary detected a problem in the taste of a batch of dry pasta. The relevant procedure was immediately set under way to detect the source of the problem and eliminate any possible risk for consumers. Following a product recall, the origin of the problem was found to be in the insufficient cleaning of a silo from which the raw material was supplied. The consequences were minimal, limited exclusively to claims from distribution for losses deriving from recall of the affected product. Although this was considered an isolated incident, control has been stepped up of the protocols for emptying and cleaning silos.

Changes in the laws on pesticides and fungicides affected the sourcing of basmati rice and other varieties and increased the costs of analysis, transport and logistics. At the beginning of the year, an analysis detected the presence of picoxystrobin (approval of which was not renewed by the EU in 2017) in some fungicides used by suppliers in the cultivation of certain varieties of long-grain rice. Picoxystrobin is mainly concentrated in the outer husk of the grain, which is eliminated during processing, but it might get into the pericarp during the parboiling process. The risk was confined, therefore, to parboiled rice put on the market without completing the milling or polishing (cargo). When the incident was detected, samples were taken as a precaution from all stocks of paddy rice to identify the lots that were free from this substance and alternative varieties that could be put on the market without any risk.

SUPPLY RISKS

The price of aromatic rice varieties rose progressively as from the second quarter of 2017, as a result of: (i) the smaller sowing area in the last few crop years and (ii) the shortage of water in some rice-growing areas, which affected the harvest and the carryover stock.

The price rise first hit the basmati rice varieties, followed by a sharp rise in Thai fragante. The hike only levelled off in early 2018, at a price of over USD 1,000 per tonne. Since this was not a temporary situation and it had a material effect on the profitability of those varieties, the Group endeavoured (as far as possible) to pass this price increase on to customers. However, especially in the case of Thai fragante rice varieties, it was only possible to pass on part of this rise in the first few months of the year so it produced an adverse effect on profit margins.

Within a generally buoyant situation with very low unemployment in the United States, the costs of several materials and services in that country have hiked, which has been a challenge for our local subsidiary there. In particular, we have identified the following key aspects affecting costs:

- Raw materials and auxiliary materials: unique price dynamics in the case of rice (especially the fragante variety mentioned earlier, which is, moreover, one of the fastest-growing varieties in terms of consumption) and egg white (partly due to the changes in regulation of laying hens, as a result of which the price tripled during the year), although it also affected oil and other auxiliary materials, such as plastic and paper.
- Labour: the cost and turnover of labour increased considerably in the wake of the buoyant economic situation and the strength of the oil industry, which is our main rival for hiring personnel in the Gulf of Mexico.
- Rise in logistics costs due to the fuel price hike and new rules on the use of tachographs, which has led to a waning supply of road haulage.

Apart from price rises in the products most affected by these circumstances, we have implemented additional measures designed to lower the cost of the end product, such as a productivity plan for transport and the use of auxiliary materials, and measures to boost the hiring and retaining of personnel in the most difficult areas.

COUNTRY RISK

During 2018, the negotiation of the UK's exit from the EU has been very up and down. Although British laws applicable after Brexit will foreseeably stick closely to those of the EU at least initially, uncertainty escalated when the deal was rejected by the British Parliament. The main risks lie in the evolution of the pound sterling, the increased cost of imports and the possibility of standstill or major delays in the settlement of customs duties.

Although the location of our plants is favourable (nowhere near the ports on the south coast, which could be more conflictive), in order to mitigate the risks as far as possible, it has been decided to: (i) hedge currencies, covering our immediate needs and trying to reduce volatility, and (ii) take long positions in goods, in case any problems arise in respect of imports and customs duties.

COMPETITION/MARKET RISK

Our main rival in the North American fresh pasta market has announced its investment in a new plant in the United States and it has come to light that it plans to install a "skillet gnocchi" line there. This is one of our Group's major ventures for growth in that market, through the start-up of a manufacturing line in Canada in early 2019. In response to this possible threat, we have stepped up our efforts to put this product on the market as soon as possible, securing customer loyalty with a high quality product and service.

REGULATORY AND REPUTATIONAL RISK

In response to the new customs tariffs slapped on imports of steel and aluminium in the USA, in June 2018 the EU put a 25% tariff on a list of products, which included American white rice. This product is sold by our Group, so in order to avoid this additional cost, we made some changes in our sourcing, seeking alternatives such as the importing of cargo rice (husked rice that is not on the list of products subject to this tariff), to be milled within the EU.

At the end of 2018, the EU approved tariffs on imports of long-grain white rice from Myanmar and Cambodia, which had been exempt in recent years under the Everything But Arms Agreement. This measure, which will foreseeably put greater pressure on prices in the short term, is also an opportunity to boost the production structure in Europe and Argentina, taking advantage of the Group's risk management through diversification of sourcing.

The new Agriculture and Food Act (EGAlim) was passed in France in October 2018. This Act regulates discounts, promotions and leader pricing for a period of two years. It entered into force in February 2019, outlawing any mention on the packaging of the product being "free" or "without charge". Consequently, certain packaging material cannot be used and has had to be withdrawn, against the earnings of the year.

EBRO FOODS, S.A.

Auditor Report on the "2018 Disclosures Regarding the Internal Control over Financial Reporting System"

Translation of a report originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

AUDIT REPORT ON THE "DISCLOSURES REGARDING THE INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) SYSTEM" OF EBRO FOODS, S.A. FOR 2018

To the Board of Directors of Ebro Foods S.A.,

As per the request made by the Board of Directors of EBRO FOODS, S.A. (hereinafter, the Company) and our proposal letter of March 21, 2019, we have applied certain procedures in relation to the accompanying "ICFR disclosures" of EBRO FOODS, S.A. for 2018, which summarize the Company's internal control procedures in respect of its annual reporting exercise.

The Board of Directors is responsible for taking the opportune measures to reasonably assure the implementation, maintenance and supervision of an adequate internal control system, making improvements to this system and preparing the contents of the ICFR disclosures required of the accompanying Annual Corporate Governance Report (ACGR).

Against this backdrop, it is important to note that, regardless of the quality of design and effective functioning of the ICFR system adopted by the Company in respect of its annual financial reporting effort, the latter can only provide reasonable but not absolute assurance regarding the objectives pursued, due to the limitations intrinsic to any internal control system.

In the course of our financial statement audit work and in keeping with Spain's Technical Auditing Standards, the sole purpose of our assessment of the Company's internal controls was to enable us to establish the scope, nature and timing of the Company's financial statement audit procedures. Accordingly, our internal control assessment, performed in connection with the financial statement audit, was not sufficiently broad in scope to enable us to issue a specific opinion on the effectiveness of the internal controls over the annual financial disclosures that the Company is required to present.

For the purpose of issuing this report, we have only carried out the specific procedures described below, as indicated in the Procedures for external audit reviews of an entity's ICFR disclosures contained in the Internal Control over Financial Reporting in Listed Companies report published by Spain's securities market regulator, the CNMV (and available on its website), which establishes the procedures to be performed, the scope thereof and the contents of this report. Given that the products resulting from these procedures is at any rate limited in scope and substantially more limited than an audit or review of the internal control system, we do not express any opinion on the effectiveness of the system or on its design as effective functioning in respect of the Company's 2018 financial reporting disclosures, as described in the accompanying ICFR disclosures. Consequently, had we performed additional procedures to those stipulated in the above mentioned that the Company is required to present, other matter might have come to our attention that would have been reported to you.

Furthermore, given that this special assignment neither constitutes a financial statement audit nor is subject to the Consolidated Text of Spain's Financial Statement Audit Act, we do not express an opinion in the terms provided for in that piece of legislation.

The procedures performed are itemized below:

1. Read and understand the information prepared by the Entity in relation to the ICFR - which is provided in the Director's Report disclosure- and assess whether such information addresses all the required information which will follow the minimum content detailed in Section F, relating to the description of the ICFR, as per the ACGR model established by CNMV Circular nº 5/2013 dated June 12, 2013 amended by circular nº 7/2015 dated December 22, 2015 and then modified by Circular nº 2/2018 dated June 12, 2018 (hereinafter, the Circulars of the Spanish National Securities Market Commission).
2. Questioning of personnel responsible for drawing up the information detailed in item 1 above: (i) to obtain an understanding of the process that goes into drawing up the information; (ii) to obtain information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) to obtain information on whether the control procedures described are in place and functioning.
3. Reviewing the explanatory documents supporting the information detailed in item 1, including documents directly made available to those responsible for describing ICFR system. The documentation to be reviewed may include reports prepared for the audit committee by internal audit, senior management and other internal or external specialist.
4. Comparing the information detailed in item 1 above with their knowledge of the Company's ICFR obtained through the external audit procedures applied during the annual audit.
5. Reading of the minutes taken at meetings of the board of directors, audit committee and other committees of the Company to evaluate the consistency between the ICFR business transacted and the information detailed in item 1 above.
6. Obtaining a management representation letter in connection with the work performed, signed by those responsible for preparing and formulating the information detailed in item 1 above.

The specific procedures carried out in respect of the Company's ICFR disclosures did not reveal any inconsistencies or incidents that could affect such disclosures.

This report was prepared exclusively within the framework of the requirements established by article 540 of the consolidated text of the Corporate Enterprises Act and by Circulars of the Spanish National Securities Market Commission related to the description of the ICFR in the Annual Corporate Governance Report.
