Management information and business performance

1. GROUP SITUATION

Organisational structure and business model

The Ebro Foods Group (“Ebro Foods”, the “Group” or the “Ebro Group”) is Spain's largest food group, the world's largest rice company and a globally well positioned producer of premium and fresh pasta, with leadership positions in its operating markets. Through its network of more than 34 subsidiaries, it has a commanding presence in the main rice and pasta markets in Europe, North America and Southeast Asia, as well as a growing presence in other countries.

The Ebro Group's core mission is to research, create, produce and market value-adding food products that, in addition to satisfying its customers' nutritional needs, enhance their well-being and health, all of which framed by a transparent, efficient and sustainable business model.

The Group's model is multi-company, multi-country and multi-brand. Its culture is accordingly characterised by decentralisation, giving each subsidiary autonomy in certain managerial areas such as sales and marketing, logistics, procurement, human resources and environmental management; each company's business focus is nuanced by country specifics in terms of idiosyncratic customs, culture, legislative context, etc. At the helm is the Parent, Ebro Foods, S.A., which is endowed with a light and dynamic structure and tasked with defining overall Group structure and management guidelines. Decision-making is spearheaded by the Parent's Board of Directors.

The Ebro Foods Group structures its management around business areas that combine business activities and their geographic location. The core business areas are:

- a. Rice business: the production and distribution of rice and its culinary derivatives and accompaniments. It consists of industrial and branding activities; the Group pursues a multi-brand model. Its geographic footprint extends to Europe, the Mediterranean basin, the Southern Cone and Southeast Asia (via the Herba Group companies) and North and Central America, the Caribbean and Middle East (via the Riviana Group).
- b. The premium and fresh pasta business: includes the production and sale of fresh pasta and high-end dry pasta. The fresh pasta business is carried on by Ebro Premium Food Group in France and Benelux, the Bertagni Group in multiple markets and the Riviana Group, through the Olivieri brand, in North America. The premium dry pasta business is led by Garofalo (Italy and the rest of the world).

In both businesses, framed by the Group's commitment to using food to promote good health, nearly all of the brands' portfolios include healthy, bio and organic ranges.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

As noted above, decision-making is spearheaded by the Board of Directors of the Group Parent (Ebro Foods, S.A.), which is ultimately responsible for defining the Group's general strategy and management guidelines. The Board of Directors delegates certain tasks in its Executive Committee, including, notably, oversight of delivery of the strategic and corporate development guidelines.

The Management Committee (on which the heads of the various business areas sit) is tasked with monitoring and preparing the managerial decisions taken by the various business areas. The Annual Corporate Governance Report contains detailed information about the Group's governance structure.

Production of the products sold by the Group relies heavily on the use of rice and durum wheat, although new grains such as pulses, quinoa and other 'ancient grains' are gradually being added to the mix.

Rice is the most widely-eaten grain in the world; however, as some of the world's largest producers consume more of this grain than they produce (China, Philippines and Indonesia), the global rice trade is smaller than that of other grains and cereals. The sources of the rice sold by Ebro vary depending on the type of grain and quality/abundance of rice harvests. Supply sources can be grouped into three major regions which produce different varieties of rice: the US, southern Europe and South East Asia; these sources have been boosted by the addition to the Group of La Loma Alimentos, S.A. and Neofarms Bio, S.A. in Argentina, acquisitions designed to reduce seasonality in the procurement of certain varieties and generate a significant source of organic rice.

Premium pasta is produced from a type of wheat that is high in protein called durum wheat. Durum wheat is produced in a far smaller geographic expanse and has a much smaller market than other varieties of wheat, essentially those used to make flour. Ebro mainly sources its durum wheat in the US, Canada and southern Europe (France, Spain and Italy).

The raw materials are purchased from farmers, cooperatives and milling companies. Then at the Group's facilities it is milled and/or transformed as necessary. The productive processes differ depending on the product's end use and range from cleaning, milling, polishing and basic extrusion to more complex processes such as pre-cooking, cooking and freezing.

The Group's direct customers are: (i) the leading food retailers; (ii) the major food multinationals (which use our products as the basis for their prepared products); and (iii) a plethora of hospitality businesses. Despite the fact that they are not usually direct customers, consumers nevertheless play a prominent role in how the Group positions its business.

The Ebro Group operates a portfolio of 81 brands which it sells in 61 countries. It has a manufacturing and sales presence in 16 of those markets. In the remaining 45 it has a sales presence only. Its manufacturing operations encompass a total of 78 facilities, including factories, offices and warehouses.

Note 6 of the accompanying annual consolidated financial statements (*Segment reporting*) overviews the key activities, brands and market shares of each business area.

Strategy and value creation

The Group's strategic objective is to be a benchmark player in the rice, fresh pasta, premium dry pasta and healthy grains markets and in other cross-cutting segments with convenience in common. Framed by this strategy, the Group's strategic objectives include:

- Building strong positioning in its core markets, keeping the door open to the introduction of related products.
- Cementing its position as a benchmark business group across its various businesses, leading the markets in which the Group sees potential.
- Spearheading innovation in the geographies in which it is present.
- Positioning the Group as a responsible firm committed to social well-being, environmental equilibrium and economic progress.

2022 MANAGEMENT REPORT (figures in thousands of euros)

In order to execute and fine-tune its strategy, the Group is pursuing a series of general lines of initiative and leveraging growth drivers in order to add value to the business and further the organisation's commitment to sustainable development.

Governing principles

- Fostering ethical management based on good governance practices and fair play.
- Complying with prevailing legislation, at all times taking a preventive approach. We strive to minimize risks, not only economic risks but also legal, social and environmental risks, including tax risks.
- Generating returns on our investments while guaranteeing the operational and financial solidity of our business activities. Nurturing our profitability as one of the tenets for the ongoing sustainability of the organisation and the multiple stakeholders that engage directly and indirectly with it.
- Generating a labour relations framework that is propitious to learning and personal and professional development, respects the equal opportunities principle and promotes diversity and a safe and healthy workplace.
- Rejecting any form of abuse or violation of the fundamental and universal rights, in keeping with international law and practices.
- Promoting a mutually beneficial relationship with the communities in which the Group is present, which means being sensitive to their culture, context and needs.
- Satisfying and anticipating the needs of our customers and of our end consumers by offering a broad portfolio of products under the premise of healthy and differentiated food options.
- Articulating the organisation's processes, activities and decisions not only around profit generation but also environmental and community protection, responsible use of our natural resources and the preservation of biodiversity.
- Communicating responsibly, accurately and transparently with our stakeholders by establishing stable communication channels and providing them with thorough, accurate and relevant information about the Group's activities in a timely and transparent manner.

To achieve its strategic growth and sustainable leadership objectives and ensure compliance with the above guiding principles, the Group pursues the following lines of initiative:

1. Searching for organic and M&A-led growth in markets with high consumption levels and/or high growth potential.

2022 MANAGEMENT REPORT (figures in thousands of euros)

- Identifying and developing new markets and product categories with a strategic focus on new fresh products and new and more value-added ingredient ranges.
 - Developing products that offer a fuller culinary experience by adding new formats, flavours and meal solutions.
 - Leading in mature markets by focusing strategically on product quality-based differentiation. Expanding and spearheading the premium category by leveraging the huge potential implicit in our flagship brands.
 - Expanding our geographic footprint and rounding out of the product/country matrix:
 - Searching for business opportunities in mature markets with business profiles similar to that of Spain and in niche markets that enable the Group take a qualitative step forward in its strategy of shifting away from its generalist positioning to positioning as a multi-specialist (individual solutions).
 - Expanding its presence in new business segments in existing markets and in high-growth markets.
2. Product differentiation and innovation. The product development strategy is structured around two articulating lines of initiative:
- Research and development (R&D): proprietary R&D centres. The organisation's investment policy is designed to foster the crystallisation of new ideas and consumer needs into tangible solutions for its customers and end consumers.
 - The Group aims to have the leading brands in their respective segments, underpinned by the required advertising budgets.
3. Low risk exposure. The Ebro Group's attitude towards shifts in its consumer and financial markets is marked by a strong commitment to continuous adaptation and long-term sustainability.
- To this end it seeks: (i) balanced sources of recurring income (markets, currencies); (ii) low leverage in order to withstand episodes of financial turbulence; (iii) new sources of supply; and (iv) long-term relationships with its stakeholders (customers, suppliers, governments, employees, society).
4. Implementation of sustainability criteria throughout the entire supply chain ('from the fields to the table'), framed by a master sustainability plan named HEADING FOR 2030 which is articulated around:

2022 MANAGEMENT REPORT (figures in thousands of euros)

- **People.** Development of plans and measures that improve our professionals' well-being at work by committing strategically to continuous learning and career development in order to retain talent and seeking out novel ways of achieving work-life balance, diversity and occupational health and safety. Support for initiatives that contribute to socio-economic progress and help reduce inequalities in our business communities.
- **Health and well-being.** Promotion of health through food, specifically by offering a range of healthy, natural and differentiated products that help consumers follow healthy diets and lifestyles, while enjoying what they eat. The R&D Department's work is guided by these aims and the brands' various communication channels focus their messaging on healthy habits and creative ways of eating by means of recipes, blogs and advertising campaigns.
- **Our planet.** Environmental preservation and minimisation of our environmental impact all along our value chain, paying special attention to mitigating and adapting to the effects of climate change. To that end, the Group fosters, either on its own or together with other stakeholders, a number of sustainable farming programmes in its main source markets and carries out a range of initiatives designed to move the Group towards a circular economy model by ensuring the recyclability of its packaging, the phase-out of plastics and the recovery of waste.

2. BUSINESS PERFORMANCE AND RESULTS

General backdrop

2022 was a particularly turbulent year. The Russian Federation's invasion of Ukraine on February 24, unleashed a succession of waves of inflation which engulfed the prices of multiple commodities, including energy products. That supply shock came on the heels of recovery from the COVID-19 pandemic, which had already tightened several commodity markets and transportation. The result was double-digit inflation in many developed economies.

Global growth in 2022 is estimated at 2.9%, with the US growing by 1.9% compared to 5.9% in 2021 and the European Union registering growth of 3.3%, down from 5.3% in 2021. The economic slowdown was ushered in by the rollback of expansionary monetary policies as the authorities moved to mop up liquidity and increase the cost of money, eroding consumer confidence.

The pace of rate tightening across the main economies varied depending on the central banks' room for manoeuvre in tackling inflation. In the US, strong employment figures and a lower dependence on imported energy enabled more restrictive monetary policy, while the European Central Bank reacted to international events as they unfolded.

2022 MANAGEMENT REPORT (figures in thousands of euros)

Growth is expected to hit its lowest level in three decades in 2023, with only the 2009 (financial crisis) and 2020 (pandemic) levels lower. Nevertheless, the most recent growth, inflation, employment and housing sales reports provide some grounds for optimism with most of the world's economies now expected to side step a technical recession.

Consumer trends

From the consumption standpoint, the pandemic can be considered a thing of the past. Some of the consumer trends that came along with the pandemic are here to stay but the pace of change is slowing and moving back to the level seen before 2020.

Growth in e-commerce is easing and neighbourhood supermarkets have come to dominate bricks-and-mortar retailing. Inflation and signs of crisis have given the hard discounters a bigger share of the retail pie, marked by a growing number of sales outlets.

Elsewhere, hospitality consumption has fully recovered. Despite rampant inflation, it seems as if post-pandemic habits are enduring, with the need to socialise winning out over the need to tighten budgets.

The general trends pivot around:

Personalisation of the consumer experience, sustainability, health, pleasure and price

Consumer decision-making power has increased. Consumers have more information at their fingertips, more comparison tools and they are willing to pay to feel identified with products that satisfy their desires. This is translating into:

- a. Demand for quality products, ease of preparation and immediate satisfaction of their desires.
- b. Preference for natural, healthy and organic foods. Closely related to this sentiment is the growth in the consumption of fresh products and the importance being given to small producers and start-ups that make the consumer feel closer to nature.
- c. Search for products that form part of the circular economy, are seen as sustainable and involve stakeholders in their design, production and sale. Ethics are also increasingly driving purchase decisions.
- d. Consumers want a wider range of choices. The higher-quality, private-label brands have been making inroads in virtually every social strata and segment of the population. Inflation is only driving the private-label brands' share higher.

Social changes

- a. Population ageing, older people with more say. The 'baby boomers' have transformed this segment of the population, which currently has greater purchasing power and different aspirations and needs (exercise and health) from those traditionally associated with this age group.

2022 MANAGEMENT REPORT (figures in thousands of euros)

- b. Reduction in the number of household members and constant growth in single-person households; new formats and product and service personalisation.
- c. The new generations are paying more attention to their surroundings, sustainability and the environment.
- d. Increased mobility and migration in many developed countries, which is introducing new tastes and ways of cooking.

New channels and services

- a. Online shopping and connectivity (possibility of shopping with traditional players that can offer user-friendly service, short delivery times, etc.).
- b. Growth in the use of neighbourhood supermarkets, where consumers shop more frequently, and specifically the use of convenience stores (24-7, alliances with petrol stations and other places of transit).
- c. Consolidation of virtual players such as Amazon and the emergence of new players in the retail market driven by the latest trends in consumption and the use of technology.
- d. New ways of cooking and eating (ordering in, vending machines, snacking instead of sitting down to eat, etc.).

All these changes imply challenges for the retail sector and food producers: it is vital to elevate the point of sale, whether physical or digital, to the heart of strategy. Correct visibility and assortment are key success factors.

The technological revolution, coupled with the fact that the digital natives are now a target audience, has radically changed how brands are communicated. From the message to the medium. The emergence of influencers as a channel and of recommendations as a strategy have also changed how brands are managed. Advertising budgets are moving online, which now account for more than 50% of the Group's campaigns. Online advertising is characterised by its agility and constant consumer listening throughout product development and launch, compressing those timeframes and enabling faster responses.

Lastly, the commitment to end-to-end sustainability is fundamental: Convenience + Health + Sustainability are the drivers of innovation.

Commodity markets and transportation

The upward trend in the prices of the Group's key raw materials observed at the end of 2021 continued throughout the first half of 2022. Weak global demand as a result of softer growth and fresh Covid restrictions in China (affecting demand in the world's largest commodity consumer) kept a lid on prices during the second half of the year.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Source: World Bank

Fuelled by instability and restrictions on Russian exports, Brent oil prices surged to US\$ 129/barrel in June, then dipping to end the year at US\$ 80 (fairly flat year-on-year). Gas prices in the European Union likewise reached record levels during the summer before gradually easing throughout the rest of the year.

As for agricultural commodities, prices continued to rise during the first half of the year, with tension increasing further in the wake of the conflict in Ukraine. After the summer, the trend changed as common wheat and oil seed prices eased (thanks to an agreement to allow exports from Ukraine), the shipping panorama improved and harvests came in stronger than expected.

After extraordinary price increases in 2021, durum wheat prices were expected to come down in 2022 due to the prospect of more abundant harvests. The onset of war tightened prices for durum wheat, however, out of fear that the war and blockade of the Black Sea ports would hit the region's common wheat output. The market has been stable since the summer, with prices above the average of recent years. The 2022/23 harvest in the US and Canada is looking good, offsetting the weak outlook for the rest of producers. However, total output is still expected to come in below the trailing five-year average, with carryover stocks well below historical averages.

2022 MANAGEMENT REPORT (figures in thousands of euros)

Source: Terre.net and Ebro data

The 2021/22 rice harvest was again strong. According to data published by the Food and Agriculture Organisation (FAO), production was an estimated 526 million tonnes of white rice equivalent, above the previous harvest. The outlook is for a slightly smaller 2022/23 harvest of around 512 million tonnes, virtually identical to that of 2020/21.

It is worth highlighting two factors of particular importance to the Ebro Group: (i) the reduced size of the rice harvest in the US in the last two years; and (ii) the ongoing reduction in the size of the sown area in Spain due to the lack of water for irrigation.

The chart below depicts the trend in the IPO international farmgate rice price index for the last three years, showing an average for the most popular varieties of this grain.

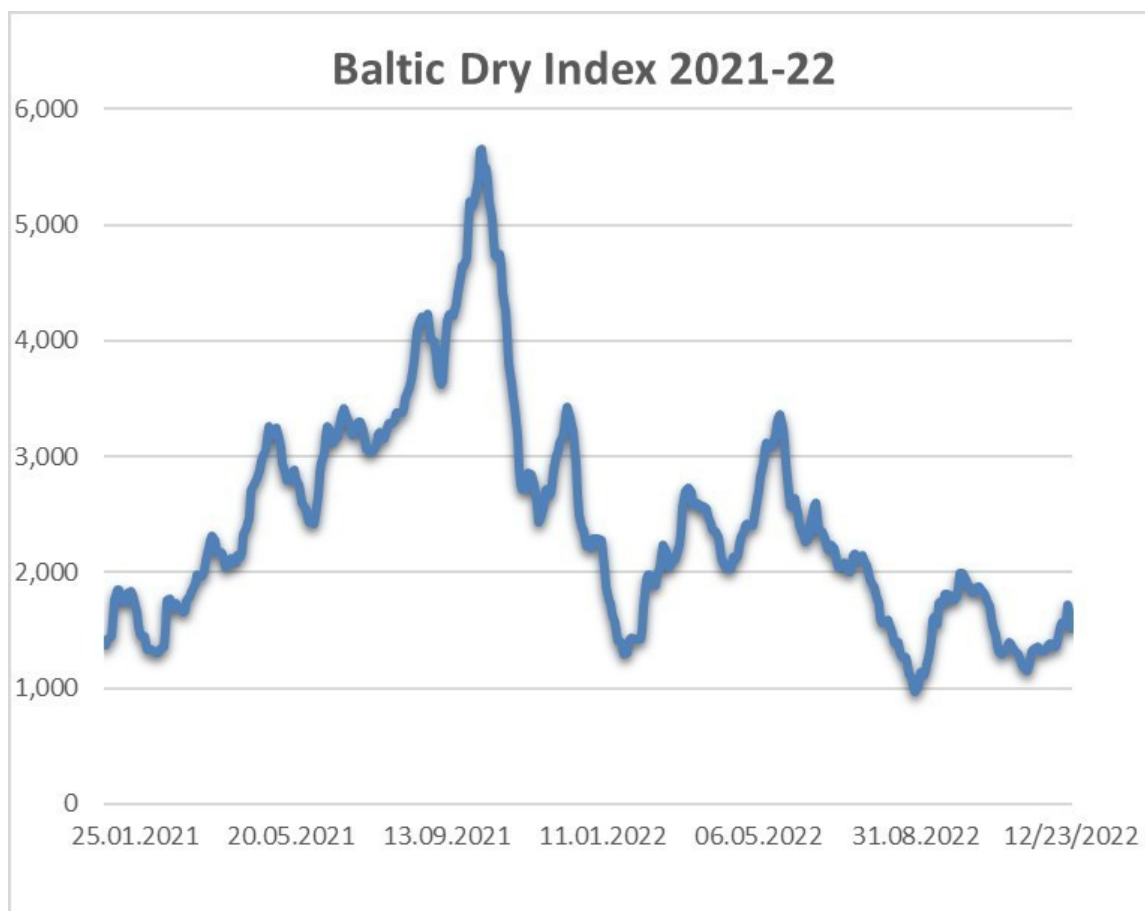

2022 MANAGEMENT REPORT (figures in thousands of euros)

Source: Infoarroz

The price stability observed at the start of the year gradually gave way to a run-up in farmgate prices shaped by: (i) the flooding in Pakistan; (ii) protectionist measures introduced in several producing countries to contain prices in the midst of the inflationary spiral; (iii) the surge in oil and oil derivative prices; and (iv) the prospect of a smaller harvest.

Lastly, shipping prices, which have a significant impact on the cost of rice sourced in Southeast Asia, eased. Despite the peaks caused by the geopolitical uncertainty and the death throes of the pandemic, both supply and prices have improved, as shown in the following index tracking shipping prices during the last two years. Nevertheless, average prices remained clearly above those of previous years.

Source: Baltic Dry Index

The pandemic and the war in Ukraine

As outlined in the section addressing the economic environment, the global economy continues to recover from the pandemic. After successive waves and variants between March 2020 and well into 2022, it is safe to say that by the end of 2022 things were virtually back to the way they were before it all started.

The war in Ukraine, following military invasion by the Russian Federation on February 24, 2022, has created significant global uncertainty. The international community reacted swiftly, with many countries (including the European Union and United States) imposing sanctions on Russia and its people.

The difficulty in predicting how the conflict will end and its obvious geopolitical implications mean that it is not currently possible to reliably estimate what potential impact the conflict and the international response to it could have on the Group's businesses. The situation is affecting the availability and prices of certain commodities (those in which Russia and Ukraine are leading global producers and exporters, such as wheat and sunflower oil), energy prices and exchange rates. All of which has unleashed a bout of high inflation in nearly every country in Europe and the Americas, prompting the modification of monetary and fiscal policies in those countries. However, it is hard to estimate how these variables will evolve in the coming months.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

It is worth pointing out that the Ebro Group has proven particularly resilient in the face of such dramatic events. Thanks to the characteristics of the products it makes and sells and its geographic footprint, neither the value of its assets nor its ability to generate free cash flow have suffered a material impact beyond the effects of the general economic situation.

Group earnings performance

The Group's key financial indicators are presented below:

PROFIT AND LOSS	2020	2021	2021/2020	2022	2022/2021	CAGR 2020-2022

	31.12.20	31.12.21	2021/2020	31.12.22	2022/2021
Average working capital	642,535	662,058	-3.0%	925,501	-39.8%
Average capital employed	2,183,209	2,060,319	5.6%	2,228,932	-8.2%
ROCE (1)	9.7	10.1		10.5	
Capex (2)	117,602	120,035	2.1%	118,808	-1.0%
Average headcount	7,664	6,440	-16.0%	6,293	-2.3%

(1) ROCE-A = Average profit after D&A but before tax for the last 12 months

(excluding extraordinary/non-recurring items) divided by average capital employed

(2) Capex: cash outflows for investment purposes, of which 18 (2020) and 11 (2021) million correspond to discontinued operations

(3) Leverage = Ratio of average net interest-bearing debt to equity (excluding non-controlling interests)

In keeping with the International Financial Reporting Standards, the results of the dry pasta businesses in North America and France until their sales closed in 2020 and 2021 and the net gain recognized on those disposals were presented within discontinued activities on the consolidated statement of profit or loss for those and the prior reporting periods. The information provided in this management report reflects that circumstance, unless expressly stated otherwise.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Group **revenue** increased by 22.3% from 2022, implying average annual growth over the last three years of 10.5%. That growth was attributable to: (i) the trend in the US\$ exchange rate, which accounts for approximately 15% of the total increase; (ii) the growth in prices derived from inflation across the main raw materials, auxiliary materials and energy products, which accounts for over 50% of the change; and (iii) volume growth, particularly in the US and UK. M&A activity had no major impact as the first-time consolidation of the business associated with the InHarvest brand offset the deconsolidation of Roland Monterrat (Note 5 of the accompanying financial statements).

The breakdown of revenue and the year-on-year trend by business line is as follows:

The weight of the rice business neared 75% of the total (like-for-like, reclassifying the North American and French dry pasta businesses as discontinued operations in all periods). By destination, approximately 35% of sales were generated in North America with the UK and Italy commanding growing shares thanks to momentum around the Tilda (rice) and Garofalo (pasta) brands.

EBITDA-A increased by 10.9% in 2022 (accumulated annual average growth remains at 4.7%), while the margin declined slightly year-on-year due to the impact of higher prices, which made it impossible to defend unit margins. EBITDA-A includes 13.6 million euros of positive exchange rate effects.

Earnings momentum was very positive across all line items, clearly outperforming recent years despite the tremendous market turbulence induced by widespread inflation.

The Group's continued earnings momentum was underpinned by: (i) astute supply chain management marked by the search for alternative sources of supply and transport; and (ii) the leadership commanded by its brands, which enabled management of the commercial problems posed by the widespread increase in prices (in many instances, product prices had to be increased twice during the year).

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Profit before tax decreased by 6.5% due to the impact of the sale of Roland Monterrat (Note 5 of the accompanying financial statements) and the impact of currency market volatility. However, the compound average growth rate between 2020 and 2022 remains a healthy 7.8%.

Profit after tax from discontinued operations includes the net profit of the activities classified as discontinued and the gains recognized on the sale of the dry pasta businesses in North America and France, as explained in the accompanying consolidated financial statements.

The Group's **ROCE-A** (not restated) improved by comparison with recent years thanks to earnings growth, which more than offset the impact of the higher working capital requirement caused by raw material and auxiliary material friction and inflation.

Statement of financial position, net debt and capital employed metrics

The movements in debt and capital employed (for the definitions, refer to the end of the management report) are mainly attributable to:

- a. The impact of the trend in the USD-EUR exchange rate on the balances of the subsidiaries denominated in that currency. Year-on-year growth in total assets at year-end 2022.
- b. The significant increase in the working capital requirement in the past two years on account of rampant inflation and shipping friction.
- c. The sale of the dry pasta businesses in North America and France in 2020 and 2021, respectively, and the payment of an extraordinary dividend those years.

In order to properly understand the Group's working capital requirement and how it is funded, it is important to analyse the factor with the biggest impact on these headings: the volume and measurement of Group inventories. Inventory volumes are sharply cyclical, moving in tandem with rice and wheat harvests (particularly the rice harvest for which the inventory cycle is longest). More specifically, inventory volumes are at their lowest at the end of the rice season (end of summer) and at their highest at the end of each year and start of the next, after the various purchase contracts have been arranged for the new season.

That cyclicity makes it advisable to use 13-month moving averages to calculate certain alternative performance measures (APMs). Note that neither these APMs nor the ROCE have been corrected retrospectively for the Group's exit from certain business segments.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Rice business

PROFIT AND LOSS	2020	2021	2021/2020	2022	2022/2021	CAGR 2020-2022

(*) Having sold the dry pasta business in France, the operations and earnings of the rice business in that country, which had been included under the pasta segment until 2021, have been reclassified to the rice business for all reporting periods covered.

The global harvest was abundant, with the harvests in India and Thailand standing out. However, farmgate prices tightened during the year on account of certain events: (i) restrictions on the export of certain rice varieties in India to ensure internal supplies; (ii) flooding in Pakistan, affecting that country's harvest; (iii) a scant short-grain rice harvest in Italy; (iv) continued restrictions on rice planting in southern Spain due to the shortage of water; and (v) a below-average harvest in North America by comparison with recent years.

In the US, prices continued their upward trajectory on the back of a smaller sown area in long-grain planting areas and the effects of the terrible drought affecting California, where medium-grain rice predominates.

US harvest prices (source: USDA)

August-July

\$/cwt	22/23 (*)	21/22	20/21	19/20	18/19
Average price	19.2	16.1	14.4	13.6	12.6
Long grain	16.7	13.6	12.6	12	10.8
Medium grain	29.2	24.8	20.1	17.8	18.5

(*) Estimate

Revenue registered double-digit growth (+25.0%), thanks largely to higher prices. The inflation sustained since the second half of 2021 across all raw materials and auxiliary materials, transport and energy forced successive price increases in all products, rice products being no exception.

The volume trend was very positive in branded products and also in sales of rice for industrial uses. A significant portion of the growth eked out is attributable to good logistics and industrial management, which unlocked source availability and excellent service standards at the times of greatest difficulty (lack of containers, shortage of transport and strikes). All of the value-added rice varieties performed particularly well, as did the instant, ready-to-serve and aromatic rice products.

The InHarvest assets contributed 38.9 million euros of revenue since their consolidation in April 2022. The InHarvest business is focused on the sale of premium rice and grains in the US.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

The new San José de la Rinconada factory gradually increased its capacity to cater to growing demand for higher value-added rice, with further capacity additions in the pipeline in that market as a result.

EBITDA-A increased by 17% from 2021, a little less than the topline growth, including positive exchange rate effects of 13.7 million euros. Profitability was hurt by the impossibility of defending unit margins in the midst of rampant inflation. In absolute terms, however, profits were driven by the growth in sales volumes and a more favourable sales mix.

Investment in advertising recovered in tandem with the market rebound, although the equilibrium between spending on channel marketing and promotions was constantly fine-tuned in response to the impact of prices on consumers.

The business's higher contribution to EBITDA-A was concentrated, in order, in the US, UK, Spain and the rest of the EU, although the weight of developing markets is growing.

Capex remained at high levels, framed by the strategic commitment to higher growth business lines (microwaveable rice in the US and Spain) and to using renewable sources of energy (new photovoltaic plants) and alternative sources of supply (expansion of the Argentine facilities).

Pasta business

PROFIT AND LOSS		2020	2021	2021/2020	2022	2022/2021	CAGR 2020-2022

	<i>As a % of revenue</i>	5.6%	5.8%		4.0%		
Capex (*)		47,474	45,266	-4.7%	46,222	2.1%	-1.3%

(*) Having sold the dry pasta business in France, the operations and earnings of the rice business in that country, which had been included under the pasta segment until 2021, have been reclassified to the rice business for all reporting periods covered for enhanced comparability.

Durum wheat prices started the year lower, underpinned by the prospect of a better harvest than the year before (which was particularly poor). However, the war in Ukraine tightened prices, which headed rapidly back to year-end 2021 levels. Since the summer, farmgate prices have been steady at over 400 euros per tonne. The 2022/23 harvest in the US and Canada is expected to be better, offsetting the poor outlook for the rest of producers. However, total output is still expected to be below the trailing five-year average, with carryover stocks well below historical averages.

2022 **Revenue** increased by 10.3%, driven by higher prices and volume growth in the premium pasta segment. In general, the fresh pasta businesses experienced a tough year as this segment is more price sensitive than the Group's other products.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

By market:

- a. In France, the fresh pasta market contracted by 3.1% by volume but grew by 2.3% by value. The Group's brands increased their market share to 48.8% by volume (Nielsen 52-week tracker). The pan-fry gnocchi range, in which the Group commands a clear leadership position, remains the key market growth driver.
- b. Growth at Bertagni continued (revenue: +18%); volumes rose despite the difficulties faced by the sector. In Spain, the Group launched the sale of a high-quality Garofalo-branded fresh pasta range made by Bertagni.
- c. In Canada, the market grew by 16% by volume and by 21.2% by value. Olivieri expanded its leadership grip with a share of 65% by value (Nielsen 52-week tracker). The ongoing success of the pan-fry gnocchi ranges (volumes have tripled in four years) has led to plans to add capacity.
- d. The Italian dry pasta market was totally flat in volume terms in 2022, expanding by 21.6% by value on the pack of price increases. The Garofalo brand performed excellently: it increased its share (by volume) of the Italian premium pasta segment to 6.6% from 6.1% (Nielsen 52-week tracker). In Spain, it cemented its position as the leading Italian pasta brand and a benchmark in the premium segment.

EBITDA-A decreased by 15%. That weaker performance is mainly attributable to the fresh pasta business due to the increased cost of wheat, transport, energy and, ultimately, all of the products used to fill the pasta (meat, mozzarella, etc.). Garofalo improved its offering and was able to pass the initial durum wheat price shock through thanks to its leadership in the premium segment.

As already noted, price elasticity is higher in the fresh pasta products and the characteristics of the products (shorter shelf life and need for refrigeration) make it harder to eke out supply chain savings, leaving it more exposed to budget tightening in response to higher prices.

One of the Group's biggest transactions last year was the sale of the French subsidiary, Roland Monerrat, for 22 million euros, generating a loss at the consolidated level of 23.3 million euros in 2022 (of which 3.7 million was recognized as an operating loss and the remaining 19.6 million euros as a non-recurring loss). Roland Monerrat, specialized in the production and sale of sandwiches, *pate en croute* and *croque-monsieur*, has not added value to the Group since its acquisition in 2015. In May 2021, the Ebro Group presented a claim for damages before the subsidiary's former shareholders (i.e., the vendors). At the date of publishing this Management Report it is impossible to say with reasonable certainty when that case will be settled or how much the Group can expect to receive. Nevertheless, the Ebro Group believes it has strong chances of being handed a favourable ruling that will enable it to receive a sum close to the amount invested in this business.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Capex (not restated, with 48 and 11 million euros corresponding to discontinued operations in 2020 and 2021, respectively) was relatively stable, with the investment thrust concentrated on the expansion of capacity at the gnocchi factories.

3. LIQUIDITY AND FINANCING

The Group's finance department strives to configure a capital structure that permits credit ratio stability while providing business flexibility in the short and long term.

The finance structure is articulated around long-term borrowings that fund the major investments. The rest of the Group's financing is arranged on a short-term basis and takes the form of credit facilities that cover shifting working capital requirements. All that financing is arranged in accordance with the Group's short- and long-term growth plans, which are crystallised in its annual budgets, budget revisions and multi-year business plans.

The breakdown of the Group's financial liabilities and the capital requirements embedded in certain long-term loan agreements are detailed in Note 12 of the accompanying consolidated financial statements.

Investments | disposals

M&A activity

In 2022, the Ebro Group: (i) acquired the assets associated with the InHarvest brand for 50 million US dollars; and (ii) sold Roland Monterrat for 22 million euros.

The Group closed significant disposals in 2020 and 2021, specifically, its dry pasta and associated businesses in North America and France. The US assets were sold for 337.5 million US dollars, the Canadian assets for 165 million Canadian dollars and Panzani's dry pasta, semolina, couscous and sauce business in France was sold for 550 million euros.

Organic growth

The Group underpins its pursuit of growth and innovation with a capex policy that in recent years has entailed the overhaul of its productive capacity in the following segments: (i) ready-to-serve rice (pots and pouches); (ii) filled fresh pasta; and (iii) pan-fry gnocchi. Capex (cash outflows) during the past three years:

Year	Amount (Thousands of euros)
2020	117,600
2021	120,035
2022	118,808

Of the total, 48 million euros and 11 million euros in 2020 and 2021, respectively, correspond to discontinued operations. Growth in capex on like-for-like terms has been in the double digits.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Financial position

Group borrowings increased in 2022 after two years of deleveraging on the back of strategic disposals. The reason for the shift lies with the high prevailing level of inflation and the associated supply chain friction, which have translated into a considerable increase in the Group's working capital requirement, particularly in the rice business.

NET DEBT (Thousands of euros)	2020	2021	2021/2020	2022	2022/2021
Equity	1,927,351	2,101,627	9.0%	2,164,438	3.0%
Net debt	950,870	504,723	-46.9%	762,635	51.1%
Average net debt	917,574	865,418	-5.7%	645,809	-25.4%
Leverage	49.3%	24.0%	-51.3%	35.2%	46.7%
Leverage (average net debt) (1)	47.6%	41.2%	-13.5%	29.8%	-27.5%
EBITDA-A	305,132	301,860	-1.1%	334,622	10.9%
Coverage	3.12	1.67		2.28	

(1) Leverage = Ratio of average net interest-bearing debt to equity (excluding non-controlling interests)

Note that 213 million euros of borrowings at December 31, 2022 (197 million euros at year-end 2021) relate to the recognition for accounting purposes of the put options over the outstanding interests in the Bertagni Group, Garofalo, Geovita, Santa Rita Harinas and Transimpex. For accounting purposes, those unexercised options are recognized as an increase in Group borrowings. The main changes in borrowings (without factoring in the net debt assumed pursuant to acquisitions, that recognized in the process of accounting for the above put options, changes in the fair value of certain financial assets/liabilities and the impact of exchange rate movements) were shaped by the following sources and uses of cash:

FREE CASH FLOW (Thousands of euros)	2020	2021	2021/2020	2022	2022/2021
Cash from operating activities	369,863	17,483	-95.3%	(14,017)	-180.2%
Cash from/(used in) investing activities	104,998	609,712	480.7%	(139,600)	-122.9%
Cash used in share-based transactions	(398,019)	(186,337)	-53.2%	(97,180)	-47.8%
Free cash flow	76,842	440,858		(250,797)	

The Group recorded a net outflow of cash from operations in 2022 due to the increased working capital requirement (mainly inventories) caused by the incessant increases in raw material and auxiliary material prices.

The other major movements correspond to:

- Investing activities. The movement in capex (as already outlined above). In 2020 and 2021, the Group collected the proceeds from the sale of its dry pasta businesses in North America and France, respectively. In, 2022 it collected the proceeds from the sale of Roland Monterrat and paid for the InHarvest assets, all in the amount detailed above.
- Share-based transactions. Distribution of dividends, including that paid to minority shareholders. In 2020 and 2021, this heading includes the payment of two extraordinary dividends in the amounts of 298.5 million euros and 87.7 million euros, respectively. The Group did not pay any extraordinary dividends in 2022.

2022 MANAGEMENT REPORT (figures in thousands of euros)

4. RISK MANAGEMENT TARGETS AND POLICIES AND USE OF FINANCIAL INSTRUMENTS

The Risk Control and Management Policy is a core component of the corporate policies approved by the Board of Directors. It establishes the basic principles and general framework governing control and management of the business risks, including tax-related risks and the framework for internal control over financial reporting, faced by the Company and its Group companies.

That general framework materialises in a standardised enterprise risk control and management system which is inspired by the conceptual framework embodied in the Internal Control Integrated Framework of the Committee of Sponsoring Organisations of the Treadway Commission ("COSO"); it is, accordingly, based on a business risk mapping process designed to identify, assess and score the Group's ability to manage its various risks, prioritising them in terms of impact and probability of occurrence. The universe of risks is categorised into four main groups: compliance, operational, strategic and financial/reporting.

The risk categorization process assesses, dynamically, both inherent risks and residual risk after application of the internal controls and protocols put in place to mitigate them.

Within those controls, it is worth highlighting the existence of preventative measures, the adequate segregation of duties, well-defined clearance limits and specific policies and procedures.

The enterprise risk model is qualitative and quantitative: the impact of the identified risks on the Group's results can be measured, based on defined risk tolerance thresholds at the corporate level. A description of the risk management model and the risks that materialised during the reporting period can be found in the Annual Corporate Governance Report, which is an integral part of this management report.

In 2022, the Group focused on all aspects related with the supply chain, raw material and energy inflation and food safety matters. The following were deemed relevant risk factors in 2022: aspects related with climate change, sources of green energy and/or alternative and growing regulation around these matters.

The main risks addressed in the model are:

Operational risks:

- Food safety. Given the nature of its business, food safety matters are a critical issue to which the Group pays the utmost attention; those issues are governed by a host of regulations and laws in the numerous countries in which its products are made and sold.

The Group's policy is underpinned by compliance with prevailing legislation and a pledge to upholding stringent food quality and safety standards.

2022 MANAGEMENT REPORT (figures in thousands of euros)

The food safety programmes are based on oversight of protocols designed to ensure identification of certain critical points (called Hazard Analysis and Critical Control Points or HACCP) in order to minimize residual risk.

The main control points are grouped as follows:

- Physical points: controls to detect alien materials or the presence of metals.
- Chemical points: detection of chemical substances or the presence of allergens.
- Biological points: detection of the presence of salmonella and other pathogens.

Most of our food handling processes are certified under either the IFS (International Food Safety), SQF (Safe Quality Food) or the BRC (British Retail Consortium) food safety standards recognized by the Global Food Safety Initiative. The Group also has other local or product-specific standards (e.g., Kosher, Halal or gluten-free food).

The Group companies have also defined, developed and implemented a quality, environmental and food safety model which has been certified in accordance with the UNE-EN-ISO 9001 (food safety management systems), UNE-EN-ISO 14001 (environmental management) and ISO 22000 (food safety management) standards.

Those controls must encompass the entire supply chain, so that the prevention effort extends back to the point of origin and means of transportation thanks to meticulous selection of suppliers and service providers in third countries, framed by the Group's internal food safety protocols.

- Raw material supply risk. The availability of raw materials in sufficient quantities and of the quality needed to satisfy the Group's commitments to its customers and continue to underpin brand positioning is a key business success factor.

To mitigate that risk, the Group has opted to strategically diversify and lock in supply sources by: (i) reaching agreements from season to season with some of the leading raw material suppliers (of rice and wheat durum); and (ii) opening subsidiaries or sales offices in some of the main rice exporting nations (e.g. India, Pakistan, Thailand and Cambodia) and countercyclical markets (Argentina).

- Risk associated with commodity price volatility. Unexpected changes in raw material supply prices can have a material adverse impact on the profitability of the Group's business via its manufacturing operations and its brand retailing efforts. This risk is concentrated in the prices of the various varieties of rice and durum wheat, although the Group is also exposed to variability in the prices of auxiliary materials, transport and energy.

2022 MANAGEMENT REPORT (figures in thousands of euros)

This risk is managed via:

- a) Early identification of potential supply problems or gluts in certain grains or varieties which could expose stocks to price variability. The buyer departments track the markets continually and issue alerts to the managers of the various businesses to enable them to manage the related risks.
- b) The Group locks in volumes at fixed medium-term prices when the market is propitious to these kinds of agreements and sales transactions can be negotiated that will generate stable margins throughout the corresponding periods.
- c) Supply chain management from purchase to receipt of the merchandise. Enabling the changes needed in market sources and means of transport to ensure quality and on-time deliveries.
- d) The Group also attempts to reduce the number of intermediaries in the markets for local or exotic varieties, compressing the value chain.
- e) Lastly, the Group strategically differentiates its finished products and this helps it pass volatility in raw material costs efficiently through to the end consumer.

Management of this risk factor proved extremely complex in 2022 and much of the Group's success last year is attributable to that effort, having struck long-term agreements, built up supply buffers and searched for transportation alternatives when needed.

- Customer concentration risk. This risk factor affects the industrial and retail segments alike (although in the latter instance the end consumer of the products made by the Group are the individuals who eat its foods, the retailers are concentrating - boosting their buying bargaining power - year after year).

This concentration phenomenon can result in less favourable sales terms and conditions, heightened credit risk and even the loss of certain sales.

The Group's geographic diversification helps to mitigate this risk factor as its customers vary by country and for now the retailers' attempts at international expansion have met with limited success.

In parallel, each subgroup has a sales risk committee which allocates risk tolerance thresholds and defines a strategy for enforcing these thresholds. These levels in turn reflect the overall business strategy.

- The risk of falling behind on technology development. One of the Group's most important tools when it comes to tackling the competition is to differentiate and update its products, a strategy underpinned by constant technological innovation and an unwavering effort to adapt its range to consumer demands and wishes. As described further on in this report, the Group's R&D strategy is a cornerstone of its business strategy. Its R&D departments work in close collaboration with the sales & marketing departments to mitigate this risk.

2022 MANAGEMENT REPORT (figures in thousands of euros)

- Cybersecurity. The exponential growth in internet access exposes enterprises and users to attacks of different kinds: identify theft, malware, website attacks, zero-day attacks etc. The Group has an action plan which includes: (i) the provision of continuous staff training on these threats; (ii) the definition of appropriate network infrastructure (firewalls, WiFi access controls, network electronics, browsing permissions and the design of connected industrial networks); (iii) the correct definition of user points (anti-virus, mobile device management systems, permissions, updates); and (iv) data management and safekeeping programmes (back-ups, use of the cloud, shared information, etc.).

Risks related to the environment and strategy:

- Environmental and natural risks. The effects of droughts and floods in the rice- and wheat-growing countries from which the Group sources its raw materials can cause availability issues and price volatility. These natural risks can also affect consumers in affected areas and could even affect the Group's assets in these markets.

Once again, the key to mitigating these risks is to diversify raw material sourcing, as well as the markets the Group's products are targeted at. In addition, the Group has articulated a flexible manufacturing structure with facilities on four continents, minimising the impact of potential local problems.

- Climate change. Climate change encompasses several risks with increasing impacts over the short, medium and longer term that could have a direct impact on the Group's business activities. Those risks, which are cross-cutting in nature, have already been largely built into the Ebro Group's risk matrix. Climate change risks encompass (i) physical risks derived from the increase in extreme climate events worldwide and chronic changes in the environment; and (ii) transition risks as the world transitions to a decarbonised economic model, a thrust that implies legislative changes and changes in economic agents' behaviour, the development of energy-efficient alternative technologies, shifts in market preferences and reputational risks associated with the more exposed activities.

Against that backdrop, in 2020, the Group, following the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), identified the potential risks, impacts and opportunities climate change could have for the organisation, assigning opportune mitigation and/or adaptation measures to each risk. The vast majority of those risks are addressed in the Group's sustainability plan, **HEADING FOR 2030** (more efficient use of water and energy in order to reduce Scope 1 and 2 emissions; increased use of green energy; reduced waste generation and increased waste recovery; packaging recyclability; reduced GHG emissions in logistics, and implementation of sustainable farming practices).

2022 MANAGEMENT REPORT (figures in thousands of euros)

In light of increasingly stringent regulatory requirements at the national and European levels over the past year, coupled with growing pressure from ESG investors and analysts, the Group plans to deepen its analysis of climate risks over the next two years, paying particular attention to its transition risks, designing a climate action plan aligned with the Paris Agreement targets to ensure compliance with applicable legislation and compatibility of the Group's business model and strategy with the transition towards a sustainable economy. By the same token, framed by Spanish Law 7/2021 on Climate Change and Energy Transition, another aspect the Group plans to tackle is quantification of the financial impact on the Group of the risks associated with climate change using the metrics to be specified in the implementing regulations which are expected to be enacted by May 2023.

- **Competition risk.** The Group does most of its business in developed and mature markets in which it competes with other multinational enterprises and a good number of local players. In addition, in these markets the retailers have developed their own private label brands which exert extra pressure on the Group's products.

Management of this risk factor takes the form of measures designed to lead the various product categories or market segments:

- a) Comprehensive analysis of competitor moves and the fine-tuning of pricing and promotional policy in response to the prevailing market situation.
 - b) Product differentiation by innovating in formats, range and quality, all with a clear-cut customer focus.
 - c) Repositioning in high growth potential categories by means of organic business development or acquisitions that fit with the Group's strategy.
- **Reputation risk.** The risk associated with a potential shift in opinion crystallising in a negative perception of the Group, its brands or its products by customers, shareholders, suppliers, market analysts, the social media or other stakeholders with a potential adverse effect on the Group's ability to maintain its customary relations (commercial, financial, labour, etc.) with these stakeholders.

To tackle this risk, the Group has established an internal Code of Conduct designed to guarantee ethical and responsible conduct throughout the organisation by all its staff and the professionals or institutions it engages with in the course of its business activities.

Its brands, along with its people, constitute the Group's most valuable intangible asset, and are accordingly subjected to constant assessment in which different management, marketing, food health and safety, compliance and intellectual and industrial property protection considerations converge.

- **Shifting lifestyles.** New diets such as low-carb diets and other food habits could change how consumers perceive our products.

2022 MANAGEMENT REPORT (figures in thousands of euros)

The mitigating initiatives pursued entail assessment of consumer patterns, fine-tuning of the Group's product range in response to market trends, as well as active participation in forums propitious to disseminating the health virtues of its products.

- Country or market risk. The international nature of the Group's activities exposes its business operations to the political and economic circumstances prevailing in the various territories in which it does business, as well as other market variables, such as exchange rates, interest rates, production costs, etc. The fallout from the UK's withdrawal from the European Union (Brexit) falls under this category (refer to Note 12 of the consolidated financial statements), as do risks from potential geopolitical crises such as that currently playing out in Ukraine and the international response thereto.
- Strategic planning and the assessment of strategic investment/divestment opportunities. This is the risk of making a mistake when selecting among alternatives and/or allocating resources to projects aimed at delivering the Group's strategic objectives. In the short term, this risk includes the need to align budgets with the medium- and long-term objectives set by the Group. This risk is mitigated by requiring transactions above certain thresholds to be approved at the Board level in addition to the customary due diligence performed when the Group makes significant acquisitions, all of which involving the coordinated intervention of senior executives and risk officers.

Compliance risk

- Sector regulations. The food manufacturing industry is subject to multiple regulations, which affect export and import quotas and tariffs, intervention prices, etc., all framed by the European Common Agricultural Policy (CAP). In addition, the Group's activities could be affected by regulatory changes in the countries from which it sources its raw materials or to which it sells its products.

To address this risk, the Group is represented in, voices its views in and follows a number of legal and regulatory forums via a team of prestigious professionals who work to ensure enforcement and compliance.

Within this category an area of growing relevance, and one that is related with other operational risks such as supply and food safety, relates to the increasingly stringent rules on the use of fungicides and pesticides on the crops which lie at the heart of the food industry. These rules are of particular importance to rice growing activities.

To mitigate this risk, the Group has stepped up its quality and fungicide/pesticide detection controls by: (i) working on selecting trustworthy suppliers that will be asked to embrace sustainability criteria; (ii) championing educational drives to encourage farmers to search for natural alternatives to these chemical products; and (iii) reinforcing at-source product controls.

2022 MANAGEMENT REPORT (figures in thousands of euros)

- General regulations. This category encompasses compliance risk with respect to civil law, company law, criminal law and good governance regulations and recommendations. In terms of the risk of white collar crime, the Group's Spanish companies have a crime prevention model which is monitored and controlled by the Compliance Department. That Department likewise monitors the compliance models in place at other overseas subsidiaries, which are tailored for local legislation.

An important aspect within this category is the need to observe, uphold and enforce human rights and suitable standards of ethics, as is enshrined in the Group's Sustainability Plan and its Code of Conduct.

- Tax risk. Potential changes in tax legislation or its interpretation or application by the competent authorities across the Group's business markets could have an adverse effect on its performance.

To mitigate this risk, the Group, through its tax managers and Risk Committee, monitors regulatory developments and potential interpretations thereof, asking tax experts for reports in support of the positions it takes, at all times framed by the principle of prudence. For example, in 2022, the Group rolled out a contingency plan in Spain to address the consequences of the new tax on plastic.

Financial risk

In the course of its ordinary business operations, the Group is exposed to certain financial risks associated with its financial assets and liabilities, particularly its bank loans, overdrafts, equity instruments, cash and cash equivalents. In addition, the Group has other financial assets and liabilities such as trade accounts receivable and payable.

These financial instruments expose it to market risk as a result of movements in interest rates (instruments carrying floating rates), exchange rates (those denominated in currencies other than the euro), changes in their fair value, liquidity risk (the inability to monetise assets within reasonable timeframes or at reasonable amounts) and credit risk (counterparty risk).

A description of these risks and the mitigating measures taken is provided in Note 12 of the accompanying consolidated financial statements.

5. EVENTS AFTER THE REPORTING PERIOD

There have been no other significant events or developments between the end of the reporting period and the date of authorising this management report for issue.

6. GROUP OUTLOOK

As already noted in the section on the general economic environment, the outlook for the global economy in 2023 is for very weak growth. The impact of inflation is expected to gradually wane as interest rates continue to be tightened throughout the year, at paces calibrated for each country's specific circumstances. In other words, a generally more restrictive situation, bordering on recession, which, at least for now, is not having a significant impact on the labour market.

The run-up in prices, the slump in growth and the increase in interest rates are combining to erode household purchasing power, a phenomenon already on display during the last four months of 2022. The value and number of shops can be expected to decline and the make-up of the average shopping basket is likely to shift in favour of discounted and private-label products.

Rice prices remain above the average for the last two years. The FAO price index stabilised in February 2023 but remained 22% higher year-on-year. Prices remain high as the markets watch the new harvests and restrictions in the supply of short-grain rice grown in Italy, Spain and California and long-grain American rice.

As for durum wheat, the outlook is brighter thanks to the new American harvest; however, the unpredictable shape of the war in Ukraine and its impact on oil and fertiliser prices suggest that meaningful price corrections are still unlikely.

▪ **Rice business**

The rice business continues to grow. The demographic and food habit trends are propitious and the number of consumers is growing. The Group's strategy is to spearhead that growth by identifying its brands with health, well-being and convenience values.

Inflation is a challenge. Its management implies a risk that some consumers could switch to classic or even hard discount private-label brands. In response to that situation, the Group is working to provide value for its customers/consumers by means of service excellence, product quality and innovation, combined with nimble management of promotions and channel marketing to address the price factor.

Elsewhere, in 2023, the Ebro Group plans to continue to work hard to lead the premium categories: aromatic varieties, ingredients and ready-to-serve products. The Group is strategically committed to: (i) creating a centre of excellence in the production of plant-protein based ingredients in Benelux; (ii) further developing the Tilda brand as the international benchmark in aromatic and exotic rice varieties; and (iii) adding production capacity in ready-to-serve products in the US, leveraging the experience built at the San José de la Rinconada factory.

2022 MANAGEMENT REPORT (figures in thousands of euros)

▪ **Pasta business**

The traditional pasta market is a mature one. However, the Group is present in the categories that continue to grow: fresh pasta and premium dry pasta.

However, growth in those segments is currently threatened by the current economic weakness as these products are more price-sensitive than other products. The Group's key lines of initiative in 2023 entail:

- Lifting profitability. Absorbing the successive increases in raw material and other ingredient prices and maintaining growth by continuing to calibrate product assortment for demand.
- Building the Garofalo brand into a benchmark in Italian premium dry pasta so that it transcends dry pasta labelling. Expanding product ranges and reach.

Furthering the successes reaped by the pan-fry gnocchi ranges. Deepening the product base through innovation and capacity additions and expanding the concept to new markets.

7. HEADCOUNT AND ENVIRONMENTAL DISCLOSURES

This information is provided in the Non-Financial Statement, which is part of this management report, and in Note 24 of the accompanying consolidated financial statements.

8. R&D ACTIVITY

The Ebro Foods Group has always been a front-runner in terms of new consumer trends and an international benchmark in the research and development of products applied to the food sector. Aware that R&D is essential to the Group's quality and differentiation strategy, it remained unwaveringly committed to innovation in 2022.

In total, R&D expenditure in continuing operations totalled 3.4 million euros in 2022 (1.8 million euros of which funded internally and 1.6 million euros, externally).

Investment in R&D totalled 15.9 million in 2022 and mostly corresponded to payments made during the year to automate the packaging lines at a factory in the US, complete the new microwaveable cup factory in San José de Rinconada and develop new filled fresh pasta and gnocchi processes in France and Italy.

The Group has articulated its R&D engine around research centres located in France, the US, the Netherlands, Italy and Spain. These centres and their main projects in 2022 were:

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

1. The R&D centre located in Lyon. Research focused on the development of fresh pasta, gnocchi, rice, pulse and other grain categories. In 2022 it worked on (i) new production processes and product quality improvements; (ii) productivity gains; and (iii) range extensions, with a focus on new filled gnocchi formats and flavours.
2. Bertagni R&D Center in Arcugnano. Work continued in 2022 on the development of the double-filling technology patented by Bertagni; expansion of the ravioli range and formats; and the development of new technology designed to further reduce food safety risks during production and enhance productivity.
3. United States. The US Research Department focuses on developing new (and adapting existing) products, processes and technologies in the US. In 2022, its work focused on (i) developing a broad range of microwavable cup products adapted for US uses and customs; (ii) developing a new range of instant rice mixes with vegetables; (iii) developing and adapting heating processes; and (iv) testing products and assessing raw materials.
4. Centres associated with the Herba Group in Moncada (Valencia), the San Juan de Aznalfarache plant, the ingredients facility in Wormer (Netherlands) and the Bruno plant (Italy), devoted to (i) the development of new and/or improved product and technologies; (ii) the provision of technical assistance with rice and derivative product technology; and (iii) the development of ingredients with cereal or pulse bases. The most important projects under development include: (i) the development of value-added protein substitutes and new food products for consumers and the food industry; (ii) the development of transformed rice flours and starches that permit alternative treatments and uses; (iii) research into new uses for grains and cereals; and (iv) process optimisation and productivity gains.

9. OWN SHARE TRANSACTIONS

In 2022, the Parent had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meeting held on July 29, 2020 for a period of five years (and duly notified to the CNMV in keeping with prevailing legislation). In 2022, under the scope of the employee share plan, it bought back 42,500 shares, sold 852 and delivered 41,648 own shares to employees. The Company did not hold any own shares at December 31, 2022.

10. OTHER RELEVANT DISCLOSURES

Average payment period

As required under the Spanish Corporate Enterprises Act, it is hereby noted that the average payment period of the companies domiciled in Spain was 32.7 days in 2022 and 27.3 in 2021. Calculations made in accordance with the ICAC (Spanish Accounting and Audit Institute) Resolution.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

2022			2021		
Payments made (€000)		501,532.5	Payments made (€000)		400,672.9
Payments made within deadline (€000)	% of total	488,681	Payments made within deadline (€000)	% of total	390,820
No. of invoices settled within deadline	96%	37,537	No. of invoices settled within deadline	94%	34,462
Average payment period	Days	32.7	Average payment period	Days	27.3
Paid transactions ratio	Days	32.7	Paid transactions ratio	Days	29.0
Outstanding transactions ratio	Days	39.7	Outstanding transactions ratio	Days	13.8

Share price performance

In 2022, the Parent's share price corrected slightly, in line with the rest of its peers and the main stock market indices. Share prices were affected by the slowdown in economic activity in the second half of the year and the prospect of widespread margin erosion across the listed companies. Ebro Foods is generally considered a defensive stock with below-average volatility.

Dividends

At the Annual General Meeting held on June 29, 2022, the Company's shareholders ratified the motion to pay a cash dividend against 2021 profits and unrestricted reserves of 0.57 euros per share (before withholding tax), payable in the course of 2022 for a total outlay of 87,703 thousand euros. The dividend was paid out in three equal instalments of 0.19 euros per share (before withholding tax) on April 1, June 30 and October 3, 2022.

Alternative performance measures

In keeping with the guidelines provided by the European Securities and Markets Authority (ESMA), there follows a description of the main alternative performance measures used in this management report.

These measures are used frequently and consistently by the Group to explain its business performance and their definitions have not changed.

EBITDA-A. Adjusted EBITDA. Earnings before interest, tax, depreciation and amortization and before earnings not related with the operations that generate the regular cash flows associated with the core business (essentially gains or losses deriving from transactions involving the Group's fixed assets, industrial restructuring charges, provisions for or settlements from lawsuits, etc.).

The reconciliation of EBITDA-A and operating profit is provided below:

	2020	2021	2021/2020	2022	2022/2021
EBITDA-A	305,132	301,860	(3,272)	334,622	32,762
Depreciation and amortization	(93,421)	(94,565)	(1,144)	(101,023)	(6,458)
EBIT-A	211,711	207,295	(4,416)	233,599	26,304
Non-recurring income	4,746	9,454	4,708	1,807	(7,647)
Non-recurring expenses	(10,924)	(13,691)	(2,767)	(32,835)	(19,144)
OPERATING PROFIT	205,533	203,058	(2,475)	202,571	(487)

EBIT-A. Adjusted EBIT, calculated by subtracting depreciation and amortization from EBITDA-A.

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Net debt. Interest-bearing financial liabilities, financial derivatives at fair value, the amount of shareholdings subject to put/call options qualifying as financial liabilities and dividends accrued and pending payment, if any, less cash and cash equivalents.

	31.12.20	31.12.21	31.12.22
(+) Non-current financial liabilities	570,267	598,509	553,164
(-) Other current financial liabilities	591,759	445,916	394,833
(+) Available-for-sale financial liabilities	113	0	0
(+) Loans to associates	(1,122)	(1,122)	(1,122)
(-) Deposits payable	(782)	(84)	(676)
(-) Cash and cash equivalents	(210,486)	(539,239)	(184,950)
(-) Derivatives – assets	(1,611)	(527)	(1,457)
(+) Derivatives – liabilities	2,732	1,270	2,843
TOTAL NET DEBT	950,870	504,723	762,635

Average net debt. Net debt, as above, calculated on a 13-month moving average basis.

Capex. Payments for investments in productive fixed assets. Refer to the consolidated statement of cash flows.

ROCE-A. A measure of the return on assets calculated as average earnings before interest, tax and non-recurring items for a given period divided by average capital employed during that period, that average in turn defined as the moving average for the prior 13 months. This metric was calculated in the same manner as in prior years.

Capital employed (average). The sum of intangible assets, property plant and equipment and working capital on a moving 13-month moving average basis. It is accordingly not a simple arithmetic average or a calculation based solely on the financial information presented in the consolidated financial statements. It is not therefore possible to provide a direct reconciliation with headings, sub-totals or totals presented in the financial statements.

Working capital (average). The sum of inventories and trade and other receivables less trade and other payables on a 13-month moving average basis. As with capital employed, this metric not a simple arithmetic average or a calculation based solely on the financial information presented in the consolidated financial statements. It is not therefore possible to provide a direct reconciliation with headings, sub-totals or totals presented in the financial statements.

Leverage. A measure of creditworthiness calculated as the ratio of average net debt to equity.

Debt coverage ratio. A measure of the Group's ability to service its net debt from earnings measured as the ratio of net debt to EBITDA-A.

1. ABOUT THIS REPORT

This report (the “**Report**”) contains the Non-Financial Statement of Ebro Foods, S.A. (the “**Company**”) and is part of the Management Report in the Consolidated Annual Accounts of the Company, as parent of the Ebro multinational group (the “**Ebro Group**” or the “**Group**”).

Reporting Period

2022

Reporting Framework

In this statement we report on the social, environmental and/or economic aspects that are important for the Ebro Group. The report has been prepared, in all material aspects, in accordance with the stipulations of prevailing commercial law and following the criteria of the selected GRI standards, as well as other criteria described according to the relevant provisions in the “Index of contents required by Act 11/2018 of 28 December on non-financial information and diversity”.

Scope and Coverage of the Report

The report presents on a consolidated level the non-financial indicators of all the companies operating the core businesses of the Ebro Group and their respective industrial sites (see Annex 1).

The energy consumption of five of the ten offices leased by the Ebro Group are also excluded, as we do not have consistent quantitative data and because their emissions correspond to Scope 3. Those offices are leased by Ebro Foods, S.A. in Spain (three offices in Madrid, Granada and Barcelona), Riceland in Hungary and Euryza in Germany (commercial office).

Changes in the reporting perimeter

During 2022, the Group completed two corporate investment and divestment operations:

1. On 25 February 2022, through the US subsidiary Riviana Foods, the Group reached a binding agreement to purchase the assets of InHarvest, Inc., a US company with a major presence in the industrial business (B2B), Food Service and Private Label for premium specialties of rice, quinoa and grains in the United States.
The operation was completed on 1 April 2022 for a sum of USD 48.75 million and the company has been integrated within the perimeter of Riviana Foods USA.
2. In June 2022, Ebro sold the French company Roland Monterrat, selling sandwiches and fresh ready-to-serve meals, for EUR 22 million.

For the purpose of this Report and with a view to facilitating comparison of the information in the Non-Financial Statements, all the non-financial indicators referring to the divested business of Roland Monterrat have been excluded from the 2021 data and those corresponding to the business of InHarvest have been incorporated in 2022.

2. BUSINESS MODEL

The Ebro Foods Group is the leading food group in Spain, global leader in the rice sector and has a prominent global position in the categories of premium and fresh pasta, leader in the countries in which it operates. Through a network of 34 subsidiaries, it operates in the principal rice and pasta markets in Europe, North America and South East Asia, with a growing presence in other countries.

The main mission of the Ebro Group is to research, create, produce and put on the market high value-added foods that satisfy people's nutritional needs while improving their health and well-being, endeavouring at the same time to secure a transparent, efficient, sustainable business model.

The Group has a multi-company, multi-country and multi-brand business model. It has a decentralised culture in each of its subsidiaries for certain management areas, such as Commercial and Marketing, Logistics, Procurements, Human Resources and Environment, with a clear focus on an adequate business for each country, taking account of its specific idiosyncrasies, culture, laws, etc. At a higher level, the parent company (Ebro Foods, S.A.), with a light, dynamic structure, is responsible for defining the Group's overall strategy and management guidelines. Decision-making is prompted by the parent's board of directors.

The Ebro Foods Group is managed by business areas that combine the type of activity they perform and their geographical location. Our core business areas are:

- a. Rice: This covers the production and distribution of different rice varieties and their by-products and culinary supplements. The industrial and brand business follows a multi-brand model. It is present throughout Europe, the Mediterranean Arc, Southern Cone and South East Asia through companies in the Herba Group, and in North and Central America, the Caribbean and the Middle East through the Riviana Group.
- b. Fresh and premium pasta: This includes the production and marketing of premium dry pasta and fresh pasta. The fresh pasta business is conducted through the Ebro Premium Foods Group in France and Benelux, the Bertagni Group in a large number of countries and the Riviana Group with the Olivieri brand in North America. The business in the premium dry pasta segment is conducted through Garofalo (Italy and rest of world).

In both businesses, in keeping with the Group's undertaking to promote healthy eating, practically all our brands include a range of products in the health, bio and organic categories.

Global presence

The Ebro Group operates through a portfolio of 81 brands in 61 countries, with industrial and commercial facilities in 16 of them. In the remaining 45 countries, we only engage in commercial activity. Our industrial park comprises some 78 sites, including production plants, offices and warehouses.

Chile	Greece	Kuwait	Qatar	US Virgin Islands
Czech Republic	Haiti	Lebanon	Romania	Yemen

Financial metrics

In 2022, the Group's net turnover was EUR 2,967.6 million up 22.3% on 2021. Our Adjusted EBITDA was EUR 334.6 million, a 10.9% year-on-year growth. Net profit on a like-for-like basis (i.e. excluding the contribution by the divested dry pasta businesses) was down 6.6% to EUR 135.6 million, while net debt stood at EUR 762.6 million, EUR 257.9 million more than at year-end 2021.

The company had a market capitalisation at 31 December 2022 of EUR 2,255.6 million.

Environment and trends

2022 was especially turbulent. The invasion of Ukraine by the Russian Federation on 24 February unleashed a succession of inflationary surges in the prices of numerous raw materials and energy. This supply "shock" coincided with the tail end of the COVID-19 pandemic, which had already put pressure on the markets of several materials and transport. As a result, many developed countries have experienced annual inflation rates close to two-digit figures.

The global GDP was estimated to have risen by 2.9% in 2022, with a growth of 1.9% in the United States contrasting with the 5.9% recorded in 2021, and 3.3% in the European Union (5.3% in 2021). The economic slowdown commenced as the monetary authorities adjusted their expansion policies from previous years, draining the system of liquidity, and imposed tougher financial conditions, causing a decline in consumer confidence.

The rate at which interest rates rose in the principal economies varied according to the margins their central banks had to act against inflation. The United States, with good employment figures and a smaller energy dependence, was able to apply a more restrictive monetary policy, while the European Central Bank followed the international situation.

The third lowest economic growth in the past three decades is expected in 2023, below only 2009 and 2020 (financial crisis and pandemic). In spite of this, the latest figures on growth, inflation, employment and housing sales allowed certain optimism and forecasts suggest that most of the world economies will avoid a technical recession.

From the point of view of consumption, the pandemic can be considered over. Some consumption patterns that emerged during the pandemic are here to stay, but the pace of change is easing and is now similar to the situation prior to 2020.

The growth of e-commerce has slowed and local supermarkets have taken centre stage in traditional commerce. Owing to inflation and the crisis indicators, hard discount is gaining weight within distribution, with growing numbers of outlets and market shares.

Meanwhile, business in the hospitality sector has fully recovered. Despite inflation, post-covid habits seem to be holding their ground and people's need to socialise is stronger than their budget restrictions.

The general trends are towards:

Increased personal consumer experience, sustainability, health, pleasure and price

Consumers now have greater decision-making capacity, more information and more shopping tools, and they are willing to pay more for products they can relate to and that meet their desires.

This is associated with:

- a. Demand for quality products that are easy to prepare and immediately satisfy their wish to buy.
- b. Preference for natural, healthy, organic products. The increased consumption of fresh products and the importance given to small companies and start-ups that make consumers feel in touch with nature are very much in tune with this sentiment.
- c. Search for sustainable products corresponding to the circular economy that are sustainable and include different players in their preparation and sale. An ethical base is created in respect of what is consumed.
- d. Desire for a wider choice. Quality private label brands have broadened their customer base, spanning practically all social classes and segments of population. Thanks to inflation, private label brands become more prominent in the shopping basket.

Social changes

- a. Ageing population, increased power of older generations. The baby boomers have transformed this segment of the population; their purchasing power has increased and their aspirations and needs (activity and health) differ from those traditionally associated with this social group.
- b. Smaller families, with a constant growth in the number of single-member households; new formats and customised goods and services.
- c. The younger generations are more concerned about social and environmental issues and sustainability.
- d. Increased mobility and immigration in many developed countries, accompanied by new tastes and ways of preparing food.

New channels and services

- a. On-line shopping and connectivity (possibility of shopping through traditional operators, who offer easy use, fast deliveries, etc.).
- b. Growth of local supermarkets, with more frequent shopping and increased availability (24-hour opening, alliances with filling stations or other high-traffic points).
- c. Consolidation of virtual stores, such as Amazon, and appearance of other new players in the distribution market along with the new consumer trends and the use of technology.
- d. New ways of cooking or consuming food (by order, through vending machines, snacks as meal substitutes, etc.).

All these changes have brought new challenges for distributors and producers, making it essential to convert both physical and digital points of sale into strategic centres. Adequate visibility and variety is key to success.

The technological revolution, plus the fact that digital natives are now a sales target, has brought radical change in how brands communicate. From the message to the media. The appearance of influencers as a channel and recommendation as a strategy have also changed how brands act. Investments in advertising are shifting towards digital media, which currently account for over 50% of the Group's publicity actions. These actions are characterised by their agility, including permanent listening to consumers up to the launching of products, which shortens times and enables us to react more swiftly.

Finally, our commitment to sustainability throughout the value chain is fundamental: Convenience + Health + Sustainability are the drivers of innovation.

Strategy and value creation

The Group's strategy focuses on becoming a major player in the rice, fresh pasta, premium dry pasta and healthy grains markets, and in other cross categories within the 'convenience' segment. Within that strategy, the Group has the following goals:

- Reach a global position in our relevant markets, open to the incorporation of related products.

- Consolidate our status as a benchmark business group in our different business areas, leading in markets where the Group finds potential.
- Lead innovation in the geographical areas in which we are present.
- And establish ourselves as a responsible enterprise, committed to social well-being, environmental balance and economic progress.

To refine our strategy, the Group is underpinned by general principles of conduct and growth levers that are considered vital to raise the value of our business and step up our firm commitment to sustainable development.

Principles of conduct

- Foster ethical management based on good governance practices and fair competition.
- Comply with the laws in place, acting at all times with a view to preventing and minimising not only economic risks, including tax risks, but also social and environmental risks.
- Seek a return on investment while guaranteeing the operational and financial soundness of its business activities. Uphold business profit as one of the bases for the future sustainability of the company and the large groups of agents directly and indirectly related with it.
- Generate a framework of labour relations that favours training and personal and professional development, respects the principles of equal opportunities and diversity and promotes a safe, healthy working environment.
- Reject any form of abuse or violation of the fundamental and universal rights, in accordance with international law and practice.
- Promote a relationship of mutual benefit with the communities in which the Group is present, proving ourselves sensitive to their cultures, contexts and needs.
- Satisfy and anticipate the needs of our customers and end consumers, offering a broad array of products and healthy, differentiated food.
- Steer the processes, activities and decisions of our company not only to generate profits, but also to protect the environment, prevent and minimise environmental impact, optimise the use of natural resources and preserve biodiversity.
- Develop a framework of responsible, true, transparent dialogue and communication with stakeholders, establishing stable communication channels and providing stakeholders regularly and transparently with rigorous, accurate, important information on the Group's activities.

To achieve the strategic goals set for growth and sustainable leadership and ensure that we comply with our principles of conduct, the Group applies the following guidelines:

1. Search for organic and inorganic growth in countries with high levels of consumption and/or high growth potential.

- Move into new territories or categories, paying special attention to new fresh products and new ranges of ingredients with greater value added.
 - Develop products that offer a complete culinary experience, extending our catalogue with new formats, flavours and ready-to-serve meals.
 - Achieve leadership in mature markets, opting for differentiation based on product quality. Expand and lead the premium category by developing the enormous potential of our flagship brands.
 - Broaden our geographical presence and complete our product/country matrix:
 - Seeking business opportunities in mature markets with a business profile similar to ours and in specialist market niches that allow us to shift our strategy from a generalist position to that of a multi-specialist (individual solutions).
 - Expanding into new business segments within markets in which we are already present or markets with considerable potential for growth.
2. Differentiation and innovation, investing in two aspects to enhance our product range:
- Research, development (R&D) and innovation through our own research, development and innovation centres and an investment policy that enables us to convert new ideas and needs into reality for our customers and end consumers.
 - Focus on leading brands in their respective segments, together with a commitment to invest in advertising to promote their development.
3. Low risk exposure. The Ebro Group deals with change in the consumer and financial markets and social change with a firm vocation to adaptation and permanence.
- To achieve this, we endeavour to secure: (i) balanced sources of recurring income (markets, currencies), (ii) low leverage so that it can grow without exposure to “financial turmoil”, (iii) new supply channels and (iv) long-term relations with its stakeholders (customers, suppliers, authorities, employees and society).
4. Implementation of sustainability throughout the entire value chain (“from the farm to the table”) through the Sustainability Plan RUMBO A 2030 [“Heading for 2030”], which focuses on:
- **People.** The development of plans and measures to enhance respect for human rights in our business transactions and the well-being of our professionals at work, promoting continuous training and professional development to retain talent, seeking formulas to enhance their work-life balance, equality and diversity, and health and safety at work, while driving initiatives that foster social and economic progress and help to reduce inequality in the communities in which we operate.
 - **Health and well-being.** The promotion of health through food, offering natural, healthy, differentiated food products that help consumers maintain a healthy diet

and lifestyle and provide pleasure. The R&D and innovation department works with these premises and the different communication channels of our brands focus their message on encouraging healthy eating habits and creative ways of eating through recipes, blogs and advertising campaigns.

- **Our planet.** The preservation and minimising of our environmental impact throughout the entire value chain, paying special attention to mitigating and adapting to the effects of climate change. With this in mind, either individually or jointly with other stakeholders, the Group promotes sustainable agriculture programmes in our main sourcing areas, fosters energy efficiency measures and the use of green energies, and develops different initiatives aimed at securing the Group's transition towards a circular economy, such as recycling packaging materials, replacing plastics and reusing and recycling waste.

3. CORPORATE SOCIAL RESPONSIBILITY AND SUSTAINABILITY MODEL

Definition of the model

The Ebro Group considers sustainable growth one of the basic pillars of its management strategy, to secure its consolidation as a benchmark business group in its areas of activity and position itself as a global, sound, innovative, responsible enterprise committed to social well-being, environmental balance and economic progress. Accordingly, it has incorporated environmental, social and ethical criteria in its decision-making processes, alongside the typical economic variables.

In this context, the Ebro Group views Corporate Social Responsibility (CSR) as the creation of a sustainable business model, which, as well as contributing value, profitability and competitiveness, contributes towards the progress of society, generates trust among our stakeholders and leads to the creation of shared value for all those who interact with us in our business activities.

The Group has followed a four-stage procedure to define and design this CSR model:

1. Diagnosis of the sustainability measures taken by the different companies in the Group.
2. Analysis of our value chain with a view to identifying the potential risks and impacts, both positive and negative, of our operations. Within this process we have identified three key areas, in which we can make the most valuable contributions to society as they are inherent in our core business and present throughout the entire chain: (i) nutrition and health, (ii) agricultural development, by promoting and implementing sustainable agricultural practices, and (iii) environmental management.
3. Interaction with our internal and external stakeholders, which has enabled us to identify their main concerns and incorporate their suggestions in the design and implementation of the Group's action plans.
4. Materiality analysis: In 2022, following the guidelines of the new Corporate Sustainability Reporting Directive (CSRD), we worked with KREAB Spain on making a double materiality assessment. In this regard, our present materiality matrix contemplates the most important sustainability issues from the perspective of business continuity (financial materiality) and those more important by virtue of their environmental, economic or social impact on the Group's stakeholders or the natural environment (impact materiality).

Double materiality assessment

This assessment was based on the areas of action and impacts of Ebro Foods grouped by topics and indicators, with reference to the following standards and legislation: (i) Act 11/2018 Spain, (ii) RS Global Reporting Initiative (GRI), (iii) Dow Jones Sustainability Index (DJSI), (iv) MSCI and (v) SASB Materiality Map – Sustainability Accounting Standards Board Food and Beverages.

Following a study of the catalogue of impacts, the different indicators have been grouped into 18 material topics, in turn grouped into 4 major categories of topics encompassing the different

themes: Working Capital, Governance and Organisation, Human Capital and Environmental Capital.

CATALOGUE OF POTENTIAL MATERIAL TOPICS

TOPICS THAT STAKEHOLDERS HAVE BEEN ASKED ABOUT IN THE DIFFERENT CONSULTATIONS

1. WORKING CAPITAL	1. Food quality and safety
	2. Consumer satisfaction
	3. Innovation
	4. Responsible supply chain
2. GOVERNANCE AND ORGANISATION	5. Good governance
	6. Tax contribution and institutions
3. HUMAN CAPITAL	7. Health and safety of professionals
	8. Human rights
	9. Social impact and local communities
	10. Talent attraction and retention
	11. Diversity and inclusion
	12. Development of human capital
4. ENVIRONMENTAL CAPITAL	13. Circular economy and use of resources
	14. Mitigation and adaptation to climate change
	15. Food waste
	16. Pollution control and prevention
	17. Biodiversity and ecosystems
	18. Water and marine resources

Seven countries were consulted for the assessment (Spain, United Kingdom, United States, Italy, Netherlands, India and Thailand), selected according to three essential criteria:

1. Importance for business
2. Interest in sustainability matters
3. Combination of developed and developing countries

Seven stakeholders were also consulted, as priority communities for the company:

- Internal: employees and executives
- External: customers, suppliers, third sector, media and investors

Four variables were analysed:

1. Impact materiality: the matters of greatest importance for the different communities, from the point of view of the impact generated on the environment or society by the Group's management of them.
2. Financial materiality: a concept contemplated by EFRAG only for executives, and

assessed with the following question: How could management of the following elements affect the company's operations (revenue, costs, liquidity, debt or asset value)?

3. Most important topics: those considered most important by the different segments of their stakeholders. (This would be equivalent to the former materiality.)
4. Priority areas for improvement: identification of the principal areas for improvement in which Ebro Foods should make progress.

Based on the foregoing, the resulting double materiality matrix and the principal topics to be managed are shown below:

● Priority areas for improvement ● Rather important areas for improvement ● Non-priority areas for improvement ◆ Topics considered most important

PRINCIPAL TOPICS TO BE MANAGED

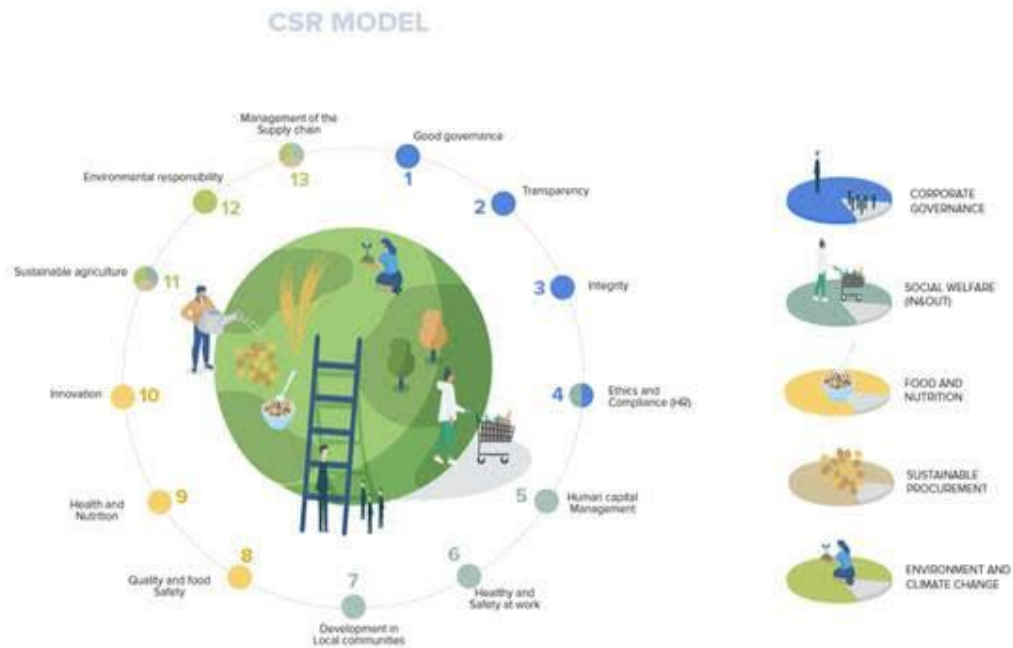

The principal topics to be managed by Ebro Foods, on the grounds that they are financially important, materially important or both, are, from a global, aggregated perspective:

- 1. Food quality and safety
- 2. Consumer satisfaction
- 3. Responsible supply chain
- 4. Health and safety of professionals
- 5. Innovation
- 6. Human rights
- 7. Social impact and local communities

Working areas in CSR and Sustainability

The conclusions of the double materiality assessment confirmed that the five strategic focal points identified by the Group coincide with the expectations of the different stakeholders: **Our Team, Our Community, Our Public, Our Shareholders and Our Environment**, and the corresponding five areas for action organised around the economic, environmental, social and governance pillars, namely: **Corporate Governance, In&Out Social Well-Being, Food and Nutrition, Sustainable Procurement and Climate Change**.

Thirteen principal working priorities are established around these focal points and areas for action to guarantee sustainability in each aspect of our business.

To make these 13 priorities effective, our Global Sustainability Plan (GSP) HEADING FOR 2030 [“HEADING FOR 2030”] lays down the guidelines and action plans that the Ebro Group will implement up to 2030 to grow sustainably, complying with the stipulations established in the regulatory framework of the EU and the different countries in which we operate, meeting the demands and expectations of our stakeholders, contributing towards achievement of the 2030 Agenda and minimising the negative impacts that our operations may have on the environment while maximising the positive effects of those activities.

The three main pillars of action of HEADING FOR 2030 are people, health through food and the planet.

With regard to people, the Plan promotes the well-being at work of our professionals, supporting ongoing training and professional development to retain talent, seeking ways to balance work and home life and ensuring equal opportunities, diversity and health and safety at work. It also continues to implement actions that contribute towards social and economic development in our areas of influence.

Our primary goals in caring for the planet are to guarantee the environmental efficiency of all the Group’s operations, working to mitigate and adapt to the effects of climate change and guarantee the sustainability of our principal raw materials.

As for the third pillar, with the aim of securing the health and well-being of our consumers and the society at large, the Plan focuses on supplying a broad array of safe, healthy products, overseeing the quality and food safety of those products and actively promoting healthy eating habits and lifestyles.

A specific microsite has been set up as an information and monitoring tool for the Plan, on the domain caringforyouandtheplanet.com, the Group’s motto in CSR and Sustainability.

Alignment of the model with the Sustainable Development Goals (SDGs)

All the actions taken by the Ebro Group within its Social Responsibility and Sustainability framework are related directly or indirectly with the 17 SDGs, but we have singled out the ones to which we make the greatest contribution by virtue of our business activities.

So based on our Sustainability Plan HEADING FOR 2030, we have defined the following priority SDGs: 1 (No poverty), 2 (Zero hunger), 8 (Decent work and economic growth), 10 (Reduced inequalities), 12 (Responsible consumption and production), 13 (Climate action) and 17 (Partnerships for the goals).

Alliances with environmental and social entities and initiatives

The Ebro Group and its Foundation belong to or have established alliances with different organisations or multi-stakeholder platforms that encourage and channel companies' commitment to society and the environment. Through these alliances they can give greater scope to the actions developed within their CSR strategy. Some of the important organisations are:

Signatory of the United Nations Global Compact

www.pactomundial.org

Member of the Spanish Commercial Coding Association (AECOC) project against food waste
"Don't waste food, use it"

<http://www.alimentacionsindesperdicio.com/>

Member of the SERES Foundation

<http://www.fundacionseres.org/Paginas/Inicio.aspx>

Member of Forética

Sustainable Agriculture Initiative (SAI) Platform

<http://www.saiplatform.org/>

Sustainable Rice Platform (SRP)

<http://www.sustainablerice.org/>

Policies and Governance

In order to define the general guidelines of the Group and its associates and the integration of ESG criteria in our business model, the Group is governed by the following policies and principles of conduct approved by the Board of Directors:

1. Code of Conduct of the Ebro Group
2. Supplier Code of Conduct
3. Sustainability, Environment and Corporate Social Responsibility Policy
4. Social Policy
5. Risk Control and Management Policy
6. Corporate Governance Policy
7. Corruption and Bribery Policy
8. Internal Code of Market Conduct
9. Policy for the Selection and Diversity of Directors
10. Senior Executive Remuneration Policy
11. Dividend Policy
12. Investment and Financing Policy
13. Treasury Stock Policy
14. Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors
15. Policy on Communication of Financial, Non-Financial and Corporate Information

The strategy and actions taken in the area of Social Responsibility and Sustainability of the Group are supervised by the Audit, Control and Sustainability Committee of Ebro Foods, which in turn reports to the Board of Directors of the company on the most important aspects.

External assessments

Since 2015, Ebro Foods has been part of the FTSE4Good Index Series, an international sustainability index that includes companies that prove their commitment and leadership in environmental, social and corporate governance aspects. Our inclusion in this index confirms that we are a socially responsible investment vehicle.

During 2022, we obtained the following external accolades:

1. Inclusion in the Standard Ethics Spanix Index
2. Inclusion in the IBEX Gender Equality Index for promotion of gender equality

3. Gaia ESG Rating

Taxonomy of the European Union

With a view to reorienting capital flows towards more sustainable activities, meeting the EU 2030 framework for climate and energy and achieving the goals of the European Green Deal, on 22 June 2020 the EU published Regulation (EU) 2020/852, known as the Taxonomy Regulation.

The Taxonomy Regulation establishes six environmental objectives:

1. Climate change mitigation
2. Climate change adaptation
3. The sustainable use and protection of water and marine resources
4. The transition to a circular economy
5. Pollution prevention and control
6. The protection and restoration of biodiversity and ecosystems

The Regulation also establishes the four conditions that must be met by an economic activity to qualify as environmentally sustainable:

1. It must contribute substantially to one or more of the six environmental objectives.
2. It must not significantly harm any of the other environmental objectives.
3. It must be carried out in compliance with the minimum (social) safeguards laid down in Article 18 of the Taxonomy Regulation.
4. It must comply with technical screening criteria that have been established by the Commission through specific delegated acts.

Accordingly, a first delegated act was passed on 21 April 2021 on sustainable activities for climate change adaptation and climate change mitigation. The delegated regulation was formally adopted on 4 June 2021 (Commission Delegated Regulation (EU) 2021/2139). A second delegated act for the remaining objectives has not yet been published.

On 6 July 2021, the European Commission adopted the delegated act (2021/2178) specifying the contents, methodology and presentation of the information to be disclosed by financial and non-financial undertakings.

Application of the Taxonomy in Ebro Foods

The Taxonomy Regulation stipulates that undertakings subject to the Non-Financial Reporting Directive (NFRD) are obliged to disclose how their business activities align with the Taxonomy according to the following calendar:

2022	2023
January	January
Obligation to disclose <u>taxonomy-eligible activities</u>	Obligation to disclose <u>taxonomy-aligned activities</u>

In line with this directive, during 2021 the Social Responsibility, Sustainability and Finance departments of Ebro Foods, as parent of the Group, analysed the current alignment between the environmental actions promoted by the companies in the Ebro Group and the taxonomy-eligible activities contemplated in the current Taxonomy framework, and the financial details associated with those environmental actions.

According to the results of that analysis, the current development of taxonomy does not contemplate the business activities performed by the Ebro Foods Group as taxonomy-eligible activities. Consequently, nor does the Group have any taxonomy-aligned activities to report in 2022.

The main conclusions of the analysis are set out below:

1. For the time being, the EU Taxonomy has only developed the economic activities corresponding to two environmental objectives: i) climate change mitigation and ii) climate change adaptation, which do not so far cover the entire range of activities undertaken by the companies. In this regard, the economic activities performed by the companies of the Ebro Group, classified within the EU Statistical Classification of Economic Activities (NACE) C1061 (manufacture of grain mill products), C1073 (manufacture of pastas) and C1085 (manufacture of prepared meals and dishes), are not included within the framework of taxonomy-eligible activities.
2. The environmental actions taken by the Ebro Group in the area of climate change mitigation and adaptation: (i) are included among the environmental sustainability objectives of the company, and (ii) are not environmentally sustainable economic activities as they do not have associated revenue, they have negligible OpEx and CapEx, close to zero, and they do not substantially contribute towards the two environmental objectives of the Taxonomy defined so far.
3. Although they do not meet the conditions for qualifying as taxonomy-eligible activities, some of the Group companies launched autonomous energy consumption actions during 2022 that could be classified within group “4.2.4 production of heat/cold from bioenergy”, although its representativity is negligible.

The EU is expected to publish the delegated acts corresponding to the other four environmental objectives of the Taxonomy during 2023. The Group will then study whether they contemplate any eligible activities associated with its business activities and, if so, it will put in place the necessary reporting procedures.

4. RISK MANAGEMENT

As one of the corporate policies approved by the board of directors, the Risk Control and Management Policy lays down the basic principles and general framework for control and management of our business risks, including tax risks, and internal control of financial reporting to which the Company and other Group companies are exposed.

Within this general framework, the integral, homogenous Risk Control and Management System is based on the preparation of a business risk map, where risks are identified and assessed and risk management capacity is graded to obtain a ranking of risks from greater to lesser impact for the Group and their probability of occurrence. The risk map also identifies the measures to mitigate or neutralise the risks identified.

The risk universe is grouped into four main groups: compliance, operational, strategic and financial. The first three groups also include the principal non-financial risks related with the company's business. We describe these non-financial risks below:

Compliance risks

1. Sector regulation. The agro-industrial sector is subject to numerous regulations affecting export and import quotas, customs duties, intervention prices, etc., subject to the guidelines set down by the Common Agricultural Policy (CAP). The Group's activity may also be affected by changes in legislation in the countries where the Group sources raw material or sells its products.

The Group deals with this risk by participating in or echoing the different legal and/or regulatory forums through a number of prestigious professionals who endeavour to secure adequacy and compliance.

Within this group, the increasingly strict laws on the use of fungicides and pesticides on the basic crops for this industry, especially rice, are becoming more and more important and linked to other operational risks such as supply and food safety.

To mitigate this risk, the Group has stepped up its quality controls and checks to detect this type of product, working on a selection of protection providers, who are going to be asked to incorporate sustainability criteria in their policies, and providing more education for growers to seek natural alternatives for these products.

2. General regulation. This includes compliance risks concerning civil, mercantile, criminal and governance laws and regulations. To help deal with criminal risks, the Group has a Crime Prevention Model, which covers our Spanish companies. Our principal subsidiaries have similar structures, adapted to their respective local laws and regulations. The Compliance Unit monitors and controls them all.

One specific part concerns respect for and compliance with Human Rights in accordance with the ethical standards promoted in the Group's Code of Conduct. To prevent and mitigate this risk, the Group has different SMETA audits made every year on its supply chain and implements internal awareness and training plans. In accordance with the EU 'Proposal for a Directive on corporate sustainability due diligence' published on 23 February 2022, the company has set itself the goal for 2023 and 2024 of making an exhaustive analysis to identify any risks of adverse human rights impacts both inside and outside the consolidated Group and develop a Due Diligence System.

3. Tax laws. Any change in the tax laws or their interpretation or application by the competent authorities in the countries in which the Group operates could affect our earnings.

To mitigate this risk, the Group, directed by those responsible for taxation, monitors the tax laws and possible interpretations thereof, requesting specific reports from specialists to support its stand, guided at all times by a principle of prudence in this matter.

In the process of classifying risks, a dynamic assessment is made of both inherent risk and the residual risk after applying the internal controls and protocols established to mitigate them. Those controls include preventive measures: an adequate segregation of duties, clear levels of authorisation and the definition of policies and procedures. These controls can in turn be grouped into manual and automatic, the latter being implemented by computer applications.

This model is both qualitative and quantitative and can be measured in the Group's earnings, so the risk level is considered acceptable or tolerable on a corporate level.

The Risk Control and Management System is dynamic, so the risks to be considered vary with the circumstances in which the Group operates.

The Risk Control and Management System, including tax risks and control of financial reporting, is based on the following structure:

- ✚ The Board of Directors, as the body ultimately responsible, determines the risk control and management policy, including tax risks and control of financial reporting.
- ✚ The Audit and Compliance Committee, through the Risks Committee, supervises and monitors the financial reporting and risk control systems, regularly informing the Board of any material aspects occurring in these areas. It is also responsible for supervising and overseeing internal control of the Group and the Risk Management Systems, and for proposing to the Board the risk control and management policy and any measures for enhancing these areas.
- ✚ The Risks Committee, based on the policy established by the Board and supervised by and answering to the Audit Committee, is specifically responsible for coordinating and monitoring the risk control and management system, including the Group's financial reporting and tax risks. The analysis and assessment of risks associated with new investments also falls within the remit of the Risks Committee.
- ✚ The Management Committees of the different units, on which the Chairman of the Board and the Chief Operating Officer (COO) sit, assess the risks and determine the measures to be implemented.
- ✚ Risk officers in the different units. The Risks Committee appoints officers in the major subsidiaries to monitor the Risk Control and Management System, including tax risks and financial information, and reporting to the Committee.
- ✚ Internal Audit Department. Within the internal audits made of the different subsidiaries, the company's Internal Audit Department checks that the financial reporting and risk management testing and control have been conducted adequately, complying with the indications of the Risks Committee.

Operational risks

1. Food safety. Given the nature of the business, aspects regarding food safety are a critical point to which the Group pays special attention, being bound by a large number of laws and standards in each of the countries in which our products are produced and sold.

The Group's policy is based on the principles of compliance with the laws in force from time to time and guaranteeing food safety and quality.

The food safety programmes are based on following protocols to identify and control certain critical points (Hazard Analysis and Critical Control Points –HACCP-), so that the residual risk is minimal.

The main control points are grouped into:

- Physical points: controls to detect foreign bodies or the presence of metals
- Chemical points: detection of chemical elements or the presence of allergens
- Biological points: presence of elements such as salmonella or any other kind of pathogens.

Most of our handling processes have obtained IFS (International Food Safety), SQF (Safe Quality Food) and/or BRC (British Retail Consortium) certificates, recognised by the Global Food Safety Initiative (GFSI) as food product certification standards, as well as local and special product certificates (Kosher, gluten-free or Halal foods).

The Group has also defined, developed and implemented a quality, environment and food safety management system compliant with the requirements of the standards UNE-EN-ISO 9001 (Quality management), UNE-EN-ISO 14001 (Environmental management) and ISO 22000 (Food safety management).

2. Technological (trailing behind) risk. One of the most important tools for standing up to competition is differentiation and product alignment, which is based on constant technological innovation and the endeavour to adapt to consumer desires. The R&D and innovation strategy is a fundamental part of the Group's general strategy. The R&D and innovation departments, in close collaboration with the Commercial and Marketing departments, work on reducing this risk.
3. Cybersecurity. The exponential growth of internet access exposes companies and users to different types of attack: identity theft, malware, attacks on websites, zero-day attacks, etc. The Group has an action plan contemplating: (i) the ongoing training of personnel on these threats, (ii) the definition of an adequate network infrastructure (firewalls, Wi-Fi access, network electronics, browsing possibilities and design of connected industrial networks), (iii) the correct definition of user points (antivirus, mobile device management systems, permissions, updates) and (iv) a programme for data preservation and management (back-ups, use of the cloud, shared information).

Environmental and strategical risks

1. Environment and natural risks. Drought and flooding in the commodity-producing countries can cause problems of availability and price instability. These natural risks can also affect consumers in the affected regions or even the Group's assets in those locations.

The best way of mitigating this type of risks is to diversify both the sourcing of raw materials and the countries in which our products are sold. The Group also makes sure it has flexible production capacity with plants in four continents, which minimises possible local problems. In addition, the Group has taken out insurance policies covering all its plants and sites, which would mitigate any disaster that could jeopardise their value.

2. Climate change. Climate change encompasses several risks with growing impact in the short, medium and long term, which might directly affect the development of our business activities and which, owing to their cross-cutting nature, are already largely included in the risk matrix of the Ebro Group. These risks include, on the one hand, the physical risks deriving from the increase in extreme climate events throughout the world, as well as chronic changes in the environment and, on the other hand, those deriving from the transition towards a decarbonised economic model, including changes to the law or in the behaviour of economic operators, the development of energy efficient alternative technologies, changes in market preferences or reputational factors associated with the activities having a greater impact.

Accordingly, in line with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), in 2020 the Group made an analysis to identify the potential risks, impacts and opportunities that climate change may have in our Organisation, establishing appropriate mitigation and/or adaptation measures for each one, the vast majority of them contemplated in our sustainability plan **HEADING FOR 2030**: (i) make a more efficient consumption of water and energy to reduce Scope 1 and 2 emissions; (ii) increase the use of green energies, re-use and reduce waste; (iii) use recyclable packaging; (iv) reduce GHG emissions in logistics; (v) implement sustainable agriculture models.

Types of risk	Risks	Impacts	Measures
Financial Operational Strategic	Extreme climate events: droughts, torrential rain, hurricanes...	<ol style="list-style-type: none"> 1. Changes in the quality and quantity of crops 2. Volatility of raw material prices 3. Production standstill owing to damage to own and/or third-party infrastructures 4. Rise in consumer prices 	<ol style="list-style-type: none"> 1. Geographical diversification of sourcing areas 2. Diversification of product portfolio 3. Anticipation of possible risks of climate-related events when choosing the locations of our workplaces 4. Permanent innovation

Types of risk	Risks	Impacts	Measures
Strategic Operational	Rise in temperatures	<ol style="list-style-type: none"> 1. Drop in consumption of seasonal products 2. Changes in consumer habits 3. Greater energy consumption 4. Changes in crop yield 	<ol style="list-style-type: none"> 1. Diversification of product portfolio 2. Innovation 3. Improvement of energy efficiency 4. Innovation in agricultural technology, seed varieties 5. Sustainable agriculture
Financial	Raising of taxes and energy, water or transport levies	Lower profitability, new investments to adapt to a changing environment	<ol style="list-style-type: none"> 1. Improvement of energy efficiency 2. Optimisation and sustainability of logistics 3. Promotion of and incentives for sustainability within the company
Financial Compliance	Laws and Regulations imposing limits on emissions and related sanctions	Financial, need to make new investments to adapt to the changing laws	<ol style="list-style-type: none"> 1. Anticipation of new legal requirements, analysing trends, participating in forums, etc. 2. Consistent internal regulatory framework on the matter 3. Promotion of and incentives for sustainability within the company
Reputational Strategic	Negative image due to absence of or failure to meet commitments related with climate change	<ol style="list-style-type: none"> 1. Brand image, reputation 2. Loss of business 	<ol style="list-style-type: none"> 1. Publication of the company's good environmental practices 2. Participation in sectoral forums and environment-related entities
Reputational Financial	Outflow of investment/shareholders' funds due to not complying with required ESG criteria	<ol style="list-style-type: none"> 1. Image, reputation 2. Stock market instability 	<ol style="list-style-type: none"> 1. Consistent internal regulatory framework on the matter 2. Publication of the company's good practices 3. Proactive communication approach

Faced with the stringent national and European regulatory framework put in place over the past year and the growing pressure from ESG analysts and investors, the Group aims to further analyse climate-related risks in the next two years, paying special attention to the risks of transition and designing a climate action plan in accordance with the Paris Agreements to ensure our compliance with the law and the compatibility of our business model and the company's strategy with the transition towards a sustainable economy. Similarly, in accordance with the Climate Change and Energy Transition Act 7/2021, another task to be undertaken will be to quantify the financial impact on the

Group of climate change-related risks, following the metrics specified in the Royal Decree expected to be passed no later than May 2023.

3. Reputational risk. This risk is associated with possible changes of opinion, giving rise to a negative perception of the Group, its brands or products by customers, shareholders, suppliers, market analysts, etc., which could have an adverse effect on the Group's ability to maintain relations (commercial, financial, labour, etc.) with its environment.

To deal with this risk, the Group has approved a Code of Conduct to guarantee ethical, responsible conduct by the organisation, its employees and all persons and institutions with which it interacts in the course of its business activities.

In this context, we have included as a significant risk unfounded negative comments or opinions that can so easily be posted in the social networks, owing to the very limited possibilities of controlling them other than close monitoring and specific communication actions to reverse their impact.

The Group's brands and employees are our most valuable intangible assets, so they are submitted to continuous assessment, considering different aspects, such as management, marketing, health and food safety, compliance and legal defence of intellectual property.

4. Changes in lifestyle. The proliferation of low carbohydrate diets and other food trends can have a bearing on consumers' perception of our products.

These risks can be mitigated by assessing consumption patterns and adapting the offer of products to the alternatives on the market, while participating actively in social forums to encourage healthy habits that are compatible with our products.

NB: Further information on the description of risks and risk control and management system is available in section 4 of the Management Report and section E of the Annual Corporate Governance Report, both available on the corporate website.

5. HUMAN RIGHTS

Ensuring respect for Human Rights throughout our supply chain is one of the Group's priorities in Social Responsibility. We base our criteria in this respect on the Universal Declaration of Human Rights, the UN Guiding Principles on Business and Human Rights and the Fundamental Principles and Rights at Work of the International Labour Organization (ILO).

This commitment is set out in: (i) our Code of Conduct, which establishes the principles and values that must underlie the actions of all persons and companies in the Ebro Foods Group, and (ii) our Supplier Code of Conduct, which establishes the principles, standards and business practices to be met by our suppliers and service providers in their relations with the Group and its professionals.

The Group's commitment to Human Rights is set out in Section IV, point 9 of our Code of Conduct. Points 9.1, 9.3, 9.4, 9.5 and 9.6 lay down the guidelines for eliminating discrimination in employment and occupation, eliminating forced or compulsory labour, effectively abolishing child labour and exercising the rights of freedom of association, to join unions and collective bargaining, in accordance with the laws currently in place. The same commitments are set out in points 3.2, 3.3, 3.4 and 3.7 of the Supplier Code of Conduct. Both Codes can be consulted on the Ebro Foods corporate website (<https://www.ebrofoods.es/en/csr/csr-in-ebro/codes-and-policy/>).

Due Diligence

With the aim of underpinning our commitment to human rights, in 2020 the Ebro Foods Group began exploring the implementation of a Due Diligence System to detect, prevent and mitigate existing and potential adverse effects of our operations and throughout our value chain.

A draft Due Diligence Questionnaire was prepared, which would be taken as the basis for defining, identifying, assessing and measuring risks, thus generating opportunities for subsequent verification and control, adopting the necessary, proportionate measures to mitigate, reduce or remedy those risks, as the case may be. The aim was to debate the contents of the questionnaire within the Group's Global Sustainability Working Party with a view to having a final document to be implemented. This process was finally delayed, pending publication of the final text of the *EU Corporate Sustainability Due Diligence Directive* and its transposition into Spanish law.

In this context, in the light of the Proposal for the EU Corporate Sustainability Due Diligence Directive, published on 23 February 2022, and with a view to facilitating the identification of risks within and outside the consolidated group, in 2022 the parent of our Group promoted the launching of a compulsory training course in Human Rights for all the company's professionals. This course will end in 2024 and has the following course plan:

- 1) Spain, commenced
- 2) Rest of Europe, Africa and Asia
- 3) North and South America

This Training Plan, the contents of which have been tailored to the different professional categories, is being followed online through the SAP Litmos e-learning platform by professionals with a corporate e-mail account, and onsite by factory staff.

In addition, specific Human Rights training has been given over 2022 in the following companies:

Company	2022			2021		
	No. employees who received training	No. hours	% total employees	No. employees who received training	No. hours	% total employees
Ebro India	23	204	12.85%	85	170	48.57%
Herba Bangkok	102	306	52.58%	198	594	100.00%
Herba Cambodia	6	18	40.00%	10	30	83.33%
La Loma Alimentos	159	81	100.00%	8	8	5.52%
S&B Herba Foods	17	4	15.18%	---	---	---
Transimpex	85	170	100.00%	75	150	100.00%

Grievance and follow-up mechanisms

The main grievance mechanism is the reporting channel of the Code of Conduct (canaldedenuncias@ebrofoods.es), through which any persons bound by the Code may report any breach of the principles set out therein, under a guarantee of absolute confidentiality. Only the chair of the Audit and Compliance Commission of the Group parent has access to that e-mail account, which is protected with IT security systems to prevent any unauthorised access. The Committee chair is responsible for prioritising, processing, investigating and solving grievances according to their importance and nature, assisted by the Compliance Unit.

Within the framework of the Proposal for a Due Diligence Directive, during 2023 the Group will enable an external complaints channel, in addition to the channel already existing, which will be at the disposal of all our stakeholders and conveniently publicised through all the corporate reporting channels.

Ebro is also in the process of integrating the different complaints channels currently enabled within the Internal Information System under Act 2/2023 of 20 February regulating the protection of individuals who report infringements of laws and regulations and the fight against corruption, transposing the EU Directive 2019/1937 of 23 October 2019 (known as the “Whistleblowing Directive”), which entered into force on 13 March 2023.

Apart from the Confidential Complaints Channel, the Human Resources Departments of the different companies in the Group also have channels enabled to process, investigate and solve any incidents that may arise within their respective companies.

In this context, eleven grievances were reported in 2022 in the Human Resources Departments of the following Group companies. Six of them had been solved by the closing date of this Report:

Company	2022		
	Lodged	Processed	Solved
La Loma Alimentos	1	1	1
Riviana Foods	6	6	1
S&B Herba Foods	2	2	2
Tilda	2	2	2
	11	11	6

External audits are conducted regularly in companies both within and outside the scope of consolidation of the Group as an additional tool for monitoring and control of Human Rights.

Audits made at Ebro Group workplaces

13 ethics audits were made at Group workplaces during 2022.

6. ANTI-CORRUPTION AND BRIBERY MEASURES

CORRUPTION AND BRIBERY

The Ebro Group has a global Code of Conduct, known to and binding on not only its workers and professionals, but also its customers, suppliers, shareholders and other stakeholders.

The Code of Conduct establishes the principal values that must underlie the Group's conduct, including those of transparency, honesty and strict compliance with the laws and regulations in place.

The Code of Conduct dedicates a specific section (29) to anti-corruption, bribery, illegal commissions, influence peddling and money laundering. It establishes the following general principles: (i) the obligation undertaken by the Group to eradicate any form of corruption and (ii) the absolute prohibition of any form of corruption or bribery. These principles are accompanied by specific rules of conduct designed to guarantee compliance with them.

All the Group's workers and professionals are informed of and accept the Code of Conduct as mandatory. They receive a copy of it when they join the Group (or after any amendment) and formally acknowledge receipt, knowledge thereof and their obligation to comply. This is backed up with a grievance channel through which any interested person may confidentially inform the parent company of any potential infringement of the Code.

The general regulation set out in the Code of Conduct is supplemented on a corporate level with the Policy against Corruption and Bribery approved by the parent's board of directors in April 2019. All the principles, values and rules for action established in the Code of Conduct for combating corruption and fraud are developed in the specific, verifiable terms of that Policy.

The global regulation of the Code of Conduct and the principles set out in the Policy against Corruption and Bribery are backed up locally in the different regions in which the Group operates.

- In the principal Spanish companies, the Ebro Group also has a crime prevention model that identifies the potential criminal risks deriving from its activities and the mitigation measures established to try to eliminate (or minimise as far as possible) the risk of committing criminal offences, which include corruption and bribery. The crime prevention model identifies the measures implemented to mitigate the risk of committing offences of corruption, bribery, influence peddling and money laundering. Its effectiveness and application are monitored and checked regularly by the Compliance Unit, within the reporting system of the current crime prevention model. During 2020 the Group revised and updated its criminal risk map and crime prevention model, with counselling from external specialists. Along with the revision and updating and with counselling from the same external specialists, the Group has started to design an employee training plan in this area.
- In pursuance of local legislation (Legislative Decree of 8 June 2001) on companies' liability for certain types of offence (including corruption), the Italian companies in the Group have established organisation and management models that include measures to preclude the risk of committing those offences.

- The Group's North American subsidiaries have specific policies and measures to control and mitigate the risk of committing this type of offence. All the employees of Riviana Foods Inc. and Riviana Foods Canada Corporation (jointly "Riviana") receive and are obliged to sign a copy of the Ebro Foods Group Code of Conduct as confirmation of having been informed of the requirements established in that Code and their strict adherence to the principles of the Code that are applicable to the company and its employees under North American laws and regulations. In particular, and in pursuance of the special requirements under local laws, the North American companies have an Anti-bribery Compliance Officer, who is responsible for ensuring compliance with the policy and making sure that all workers and executives are aware of and comply with it. Training and refresher courses are provided regularly for this purpose.
- The Group's Indian subsidiary has a Vigil Mechanism/Whistleblower Policy, adapted to the applicable local laws (section 177(9) of the Companies Act and Rule 7 of the Companies Rules), through which a communication channel is made available to all employees to report to the company any conduct that infringes the Code of Conduct (in addition to the Group's reporting channel). Through that channel, any possible indication of unlawful conduct (including, therefore, any that may be considered acts of corruption) must be reported to the Vigilance and Ethics Officer of the company for investigation and adoption of whatever measures may be necessary. All new hires in the Group's Indian subsidiary receive specific information within their inception training on combating corruption, including the general rules established in the Code of Conduct, the specific rules of the Vigil Mechanism and the hierarchical structure for reporting suspicious conduct. In addition, within that policy, due diligence is conducted on potential overseas customers and they are required to certify that they do not participate and have not participated in any acts of corruption or bribery.
- In France, following the sale on 31 December 2021 of the parent of the French Group, (Panzani SAS), the new parent of the business in France (Ebro Premium Food SAS) has been implementing its own "Ethics Alert device" and defining its own Code of Conduct, which will be applicable within Ebro Premium Food and its subsidiaries. This work, together with the drawing-up of a corruption risk map for the new French Group, commenced at the end of 2022 with specialist external counselling and will be completed in 2023.

The following table shows the companies that provided anti-corruption training for their employees in 2022. That ongoing training is included in regular training plans, thus ensuring that employee knowledge on the matter is constantly refreshed.

Company	2022			2021		
	No. employees	No. employees receiving training	% employees receiving training	No. employees	No. employees receiving training	% employees receiving training
Bertagni	417	417	100.00%	---	---	---
Ebro India	179	23	12.85%	175	25	14.29%
Geovita	---	---	---	101	11	10.89%
Harinas Santa Rita	---	---	---	18	18	100.00%
Herba Bangkok	194	195	100.52%	198	198	100.00%
Herba Cambodia	20	9	45.00%	---	---	---

La Loma Alimentos	---	---	---	116	4	3.45%
Ebro Foods Netherlands	---	---	---	80	27	33.75%
Riviana Foods	1043	1043	100.00%	919	919	100.00%
Riviana Foods Canada	237	237	100.00%	223	223	100.00%

No cases of corruption have been reported in any companies of the Ebro Group. Nor have any of the Group's business partners reported any cases of this nature.

MONEY LAUNDERING

The Ebro Group has established: (i) payment and collection processes and (ii) a structure of attorneys for bank transactions, through whom it guarantees adequate control and monitoring of money movements in all its transactions.

The Ebro Group uses bank transfers and nominative payment instruments for payments and collections as they guarantee full traceability of any money movement. It also has strict rules for cash management, which allow the different companies to hold only negligible amounts of cash and regulate in detail any drawings against the cash balances, requiring in all cases justification of cash requests and proof of use of those funds.

The reimbursement of expenses incurred by employees in the course of their work is also strictly controlled, requiring proof of the expense and the reason and justification for it prior to any reimbursement. Drawings made using a company bank card (by employees who have a card, by virtue of their category) are subject to the same requirements of proof and justification of use, such that if any use of the card is not justified and proved, the corresponding sums are withheld from payments to be made by the relevant company to the employee.

According to the Group's power of attorney structure, in order to draw funds from bank accounts, a prior decision by must be adopted by the competent corporate body and, as a rule, joint signatures are required, except for negligible amounts compared to the volume of transactions of the company in question.

7. VALUE CREATION MODEL

The Ebro Group makes a significant contribution to the social and economic development of the communities in which it operates. Its business activities generate wealth through the creation of jobs, payment of salaries, tax contribution, purchase of goods and services from suppliers, distribution of dividends, implementation of welfare programmes, development of environmental initiatives, commitment to the value chain and investment in R&D and innovation.

SOCIAL CASH FLOW

TAX INFORMATION

With a view to guaranteeing responsible compliance with the tax laws in place in the jurisdictions in which it operates, the Ebro Group has developed several procedures to secure transparent, honest tax management and payment of taxes.

The Ebro Group does not use opaque structures consisting of interposing base companies in low-tax or non-tax countries and/or territories not cooperating with the tax authorities. Nor does it engage in any business in any of the jurisdictions listed as tax havens, regulated in Spain in **Supplementary Provisions 1 and 10 and Transitional Provision Two of the Tax Fraud Prevention Measures Act 36/2006 of 29 November (as amended by Act 11/2021 of 9 July on measures to prevent and combat tax fraud, effective from 11 July 2021)**.

In 2022, the Ebro Group directly paid EUR 97.2 million to the tax authorities in the different countries in which it operates.

COMMITMENT TO THE DEVELOPMENT OF LOCAL COMMUNITIES

One of the main pillars of social responsibility action within the Ebro Group is ensuring the well-being and socio-economic development of the local communities directly related with our business activities.

During 2022, as in previous years, the Ebro Foundation and the Group participated in projects created by different not-for-profit organisations and promoted and developed *motu proprio* several initiatives of social and environmental interest.

Within this context, the global amount spent on social action during 2022 was EUR 4.9 million.

Social Action	Amount (EUR)
Food donations subsidiaries	1,415,232.06
Ebro Foundation activities	601,459.37
Sustainable Agriculture	2,916,070.00
TOTAL	4,932,761.43

Food Donations

During 2022, Group companies in Spain, United Kingdom, Italy, France, Thailand, India, United States and Canada made food donations for an aggregate value of EUR 1.4 million, delivering almost 600 thousand kilogrammes of food.

Company	Amount (EUR)
Herba Ricemills	98,104.62
Tilda	31,552.60
Bertagni	600,732.00
Herba Bangkok	1,493.15
Ebro India	2,832.49
Lustucru	190,379.00
Riviana Foods USA	479,026.95
Riviana Foods Canada	11,111.25
TOTAL	1,415,232.06

Social and Environmental Initiatives

Apart from the food donations and in their determination to contribute to sustainable development of the communities in which we operate, the Ebro Group and the Foundation continued working in 2022 to set up social and environmental initiatives:

The Foundation worked in four major areas during 2022:

1. **Food and health:** Participation in programmes that combine food and health, food and social development, and food and sport.

The total investment made in this area in 2022 was EUR 58,070.57.

2. **Social welfare:** This working area comprises support for education through scholarships, research projects, educational programmes that contribute towards equal

opportunities, training projects for integration into society and employment, entrepreneurship and job promotion initiatives, and community aid programmes that contribute to achieving the full, effective social integration of these individuals and groups at risk of exclusion.

The total investment made in this area in 2022 was EUR 379,011.80.

- 3. Environmental sustainability:** Environmental conservation is another essential aspect within the work of the Ebro Foundation. The Foundation supports the sustainable agriculture strategy put into practice by the Ebro Group and works on promoting and achieving the Group's sustainability goals through the *EBRO FOUNDATION SUSTAINABILITY & ENVIRONMENTAL AWARDS*, which aim to bring out the talent of the Group's professionals in the search for innovative solutions that contribute towards achievement of the goals contemplated in our sustainability plan *HEADING FOR 2030*.

With regard to sustainable agriculture, the Foundation continued in 2022 to promote EKTA, a programme intended to implement crop standards that are sustainable from a social and environmental perspective in India.

The Foundation invested EUR 81,334 in this area, supplemented by the EUR 2,916,070 invested by several Group companies, both to set up sustainable agriculture programmes in our principal sourcing areas and to pay a fee premium to growers with a view to improving not only their agricultural yields, but also their income.

- 4. Aids to Ukraine:** During 2022, in an effort to alleviate the severe humanitarian crisis in Ukraine since the Russian invasion, the Ebro Foundation joined the wave of solidarity with the Ukrainian people by sending essential goods, donations in kind and financial contributions.

Within food donations and thanks to the support of our Belgian subsidiary Ebro Foods Belgium, the Foundation collaborated with *World Central Kitchen (WCK)*, the NGO of chef José Andrés, sending more than 80,000 kg of rice for the Ukrainian refugees in Lviv (Ukraine). Lorries loaded with rice set off from Ebro Foods Belgium for the Polish border with Ukraine, and once there WCK volunteers crossed the border with the rice and delivered it to Lviv.

Through the association Madrid Futuro, the Foundation also participated financially in the emergency campaign "Cáritas with Ukraine", which had three goals: distribute essential goods, provide transport and safe refuge for the Ukrainians who managed to leave the country and help the refugees who arrived in Spain. Also through Madrid Futuro, the employees at our Madrid office collaborated in the campaign for collecting warm clothes for women and children, baby food, medicines, etc. organised by Madrid City Council.

The aids in this area totalled more than EUR 83,000.

NB: Information on all our sustainable agriculture projects is set out in the chapter "Commitment to the Environment" in this Report.

To conclude this chapter, it should be mentioned that the Ebro Group has not received any complaints or claims regarding possible adverse impacts on the local communities in the areas in which we operate.

8. OUR PROFESSIONALS

People, their personal well-being and their professional development, are one of the prime targets of the Ebro Group in Social Responsibility.

Scope of the reporting perimeter

As a result of the divestment in Roland Montserrat in the first half of 2022 and in order to enable adequate comparison of the information corresponding to 2021 and 2022, all the 2021 indicators have been recalculated to eliminate the information corresponding to that company. On the other hand, the indicators corresponding to the company InHarvest, acquired in February 2022, were included in 2022.

Management focus

The most valuable asset of the Ebro Group is its **6,414 professionals, of whom 5,412 are employed directly by the company and 1,002 are contracted** through different external agencies. A very close-knit team of professionals with enormous talent potential aligned with the organisation's strategy. Through the human resources departments of the different subsidiaries, the Ebro Group endeavours to motivate these professionals by offering a high quality job while at the same time strengthening their skills, powers and personal and professional leadership.

The Ebro Group's personnel management policy is designed to secure a high level of knowledge and contact with the workforce through a decentralised structure formed by the human resources managers in all the major companies of the Group and the implementation of bespoke policies in each one (in addition to the provisions of labour laws), taking account of the specific features of the countries in which they operate. These policies also include general guidelines regulating company/employee relationships, specific guidelines on Occupational Health & Safety, Training & Education, Diversity and Equal Opportunities and Equal Pay for Men and Women. Companies with a small personnel structure (essentially commercial companies with fewer than 10 employees) are governed exclusively by the labour laws in place in the countries in which they operate.

Above all of them and without prejudice to the provisions of the specific policies mentioned above, the Ebro Group has a Code of Conduct, which not only secures ethical, responsible conduct by the professionals in all the subsidiaries of the Ebro Group in the performance of their duties, but also serves as a reference to define the minimum objectives of the employment policy and guarantees, namely:

1. Occupational health and safety
2. Training and career development of all employees
3. Non-discrimination, diversity and equal opportunities in access to employment (including gender equality, the integration of people with different abilities and promotion of a multi-cultural workforce)
4. Right to form and join unions
5. Compliance with collective rights

In view of the contents of the different programmes launched by the most important business units in the Ebro Group, the management of Human Resources of the Ebro Group can be grouped into five pillars, indicating the different working areas within each one, for each company of the Ebro Group.

A. EMPLOYMENT

Total number and distribution of employees by gender

	2022		2021	
	No. employees	% total employees	No. employees	% total employees
Men	3,848	71.10%	3,549	70.99%
Women	1,564	28.90%	1,450	29.01%
Total employees	5,412		4,999	

NB: The gap between men and women is largely due to the nature of the Group, which is predominantly factory-based, as factory work has traditionally been done by men. Almost 71% of the personnel employed within the Ebro Group overall are men, 78% of whom are factory employees.

Breakdown of employees by age group

Age Group	2022		2021	
	No. employees	% total employees	No. employees	% total employees

Factory employees	3,346	61.83%	3,007	60.15%
Others	62	1.15%	67	1.34%
Total employees	5,412		4,999	

Total number of employment contracts and breakdown by type

This table shows the total number of contracts at 31 December 2022:

Type of contract	2022	2021
Permanent	3,750	3,512
At Will	1,258	1,157
Temporary	356	353
Total number of contracts	5,364	5,022

NB: The At-Will contracts are the form of employment contract most commonly used in the USA, and corresponds to our company Riviana Foods.

Annual average contracts by gender

The At-Will contracts are included in permanent contracts, and the average number of part-time contracts is included in the average number of permanent and temporary contracts.

Average contracts	2022			2021		
	Men	Women	Total	Men	Women	Total
Permanent	3,502	1,439	4,941	3,322	1,339	4,661
Temporary	328	140	468	272	117	389
Part-time	90	107	197	90	101	191

Annual average contracts by age group

The At-Will contracts are included in permanent contracts, and the average number of part-time contracts is included in the average number of permanent and temporary contracts.

Average contracts	2022				2021			
	<= 30	30-50	>= 50	Total	<= 30	30-50	>= 50	Total
Permanent	681	2,549	1,711	4,941	648	2,442	1,571	4,661
Temporary	173	215	80	468	116	188	85	389
Part-time	36	69	92	197	38	46	107	191

Annual average contracts by professional category

The At-Will contracts are included in permanent contracts. This average includes both full-time and part-time permanent contracts.

Professional category	2022	2021
Executives	301	252
Technical staff & middle management	849	864
Administrative & auxiliary staff	803	762
Factory employees	2,934	2,722
Others	54	61
Average permanent contracts	4,941	4,661

This table includes the average full-time and part-time temporary contracts.

Professional category	2022	2021
Executives	14	1
Technical staff & middle management	5	8
Administrative & auxiliary staff	60	58
Factory employees	375	303
Others	14	19
Average temporary contracts	468	389

NB: The increase in temporary contracts in 2022 over 2021 is due to the contracting of more temporary staff by Agromeruan for the agricultural campaign and the hiring of new executive staff in Lustucru Frais after restructuring the workforce following the divestment of Panzani.

The average includes both permanent and temporary part-time contracts.

Professional category	2022	2021
Executives	6	5
Technical staff & middle management	13	22
Administrative & auxiliary staff	70	61
Factory employees	89	85
Others	19	18
Average part-time contracts	197	191

Number of dismissals by gender, age and professional category

Professional category	2022							2021						
	Men			Women			TOTAL	Men			Women			TOTAL
	<= 30	30 - 50	>= 50	<= 30	30 - 50	>= 50		<= 30	30 - 50	>= 50	<= 30	30 - 50	>= 50	
Executives	1	1	8	3	2	1	16	0	2	4	0	0	0	6
Technical staff & middle management	4	9	9	6	9	8	45	4	5	8	2	3	2	24
Administrative & auxiliary staff	8	3	1	4	3	7	26	4	3	2	1	4	2	16
Factory employees	66	110	34	22	59	21	312	42	64	30	20	33	10	199
Others	0	0	0	0	0	0	0	0	0	0	0	0	0	0
Number of dismissals	79	123	52	35	73	37	399	50	74	44	23	40	14	245

NB: The higher number of dismissals in 2022 over 2021 corresponds to the greater staff turnover in the United States as a result of the full employment situation in the country and the workforce restructuring in Lustucru Frais following the divestment of Panzani.

B. ORGANISATION OF WORK

Organisation of working time

The organisation of working time varies in the different countries in which the Group companies operate. Working hours may thus vary between 35 and 48 hours a week, distributed over 5 or 6 days a week. The total weeks worked a year ranges between 44 and 52, depending on the production facilities.

Absenteeism

The employees of Group companies were absent for a total 353,441 hours in 2022, 3.62% more than in the previous year, when absenteeism totalled 341,102 hours.

These hours of absenteeism include grounds such as injury, occupational disease, sick leave and doctor's appointments, etc. However, they exclude authorised absence such as for parental, holiday, study leave, etc.

Welfare benefits for employees

The following table shows, by company, the benefits provided for employees:

Company	Welfare benefits	Type of employee
Agromeruan	Parental leave	All employees

Company	Welfare benefits	Type of employee
	Disability/invalidity cover	
	Medical insurance	Full-time employees

Work-life balance

The Group continues working on the implementation of measures that give our professionals greater flexibility to cope with different times and circumstances in their lives, such as parenthood, childcare, care of elderly relatives, personal concerns related with volunteer activities, furthering their training, etc.

One of the company's most prominent flexibility measures is homeworking, which in some cases follows a regulated procedure and in others it forms part of the flexibility offered by the different companies to work remotely on specific days when the professionals need to be at home. In the same context, most of the businesses have introduced flexi-time to enable their employees to strike a better balance between their personal and professional lives.

Moreover, within its commitment to employees' work-life balance, the parent of the Group has established a protocol for digital disconnection so that its employees do not work outside their stipulated working times. This protocol will be reviewed and updated regularly in the event of any change in the organisation and/or activity of the company and in response to any suggestions or proposals for improvement received from our professionals.

Employees homeworking with a regulated procedure

Professional category	2022			2021		
	Men	Women	Total	Men	Women	Total
Executives	92	68	160	51	28	79
Technical staff & middle management	61	55	116	107	86	193
Administrative & auxiliary staff	46	87	133	88	113	201
Factory employees	2	3	5	2	1	3
Others	1	0	1	0	0	0
Total employees homeworking	202	213	415	248	228	476

Parental leave

Employees who took leave / employees entitled to leave (%)	2022			2021		
	Men	Women	Total	Men	Women	Total
	97.78%	100.00%	98.77%	98.65%	100.00%	99.29%

C. HEALTH AND SAFETY

All the Group companies and their respective production plants have an Occupational Hazard Prevention and Management System in place. This system is implemented using both internal resources and external firms. In addition, 85.83% of the workforce is represented on the Health and Safety Committees in the different companies (87.21% in 2021).

Health and safety aspects covered in formal agreements with unions

The health and safety aspects covered by formal agreements with unions are:

- ✚ Global agreements: in accordance with ILO principles, organisational structures for problem-solving, commitments regarding target performance or the level of practice to apply.

- ✚ Local agreements: personal protection equipment, mixed health and safety committees, participation of workers' representatives in health and safety audits, inspections and investigations, training and education and right to refuse unsafe work.

Workplace safety

All our employees are covered for Occupational Hazard Prevention.

The following figures correspond to employees on the Group's payroll:

	2022		2021	
	Men	Women	Men	Women
No. lost-day injuries	137	47	100	19
Frequency rate	21.21	18.05	17.23	9.69
Severity rate	0.88	0.81	0.64	0.52
No. employees with occupational disease	1	2	2	3

NB:

- (i) The rates were calculated using the following formulas:
- Frequency rate = (total no. lost time injuries/total no. hours worked) x1000000
 - Severity rate = (no. lost days due to injury/total no. hours worked) x1000
- (ii) Occupational disease is work-related ill health.

One fatal accident occurred in the company La Loma Alimentos (Argentina) during 2022.

There are no jobs within the Group with a high risk of occupational disease.

D. LABOUR RELATIONS

Employees covered by collective bargaining agreements

63.58% of the employees of the Ebro Group are covered by the collective bargaining agreements of their respective business areas or another kind of collective agreement, compared with 62.11% in the previous year.

The remainder are top executives of the Group, the professionals of the North American and Anglo Saxon companies (as such agreements have not been used there for over 20 years), those of Herba Bangkok, Herba Cambodia, Mundiriz, Agromeruan and Ebro India (where this type of agreement is not used either) and those of Riceland Magyarorzag, since it has fewer employees than the number required by local law for these collective agreements. In those cases, all the professionals are protected by the national labour laws in place in their respective countries, their respective personnel policies and the guidelines of the Ebro Group's Code of Conduct. Furthermore, external ethical audits are conducted regularly in some of them.

Country	2022	2021
Argentina	78.24%	64.33%
Belgium	100%	100%
Cambodia	0%	0%

Thailand	0%	0%
United Kingdom	5.58%	9.97%
United States	37.39%	40.48%

E. TRAINING

One of the main goals of the Ebro Group in respect of human resources is to encourage employees to develop their skills and abilities, offering training to give them the technical qualifications they need, both to perform their duties and for their professional promotion.

This commitment is set out in section IV, point 11 of the Group's Code of Conduct.

During 2022, 136,230 hours of training were given, 15% more than in the previous year, with the participation of 73% of our employees.

Total hours training of our employees by professional category

	2022			2021		
	Men	Women	Total	Men	Women	Total
Executives	2,343	1,441	3,784	1,520	957	2,477
Technical staff & middle management	9,344	3,072	12,417	11,274	4,334	15,607

Factory employees	82,856	29,497	112,353	70,698	23,271	93,969
Others	618	248	866	214	150	364
Total hours training	98,392	37,838	136,230	86,895	31,849	118,744

F. DIVERSITY AND EQUAL OPPORTUNITIES

The Ebro Foods Code of Conduct specifies in section IV, point 9.5 that the Group promotes and upholds the principle of equal treatment and equal opportunities for all its professionals, regardless of their race, colour, nationality, ethnic origin, religion, gender, political or sexual inclination, civil status, age, disability or family responsibilities, as a principle behind all human resources policies and applicable in the recruitment of professionals, training, career opportunities, pay levels and all other aspects of relationships with professionals.

With the aim of strengthening this commitment, some of the Group companies have drawn up additional policies that specifically build on the guidelines established in the corporate Code of Conduct. For example, the subsidiaries Riviana Foods and S&B Herba Foods have a Policy for Equal Opportunities in Employment, and Ebro India has an Anti-Discrimination Policy.

Similarly, during 2022 the parent, Ebro Foods, finished preparing an Equality Plan defining the framework for adequate action to promote effective gender equality. The Plan has been sent to the competent State Labour Authority for registration, filing and publication and at the date hereof we are pending completion of that formality by the Authority. In the same context, the Negotiating Committee for the Ebro Foods, S.A. Equality Plan also drew up the Ebro Foods Protocol for Sexual and Gender-Based Harassment, which was approved by Company Management on 9 January 2023.

We also have the Ebro Foods Policy on the Selection of Directors and Diversity in the Composition of the Board of Directors, which lays down specifically and verifiably the basic principles and criteria that must be followed in the selection of candidates to sit on the company's Board of Directors and to ensure diversity in the composition of the Board.

Diversity in governing bodies and workforce

Board of Directors	2022		2021	
	Number	% of total	Number	% of total
Men	9	64.29%	8	57.14%
Women	5	35.71%	6	42.86%

	2022		2021	
	No. employees	% total employees	No. employees	% total employees
Men	3,848	71.10%	3,549	70.99%
Women	1,564	28.90%	1,450	29.01%
Total employees	5,412		4,999	

Employees with different abilities

2022		2021	
Men	Women	Men	Women
67	31	58	28

During 2022, several actions were taken in Spain to promote the socio-occupational integration of persons with different abilities, through the contracting of certain services with special employment centres (CEE).

Centre	Services	Amount (€)
C.E.E. CADEMADRID	Printing	1,948
C.E.E. INSERCIÓN PERSONAL DISCAPACITADOS "IPD"	Cleaning head office in Madrid	81,326
	TOTAL	83,275

With regard to the universal accessibility and integration of persons with different abilities in physical environments, examples of measures taken by some Group companies included: (i)

making the necessary adaptations to eliminate architectural barriers, (ii) applying ergonomic principles to adapt work stations to the person, and (iii) limiting certain tasks, and constantly reducing and reviewing their workload.

Remunerations

The basic salary is identical for men and women in all the companies of the Ebro Group.

Average remuneration by professional category

Professional category	2022			2021		
	Men	Women	Average	Men	Women	Average
Executives	105,423	83,353	94,388	107,902	85,266	96,584
Technical staff & middle management	60,094	50,379	55,236	50,130	51,459	50,795
Administrative & auxiliary staff	37,618	32,128	34,873	43,933	38,086	41,010
Factory employees	28,064	24,560	26,312	28,312	25,313	26,812
Others	31,306	31,195	31,251	22,828	22,631	22,730

NB:

(i) The calculation of this average remuneration is based on the average annual gross salaries of the employees (men and women) in each category.

The gross salary includes the sum of the basic salary plus bonuses, such as seniority, cash bonuses and bonuses in kind (e.g. shares), overtime and any other work-related benefit, such as transport, housing benefits, child benefits, etc.

(ii) The remuneration of the Senior Management is included in the information reported for the professional category "Executives".

Average remuneration by age group

2022			2021		
<= 30	30 - 50	>= 50	<= 30	30 - 50	>= 50
34,357	52,392	58,486	30,726	50,941	61,091

NB:

(i) The calculation of this average remuneration is based on the average annual gross salaries of the employees (men and women) in each age group.

Average remuneration by gender and pay gap

2022			2021		
Men	Women	Pay gap	Men	Women	Pay gap
52,501	44,323	0.16	50,621	44,551	0.12

NB:

(i) The calculation of this average remuneration is based on the average annual gross salaries of the employees, which include the basic salary plus bonuses, such as seniority, cash bonuses and any other welfare benefit.

(ii) The pay gap was calculated using the following formula: (average remuneration men - average remuneration women) / average remuneration men.

 Average remuneration of directors, by gender

	2022		2021	
	Men (2)	Women (1)	Men	Women
Average remuneration directors (EUR thousand)	252	178	267	172

* NB:

(1) On 24 March 2022, the proprietary director and reference shareholder Alimentos y Aceites, S.A. (SEPI) (represented by a woman) stepped down from the Board with effect from 29 March 2022, taking the number of female directors on the Board from 6 at the beginning of the year to 5 at the end. For this reason, the remuneration of the female representative of Alycesa (EUR 23 thousand) has not been taken into account when calculating the annual average remuneration for the 5 female directors in the period 1/1/2022 - 31/12/2022.

(2) On 30 March 2022, the Board resolved to appoint Jordi Xuclà Costa director by the procedure of cooptation, to fill the vacancy produced by the resignation of Alimentos y Aceites, S.A. (SEPI). Mr Xuclà Costa is classified as proprietary director of Alimentos y Aceites, S.A. At the Annual General Meeting held on 29 June 2022, the Shareholders resolved to ratify the appointment by cooptation of Jordi Xuclà Costa. Mr Xuclà Costa was appointed for a term in office equal to the remaining term for which Alimentos y Aceites, S.A. had been appointed (Alimentos y Aceites, S.A. was appointed director at the Extraordinary General Meeting of 16 December 2020 for the statutory term of 4 years).

On 31 January 2022, the Board resolved to appoint Marc Thomas Murtra Millar director by the procedure of cooptation, to fill the vacancy produced by the resignation of Mr Zorrero Camas (31/12/2021). Mr Murtra Millar was also appointed member of the Executive Committee and the Audit, Control and Sustainability Committee.

(3) The 2022 remuneration of directors for their duties as such was taken, excluding the remuneration received by the Executive Chairman for his executive duties. The Chairman is the only executive director who performs executive duties and receives remuneration for them. The directors' remuneration for their duties as such is stated individually for each one in the Annual Report on Directors' Remuneration 2022, published on the website of the CNMV (www.cnmv.es) and the corporate website (www.ebrofoods.es). The remuneration of directors for their duties as such is established with no consideration for the gender of the person holding office.

9. CUSTOMERS AND CONSUMERS

Customers and consumers are two of the driving forces for development, evolution and growth of the company. The Ebro Group uses a wide variety of tools to:

1. Offer them a broad portfolio of healthy, differentiated products.
2. Anticipate and meet their needs for consumption.
3. Guarantee top quality in its products and services, meeting not only the quality standards and requirements stipulated in law, but also any stricter standards to guarantee that top quality.
4. Watch out for their health and safety, meeting the strictest food safety standards.

Our main tools

1. R&D and innovation

This is what distinguishes us from our rivals, enabling us to develop unique products and technologies to meet the needs of our customers and consumers and provide them with a differentiated range of products delivering value added.

2. Quality Control and Food Safety Systems

- i. **Good Manufacturing Practices (GMP):** contemplating good practices for the handling, packaging, storage and carriage of fresh products.
- ii. **Hazard Analysis and Critical Control Point (HACCP):** a system for identification and control of any problems that may come to light during the design and production processes.
- iii. **Quality Assurance Standards, such as:**
 - o The standards established by the International Organisation for Standardization (ISO 9001:2000, ISO 9001:2008 and ISO 22000).
 - o The International Food Standards (IFS), which, structured in line with ISO 9001:2000, are among the highest distinctions in Food Safety in all distribution sectors in Europe.
 - o The BRC (British Retail Consortium) certification, one of the internationally most widespread models for distributors and large retail outlets to rate their brand product suppliers.
 - o The standards FSSC22000, which provides a reference framework for the food safety requirements, incorporating good practices in the agricultural, manufacturing and distribution systems for HACCP.

In this context, all the Ebro Group plants have been certified for quality and food safety, having a total of 198 certifications (Annex 2).

During 2022, Ebro Foods Netherlands BV, Ebro Frost UK, Pastificio Lucio Garofalo, Indo European, Lustucru Frais and Riviana Foods made regular assessments of their products with a view to reinforcing safety and improving them.

Product and Service Labelling

All our companies comply with the national laws and regulations applicable in each country.

Customer and consumer services

Information on the nutritional properties of all Ebro Group products is provided on the packaging, along with the physical address of the company and, where appropriate, its website, e-mail and telephone number.

The different customer services departments collect information and, in turn, generate information for the quality system. Grievances are answered by telephone or e-mail, according to the details given by the customer. A case file is opened for each incident and reported internally to the Quality Department, which carries out internal checks and monitoring of the relevant quality system in case there is a fault and, if so, takes the necessary measures to offer a solution.

As a rule, the companies follow up all grievances by telephone to check consumer satisfaction.

Statistical monitoring is regularly conducted of all incidents and proposals for improvement made by consumers, which are discussed at the different Management Committee meetings held every month within each company.

The communication channels used with consumers in the different companies are indicated below:

Company	Country	Communication channels with customers
Arrozeiras Mundiarroz	Portugal	E-mail, post, website and social media
Bertagni 1882	Italy	E-mail, website and social media
Boost Nutrition	Belgium	E-mail, website and social media
Ebro Foods Netherland BV (Lassie)	Netherlands	Telephone, e-mail, website and social media
Ebro India	India	Telephone, e-mail, website and social media
Euryza	Germany	Telephone, e-mail, website and social media
Herba Ricemills	Spain	Telephone and e-mail
Lustucru Frais	France	Telephone and post
Lustucru Riz	France	Telephone, post, e-mail and social media
Pastificio Lucio Garofalo	Italy	Telephone, e-mail, website and social media
Riceland Magyarorszag	Hungary	Telephone, e-mail and website
Risella	Finland	Telephone
Riviana Foods Canada	Canada	Telephone, e-mail, website and social media
Riviana Foods USA	United States	Telephone, e-mail, Website and social media
Tilda	United Kingdom	Telephone, e-mail, post and social networks

Incidents during the year

Incidents registered with large customers

Overall, 8 incidents were registered in 2022, 1 of which corresponded to Arrozeiras Mundiarroz (Portugal), 2 to Bertagni (Italy), 2 to Ebro Ingredients (Netherlands) and 3 to Indo European Foods (United Kingdom). Of those, 5 were related with product health and safety and 3 to information and labelling.

Claims from end consumers

The following table shows the number of claims (packaging defects, requests for information, sensory properties, etc.) handled during 2022, by company.

Company	No. incidents 2022	No. incidents 2021
Arrozeiras Mundiarroz	243	149
Bertagni 1882	348	318
Ebro Foods Belgium	236	228
Ebro Foods Netherland	181	241
Ebro India	48	78
Euryza	726	930
Herba Ricemills	250	340
Lustucru Frais	1,344	1,413
Lustucru Riz	1,509	1,151
Pastificio Lucio Garofalo	506	677
Riceland Magyarorszag	35	45
Risella	151	187
Riviana Foods	15,489	7,903
Riviana Foods Canada	1,501	1,663
Tilda	1,122	1,144

No claims were received in 2022 in any Group company related with privacy and customers' personal data leaks.

Promotion of healthy food and healthy lifestyles

Within our undertaking to encourage and promote healthy eating, all the brands of the Ebro Group include product categories targeting health, such as ancient grains, gluten free, quinoa, whole grain, etc., focusing increasingly on everything to do with healthy, organic and natural foods.

In addition, the Ebro Group has the blog [Sentirsebien.es](https://www.sentirsebien.es) (.es) [lit.: 'when you feel good, it shows'], an informative space in which nutritionists, researchers and professionals of the sector post articles, recipes and advice for the public promoting healthy eating habits and maintaining an active lifestyle.

10. SUPPLIER MANAGEMENT

Description of the supply chain

The suppliers of the Ebro Group are classified into four categories:

1. Rice or durum wheat suppliers
2. Other raw material suppliers
3. Packaging suppliers
4. Service providers

Supplier management model

As the Group has decentralised certain management areas, such as the Procurements Area, to its respective companies, each subsidiary has in the past had its own procurement policies and criteria, in keeping with the laws and characteristics of the countries in which they operate. Above them all, the Supplier Code of Conduct of Ebro Foods regulates the minimum criteria and rules of conduct in labour and environmental aspects that must be met by the Group's suppliers.

With a view to establishing globally the integral management of the supply chain, in 2019 we embarked on a work plan to: 1) make sure that all our suppliers comply with the Group's Supplier Code of Conduct and 2) require them to complete a questionnaire on ethics. The replies to this questionnaire enable us to identify the critical issues and risks we need to address in order to guarantee the sustainability of our supply chain, designing, together with our companies, a roadmap to achieve the goal set in our Global Sustainability Plan HEADING FOR 2030, that 100% of our suppliers and service providers will have signed the Group's Supplier Code of Conduct (COC) or incorporated ESG criteria in their policies.

In addition, have another two corporate tools we can use to guarantee the sustainability of our supply chain: 1) visits and meetings of the Procurement Departments of the different subsidiaries with their suppliers, and 2) our corporate account in the Sedex Platform, with which all the Group companies are now registered and their respective suppliers are signing up, in turn being audited by an independent external firm.

Supply Chain

In 2022 we mapped our global supply chain, with the following proportions per continent:

- Europe, 68%
- Africa, 10%
- Asia, 8%
- North America, 8%
- South America, 6%

Regarding the percentage of suppliers who have signed the Ebro Group's Supplier Code of Conduct, the headway made in 2022 was as follows:

- 54% in Asia
- 17% in South America
- 11% in Europe
- 8% in North America

In the area of agricultural raw materials, more specifically in rice production, Ebro India, Herba Bangkok, Herba Ricemills, La Loma Alimentos, Munderiso and Riviana are, together with their agricultural suppliers, developing different sustainability programmes to assess and verify the sustainability of the crop using the FSA standard of the Sustainable Agriculture Initiative Platform (SAI Platform) and the SRP standard of the Sustainable Rice Platform, as well as the Ecological Agriculture Platform and Fair Trade. All these programmes together have produced a positive impact on approximately 9,000 growers who supply the Ebro Group.

At this point, we also highlight the sustainable agriculture projects we are developing in some of our principal sourcing areas, the main goals of which are: (i) improve growers' revenues, (ii) optimise their agricultural returns, (iii) mitigate climate change by reducing the use of water, (iv) cut emissions and (v) encourage the use of biological means to combat plagues. Our global investment in all these projects was EUR 2.9 million.

** We duly report on all these programmes in Chapter 11 of this Report, Commitment to the Environment.*

Audits made on our supply chain

We made 54 SMETA audits in 2022, 6 of them follow-up audits, on suppliers in the following countries:

Country	Date of audit	Auditors

	24/05/2022	

This notwithstanding, in response to the EU Proposal for a Corporate Sustainability Due Diligence Directive and the recent approval of the Corporate Sustainability Reporting Directive (CSRD), the Group will, in 2023, commence a Due Diligence procedure among its suppliers to identify and manage any real or potential impacts during their supply chains affecting Human Rights and the Environment.

We should mention in this regard that the implementation of all these programmes has helped to confirm that no adverse environmental or social impacts have been identified in our supply chain.

11. COMMITMENT TO THE ENVIRONMENT

Scope of Reporting

The information set out below corresponds to 73 of the 78 production plants and offices that the Ebro Group has through its different companies.

All the emission factors, low calorific values (LCV) and global warming effect used are set out in Annex 3.

Management focus

The main goals of the Ebro Group's environmental commitment are defined in our Policy on Sustainability, Environment and Corporate Social Responsibility: "Steer the company's processes, activities and decisions to protect our environment, prevent and minimise environmental impact, optimise the use of natural resources and preserve biodiversity."

According to this declaration, the Group's actions are based on the following:

1. Ensure that our companies comply with the environmental laws applicable to their respective activities by implementing internal management systems and monitoring the applicable laws and regulations.
2. Minimise the environmental impact of our activity by seeking eco-friendly solutions and embarking on initiatives to reduce our emissions, optimising our consumption of water, energy and packaging material.
3. Transition towards a circular economy, recovering waste and favouring its recycling and reuse, using recycled raw materials and/or those respectful of the environment, whenever possible.
4. Organise environmental awareness and training programmes for Group employees.
5. Promote the use of sustainable crop techniques among our agricultural suppliers.

With regard to our operations, the processes used at Ebro Group's production plants in both the rice and pasta divisions are relatively simple agri-food processes that do not generate any major environmental impacts and entail a minimal risk of accidental pollution. The most significant environmental risks relating to the Ebro Group can be classified as follows:

1. Air emissions: Mainly emissions of particles during the handling of cereals and greenhouse gas (GHG) emissions related to the consumption of fossil fuels and electricity. The most widely used fuel is natural gas.
2. Noise emissions: These emissions are produced during the operation of engines, compressors, sleeve filters and other manufacturing equipment. All our plants comply with the environmental standards and the noise levels are monitored regularly, taking mitigation measures wherever necessary.

3. Production processes: Essentially mechanical and hydrothermal, requiring the use of very few chemical products and in very small quantities. Most of these products are used to clean the equipment and cleanse the raw materials and are relatively harmless for the environment.
4. Water consumption: The amount of water used in our processes is negligible (the vast majority of our products are dry) so the volume of effluent generated is also small. Moreover, the little effluent produced has a low level of contamination since the water consumed is basically used to produce steam, for cooling or as an ingredient in the finished products.
5. Waste generation and management: The company generates minimal amounts of waste, both non-hazardous (mainly packaging of ingredients and ancillary materials) and hazardous (maintenance operations) and it is managed through authorised waste disposal contractors.

Precautionary principle

The guidelines on which the precautionary principle is based are set out in the Group's Code of Conduct and Policy on Sustainability, Environment and Corporate Social Responsibility. In both texts, Ebro Foods declares its firm commitment to respect the environment and preserve biodiversity. It also sees that its companies comply with the environmental laws applicable to their operations and any additional commitments assumed voluntarily, and applies environmental sustainability programmes in specific matters.

GRI 301: Materials

This indicator is reported under standard GRI 301 (2016).

Raw Materials [301-1]

The raw materials used are divided into two major categories, those used in the preparation of finished goods and the packaging materials.

The raw materials used in finished goods are divided into five categories:

1. Rice
2. Durum wheat and semolina/durum wheat flour
3. Other raw materials of plant origin: quinoa, pulses, other cereals, other flours/semolinas, fruit and vegetables and soya/soybean oil
4. Raw materials of animal origin: meat, fish and eggs
5. Other ingredients: e.g. spices and flavourings used mainly in precooked food.

Raw Materials (t)	2022		2021	
	t	%	t	%
Rice	2,058,274	86.19%	2,028,296	87.28%
Wheat and wheat flours/semolina	222,542	9.32%	194,361	8.36%
Other RM plant origin	75,022	3.14%	64,841	2.79%
RM animal origin	20,175	0.84%	19,238	0.83%
Other ingredients	12,179	0.51%	17,158	0.74%
Total	2,388,191		2,323,894	

We do not use palm oil in the preparation of any of our products.

Although the use of raw materials from animal origin is less than 1% of the total in our products, corresponding to egg, the Ebro Group has undertaken to use exclusively ingredients from cage-free eggs in the production of any foods requiring that raw material as from 2025. This undertaking is extended to all the Group's companies in Spain and has also been adopted by Lustucru Frais in France. In 2022, the use of ingredients from cage-free eggs was already up to 99% in Spain and 82% in France.

Packaging materials [301-1]

The packaging materials for finished products are mainly paper, cardboard and plastic.

Type of Material	2022		2021	
Plastic	45,086	48%	38,247	46%
Paper	46,830	50%	43,227	52%
Glass	0	0%	0	0%
Metal	3	0%	6	0%
Others	1,340	1%	1,600	2%
TOTAL	93,258		83,080	

Recycled input materials [301-2]

Based on the information received from the suppliers of packaging materials regarding the composition of their materials, we have calculated the recycled fibre/polymer content of the different types of packaging we use.

To preserve and guarantee the utmost food safety of our products, the primary packaging, which is in direct contact with the food, must have a 100% virgin material composition or be certified as suitable for use in the food industry. In this scenario, our primary packaging contains 6% recycled material.

The different secondary and tertiary packaging formats used by the Group both contain 74% of recycled fibre, on average.

GRI 302: Energy

This indicator is reported under standard GRI 303 (2016).

The energy consumption and inventory of greenhouse gas (GHG) emissions of all the Group companies is calculated under standard ISO 14064-1:2019.

Energy consumption within the organisation [302-1]

We separate energy consumption within the organisation into direct consumption and indirect consumption.

The direct energy consumption is calculated taking into account the following:

1. The consumption of non-renewable fuels in stationary and mobile sources:
2. The consumption of renewable fuel:
 - a. Rice husk, a by-product of our industrial processes, used by Ebro India, Herba Ricemills and Mundiriso
 - b. Wood chips used by Ebro Frost
 - c. Charcoal used by Ebro India
3. The self-generated energy in photovoltaic and cogeneration facilities
4. The self-generated energy sold from photovoltaic and cogeneration facilities

Direct consumption (GJ)

Non-renewable fuel consumed	2022		2021	
Natural gas	2,807,055	94.50%	2,722,752	75.63%
Other non-renewables	76,690	2.58%	805,189	22.36%
Total consumption non-renewables (GJ)	2,883,745	97.08%	3,527,941	97.99%
Renewable fuel consumed	2022		2021	
Biomass/Charcoal	80,976	2.73%	70,194	1.95%
Total consumption renewables (GJ)	80,976	2.73%	70,194	1.95%
Self-generated energy	2022		2021	
Photovoltaic panels	6,361	0.21%	2,956	0.08%
Cogeneration	101,081	3.40%	94,458	2.62%
Total self-generation (GJ)	107,442	3.62%	97,414	2.71%
Self-generated energy sold	2022		2021	
Photovoltaic panels	6	0.00%	13	0.00%
Stationary combustion/Cogeneration	553	0.02%	838	0.02%
Total self-generation sold (GJ)	559	0.02%	851	0.02%
Self-consumption photovoltaic	2022		2021	
Self-consumption PV (GJ)	6,355	0.21%	2,943	0.08%
Total direct consumption (GJ)	2,970,524	100.00%	3,600,240	100%

3.6% of the direct consumption energy is self-generated at the photovoltaic facilities of our subsidiaries Arotz, Bertagni, Ebro Frost, Ebro India, Garofalo, Geovita, Herba Ricemills, Mundiriso and Transimpex, and at the cogeneration plants of Bertagni, Ebro Frost, Garofalo and Geovita.

Indirect consumption (GJ)

7.7% of the electricity purchased (indirect consumption) has a guarantee of renewable origin.

Indirect consumption	2022		2021	
	GJ	%	GJ	%
Electricity without GoO	920.955	91,55%	865.569	91,18%
Electricity with GoO	76.643	7,62%	73.992	7,79%
Steam	7.768	0,77%	9.149	0,96%
Heat	551	0,05%	546	0,06%
Cooling	0	0,00%	0	0,00%
Total indirect consumption (GJ)	1.005.916	100,00%	949.256	100,00%

Total energy consumption	2022		2021	
	GJ	%	GJ	%
Direct consumption	2.970.524	74,70%	3.600.240	79,13%
Indirect consumption	1.005.916	25,30%	949.256	20,87%
Total energy consumption (GJ)	3.976.440	100,00%	4.549.495	100,00%

Energy consumption outside of the organisation [302-2]

We do not have the methodologies or activity data to calculate energy consumption outside of the organisation.

Energy intensity [302-3]

Energy intensity	2022	2021
Total energy consumed (GJ)	3,976,440	4,549,495
Net Sales Ebro (M€)	2,967.6	2,427.1
Energy intensity (GJ/M€ net sales)	1,340	1,874

 Reduction of energy consumption [302-4]

Ten companies in the Ebro Group have reported different initiatives to reduce their energy consumption, with a total investment of EUR 1,017,718.

Company	Plant	Initiative	Cost (EUR)
Geovita	Villanova Monferrato	Cogeneration plant	520,000
Bertagni	Avio & Vicenza	Cogeneration plants	90,653
Ebro Foods Belgium, N.V.	Merksem (plant A)	New, more efficient compressor	151,280
S&B Herba Foods	Cambridge (Fullborn)	New, more efficient compressor	31,818
Herba Ricemills	San Juan de Aznalfarache	Renovation of equipment to improve heat transfer and reduce heat losses	105,168
Lustucru Frais	Communay	Heat recovery system in refrigeration unit, and water recovery	31,581
Mundi Riso	Vercelli	Improvement of heat insulation in packaging area	31,000
Riviana Foods Canada	Hamilton	Change from conventional lighting to LED	14,523
Arrozeiras Mundiarroz	Coruche	Change from conventional lighting to LED	3,701
Herba Ricemills	San Juan de Aznalfarache	Change from conventional lighting to LED	24,562
Tilda	Classic site	Change from conventional lighting to LED	13,432

GRI 303: Water and Effluents

This indicator is reported under standard GRI 303 (2018)

 Interactions with water [303-1]

Water consumption in Ebro includes water consumed in offices and in the manufacturing process. The production processes of pasta and precooked food are more water-intensive than the dry rice production process. The consumption of well water used by Agromeruan in rice growing is also included.

 Management of water discharge-related impacts [303-2]

All effluent is discharged to the sewage networks, except from Bertagni, Ebro India, Ebro India, Ebro Frost and Mundiriz, which discharge into continental waters.

Water withdrawal [303-3]

The surface water withdrawn and used by the company Agromeruan for its agricultural activities in Morocco accounts for 78% of the total consumption by the Group. In this context, the global performance of our industrial activities account for use of the 22% remaining water withdrawal: 83% from the municipal water supply (third-party water) and 17% from groundwater.

Water withdrawal	2022	%	2021	%
Third-party water	2,757,089	18%	2,588,676	17%
Groundwater	544,884	4%	617,738	4%
Total industrial processes (m3)	3,301,972	22%	3,206,414	21%
Inland surface freshwater	11,880,000	78%	11,880,000	79%
Inland surface salt water	0	0%	0	0%
Total water withdrawn (m3)	15,181,972		15,086,414	
Total withdrawal freshwater (SS<1000 mg/l)	15,181,972		15,086,414	
Total withdrawal other water(SS>1000 mg/l)	0		0	

Water withdrawal by areas of water stress

Using the World Resources Institute (WRI) classification of water stress areas, the group's water withdrawal by areas of water stress is as follows:

Water withdrawal by areas of Water Stress	2022		2021	
	m3	%	m3	%
High	12,856,367	85%	12,724,396	84%
Low	84,929	1%	90,454	1%
Low-medium	1,505,808	10%	1,554,807	10%
Extremely high	46,239	0%	31,962	0%
Medium-high	688,630	5%	684,796	5%
Total water withdrawn (m3)	15,181,972		15,086,414	

NB: 92% of the water withdrawn in areas of high water stress corresponds to the agricultural activities of Agromeruan.

Water discharge [303-4]

Destination of discharge	2022	2021
Third party water (Sewage network, treatment plants)	2,002,340	1,978,571
Inland water	237,695	265,802
Seawater	0	0
Total (m3)	2,240,035	2,244,373

Discharge treatment	2022	2021
---------------------	------	------

No treatment	1,048,824	1,697,143
Aerobic treatment	1,191,211	537,375
Anaerobic treatment	0	9,854
Total (m3)	2,240,035	2,244,373

Type of discharge	2022	2021
Freshwater (SS<1000 mg/l)	1,683,276	1,601,752
Other water (SS>1000 mg/l)	556,760	642,621
Total (m3)	2,240,035	2,244,373

Discharge by areas of Water Stress	2022		2021	
	Freshwater discharged (SS<1000 mg/l)	Other Water discharged (SS>1000 mg/l)	Freshwater discharged (SS<1000 mg/l)	Other Water discharged (SS>1000 mg/l)
High	813,284	0	701,409	0
Low	73,808	0	51,222	0
Low-medium	272,994	483,600	280,767	642,621
Extremely high	20,858	0	9,854	0
Medium-high	502,331	73,160	558,500	0
Total discharge (m3)	1,683,276	556,760	1,601,752	642,621

No accidental discharge occurred in 2022.

Reduction of water consumption and improvements to effluent quality

Two companies in the Ebro Group reported initiatives to reduce water consumption or improve the quality of the effluent, with a total investment of EUR 417,606.

Company	Plant	Initiative	Cost (EUR)
Bertagni	Avio & Vicenza	Improvements to water purifier	184,308
Riviana Foods Canada	Delta	Replacement of grease trap to improve the effluent quality	233,298

 Water consumption [303-5]

Water Consumption	2022	2021
Water withdrawal	15,181,972	15,086,414
Water discharge	2,240,035	2,244,373
Water sold	0	0
Total water consumption (m3)	12,941,937	12,842,042

NB: The volume of water used in the rice crop in Morocco has not been considered discharge

Discharge by areas of Water Stress	2022	%	2021	%
High	12,043,083	93%	12,022,987	94%
Low	11,121	0%	39,232	0%
Low-medium	749,214	6%	631,418	5%
Extremely high	25,381	0%	22,108	0%
Medium-high	113,139	1%	126,296	1%
Total water consumption (m3)	12,941,937		12,842,042	

GRI 304: Biodiversity

This indicator is reported under standard GRI 304 (2016).

 Operational sites in or adjacent to protected areas and areas of high biodiversity value outside protected areas [304-1]

The Riviana plant in Freeport, Texas (United States) is adjacent to a protected area of wetland, PEM1A, Brazos River.

Tilda has a jetty on the River Thames (United Kingdom).

 Significant impacts of activities, products, and services on biodiversity [304-2]

There have been no impacts in any areas considered of high biodiversity value.

 Habitats protected or restored [304-3]

No restoration measures have been implemented in protected habitats.

Climate Change

Climate change poses a serious threat for the Group's business activities as it directly affects essential aspects such as the production of raw materials, the availability of critical resources (e.g. water), the viability of product transport, logistics and distribution operations and increased energy needs of our production processes, among others.

Accordingly, in accordance with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), we have identified the potential risks, impacts and opportunities that climate change may have on our organisation, establishing the appropriate mitigation and/or adaptation measures for each one. This will shortly be taken further, with the financial quantification of those risks and impacts.

Some of the mitigation measures are already contemplated in our Sustainability Plan HEADING FOR 2030, including: 1) making a more efficient consumption of water and energy; 2) reducing, recovering and re-using waste; 3) recycling packaging; 4) optimising logistics; and 5) using new sustainable agriculture models and technologies. The details and monitoring of each of these measures is available on the website caringforyouandtheplanet.com.

To calculate Scope 1 and 2 of the Group's Carbon Footprint we developed a Greenhouse Gas Emissions Inventory procedure for all the Group companies under standard ISO 14064-1:2019. We have not yet defined our reduction goals, but we have already started to develop emissions reduction initiatives. We thus have:

Photovoltaic installations:	Arotz, Bertagni, Ebro Frost Germany, Ebro India, Herba Ricemills, Garofalo, Geovita, Mundiriso and Transimpex
Cogeneration:	Bertagni, Ebro Frost Germany, Garofalo and Geovita
Biomass:	Ebro Frost Denmark, Herba Ricemills, Mundiriso and Ebro India

The next stage will be to measure Scope 3 and define an emissions reduction plan for all three scopes.

With regard to Scope 3, through our accession to the Lean & Green Programme for the calculation-reduction-offset of emissions produced in national overland logistics (Spain), we have completed the reduction plan (20% in 5 years) and continue to calculate our logistics footprint every year.

Also in Scope 3, the Ebro Group takes an active approach to the promotion and investigation of environmentally sustainable growing techniques for application to the rice crop in different production areas, to contribute towards greater preservation of the environment, promote biodiversity and mitigate the effects of climate change. This work is done through own initiatives and specific collaborations with stakeholders and sectoral associations, particularly the Sustainable Agriculture Initiative Platform (SAI Platform) and the Sustainable Rice Platform (SRP).

In 2022, the most important examples of this work were:

- Thailand: Sustainable Aromatic Rice Initiative of Thailand (SARI-T)

This is a programme developed jointly with Mars, GIZ and the Thai Rice Department, which aims to enhance sustainably the economic viability of 1,200 rice growers in the province of Roi Et and the production of high quality Hom Mali aromatic rice. The incorporation of good agricultural practices that respect the environment improves growers' livelihoods. The Sustainable Rice Platform (SRP) crop verification is also made. The project completed its fifth year of rice production in 2022 and will probably be extended.

- Spain: Oryzonte Programme

This programme is developed in the Guadalquivir Marshes (Seville) jointly with Mars Food and Danone.

The project, which began in 2018, aims to improve the sustainability of the rice crop in the province of Seville, where the largest rice-growing area is located in Spain, focusing on three key areas: water, greenhouse gas emissions (GHG) and biodiversity.

- With regard to GHG emissions, the measurements recorded in the control plot were considerably lower than those reported in other regions of Spain, which could be due to the high clay and sulphate content of the soils in Seville. In addition, the work has shown that the implementation of specific practices aligned with the guidelines of the Intergovernmental Panel on Climate Change (IPCC), such as Alternate Wetting and Drying (AWD) techniques, actually reduce GHG emissions from the Seville rice fields. In this regard, by implementing the AWD techniques, the project has measured a 60% reduction in GHG emissions and a considerable reduction of 63% in methane emissions in comparison with the levels recorded where the growers' habitual practices were implemented.

Similarly, the measurement of emissions has shown that the practice of *stopping winter flooding* considerably reduces GHG emissions in comparison with traditional practices, where the fields are kept flooded from harvesting to mid-January.

In all cases, the emissions of other greenhouse gases (particularly nitrous oxide) were not material. Therefore, the potential of global warming is significantly reduced through the implementation of *intermittent irrigation* and *stopping winter flooding*.

In 2022, AWD was implemented on 255 Ha and we are still working with rice growers in the region to encourage the use of these practices on their land. We are working with *Sustain Cert* to certify these results.

- With regard to water, the project collaborates with the National Council for Scientific Research (CSIC) in the development of a water and salinity model to improve and monitor use of water practices. A key part of this work is to determine the yield/salinity ratio in the conditions present in Seville.
- Biodiversity. The programme has continued with the installation of vertical structures and nests for bats and birds of prey of special interest, such as the barn owl or the lesser kestrel. Encouraging the presence of these birds of prey and bats is a promising strategy to reduce the use of pesticides and increase the sustainability of the agricultural production systems.

- India: programmes

Our company Ebro India has continued working on different sustainable agriculture projects, some of which have been in place for several years, such as EKTA, Organic Farming, Control Farming and, since 2021, a new project focusing on the reduction of water consumption and emissions.

One of the greatest challenges in India is compliance with the maximum pesticide residue limits (MRL) permitted in the European Union. Through the Control Farming programme, Ebro India works closely with the growers in monitoring all the agricultural practices they use from

sowing to harvesting, educating them in the correct use of pesticides and fungicides in terms of quantity, quality and timing.

The new project that commenced in the previous year to reduce water consumption and emissions in farming is intended to benefit the same group of growers as Control Farming. In 2022, more than 50 growers, the equivalent of 3000 Ha of crops, have used the Alternate Wetting and Drying (AWD) techniques, with which they have managed to reduce water consumption and methane emissions. Biological plague control measures (spider bundles and pheromone traps) have also been used to reduce the use of pesticides. Another significant aspect of the programme is the use of pseudomonas by some growers, which helps to inhibit pathogenic microorganisms, stimulate the synthesis of growth hormones and strengthen disease resistance in rice plants, while reducing the quantity of pesticides needed to combat plagues. All these initiatives have been welcomed by growers.

The EKTA programme, which has been running since 2015, provides continuous support for over 6000 growers throughout all the stages of the crop, from the treatment of seeds to the post-harvest stage. EKTA runs schools in the villages to provide training in best agricultural practices, focusing on saving water and promoting biological plague-control measures. A number of experts participate in the project to respond to specific questions raised by growers.

Finally, the Organic Farming programme involves joint work with around 400 growers for the production of organic basmati rice certified under the Fair Trade standard.

- Other programmes focusing on the sustainability of our agricultural raw material

Other Group companies have worked during the year on implementing rice crop verification programmes under the sustainability standard, Farm Sustainability Assessment (FSA), of the SAI Platform. Those companies – Mundiriso, Riviana Foods and Ebrosur – have implemented the FSA standard on producers in Italy, United States and Argentina, respectively.

In Italy, the subsidiary Garofalo embarked on a sustainable durum wheat growing programme in 2022 together with its agricultural suppliers to optimise the use of fertilizers, pesticides and water.

We should also point out that in order to address the challenges of climate change and follow any changes in law in this area, the Ebro Group is a member of the Climate Change Cluster promoted by Forética (www.foretica.org). In that Cluster, a group of large companies work together to lead the strategic positioning addressing climate change in the business agenda, discuss and exchange views and good practices, participate in the global debate and become key players in the decisions made at the administrative level.

GRI 305: Emissions

This indicator is reported under standard GRI 305 (2016).

The methodology employed under ISO 14064-1:2019 is of calculation, using the activity data of each company/plant and emission factors taken from official sources (Annex 3), applied to all the group's plants. All the gases are included in the calculation: CO₂, CH₄, N₂O, HFC, PFC, SF₆ and NF₃.

The Ebro Group's GHG emissions are consolidated under the operational control approach, including: (a) direct GHG emissions and (b) indirect GHG emissions for imported energy.

Direct (Scope 1) GHG emissions [305-1]

The sources of direct (Scope 1) GHG emissions are:

- ✓ Emissions of CO₂, CH₄ and N₂O from fossil fuel consumption by stationary sources and mobile sources (fleet of vehicles and machinery).
- ✓ Leaks of cooling gases (HFC) from HCAV equipment
- ✓ Emissions of CH₄ from the rice crop
- ✓ Emissions of N₂O from elimination of nutrients in water treatment
- ✓ Direct emissions of CH₄ and N₂O from Biomass (rice husk, wood and charcoal)

Indirect (Scope 2) GHG emissions [305-2]

The sources of indirect (Scope 2) GHG emissions are:

- ✓ Emissions of CO₂ from energy consumption (electricity, heat, steam and cold) in installations and processes.

GHG emissions	2022		2021	
Scope 1 emissions	171,685	63%	215,575	69%
Scope 2 emissions	102,467	37%	97,253	31%
Total emissions (t CO₂e)	274,153		312,828	

We calculate the Scope 2 emissions according to the location, using specific emission factors of each country.

The emissions from the rice crop of Mundi Riz in Morocco account for 2.6% of the Scope 1 emissions and 1.6% of the total emissions of the Group.

Biogenic CO₂ emissions

Biogenic CO₂ emissions are produced in the combustion of renewable fuels, in our case rice husk, wood chips and charcoal.

Biogenic CO ₂ Emissions	2022	2021
Biogenic CO ₂ (t)	8,666	7,466

Other indirect (Scope 3) GHG emissions [305-3]

We do not have the methodologies or activity data to calculate all the indirect GHG emissions produced outside the organisation (Scope 3). We plan to calculate Scope 3 over the course of 2023-2024, and subsequently define specific targets for emissions reduction. For the time being, we have the following partial measurements:

- The emissions associated with the maritime logistics of our raw materials and products of the Group's rice division. This calculation is made using the EccoPrint tool developed by EccoFreight and includes the transport (by rail and/or road) from the source plant to the port of departure and from the port of arrival to our plant.

In 2022, EccoFreight handled approximately 17% of the shipments of the entire rice division, with 190,643 tonnes shipped and GHG emissions of 46,235 t CO₂e.

By choosing more efficient routes instead of other alternative routes available with larger carbon footprints, we avoided the emission of 21,675 t CO₂e, which is a 32% reduction of our Scope 3 emissions with EccoFreight.

- Emissions associated with national overland logistics (Spain). We continue working to reduce our logistics carbon footprint after joining the Lean & Green programme. After defining 2019 as the base year and the total t CO₂e/tonne of product of freight for sale, significant progress has been achieved:
 -  2020: 6.06% reduction
 -  2021: 17.60% reduction
 -  2022: measurement of carbon footprint in progress

GHG emissions intensity [305-4]

Emissions Intensity	2022	2021
Total GHG emissions (t CO ₂ e)	274,152.7	312,828.3
Ebro Net Sales (M€)	2,967.6	2,427.1
GHG emissions intensity (t CO₂e M€ net sales)	92	129

Reduction of GHG emissions [305-5]

We are studying the possibility of defining emissions reduction objectives aligned with the recommendations of the scientific community. We plan to calculate our Scope 3 emissions over the course of 2023-2024 and subsequently define specific emission reduction targets.

In addition to the energy reduction initiatives described in section 302 energy, which entail reducing emissions, three companies have implemented initiatives to reduce emissions, for a total value of EUR 1,397,993.

Company	Plant	Initiative	Cost (EUR)
Ebro Frost Germany	Offingen	Photovoltaic plant	211,328
Ebro India	Taraori	Photovoltaic plant	565,275
Herba Ricemills	Rinconada	Photovoltaic plant	554,153
Ebro India	Taraori	Emissions scrubber in boiler chimney, new, more efficient compressors	67,177

Emissions of ozone-depleting substances (ODS) [305-6]

Thanks to the development of specific laws (on an international, European and national level) and the efforts of the sectors affected, ODS production and consumption have been practically phased out. The Ebro Group's activities are not included in any of the main sectors that use or used ODS, so in our opinion this indicator is not material and is not calculated.

NOx, SOx and other significant air emissions [305-7]

We calculate the emissions of air pollutants associated with the stationary and mobile combustion processes, as they are the most significant. The NOx, SOx, etc. emissions are obtained by multiplying the GJ by a specific emissions factor for each type of pollutant.

In accordance with the applicable environmental laws and regulations, regular inspections and measurements are made by an external company to check compliance. No non-compliance was detected during the year.

NOx, SOx & other emissions (t)	2022							TOTAL
	NOX	CO	COV	SOx	PM10	PM2.5	PM	
Stationary combustion	224	129	90	3	14	14		474
Mobile combustion	9	13	2				1	25
Total Pollutants (t)	233	142	92	3	14	14	1	499

NB: The vast reduction of CO emissions in comparison with 2021 is due to the change of fuel used in Riviana Foods.

In 2022, through the purchase of electricity with guarantee of origin (GoO), photovoltaic self-generation and the use of fuels from renewable sources, we have avoided the emission of 9,350 t CO₂e.

Activity	MWh	2022
		Emissions avoided (t CO2e)
Electricity with GoO	21,290	4,117
Photovoltaic self-generation	1,767	685
Biomass	22,493	4,547
Total	45,550	9,350

Measures to reduce noise and light pollution

All our plants comply with environmental standards and make the necessary measurements to make sure they keep within the noise and light pollution limits. Herba Ricemills updated the noise map of its San Juan de Aznalfarache plant in 2022.

GRI 306: Waste

This indicator is reported under standard GRI 306 (2020).

Waste generation [306-1]

Most of the waste generated by our business is classified as non-hazardous waste. There is also a small proportion of hazardous waste generation, mainly waste from the packaging of chemical products used in maintenance work at our facilities.

Management of significant waste-related impacts [306-2]

All waste of whatever type is separated by kind and taken to authorised waste disposal contractors for treatment according to the laws in place in each geographical area, giving priority to recycling and reuse wherever possible.

Circularity measures

To guarantee meeting the reduction, recycling and re-use targets defined in the Packaging and Packaging Waste Act 11/97 of 24 April, our Spanish subsidiary Herba has joined Ecoembalajes España, S.A. (Ecoembes), which has the mission of designing and developing systems for selective collection and recovery of used packaging and packaging waste. Ecoembes uses the “Green Dot” (symbol that appears on the packaging) to show that the packager of the product has paid a sum of money for each package put on the market.

Both the European rice companies and the head offices of Ebro Foods have signed agreements with companies similar to Ecoembes for the destruction of paper and other data carriers. With these agreements, apart from complying with the Data Protection Act, they guarantee a sustainable management of the documentation through the undertaking by these companies to destroy and recycle the material.

As part of our commitment to having 100% recyclable packaging by 2030, the dry rice products of our brands Arroz SOS, La Fallera, Sabroz and La Cigala in España, Risella in Finland and Brillante rice cups, one of the formats that the Group sells most, are now 100% recyclable.

Apart from that, the Group has worked on three principal projects in 2022 to make our packaging more recyclable.

1. For our brand SOS specialties, sold in flexible non-recyclable packaging (polyethylene & polypropylene PE/PP), we studied the possibility of changing the composition to recyclable paper. As the necessary line productivity was not reached with that alternative packaging and it was not economically viable, we finally opted to change to a mono-polymer polypropylene, which is 100% recyclable.
2. Mono-material polypropylene (PP) doypack. The tests run in Herba and Tilda did not produce satisfactory results. The use of a mono-material 100% polypropylene base to replace the two triplex currently in use (Polyester/Polyamide/Polypropylene and Polyester/High Barrier Polyester/Polypropylene (PET/PA/PP and PET/HB PET/PP) has turned out not to have sufficient line productivity or oxygen barrier to preserve the organoleptic properties of the food. We continue to seek feasible alternatives that will guarantee the food preservation properties of the packaging used at present.
3. We increased the number of lines used by different plants in the Group to manufacture the compact 1 kg and 0.5 kg paperboard format to replace polypropylene.
 - a. In Antwerp (Ebro Foods Belgium), in order to be able to work with paperboard (the same product used at the Silla plant for the La Fallera brand), the company invested in the tube and former of the filling unit to make the line compatible with the use of paper.
 - b. Tests are being run for the same purpose on the compact 1 kg and 0.5 kg line in Vercelli (Mundiriso), with a view to including paperboard as a possible replacement for polypropylene.

Actions to combat food waste

The main internal policy for food surplus within the Group (defining surplus as products suitable for consumption but which, for different reasons -such as packaging defects, being close to their use-by date, etc.- are not suitable for sale to consumers) is donation to food banks.

The Ebro Group also participates actively in the programme “Don’t waste food”, a collaborative initiative to reduce food waste, led by AECOC, the association of large consumer companies.

The three principal objectives of the project are to:

- Establish prevention and efficiency practices throughout the food chain to reduce waste
- Maximise use of the surplus produced in different stages of the value chain (redistribution, reuse and recycling)
- Make society aware of this problem and the need to reduce food waste

The initiative is supported by over 350 manufacturers and distributors in the large consumer sector, logistics and haulage operators, business associations, consumer organisations and other institutions and is coordinated by AECOC.

The programme aims to inform people about the efforts being made by companies to prevent food waste and promote enhanced collaboration to gradually reduce the problem. Every year some 7.7 million tonnes of food is wasted in Spain. Therefore, the “*Don’t waste food*” programme aims to make consumers throughout the world aware of the problems of food waste and get them to participate in the initiative, encouraging them to collaborate in order to reduce the waste generated by each person.

Measures for waste prevention, recycling, reuse and other forms of recovery and elimination

All the companies in our Group have contracted the management of hazardous and non-hazardous waste to authorised waste disposal contractors.

Some of the Group's rice companies use the husk from their manufacturing processes as a source of renewable energy. During 2022, Ebro India, Mundi Riso and Herba Ricemills reported the use of rice husk as a renewable fuel to obtain thermal energy.

Waste generated [306-3]

Waste	2022		2021	
Non-hazardous	36,757	99%	34,858	100%
Hazardous	285	1%	118	0%
Total Waste (t)	37,042		34,976	

NB: The increase in hazardous waste, although still negligible, is due to the fact that Ebro India did not report ash as waste before now, because it did not have the methods necessary to quantify it.

Waste for recovery [306-4] and disposal [306-5]

Destination of Waste	2022		2021	
Total Waste for Disposal	14,193	38%	13,978	40%
Total Waste for Recovery	22,850	62%	20,999	60%
Total Waste (t)	37,042		34,976	

Non-Hazardous Waste for Disposal	2022		2021	
Landfill	10,416	28%	11,450	33%
Incineration	727	2%	721	2%
Other disposal operations	2,801	8%	1,751	5%
Total disposal NH waste (t)	13,943	38%	13,921	40%
Non-Hazardous Waste for Recovery	2022		2021	
Recycled	8,913	24%	5,185	15%
Composted	3,552	10%	4,273	12%
Reused	10,164	28%	10,870	31%
Other recovery operations	185	1%	610	2%
Total recovery NH waste (t)	22,814	62%	20,937	60%
Total Non-Hazardous Waste (t)	36,757		34,858	

Hazardous Waste for Disposal	2022		2021	
Landfill	218	76%	0	0%
Incineration	16	6%	13	11%
Other disposal operations	16	6%	44	37%
Total disposal H waste (t)	250	88%	57	48%
Hazardous Waste for Recovery	2022		2021	
Recycled	32	11%	43	36%
Composted	0	0%	4	3%
Reused	1	0%	0	0%
Other recovery operations	2	1%	15	13%
Total recovery H waste (t)	36	12%	62	52%
Total Hazardous Waste (t)	285		118	

Actions to increase waste recovery

In Spain, the company Herba Ricemills has made a profound change in its waste management. As a result, in 2022, 99% of the waste generated was managed through recovery operations.

In addition, two companies in the Ebro Group have reported initiatives to improve waste management and recovery, investing a total sum of EUR 14,100.

Company	Plant	Initiative	Cost (EUR)
S&B Herba Foods	Liverpool	New cardboard compactors	13,600
Riviana Foods Canada	Hamilton	Training for operators on waste separation	500

GRI 2-27 Environmental Compliance

Non-compliance with environmental laws and regulations [2-27]

In 2022, 3 plants reported minor non-compliance with environmental laws and regulations that did not lead to fines as appropriate measures had been taken.

Company	Plant	Environmental non-compliance
Arrozeiras Mundiarroz	Coruche	Exceeding permitted use of water
Lustucru	St. Genis Laval	Non-compliance of pH and temperature of effluent
Riviana Foods	Alvin	Emissions records not available
Riviana Foods Canada	Delta	pH of effluent off specification

Provisions and guarantees for environmental risks

All the Group companies have taken out third party liability insurance covering any damage caused by sudden, unintentional, accidental pollution; that insurance is considered to cover any possible risks of this nature. To date there have been no significant claims for environmental issues, favourable outcomes of audits and inspections, and no allegations in the processing of Integrated Environmental Authorisations, etc.

Environmental assessment and certification procedures

Total compliance with the laws and regulations applicable to its activities is a basic principle and goal in the Ebro Group environmental management. All the production plants of the Ebro Group operate under the applicable certifications, specifications and authorisations in their respective geographical areas and internally manage their environmental aspects accordingly.

The following workplaces have an environmental management system certified under UNE-EN-ISO 14001:

- Herba Ricemills (San Juan, Coria, Los Palacios, La Rinconada and Isla Mayor plants)
- Garofalo Gragnano

Investments in environmental risk prevention

Twelve of the 33 companies covered by this report have reported investments in measures to reduce / optimise energy consumption, water consumption, GHG emissions and waste management:

- Arrozeiras Mundiarroz
- Bertagni
- Ebro Foods Belgium
- Ebro Frost Germany
- Ebro India
- Geovita
- Herba Ricemills
- Lustucru Frais

- Mundiriso
- Riviana Foods Canada
- S&B Herba Foods
- Tilda

Environmental expense and investment	2022	2021
Cost of management and control	€1,404,433	€1,143,950
Investment to minimise impact	€2,913,228	€4,747,655
Total	€4,317,661	€5,891,605

The investments reported here include measures to reduce energy consumption, water consumption and emissions, as well as the cost of waste management, regulatory inspections, noise measurements and analyses. They also include initiatives to adapt to climate change, such as the Oryzonte project, which aims to reduce water consumption and GHG emissions, and rice crop verifications under the SRP standard in Spain.

The principal investments were made by Herba Ricemills, Ebro India and Geovita, with the installation of two photovoltaic plants and one cogeneration plant, respectively.

ANNEX 1

List of subsidiaries of the Ebro Group

Company	Country	Business Area
Agromeruan, SARL AU	Morocco	Rice
Arotz Foods, S.A.	Spain	Others
Riceeiras MundiRice, S.A.	Portugal	Rice
Bertagni 1882, S.P.A.	Italy	Pasta
Ebro Foods, S.A.	Spain	Holding
Ebro Foods Belgium, N.V.	Belgium	Rice
Ebro Foods Netherlands B.V.	Netherlands	Rice
Ebro India, Private Ltd.	India	Rice
Ebro Ingredients, B.V.	Netherlands & Belgium	Ingredients
Ebro Premium Food, S.A.S.	India	Rice
Ebrofrost Denmark A/S	Germany	Rice and pasta
Ebrofrost Germany, Gmbh	Germany	Rice and pasta
Ebrofrost UK, Ltd	United Kingdom	Rice and pasta
Ebrofrost North America	United States	Rice and pasta
Euryza, Gmbh	Germany	Rice
Geovita Functional Ingredients, S.R.L.	Italy	Ingredients
Herba Bangkok, S.L.	Thailand	Rice
Herba Cambodia, Co. Ltd	Cambodia	Rice
Herba Ricemills, S.L.U.	Spain	Rice

ANNEX 4

Index of contents required by Act 11/2018 of 28 December amending the Commercial Code, the recast Corporate Enterprises Act approved by Legislative Royal Decree 1/2010 of 2 July, and the Audit Act 22/2015 of 20 July, regarding the disclosure of non-financial and diversity information

General areas

Area		Reporting framework	Reference (Section)	Comments / Reason for omission
Business model	Description of the business model:	GRI 2-1 Organizational details	P.5-12	
	Business environment	GRI 2-2 Entities included in the organization's sustainability reporting		
	Organisation and structure	GRI 2-6 Activities, value chain and other business relationships		
	Markets in which it operates	GRI 2-9 Governance structure and composition		
	Objectives and strategies	GRI 2-23 Policy commitments		
Policies and results of the policies	Description of the policies applied by the group and the results of those policies, including the key indicators of the relevant non-financial results	GRI 2-23 Policy commitments	P.13-22	
		GRI 2-24 Embedding policy commitments		
Principal risks and impacts identified	The main risks related with those issues linked to the group's activities, including, where necessary and proportional, its commercial relations, products or services that may have an adverse effect on those areas	GRI 3-3 Management of material topics	P.23-29	

Environmental aspects

Area		Reporting framework	Reference	Comments / Reason for omission
Environmental management	Existing and foreseeable effects of the company's activities	Internal framework: internal procedures, Code of Conduct, GRI 2-27	P. 73 - 74	
	Environmental certification or assessment procedures	ISO 14001	P. 95	
	Resources employed for preventing environmental risks	Internal framework: Accounting	P. 95 - 96	
	Application of the precautionary principle	Internal framework: Code of conduct, sustainability environmental and CSR policy	P. 74	
	Quantity of provisions and guarantees for environmental risks	Internal framework: Insurance policy for third-party liability and accidental pollution damage	P. 95	
Pollution	Measures to prevent, reduce or remedy carbon emissions (including noise and light pollution)	Internal framework: Sustainability Plan HEADING FOR 2030, sustainability programmes	P. 83 – 90	
		GRI 305-5	P.14 - 16	

		GRI 3-3 Management of material topics		
Circular economy and waste management and prevention	Measures for waste prevention, recycling, reuse and other forms of recovery and elimination	GRI 306-3 GRI 3-3 Management of material topics	P. 90 - 94 P.14 - 16	
	Actions to combat food waste	Internal framework: 1) AECOC programme 2) Donations to food banks GRI 3-3 Management of material topics	P. 91 - 92 P. 42 - 43 P.14 - 16	
Sustainable use of resources	Water consumption and water supply within local limits	GRI 303-1, 303-2, 303-3, 303-4 & 303-5	P. 78 - 80	
	Consumption of raw materials	GRI 301-1, 301-2	P. 74 - 76	
	Direct and indirect energy consumption	GRI 302-1, 302-2, 302-3, 302-4	P. 76 - 79	
	Measures implemented to enhance energy efficiency	GRI 302-4	P. 78 - 79	
	Use of renewable energies	GRI 302-1	P. 77 - 78	
Climate change	Important elements of the GHG emissions generated	GRI 305-1, 305-2, 305-3	P. 86 - 90	
	Measures taken to adapt to the consequences of climate change	1) Sustainable agriculture projects 2) Circularity measures 3) Climate change risks GRI 3-3 Management of material topics	P. 83 - 86 P. 90 - 92 P. 23 - 29 P.14 - 16	
	Reduction goals established voluntarily	GRI 305-3 Internal framework: Reduction of scope 3 emissions (logistics, rice crop) GRI 305-5	P.87 P. 88 - 89	
Protection of biodiversity	Measures taken to preserve or restore biodiversity	GRI 304-1, 304-2 & 304-3	P.14 – 16 P. 82	
	Impacts caused by activities or operations in protected areas	GRI 3-3 Management of material topics Internal framework: CSR internal reporting tool		

Social and labour aspects

	Area	Reporting framework	Reference	Comments / Reason for omission
Employment	Total number and distribution of employees by gender, age, country and professional category	Internal framework: Quantitative information of the CSR tool	P.48 - 49	
	Total number and distribution of types of employment contract		P. 50	
	Annual average of permanent, temporary and part-time contracts by gender, age and professional category	Internal framework: Quantitative information of the CSR tool	P. 50 - 51	
	Number of dismissals by gender, age and professional category	Internal framework: Quantitative information of the CSR tool	P. 52	
	Pay gap	Internal framework: Calculated with the following formula: (Average pay Men –	P. 63	

Area		Reporting framework	Reference	Comments / Reason for omission
		Average pay Women)/ Average pay Men		
	Average remuneration by gender, age and professional category	Internal framework: Average remuneration (including total remuneration for the year, fixed remuneration and all variable remunerations (attendance fees, etc.) obtained during the year	P. 62 - 63	
	Average remuneration of directors by gender		P. 63 - 64	
	Average remuneration of executives by gender		P. 62	
	Implementation of policies on disconnection from work	Internal framework: Management of material topics	P. 57	
	Employees with disability	Internal framework: Quantitative information of the CSR tool	P. 61 - 62	
Organisation of work	Organisation of working time	Internal framework: Management of material topics	P. 52	
	Number of hours absenteeism	Internal framework: Absentee rate	P. 52	
	Measures to facilitate work-life balance and responsible joint exercise of those measures by both parents	Internal framework: Management of material topics	P. 57 - 58	
Health and safety	Conditions of health and safety at work	Internal framework: Management system for health and safety at work GRI 3-3 Management of material topics	P. 58 – 59 P.14 - 16	
	Number of occupational injuries and disease by gender, frequency rate and severity by gender	Internal framework: Work-related injuries Frequency rate = (total no. lost-time injuries / total no. hours worked) x1000000 Severity rate = (no. lost days due to work-related injuries / total no. hours worked) x1000 GRI 3-3 Management of material topics	P. 58 – 59 P.14 - 16	
Labour relations	Organisation of social dialogue	GRI 3-3 Management of material topics	P.14 - 16	
	Percentage of employees covered by collective agreements by country	GRI 2-30 Collective agreements	P. 59 – 60	
	Balance of collective agreements, particularly in the area of health and safety at work	Internal framework: Quantitative information of the CSR tool	P. 58 - 60	
	Mechanisms and procedures that the company has to promote employee engagement in the management of the company, in terms of information, consultation and participation	Internal framework: Focus on participation of stakeholders	P. 58 - 60	
Training	Policies implemented in the training area	Internal framework: 1) Corporate Code of Conduct 2) Internal CSR Reporting tool	P. 60	

Area		Reporting framework	Reference	Comments / Reason for omission
		GRI 3-3 Management of material topics	P.14 – 16	
	Total hours training by professional category	Internal framework: Quantitative information of the CSR tool GRI 3-3 Management of material topics	P.14 - 16	
Universal accessibility by persons with disability		Internal framework: Qualitative description of the universal accessibility measures for persons with disability	P. 62	
Equality	Measures implemented to promote equal treatment and opportunities between women and men	Internal framework: 1) Corporate Code of Conduct 2) Internal CSR Reporting tool	P. 60 – 61	
	Equality plans Measures taken to promote employment, protocols against sexual and gender-related harassment	Internal framework: 1) Corporate Code of Conduct 2) Internal CSR Reporting tool	P. 60 – 61	
	Integration and universal accessibility of persons with different abilities	Internal framework: Qualitative description of the universal accessibility measures for persons with disability	P. 62	
	Policy against all forms of discrimination and, where appropriate, diversity management	Internal framework: 1) Corporate Code of Conduct 2) Internal CSR Reporting tool GRI 3-3 Management of material topics	P. 60 – 61 P.14 - 16	

Information on respect for human rights

Area	Reporting framework	Reference	Comments / Reason for omission
Application of due diligence procedures in respect of human rights	GRI 2-26 Mechanisms for seeking advice and raising concerns GRI 3-3 Management of material topics	P. 30 – 34 P.14 - 16	
Prevention of the risks of violating human rights and, where necessary, measures to mitigate, manage and redress possible abuse committed	GRI 3-3 Management of material topics GRI 2-23 Policy commitments GRI 2-26 Mechanisms for seeking advice and raising concerns	P.14 - 16 P. 30 – 34	

Complaints of violation of human rights	Internal framework: Quantitative information on the number of complaints GRI 3-3 Management of material topics	P. 34 P.14 - 16	
Promotion and compliance with the ILO fundamental conventions related with respect for the freedom of association and right to collective bargaining, elimination of discrimination in employment and occupation, elimination of forced or mandatory labour and effective abolition of child labour	Internal framework: Corporate Code of Conduct GRI 3-3 Management of material topics	P. 30 P.14 - 16	

Information on anti-corruption and bribery

Area	Reporting framework	Reference	Comments / Reason for omission
Anti-corruption and bribery measures	GRI 2-23 Policy commitments GRI 2-25 Processes to remediate negative impacts GRI 2-26 Mechanisms for seeking advice and raising concerns	P. 35 - 37	
Anti-money laundering measures	GRI 2-23 Policy commitments GRI 2-25 Processes to remediate negative impacts GRI 2-26 Mechanisms for seeking advice and raising concerns	P. 37 - 38	
Contributions to foundations and not-for-profit entities	GRI 201-1 Direct economic value generated and distributed	P. 39 - 46	

Information on the company

Area	Reporting framework	Reference	Comments / Reason for omission
Company's commitments to sustainable development	Internal framework: Qualitative description of the company's impact on employment and local development GRI 3-3 Management of material topics	P. 39 - 46	
	Internal framework: CSR internal reporting tool GRI 3-3 Management of material topics	P. 39 - 46	
	Internal framework: Qualitative description of the relations with local communities GRI 3-3 Management of material topics	P. 39 - 46	
	GRI 3-3 Management of material topics GRI 2-28 Membership associations	P. 39 - 46	

		Internal framework: Description of association or sponsorship actions		
Outsourcing and suppliers	Inclusion in the procurement policy of social, gender equality and environmental issues	Internal framework: Supplier Code of Conduct CSR internal reporting tool GRI 3-3 Management of material topics	P. 69 - 72	
	Consideration in relations with suppliers and subcontractors of their social and environmental responsibility			
	Supervision and audit systems and results			
Consumers	Measures to guarantee consumer health and safety	Internal framework: Qualitative description of the measures for consumer health and safety GRI 3-3 Management of material topics	P. 65 – 66 Annex 2	
	Grievance systems	GRI 2-16 Communication of critical concerns GRI 2-25 Processes to remediate negative impacts	P. 66 – 67	
	Complaints received and solution provided	GRI 2-25 Processes to remediate negative impacts Internal framework : Information on complaints and opportunities for improvement	P. 67 – 68	
Tax information	Profit obtained, country by country	Internal framework: Tax and Finance Department		
	Corporate income tax paid	Internal framework: Tax and Finance Department		
	Government grants received	Internal framework: Tax and Finance Department		

EBRO FOODS, S.A. GROUP

2022 MANAGEMENT REPORT (figures in thousands of euros)

Annual Corporate Governance Report

DETAILS OF ISSUER

Year Ended:

[31/12/2022]

Tax Registration Number:

[A47412333]

Name:

[**EBRO FOODS, S.A.**]

Registered Office:

[PASEO DE LA CASTELLANA 20 - 3RD FLOOR - 28046 MADRID]

A. OWNERSHIP STRUCTURE

A.1. Complete the following table on the capital of the company and voting rights including loyalty shares, if any, at year end:

State whether the articles of association contemplate loyalty shares:

Yes
 No

Date latest modification	Capital (€)	Number of shares	Number of voting rights
27/02/2002	92,319,235.00	153,865,392	153,865,392

Indicate whether there are different classes of shares with different associated rights:

Yes
 No

A.2. Give details on the direct and indirect holders of significant interests in your company at year-end, including directors with significant holdings:

Name of shareholder	% voting rights attributed to the shares		% voting rights through financial instruments		Interest / total voting rights (%)
	Direct	Indirect	Direct	Indirect	
CORPORACIÓN FINANCIERA ALBA, S.A.	14.52	0.00	0.00	0.00	14.52
CORPORACIÓN ECONÓMICA DELTA, S.A.	11.69	0.00	0.00	0.00	11.69
SOCIEDAD ANÓNIMA DAMM	0.00	11.69	0.00	0.00	11.69
ALIMENTOS Y ACEITES, S.A.	10.36	0.00	0.00	0.00	10.36
SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES	0.00	10.36	0.00	0.00	10.36
HERCALIANZ INVESTING GROUP, S.A.	9.00	0.00	0.00	0.00	9.00
GRUPO TRADIFÍN, S.L.	7.96	0.00	0.00	0.00	7.96
EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.	7.83	0.00	0.00	0.00	7.83
JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL	0.00	5.36	0.00	0.00	5.36
MENDIBEA 2002, S.L.	5.36	0.00	0.00	0.00	5.36
ARTEMIS INVESTMENT MANAGEMENT, LLP	0.00	3.16	0.00	0.00	3.16

Details of indirect holdings:

Name of indirect holder	Name of direct holder	% voting rights attributed to the shares	% voting rights through financial instruments	Interest / total voting rights (%)
SOCIEDAD ANÓNIMA DAMM	CORPORACIÓN ECONÓMICA DELTA, S.A.	11.69	0.00	11.69
SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES	ALIMENTOS Y ACEITES, S.A.	10.36	0.00	10.36
JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL	MENDIBEA 2002, S.L.	5.36	0.00	5.36
ARTEMIS INVESTMENT MANAGEMENT, LLP	ARTEMIS INVESTMENT MANAGEMENT, LLP	3.16	0.00	3.16

Indicate the principal movements in the shareholding structure during the year:

- A.3.** State, regardless of the percentage, the percentage of voting rights held by board members in the company attributed to shares or through financial instruments, excluding the directors named in section A.2 above:

Name of director	% voting rights attributed to shares (including loyalty shares)		% voting rights through financial instruments		% total voting rights	Of the total % of voting rights attributed to shares, state where appropriate the % of attributed additional votes corresponding to loyalty shares	
	Direct	Indirect	Direct	Indirect		Direct	Indirect
FERNANDO CASTELLÓ CLEMENTE	1.50	0.00	0.00	0.00	1.50	0.00	0.00
DEMETRIO CARCELLER ARCE	0.01	0.13	0.00	0.00	0.14	0.00	0.00
MARÍA CARCELLER ARCE	0.02	0.00	0.00	0.00	0.02	0.00	0.00
MERCEDES COSTA GARCÍA	0.00	0.00	0.00	0.00	0.00	0.00	0.00
ANTONIO HERNÁNDEZ CALLEJAS	0.00	0.00	0.00	0.00	0.00	0.00	0.00
Total % of voting rights held by board members						46.33	

Details of indirect holdings:

Name of director	Name of direct holder	% voting rights attributed to shares (including loyalty shares)	% voting rights through financial instruments	% total voting rights	Of the total % of voting rights attributed to shares, state where appropriate the % of attributed additional votes corresponding to loyalty shares
DEMETRIO CARCELLER ARCE	INVERSIONES LAS PARRAS DE CASTELLOTE, S.L.	0.13	0.00	0.13	0.00
MARÍA CARCELLER ARCE	MAHOGANYSEPPL, S.L.	0.00	0.00	0.00	0.00

Total percentage of voting rights represented on the board:

Total % of voting rights represented on the board	68.38
---	-------

A.4. Indicate family, commercial, contractual or corporate relationships among significant shareholders known to the company, if any, save any that are insignificant or deriving from ordinary commercial business, except those reported in A.6:

Name of related party	Type of relationship	Brief description
SOCIEDAD ANÓNIMA DAMM, CORPORACIÓN ECONÓMICA DELTA, S.A.	Corporate	Sociedad Anónima Damm holds a direct interest of 99.99% in Corporación Económica Delta, S.A.
SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES, ALIMENTOS Y ACEITES, S.A.	Corporate	Sociedad Estatal de Participaciones Industriales (SEPI) holds a direct interest of 91.96% in Alimentos y Aceites, S.A.

A.5. Describe the commercial, contractual or corporate relationships between significant shareholders and the company and/or its group, if any, except any that are insignificant and those deriving from ordinary commercial business:

Name of related party	Type of relationship	Brief description
SOCIEDAD ANÓNIMA DAMM	Commercial	During 2022, Herba Ricemills, S.L.U. (a subsidiary of the Ebro Foods Group) entered into different commercial transactions with subsidiaries of the significant shareholder Sociedad Anónima Damm, for the sale of rice and rice by-products on arm's length terms. See in this respect the information on related party transactions in section D.2 of this Report.

Name of related party	Type of relationship	Brief description
HERCALIANZ INVESTING GROUP, S.L.	Commercial	During 2022, several subsidiaries of the Ebro Foods Group entered into commercial transactions (mainly purchases and sales of rice) on arm's length terms with the significant shareholder and director Hercalianz Investing Group, S.L. and related parties. See in this respect the information on related party transactions and comments set out in section D.2 of this Report.
HERCALIANZ INVESTING GROUP, S.L.	Contractual	During 2022, several subsidiaries of the Ebro Foods Group entered into contractual transactions (mainly services rendered and received) on arm's length terms with the significant shareholder and director Hercalianz Investing Group, S.L. and related parties. See in this respect the information on related party transactions and comments set out in section D.2 of this Report.
GRUPO TRADIFÍN, S.L.	Commercial	During 2022, several subsidiaries of the Ebro Foods Group entered into commercial transactions (mainly purchases and sales of rice) on arm's length terms with the significant shareholder and director Grupo Tradifín, S.L. and related parties. See in this respect the information on related party transactions and comments set out in section D.2 of this Report.
GRUPO TRADIFÍN, S.L.	Contractual	During 2022, several subsidiaries of the Ebro Foods Group entered into contractual transactions (mainly services rendered and received) on arm's length terms with the significant shareholder and director Grupo Tradifín, S.L. and related parties. See in this respect the information on related party transactions and comments set out in section D.2 of this Report.

- A.6. Describe the relationships, save any that are insignificant for both parties, between the significant shareholders or those represented on the board and the directors, or their representatives in the case of corporate directors.

Explain how the significant shareholders are represented, where appropriate. Indicate specifically any directors appointed on behalf of significant shareholders, those whose appointments have been promoted by significant shareholders or who are related to significant shareholders and/or companies in their respective groups, specifying the nature of those relationships. In particular, indicate the existence, identity and office of board members or representatives of directors of the listed company, if any, who are also directors or representatives of directors in companies holding significant interests in the listed company or in companies of its group:

Name of related director or representative	Name of related significant shareholder	Name of company in the significant shareholder's group	Description of relationship/office
DEMETRIO CARCELLER ARCE	CORPORACIÓN ECONÓMICA DELTA, S.A.	SOCIEDAD ANÓNIMA DAMM	Demetrio Carceller Arce is a proprietary director of Corporación Económica Delta, S.A., in which Sociedad Anónima Damm has a direct interest of 99.99%. Mr Carceller Arce has an indirect interest in Corporación Económica Delta, S.A. through Sociedad Anónima Damm, in which he has a 0.963% interest (0.056% direct and 0.907% indirect). He is Executive Chairman of the Board of Sociedad Anónima Damm, Chairman of the Board of Corporación Económica Delta, S.A. and holds other positions in some companies related with Damm. See section C.1.11 of this Report.
ALEJANDRA OLARRA ICAZA	CORPORACIÓN FINANCIERA ALBA, S.A.	CORPORACIÓN FINANCIERA ALBA, S.A.	Alejandra Olarra Icaza represents the director (and significant shareholder) Corporación Financiera Alba, S.A. on the Board of Directors of Ebro Foods, S.A. Ms Olarra Icaza has an employment relationship with Corporación Financiera Alba, S.A.. See section C.1.11 of this Report.
JAVIER GÓMEZ-TRENOR VERGÉS	EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.	EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.	Javier Gómez-Trenor Vergés represents the director (and significant shareholder) Empresas Comerciales e Industriales Valencianas, S.L. on the Board of Directors of Ebro Foods, S.A. Mr Gómez-Trenor Vergés represents the director and Chairman of the Board of Empresas Comerciales e Industriales Valencianas, S.L.

Name of related director or representative	Name of related significant shareholder	Name of company in the significant shareholder's group	Description of relationship/office
			and holds other positions in some companies related with Empresas Comerciales e Industriales Valencianas, S.L. See section C.1.11 of this Report.
MARÍA BLANCA HERNÁNDEZ RODRÍGUEZ	GRUPO TRADIFÍN, S.L.	GRUPO TRADIFÍN, S.L.	Blanca Hernández Rodríguez represents the director (and significant shareholder) Grupo Tradifín, S.L. on the Board of Directors of Ebro Foods, S.A. Ms Hernández Rodríguez has a direct interest of 33.25% in Grupo Tradifín, S.L., of which she is Managing Director. She also holds other positions on the boards of companies related with Grupo Tradifín, S.L. See section C.1.11 of this Report.
ANTONIO HERNÁNDEZ CALLEJAS	HERCALIANZ INVESTING GROUP, S.L.	HERCALIANZ INVESTING GROUP, S.L.	Antonio Hernández Callejas has a direct interest of 28.668% in Hercalianz Investing Group, S.L., a significant shareholder and director of Ebro Foods, S.A. He does not hold any office in that company. See section C.1.11 of this Report.
FÉLIX HERNÁNDEZ CALLEJAS	HERCALIANZ INVESTING GROUP, S.L.	HERCALIANZ INVESTING GROUP, S.L.	Félix Hernández Callejas represents the director (and significant shareholder) Hercalianz Investing Group, S.L. on the Board of Directors of Ebro Foods, S.A. Félix Hernández Callejas has a direct interest of 28.668% in Hercalianz Investing Group, S.L., of which he is Joint and Several Director. He also holds other positions on the boards of companies related with Hercalianz Investing Group, S.L. See section C.1.11 of this Report.

Name of related director or representative	Name of related significant shareholder	Name of company in the significant shareholder's group	Description of relationship/office
MARÍA CARCELLER ARCE	CORPORACIÓN ECONÓMICA DELTA, S.A.	SOCIEDAD ANÓNIMA DAMM	María Carceller Arce is a proprietary director of Corporación Económica Delta, S.A., in which Sociedad Anónima Damm has a direct interest of 99.99%. Ms Carceller Arce has a 0.05% direct interest in Sociedad Anónima Damm and represents the director Seegrund B.V. on the Boards of Directors of Corporación Económica Delta, S.A. and Sociedad Anónima Damm. See section C.1.11 of this Report.
JOSE IGNACIO COMENGE SÁNCHEZ-REAL	MENDIBEA 2002, S.L.	MENDIBEA 2002, S.L.	José Ignacio Comenge Sánchez-Real has an indirect interest of 73% in Mendibea 2002, S.L. which is the direct holder of the significant indirect interest held by Mr Comenge Sánchez-Real in Ebro Foods, S.A. He is the Sole Director of Mendibea 2002, S.L. Mr Comenge Sánchez-Real also has corporate relationships with companies related with Empresas Comerciales e Industriales Valencianas, S.A. See section C.1.11 of this Report.
JAVIER FERNÁNDEZ ALONSO	CORPORACIÓN FINANCIERA ALBA, S.A.	CORPORACIÓN FINANCIERA ALBA, S.A.	Javier Fernández Alonso is a proprietary director of Corporación Financiera Alba, S.A., with which he has an employment relationship. He is General Manager of that company and holds other positions in other companies of the Corporación Financiera Alba S.A. Group. See section C.1.11 of this Report.
JORDI XUCLÀ COSTA	ALIMENTOS Y ACEITES, S.A.	SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES	Jordi Xuclà is a proprietary director of Alimentos y Aceites, S.A., in which Sociedad Estatal de Participaciones Industriales has a direct interest of

Name of related director or representative	Name of related significant shareholder	Name of company in the significant shareholder's group	Description of relationship/office
			91.9625%. Mr Xuclà does not have any significant relationship with Alimentos y Aceites, S.A or with Sociedad Estatal de Participaciones Industriales. See section C.1.11 of this Report.

The significant shareholders Hercalanz Investing Group, S.L., Grupo Tradifin, S.L., Corporación Financiera Alba, S.A., Alimentos y Aceites, S.A. and Empresas Comerciales e Industriales Valencianas, S.L. are directors of Ebro Foods, S.A. The director José Ignacio Comenge-Sánchez Real is also a significant shareholder through the company he controls, Mendibea 2002, S.L. See section A.2 of this report.

A.7. State whether the company has been notified of any shareholders' agreements that may affect it pursuant to sections 530 and 531 of the Corporate Enterprises Act. If any, describe them briefly and list the shareholders bound by the agreement:

Yes
 No

Indicate and describe any concerted actions among company shareholders of which the company is aware:

Yes
 No

Expressly indicate any change or break-up of those agreements or concerted actions, if any, that has taken place during the year:

N/A

A.8. Indicate any individuals or entities that exercise or may exercise control over the company in pursuance of section 5 of the Securities Market Act and identify it/them if appropriate:

Yes
 No

A.9. Complete the following tables on the company's treasury stock:

At year-end:

Number of direct shares	Number of indirect shares (*)	Treasury stock/capital (%)
		0.00

(*) Through:

Name of direct holder of the interest	Number of direct shares
No details	

A.10. Indicate the term and conditions of the authorisation granted by the general meeting to the board to issue, buy or sell own shares:

The Annual General Meeting of Shareholders held on first call on 29 July 2020, under item twelve on the agenda, resolved to authorise the Board of Directors to buy back own shares and reduce the Company's capital and to authorise subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in law.

a. Conditions of the authorisation

To authorise the Board of Directors, with the power to delegate, to buy back shares in Ebro Foods, S.A., directly or through its subsidiaries, by purchase, swap or under any other title and on one or several occasions, on the terms and conditions established in sections 146 et seq and sections 509 et seq of the Corporate Enterprises Act, and the following conditions:

- The par value of the shares purchased directly or indirectly, together with those already held by the Company or its subsidiaries, shall not exceed 10% of the subscribed capital.
- The buy-back, when added to the shares previously acquired by the Company, or any person acting in their own name but on behalf of the Company, and held as treasury stock, shall not have the effect of reducing equity to below the amount of the capital plus the legal or restricted statutory reserves. For this purpose, equity shall be the amount considered as such according to the principles for drawing up the annual accounts, less the amount of gains attributed directly thereto, plus the amount of uncalled subscribed capital and the par value and share premium of the subscribed capital recognised in liabilities.
- The shares thus acquired shall be fully paid up.
- The cap and floor values for buy-back shall be the market value of the shares on an official secondary market at the date of buy-back and a value equivalent to the par value of the own equity instruments acquired, respectively.

b. Contents of the authorisation

- To authorise the Board, by direct resolution or delegation to the Executive Committee, or by delegation to such person or persons as the Board of Directors may authorise for this purpose, to buy back own shares to hold them in its treasury stock, dispose of them or, as the case may be, put a motion to the General Meeting for their redemption, within the legal limits and complying with the conditions established in this resolution. This authorisation is also extended to the possibility of buying back own shares for delivery, on one or several occasions, to the Company or group employees, directly or following exercise of their stock option rights, pursuant to section 146.1(a), third paragraph, of the Corporate Enterprises Act.

The authorisation is also extended to acquisitions of shares in Ebro Foods, S.A. by its subsidiaries.

- To authorise the Board of Directors to reduce the capital in order to redeem the own equity instruments purchased by the Company or other companies in its group against the capital (for their par value) and unrestricted reserves (for the cost of the acquisition in excess of that par value), by such amounts as it may deem fit from time to time and up to the maximum own shares held at any time.
- To delegate to the board to implement the foregoing resolution to reduce the capital, which it may do on one or several occasions or declare it null and void, within a period not exceeding 5 years from the date of this General Meeting, taking such actions for this purpose as may be necessary or required by law.

The Board of Directors is especially authorised so that it may, within the times and limits indicated in this resolution, proceed to: (i) make or declare void the reduction of capital, naming if appropriate the specific date(s) of the transactions, taking account of any internal or external factors that may influence this decision; (ii) specify in each case the amount by which the capital is reduced; (iii) determine the destination of the amount of the reduction of capital; (iv) in each case adjust Articles 6 ("Capital") and 7 ("Shares") of the Articles of Association to reflect each new amount of capital and new number of shares; (v) apply in each case for delisting of the redeemed shares; and (vi) in general adopt such resolutions as may be considered necessary for redemption and the consequent reduction of capital, designating who is to put it on record.

c. Term of the authorisation

The authorisation contemplated in this resolution is granted for a maximum of five years from the date of the General Meeting (29 June 2020) and covers all transactions in own equity instrument made hereunder, without requiring reiteration for each acquisition made. It also covers any provisions or earmarking of reserves made in accordance with the Corporate Enterprise Act.

The resolutions adopted at the Annual General Meeting on 29 July 2020 on treasury stock, reduction of capital and delegation to the Board rendered void, to the extent that they had not been used, those adopted on the same issues at the General Meeting of 3 June 2015 and at the date of this report they are still in force, not having been revoked.

A.11. Estimated free float:

	%
Estimated free float	28.46

A.12. Indicate any constraints (statutory, legal or other) on the transferability of shares and/or any restrictions on voting rights. In particular, indicate the existence of any constraint or limitation that may hamper takeover of the company through the acquisition of its shares on the market, and any authorisations or prior notifications of acquisitions or transfers of the company's financial instruments required by sector laws and regulations.

Yes
 No

A.13. Indicate whether the general meeting has resolved to apply the breakthrough rule against a takeover bid, under Act 6/2007.

Yes
 No

If yes, explain the measures approved and the terms on which the restrictions will become ineffective:

A.14. State whether the company has issued any shares that are not traded on an EU regulated market:

Yes
 No

If appropriate, indicate the different classes of shares and the rights and obligations conferred for each class.

B. GENERAL MEETING

B.1. Indicate whether there are any differences between the quorums established for general meetings and the minimums stipulated in the Corporate Enterprises Act and, if any, explain:

Yes
 No

B.2. Indicate whether there are any differences in respect of the system stipulated in the Corporate Enterprises Act for adopting corporate resolutions and, if any, explain:

Yes
 No

B.3. Indicate the rules for alteration of the company's articles of association. In particular, indicate the majorities stipulated for altering the articles of association and the rules, if any, protecting shareholders' rights in any alteration of the articles.

Ebro Foods, S.A. has not established any requirements for altering the Articles of Association other than those stipulated in the Corporate Enterprises Act.

B.4. Give details of attendance of general meetings held during the year of this report and the two previous years:

Date of general meeting	Details of attendance				
	% in person	% by proxy	% distance voting		Total
			Electronic vote	Others	
29/07/2020	10.37	70.55	0.01	0.10	81.03
Of which free float	0.00	14.16	0.01	0.10	14.27
16/12/2020	0.00	69.58	0.01	10.36	79.95
Of which free float	0.00	2.73	0.01	10.36	13.10
30/06/2021	0.00	61.09	0.02	18.75	79.86
Of which free float	0.00	12.21	0.02	0.56	12.79
15/12/2021	1.53	66.45	0.00	10.75	78.73
Of which free float	0.00	10.61	0.00	0.39	11.00
29/06/2022	14.64	56.01	0.03	10.78	81.46
Of which free float	0.09	12.94	0.03	0.42	13.48

In 2022 the Annual General Meeting was held onsite and online. In addition to attendance in person and the possibility of voting and proxy by means of remote communication prior to the general meeting, the Board resolved to enable online attendance of the General Meeting, allowing shareholders (and their representatives or proxies) to attend and participate in the General Meeting in real time by remote connection, as contemplated in the Articles of Association, the Regulations of the General Meeting and the notice of call.

B.5. State whether there have been any items on the agenda for the general meetings held during the year that was not approved by the shareholders for any reason:

- Yes
 No

B.6. Are any restrictions established in the articles of association requiring a minimum number of shares to attend general meetings or for distance voting?

- Yes
 No

B.7. State whether certain decisions other than those established by law, involving an acquisition, disposal, transfer of essential assets to another company or other similar corporate operations must be laid before the general meeting of shareholders for approval:

- Yes
 No

B.8. Indicate the address and access to the company's website and where to find information on corporate governance and other information on general meetings that must be made available to shareholders through the company's website:

The corporate website of Ebro Foods (<http://www.ebrofoods.es/en/>) is set up as a vehicle of continuous, up-to-date information for shareholders, investors and markets in general.

In this respect, the home page includes a specific section called "Information for shareholders and investors", which contains all the information required under the applicable legal provisions.

Pursuant to current legislation, this section includes the chapter on Corporate Governance at the following address:

<http://www.ebrofoods.es/en/information-for-shareholders-and-investors/corporate-governance/regulations-of-the-general-meeting/>. That section includes all the information that the Company makes available to shareholders for general meetings, specifically at the following URLs:

<http://www.ebrofoods.es/en/information-for-shareholders-and-investors/corporate-governance/general-meeting-of-shareholders-exercise-of-the-right-to-information/>

<https://www.ebrofoods.es/en/information-for-shareholders-and-investors/corporate-governance/extraordinary-general-shareholders-meeting-june-2021/>, which is the direct link to the Annual General Meeting of Shareholders held on 29 June 2022.

Furthermore, since the Annual General Meeting held in 2022 was held both online and onsite, the company enabled the corresponding link on the corporate website to the live-streaming of the AGM. The link to the live broadcast of the AGM was maintained active on the website throughout its duration.

The 'Corporate Governance' section is structured in the following sub-sections:

- Regulations of the General Meeting
- General Meeting of Shareholders: exercise of the right to information
- Annual General Shareholders' Meeting - June 2022 (this sub-section always refers to the latest general meeting held, whether annual or extraordinary)
- Previous general meetings
- Board of Directors
- Regulations of the Board
- Remuneration of Directors
- Board Committees
- Annual Corporate Governance Report
- Internal Code of Market Conduct
- Shareholders' Forum

The contents of this section are structured and hierarchical, with concise, explanatory titles, to permit rapid, direct access to those contents in accordance with legal recommendations, at just two clicks from the home page.

All these sections have been designed and prepared according to the principle of easy access, aiming to enable fast location and download of the required information.

The corporate website offers all the information in this section in Spanish and English.

C. MANAGEMENT STRUCTURE OF THE COMPANY

C.1. Board of Directors

C.1.1 State the maximum and minimum numbers of directors stipulated in the articles of association and the number set by the general meeting:

Maximum number of directors	15
Minimum number of directors	7
Number of directors set by general meeting	14

C.1.2 Give details of the board members:

Name of director	Representative	Category of director	Position on Board	Date first appointment	Date latest appointment	Election procedure
BELÉN BARREIRO PÉREZ-PARDO		Independent	DIRECTOR	25/01/2017	30/06/2021	RESOLUTION PASSED AT AGM
DEMETRIO CARCELLER ARCE		Proprietary	VICE-CHAIRMAN	01/06/2010	16/12/2020	RESOLUTION PASSED AT AGM
ANTONIO HERNÁNDEZ CALLEJAS		Executive	CHAIRMAN	24/01/2002	29/06/2022	RESOLUTION PASSED AT AGM
FERNANDO CASTELLÓ CLEMENTE		Independent	DIRECTOR	29/05/2012	29/06/2022	RESOLUTION PASSED AT AGM
MARÍA CARCELLER ARCE		Proprietary	DIRECTOR	21/03/2018	16/12/2020	RESOLUTION PASSED AT AGM
MERCEDES COSTA GARCÍA		Independent	LEAD INDEPENDENT DIRECTOR	27/07/2016	30/06/2021	RESOLUTION PASSED AT AGM
JOSE IGNACIO COMENGE SÁNCHEZ-REAL		Proprietary	DIRECTOR	29/05/2012	16/12/2020	RESOLUTION PASSED AT AGM
JAVIER FERNÁNDEZ ALONSO		Proprietary	DIRECTOR	29/07/2020	16/12/2020	RESOLUTION PASSED AT AGM
CORPORACIÓN FINANCIERA ALBA, S.A.	ALEJANDRA OLARRA ICAZA	Proprietary	DIRECTOR	31/01/2018	16/12/2020	RESOLUTION PASSED AT AGM
EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.	JAVIER GÓMEZ-TRENOR VERGÉS	Proprietary	DIRECTOR	18/12/2013	16/12/2020	RESOLUTION PASSED AT AGM
GRUPO TRADIFÍN, S.L.	MARÍA BLANCA HERNÁNDEZ RODRÍGUEZ	Proprietary	DIRECTOR	21/12/2016	16/12/2020	RESOLUTION PASSED AT AGM
HERCALIANZ INVESTING GROUP, S.L.	FÉLIX HERNÁNDEZ CALLEJAS	Executive	DIRECTOR	21/12/2016	16/12/2020	RESOLUTION PASSED AT AGM
MARC THOMAS MURTRA MILLAR		Independent	DIRECTOR	31/01/2022	31/01/2022	COOPTATION
JORDI XUCLÀ COSTA		Proprietary	DIRECTOR	30/03/2022	30/03/2022	COOPTATION

Total number of directors	14
---------------------------	----

Indicate any retirements from the board during the reporting period, through resignation or by resolution of the general meeting:

Name of director	Category of director at time of retirement	Date of last appointment	Date of retirement	Specialist committees of which the director was a member	State whether retirement occurred before end of term of office
ALIMENTOS Y ACEITES, S.A.	Proprietary	16/12/2020	29/03/2022	None	YES

Cause of retirement if produced prior to the end of the director's term of office and other comments; information on whether the director sent a letter to the other board members and, for retirements of non-executive directors, explanation or opinion of any director removed from office by the general meeting

On 24 March 2022, Alimentos y Aceites, S.A. tendered its resignation from the Board with effect from 29 of that month and year, for reasons concerning the internal operation of Alimentos y Aceites, S.A. and Sociedad Estatal de Participaciones Industriales (SEPI),

Alimentos y Aceites, S.A. informed the board of its resignation in a letter dated 24 March 2022 addressed to the Secretary of the Board, for the latter to in turn inform the Board. In its letter of resignation, Alimentos y Aceites, S.A. informed the Board of its proposal to appoint Jordi Xuclà Costa proprietary director.

At the date of issuing this report, Alimentos y Aceites, S.A. is still a core shareholder of Ebro Foods, S.A. See section A.3 for the direct interest held by Alimentos y Aceites, S.A. (and the indirect interest of SEPI) in Ebro Foods. See also section A.4 for the interest held by SEPI in Alimentos y Aceites, S.A. Finally, see in section C.1.3 that Jordi Xuclà Costa is the proprietary shareholder nominated by Alimentos y Aceites, S.A. (SEPI).

C.1.3 Complete the following tables with the details and types of the board members:

EXECUTIVE DIRECTORS		
Name of director	Position in company's organisation	Profile
ANTONIO HERNÁNDEZ CALLEJAS	Executive Chairman	Antonio Hernández Callejas was born in Tudela (Navarre). He has a degree in Economics from the University of Seville and a diploma in Law. He began his career in 1979 in Arrocerías Herba, a rice producer founded by the Hernández family. In 2002 he was appointed Director, Vice-Chairman and member of the Executive Committee of Ebro Foods, S.A. and since then he has been a key figure in Ebro's transformation and international expansion. In 2004 he was appointed CEO of the Company and in 2005 he became Executive Chairman of the Ebro Group. Under his leadership, the Ebro Group has become number one in the rice sector and second world producer of pasta, operating in more than 70 countries in Europe, America, Africa and Asia, with a portfolio of over 70 brands. Over the course of his professional career, he has received numerous prizes and awards, such as the Tiepolo Award for Italian and Spanish business success, Business Sponsorship Award from the University of Seville, "Dinero" Business Awards for the best business management, Officer of the National Order of Merit of the Republic of France, Prize awarded by the Social Council of the University of Seville and the Seville Business Confederation (CES) for his Outstanding Business Career, the Gold Medal of the city of Seville, the Joly Group Farming Innovation Award and the Manuel Clavero Award. He speaks English, French and Italian.
HERCALIANZ INVESTING GROUP, S.L.	Executive and director in several Group companies	Félix Hernández Callejas (representative of the director Hercalianz Investing Group, S.L.) was born in Tudela (Navarre). He has a Law degree and extensive experience in the rice and food industry in general. He has held several executive positions and directorships in different rice companies and is currently an executive of a subsidiary in the Ebro Group and director of several group companies. See the note in section C 1.10 of this report listing the Ebro Group companies in which Félix Hernández Callejas is a director.

Total number of executive directors	2
% of board	14.29

With regard to the classification of Hercalianz Investing Group, S.L. as Executive Director, this director:

- (i) does not perform executive or management duties in Ebro Foods, S.A. or in any Group subsidiary, so receives no remuneration as such;
- (ii) has been classified as executive director on the grounds that its representative on the Board of Directors of Ebro Foods, S.A. is an executive and director of several Group subsidiaries;
- (iii) holds office as a director because it is a significant shareholder of the Company, with a direct interest of 9.00%.

Hercalianz Investing Group, S.L. will continue to be a director of Ebro Foods, S.A. as long as it is a significant shareholder, regardless of who is its representative and the executive position that said representative may have within the Group.

NON-EXECUTIVE PROPRIETARY DIRECTORS		
Name of director	Name of significant shareholder represented or that proposed appointment	Profile
DEMETRIO CARCELLER ARCE	CORPORACIÓN ECONÓMICA DELTA, S.A.	Demetrio Carceller Arce was born in Madrid. He has a degree in Business Administration from the Private Financial Studies University 'Colegio Universitario de Estudios Financieros' (CUNEF) of Universidad Complutense de Madrid. He subsequently did an MBA at Duke University (Fuqua School of Business), an American business school in which he is on the Board of Visitors. He is Executive Chairman of Sociedad Anónima Damm and Chairman of Corporación Económica Delta, SA. and DISA Corporación Petrolífera, S.A. He is also Vice-Chairman and member of the Executive Committee of Sacyr, S.A. In 2019, he was elected Chairman of Cerveceros de España (Spanish Brewers Association). He also chairs the Board of Trustees of the Damm Foundation.
MARÍA CARCELLER ARCE	CORPORACIÓN ECONÓMICA DELTA, S.A.	María Carceller Arce was born in Madrid. She has a degree in Business Studies from the European Business School, specialising in marketing and international business, and has a postgraduate degree from IESE (Management Development Programme PDD-C). She has over 20 years' professional experience in national and international companies in the food and drink sector. She is on the Food and Drink Advisory Board of the IESE Business School, the advisory board of Fundación A La Par and Honorary Trustee of Fundación General de la Universidad Complutense de Madrid. Since January 2012, she has been Managing Director of Grupo Rodilla, where she has received several awards for her professional career and business management. Before joining Grupo Rodilla, she held different management positions in Pepsico and McDonald's, receiving the President Award, among others. She is bilingual in German and speaks English.
JOSE IGNACIO COMENGE SÁNCHEZ-REAL	JOSE IGNACIO COMENGE SÁNCHEZ-REAL	José Ignacio Comenge Sánchez-Real was born in San Sebastián. He is an Economist and has a degree in International Banking. He has a lengthy track record in business management and administration in companies operating in different areas of the Spanish economy, including the financial, insurance, beverages and renewable energy sectors. He has been an executive and director in different financial and insurance entities, such as Banco Hispano Americano, Mutua Madrileña and Axa Winterthur, among others. He is Chairman of Ball Beverage Packaging Iberica S.L. and Arbitraje&Inversiones S.L. and Director of ENCE Energía y Celulosa, S.A., CVNE, S.A. (Compañía Vinícola Nacional de España), Olive Partners, S.A., Barbosa&Almeida, S.A. and Coca-Cola European Partners.

C.1.5 Indicate whether the company has diversity policies for the board of directors of the company regarding issues such as age, gender, disability, training and professional experience. In accordance with the definition set out in the Auditing Act, small and medium-sized enterprises must inform at least on the policy they have established with regard to gender diversity.

- Yes
 No
 Partial policies

If yes, describe those diversity policies, their goals the measures established, how they have been implemented and the results obtained during the year. Describe also the specific measures taken by the board of directors and the nomination and remuneration committee to achieve a balanced, diverse composition of directors.

If the company does not apply a diversity policy, explain why not.

Description of the policies, goals, measures and implementation and the results obtained

Ebro Foods, S.A. has implemented a Policy on the Selection of Directors and Diversity in the Composition of the Board of Directors, the scope of which is extended to the appointment, ratification and re-election of directors by the General Meeting of Shareholders and the appointments made directly by the Board of Directors by the procedure of cooptation. For candidate directors who are legal persons, the principles and criteria of the Policy must be observed in respect of the individuals who are to represent them on the Board.

According to that Policy, all proposals for candidates must be based on a prior analysis of the needs of the Board, the results of which will be set out in the corresponding report by the Nomination and Remuneration Committee, to be published when calling the General Meeting at which the ratification, appointment or re-election of each director is to be submitted for approval.

The following goals are established in the Policy:

- Avoid any implicit bias in the processes for selecting directors that may imply discrimination against any of the candidates on any grounds whatsoever.
- Under equal conditions, opt for the candidate whose gender is least represented on the Board at that time.
- Favour diversity of expertise, professional experience and gender within the composition of the Board.
- Achieve a composition where the gender least represented on the Board accounts for at least 40% of the total Board members by and beyond the end of 2022.

To achieve these goals set in the Policy, the Company has established the following measures to be applied in each appointment of directors:

- prior analysis of the composition of the Board of Directors in aspects regarding the categories of directors, presence of the least-represented gender, profile and professional experience of the directors and capital represented on the Board of Directors;
- analysis of the legal, statutory and regulatory requirements applicable to both the classification of director of the candidate and the procedure for their appointment;
- analysis of the experience, qualification and vocational training of the candidate and their availability for adequate performance of their duties;

- verification that the appointment of the candidate complies with the requirements of diversity, non-discrimination and equal treatment established in the Code of Conduct and the Policy for Selection of Directors and Diversity.

Through its implementation of the Policy on the Selection of Directors and Diversity in the Composition of the Board and correct monitoring of the measures described above, Ebro Foods, S.A. has a pluralistic, diverse Board of Directors in terms of gender, expertise, experience and professional profiles of its members.

Prior to the resignation of Alimentos y Aceites, S.A., which had been represented on the Board by a woman, there were 6 women on the Board of Directors, representing 42.857% of the total number of members set by the General Meeting (14), so the company had reached and exceeded the target recommended by the Code of Good Governance and established in the company's Policy on the Selection of Directors and Diversity in the Composition of the Board of Directors.

In March 2022, after Alimentos y Aceites, S.A. stepped down from the Board and a male proprietary director was appointed by Alimentos y Aceites, S.A. (SEPI), the number of women on the Board fell from 6 to 5 and the number of men rose from 8 to 9, as a result of which the percentage of women on the Board dropped to 35.714% of the total Board members (14), falling short of the 40% target.

The company is aware of the need to increase the number of women on the Board to restore the proportion that had been reached prior to the departure of Alimentos y Aceites, S.A., and it will work to achieve again the 40% target recommended by the Code of Good Governance and established in the company's Policy on the Selection of Directors and Diversity in the Composition of the Board of Directors.

- C.1.6 Explain any measures agreed by the nomination committee to ensure that the selection procedures are not implicitly biased against the selection of female directors and that a conscious effort is made to include women with the target profile among the candidates so that a balance may be struck between male and female directors. State also whether these measures include encouraging a significant number of female senior executives in the company:

Explanation of the measures

With regard to the procedures for selecting female directors, although the Nomination and Remuneration Committee has not adopted specific measures in this regard, in accordance with the gender diversity measures and the principles of non-discrimination and equal treatment applied by the Company when selecting candidate directors, the Company will: (i) seek at all times a diversity of expertise, experience and gender in the composition of the Board; and (ii) under equal conditions, opt for the candidate whose gender is least represented on the Board at that time.

The main principle followed by the Company in this regard is that the selection procedure must avoid any implicit bias that might imply discrimination against any of the candidates on any grounds, although the target set in the Policy on the Selection of Directors and Diversity in the Composition of the Board, that the gender least represented on the Board of Directors of the Company must account for at least 40% of the total Board members, must be recovered. See in this respect section C.1.5 of this Report.

The Code of Conduct of the Ebro Foods Group promotes and defends the principle of equal treatment and equal opportunities for all professionals regardless of their gender or sexual orientation. This principle is behind the Human Resources policies applied in hiring, training, career opportunities, pay levels and all other aspects of the relationship between the company and its professionals of any category, including senior management.

The company's actions in respect of the selection, hiring, training and internal promotion of all its professionals (executives or otherwise, men or women) are based on clear criteria of capacity, competence and professional merit.

Therefore, there is no positive or negative discrimination of any nature in the procedures followed by the company for selecting and contracting its executive personnel, so it is not necessary to introduce any new measures to encourage the hiring of women for executive positions.

It is put on record in this regard that as established in the Senior Executive Remuneration and Incentives Policy of the Ebro Foods Group, "Senior Executive" means any employee of the Company or any other company in the Group holding the position of manager or head of a specific department or business (or similar position in foreign companies), regardless of whether they have a special senior management contract and even though they may not report directly to the directors or chief executive. The non-director Vice-Secretary of the Board of Directors of the Company is also considered a "Senior Executive".

If, despite the measures taken, if any, there are few or no female directors or executives, explain the reasons that justify this situation:

Explanation of the measures

N/A

- C.1.7 Explain the conclusions of the nomination committee on compliance with the policy intended to favour an appropriate composition of the board.

During 2022, every time a possible appointment, re-appointment or ratification of a director has been contemplated, the Nomination and Remuneration Committee has analysed the composition of the Board of Directors from the point of view of director categories, the presence of women, size and diversity of expertise and profiles.

In this regard, the Nomination and Remuneration Committee has:

(i) Assessed the extent of compliance with Recommendation 17 of the Code of Good Governance, which provides that: "In companies that are not large cap (as is the case of Ebro), the number of independent directors should represent at least one-third of the total directors."

Since the number of independent directors (4) is still somewhat less than one-third (4.66) of the total Board members (14) recommended for non-large cap companies, the Nomination and Remuneration Committee considers it necessary to continue working to increase the number of independent directors until it is at least equal to the recommended one-third, although it should be borne in mind that at the date of issue of this report, 68.38% of the company's total capital is concentrated in the Board.

(ii) Assessed the extent of compliance with Recommendation 15 of the Code of Good Governance, which provides that: "The number of female directors should represent at least 40% of the Board members by and beyond the end of 2022, and should previously not be less than 30%."

The Nomination and Remuneration Committee is aware of the need to increase the number of women on the Board to restore the proportion that had been reached prior to the departure of Alimentos y Aceites, S.A., and it will work to achieve again the 40% target recommended by the Code of Good Governance and established in the company's Policy on the Selection of Directors and Diversity in the Composition of the Board of Directors.

See in this respect sections C.1.5, C.1.6 and G of this report.

(iii) Assessed the current size of the Board of Directors (set at 14 members by virtue of a resolution adopted at the Annual General Meeting of Shareholders held on 29 July 2020). The Committee considers this size adequate to ensure adequate diversity of expertise, experience and gender in the composition of the Board and an adequate balance between the representation of significant shareholders and minority shareholders on the Board.

(iv) Assessed the fact that all the present directors were appointed on account of their expertise, skills, professional experience, availability and suitability, which were considered adequate for the duties they were to perform.

In view of the diversity of professional profiles of the directors (all specialists in sectors that are both varied and complementary, such as economic, financial, legal, industrial, consumer and distribution markets, beverages, rice and pasta) and taking into account the extensive knowledge that some of them have of the Group overall, the Nomination and Remuneration Committee considers that the composition of the Board of Directors has adequate diversity of expertise and professional experience to serve the interests of the company and the group.

The company has also assessed the extent of compliance with Recommendation 16 of the Code of Good Governance, which provides that: "The proportion of proprietary directors in the total number of non-executive directors should not exceed the proportion of capital represented by those directors in the total capital of the company."

Although the directors classified as proprietary (8) account for 66.67% of the total non-executive directors (12) and represent 57.87% of the capital, in the opinion of the Nomination and Remuneration Committee special circumstances exist that attenuate the principle of proportion recommended by the Code of Good Governance, since: (i) there are seven (7) unrelated significant shareholders present or represented on the Board that represent 66.72% of the capital and (ii) 68.38% of the capital is represented on the Board. The Committee has considered it necessary to take account of the fact that the director Heralianz Investing Group, S.L. is classified as an executive director, even though it is a significant shareholder, on the grounds that its representative on the Ebro Board is an executive and director of several subsidiaries in the Ebro Group.

Based on the foregoing, the company considers that the principle behind Recommendation 16 is respected.

C.1.8 Explain, if appropriate, why proprietary directors have been appointed at the request of shareholders holding less than 3% of the capital:

Name of shareholder	Justification
No details	

State whether any formal requests for presence on the board have been rejected from shareholders holding interests equal to or greater than others at whose request proprietary directors have been appointed. If appropriate, explain why such requests were not met:

Yes

No

C.1.9 Indicate the powers, if any, delegated by the board to particular directors or committees, including the power to cast or repurchase shares:

Name of director or committee	Brief description
ANTONIO HERNÁNDEZ CALLEJAS	Antonio Hernández Callejas has no powers delegated by the Board of Directors. Mr Hernández Callejas is a class A general attorney of the Company by virtue of the power of attorney granted in deed no. 4802, executed on 4 December 2014 before the notary Andrés Domínguez Nafría and entered in the Madrid Trade Register, volume 29950, folio 202, section 8, page M-272855. In addition, in accordance with the rules on investments and divestments, strategic expenditure and corporate operations approved by the Board of Directors at its meeting on 21 March 2001, the following actions by Antonio Hernández Callejas shall require prior authorisation from the Board of Directors or notification to the Executive Committee: - for investments/divestments or strategic expenditure, if exercise of the powers entails the acquisition of economic obligations or commitments in excess of two million euros, a resolution must previously be adopted by the Board of Directors; and for less than two million euros but more than three hundred thousand euros, the Executive Committee must be notified; - for corporate operations, a prior resolution of the Board of Directors is required if they are for more than two million euros, and the Executive Committee must be notified if they are for less than two million euros but more than three hundred thousand euros.
Executive Committee	The Board of Directors has delegated all its powers to the Executive Committee, save any, which may not legally be delegated. This notwithstanding, in accordance with the rules on investments and divestments, strategic expenditure and corporate operations approved by the Board of Directors at its meeting on 21 March 2001, the powers of the Executive Committee in these areas are internally limited to the sum of two million euros per investment/divestment, expenditure or corporate operation. See section C.2.1 of this Report for the duties attributed to the Executive Committee in the Articles of Association and applicable regulations.

C.1.10 Name Board members, if any, who are also directors, representatives of directors or executives of other companies in the same group as the listed company:

Name of director	Name of group company	Position	With executive duties?
ANTONIO HERNÁNDEZ CALLEJAS	VOGAN, LTD.	DIRECTOR	YES

ANTONIO HERNÁNDEZ CALLEJAS	HERBA GERMANY, GMBH	JOINT AND SEVERAL DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	S&B HERBA FOODS, LTD.	DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	ARROZEIRAS MUNDIARRROZ, S.A.	CHAIRMAN	YES

Antonio Hernández Callejas is a director of Riso Scotti, S.p.A., an associate outside the Ebro Foods Group, in which Ebro Foods, S.A. holds a 40% interest. This investment is consolidated by the equity method. Riso Scotti, S.p.A. is an Italian company engaged in an activity similar to the objects of Ebro Foods, S.A. He is also a member of the Board of Trustees of the Ebro Foods Foundation.

Finally, the positions held by Félix Hernández Callejas in the subsidiaries of the Ebro Foods Group are listed below. In this regard, it should be remembered that, as mentioned elsewhere in this Report, Félix Hernández Callejas represents the director Heralianz Investing Group, S.L. on the Board of Directors of Ebro Foods, S.A. and that director is classified as an executive director by virtue of the fact that its representative is an executive and director of several Group subsidiaries.

- Anglo Australian Rice, Ltd. Director. With executive duties

JORDI XUCLÀ COSTA	Lecturer of International Relations at Universidad CEU San Pablo and Ramón Llull University

C.1.12 Indicate and, where appropriate, explain whether the company has established rules on the maximum number of directorships its directors may hold, if so, indicating where those rules can be found:

[v] Yes
[] No

Explanation of the rules and identification of the document in which they are regulated

Article 32.2 of the Regulations of the Board establishes, among the "General Duties of Directors", that the Directors shall dedicate such time and attention to the Company as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the Company.

C.1.13 Indicate the amounts of the following items in the overall remuneration of the board:

Remuneration accrued during the year in favour of the board (thousand euros)	7,249
Amount of the funds accumulated by current directors in long-term savings schemes with vested economic rights (thousand euros)	
Amount of the funds accumulated by current directors in long-term savings schemes with non-vested economic rights (thousand euros)	
Amount of the funds accumulated by former directors in long-term savings schemes (thousand euros)	

The gross amount indicated in this section C.1.13 includes: (i) the remuneration of all the directors for their duties as such, and (ii) the remuneration of the Executive Chairman for his executive duties (including attendance fees as director received from a Group subsidiary, Pastificio Lucio Garofalo, S.p.A., in a sum of 5,000 euros.

The Executive Chairman of the Board also received 5,200 euros gross in attendance fees as director from the associate Riso Scotti, S.p.A.

C.1.14 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position(s)
ANA MARÍA ANTEQUERA PARDO	COMMUNICATIONS AND CSR MANAGER
LUIS PEÑA PAZOS	SECRETARY OF THE COMPANY AND BOARD
PABLO ALBENDEA SOLÍS	CHIEF OPERATING OFFICER (COO)
MARÍA JOSÉ GARRETA RODRÍGUEZ	PATENTS AND TRADEMARKS MANAGER

Name	Position(s)	
ALFONSO FUERTES BARRO	FINANCE MANAGER	
GABRIEL SOLÍS PABLOS	TAX MANAGER	
YOLANDA DE LA MORENA CEREZO	VICE-SECRETARY OF THE BOARD	
GLORIA RODRÍGUEZ PATA	CORPORATE ASSETS MANAGER	
JESÚS DE ZABALA BAZÁN	INTERNAL AUDIT MANAGER	
MANUEL GONZÁLEZ DE LUNA	INVESTOR RELATIONS AND FINANCIAL INSTITUTIONS MANAGER	
Number of women in top management positions		4
Percentage of total members of top management		40.00
Total remuneration top management (thousand euro)		2,582

The company executives named in this section C.1.14 include the Chief Operating Officer (COO), who is the highest-ranking executive of the Ebro Foods Group after the Executive Chairman, and the heads of the principal departments of Ebro Foods, S.A. even if they are not actually considered "top management".

C.1.15 State whether any modifications have been made during the year to the Regulations of the Board:

- Yes
 No

C.1.16 Describe the procedures for selection, appointment, re-election and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

The procedures for selection, appointment, re-election and removal of the directors are regulated in the Articles of Association and the Regulations of the Board.

There is also a Policy for Selection of Directors and Diversity in the Composition of the Board of Directors, which specifically and verifiably establishes the basic criteria and principles to be followed in the selection of candidates.

The Policy is applicable in the appointment, ratification and re-election of directors by the General Meeting and any appointments made by the Board. For candidates who are legal persons, the principles and criteria of the Policy must also be observed in respect of the individuals representing them on the Board.

A. Procedure for selection, appointment and re-election of Directors

Procedures for selecting directors shall be designed to favour diversity of expertise, professional experience and gender within the Board, avoiding any implicit bias that may imply discrimination against any of the candidates on any grounds. Under equal conditions, the Company will opt for the candidate whose gender is least represented on the Board at that time.

The General Meeting is responsible for deciding on the number of directors the company is to have, within the minimum (7) and maximum (15) established in the Articles of Association, and for appointing or re-electing directors as proposed by the Board, subject to a favourable report by the Nomination and Remuneration Committee.

The Board may also appoint directors by cooptation, subject to a report by the Nomination and Remuneration Committee and by the Board of Directors on the terms stipulated in law.

In any case, the initiative of the Board regarding the incorporation of members by no means detracts from the sovereign power of the General Meeting to appoint and remove directors, or from any potential exercise by shareholders of their right to proportional representation.

The proposals for the appointment or re-election of directors made by the Board of Directors, or by the Nomination and Remuneration Committee in appointments or re-elections of Independent Directors, must be based on a prior analysis of the needs of the Board, the results of which are set out in the corresponding report by the Nomination and Remuneration Committee, published when calling the General Meeting at which the ratification, appointment or re-election of each director is submitted for approval.

B. Procedure for removal of Directors

The removal of directors is regulated in Article 31 of the Regulations of the Board. See section C.1.19 of this Report in this respect.

Without prejudice to the initiative of the Board regarding the inclusion of its members, the General Meeting has sovereign power to resolve on the removal of directors.

The Nomination and Remuneration Committee is competent to study, issue reports and prepare proposals for the removal of directors.

Following a report by the Nomination and Remuneration Committee, the Board of Directors shall table a motion at the General Meeting of Shareholders for removal of the director in question if the director in question fails to resign in the circumstances contemplated in Article 31.2 of the Regulations of the Board.

If a director retires from office before the end of their term, through resignation or by virtue of a resolution adopted by the General Meeting, they shall explain the reasons for their resignation or, in the case of non-executive directors, their opinion on the grounds for their removal by the General Meeting, in a letter sent out to all the Board members. Although the Annual Corporate Governance Report shall contain the appropriate information on the foregoing, to the extent that it is important for investors, the company shall publish news of the director's retirement as soon as possible, including a sufficient account of the reasons or circumstances indicated by the director.

If a director opts to resign following adoption by the Board of decisions on issues on which that director has expressed qualifications or reservations in the sense contemplated in Article 32.5 of the Regulations of the Board (".../...whenever they consider that some of the decisions proposed to the Board may go against the corporate interests and/or those of the shareholders not represented on the Board."), they shall explain the reasons as per the preceding paragraph.

The measures described in the preceding two paragraphs shall also be applicable to the Secretary of the Board, regardless of whether the secretary is a director.

C.1.17 Explain to what extent the annual assessment of the board has given rise to major changes in its internal organisation and the procedures applicable to its activities:

Description of changes

The assessment of the Board, Committees and Executive Chairman corresponding to 2021, made in 2022, did not reveal the need for any major changes in the Company's internal organisation or the procedures applicable to its activities.

Describe the process of assessment and the areas assessed by the board, assisted where necessary by an external consultant, on the performance and composition of the board and its committees and any other area or aspect that has been assessed.

Description of assessment process and areas assessed

A. ASSESSMENT PROCESS

The Board, its Committees and the Executive Chairman of the Company are assessed each year.

This process is based on: (i) a report prepared by the Nomination and Remuneration Committee to be laid before the Board of Directors; (ii) the activity reports issued by the Audit, Control and Sustainability Committee and the Nomination and Remuneration Committee in the year being assessed; and (iii) the resolutions adopted by the Board of Directors in view of those reports.

The methodology explained below was used again, where appropriate, in the assessment of 2021, made in 2022. This is the methodology normally used by the company in its assessments, with the exception of the 2020 assessment made in 2021, in which the external consultant who assisted the company used a different system based on interviews with the directors.

- The directors (and, in the case of corporate directors, their representatives) completed a questionnaire previously approved by the Nomination and Remuneration Committee.

- Once all the questionnaires had been completed, the data collected was sent to the Secretary of the Nomination and Remuneration Committee who, after analysing them, drew up a summary of the answers (anonymous) for the Committee to issue the corresponding Assessment Report, which was finally laid before the Board of Directors.

In the assessment process carried out in 2022, it was not considered necessary to complete the results from the questionnaires with a personal interview with the Lead Independent Director of the company, Mercedes Costa García, as she had participated intensely in the assessment process as a member of the Nomination and Remuneration Committee.

- The questionnaires completed by all the directors and the Assessment Report were filed by the Secretary of the Board.

B. AREAS ASSESSED

Apart from assessing the composition, powers and procedures of the Board of Directors, a specific assessment was made of that body with regard to the following matters: (i) supervision and control of the business management, investments and strategy of the company; (ii) agenda for meetings, treatment and discussion of the issues and possibility of incorporating off-agenda issues; and (iii) planning, frequency, duration and dynamics of the meetings, notices of call and documentation of the meetings.

In addition to assessing the composition, powers and procedures of the Committees, a specific assessment was made of each committee with regard to the following matters:

- Executive Committee: specific assessment of reporting to the Board on the resolutions adopted by the Committee through access by all directors, through the Secretary, of the minutes of its meetings.
- Audit, Control and Sustainability Committee: specific assessment of its particular powers in matters concerning internal audit procedures, external auditors, whistleblowing channel, financial reporting, structural operations, risk control and annual accounts, as well as the specific powers of supervision in particular aspects of corporate government, internal codes of conduct and corporate social responsibility.
- Nomination and Remuneration Committee: specific assessment of its powers with regard to the selection of directors, basic terms of senior executive contracts, pay policies and the remuneration policy for directors and senior executives.
- Strategy and Investment Committee: specific assessment of the frequency of its meetings and analysis of the business to be transacted.

The following were also assessed: (i) the Executive Chairman's management in aspects related with his dedication, participation and stimulation of debates, and the clarity and detail of the information and explanations given on the company's strategy and business; (ii) performance by the Lead Independent Director of her duties; (iii) decision-making in issues concerning related party transactions and conflicts of interest, significant investments and transactions, dividends, strategic plan, risk management and business liability policy; and (iv) follow-up on issues agreed by the Board in the previous assessment.

C.1.18 In any years in which an external consultant has been called in to assist with assessment, describe any business relations between the consultant or any company in its group with the company or any other company in its group.

N/A

C.1.19 State the events in which directors are obliged to step down.

The retirement and resignation of directors are regulated in Article 31 of the Regulations of the Board:

- Directors must step down at the end of the term for which they were appointed and in all other events stipulated in law, the Articles of Association and the Regulations of the Board.

- Directors must also tender their resignations and step down in the following cases:

a) When they are affected by one of the causes of incompatibility or disqualification established in law, the Articles of Association or the Regulations of the Board.

b) When they step down from the executive post to which their appointment as Director was linked, when the shareholder they represent on the Board disposes of all its shares in the Company or reduces its interest to an extent requiring a reduction in the number of Proprietary Directors and, in general, whenever the reasons for their appointment disappear.

c) When the Board, following a report by the Nomination and Remuneration Committee, considers that: (i) the Director is in a situation, related or not with their actions within the company, that could jeopardise the company's prestige and reputation, (ii) the Director has seriously defaulted their obligations, or (iii) there are reasons of corporate interest so requiring.

C.1.20 Are special majorities differing from those stipulated in law required for any type of decision?

Yes

No

If yes, describe the differences.

C.1.21 Are there any specific requirements, other than those established for directors, to be appointed chairman of the board?

Yes

No

C.1.22 Do the Articles of Association or Regulations of the Board establish an age limit for directors?

- Yes
 No

C.1.23 Do the Articles of Association or Regulations of the Board establish a limited term of office or other stricter requirements in addition to those provided by law for independent directors, other than as stipulated in law?

- Yes
 No

C.1.24 Do the Articles of Association or Regulations of the Board establish specific rules for the delegation of votes to other directors at board meetings, how they are to be delegated and, in particular, the maximum number of proxies that a director may hold, and whether any limitation has been established regarding the categories to which proxies may be granted, other than those established in law? If yes, include a brief description.

Both the Articles of Association (Article 24) and the Regulations of the Board (Article 20) contemplate the possibility of Directors attending Board meetings through a duly authorised proxy.

The proxy must be made in advance, in writing, specially for each Board meeting, in favour of another Director.

The represented Director may issue specific voting instructions for any or all of the items on the agenda.

Non-executive directors may only grant proxies to other non-executive directors.

No limit is established on the number of proxies any one Director may hold, nor is there any constraint on the categories to which proxies may be granted.

C.1.25 State the number of meetings held by the Board of Directors during the year, indicating, if appropriate, how many times the Board has met without the Chairman. Proxies made with specific instructions will be considered attendances.

Number of board meetings	12
Number of board meetings held without the chairman	0

Indicate the number of meetings held by the lead independent director with the other directors without the attendance or representation of any executive director:

Number of meetings	0
--------------------	---

Indicate the number of meetings held by the different Committees of the Board:

Number of meetings of the Nomination and Remuneration Committee	3
Number of meetings of the Strategy and Investment Committee	7
Number of meetings of the Audit, Control and Sustainability Committee	5
Number of meetings of the Executive Committee	7

The number of Board meetings (12) indicated in this section includes the adoption of written resolutions without a meeting, pursuant to Article 21.4 Regulations of the Board.

During 2022, the lead independent director did not hold any face-to-face meetings with the other non-executive directors, although she has proactively been in touch with them individually on several occasions to discuss matters within her remit.

C.1.26 State the number of meetings held by the Board during the period and details of attendance by its members:

Number of meetings attended in person by at least 80% of the directors	11
Attendance / total votes during the year (%)	94.05
Number of meetings attended by all the directors, in person or by proxies made with specific voting instructions	12
Votes cast with attendance in person or by proxies with specific instructions / total votes during the year (%)	100.00

Attendance in person includes all directors who attended personally, face-to-face or online.

C.1.27 Are the separate and consolidated annual accounts submitted to the Board for approval previously certified?

- Yes
 No

If yes, name the person(s) who certify the separate or consolidated annual accounts of the company before they are approved by the Board:

C.1.28 Explain the mechanisms, if any, established by the Board to ensure that the annual accounts that the Board laid before the General Meeting are drawn up in accordance with the applicable accounting standards.

Article 24.4 of the Regulations of the Board gives the Audit, Control and Sustainability Committee the following powers, among others:

- Supervise and promote the policies, procedures and systems used for drawing up and controlling the company's financial information, checking the services performed in this regard by the Internal Audit Department, the Financial Department and the Management Committee and making sure they are correctly distributed throughout the Group.

- Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

In this regard, it must also see that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. The Committee shall, through its Chairman, obtain information and collaboration from both the Internal Audit Manager and the External Auditors to perform these duties.

- Establish regular contact with the External Auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the External Auditors in accordance with prevailing auditing standards and legislation.

- Be informed of the decisions adopted by the senior management according to recommendations made by the External Auditors in connection with the audit.

In addition, the Group has a Risks Control and Management Policy, including tax risks, and internal control of financial reporting (ICFR), which lay down, among others, the basic principles and the general framework for internal control of the financial reporting by the company and the Ebro Group.

The Group has procedures in place for checking and authorising financial reporting and a description of the financial reporting internal control system (ICFR), for which the Economic Department is responsible, as described in section F.3.1 of this report.

The responsibility for the aforesaid procedures for checking and authorising financial reporting and the description of the financial reporting internal control system (ICFR) lies with the Group Economic Department, the Risks Committee, the economic and finance departments of the different business units, the Audit, Control and Sustainability Committee and the Board of Directors.

Finally, in 2022 the External Auditors attended the Board meeting at which the separate and consolidated annual accounts for 2021 were authorised for issue, to inform the Board directly on the conclusions of their audit, in view of which they issued an unqualified Auditors' Report for the separate and consolidated annual accounts.

C.1.29 Is the Secretary of the Board a Director?

- Yes
 No

If the secretary is not a director, complete the following table:

Name of secretary	Representative
LUIS PEÑA PAZOS	

C.1.30 Describe the specific mechanisms established by the company to preserve the independence of the external auditors, if any; the mechanisms to preserve the independence of financial analysts, investment banks and rating agencies; and how the legal provisions are implemented.

A. With regard to the external auditors:

Both the Articles of Association and the Regulations of the Board vest in the Audit, Control and Sustainability Committee the power to contact the auditors and receive information on any issues that may jeopardise their independence, for examination by the Audit Committee, as well as any other issues relating to the auditing of accounts. The Committee shall also receive information from and exchange communications with the auditors in accordance with prevailing auditing standards and legislation, notwithstanding the ultimate responsibility of the Board of Directors, which, pursuant to Article 8.1.3.(a) of the Regulations of the Board, is responsible for ensuring the independence and professional suitability of the external auditor.

Article 24.4 of the Regulations of the Board establishes the following powers, among others, of the Audit, Control and Sustainability Committee in this respect:

- Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

- See that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. To perform these duties it shall, through its Chair, obtain information and collaboration from both the Internal Audit Manager and the External Auditors.

- Establish regular contact with the external auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the external auditors in accordance with prevailing auditing standards and legislation.

- Submit to the Board, to be tabled at the General Meeting, proposals for the selection, appointment, re-appointment and replacement of the company's External Auditors and their terms of contract, the scope of their commission and the renewal or revocation of their engagement.

- Ensure the independence of the external auditors and the existence of a discussion procedure enabling the external auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the external auditors and any supplementary services they may have provided. It shall also inform the Board on the proposed appointment of the Internal Audit Manager and approve each year the internal audit work plan and monitor its implementation.

In accordance with the foregoing and through the Audit, Control and Sustainability Committee, the Company keeps a strict, constant watch for any circumstances that might affect the independence of the external auditors. Accordingly:

(i) once a year, when the external auditors have provided the necessary information, the Audit, Control and Sustainability Committee issues an annual report on their independence, which is submitted to the Board of Directors and made available to shareholders as from the call to the General Meeting; and

(ii) constantly throughout the year, the Commission receives timely notification of any potential engagement of the external auditors to provide services in addition to auditing the annual accounts. In this regard, in February 2017 the Audit, Control and Sustainability Committee established a protocol for the notification, review and, if appropriate, authorisation of the potential contracting of the external auditors by any company in the Group for non-audit services. That protocol covers the "pre-approval" required for the events contemplated in Article 5(3) of Regulation EU 537/2014 and any other potential service.

Finally, Article 43 of the Regulations of the Board ("Relations with Auditors") provides that the Board shall establish an objective, professional, ongoing relationship with the external auditors of the company appointed by the General Meeting, guaranteeing their independence and putting at their disposal all the information they may require in order to perform their duties. This relationship with the external auditors is channelled through the Audit, Control and Sustainability Committee.

B. With regard to relations with analysts, investment banks and rating agencies:

In addition to the legal provisions and rules on corporate governance, the Regulations of the Board, Code of Conduct of the Ebro Group, the Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors and the Policy on Communication of Financial, Non-Financial and Corporate Information are applicable in this area.

Article 42 of the Regulations of the Board regulates the Company's relations with shareholders and investors (particularly institutional investors).

The Code of Conduct establishes that relations with investors and financial analysts should be channelled through the unit responsible for the Company's relations with investors (Investor Relations Department), through which communications and information for investors in general are channelled.

The Company also has a Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors, which upholds transparency as one of the fundamental values of the actions by the Company and its Group. This Policy contemplates the following general principles applicable in this matter:

- Communication and relations with institutional investors and proxy advisors are conducted in accordance with the principles of transparency, truth and permanent, adequate, timely reporting.

- The principle of non-discrimination and equal treatment is recognised for all shareholders and investors who are in the same conditions and not affected by conflicts of interest or competence.

- The rights and legitimate interests of all shareholders are protected.

- Continuous, permanent communication with shareholders and investors is encouraged.
- Reporting and communication channels are established with shareholders and investors to ensure compliance with these principles.

The company also has a Policy on Communication of Financial, Non-Financial and Corporate Information (supplementing the above-mentioned policy), which establishes the following principles and criteria governing the Company and its Group in respect of the communication of financial, non-financial and corporate information:

- The communication of financial, non-financial and corporate information through any available channels shall in all cases respect: (i) the legal provisions in place from time to time on market abuse and (ii) the principles of transparency, truth and permanent, adequate, timely reporting.
- The principles of non-discrimination and equal treatment shall be respected in all cases for all shareholders who are in the same conditions and not affected by conflicts of interest or competence.
- Continuous, permanent communication shall be encouraged with shareholders, investors and other stakeholders through all the channels considered appropriate for this purpose.

The Company's Audit, Control and Sustainability Committee is responsible for overseeing compliance with the rules and principles set out in the Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors and the Policy on Communication of Financial, Non-Financial and Corporate Information.

C.1.31 Indicate whether the external auditors have changed during the year. If so, name the incoming and outgoing auditors:

- Yes
 No

Explain any disagreements with the outgoing auditor:

- Yes
 No

C.1.32 State whether the firm of auditors does any work for the company and/or its group other than standard audit work and if so, declare the amount of the fees received for such work and the percentage that amount represents in respect of the total fees invoiced to the company and/or its group for audit work:

- Yes
 No

	Company	Group companies	Total
Charge for non-audit work (thousand euros)	259	87	346
Charge for non-audit work / Amount invoiced for audit work (%)	105.28	4.72	16.56

C.1.33 Indicate whether the auditors' report on the annual accounts of the previous year was qualified. If so, state the reasons given by the Chairman of the Audit Committee to explain the content and scope of the qualifications.

- Yes
 No

C.1.34 State the number of years in succession that the current firm of auditors has been auditing the separate and/or consolidated annual accounts of the company. Indicate the ratio of the number of years audited by the current auditors to the total number of years that the annual accounts have been audited:

	Separate	Consolidated
Number of years in succession	9	9
	Separate	Consolidated
Number of years audited by current auditors / Number of years that the company has been audited (%)	28.12	28.12

C.1.35 Indicate, with details if appropriate, whether there is an established procedure for directors to obtain sufficiently in advance any information they may need to prepare the meetings of the governing bodies:

Yes
 No

Details of procedure

According to the obligations and duties assigned by law, the Articles of Association and the Regulations of the Board, the Secretary of the Board is responsible for channelling the relations between the Company and the Directors in all matters concerning the procedures of the Board of Directors and the Board Committees in which he participates, following instructions received from the respective Chairman, and for implement and foster exercise by the Directors of their right to information (Article 15.2(c) and (d) of the Regulations of the Board).

At each year-end, the Secretary of the Board sends all the Directors an annual calendar of meetings previously agreed among all the Directors, setting the dates and times of the meetings of the Board of Directors, Committees, General Meetings and meetings with analysts for the following year. That calendar is also sent to the different professionals of the Company involved in preparing the documentation and information for the Directors for each meeting, to enable them to plan their work and make sure that the corresponding information and documentation are prepared sufficiently before each meeting.

When the documentation for each meeting is complete, it is sent to the Secretary of the Board, who sends it to the Directors, if possible together with the notice of call to the meeting, or in highly justified cases, as soon as possible after sending the notice of call.

C.1.36 Indicate, with details if appropriate, whether the company has established any rules obliging Directors to report and, if necessary, retire if any situation arises, related or not with their actions within the company, that could jeopardise the company's prestige and reputation:

Yes
 No

Explain the rules

Article 31.2 of the Regulations of the Board provide that Directors must step down and tender their resignations, among other cases, if the Board, following a report by the Nomination and Remuneration Committee, considers that: (i) the Director is in a situation, related or not with their actions within the company, that could jeopardise the company's prestige and reputation, (ii) the Director has seriously defaulted their obligations, or (iii) there are reasons of corporate interest so requiring.

Article 31.3 of the Regulations of the Board provide that if a Director: (i) is in a situation, related or otherwise with his duties in the Company, that could jeopardise the Company's prestige and reputation, or (ii) is investigated within any criminal proceedings, he shall notify the Board as promptly as he is able and keep the Board up to date on subsequent developments in both cases.

Finally, the Regulations further stipulate that if a Director fails to tender their resignation when so obliged, the Board of Directors shall, subject to a report by the Nomination and Remuneration Committee, tender a motion to the General Meeting of Shareholders for their removal.

C.1.37 Indicate, unless special circumstances have occurred and been put on record, whether the Board has been informed or has otherwise become aware of any situation affecting a director, related or not with their actions within the company, that could jeopardise the company's prestige and reputation:

Yes
 No

C.1.38 Describe any significant agreements entered into by the company that enter into force or are modified or terminated in the event of a takeover of the company following a takeover bid, and the effects thereof.

Most of the financing agreements signed by Ebro Foods, S.A. include takeover clauses on the usual terms for this type of contract. By virtue of those provisions, the lender reserves the right to terminate the financing agreement in the event of a takeover of the Company. Although there is no universal definition of "takeover" for this purpose, the lender's right is triggered if there is a substantial change in the Company's significant shareholders.

C.1.39 Indicate individually for directors and globally in other cases, and describe in detail any agreements made between the company and its directors, executives or employees contemplating golden handshake clauses or any other indemnities in the event of resignation or unfair dismissal or termination of employment following a takeover bid or any other type of transaction.

Number of beneficiaries	0
Type of beneficiary	Description of agreement
N/A	N/A

State whether, apart from the cases contemplated in law, these contracts have to be notified to and/or approved by the governing bodies of the company/group companies. If yes, specify the procedures, events contemplated and nature of the bodies responsible for approval and notification:

	Board of Directors	General Meeting
Body authorising the clauses	√	
	Yes	No
Is the general meeting informed of the clauses?	√	

C.2. Committees of the Board

C.2.1 Give details of the different committees, their members and the proportion of executive, proprietary, independent and other non-executive directors in each committee:

Executive Committee		
Name	Position	Category
DEMETRIO CARCELLER ARCE	MEMBER	Proprietary
ANTONIO HERNÁNDEZ CALLEJAS	CHAIR	Executive
JAVIER FERNÁNDEZ ALONSO	MEMBER	Proprietary
MARC THOMAS MURTRA MILLAR	MEMBER	Independent

% executive directors	25.00
% proprietary directors	50.00
% independent directors	25.00
% other non-executive directors	0.00

Explain the duties delegated or attributed to this committee other than those described in section C.1.9 and describe the procedures and rules of its organisation and functioning. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

Articles 19 and 27 of the Articles of Association contemplate the delegation of powers of the Board of Directors to the Executive Committee.

The composition, organisation and procedure of the Executive Committee is governed by the provisions common to all the committees set out in Article 22 of the Regulations of the Board, and the specific regulations established in Article 28.1 of the Articles of Association and Article 23 of the Regulations of the Board.

The powers of this Committee are set out in Article 23.2 of the Regulations of the Board, without prejudice to what the Board may establish in its resolution to delegate powers.

The Executive Committee shall have no fewer than three nor more than seven members, including the Chairman and Vice-Chairman of the Board, who will form part of this Committee. At least two of the Executive Committee members shall be non-executive directors and one of them shall be independent.

The Committee shall be presided by the Chairman of the Board. In general, one Executive Committee meeting will be held a month. Its meetings may be attended by such members of the management, employees and advisers of the Company as the Committee may deem fit. Without prejudice to the autonomy of decision of the Executive Committee in respect of the delegated powers, its resolutions normally being fully valid and effective without ratification by the Board, if the Chairman or three members of the Committee consider this necessary in the circumstances, the resolutions adopted by the Executive Committee shall be submitted to the Board for ratification. This will also be applicable when the Board has delegated the Committee to study certain matters while reserving for itself the ultimate decision, in which case the Executive Committee shall merely submit the corresponding proposal to the Board.

During 2022, the Executive Committee assessed several investments, divestments and sales of assets, as well as the strategic decisions to be adopted in respect of the different business lines.

Strategy and Investment Committee		
Name	Position	Category
DEMETRIO CARCELLER ARCE	CHAIR	Proprietary
ANTONIO HERNÁNDEZ CALLEJAS	MEMBER	Executive
JOSE IGNACIO COMENGE SÁNCHEZ-REAL	MEMBER	Proprietary
JAVIER FERNÁNDEZ ALONSO	MEMBER	Proprietary
HERCALIANZ INVESTING GROUP, S.L.	MEMBER	Executive

% executive directors	40.00
% proprietary directors	60.00
% independent directors	0.00
% other non-executive directors	0.00

Explain the duties delegated or attributed to this committee other than those described in section C.1.9 and describe the procedures and rules of its organisation and functioning. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

Article 28.4 of the Articles of Association stipulates that the Regulations of the Board shall also contemplate the existence of a Strategy and Investment Committee, on which any Directors may sit.

The composition, organisation and procedure of the Strategy and Investment Committee are governed by the provisions common to all the committees set out in Article 22 of the Regulations of the Board and the specific provisions established in Article 24 of the Articles of Association, its powers being regulated in Article 24.3.

This Committee will have a minimum of three and a maximum of five Directors, including the Chair, appointed by the Board of Directors subject to a report by the Nomination and Remuneration Committee.

Meetings will be held when called by its Chairman or at the request of two of its members, and in any case whenever the Board of Directors requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The Committee is competent to study, issue reports, review and submit proposals for the Board on the following matters:

- setting of targets for growth, yield and market share;
- strategic development plans, new investments and restructuring processes;
- coordination with subsidiaries in the matters contemplated in paragraphs (a) and (b) above, for the common interests and benefit of the Company and its subsidiaries.

During 2022, the Strategy and Investment Committee assessed the degree of compliance with the Strategic Plan of the Ebro Foods Group 2019-2022 and worked on the completion, implementation and monitoring of the new Strategic Plan of the Ebro Foods Group 2022-2024, as well as other strategic issues concerning the Group.

Audit, Control and Sustainability Committee		
Name	Position	Category
FERNANDO CASTELLÓ CLEMENTE	MEMBER	Independent
MERCEDES COSTA GARCÍA	MEMBER	Independent
JAVIER FERNÁNDEZ ALONSO	MEMBER	Proprietary
GRUPO TRADIFÍN, S.L.	MEMBER	Proprietary
MARC THOMAS MURTRA MILLAR	CHAIR	Independent

% executive directors	0.00
% proprietary directors	40.00
% independent directors	60.00
% other non-executive directors	0.00

On 23 November 2022, in view of the favourable report issued by the Nomination and Remuneration Committee, the Board unanimously resolved to appoint Marc Thomas Murtra Millar chair of the Audit, Control and Sustainability Committee to replace Mercedes Costa García, whose term of office as chair of the committee had expired, pursuant to the Corporate Enterprises Act section 529. quarterdecies.2. Mr Murtra Millar had been a member of this committee since 31 January 2022, when he was appointed director by cooptation and member of the Executive Committee and the Audit, Control and Sustainability Committee.

On 21 December 2022, the Board unanimously resolved to change the name of the Audit and Control Committee to the Audit, Control and Sustainability Committee, in recognition of the increasing importance of sustainability and corporate social responsibility in the company and the important powers of this Committee in that area.

Explain the duties attributed to this committee, including any duties additional to those stipulated in law, and describe the procedures and rules of organisation and procedure. For each of these duties, indicate the committee's most important actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

The Audit, Control and Sustainability Committee (previously called the Audit and Control Committee) is governed by the applicable legal provisions, the specific rules on its composition, organisation, procedure and powers set out in Article 28.2 of the Articles of Association and Article 24 of the Regulations of the Board, and by the provisions on organisation and procedure common to all the Committees, set out in Article 22 of the Regulations of the Board.

This Committee will have a minimum of three directors and a maximum of five.

All the members must be Non-Executive Directors, at least most of whom must be Independent Directors and they will, as a whole, be appointed on the basis of their expertise and experience in accounting, auditing and the management of financial and non-financial risks, or any of these areas.

The Committee Chair shall be appointed by the Board, subject to a report by the Nomination and Remuneration Committee, from among the committee members who are Independent Directors, taking into account their expertise and experience in accounting, auditing and the management of financial and non-financial risks, or any of these areas. The Committee Chair shall be replaced every four years and will become eligible for re-election one year after their retirement as such.

The Audit, Control and Sustainability Committee shall meet as and when called by its Chair, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

In addition to the powers and duties established by law, the articles of association and regulations, the Audit, Control and Sustainability Committee has the duties of supervision, assessment, oversight, control and reporting to the Board of Directors established in Article 24.4 of the Regulations of the Board in each of the following areas:

- Risk management and internal control
- Policies, procedures and systems for the preparation and checking of the company's financial and non-financial reporting

- Information sent regularly to the Stock Exchange Councils, issue prospectuses and any public financial information offered by the Company and, in general, all information prepared for distribution among shareholders.
- Internal systems used for control and preparation of the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue
- External auditors, in aspects concerning their selection, appointment, re-appointment and replacement, their terms of contract and the scope of their commission. Independence and the provision of supplementary services.
- Internal auditors, in respect of the appointment of the department manager and annual work plan.
- Intragroup transactions and related party transactions, and the Group company or subsidiaries that are going to be submitted for authorisation by the Board
- Whistleblowing channel
- Internal codes of conduct and corporate governance rules, including the policies falling within its remit.

During 2022, the Audit and Control Committee performed activities of supervision, control, monitoring and reporting to the Board of Directors in respect of the matters falling within its competence, including financial reporting, non-financial reporting, annual accounts, relations with the external and internal auditors, annual work plan of the internal audit department, risk management (including tax risks) and control systems, related party transactions, conflicts of interest, whistleblowing channel, review of and reporting on the corporate policies within its area of competence, and compliance.

During 2022 the Committee also approved its 2021 activity report, made available for shareholders for the Annual General Meeting held on 29 June 2022.

The Company will issue a detailed report of all the activities performed by the Audit and Control Committee during 2022, which will be made available to all shareholders prior to the forthcoming Annual General Meeting 2023.

Name the member(s) of the audit committee appointed on account of their expertise and experience in accounting, auditing or both and indicate the date of appointment of the committee chair.

Names of directors with experience	FERNANDO CASTELLÓ CLEMENTE / MERCEDES COSTA GARCÍA / JAVIER FERNÁNDEZ ALONSO / GRUPO TRADIFÍN, S.L. / MARC THOMAS MURTRA MILLAR
Date of appointment to this office of the committee chair	23/11/2022

Nomination and Remuneration Committee

BELÉN BARREIRO PÉREZ-PARDO	MEMBER	Independent
DEMETRIO CARCELLER ARCE	MEMBER	Proprietary
FERNANDO CASTELLÓ CLEMENTE	CHAIR	Independent
MERCEDES COSTA GARCÍA	MEMBER	Independent
GRUPO TRADIFÍN, S.L.	MEMBER	Proprietary

% executive directors	0.00
% proprietary directors	40.00
% independent directors	60.00
% other non-executive directors	0.00

Explain the duties attributed to this committee, including any duties additional to those stipulated in law, and describe the procedures and rules of organisation and functioning. For each of these duties, indicate the committee's most important

actions during the year and how it has performed in practice each of the duties attributed to it, by law, in the articles of association or by virtue of other corporate resolutions.

The Nomination and Remuneration Committee is governed by the applicable legal provisions, the specific rules on composition, organisation and procedure established in Article 28.3 of the Articles of Association and Article 25 of the Regulations of the Board and the provisions on organisation and procedure common to all the committees set out in Article 22 of the Regulations of the Board.

The powers of the Nomination and Remuneration Committee are regulated in Article 25.4 of the Regulations of the Board, without prejudice to any others that may be assigned to it by law, the Articles of Association or the Regulations of the Board.

The Nomination and Remuneration Committee will have a minimum of three and a maximum of five non-executive directors, at least two of which must be Independent Directors. The members are appointed by the Board of Directors.

The Board will appoint one of the Independent Directors who are members of the Nomination and Remuneration Committee to chair it, subject to a report by that Committee.

Meetings will be held when called by its Chairman or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board of Directors requests the issuance of reports, submission of proposals or adoption of resolutions within its remit.

Pursuant to Article 25.4 of the Regulations of the Board, the Nomination and Remuneration Committee is competent to study, issue reports and submit proposals to the Board on the following matters:

- selection of candidates to join the Board of Directors;
- appointment of the Chairman, and Vice-Chairman if any, of the Board, Managing Director(s), Lead Independent Director and the Secretary, and Vice-Secretary if any, of the Board;
- succession of the Chairman and chief executive;
- appointment of directors to the Committees of the Board of Directors;
- appointment and possible dismissal of senior executives and their termination benefit clauses;
- directors' emoluments, according to the system of remuneration established in the Articles of Association and the executive directors' relationship with the Company;
- remuneration of directors and executives indexed to the value of the shares in the Company or its subsidiaries or consisting of the delivery of shares in the Company or its subsidiaries or the granting of options thereover;
- selection policy for directors, targets for the representation of the least represented gender on the Board and issuance of guidelines on how to achieve them;
- remuneration policy for directors and senior management of the Company and Group subsidiaries;
- management training, promotion and selection policy in the Company and Group subsidiaries;
- Annual Report on Directors' Remuneration.

With regard to the activities of the Nomination and Remuneration Committee during 2022, following the appropriate studies and assessments, the Committee has drawn up the proposals and issued the corresponding favourable reports to the Board of Directors in respect of the following: (i) appointment, re-election and ratification of directors and their assignment to the different Committees of the Board; (ii) appointment of Chair of the Audit, Control and Sustainability Committee to replace the previous chair; (iii) analysis of the composition of the Board with regard to the afore-mentioned appointments and re-elections; (iv) review of the Group policies falling within its remit; (v) review of the Directors' Remuneration Policy 2022-2024; (vi) remuneration systems and remuneration of directors, including the Executive Chairman, and of the key executives of the Company and its Group; (vi) Corporate Governance Report and Directors' Remuneration Report for 2021; (viii) Share-Based Remuneration Plan for Group employees for 2022; and (viii) self-assessment procedure for the Board of Directors, Chairman and Committees for 2021.

The Committee also approved during 2022 its 2021 activity report, made available for shareholders for the Annual General Meeting of 29 June 2022.

The Company will issue a detailed report of all the activities performed by the Nomination and Remuneration Committee during 2022, which will be made available to all shareholders for the forthcoming Annual General Meeting 2023.

C.2.2 Complete the following table with information on the number of female directors on the board committees over the past four years:

	Number of female directors							
	2022		2021		2020		2019	
	No.	%	No.	%	No.	%	No.	%
Executive Committee	0	0.00	0	0.00	0	0.00	0	0.00
Strategy and Investment Committee	0	0.00	0	0.00	0	0.00	0	0.00
Audit, Control and Sustainability Committee	2	40.00	2	40.00	2	40.00	3	60.00
Nomination and Remuneration Committee	3	60.00	3	60.00	3	60.00	2	50.00

C.2.3 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each committee.

In general, Article 28 of the Articles of Association establishes the basic regulation of the Committees of the Board, contemplating the existence and composition of: (i) the Executive Committee, (ii) the Audit, Control and Sustainability Committee and (iii) the Nomination and Remuneration Committee. It also refers to the Regulations of the Board regarding the possible existence of a Strategy and Investment Committee.

The Regulations of the Board regulate the Board committees in the following specific provisions:

- General provisions applicable to all the Committees: Article 22
- Executive Committee: Article 23
- Audit, Control and Sustainability Committee: Article 24
- Nomination and Remuneration Committee: Article 25
- Strategy and Investment Committee: Article 26

The Regulations of the Board also contemplate in different articles the powers of the different Committees of the Board in different areas (e.g. modification of the Regulations).

Both the Articles of Association and the Regulations of the Board are available for consultation on the corporate website (www.ebrofoods.es). The Regulations of the Board are also published and available for consultation on the website of the National Securities Market Commission (www.cnmv.es). Both texts are delivered to the Directors when they are appointed, together with the Regulations of the General Meeting, the Internal Code of Market Conduct, the Internal Code of Conduct and the Policies of the Ebro Foods Group, among other documents.

Both the Audit, Control and Sustainability Committee and the Nomination and Remuneration Committee issue annual activity reports, which are submitted to the Board of Directors for its information and consideration within the assessment of the Board and its Committees. Those activity reports are made available for shareholders on the corporate website www.ebrofoods.es coinciding with the call to the Annual General Meeting.

D. RELATED PARTY AND INTER-COMPANY TRANSACTIONS

D.2. Explain the procedure, if any, and bodies competent to approve related party and inter-company transactions, indicating the internal criteria and general rules of the organisation regulating the obligations of affected directors or shareholders to abstain and defining the internal procedures on reporting and regular control established by the company in relation to the related party transactions whose approval has been delegated by the Board.

Article 24 of the Regulations of the Board vests in the Audit, Control and Sustainability Committee the power to: (i) oversee related party transactions and report to the Board or the General Meeting, as the case may be, prior to their approval, on the related party transactions to be submitted for its approval; and (ii) supervise the internal procedure, if any, established by the company for those transactions whose approval has been delegated.

In general, Article 37 of the Regulations of the Board establishes that other than in the cases in which this power is reserved by law to the General Meeting, related party transactions must be reported to and approved by the Board, subject to a report by the Audit, Control and Sustainability Committee.

Article 37 of the Regulations provides that:

- Related party transactions made for an amount or value equal to or greater than 10% of the total consolidated assets, as per the latest consolidated annual balance sheet approved by the company, require approval by the General Meeting.

- All other related party transactions shall be approved by the Board, which may not delegate this power unless: (i) they are made with Group companies within the scope of ordinary business and on arm's length terms, or (ii) they are made under standard form contracts used generally with a large number of clients, at prices or rates established generally by the supplier of the goods or provider of the services in question and provided the amount of the transaction does not exceed 0.5% of the company's consolidated net turnover.

- Whenever, in accordance with the preceding paragraph, the Board delegates the approval of related party transactions, the Board shall establish an internal procedure for regular reporting and control in order to verify the fairness and transparency of those transactions and, as the case may be, compliance with the applicable legal provisions.

- The Audit, Control and Sustainability Committee shall issue a report prior to approval of any related party transactions by the General Meeting or the Board. In that report, the Committee shall assess whether the transactions are fair and reasonable for the company and, where appropriate, for shareholders other than the related party involved in the transaction, explaining the assumptions on which its assessment is based and the methods employed.

No members of the Audit, Control and Sustainability Committee affected by the related party transactions may participate in the preparation of this report.

This report will not be obligatory for related party transactions whose approval has been delegated by the Board, whenever this is permitted by law and contemplated in the Regulations of the Board.

- The Board shall ensure publication of any related party transactions made by the company or Group companies for a sum equal to or greater than 5% of the total value of consolidated assets or 2.5% of the annual consolidated turnover of the Company or its Group.

For this purpose, an announcement containing the details required by law shall be published in an easily accessible part of the company's website and sent to the National Securities Market Commission. The announcement shall be published and remitted no later than the date of the related party transaction, and shall be accompanied by the report, if any, issued by the Audit, Control and Sustainability Committee.

- The amount of a related party transaction shall be determined by adding up the value of all transactions made with the same counterparty within the past twelve months.

Finally, the company makes intragroup transactions on arm's length terms, documenting them according to the requirements of the laws (essentially tax laws) in place in each jurisdiction. This is one of the practices required by the Risk Management and Control Policy established in the Ebro Group.

D.3. Give the individual details of any transactions for a significant amount or object between the company and/or companies in its group and shareholders holding 10% or more of the voting rights or represented on the board of directors of the company, stating which body was responsible for approving them and whether any affected director or shareholder has abstained. If the General Meeting was competent, state whether the proposed resolution was passed by the board without votes against by the majority of independent directors:

	Name of shareholder or any of its subsidiaries	% Interest	Name of subsidiary	Amount (thousand euros)	Body that approved transaction	Identification of significant shareholder or director who abstained	The proposal to the General Meeting, if any, was approved by the Board without votes against by the majority of independent directors
(1)	SOCIEDAD ANÓNIMA DAMM	11.69	Estrella de Levante, S.A.	1,796	Board of Directors	Demetrio Carceller Arce and María Carceller Arce	NO
(2)	SOCIEDAD ANÓNIMA DAMM	11.69	Compañía Cervecera Damm, S.L.	6,697	Board of Directors	Demetrio Carceller Arce and María Carceller Arce	NO
(3)	HERCALIANZ INVESTING GROUP, S.L.	9.00	Instituto Hispánico del Arroz, S.A.	11,054	Board of Directors	Antonio Hernández Callejas, Heralianz Investing Group, S.L., and Grupo Tradifín, S.L.	NO
(4)	GRUPO TRADIFÍN, S.L.	7.96	Cabher 96, S.L.	1	Board of Directors	Grupo Tradifín, S.L., Antonio Hernández Callejas and Heralianz Investing Group, S.L.	NO

	Name of shareholder or any of its subsidiaries	Nature of relationship	Type of transaction and other information necessary for evaluation
(1)	SOCIEDAD ANÓNIMA DAMM	Commercial	Sale of rice and rice by-products on arm's length terms
(2)	SOCIEDAD ANÓNIMA DAMM	Commercial	Sale of rice and rice by-products on arm's length terms
(3)	HERCALIANZ INVESTING GROUP, S.L.	Commercial	See information on and breakdown of transactions with Instituto Hispánico del Arroz, S.A. in "COMMENTS"
(4)	GRUPO TRADIFÍN, S.L.	Commercial	Sale of crop protection products on arm's length terms

The related party transactions made with significant shareholders (or their related parties) which, in their capacity as such, are represented or hold a position on the Board are indicated in this section.

With regard to the transactions made between the Ebro Foods Group and Instituto Hispánico del Arroz, S.A. indicated in this section, it should be noted that although in the table those transactions are indicated as related with Heralianz Investing Group, S.L., they should also be related with Grupo Tradifín, S.L., since both Grupo Tradifín, S.L. and Heralianz Investing Group, S.L. hold interests in Instituto Hispánico del Arroz, S.A. (50% each).

The breakdown of transactions made by the Ebro Group with Instituto Hispánico del Arroz, S.A. and its subsidiaries declared in this section is as follows (in thousand euros):

- national and international commodity purchases: quinoa, seeds and different varieties of rice, 9,607;
- national and international commodity sales: quinoa and different varieties of rice (harvest and grain), marine plankton and crop protection products, 602;
- services provided, essentially royalties and import licences, 86;
- services received, essentially royalties and import licences, 78;
- R&D transfer and licence agreement for seeds, 219;
- leases (expense) of offices, raw material warehouses and extended rice storage, 462.

The Board of Directors took the following criteria in account when approving the transactions related with Heralianz Investing Group, S.L. and Grupo Tradifin, S.L.:

- internal comparables: price and terms applied in purchase and sale transactions and services rendered and received comparable with unrelated third parties;
- external comparables: when there are no internal comparables, the price and terms of similar products on the national or international markets has been taken (based on information obtained from stock markets and other public information); and
- other comparables: when there are no internal or external comparables, other aspects have been analysed, such as the return obtained on resale.

D.4. Give the individual details of any transactions for a significant amount or object between the company and/or companies in its group and the directors or executives of the company, including any transactions made with companies that the director or executive controls or jointly controls, stating which body was responsible for approving them and whether any affected director or shareholder has abstained. If the General Meeting was competent, state whether the proposed resolution was passed by the board without votes against by the majority of independent directors:

	Name of directors or executives or companies under their control or joint control	Name of company or subsidiary	Relationship	Amount (thousand euros)	Body that approved transaction	Identification of significant shareholder or director who abstained	The proposal to the general meeting, if any, was approved by the board without votes against of the majority of independent directors
(1)	ANTONIO HERNÁNDEZ CALLEJAS	Luis Hernández González	Contractual	45	Board of Directors	Antonio Hernández Callejas, Heralianz Investing Group, S.L. and Grupo Tradifin, S.A.	NO
(2)	ANTONIO HERNÁNDEZ CALLEJAS	Hacienda Las Casetas, S.L.	Commercial	12	Board of Directors	Antonio Hernández Callejas, Heralianz Investing Group, S.L. and Grupo Tradifin, S.A.	NO
(3)	DEMETRIO CARCELLER ARCE	Disa Energy, S.L.U.	Commercial	7,263	Board of Directors	Demetrio Carceller Arce and María Carceller Arce	NO

	Name of directors or executives or companies under their control or joint control	Nature of the transaction and other information necessary for its evaluation
(1)	ANTONIO HERNÁNDEZ CALLEJAS	Lease (expense) of real estate on arm's length terms
(2)	ANTONIO HERNÁNDEZ CALLEJAS	Sale of rice by-product for animal feed on arm's length terms
(3)	DEMETRIO CARCELLER ARCE	Purchases of gas and diesel on arm's length terms

D.5. Give the individual details of any inter-company transactions for a significant amount or object between the company and its parent or other companies in the parent's group, including the subsidiaries of the listed company, unless any other related party of the listed company has interests in those subsidiaries or the latter are fully owned, directly or indirectly, by the listed company.

In any case, inform on any inter-company transactions with companies established in countries or territories considered tax havens:

Name of group company	Brief description of the transaction	Amount (thousand euros)
No details		

Details are set out below of the transactions made in 2022 between companies in the Ebro Group and Riso Scotti, S.p.A., an Italian company in which Ebro Foods, S.A. has a 40% interest (investment in an associate consolidated by the equity method). It is, therefore, an associate outside the Ebro Group.

Those transactions, expressed in thousand euros, are listed below:

- Ebro Foods, S.A.: Services rendered (income), 4;
- Ebro Foods, S.A.: Dividends received, 1,000;
- Arotz Foods, S.A.: Purchase of goods (finished or otherwise), 83;
- Herba Ricemills, S.L.U.: Purchase of goods (finished or otherwise), 444;
- Herba Ricemills, S.L.U.: Sale of goods (finished or otherwise), 8,329;
- Herba Ricemills, S.L.U.: Sale of tangibles, intangibles or other assets, 121;
- Herba Ricemills, S.L.U.: Other expenses, 5;
- Herba Ricemills, S.L.U.: Financial income, 25;
- Mundiriso, S.R.L.: Purchase of goods (finished or otherwise), 1,423;
- Mundiriso, S.R.L.: Sale of goods (finished or otherwise), 2,681;
- Arrozeiras Mundiarroz, S.A.: Purchase of goods (finished or otherwise), 139;
- Geovita Functional Ingredients, S.R.L.: Purchase of goods (finished or otherwise), 134;
- Geovita Functional Ingredients, S.R.L.: Sale of goods (finished or otherwise), 307;
- Herba Bangkok, S.L.: Sale of goods (finished or otherwise), 1,756;
- Ebro Ingredients, B.V.: Sale of goods (finished or otherwise), 243;
- Ebro Ingredients, B.V.: Purchase of goods (finished or otherwise), 63.

- D.6.** Give the individual details of any transactions for a significant amount or object between the company or group companies and other related parties that are so pursuant to the International Accounting Standards adopted by the EU and that have not been reported in the preceding sections.

Name of related party	Brief description of the transaction and other information necessary for its evaluation	Amount (thousand euros)
FÉLIX HERNÁNDEZ CALLEJAS	IT services rendered (income) between a subsidiary of the Ebro Foods Group and Hernández Barrera Servicios, S.A. on arm's length terms	4
FÉLIX HERNÁNDEZ CALLEJAS	Legal and tax counselling services received (expense) between a subsidiary of the Ebro Foods Group and Hernández Barrera Servicios, S.A. on arm's length terms	319
FÉLIX HERNÁNDEZ CALLEJAS	Sale of office material (income) between a subsidiary of the Ebro Foods Group and Hernández Barrera Servicios, S.A. on arm's length terms	1

Hernández Barrera Servicios, S.A. is related to Félix Hernández Callejas, who represents the corporate director Heralianz Investing Group, S.L. on the Board of Directors of Ebro Foods, S.A.

The transactions made with this company were approved by the Board with the votes of the independent directors and abstention of the following directors: Heralianz Investing Group, S.L., Antonio Hernández Callejas and Grupo Tradifin, S.L.

- D.7.** Describe the mechanisms established to detect, define and resolve possible conflicts of interest between the company and/or its group, and its directors, executives, significant shareholders or other related parties.

Apart from the powers of the General Meeting and the Board of Directors on conflicts of interest of the Directors, under Article 24 of the Regulations of the Board, the Audit, Control and Sustainability Committee has the power to settle any conflicts of interest that may arise between the company or the group and its Directors, executives, significant shareholders and listed subsidiaries, if any (which is not the case).

With regard to the Directors, Article 36 of the Regulations of the Board provides that Directors may not perform activities for their own or third party account that effectively or potentially compete with the Company or which otherwise puts them in a permanent conflict of interest with the company; and Article 37.1 establishes the obligation of Directors to take such measures as may be necessary to avoid situations in which their interests, for their own or third party account, may conflict with the corporate interests and their duties to the Company.

For this purpose, Article 38 of the Regulations of the Board stipulates that Directors shall inform the Board of any direct or indirect conflict of interest that they or any of their related parties may have with the Company. Furthermore, pursuant to Article 32.4 of the Regulations of the Board, Directors shall abstain from participating in the corresponding debates and voting on resolutions or decisions in which they or any person related to them has a direct or indirect conflict of interest, except in the cases in which they are authorised by law to participate in the discussion and voting.

The current Internal Code of Market Conduct establishes for Relevant Persons (Directors, senior executives and their closely related parties) certain prohibitions and limitations on trading in the Company's shares and disclosure of information, and also a penalty system for any breaches thereof.

It also stipulates that Relevant Persons other than directors may submit queries to the Compliance Unit regarding the application of the prohibited actions contemplated in Rule 6. Directors may submit any queries they may have directly to the Company Secretary.

Finally, it should be noted that every year, when preparing the Financial Reporting, annual accounts and Annual Corporate Governance Report, the Directors (and representatives of corporate directors) are asked for information on: (i) any transactions that they or their related parties may have made with the Company and/or subsidiaries of the Group (the same information is also requested of the significant shareholders of the company); (ii) possible conflicts of interest as per section 229 of the Corporate Enterprises Act directly or indirectly involving the director, its representative or related parties; and (iii) any other possible conflicts of interest.

- D.8.** Indicate whether the Company is controlled by another entity, listed or otherwise, in the sense of Article 42 of the Commercial Code and has business relations, directly or through its subsidiaries, with that entity or any of its subsidiaries (other than those of the listed company) or performs activities related with those of any of the latter.

Yes
 No

E. RISK MANAGEMENT AND CONTROL SYSTEMS

E.2. Explain the scope of the company's financial and non-financial Risk Management and Control System, including tax risks.

As an integral part of the corporate policies passed by the Board, the Risk Management and Control Policy lays down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which Ebro Foods, S.A. and other companies in its Group are exposed.

Within this general framework, the integral, homogenous Risk Management and Control System is based on the preparation of a business risk map, through which, by pinpointing, assessing and grading of the risk management capacity, the risks are ranked from greater to lesser impact for the Group and by probability of occurrence. The risk map also identifies methods for mitigating or neutralising the risks detected.

The risk universe is structured in four main groups: compliance, operational, strategic and financial, and they are all subdivided into a large number of categories.

The risk classification process dynamically assesses both the inherent risk and the residual risk after application of the internal controls and action protocols established to mitigate them. These controls include preventive controls, adequate separation of duties, clear levels of authorisation and definition of policies and procedures. These controls can in turn be grouped into manual and automatic, made by data processing applications. This model is both qualitative and quantitative and can be measured in the Group's results, for which purpose the risk level is considered acceptable or tolerable on a corporate level.

The Risk Management and Control System is dynamic, so the risks to be considered vary according to the circumstances in which the Group is operating. The risks associated with the Ukraine war and those related with the inflation were especially important during 2022.

E.3. Name the corporate bodies responsible for preparing and implementing the financial and non-financial Risk Management and Control System, including tax risks.

The Risk (including tax risks) Management and Control System and control of financial reporting is based essentially on the following structure:

- The Board of Directors, as ultimately responsible, defines the policy for control and management of risks, including tax risks, and control of financial reporting. Article 17.3 of the Regulations of the Board provides that the Board shall receive information on the most important aspects of business management and any foreseeable risk situations for the Company and its subsidiaries, together with the actions proposed by the senior management in respect thereof.
- The Audit, Control and Sustainability Committee, through the Risks Committee, performs the duties of oversight and monitoring of the financial reporting and risk control systems, reporting regularly to the Board on any significant aspects arising in these areas. It is responsible for supervising and promoting internal control of the Group and the risk management systems and submitting recommendations to the Board on the risk control and management policy and possible mitigation measures in those areas.
- The Risks Committee, based on the policy established by the Board of Directors and under the supervision of and reporting to the Audit, Control and Sustainability Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and control of the Group's financial reporting. The Risks Committee also analyses and assesses the risks associated with new investments.
- The Management Committees of the core business units of the Group, on which the Chairman of the Board and the Chief Operating Officer (COO) sit, assess the risks and decide on mitigation measures.
- Risk officers of the core business units of the Group. The major subsidiaries of the Group have officers responsible for monitoring the financial reporting risk (including tax risks) control and management systems and reporting to the Risks Committee.
- Internal Audit Department. Within the internal audits of the different subsidiaries, the Company's Internal Audit Department checks that the testing and control of the financial reporting and risk management systems have been performed adequately in accordance with the indications by the Risks Committee and Audit, Control and Sustainability Committee.

E.4. Define the main financial and non-financial risks, including tax risks and, to the extent that they may be significant, those deriving from corruption (the latter within the scope of Royal Decree Law 18/2017), that could have a bearing on achievement of the company's business goals.

The main risks that might have a bearing on achievement of the business goals set by the Ebro Foods Group are listed below and explained in greater detail in Explanatory Note Three in section H of this Report.

A. OPERATIONAL RISKS:

- Food safety risk
- Commodity supply risk
- Market (prices) risk

- Customer concentration risk
- Technological risk
- Cybersecurity

B. RISKS RELATED WITH THE ENVIRONMENT AND STRATEGY:

- Environmental risk
- Climate risk
- Competition risk
- Reputational risk
- Social network exposure
- Changes in lifestyle
- Country or market risk
- Natural disasters, fires
- Strategic planning and assessment of strategic opportunities for investment or divestment

C. COMPLIANCE RISKS:

- Sectoral regulatory risk
- General regulatory risk
- Tax risks

D. FINANCIAL RISKS:

- Foreign exchange risk
- Interest rate risk
- Liquidity risk
- Credit risk

E.5. State whether the company has a risk tolerance level, including one for tax risks.

Risks are measured by both inherent and residual risk.

A scorecard is made each year of the principal ten risks to which the Group may be exposed (the TOP TEN), which are rated and measured as far as possible. If the economic consequences of a risk could cause a loss (or a loss of profit) of more than 5% of the consolidated EBITDA budgeted, or over 20% of the individual EBITDA of a business, it is considered a threat requiring corporate action.

In general, the heads of the different business units and the Management Committee of each unit: (i) define the risks affecting their respective businesses, (ii) assess the possible economic impact of those risks and, (iii) in view of the specific prevailing circumstances, establish whatever mitigation measures they deem fit.

Without prejudice to the supervision by the Risks Committee and, ultimately, the Audit, Control and Sustainability Committee, the Management Committee of each unit implements and monitors the mitigation measures taken and assesses the results thereof.

This notwithstanding, when a threat is identified that requires action on a corporate level (as mentioned in the first paragraph above), the persons responsible for risk management and control in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as they may consider adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit, reporting to the Audit, Control and Sustainability Committee.

The Board of Directors is promptly informed on the risks that have materialised and the mitigation measures adopted, both through the report submitted regularly on the matter by the Audit, Control and Sustainability Committee and through the information given at all Board meetings on the development of business. In addition, the Board receives every year the minutes of the Risks Committee meetings held in the previous year to supplement the information provided regularly by the Audit, Control and Sustainability Committee throughout the year. This reinforces the most direct monitoring of risk control by the

Board and, should they deem fit in the light of the Risks Committee minutes, the directors may request further information on any risk reported or the mitigation measures implemented.

E.6. What financial and non-financial risks, including tax risks, have occurred during the year?

The financial and non-financial risks, including tax risks, that occurred during 2022 and the first few months of 2023 (up to the date of writing this report) are described below:

A. SUPPLY RISKS

- Transport

There was considerable tension on the sea and road freight market in 2021, largely due to the restrictions put in place because of the pandemic. Our sector encountered difficulties especially in finding containers to transport rice from South East Asia. The availability problems and soaring prices continued in the first half of 2022, after which they gradually improved and returned to normal by the end of the year.

In order to get round these problems, the Group implemented a strategy of chartering complete cargo vessels, combining cargos for different European destinations, which enabled the Group to secure a large turnover.

- Rice supply

In recent years there have been alerts of drought in southern Spain, which is a major source of supply of certain rice varieties sold by the Group. Partly as a result of this situation, the availability and supply of pearl rice has gradually fallen in Spain. To mitigate this risk, the Group has diversified sourcing and promoted alternative varieties sourced in Argentina to supplement our supplies.

During 2022, certain countries revealed their intention to impose restrictions on the exporting of certain rice varieties to guarantee their domestic supply. India levied a 20% customs tariff on non-Basmati rice varieties and prohibited exports of broken rice. These measures have not had a material effect on the Ebro Group as we export mainly Basmati rice from India, although we are keeping an eye on other possible restrictions not yet imposed in India or other countries in the area.

- Evolution of prices

2022 was marked by a constant rise in the CPI, which in some months reached double-digit percentages. These rises greatly impacted the costs of logistics, purchases of raw materials and auxiliary products, and energy. The situation improved somewhat towards the end of 2022, thanks to the stabilisation of the Ukraine war (cereal and fertilizer markets eased as a result), the measures implemented by many governments to check the increasing energy costs and the progressive return to normal of the freight tariffs since last summer. However, the underlying tensions remain, causing upturns in the prices of certain products, such as American long-grain rice or aromatic rice varieties (partly due to factors limiting production, such as flooding and tariff barriers on exports).

Against this backdrop, the Group carefully manages its costs (investments in photovoltaic plants, hedging of energy costs, search for alternative freight options and rice sources and varieties, etc.) and constantly analyses and plans the passing-on of part of the increased costs in selling prices.

B. COUNTRY RISK

- Brexit

Although the situation was fairly stable throughout the year, there are still people calling for a review of the agreements reached with the European Union (especially with regard to the internal Irish border). In other words, there is still some uncertainty in respect of possible regulatory changes.

In addition, owing to increased costs deriving from the UK's insularity, constantly rising prices and the bottlenecks deriving from the new situation, changes are being studied in the customs arrangements with third countries, which might affect industries operating in the United Kingdom.

The Group is only exposed to limited risk, but it makes a continuous assessment of the situation and possible management alternatives.

- Ukraine crisis

The events in Ukraine following the military invasion by the Russian Federation on 24 February 2022 have created considerable global uncertainty, with a significant impact on the prices of many supplies, which we have mentioned earlier when explaining the risks deriving from price evolution.

The company believes that this situation of uncertainty and its consequences should not have a very significant impact on the Group, for the following reasons:

(i) The Group does not have any major interests in the region.

(ii) The possible impact on supplies used by the Group is limited to collateral effects (possible changes in consumption, increased cost of fertilizers, switching cereals grown, etc.), because the grains produced in that region are not included in the Group's supply chain.

(iii) The Ebro Group's businesses are more resilient in times of economic crisis thanks to the type of products they sell. Consequently, the Group does not expect any major drop in customer demand, loss of suppliers or adverse effects in its supply and distribution chains.

(iv) The European Union has taken measures to check energy price hikes and mitigate dependence on Russian gas.

E.7. Explain the response and supervision plans for the main risks, including tax risks, to which the company is exposed and the procedures followed to ensure that the board of directors provides solutions for any new challenges that may arise.

The Management Committees of each business unit are responsible for monitoring its risk supervision system. Management committees usually meet monthly to analyse any risks that may have materialised and design and monitor the contingency plans and actions taken to mitigate them. Control and monitoring of the economic variables in each subsidiary against the corresponding budget also ensures the immediate detection of unforeseen risk situations. The subsidiaries with greatest weight within the Group, such as the North American subsidiaries, have "Crisis Management Plans" (CMP), which specify the main risks to which the company is exposed, the protocols for responding to them and the company officers responsible for implementation.

This notwithstanding, when a threat is identified that requires action on a corporate level (see section E.4 of this report), the persons responsible for risk management and control in the corresponding unit must inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit. The Risks Committee reports regularly to the Audit, Control and Sustainability Committee on the actions taken and plans proposed and the latter in turn reports on all this to the Board of Directors (without prejudice to the Board's knowledge of the most important situations through its thorough monitoring of business at each Board meeting and the annual remittance to the Board of the minutes of all the Risks Committee meetings held during the preceding year).

The measures to control, reduce and, as the case may be, mitigate the risks are established according to the following basic criteria:

- They shall seek to neutralise the risk detected, maintaining coherence between the importance of the risk and the cost and means required to neutralise it.
- If neutralisation is not feasible, measures shall be designed to reduce the potential economic consequences, if possible to within tolerance levels.
- The management and control shall, as far as possible, forestall rather than remedy.
- The control mechanisms shall adequately separate management and oversight.
- The different people responsible for risk management shall coordinate their actions to be efficient, seeking the utmost integration between control systems.
- Maximum transparency shall be ensured in the identification and assessment of risks, specification and implementation of mitigation measures and assessment of the results of those measures.
- Compliance must be guaranteed with the requirements of internal reporting to the bodies responsible for supervision and control.

F. INTERNAL RISK MANAGEMENT AND CONTROL SYSTEMS FOR FINANCIAL REPORTING (ICFR)

Describe the mechanisms comprising the internal control over financial reporting (ICFR) of your company.

F.2. Control environment

Report on at least the following, describing their principal features:

F.2.1 What bodies and/or units are responsible for: (i) the existence and maintenance of an adequate and effective ICFR, (ii) its implementation and (iii) its oversight?

As established in its Regulations, the Board of Directors is ultimately responsible for the existence, maintenance and oversight of an adequate, effective internal control system for the company's financial reporting (ICFR).

The Audit, Control and Sustainability Committee is responsible for: (i) supervising and promoting the procedures and systems used to prepare and control the company's financial reporting; (ii) checking any public financial information; and (iii) ensuring implementation of and compliance with the internal regulations and codes applicable to the risk management and control systems in relation to the financial reporting process.

The Management Committee is responsible for the design, implementation and functioning of the ICFR through the Group Finance Department and the Finance Departments of the different business units. The different general managements are responsible for effective implementation of these systems within their respective areas of activity. There are also officers responsible for the different processes documented within the ICFR, who must ensure that those processes are kept up to date, informing the Risks Committee, through the finance department and general management of the corresponding business unit, of any modifications or adaptations required.

The Risks Committee, reporting to the Audit, Control and Sustainability Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and controlling the Group's financial reporting.

F.2.2 State whether the following elements exist, especially in respect of the financial reporting process:

· Departments and/or mechanisms responsible for: (i) designing and reviewing the organisational structure; (ii) clearly defining the lines of responsibility and authority, with an adequate distribution of tasks and duties; and (iii) ensuring that there are sufficient procedures for adequately informing the company:

As established in its Regulations, the Board of Directors is responsible for defining the general strategy and guidelines for management of the Company and its Group and encouraging and supervising the actions taken by the senior officers, establishing an organisational structure that will guarantee the utmost efficiency of the senior management and the management team in general.

According to the Regulations of the Board, the Nomination and Remuneration Committee is responsible for checking the criteria followed regarding the composition and structure of the Board and for selecting candidates for the Board. It also nominates the Chairman, CEO or managing director(s) and Secretary of the Board and proposes the assignment of Directors to the different Board Committees.

In turn, under the policies approved by the Board, the Nomination and Remuneration Committee supervises the senior executive remuneration and incentives policy.

Within each group company, the organisational structure of the units participating in the preparation of financial reporting depends on several factors, such as the volume of operations or type of business, but in all cases it corresponds to the need to cover the main duties of recording, preparing, checking and reporting the operations performed and the economic and financial position of the company. The Executive Chairman, Chief Operating Officer (COO) and executives of the different business units of the Ebro Foods Group participate actively in the management committees of the Group's subsidiaries, thereby ensuring direct communication through the lines of responsibility and authority.

The senior management and the human resources departments of the Group and each of the Group subsidiaries are responsible for designing the organisational structure according to local needs. The most important subsidiaries have organisation charts that include a description of the duties and responsibilities of the main areas participating in the internal control of financial reporting.

The different job descriptions of positions and responsibilities are maintained by the Human Resources Department of each subsidiary and the management of all the subsidiaries, especially the financial management, are informed of any new member of a subsidiary.

- Code of conduct, body responsible for its approval, degree of publicity and instruction, principles and values included (stating whether there is any specific mention of the recording of transactions and preparation of financial reporting), body responsible for analysing default and proposing corrective measures and penalties:

The Code of Conduct of the Ebro Group, an update of the earlier Codes of Ethics and Conduct drawn up by the Ebro Foods Group in 2003, 2008 and 2012, was approved by the board on 25 November 2015 and all levels of the organisation were notified.

The Code of Conduct provides guidance on how to act in the Group's internal and external relationships, strengthening the values that distinguish us and establishing a basic reference to be followed by the Group.

The Code aims to:

- Be a formal, institutional reference for personal and professional conduct
- Guarantee the responsible, ethical behaviour of all the Group's professionals in their work
- Reduce the element of subjectivity in personal interpretations of moral and ethical principles
- Create a standardisation tool to guarantee progressive implementation throughout the Group of the ten principles of the UN Global Compact
- Grow responsibly and committed to all our stakeholders.

As established in the Code of Conduct, the Group assumes a principle of conduct based on transparent reporting, consisting of an undertaking to report reliable financial, accounting or other information to the markets. Accordingly, the company's internal and external financial reporting will give a true and fair view of its real economic, financial and equity situation according to generally accepted accounting principles.

Employees formally sign the Code of Conduct when they join the workforce of most Group companies and all new Group employees during the year were informed and given a copy of the Code.

The Code of Conduct is published in the Intranet, where it can be consulted by any employee, and on the Group's website.

The Audit, Control and Sustainability Committee is responsible for monitoring and controlling application of the Code. The Compliance Unit, which has sufficient initiative, autonomy and resources, is responsible, among other duties, for assisting the Audit, Control and Sustainability Committee in the supervision of compliance, publication and interpretation of the Code of Conduct.

Ebro Foods, through its Secretary, has an e-mail address to which any Group employee may send queries and suggestions regarding the interpretation of the Code of Conduct.

The Audit, Control and Sustainability Committee reports regularly to the Group's Board of Directors on any queries raised in respect of the interpretation and application of the Code of Conduct, how they have been solved and, where appropriate, the interpretation criteria followed.

The Code of Conduct provides that any violation or breach of the Code that is classified as a labour offence shall be penalised according to the labour laws, without prejudice to any other liability that the infringer may incur and the remedial measures that may be established by the different Group companies in pursuance of prevailing laws. On a Group level, the Audit, Control and Sustainability Committee, assisted by the Compliance Unit, shall receive reports of any violation of the Code of Conduct and act accordingly.

- Whistleblowing channel, through which the audit committee can be informed of any financial or accounting irregularities, any breaches of the code of conduct and any irregular activities within the organisation, indicating whether this channel is confidential and whether it allows anonymous communications respecting the rights of the reporting person and the person concerned:

As established in the Regulations of the Board, the Audit, Control and Sustainability Committee is formally responsible for implementing a confidential whistleblowing channel accessible to all Group employees and defining a protocol for prioritising, processing, investigating and settling reports according to their importance and nature, especially any concerning possible financial or accounting misrepresentations.

For this purpose, in its Code of Conduct the Ebro Group has established a whistleblowing channel, through which any irregular conduct in financial, accounting or other areas and any breach of the code of conduct can be reported confidentially.

Through that whistleblowing channel, therefore, any employees may report whatever conduct they may consider necessary and contact the Chairman of the Audit, Control and Sustainability Committee directly to inform on potential breaches. Access to that e-mail account, technologically protected to prevent any unauthorised access, is limited exclusively to the Chairman of the Audit, Control and Sustainability Committee who, as an Independent Director, has no relationship with the management structure of the Group.

The Audit, Control and Sustainability Committee guarantees the confidentiality of the reports handled, according to a confidentiality commitment signed by all those involved in handling the reports, and other precautions included in the "Report Handling Protocol". That protocol, approved by the Audit, Control and Sustainability Committee in 2012, establishes the procedure to be followed on receiving reports, regarding their processing, prioritising, solving and notification.

The whistleblowing channel guarantees confidentiality and is accessible to all Group employees but does not expressly establish (nor does it rule out) the possibility of making anonymous reports.

- Training programmes and regular refresher courses for employees involved in the preparation and checking of financial information and evaluation by the ICFR, covering at least accounting and auditing standards, internal control and risk management:

The Ebro Group has a policy of making sure it has personnel with sufficient training and experience to perform the duties and responsibilities assigned to them. The Ebro employees involved in the preparation and checking of the financial information and ICFR appraisal participate in training and refresher courses regarding the laws and standards in place from time to time and good practices to guarantee the reliability of the financial information generated.

The Ebro Group also encourages and provides means and resources for its employees to keep their accounting knowledge up to date through the attendance of seminars, on-line information and other means, and regular meetings are held with the external auditors to assess in advance the standards in place or those about to enter into force.

During the year the Ebro Group has focused its training for personnel involved in the preparation and checking of financial information and in the ICFR appraisal on the following aspects:

- Accounting updates
- Management and control of costs for business decision-making
- Training in the tax laws in different countries
- Financial Reporting Internal Control System Manual

In addition, the external auditors of the Company and its Group regularly attend the meetings of the Audit, Control and Sustainability Committee to give training on the principal novelties in accounting and auditing, especially those that have or may have a greater effect on the Group's accounts.

F.3. Measurement of risks in financial reporting

Report at least on:

F.3.1 The main features of the risk identification process, including risks of error or fraud, in respect of:

- Whether the process exists and is documented:

Within the risk management and control policy approved by the Board, the financial reporting internal control system is supervised by the Audit, Control and Sustainability Committee, assisted by the Risks Committee and the Group Finance Department.

The potential risk events that could affect the organisation are identified and assessed through the financial reporting internal control system, pinpointing and assessing the risks corresponding to each line of business. Through this risk control and management system, the Ebro Group has drawn up a consolidated risk map by compiling and combining the risk maps of its major subsidiaries.

This process is coordinated by the Risks Committee, which manages and establishes the permitted tolerance to the risk and coordinates actions to align the measures addressing risks with the Group's global risk policy so that the exposure to risk assumed by the Ebro Group overall is known at all times.

Based on the results obtained, systems are devised for addressing risks and internal control, to keep the likelihood and impact of those risks on financial reporting within the tolerance levels, thereby providing reasonable certainty regarding achievement of the strategic business goals.

- Whether the process covers all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations), whether it is updated and how often:

The Ebro Group has established a continuous improvement process to minimise the risks related with financial reporting by improving the design and effectiveness of existing controls.

For this purpose, it has a process identifying the risks affecting the reliability of financial reporting, based on and beginning with a definition of the scope, according to quantitative criteria of materiality in respect of the consolidated amounts and other qualitative criteria (error, fraud, uncommon transactions, etc.). Companies in the major business units or divisions that meet any of the afore-mentioned criteria and the material accounting items of each one are defined according to those criteria.

Once the material items have been defined on a company level, the processes and sub-processes they affect are established, according to a relationship matrix.

For each of the sub-processes included within the scope, the inherent risks and the checks made by the responsible persons to mitigate those risks are identified, setting this information down in a Risks-Controls Matrix. Those risks take account of all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations).

The financial reporting risks are identified in the Ebro Group's Risks-Controls Matrix and updated to take account of any changes in the scope of consolidation of the Group or development of its business and their reflection in the financial statements, making a comparative analysis every year of the variations in material processes and sub-processes to establish any risks that have not been previously identified.

- The existence of a process for defining the scope of consolidation, taking into account, among other aspects, the possible existence of complex corporate structures, base companies or special purpose vehicles:

The Ebro Group has a process based on internal regulations that guarantees the correct identification of the scope of consolidation through an adequate separation of duties in the requesting, authorising, reporting and recording of any operation entailing the incorporation, merger, division, acquisition or sale of companies and any other corporate operation, directly involving the Legal Department and the Board of Directors.

This process considers the possible existence of complex corporate structures, base companies or special purpose vehicles, among other means by establishing an adequate structure to separate the duties of requesting, authorising and reporting for any corporate operation within the Group. No transactions or complex corporate structures that might entail off-balance sheet transactions that should be recorded within the reporting period were identified this year.

- Whether the process takes into account the effects of other types of risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) insofar as they affect the financial statements:

The Risk Management and Control System of the Ebro Group is designed to identify potential risk events that might affect the organisation. At present there are four types of risks: Operating, Compliance, Strategic and Financial, and the conclusions are taken into account insofar as the risks may affect financial reporting.

For this purpose, the Risks Committee acts as a unit of coordination and interrelation of the effect of the risks detected on the different areas (management, business, financial reporting, legal, reputational etc. risks).

- Which governing body of the company supervises the process:

While the Board has the power, which it may not delegate, to determine the policy for control and management of risks, including tax risks, and supervision of the internal control and reporting systems, the Audit, Control and Sustainability Committee is responsible for supervising and promoting the procedures and systems used to prepare and control the Company and Group financial reporting, and controlling the implementation of and compliance with the risk management and control systems, both in general and in respect of the financial reporting process.

F.4. Control activities

Inform whether the company has at least the following, describing their main features:

- F.4.1 Procedures for checking and authorising financial information to be published on the stock markets and description of the ICFR, indicating who is responsible for these tasks, and documentation describing the flows of activities and controls (including those checking for the risk of fraud) in the different types of transactions that may have a material effect on the financial statements, including the procedure for closing of accounts and the specific review of judgements, estimates, valuations and significant projections

The priorities established within the Ebro Group include the quality and reliability of the financial information, both internal information for decision-making and external information published for the markets. The information to be provided by the different units is requested by the Group financial department, paying special attention to the processes of closing the accounts, consolidation, measurement of intangibles and areas subject to judgement and estimates.

The Ebro Group has procedures for checking and authorising the financial information and description of the ICFR, responsibility for which corresponds to the Financial Department, the Risks Committee, the Audit, Control and Sustainability Committee and the Board of Directors.

The Audit, Control and Sustainability Committee checks and analyses the financial statements and any other important financial information, as well as the principal judgements, estimates and projections included and discusses them with the Economic and Financial Area of the Group and the internal and external auditors to confirm that the information is complete and the principles applied are consistent with those of the previous full-year accounts.

The procedure for checking and authorising the financial information corresponds to the Group financial department, based on the information checked and validated by the different units. The Audit, Control and Sustainability Committee supervises this information to be published on the market and it is approved by the Board of Directors.

The Group has implemented a process to enhance the quality and quantity of documentation and make the generation of financial information and its subsequent supervision more effective and efficient.

The significant processes involved in the generation of the Group financial reporting are documented based on the COSO internal control model. The main processes documented are:

- Closing of Financial Statements and Reporting

- Consolidation
- Sales and Receivables
- Purchases and Payables
- Fixed Assets
- Inventories

The documentation outline is extended progressively, according to the materiality and the general criteria established in the Group's financial reporting internal control system.

The persons responsible for each of the documented processes in each subsidiary have been identified. They are responsible for keeping those processes up to date on an annual basis, reporting any modifications or adaptations to the Risks Committee through the Group's financial department.

Process documentation includes details of the flows and transactions and the financial reporting objectives and controls established to ensure they are met. It also contemplates the risks of error and/or fraud that might affect the financial reporting objectives. The documentation of flows of activities and controls that may have a material effect on the financial statements, including the accounts closing procedure, includes the preparation of narratives on the processes, flow charts and risk and control matrices. The controls identified are both preventive and detective, manual or automatic, describing also their frequency and associated information systems.

F.4.2 Internal control procedures and policies for the IT systems (including access security, track changes, operation, operating continuity and separation of duties) used for the significant processes of the company in the preparation and publication of financial information

The Group has rules for managing financial information security. Those rules are applicable to the systems used to generate financial information and the IT Department is responsible for defining and proposing the security policies.

Within its policies and infrastructure management the Ebro Group has procedures to secure each of the following:

i) Both physical and logical access are controlled to ensure that only authorised internal and external personnel can access the Ebro centres and systems. Ebro has several Data Centres, the main one in Spain where the company's critical systems are housed. The major subsidiaries also have local data centres. They all have their own infrastructure to guarantee adequate control of access to the installations. In small subsidiaries, the general rule is to have external service providers to provide that security. When external service providers are used, the Ebro Group makes internal audits of the information systems and their architecture, including the security aspect.

Logical access control is secured with: (i) efficient management of access to our systems, whether internal or external, and (ii) user management coordinated with the human resources department and the company's group of managers. Ebro has user access control systems and workflow tools to guarantee inter-departmental integration and efficient updating of user status, regularly identifying those who no longer access the systems.

Ebro Foods has implemented a system to control the separation of duties and access to critical functions of the SAP GRC SoD system in certain subsidiaries – currently in place in Riviana Foods Inc and Riviana Foods Canada Corporation and in progress in Herba Ricemills – and there is a plan to extend this implementation to the other major subsidiaries. Its implementation programme contemplates extension to all the major subsidiaries of the Ebro Foods Group.

To compile its non-financial information, Ebro has developed a tool that manages the information required to guarantee its integrity, and workflows for approval to guarantee its reliability. All the subsidiaries included in the SAP-based corporate ERP have implemented a procedure to separate duties within IT and the use of privileged users (Firefighter) subject to request, approval and control.

External access is guaranteed through specific users and controlled management. The necessary elements have also been provided on a network level to ensure that only authorised users and processes have access from outside.

ii) The larger subsidiaries mainly use the ERP SAP system. In all those cases, Ebro has procedures underpinned by systems that systematically filter, assess, manage the life cycle and inform on production changes after acceptance by specific users and impact analysis in the systems currently used in production.

iii) The separation of duties is underpinned by the use of roles by groups of users, which allow access only to the information and transactions previously approved by the organisation. The modification or creation of new roles is backed by the same procedure that guarantees management of the user life cycle and is applicable to the major companies of the Ebro Group. Special attention is paid to separation in IT support processes to make sure that the tasks of development, sending to production and administration of the system are duly separated. In addition, as mentioned above, Ebro Foods has implemented the SAP GRC SoD system throughout the Group for the IT Department and is in the process of rolling it out in all subsidiaries. This is designed to ensure adequate access control, separation of duties, anti-fraud elements within ERP and mitigating measures where necessary.

iv) Ebro has internal tools which, combined with the user support departments and systems (Help Desks), guarantee the management and traceability of any incidents in the IT systems. Programme changes are managed within that system, which is based on best practices and management following the ITIL methods.

The critical information systems are always housed in our data centres and there are individuals assigned to each one who are responsible for proactive monitoring of the automatic processes and proactive assessment of the yield and functioning of the systems.

Ebro has global contracts with security control tool providers, which guarantee the installation of such tools in all the computer and data processing equipment used in the company.

v) Ebro Foods has a cybersecurity policy based on several fundamental pillars for the security of our systems. This includes endpoint security, of both users and servers, identity security (especially important in view of the increasingly more common cloud migration strategies), perimeter security for access to our network and data security.

Ebro Foods uses the leading tools available on the market and procedures based on best practices to minimise the risk in each of these areas, and it has continued implementing new tools and utilities to monitor unauthorised access through cloud profiles.

The Group continues working on perimeter security, especially in respect of its most important plants. Processes have been defined and advanced security systems have been implemented. They have been implemented in subsidiaries in the USA, Canada, India and part of Spain and will be extended to the other major subsidiaries of the Ebro Group during 2023.

vi) Ebro has tools to guarantee the continuity of business support by its IT systems in the event of a fatal error or system crash. There are backup systems and policies in its data centres that guarantee access to information and systems in case of a crash. The use of tape or disk backups and replicating the information in several computers with subsequent triangular distribution are habitual procedures for making incremental or complete backup copies. The current systems allow recovery of the information up to the specific time of the fatal error or system crash.

F.4.3 Internal control procedures and policies to oversee the management of outsourced activities and any aspects of valuation, calculation or measurement commissioned to independent experts, which may have a material impact on the financial statements

In general, the Ebro Group manages all activities that may have a material impact on the reliability of the financial statements, using internal resources to avoid outsourcing.

There are very few outsourced activities and the procedures and controls of those activities are regulated in the contracts signed with the service providers in question.

The valuation, calculation or measurement activities commissioned by the Ebro Group to independent experts are mainly concerned with the appraisal of properties, actuarial studies of employee benefits and impairment testing of intangibles.

Only service providers of internationally recognised standing are used for these valuation reports, making sure that they are not affected by any circumstance or event that could compromise their independence.

The reports obtained from these firms are submitted to internal review to check that the most significant assumptions and hypotheses used are correct and that they comply with the International Valuation Standards (IVS) and International Financial Reporting Standards (IFRS). Furthermore, the valuation processes and the hypotheses and assumptions used by independent experts are reported to and considered by the external auditors of the Company and its Group.

F.5. Information and communication

Inform whether the company has at least the following, describing their main features:

F.5.1 A specific department responsible for defining the accounting policies and keeping them up to date (accounting policy department or division) and solving queries or conflicts deriving from their interpretation, maintaining fluent communication with those responsible for operations in the organisation, as well as an updated accounting policy manual distributed among the units through which the company operates

The Ebro Group has adequate procedures and mechanisms to inform the employees involved in the preparation of financial information on the applicable criteria and the IT systems used in that preparation. This is done through the Management Control Unit and the Corporate Financial Department, whose powers include the following, among others:

- Define, administer, update and report on the Group's accounting policies, in compliance with the applicable accounting standards and rules of consolidation for the preparation and presentation of financial information to be disclosed.
- Prepare, update and report on the Accounting Policy Manual to be applied by all financial units in the Group. This manual is updated regularly.
- Settle any queries or conflicts regarding the interpretation and application of the accounting policies, maintaining fluent communication with those responsible for these operations in the organisation.
- Define and create templates, formats and criteria to be used for preparing and reporting the financial information. All financial information distributed on the markets is prepared by consolidating the reports of the different business units, prepared using mechanisms for data input, preparation and presentation that are homogenous for the entire Group. These mechanisms are designed to enable compliance with the standards applicable to the principal financial statements, including accounting criteria, valuation rules and presentation formats, and embrace not only the balance sheet, profit and loss account, statement of changes in equity and statement of cash flows, but also the obtaining of other information that is necessary to prepare the notes to the financial statements.

F.5.2 Mechanisms for collecting and preparing financial information with homogenous formats, applied and used by all business units in the company or group, valid for the main financial statements and notes, and the information given on the ICFR

The Group's financial information is prepared using a process of aggregating separate financial statements at source for subsequent consolidation according to the applicable accounting and consolidation standards, to obtain the consolidated financial information to be presented monthly to the Board and published periodically on the markets.

The process of aggregation and consolidation of the Group's financial statements is based on homogenous, common format templates that include different tables and reports to be completed. They also have automatic internal controls to check the integrity and reasonability of the data input.

These templates are validated each month by a financial manager in each subsidiary before sending them for checking and consolidation. To complete the automatic checks, those data and the estimation, valuation and calculation principles used to obtain them, as well as the accounts closing procedure, are checked by the financial manager at each level of aggregation and consolidation until the Ebro Group consolidated financial information is obtained, prepared and checked by the corporate financial department.

The Ebro Group has established a reporting system for the Financial Reporting Internal Control System, which is available in the Group for all the subsidiaries included within the scope of the ICFR. Through that reporting, the parent coordinates maintenance of the system in the rest of the subsidiaries annually through the assignment of persons responsible for their maintenance and updating in the event of any significant change to be taken into consideration in the documentation. Finally, if any weaknesses are detected in the financial reporting internal control system, the subsidiaries are notified of the necessary action plans and they are monitored by the parent.

F.6. Supervision of the functioning of the system

Inform on at least the following, describing their main features:

F.6.1 The ICFR supervisory activities performed by the audit committee and whether the company has an internal audit department responsible, among its duties, for assisting the committee in its supervision of the internal control system, including the financial reporting internal control system (ICFR). Inform also on the scope of the ICFR appraisal made during the year and the procedure through which the department or body responsible for the appraisal informs on the outcome, whether the company has an action plan defining any possible corrective measures and whether their impact on the financial information has been considered

The Board of Directors is ultimately responsible for the existence, maintenance and supervision of an adequate, effective internal control system for the financial reporting. Among the duties defined in the Regulations of the Board, the Audit, Control and Sustainability Committee assists and supports the Board in its supervision of the accounting and financial information, the internal and external audit services and corporate governance.

The Audit, Control and Sustainability Committee, assisted by the Risks Committee, must see that the internal audit procedures, the internal control systems in general, including the risk management control system and, in particular, the financial reporting internal control system, are adequate.

The Audit, Control and Sustainability Committee also ensures that the external auditor and Internal Audit Manager are selected on the basis of objective, professional qualifications, guaranteeing their independence in the performance of their duties; reports to the board on any related party transactions submitted for its consideration; controls any possible conflicts of interest; and, in general, makes sure that all the company's information and reporting, particularly financial, complies with the principle of truth and maximum transparency for shareholders and markets.

The Risks Committee, as the central control system, monitors adequate fulfilment by the risk officers of the respective units of the following duties: (i) monitoring, updating and review of the business risks map and the different financial reporting processes; (ii) compliance with the reporting protocols for business risks and financial information; (iii) assessment of the measures for mitigating and controlling any risks detected, and (iv) assessment of the effectiveness of the systems and controls by implementing the test processes indicated by the Risks Committee, assisted by the heads of the different units and, where necessary, external advisers.

The Risks Committee, based on the policy established by the Board and supervised by and reporting to the Audit Committee, is specifically responsible for coordinating and monitoring the system for management and control of risks, including tax risks, and checking the Group's financial information.

Within the business risks control and the financial reporting internal control system, the Internal Audit Department makes sure that the testing and control of risk management and financial reporting systems have been done properly, within the internal audits carried out on different subsidiaries during the year, under the Internal Audit Plan.

The Internal Audit Department has submitted its annual working plan to the Audit, Control and Sustainability Committee and reported directly to said committee on any incidents detected in the performance of that work, proposing the corresponding action plan defining any necessary corrective measures; and at the end of each year, it has submitted an activity report.

The results of audits made by the Internal Audit Department and any incidents detected by the Risks Committee have been reported to the Audit, Control and Sustainability Committee. Moreover, the action plan devised for remedying those incidents has been sent to both the person responsible for remedying them and the Audit, Control and Sustainability Committee.

- F.6.2 Inform on whether the company has a discussion procedure whereby the auditor (according to the provisions of the auditing standards), the internal audit department and other experts can inform the senior management and audit committee or company directors of any significant weaknesses detected in internal control during the auditing or checking of the annual accounts or any other processes commissioned to them. Indicate also whether the company has an action plan to remedy or mitigate the weaknesses observed

The Audit, Control and Sustainability Committee has a stable, professional relationship with the external auditors of the principal companies in its group, strictly respecting their independence. That relationship favours communication and discussion of any internal control weaknesses pinpointed during the auditing of annual accounts or any other audit work commissioned to them.

In this regard, the Audit, Control and Sustainability Committee receives information from the external auditor at least every six months on the audit plan and outcome of its implementation, and checks that the senior management heeds the auditor's recommendations. In addition, as established in the Regulations of the Board, it is responsible for overseeing the Internal Audit Services, examining the financial reporting process and internal control systems.

Each year, when it has finished its audit work, the External Auditor provides the company with a letter of recommendations on internal control. In 2022, following the audit of the 2021 accounts, the External Auditor informed the Audit, Control and Sustainability Committee that they had not detected any significant weaknesses during their work. This notwithstanding, they submitted a few recommendations to reinforce internal control.

The External Auditor and the Manager of the Internal Audit Department attended 6 of the 7 meetings of the Audit, Control and Sustainability Committee held in 2022.

F.7. Other significant information

N/A

F.8. External auditor's report

Inform on:

- F.8.1 Whether the ICFR information sent to the markets was checked by the external auditor, in which case the company should include the corresponding report in an annex. If not, explain why not.

The ICFR report issued by the external auditor is appended hereto.

G. EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the degree of compliance by the company with the recommendations of the Good Governance Code for Listed Companies.

If any recommendation is not followed or is only partly followed, include a detailed explanation of the reasons so that shareholders, investors and the market in general have sufficient information to assess the company's actions. General explanations are not acceptable.

1. The articles of association of listed companies should not limit the maximum number of votes that may be cast by an individual shareholder or impose other restrictions hampering takeover of the company via the market acquisition of its shares.

Complies [X] Explanation []

2. When the listed company is controlled, in the sense of Article 42 of the Commercial Code, by another company, listed or otherwise, and conducts business, directly or through its subsidiaries, with that controlling company or any of its subsidiaries (other than those of the listed company) or engages in activities related with those of any of the latter, it should report publicly and precisely on:

a) The types of activity they are respectively engaged in and any business dealings between the listed company or its subsidiaries, on the one hand, and the parent company or its subsidiaries, on the other hand.

b) The mechanisms in place to solve any conflicts of interest that may arise.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

3. During the annual general meeting, to supplement the written distribution of the annual corporate governance report, the chairman of the board should inform the shareholders orally, in sufficient detail, of the most important aspects of the company's corporate governance, especially:

a) Any changes made since the previous annual general meeting.

b) The specific reasons why the company does not follow any of the recommendations of the Code of Corporate Governance and the alternative rules applied, if any.

Complies [X] Partial compliance [] Explanation []

4. The company should define and promote a policy concerning communication and contacts with shareholders and institutional investors, within the framework of their involvement in the company, and proxy advisors that fully respects the laws against market abuse and gives similar treatment to shareholders who are in the same position. And the company should publish that policy on its website, including information on how it has been implemented, naming the contacts or those responsible for such implementation.

Notwithstanding the legal obligations regarding the disclosure of inside information and other kinds of regulated information, the company should also have a general policy regarding the communication of non-financial economic and financial corporate information through channels considered adequate (media, social networks or other channels), contributing towards maximum disclosure and quality information to the market, investors and other stakeholders.

Complies [X] Partial compliance [] Explanation []

5. The board should not table a motion at the general meeting for delegating powers to issue shares or convertible securities excluding the preferential subscription right in a sum of more than 20% of the capital at the time of the delegation.

And when the board approves an issue of shares or convertible securities excluding the preferential subscription right, the company should immediately publish on its website the reports on that exclusion required by commercial law.

Complies [X] Partial compliance [] Explanation []

6. Listed companies that prepare the following reports, whether mandatory or voluntary, should publish them on their websites sufficiently in advance of the annual general meeting even though that publication is not compulsory:

- a) Report on the independence of the auditor
- b) Reports on the functioning of the audit committee and the nomination and remuneration committee
- c) Report by the audit committee on related party transactions

Complies [] Partial compliance [X] Explanation []

All the sections of this Recommendation are met, except (c).

The Audit, Control and Sustainability Committee checks that all the related party transactions with significant shareholders, directors, representatives of corporate directors and other related parties have been made on arm's length terms, at market prices, transparently, fairly and reasonably, and always in the interests of the Ebro Foods Group, and issues a report to the Board in favour of their approval.

However, after studying this Recommendation the Company does not consider it convenient to publish the contents of that report because it contains sensitive commercial information that is confidential for the Group in respect of its rivals.

It should be noted that none of the related party transactions that took place in 2022 (or any of those made in 2023 up to the date of writing this report) meet the conditions for requiring publication stipulated in section 529 univics of the Corporate Enterprises Act.

7. The company should broadcast general meetings live, through its website.

And the company should have mechanisms to enable online proxies and voting and even, in large cap companies and insofar as is proportionate, online attendance and active participation in the general meeting.

Complies [X] Partial compliance [] Explanation []

8. The audit committee should make sure that the annual accounts presented by the board of directors to the general meeting are drawn up in accordance with the applicable accounting standards. And if the auditors have submitted a qualified report, the chairman of the audit committee should explain clearly at the general meeting the opinion of the audit committee on the content and scope of the qualifications included, making a summary of that opinion available to shareholders, together with the other motions and reports by the board, when the notice of call to the general meeting is published.

Complies [X] Partial compliance [] Explanation []

9. The company should publish permanently on its website the requirements and procedures it will accept as proof of ownership of shares, right to attend the general meeting and exercise or delegation of shareholders' voting right.

And those requirements and procedures should favour the attendance and exercise by shareholders of their rights, not being in any way discriminatory.

Complies [X] Partial compliance [] Explanation []

10. If a legitimate shareholder has exercised their right, prior to the general meeting, to supplement the agenda or submit new proposed resolutions, the company should:

- a) Immediately distribute those supplementary items and new proposed resolutions.
- b) Publish the model attendance card or proxy form or postal/electronic voting form with the necessary modifications to enable voting on the new items on the agenda and alternative proposed resolutions on the same terms as those proposed by the board of directors.
- c) Put all these items or alternative proposals to the vote and apply the same voting rules as those applicable to the proposals by the board, including in particular the presumptions or deductions regarding votes.
- d) After the general meeting, report the details of the voting on those supplementary items or alternative proposals.

Complies [] Partial compliance [] Explanation [] Not applicable []

11. If the company plans to pay attendance fees for general meetings, it should establish in advance a general policy on those fees and that policy should be stable.

Complies [] Partial compliance [] Explanation [] Not applicable []

The company has a Policy on Attendance Fees for General Meetings, which establishes the principle that may not be delivered in the form of cash, but will consist of a gift related with the products and/or brands of the Ebro Foods Group.

12. The board should perform its duties with unity of purpose and independence of judgement, give the same treatment to all shareholders in the same position and be guided by the company's interests, namely the achievement of a profitable business sustainable in the long term, promote its continuity and maximise the economic value of the company.

And in its search for the company's interests, apart from respecting the laws and regulations and acting in good faith, ethically and with respect for generally accepted use and good practice, it should endeavour to reconcile the corporate interests with the legitimate interests of its employees, suppliers, customers and other stakeholders that may be affected, as the case may be, and the impact of the company's activities on the community and environment.

Complies [] Partial compliance [] Explanation []

13. The board should have the necessary size to operate effectively, with participation. The recommended size is between five and fifteen members.

Complies [] Explanation []

14. The board should approve a policy designed to favour an appropriate composition of the board that:

- a) Is specific and verifiable;
- b) Ensures that nominations for appointment or re-election are based on a prior analysis of the expertise required by the board; and
- c) Favours the diversity of expertise, experience, age and gender. For this purpose, any measures designed to ensure that the company has a significant number of female executives are considered to favour gender diversity.

The results of the prior analysis of expertise required by the board should be set out in the report by the nomination committee published when calling the general meeting at which the ratification, appointment or re-election of each director is proposed.

The nomination committee shall check compliance with this policy annually and inform on its conclusions in the annual corporate governance report.

Complies [] Partial compliance [X] Explanation []

All the sections of this Recommendation are met, except the last paragraph of (c).

The company has not considered it necessary to pass a specific policy to stimulate the presence of female executives to comply with the principles behind this Recommendation.

The Code of Conduct of the Ebro Foods Group guarantees the principle of equal treatment and equal opportunities for all professionals, regardless of their gender or sexual orientation, and this principle is applied by the company in its processes of selection, hiring, promotion and career opportunities of all its professionals, regardless of whether they are men or women.

As indicated in section C.1.6 above, there is no positive or negative discrimination of any nature in the procedures followed by the company for selecting and contracting its executive personnel, so it is not necessary to introduce any new measures to encourage the hiring of women for executive positions.

See section C.1.6 also for the definition of "Executive" used by the company.

15. The proprietary and independent directors should represent an ample majority of the board and the number of executive directors should be the minimum necessary, taking account of the complexity of the corporate group and the percentage stake held by the executive directors in the company's capital.

And the number of female directors should represent at least 40% of the board member by the end of 2022 and before that, no less than 30%.

Complies [X] Partial compliance [] Explanation []

16. The ratio of proprietary directors to total non-executive directors should not be greater than the ratio of capital represented by those directors to the rest of the capital.

This may be eased:

- a) In companies with a high capitalisation, in which shareholdings legally considered significant are scarce.
- b) In companies with a plurality of unrelated shareholders represented on the board.

Complies [] Explanation [X]

Although proprietary directors represent a higher percentage (66.67%) of the total non-executive directors than the proportion of the company's capital represented by those directors in the total capital (57.87%), it should be borne in mind that: (i) the significant shareholders represented on the Board are unrelated; (ii) 68.38% of the capital is represented on the Board; and (iii) 71.54% of the company's capital is held by stable or strategic shareholders.

The company believes it should also be taken into account that although the director Heralianz Investing Group, S.L. is a significant shareholder, it is classified as an executive director because its representative on the Board of Directors of Ebro is an executive and director of several subsidiaries in the Ebro Group.

The company has assessed the monitoring of this Recommendation and considers that the composition of the Board combines the principles of necessary size, balance and ample majority of non-executive directors recommended by the Code of Good Governance.

17. The number of independent directors should represent at least one-half of the total directors.

This notwithstanding, if the company does not have a large capitalisation or if it has a high level of capitalisation but has one shareholder, or several acting in concert, that controls more than 30% of the capital, the number of independent directors should represent at least one-third of the total directors.

Complies [] Explanation [X]

The number of independent directors (4) is somewhat lower than one-third (4.6) of the total Board members (14) recommended for companies which, like Ebro Foods, S.A., are not high-cap.

It should be borne in mind in this regard that 68.38% of the capital is represented on the Board.

18. Companies should publish on their websites and keep up to date the following information on their directors:

- a) Professional and biographic profile
- b) Other directorships held, in listed or unlisted companies, and other remunerated activities performed, of whatsoever nature
- c) Indication of the category of director, indicating for proprietary directors the shareholder they represent or with which they are related
- d) Date of first appointment as director of the company and subsequent re-elections
- e) Shares and stock options held in the company

Complies [] Partial compliance [X] Explanation []

All the sections of this Recommendation are met, except (b).

Although there is no specific section on the corporate website containing the information contemplated in paragraph (b), information on the positions, remunerated or otherwise, held by the directors of Ebro Foods, S.A. and the representatives of corporate directors on the boards of other companies, listed or otherwise, and any other remunerated activities they may perform, is included in the corporate governance report each year, which is published permanently in the corresponding section of the corporate website.

After studying this Recommendation, the Company considers that it informs on the positions held by the directors of Ebro Foods, S.A. and the representatives of corporate directors on the boards of other companies, listed or otherwise, and in companies engaged in similar or identical activities as Ebro Foods, S.A., as well as on any other remunerated activities they may perform, remunerated or otherwise, in sufficient detail to comply with the transparency in reporting sought by the Code of Good Governance.

19. Once checked by the nomination committee, the annual corporate governance report should include an explanation of the reasons why proprietary directors have been appointed at the request of shareholders with an interest of less than 3% in the capital, as well as the reasons, if appropriate, for not meeting formal requests for presence on the board from shareholders with an interest equal or greater than others at whose request proprietary directors have been appointed.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

20. Proprietary directors should resign when the shareholder they represent disposes of its entire shareholding in the company. They should also resign in the corresponding number when the shareholder disposes of part of its shares to an extent requiring a reduction in the number of proprietary directors.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

21. The board should not propose the removal of any independent director before the end of the period for which they were appointed, unless there are just grounds for doing so, as appreciated by the board subject to a report by the nomination committee. In particular, just grounds are deemed to exist when the director takes up new positions or contracts new obligations preventing them from dedicating the necessary time to performance of their duties on the board, or if they breach their duties or any circumstances arise by virtue of which they would no longer be considered independent, according to the applicable legal provisions.

The removal of independent directors may also be proposed following takeover bids, mergers or other similar corporate operations entailing a change in the ownership structure of the company, when changes in the structure of the board are required by the principle of proportionality contemplated in Recommendation 16.

Complies [X] Explanation []

22. Companies should establish rules obliging directors to report and, if necessary, resign if any situation arises, related or not with their actions within the company, that could jeopardise the company's prestige and reputation. In particular, directors should be obliged to inform the board of any criminal proceedings brought against them and the development of the proceedings.

If the board has been informed or has otherwise become aware of any of the situations contemplated in the preceding paragraph, it should study the case as soon as possible and, in view of the specific circumstances and the corresponding report by the nomination and remuneration committee, decide whether any action should be taken, such as opening an internal investigation, requesting the director to resign or proposing their removal. An account of this situation should be included in the Annual Corporate Governance Report, unless special circumstances justify not doing so, in which case they should be put on record. This is notwithstanding the information that the company is obliged to disclose, if appropriate, when adopting the corresponding measures or actions.

Complies Partial compliance Explanation

23. All the directors should clearly express their opposition whenever they consider that any proposed decision submitted to the board may go against corporate interests. The independent and other directors not affected by the potential conflict of interest should also do so when the decisions may be detrimental to shareholders not represented on the board.

And when the board adopts significant or reiterated decisions about which a director has expressed serious reservations, the latter should reach the appropriate conclusions and, if they opt to resign, explain the reasons in the letter contemplated in the following recommendation.

This recommendation also affects the secretary of the board, even if they are not a director.

Complies Partial compliance Explanation Not applicable

24. If a director retires from office before the end of their term, through resignation or by virtue of a resolution adopted by the General Meeting, they shall explain the reasons for their resignation or, in the case of non-executive directors, their opinion on the grounds for their removal by the General Meeting, in a letter sent out to all the Board members.

Even if the Annual Corporate Governance Report contains the appropriate information on the foregoing, to the extent that it is important for investors, the company should publish news of the director's retirement as soon as possible, including a sufficient account of the reasons or circumstances indicated by the director.

Complies Partial compliance Explanation Not applicable

25. The nomination committee should make sure that non-executive directors have sufficiently availability to perform their duties correctly.

And the regulations of the board should stipulate the maximum number of directorships that may be held by its directors.

Complies Partial compliance Explanation

Although the Regulations of the Board do not stipulate a maximum number of directorships that may be held by the Directors of Ebro Foods, S.A., it does impose on the Directors the obligation to dedicate to the Company such attention and time as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the company (Article 32 of the Regulations of the Board, "General duties of Directors").

Moreover, the Policy for Selection of Directors and Diversity in the Composition of the Board of Directors stipulates within "Conditions to be met by candidates" that candidates must have sufficient availability to be able to duly perform their duties. This point is confirmed by the Committee with the candidates before submitting any proposal to the Board of Directors.

After studying this Recommendation, the Company considers that the principles pursued by the Code of Good Governance in this respect are met with the obligation regarding dedication imposed in Article 32 of the Regulations of the Board and the Policy for Selection of Directors and Diversity in the Composition of the Board of Directors. It considers this a complex issue and believes that it is not necessary to establish a maximum number of directorships that may be held by the Directors in order to achieve this.

26. The board should meet as often as may be necessary to secure efficient performance of its duties, and at least eight times a year, following the calendar and business established at the beginning of the year, although any director may individually propose additional items to be included on the agenda.

Complies Partial compliance Explanation

27. Non-attendance of board meetings should be limited to inevitable cases and stated in the Annual Corporate Governance Report. If a director is forced to miss a board meeting, a proxy should be granted with the appropriate instructions.

Complies Partial compliance Explanation

28. When the directors or the secretary express concern over a proposal, or, in the case of directors, the company's performance, and those concerns are not settled by the board, they should be put on record in the minutes, at the request of those expressing them.

Complies Partial compliance Explanation Not applicable

29. The company should establish adequate channels for directors to obtain any counselling they may need to perform their duties, including, should circumstances so require, external counselling at the company's expense.

Complies Partial compliance Explanation

30. Regardless of the expertise required of directors to perform their duties, companies should also offer their directors refresher courses in the appropriate circumstances.

Complies Explanation Not applicable

31. The agenda for meetings should clearly indicate the items on which the board is called upon to adopt a decision or resolution, so that the directors can study or obtain in advance the information they may need.

In exceptional cases, for reasons of urgency, the chairman may submit decisions or resolutions not included on the agenda for approval by the board. The prior, express consent of most of the directors present will be necessary for this, leaving due record in the minutes.

Complies Partial compliance Explanation

32. Directors shall be regularly informed on any changes in the ownership of the company and the opinion held by the significant shareholders, investors and ratings agencies of the company and its group.

Complies Partial compliance Explanation

33. Being responsible for the efficient procedure of the board of directors, apart from performing the duties assigned by law and in the articles of association, the chairman should prepare and submit to the board a schedule of dates and business to be

transacted; organise and coordinate the periodical assessment of the board and chief executive, if any, of the company; be responsible for managing the board and for its efficient operation; make sure sufficient time is allotted to the discussion of strategic issues; and resolve and review refresher programmes for each director whenever circumstances so require.

Complies [X] Partial compliance [] Explanation []

34. When there is a lead independent director, the articles of association or regulations of the board should assign the following powers, apart from those corresponding to them by law: preside over board meetings in the absence of the chairman and vice-chairmen, if any; echo the concerns of non-executive directors; hold contacts with investors and shareholders to find out their points of view and form an opinion on their concerns, particularly regarding the corporate governance of the company; and coordinate the plan for succession of the chairman.

Complies [] Partial compliance [] Explanation [X] Not applicable []

Although the Articles of Association and Regulations of the Board do not expressly assign to the Lead Independent Director the powers contemplated in this Recommendation, said Director is entirely free to exercise them.

The Articles of Association and Regulations of the Board do not establish any limit on the exercise of those powers by the Lead Independent Director or any other Director.

After studying this Recommendation, the Company considers that the fact that any Director, not only the Lead Independent Director, may exercise the powers contemplated in this Recommendation, together with the ample majority on Non-Executive Directors on the Board of Directors, this is sufficient to counteract any concentration of powers in the Executive Chairman, which is the aim pursued by the Code of Good Governance.

35. The secretary of the board should especially ensure that the actions and decisions of the board follow the recommendations on good governance contained in the Code of Good Governance that are applicable to the company.

Complies [X] Explanation []

36. The full board should assess once a year and, where necessary, adopt an action plan to correct any deficiencies detected in respect of:

- a) The quality and effectiveness of the board's actions.
- b) The procedure and composition of its committees.
- c) Diversity in the composition and powers of the board.
- d) The performance by the chairman of the board and chief executive officer of their respective duties.
- e) The performance and contribution of each director, paying special attention to the heads of the different board committees.

The different committees should be assessed based on the reports they submit to the Board and the Board will be assessed on the basis of the report it submits to the nomination committee.

Every three years, the board will be assisted in this assessment by an external consultant, whose independence shall be checked by the nomination committee.

The business relations that the consultant or any company in its group has with the company or any company in its group should be described in the Annual Corporate Governance Report.

The process and areas assessed should also be described in the Annual Corporate Governance Report.

Complies [X] Partial compliance [] Explanation []

37. When there is an executive committee, there should be at least two non-executive directors among the members, at least one of them being an independent director, and the secretary should be the secretary of the board.
- Complies [X] Partial compliance [] Explanation [] Not applicable []
38. The board should be informed at all times of the business transacted and decisions made by the executive committee and all board members should receive a copy of the minutes of executive committee meetings.
- Complies [X] Partial compliance [] Explanation [] Not applicable []
39. All the members of the audit committee, especially its chairman, should be appointed on account of their expertise and experience in accounting, auditing or the management of both financial and non-financial risks.
- Complies [X] Partial compliance [] Explanation []
40. Under the supervision of the audit committee, there should be an internal audit unit to see that the internal control and reporting systems work properly. This unit should report to the non-executive chairman of the board or the chairman of the audit committee.
- Complies [X] Partial compliance [] Explanation []
41. The head of the internal audit unit should submit its annual work programme to the audit committee for approval by that committee or the board, report directly on its implementation, mentioning any incidents or limitations on its scope encountered during its fulfilment, the results achieved and the extent to which its recommendations have been heeded, and submit to the committee an activity report at the end of each year.
- Complies [X] Partial compliance [] Explanation [] Not applicable []
42. The audit committee should have the following duties, in addition to those contemplated in law:
1. In connection with the internal control and reporting systems:
 - a) Supervise and assess the preparation and integrity of the financial and non-financial reporting, control systems and management of financial and non-financial risks to which the company and, if appropriate, the group may be exposed - including operational, technological, legal, social, environmental, political and reputational risks or those related with corruption-, checking compliance with the legal requirements, adequate definition of the scope of consolidation and correct application of accounting principles.
 - b) Oversee the independence of the internal audit unit; propose the selection, appointment and removal of the internal audit manager; propose the budget for this unit; approve or propose approval to the board of its approach and the annual internal audit work plans, making sure its activity focuses mainly on the material risks of the company (including reputational risks); receive regular information on its activities; and check that the top management heeds the conclusions and recommendations set out in its reports.
 - c) Establish and supervise a mechanism through which employees, and other persons related with the company, such as directors, shareholders, suppliers, contractors or subcontractors, can report any potentially important irregularities (financial, accounting or of whatsoever nature) related with the company that they may observe within the company or its group. That mechanism should guarantee confidentiality and, in all cases, contemplate the possibility of making such communications anonymously, respecting the rights of both the reporting person and the person concerned.

d) Ensure in general that the internal control policies and systems are applied effectively in practice.

2. In connection with the external auditors:

a) Investigate the circumstances giving rise to resignation of any external auditor.

b) Ensure that the remuneration of the external auditors for their work does not jeopardise their quality or independence.

c) See that the company reports the change of auditor through the CNMV, attaching a declaration on the possible existence of disagreements with the outgoing auditor and the contents of those disagreements, if any.

d) Make sure that the external auditors hold an annual meeting with the full board to inform on the work done and the evolution of the company's risks and accounting situation.

e) Ensure that the company and external auditors respect the provisions in place on the provision of non-audit services, limits on the concentration of the auditor's business and, in general, any other provisions regarding the independence of auditors.

Complies [] Partial compliance [X] Explanation []

The Company complies with all of this Recommendation except for the provision on anonymous reports indicated in paragraph 1(c) and 2(d).

Although the Code of Conduct of the Ebro Group and the Protocol regulating the procedure for the whistleblowing channel approved by the Audit, Control and Sustainability Committee do not contemplate the events in which the reports may be made anonymously, they do not rule out that possibility.

43. The audit committee may call any employee or executive of the company into its meetings, even ordering their appearance without the presence of any other senior officer.

Complies [X] Partial compliance [] Explanation []

44. The audit committee should be informed on any corporate and structural operations that the company plans to make, so that it can analyse them and submit a preliminary report to the board on the economic terms and impact on accounts, and particularly on the exchange ratio proposed, if any.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

45. The risk management and control policy should identify or determine at least:

a) The different types of financial and non-financial risk (including operational, technological, legal, social, environmental, political and reputational, including those related with corruption) to which the company is exposed, including contingent liabilities and other off-balance-sheet risks among the financial or economic risks.

b) A risk management and control model based on different levels, including a committee specialising in risks whenever this is contemplated in the sector regulation and the company deems fit.

c) The risk level that the company considers acceptable.

d) The measures contemplated to mitigate the impact of the risks identified, should they materialise.

e) The internal control and reporting systems to be used to control and manage those risks, including contingent liabilities and other off-balance-sheet risks.

Complies [] Partial compliance [X] Explanation []

The Company complies with all of this Recommendation except the inclusion in its risk management and control policy of risks related with corruption,

contemplated in paragraph (a).

The Company has a specific policy dealing with corruption (Policy against Corruption and Bribery), which sets out and specifically and verifiably develops the principles, values and rules of action established in the Code of Conduct and implemented within the Ebro Group to fight against corruption and fraud.

This Policy provides guidelines to be followed in respect of: (i) bribery, illegal commissions, influence peddling and money laundering; (ii) acceptance and offering of gifts and courtesies; (iii) dealings with authorities, regulatory bodies and governments; and (iv) social action and/or sponsorship activities. The Policy also contains an illustrative indication of the conduct that is prohibited in these areas.

The Policy applies to all the Professionals of both Ebro Foods and the subsidiaries of the Ebro Group in all the countries in which the Group operates.

The Company considers that it complies with the principles behind this Recommendation, since the risks related with corruption and bribery: (i) form part of the corporate risk map and (ii) are analysed by the Risks Committee.

46. Under the direct supervision of the audit committee or, as the case may be, an ad hoc committee of the board, there should be an internal risk management and control role exercised by an internal unit or department of the company expressly having the following duties:

- a) See that the risk management and control systems work properly and, in particular, that all the major risks affecting the company are adequately identified, managed and quantified.
- b) Participate actively in the preparation of the risk strategy and in the major decisions on their management.
- c) See that the risk management and control systems adequately mitigate the risks within the policy defined by the board.

Complies [X] Partial compliance [] Explanation []

47. Companies should ensure that the members of the nomination and remuneration committee -or the nomination committee and the remuneration committee, if they are separate- have adequate experience, skills and expertise for the duties they are to perform and that the majority of those members are independent directors

Complies [X] Partial compliance [] Explanation []

48. Companies with a high level of capitalisation should have a separate nomination committee and remuneration committee.

Complies [] Explanation [] Not applicable [X]

49. The nomination committee should consult the chairman of the board and the chief executive of the company, especially on matters referring to the executive directors.

And any director should be able to request the nomination committee to consider potential candidates to fill vacancies on the board, in case they were suitable in the committee's opinion.

Complies [X] Partial compliance [] Explanation []

50. The remuneration committee should perform its duties independently, having the following duties in addition to those assigned to it by law:

- a) Propose to the board the basic terms of contract of the senior executives
- b) See that the remuneration policy established by the company is observed

- c) Periodically review the remuneration policy applied to directors and senior executives, including the systems of payment with shares and their application, and ensure that their individual remuneration is in proportion to that paid to other directors and senior executives of the company
- d) Ensure that any conflicts of interest that may arise do not jeopardise the independence of the external counselling provided to the committee
- e) Check the information on the remuneration of directors and senior executives in the different corporate documents, including the annual report on directors' remuneration

Complies [X] Partial compliance [] Explanation []

51. The remuneration committee should consult the chairman of the board and the chief executive of the company, especially on matters referring to the executive directors and senior executives.

Complies [X] Partial compliance [] Explanation []

The "senior executives" include the Chief Operating Officer (COO), the Company Secretary and Secretary of the Board and the heads of the principal business units of the Ebro Foods Group, even if they are not actually considered "top management".

52. The rules of composition and procedure of the supervision and control committees should be included in the regulations of the board and be coherent with those applicable to the committees required by law according to the foregoing recommendations, including the following:

- a) The members should be exclusively non-executive directors, the majority independent directors.
- b) They should be chaired by independent directors.
- c) The board should appoint the members of these committees on account of the expertise, skills and experience of the directors and the duties of each committee, and discuss their proposals and reports; and the committees should report on their activities at the first board meeting following their meetings, answering for the work done.
- d) The committees should be able to obtain external counselling whenever they may consider it necessary to perform their duties.
- e) Minutes should be issued of their meetings and made available to all directors.

Complies [] Partial compliance [] Explanation [] Not applicable [X]

53. The supervision of compliance with the company's environmental, social and corporate governance policies and rules, and with the internal codes of conduct, should be assigned to one or distributed among several committees of the board, which may be the audit committee, the nomination committee, a committee specialising in sustainability or corporate social responsibility, or any ad hoc committee that the board may decide to set up, exercising its powers of self-organisation. And that committee should be made up exclusively of non-executive directors, most of them independent, specifically having the minimum duties indicated in the following recommendation.

Complies [X] Partial compliance [] Explanation []

54. The minimum duties mentioned in the preceding recommendation are:

- a) Oversight of compliance with the company's corporate governance rules and internal codes of conduct, ensuring that the corporate culture is aligned with its mission and values.
- b) Supervision of the application of the general policy on communication of the economic & financial, non-financial and corporate information and communication with shareholders, investors, proxy advisors and other stakeholders. Oversight also of how the company communicates and relates with small and medium-sized shareholders.

- c) Periodical assessment and review of the company's corporate governance system and environmental and social policy to ensure that it fulfils its mission of promoting corporate interests and takes account of the legitimate interests of the other stakeholders, where appropriate.
 - d) Supervision that the company's environmental and social practices are aligned with the relevant strategy and policy.
 - e) Supervision and assessment of the processes of relations with different stakeholders.
- Complies [X] Partial compliance [] Explanation []

55. The sustainability policies on environmental and social issues should identify and define at least the following:

- a) The principles, commitments, objectives and strategy regarding shareholders, employees, clients, suppliers, social issues, the environment, diversity, tax liability, respect for human rights and prevention of corruption and other unlawful conduct.
 - b) The methods or systems for monitoring compliance with the policies, the associated risks and management thereof.
 - c) The mechanisms for supervising non-financial risks, including those related with ethics and business conduct.
 - d) The channels for communication, participation and dialogue with stakeholders.
 - e) Responsible communication practices to avoid manipulation of information and protect integrity and honour.
- Complies [X] Partial compliance [] Explanation []

56. The remuneration of directors should be high enough to attract and retain directors with the desired profiles and remunerate the dedication, qualification and responsibility required by their office, but not so high as to jeopardise the independence of non-executive directors.

Complies [X] Explanation []

57. Variable remuneration linked to the company's yield and personal performance and the remuneration paid in shares, stock options, rights over shares or instruments indexed to the value of the share, and long-term savings systems such as pension plans, retirement schemes or other welfare systems, should be limited to executive directors.

The delivery of shares as remuneration to non-executive directors may be contemplated when it is conditional upon holding those shares until they retire from the board. This will not be applicable to any shares that the director may need to sell to pay the costs incurred in their acquisition.

Complies [X] Partial compliance [] Explanation []

58. For variable remunerations, the remuneration policies should establish the limits and technical precautions required to make sure those remunerations are linked to the professional performance of their beneficiaries and do not merely derive from general trends on the markets or in the company's sector of business or other similar circumstances.

In particular, the variable components of the remuneration should:

- a) Be linked to predetermined, measurable yield criteria, which consider the risk assumed to obtain a result.

- b) Promote the company's sustainability and include non-financial criteria that are adequate for the creation of long-term value, such as compliance with the internal rules and procedures of the company and its policies for the control and management of risks.
- c) Be based on a balance between meeting short, medium and long-term goals, permitting the remuneration of yield achieved through continuous performance over a sufficient period of time to appreciate their contribution to the sustainable creation of value, such that the elements for measuring that yield are not related only with one-off, occasional or extraordinary events.

Complies Partial compliance Explanation Not applicable

The criteria and variable components of the remunerations contemplated in this Recommendation are included in the current Directors' Remuneration Policy 2022-2024.

59. Payment of the variable components of remuneration should be subject to an adequate verification that the performance or other pre-established conditions have actually been met. The companies should include in their annual reports on directors' remuneration the time and methods required to make that verification, according to the nature and characteristics of each variable component.

In addition, the companies should consider including a malus clause based on the deferral for a sufficient time of the payment of part of the variable components, whereby the entitlement to all or part of them would be lost if anything occurs before the scheduled payment date that make this advisable.

Complies Partial compliance Explanation Not applicable

60. Earnings-linked remuneration should take account of any qualifications made in the report by the external auditors that may reduce those earnings.

Complies Partial compliance Explanation Not applicable

61. A significant percentage of the variable remuneration of executive directors should be linked to the delivery of shares or financial instruments indexed to their value.

Complies Partial compliance Explanation Not applicable

Of the two Executive Directors, only the Chairman of the Board of Directors, Antonio Hernández Callejas, receives remuneration for his executive duties. Heralcianz Investing Group, S.L. does not receive any such remuneration, for the reasons explained elsewhere in this Report.

The variable remuneration systems of the Executive Director applied in 2022 are described in the Annual Report on Directors' Remuneration for that year and are linked to the achievement of pre-established measurable, quantifiable objectives related with financial factors that promote profitability and the creation of sustainable value in the Company and Group in the long term. The current Directors' Remuneration Policy 2022-2024 also includes, among others, the variable remuneration components recommended in the Code of Good Governance (Recommendation 58).

Although Article 22 of the Articles of Association contemplates the possibility that Directors may receive remuneration in the form of shares, stock options or any other system of remuneration indexed to the price of the shares, the Board of Directors has not so far submitted this form of remuneration to approval by the General Meeting, taking account of the fact that the Executive Director is a major shareholder and considering that the systems of variable remuneration of the Executive Director currently used are most appropriate for stimulating his motivation and personal performance, and his commitment to and relationship with the Group's interests.

The current Directors' Remuneration Policy 2022-2024 also specifies that the remuneration of the only Executive Director who currently has executive duties does not include aspects indexed to the value of the company's shares or contemplate receipt by that director of shares or any rights over shares, precisely because that executive director has the special status of reference shareholder.

62. Once the shares, stock options or financial instruments corresponding to the remuneration systems have been allotted, the executive directors may not transfer the ownership thereof or exercise them until at least three years have passed.

This will not be applicable if, at the date of transfer or exercise, the director has a net economic exposure to the price variation of the shares with a market value equivalent to at least twice the amount of their annual fixed remuneration, through the holding of shares, stock options or other financial instruments.

The foregoing will not be applicable to any shares that the director may need to sell to pay the costs incurred in their acquisition or, subject to the favourable opinion of the nomination and remuneration committee, to meet the costs of any extraordinary situations that may arise.

Complies [] Partial compliance [] Explanation [] Not applicable []

63. Contracts should include a clawback clause whereby the company may to claim repayment of the variable components of remuneration when the amounts paid do not correspond to fulfilment of the conditions regarding yield or when paid on the basis of data subsequently proved to be misstated.

Complies [] Partial compliance [] Explanation [] Not applicable []

64. Termination benefits should not exceed an amount equivalent to two years' total annual remuneration and should not be paid until the company has confirmed that the director has met the performance requirements established above.

For the purpose of this recommendation, termination benefits (i.e. payments upon termination or expiry of contract) shall include any amounts that accrue or become payable as a result of or in connection with the termination or expiry of the contractual relationship between the director and the company, including any amounts not previously vested in long-term saving schemes and the sums payable under post-contract no competition clauses.

Complies [] Partial compliance [] Explanation [] Not applicable []

H. OTHER INFORMATION OF INTEREST

1. If you consider there to be any important aspects regarding the corporate governance practices applied by your company or other companies in the group that have not been mentioned in this report, but which should be included to obtain more complete, reasoned information on the corporate governance practices and structure in the company or group, describe them below and give a brief explanation.
2. This section may be used to include any other information, clarification or qualification relating to the previous sections of the report, provided it is relevant and not repetitive.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

3. The company may also state whether it has voluntarily applied any international, sector-based or other codes of ethical principles or good practices. If so, it should name the code in question and the date of its accession. Particular mention shall be made of whether the company has acceded to the Code of Good Tax Practices of 20 July 2010.

EXPLANATORY NOTE ONE, ON SECTION C.1.2.

The appointments by cooptation of the directors Marc Thomas Murtra Millar (31 January 2022) and Jordi Xuclà Costa (30 March 2022) were ratified at the first General Meeting held after those appointments, on 29 June 2022.

EXPLANATORY NOTE TWO, ON SECTION C.2

- The name of the audit committee in the company is "Audit, Control and Sustainability Committee" and the name of the nomination and remuneration committee is "Nomination and Remuneration Committee".

- All the members of the Audit, Control and Sustainability Committee were appointed on account of their accounting and audit experience and expertise, including Grupo Tradifin, S.L., which was elected on account of the expertise in these areas of its representative, Blanca Hernández Rodríguez.

EXPLANATORY NOTE THREE, ON SECTION E.3

The main risks that could have a bearing on achievement of the business goals of the Ebro Foods Group, as listed in section E.3 of this Report, are explained below.

A. OPERATIONAL RISKS:

- Food safety. Owing to the nature of the Group's business, aspects regarding food safety are a critical point to which the Group pays the utmost attention, as we are bound by a large number of laws and standards in each of the countries in which the Group's products are put on the market. One point that is becoming increasingly important is the detection and use of fungicides and pesticides by producers.

- Commodity supply risk. The availability of commodities in the quantity and quality required to meet our commitments to customers and the requirements of our brands is a key factor for our business both nationally (Spanish paddy rice) and internationally (semi-processed rice for the Group subsidiaries), wheat and semolina for the production of quality pasta.

- Market risk (prices). Unexpected variations in the prices of our commodity supplies may affect the profitability of our commercial transactions, in both the industrial and brand-based segments. The main risk lies in the prices of the different rice varieties and durum wheat, although it extends also to other materials consumed, such as packaging material and oil derivatives and, especially so recently, sea and inland transportation.

- Customer concentration risk. The concentration of customers, which can occur in both the industrial and brand segments, may lead to less favourable commercial terms for our sales and affect our credit risk.

- Technological risk. In the sector in which the Group operates, one of the most important tools for competing with our rivals is constant technological innovation and constant adaptation to consumers' desires. Consequently, "technological lag" is considered a possible risk.

- Cybersecurity. Traditionally considered part of 'technological risk', the risks relating to the security of the IT systems and data (cybersecurity) and the threats to their continuity or of extortion by this kind of criminals have considerably increased in recent years. This growing threat led to its consideration (since 2020) as a separate risk with no significant impact for the Group, stepping up the existing security protocols.

B. RISKS RELATED WITH THE ENVIRONMENT AND STRATEGY:

- Environmental risk. Respect for the environment is another critical point for the Group, considering our industrial activity, with a large number of plants distributed internationally. We aim to adopt a set of good practices, complying scrupulously with the law.
- Climate change. This is a cross-cutting risk that affects all the risk categories defined by the company. The effects of droughts, flooding and other weather perils can cause problems of availability and unstable commodity prices, physical risks to property, and strategic and operational impacts deriving from possible changes in consumer habits as a result of alterations in the temperature. The risks of failing to comply with international protocols on climate change and the need to make specific investments to ensure compliance are also assessed.
- Competition risk. In general, pressure from white label brands is the main threat for maintaining the market shares of the Group's brands.
- Reputational risk. This is the risk associated with changes of opinion resulting in a negative perception of the Group, its brands or products by customers, shareholders, suppliers, market analysts, employees, institutions, etc., as they may adversely affect the Group's ability to maintain its commercial and financial relations or its interaction with social partners.
- Exposure to social networks. This risk has been separated from the more generic "reputational risk" since 2020, in view of its enormous repercussion and diversity and the difficulties encountered in managing threats of this nature.
- Changes in lifestyle. The proliferation of low carbohydrate diets or other food habits could alter consumers' perception of our products.
- Country or market risk. Owing to the international nature of the Group's activities, political and economic circumstances in the different countries in which we operate and other market variables, such as exchange rates, interest rates, costs of production, etc. may affect our business.
- Natural disasters, fires. As an industrial group, a significant part of the assets on the Group's balance sheet corresponds to its factories, so any natural incidents (earthquakes, fires, etc.) that may affect the integrity of the Group's plants are a business risk.
- Strategic planning and assessment of strategic opportunities for investment or divestment. Risk deriving from the possibility of making a mistake in the selection of alternatives and/or assignment of resources to reach the Group's strategic goals. In the short term, this includes aligning the budget with the goals defined for the medium and long term.

C. COMPLIANCE RISKS:

- Sectoral regulatory risk. The food industry is a sector subject to numerous regulations affecting export and import quotas, customs duties, intervention prices, etc., subject to the directives laid down in the Common Agricultural Policy (CAP). The Group's activity may also be affected by changes in legislation in the countries in which it sources raw materials or sells its products.
- General regulatory risk. These include risks of compliance with civil, commercial, criminal and good governance provisions.

In the area of criminal risks, the Group has a Crime Prevention Model, monitored and controlled by the Compliance Unit, which is a committee independent from the Risks Committee responsible for monitoring overall compliance by the Group, under direct supervision by the Audit, Control and Sustainability Committee. During 2020, the Compliance Unit conducted a revision and update of its criminal risk map and the mechanisms for mitigating those risks, assisted by an external expert.

The monitoring of the Crime Prevention Model made by the Compliance Unit consists of six-monthly monitoring of the Model, within which it also checks adequate functioning of the mechanisms to mitigate criminal risks.

- Tax risks. Any changes in the tax laws or the interpretation or application thereof by the competent authorities in the countries in which the Group operates could affect its earnings.

D. FINANCIAL RISK:

This category includes foreign exchange, interest rate, liquidity and credit risks. The foreign exchange risk is particularly significant because the functional currency of the Group is the euro, but a considerable part of its commodity supply transactions are in US dollars and a very large part of the Group's investments are also in that currency.

Apart from that, the current management risk map does not identify within the top 25 risks any that might be considered to derive from corruption and bribery, even though the questionnaire used for general monitoring of management risks includes questions on these possible forms of malpractice. This notwithstanding, the Group's position of total rejection of all forms of corruption and bribery is expressly included both in its Code of Conduct and Policy against Corporate Corruption and Bribery (on a global level), and in the Crime Prevention Model and other local mechanisms of the different business units, as described in greater detail in the Statement of Non-Financial Information contained in the Group's Consolidated Directors' Report.

EBRO FOODS, S.A.

Audit Report on the "2022 Disclosures Regarding the Internal Control over Financial Reporting (ICFR) System"

Translation of a report originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

AUDIT REPORT ON THE "DISCLOSURES REGARDING THE INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) SYSTEM" OF EBRO FOODS, S.A.

To the Board of Directors of Ebro Foods S.A.,

As per the request of the Board of Directors of EBRO FOODS, S.A. (hereinafter, the Company) and our proposal letter of March 8, 2023, we have applied certain procedures in relation to the accompanying "ICFR disclosures" of EBRO FOODS, S.A. for 2022, which summarize the Company's internal control procedures in respect of its annual reporting exercise.

The Board of Directors is responsible for taking the opportune measures to reasonably assure the implementation, maintenance and supervision of an adequate internal control system, making improvements to this system and preparing the contents of the ICFR disclosures required for the accompanying Annual Corporate Governance Report (ACGR).

Against this backdrop, it is important to note that, regardless of the quality of design and effective functioning of the ICFR system adopted by the Company in respect of its annual financial reporting effort, the system can only provide reasonable but not absolute assurance regarding the objectives pursued, due to the limitations intrinsic to any internal control system.

In the course of our financial statement audit work and in keeping with Spain's Technical Auditing Standards, the sole purpose of our assessment of the Company's internal controls was to enable us to establish the scope, nature and timing of the Company's financial statement audit procedures. Accordingly, our internal control assessment, performed in connection with the financial statement audit, was not sufficiently broad in scope to enable us to issue a specific opinion on the effectiveness of the internal controls over the annual financial disclosures that the Company is required to present.

For the purpose of issuing this report, we have only carried out the specific procedures described below, as indicated in the *Procedures for external audit reviews* of an entity's ICFR disclosures contained in the *Internal Control over Financial Reporting in Listed Companies* report published by Spain's securities market regulator, the CNMV (and available on its website), which establishes the procedures to be performed, the scope thereof and the contents of this report. Given that the product resulting from these procedures is at any rate limited in scope and substantially more limited than an audit or review of the internal control system, we do not express any opinion on the effectiveness of the system or on its design or effective functioning in respect of the Company's 2022 financial disclosures, as described in the accompanying ICFR disclosures. Consequently, had we performed additional procedures to those stipulated in the above-mentioned CNMV report or had we performed an audit or review of the internal controls over the annual financial disclosures that the Company is required to present, other matters might have come to our attention that would have been reported to you.

Furthermore, given that this special assignment neither constitutes a financial statement audit nor is subject to the Consolidated Text of Spain's Financial Statement Audit Act, we do not express an opinion in the terms provided for in that piece of legislation.

The procedures performed are itemized below:

1. Reading and understanding the information prepared by the Company in relation to the ICFR System - which is disclosed in the Management Report - and assessing whether this information meets all the minimum reporting requirements needed to fill out section F on the ICFR system in the Annual Corporate Governance Report template established in CNMV Circular No. 5/2013 (of June 12, 2013), as amended most recently by Circular No. 3/ 2021 (of September 28, 2021) (hereinafter, the CNMV Circulars).
2. Questioning of the personnel responsible for drawing up the information detailed in item 1 above: (i) to obtain an understanding of the process that goes into drawing up the information; (ii) to obtain information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) to obtain information on whether the control procedures described are in place and functioning.
3. Reviewing the explanatory documents supporting the information detailed in item 1, including documents directly made available to those responsible for describing ICFR system. The documentation to be reviewed may include reports prepared for the audit committee by internal audit, senior management and other internal and external experts in their role supporting the audit committee.
4. Comparing the information detailed in item 1 above with our knowledge of the Company's ICFR System obtained through the external audit procedures applied during the annual audit.
5. Reading of the minutes taken at meetings of the board of directors, audit committee and other committees of the Company to evaluate the consistency between the ICFR business transacted and the information detailed in item 1 above.
6. Obtaining a management representation letter in connection with the work performed, signed by those responsible for preparing and formulating the information detailed in item 1 above.

The specific procedures carried out in respect of the Company's ICFR disclosures did not reveal any inconsistencies or incidents that could affect such disclosures.

This report was prepared exclusively within the framework of the requirements stipulated in article 540 of the Consolidated Text of Spain's Corporate Enterprises Act and the CNMV Circulars related to the description of the ICFR System in the Annual Corporate Governance Report.

Registered office:

[Paseo de la Castellana, 20. 3rd & 4th floors, 28046 MADRID]

A. COMPANY'S REMUNERATION POLICY FOR THIS YEAR

A.1.1. Explain the directors' remuneration policy in place for this year. To the extent that it is relevant, certain information may be included by reference to the remuneration policy approved by the general meeting of shareholders, provided the incorporation is clear, specific and precise.

Describe the specific criteria for this year in respect of both the remuneration of directors for their duties as such and their performance of any executive duties, applied by the board in accordance with the provisions of the contracts signed with the executive directors and the remuneration policy approved by the general meeting.

In any case, inform at least on the following aspects:

- a) Description of the procedures and corporate bodies involved in determining, approving and applying the remuneration policy and conditions thereof.
- b) Indicate and, where necessary, explain whether comparable companies have been taken into account to establish the company's remuneration policy.
- c) Information on whether assistance was received from an external adviser and, if so, their identity.
- d) Procedures contemplated in the prevailing directors' remuneration policy to apply temporary exceptions to the policy, conditions on which the company may have recourse to those exceptions and components that may be subject to exception, according to the policy.

The Directors' Remuneration Policy of the Company for this year (2023) is the Policy established for the years 2022-2024, approved at the Annual General Meeting of Shareholders held on 30 June 2021 and subsequently amended by virtue of a resolution adopted at the Annual General Meeting held on 29 June 2022. A motion will be tabled at the 2023 Annual General Meeting for a further amendment to that Policy in the terms indicated elsewhere in this Report, which will be put to an advisory vote at the forthcoming AGM.

The Directors' Remuneration Policy 2022-2024 gives continuity to the previous policy (for the period 2019-2021), which was in force up to 31 December 2021, in respect of the principles, structure and contents of the Directors' remuneration package (both for their duties as such and for the performance of executive duties), in view of the wide acceptance by shareholders (it was approved in 2018 with the favourable votes of 71.979% of the capital present and represented at the Annual General Meeting).

Based on that broad acceptance, comparable companies were not taken into account nor were any external advisers involved in drawing up the Directors' Remuneration Policy 2022-2024.

Although it was approved in 2021, the Directors' Remuneration Policy 2022-2024 included in its initial wording the new aspects introduced in the Corporate Enterprises Act ("LSC") by Act 5/2021 of 12 April ("Act 5/2021"). So even though the new regulations did not enter into force until 3 November 2021 (i.e. after the date of the company's Annual General Meeting 2021), the contents of the Remuneration Policy laid before (and approved at) the General Meeting held on 30 June 2021 were already adapted to the new requirements introduced by Act 5/2021.

In June 2022, a motion was tabled, and approved, at the Annual General Meeting to modify certain aspects of the Policy, particularly those indicated below:

- (i) The annual fixed remuneration of the Executive Chairman was made invariable, uncoupling it from the fixed remuneration review procedure established for other Group executives, such that it would only be reviewed if and when so decided by the Board of Directors, at the proposal of the Nomination and Remuneration Committee and in view of the circumstances prevailing from time to time.
- (ii) The amendments altered the financial targets to which 75% of the bonus contemplated in the Long-Term Incentive Scheme linked to the Strategic Plan 2022-2024 is tied, replacing the indicator consolidated "adjusted ROCE" ("ROCE") with consolidated "adjusted EBITDA less CAPEX" ("EBITDA – CAPEX"), while maintaining the consolidated EBITDA target, where "EBITDA – CAPEX" would have a weight of 20% and EBITDA the remaining 80%.
- (iii) A new cap was established on the bonus that the Executive Chairman could receive for his participation in the Long-Term Incentive Scheme linked to the Strategic Plan 2022-2024 in the event of over-achievement of targets, which would be 100% of the corresponding bonus (not 125%, as envisaged in the initial wording of the Policy).
- (iv) Within the targets to which the Executive Chairman's annual (ordinary) bonus is tied, the consolidated ROCE was included in the Policy as a target in the budget with a weight of 20%, while maintaining the consolidated EBITDA target in the budget, with a weight of 80%, as from 2023 (the only financial target set for 2022 is the consolidated EBITDA contemplated in the 2022 budget).

A motion will be tabled at the General Meeting at which this Report is to be put to an advisory vote, proposing a new amendment to the Policy, to cap the Executive Chairman's short-term bonus at 100% of his fixed annual remuneration, thus lowering the cap, which had been set at 150% of the fixed remuneration in the initial wording of the Policy. This amendment is expected to be accepted and approved at the General Meeting, with effect from the beginning of the term of the Remuneration Policy 2022-2024, i.e. from 1 January 2022.

The original wording of the Directors' Remuneration Policy 2022-2024 was prepared by the Nomination and Remuneration Committee at its meeting on 24 May 2021. Once that Committee had issued the corresponding specific report (pursuant to section 529.novodicies.4 of the Corporate Enterprises Act), the proposed Policy was submitted to the Board of Directors, which resolved to table a motion for its approval at the Annual General Meeting on 30 June 2021, where it was approved.

The first amendment to the Policy, in 2022, was also prepared by the Nomination and Remuneration Committee at its meeting on 25 May 2022, which issued the corresponding specific report and the Board resolved to table a motion for its approval at the Annual General Meeting on 29 June 2022, where it was approved.

The remaining contents of this section A.1.1 continue in section D of this Report.

A.1.2. Relative importance of the variable remuneration items in respect of the fixed remuneration (remuneration mix) and what criteria and goals have been taken into account to determine them and to guarantee an appropriate balance between the fixed and variable components of the remuneration. In particular, describe the actions taken by the company regarding the remuneration scheme to reduce excessive risk exposure and align the scheme with the long-term goals, values and interests of the company, including where appropriate a reference to measures contemplated to ensure that the remuneration policy takes into account the company's long-term results, measures adopted with respect to certain categories of employees whose professional activities have a significant impact on the company's risk profile and measures to avoid conflicts of interest.

Indicate also whether the company has established an accrual or vesting period for certain variable remuneration items payable in cash, shares or other financial instruments, a deferred payment period or the delivery of financial instruments already accrued and vested, or whether a clause has been agreed to reduce the deferred remuneration not yet vested, or for clawback of bonuses based on data which subsequently prove to be manifestly inaccurate or misstated.

In pursuance of the Directors' Remuneration Policy 2022-2024, the Chairman of the Board, as executive Director performing executive duties, is the only Director who will receive variable remuneration on similar terms to the other senior executives of the Company and the Group, according to the criteria and targets established in the Directors' Remuneration Policy 2022-2024 and explained in the previous point.

The variable remuneration of the Chairman of the Board for the performance of his executive duties includes:

- Ordinary annual variable remuneration, established in the executive Director's contract, which is proportionate to the level of achievement of the targets established in the Directors' Remuneration Policy 2022-2024 (in 2023 the EBITDA and ROCE set in the consolidated budget for 2023).

This remuneration, as a percentage of the fixed annual remuneration, is proportionate to achievement of the targets set, establishing a floor (below which the variable remuneration is zero) and a ceiling (above which the variable remuneration is capped at 100% of the fixed annual remuneration, assuming that the proposed amendment to the Policy is approved at the same Annual General Meeting at which this Report is to be put to an advisory vote). This variable remuneration accrues and is paid on an annual basis once the financial results of the year in question have been assessed. The ordinary annual variable remuneration corresponding to the Executive Chairman for the current year (2023) will thus be determined in 2024, once the financial results of 2023 are known and it is possible, therefore, to check the extent to which the relevant targets have been met.

- Deferred annual variable remuneration, tied to fulfilment of the Strategic Plan 2022-2024, applicable to the senior management of the Ebro Foods Group. The payment of bonuses is conditional upon meeting the above-mentioned targets set each year by the Remuneration Scheme (corresponding to the targets set in the Strategic Plan 2022-2024) and the beneficiary's continued employment in the Group at the date of payment established for those bonuses, except in cases of: (i) death or disability of the beneficiary or (ii) takeover in the Group or a similar corporate operation, or (iii) any other extraordinary circumstance which may, in the Board's opinion, materially affect the Scheme.

Bonuses are paid 11 months after being determined (after checking the level of achievement of the annual targets), so by the time it is paid, more than one year has passed since the end of the year to which the bonus corresponds. Accordingly, the bonus that may be payable to the Executive Chairman, the only Director with executive duties, for 2023 (the second year of the Directors' Remuneration Policy 2022-2024) would be paid in 2025.

The general conditions of the Scheme include an adjustment clause whereby the Board of Directors of Ebro Foods, S.A. will adopt such resolutions as may be necessary to ensure that in any event or corporate operation or other extraordinary circumstances that might affect calculation of the deferred remuneration payable, the gross remuneration will be equivalent to the remuneration that would have been payable had that circumstance not existed.

The Scheme also includes a clawback clause whereby the Board of Directors of Ebro Foods, S.A. may require Directors to repay all or part of any deferred bonus paid under the Scheme when it considers such amounts to have been unduly paid, either because the amounts paid under the Scheme do not correspond to the level of achievement of the required targets, or because they were calculated on the basis of data subsequently proved to be misstated.

With this Deferred Annual Variable Remuneration Scheme, the remuneration of the Executive Chairman, the only Director with executive duties, is aligned with the medium and long-term results of the Company and its Group. It should also be borne in mind for this purpose that the Executive Chairman, the only Director with executive duties, is one of the principal shareholders of the Company.

A.1.3. Amount and nature of the fixed components expected to be accrued during the year by directors for their duties as such.

The fixed remuneration of the Directors for performance of their duties as such in the current year (2023) will be set at the Annual General Meeting to be held in 2024.

As determined in the current Directors' Remuneration Policy, in the light of the circumstances and the Group's business performance during this year (2023), the Nomination and Remuneration Committee will submit a proposal that it considers appropriate to the Board of Directors, which will in turn decide on a proposal it considers appropriate to lay before the Annual General Meeting to be held in 2024. It should be borne in mind that, according to Article 22 of the Articles of Association (and the current Remuneration Policy 2022-2024): "Both the fixed annual allocation for the board as a whole and the amount of attendance fees shall be determined by the general meeting and shall remain in force until a resolution is passed to change them." Therefore, unless otherwise decided at the Annual General Meeting 2024, the fixed remuneration of the Directors for their duties as such accrued during this year (2023) will be the same as the amount established for the reporting period (2022). In this regard, on 15 February 2023 the Nomination and Remuneration Committee resolved to propose to the Board, submitting a favourable report, that the fixed remuneration for the Board as a whole for 2022 should be the same as that established for 2021 (i.e. 2,850,000 euros). Similarly,

the Nomination and Remuneration Committee resolved to propose to the Board that the attendance fees for Board and Committee meetings be maintained at 1,600 euros gross for Board meetings and 800 euros for Committee meetings.

The criteria established in the current Remuneration Policy 2022-2024 (which are the same as those set in the previous policy) will be applicable for distribution among the different Board members of the global fixed remuneration of the Directors for their duties as such during the present year. Accordingly, distribution will be based on a points system, where points are assigned to each Director according to the following scale (established by the Board in 2006, following the proposal submitted by the Nomination and Remuneration Committee):

- Member of the Board of Directors: 1 point
- Chairman of the Board: 1 point
- Vice-Chairman of the Board: 0.5 points
- Member of the Executive Committee: 1 point
- Committees other than the Executive Committee:
 - Member of the Committee: 0.2 points
 - Committee Chairman: 0.05 points per meeting
 - Committee Members: 0.03 points per meeting

The Board of Directors will set the individual remuneration of each Director this year subject to a report by the Nomination and Remuneration Committee and based on the application of the above scale.

A.1.4. Amount and nature of the fixed components accrued by executive directors during the year for senior management duties.

According to the criteria for annual review of the fixed remuneration of the Executive Chairman (the only Director who performs executive duties), he will receive a fixed cash remuneration of 1,500,000 euros gross this year (2023), which is the same amount as the gross fixed cash remuneration he received in the reporting period (2022).

It should be borne in mind that although it was stated in the Remuneration Report 2021 that the Executive Chairman's remuneration for 2022 would be 1,560,000 euros (i.e. the remuneration of the previous year -2021- plus 4%, which was the percentage review of the executives' remuneration set by the Board generally for the Company's executives), after the amendment of the Remuneration Policy 2022-2024 approved at the Annual General Meeting held on 29 June 2022, the fixed remuneration of the Executive Chairman was frozen (with effect from 1 January 2022), so the 4% increase was no longer applicable under the Remuneration Policy 2022-2024 amended as above.

In addition to that monetary remuneration, the Executive Director will also receive this year (2023), as fixed remuneration in kind, the private use of a Company car (see section A.1.5 below).

The Chairman of the Board is the only executive Director performing executive duties. Although Heralianz Investing Group, S.L. is recognised as an executive Director, it has never performed executive duties in Ebro Foods, S.A. or any subsidiary of the Group and, therefore, has received no remuneration for such duties. See the Explanatory Note Two in section D of this Report regarding the classification of Heralianz Investing Group, S.L. as an executive Director.

A.1.5. Amount and nature of any remuneration in kind that will be accrued during the year, including, but not limited to, insurance premiums paid for directors.

The Chairman of the Board, as the only executive Director performing executive duties, receives remuneration in kind to the extent of private use made of the Company car allocated to him. The value of this remuneration in kind estimated to accrue for the current year (2023) is 8,000 euros gross.

In addition, the Company has a Flexible Remuneration Scheme, through which it is possible to design the composition of remuneration of the executives included in the Scheme (including the Executive Chairman), so that they may receive part of that remuneration in the form of products and services previously selected by the Company. The value of those products and services is deducted from the gross salary of the executive, who is allocated in lieu the corresponding income in kind. These products and services include group medical insurance, housing rental, nursery, vehicle hire/lease and training. Under no circumstances do those items entail any additional remuneration to that received in cash, since the amounts paid by the Company to the corresponding service providers are deducted from the cash remuneration.

Moreover, in line with common practice in other comparable companies, the Company has taken out and maintains in force (and will continue to maintain in the current year) a liability insurance policy for its directors and executives.

A.1.6. Amount and nature of the variable components, distinguishing between those established at short and long term. Financial and non-financial parameters -including among the latter social, environmental and climate change factors- selected to determine the variable remuneration in the current year. Explain to what extent those parameters are aligned with the performance of both the director and the company and their risk profile, and the methodology, necessary time and techniques contemplated to determine, at year-end, the effective level of achievement of the parameters used to design the variable remuneration. Explain the criteria and factors applied in respect of the time required and methods to check that the performance parameters -or any other parameters to which the accrual and vesting of each component of the variable remuneration was tied- have actually been met.

Indicate the range, in monetary terms, of the different variable components according to the level of achievement of the goals and parameters established and whether there is a maximum monetary amount in absolute terms.

As mentioned earlier, the only Director who will receive a variable remuneration this year (2023) (according to the Directors' Remuneration Policy 2022-2024) is the Chairman of the Board, as executive Director performing executive duties, and he will do so on similar terms to the other senior executives of the Company and its Group.

The variable remuneration of the Chairman of the Board for his executive duties includes:

(i) Ordinary annual variable remuneration:

According to the Directors' Remuneration Policy 2022-2024, the annual variable remuneration of the Executive Chairman is proportionate to the level of achievement of the targets for EBITDA (with a weight of 80%) and ROCE (with a weight of 20%) established in the consolidated budget for 2023.

The ordinary annual variable remuneration of the Executive Chairman for the performance of his executive duties accrues according to the following rules:

- If the targets are fully met (aggregate achievement of both targets -EBITDA and ROCE, with the weight corresponding to each one- equal to or greater than 100%), the annual variable remuneration is equivalent to 100% of the fixed remuneration, assuming that the proposed amendment to the Policy is approved at the same Annual General Meeting at which this report is to be put to an advisory vote).

- In the event of under-achievement of the targets, the ordinary annual variable remuneration will be reduced in proportion to the percentage fulfilment (under 100%) achieved, with a floor of 85%, below which no annual variable remuneration accrues. If aggregate achievement of those targets is between 100% and 85%, the annual variable remuneration will be determined proportionately.

- Strictly as an exception, considering the special dedication by the Executive Chairman to the performance of his executive duties and a temporary situation in the Company or Group, the Board may, at the proposal of the Nomination and Remuneration Committee, decide to raise the annual variable remuneration of the Executive Chairman to the maximum limit established of 100% of his fixed remuneration.

Accordingly, once the consolidated earnings of the Group in 2023 are known (in 2024, generally in February), the Nomination and Remuneration Committee will review the level of achievement and submit a proposal to the Board, for approval, regarding the annual variable remuneration to be received by the Executive Chairman for the current year (2023), based on the criteria indicated above.

In monetary terms and taking account of the above-mentioned rules of accrual, the annual variable remuneration of the Executive Chairman for 2023 may vary between 0 euros (if the aforesaid targets are met by less than 85%) and 1,500,000 euros gross (if targets are met by 100% or more).

(ii) Deferred annual variable remuneration:

According to the current Remuneration Policy 2022-2024, the Chairman of the Board is entitled to participate in the Deferred Annual Variable Remuneration Scheme (deferred annual bonus scheme) established for senior executives of the Ebro Foods Group, linked to fulfilment of the Strategic Plan 2022-2024. On the terms of that Policy, the deferred annual bonus that would be received by the Executive Chairman under the Scheme would be proportional to the degree of achievement of the targets set in the Policy (tied to the targets identified in the Strategic Plan 2022-2024), on the terms described in the Remunerations Policy.

The beneficiaries of the Scheme (including the Chairman of the Board as executive Director) are only entitled to receive the deferred remuneration if they are still working in the Ebro Group at the date of payment. As an exception, the Scheme is expected to contemplate (as its precursor did) early payment in the event of: (i) termination of the employment relationship with the Company during the period of the Scheme owing to death or a final declaration of total, absolute or major disability; or (ii) takeover of the Group or any similar corporate operation.

The outlines of the future Scheme, established in the Directors' Remuneration Policy 2022-2024, are as follows:

- The targets of the Scheme for the first two years (2022, payable in 2024, and 2023, payable in 2025) are the consolidated annual EBITDA and EBITDA – CAPEX for those years established in the Strategic Plan 2022-2024, and accrual of 25% of the deferred bonus will be subject to achievement of those targets.

- The level of achievement of the consolidated Adjusted EBITDA will represent 80% of the deferred bonus for each year and the degree of achievement of the consolidated EBITDA – CAPEX will account for the remaining 20%.

- The targets of the Scheme for the final year (2024, payable in 2026) are: (i) the consolidated annual EBITDA and EBITDA – CAPEX for that year established in the Strategic Plan 2022-2024 (weighted at 80% and 20%, respectively), to which the accrual of 25% of the deferred bonus is tied; (ii) the aggregate sum of EBITDA of the years included in the Scheme (2022-2024) in comparison with the sum of those contemplated in the Strategic Plan 2022-2024, 12.5% of the deferred variable remuneration of the three-year period being subject to the outcome of that comparison; and (iii) the global qualitative assessment by the Strategy and Investment Committee of the development of the Strategic Plan 2022-2024 and assessment by the Audit, Control and Sustainability Committee of achievement of the non-financial targets set by the Scheme from among those identified in the Strategic Plan 2022-2024. Both committees will submit their respective proposals to the Nomination and Remuneration Committee, the remaining 12.5% of the deferred variable remuneration of the three-year period being subject to the outcome of those assessments: 6.25% for each of the two aspects.

- In the first two years of the Scheme (2022 and 2023):

a) In the event of aggregate achievement of 100% or over of the consolidated EBITDA and EBITDA – CAPEX targets established for those years in the Strategic Plan 2022-2024, the deferred annual bonus that would accrue for the executive Director for the performance of those duties each year will be 100% of 25% (i.e. 25%) of the fixed remuneration established for the three-year period.

b) In the event of aggregate under-achievement of the aforesaid consolidated EBITDA and EBITDA – CAPEX targets established in the Strategic Plan 2022-2024 in either of the first two years of the three-year period, the deferred annual bonus that would accrue for the executive Director for the performance of those duties in each of those two years will be reduced in proportion to the percentage of achievement (below 100%), floored at 85%, such that if the aggregate achievement of the targets is below 85%, the deferred bonus for that year will be zero.

In the third and final year of the Scheme (2024):

a) 25% of the fixed remuneration established for the three-year period will be determined according to the degree of aggregate achievement of the aforesaid consolidated EBITDA and EBITDA – CAPEX targets established in the Strategic Plan 2022-2024 for that year. The provisions set out above for over-achievement and under-achievement will be applicable.

b) The final 25% of the fixed remuneration corresponding to the three-year period will be determined as follows, if appropriate:

- 50% (12.5% of the total fixed remuneration for the three-year period) according to the degree of achievement of the accumulated consolidated EBITDA target for the entire three-year period according to the Strategic Plan 2022-2024.

- 25% (6.25% of the total fixed remuneration for the three-year period), in the percentage determined by the Board at the proposal of and subject to a report by the Nomination and Remuneration Committee, according to the assessment of the achievement of non-financial targets included in the Strategic Plan 2022-2024 and identified in the Scheme.

- And the remaining 25% (6.25% of the total fixed remuneration for the three-year period), in the percentage determined by the Board at the proposal of and subject to a report by the Nomination and Remuneration Committee, according to the global qualitative assessment of the development of the Strategic Plan 2022-2024.

In the event of aggregate over-achievement or under-achievement of the aforesaid targets, the indications set out above for these situations will be applicable, including the 100% cap in the event of over-achievement.

- Each year (once the earnings of the preceding year are known), the Nomination and Remuneration Committee will review the level of achievement of the economic variables to which this deferred bonus is tied (EBITDA and EBITDA – CAPEX). The Nomination and Remuneration Committee will also review and validate, during the final year of the Scheme, the proposed qualitative assessment of the development of the Strategic Plan 2022-2024 submitted by the Strategy and Investment Committee and the proposed assessment of the degree of achievement of the non-financial targets made by the Audit, Control and Sustainability Committee. After these verifications, the Nomination and Remuneration Committee will submit a proposal to the Board of Directors and the latter will determine the final amounts corresponding to the Executive Chairman (and the other executives included in the Scheme).

Based on the foregoing, the following should be taken into account with regard to the variable remuneration that might correspond to the Executive Chairman in 2023 within the Deferred Annual Remuneration Scheme tied to fulfilment of the Strategic Plan 2022-2024:

- The review by the Nomination and Remuneration Committee of the degree of achievement of the targets set for that year and submission to the Board, for approval, of the annual bonus for 2023 to be received by the Executive Chairman (in 2025) will be made in 2024, once the consolidated earnings of the Group for 2023 have been determined (normally in February).

- In monetary terms and taking account of the above-mentioned rules, the deferred annual variable remuneration of the Executive Chairman for 2023 may vary between 0 euros (if aggregate achievement of the targets is below 85%) and 1,125,000 euros gross (if aggregate achievement of the targets is 100% or more). The fixed remuneration for the three-year period is calculated based on the annual monetary fixed remuneration of the Executive Chairman in each of the years of the Scheme (which, as indicated above, is not subject to review, except in the event of extraordinary circumstances).

- This year (2023), the Executive Chairman has received the sum of 1,897,670.85 euros gross as his deferred annual remuneration for 2021, the last year of the previous Deferred Annual Remuneration Scheme tied to fulfilment of the Strategic Plan 2019-2021. It should be noted that since this sum corresponds to the final year of the previous Scheme, the deferred variable remuneration subject thereto was 50% of the variable remuneration of the three-year period.

The Scheme described above is not indexed to the value of the Company's share and the beneficiaries do not receive shares or any other rights thereover.

A.1.7. Main features of the long-term saving schemes. This information should include, inter alia, the contingencies covered by the scheme, whether it is defined-contribution or defined-benefit, the annual contribution to be made to defined-contribution schemes, the benefit to which beneficiaries are entitled under defined-benefit schemes, the conditions for the vesting of economic rights in favour of the directors and compatibility with any kind of termination benefit payable for or in connection with interruption or expiry of the contractual relationship between the company and the director.

State whether accrual or vesting of rights under any of the long-term savings schemes is subject to the achievement of certain targets or parameters related with the short and long-term performance of the director.

No contributions have been made in previous years, nor are any expected to be made this year (2023), to any pension funds or schemes for former or existing members of the Board (neither the Directors for their duties as such nor the executive Directors for the performance of executive duties) and no obligations have been contracted in this respect.

Nor have any contributions been made or obligations contracted for Directorships in other group companies (for the Directors for their duties as such or the executive Directors for the performance of executive duties).

A.1.8. Any kind of payment or compensation for termination, early or otherwise, of the contractual relationship between the company and the director, at the initiative of the company or the director, and any arrangements agreed, such as exclusive dedication, minimum employment commitment, loyalty and no competition during and after employment.

No compensations have been arranged or paid for termination of Directors' duties (neither the Directors for their duties as such nor the executive Directors for the performance of executive duties).

A.1.9. State the terms and conditions to be respected in the contracts of executive directors performing senior management duties. Include information, inter alia, on the term, limits on severance pay and other compensations, continued service clauses, required notice, payment in lieu of notice and any other clauses relating to golden hellos, golden handshakes, golden parachutes or any other compensation payable on termination, early or otherwise, of the contractual relationship between the company and the executive director. Include, inter alia, details of any clauses or agreements on restraint of trade, exclusive dedication, minimum employment commitment, loyalty and no competition during and after employment, save as explained in the previous section.

Pursuant to sections 249, 529 octodecies and 529 quidecies of the Corporate Enterprise Act and Article 22 of the Articles of Association, the Board is competent to establish the terms of contracts to be signed by the Company with its executive Directors having executive duties, at the proposal of the Nomination and Remuneration Committee and within the confines of Directors' Remuneration Policy approved by the General Meeting.

According to the Directors' Remuneration Policy 2022-2024, the principal terms of contract of the Executive Chairman (the only Director with executive duties) for his executive duties (apart from his remuneration, which is explained in other sections of this Report) are as follows:

- Term: indefinite
- Notice: three months
- Termination benefits: none
- Continued service or post-contract no competition clauses: none

See the Explanatory Note Two in section D of this Report for the reasons why Herculanz Investing Group, S.L. is classified as an executive Director.

As regards the possible incorporation in the future of other executive Directors, the Directors' Remuneration Policy 2022-2024 provides that the current remuneration scheme for executive Directors for the performance of executive duties and other aspects relating to their contractual relationship with the Company take into account that the only executive Director who performs those duties is a reference shareholder of the Company.

For this reason, if new executive Directors with executive duties join the Board during the effective term of the Directors' Remuneration Policy 2022-2024, it might be necessary to revise some of those aspects, such as: (i) establishment of the continued service and/or no competition clauses (and the corresponding remuneration) or (ii) inclusion in the remuneration of aspects indexed to the value of the Company's share or that entail the receipt of shares or rights thereover. In this case, the Policy would be amended and the corresponding amendment would be tabled before the General Meeting for approval on the terms stipulated in law.

A.1.10. The nature and estimated amount of any other supplementary remuneration that will accrue by directors this year for services rendered in addition to those inherent in their directorship.

No supplemental remuneration is expected to be earned by Directors (Directors for their duties as such or executive Directors for the performance of executive duties) for services rendered in addition to those inherent in their directorship and/or the performance of executive duties.

A.1.11. Any other remuneration, such as advances, loans and guarantees granted to directors by the company, and other remuneration.

The Company has not granted and does not foresee granting this year (2023) any loans, advances or guarantees to members of the board (the Directors for their duties as such or the executive Directors for the performance of executive duties), nor has it contracted any obligations on their behalf through guarantees or bonds.

A.1.12. The nature and estimated amount of any other supplementary remuneration not included in the preceding paragraphs, paid by the company or another company in the group, that will accrue in directors' favour this year.

There is no remuneration other than as explained in this Report, apart from the attendance fees that received by the Executive Chairman each year as Director of Pastificio Lucio Garofalo, S.p.A (a subsidiary of the Ebro Foods Group). This year (2023), the Executive Chairman is expected to receive a similar amount in attendance fees to that received in 2022 (5,000 euros p.a. gross).

The Executive Chairman also receives attendance fees each year as a Director of Riso Scotti, S.p.A., an associate and not part of the Group, in which Ebro Foods, S.A. has a 40% interest (it is an associate consolidated by the equity method). This year (2023), the Executive Chairman is expected to receive a similar amount in attendance fees to that received in 2022 (5,200 euros p.a. gross).

A.2. Explain any significant change in the remuneration policy applicable this year, deriving from:

- a) A new policy or modification of the policy already approved by the general meeting.
- b) Significant changes in the specific criteria established by the board for this year within the current remuneration policy in respect of those applied in the previous year.
- c) Proposals that the board has agreed to submit to the general meeting at which this annual report will be presented, for application to this year.

This year (2023) is the second year of application of the Directors' Remuneration Policy 2022-2024.

As explained earlier, the only change expected this year (with effect from 1 January 2022) is the lowering of the cap on the Executive Chairman's annual variable remuneration from 150% to 100% of his annual fixed remuneration.

As indicated, that modification, proposed by the Executive Chairman, received a favourable assessment by the Nomination and Remuneration Committee and was approved by the Board. As also mentioned earlier, the consequent amendment of the Directors' Remuneration Policy 2022-2024 on this point will be laid before the General Meeting of Shareholders to be held in 2023, at which this Report will be put to an advisory vote and is expected to be approved.

At the date of writing this Report, no further amendments to the current Remuneration Policy 2022-2024 are expected in subsequent years.

A.3. Indicate the direct link to the document containing the current remuneration policy of the company, which must be available on the company's website.

<https://www.ebrofoods.es/wp-content/uploads/2022/06/Recast-Directors-Remuneration-Policy-2022-2024.pdf>

A.4. In view of the details provided in section B.4, explain how the shareholders' advisory vote at the general meeting on the annual report on remuneration of the previous year has been taken into account.

Given the large majority of the capital that voted in favour in the advisory vote on the Directors' Remuneration Report for 2021, with more than two-thirds of the capital present and represented at the General Meeting voting for the approval (74.2020%), and with 12.7425% abstaining, it has not been considered necessary to take any measures in this regard.

B. OVERALL SUMMARY OF APPLICATION OF THE REMUNERATION POLICY DURING THE REPORTING PERIOD

B.1.1. Explain the process followed to apply the remuneration policy and determine the individual remunerations reflected in section C of this report. This information should include the role played by the remuneration commission, the decisions taken by the board and, if appropriate, the identity and role of the external advisers whose services were used in the process of applying the remuneration policy during the reporting period.

a) Remuneration of Directors for their duties as such.

The fixed remuneration for all the Directors for their duties as such for 2021 was paid during the reporting period (2022).

In this regard, the Nomination and Remuneration Committee resolved on 16 February 2022 to submit a proposal to the Board of Directors, to be tabled by the latter at the Annual General Meeting held that year (2022), to set the fixed remuneration of all the Directors for their duties as such for the previous year (2021) at 2,850,000 euros gross. It further proposed maintaining the amount of attendance fees for Board meetings (1,600 euros gross per meeting) and meetings of the Board Committees (800 euros gross per meeting). On 28 February 2022, the Board of Directors resolved to table a motion with those proposals submitted by the Nomination and Remuneration Committee at the Annual General Meeting to be held in 2022. The motion was passed by an ample majority at that Annual General Meeting, held on 29 June 2022.

Based on the foregoing and the resolutions passed at the Board and Committee meetings held in 2021, the aggregate annual fixed remuneration of the Directors for their duties as such for 2021 (set in 2022) was distributed as follows:

- membership of the Board: a total sum of 1,871,425.52 euros gross
- membership of the Board Committees: a total sum of 978,574.44 euros gross.

The fees for attendance of Board and Committee meetings of Ebro Foods, S.A. in 2021 amounted to 317,600 euros gross.

At a meeting on 15 February 2023, the Nomination and Remuneration Committee resolved to submit a proposal to the Board of Directors (to be tabled at the Annual General Meeting in 2022) to set the aggregate fixed remuneration for all the Directors for their duties as such for the reporting period (2022) at 2,850,000 euros gross (the same amount as in 2021). It further proposed maintaining the amount of attendance fees for Board meetings (1,600 euros gross per meeting) and meetings of the Board Committees (800 euros gross per meeting).

On 27 February 2023, the Board of Directors resolved to table a motion with those proposals at the Annual General Meeting to be held in 2023.

If that amount is approved at the Annual General Meeting held in 2023, it will be distributed among the Board members in accordance with the prevailing distribution criteria (see section A.1). Based on those criteria, the annual fixed assignment to Directors for their duties as such for 2022, considering the meetings of the Board and its Committees during that year, would be as follows:

- membership of the Board: a total sum of 1,891,862.90 euros gross
- membership of the Board Committees: a total sum of 958,137.00 euros gross.

If the proposals are approved, the attendance fees for Board and Committee meetings of Ebro Foods, S.A. in 2022 would amount to 328,000 euros gross.

The total amount of the fixed assignment to Directors for their duties as such is distributed among the individual Directors based on the points system established in the Remuneration Policy in place from time to time (see section A.1.3 of this Report). For this purpose, in view of a Report by the Nomination and Remuneration Committee, the Board approves the individual remuneration of each Director in view of the Board Committees they are on and the number of meetings held by those committees.

b) Remuneration of the Chairman of the Board as executive Director for the performance of executive duties.

In 2022, the fixed cash remuneration of the Executive Chairman (the only Director with executive duties) for the performance of his executive duties was 1,500,000 euros gross, in accordance with the resolution adopted by the Board of Directors on 25 February 2021, proposed by the Nomination and Remuneration Committee. That is the fixed remuneration established in the Directors' Remuneration Policy 2022-2024 (amended to update the information it contained on the annual fixed remuneration of the Executive Chairman at the Annual General Meeting held on 29 June 2022).

With regard to the annual variable remuneration for the reporting period (2022), on 15 February 2022 the Nomination and Remuneration Committee examined the degree of achievement of the consolidated EBITDA target indicated in the budget, this being the variable taken to determine the annual bonus of the Executive Chairman in 2022 and submitted the corresponding report to the Board of Directors in respect of that annual variable remuneration.

It should be recalled at this point that tying the Executive Chairman's annual bonus to the dual target of EBITDA (80%) and ROCE (20%) is applicable as from 1 January 2023, as indicated in the Directors' Remuneration Policy 2022-2024 following the amendment resolved at the Annual General Meeting on 29 June 2022.

It should also be remembered that, according to the proposed amendment to the Directors' Remuneration Policy 2022-2024 to be submitted for approval at the Annual General Meeting at which this Report will also be put to an advisory vote, the Executive Chairman's annual bonus for 2022 would be capped, in the event of over-achievement of targets, at 100% of the amount thereof (i.e. 100% of his annual fixed remuneration). As mentioned earlier, that amendment to the Directors' Remuneration Policy 2022-2024 is expected to be approved at the Annual General Meeting.

On 15 February 2023 the Nomination and Remuneration Committee also reviewed the level of achievement of the quantitative and qualitative targets to which the long-term variable remuneration for 2022 is tied, according to the Deferred Annual Bonus Scheme 2022-2024. 2022 being the first year of the Scheme, up to 25% of the deferred variable remuneration for the three-year period corresponds to that year, depending on the aggregate achievement of the EBIDTA and EBITDA – CAPEX targets set in the Strategic Plan 2022-2024 for 2022.

Accordingly, the sums corresponding to the Chairman of the Board (the only Director with executive duties) for the performance of executive duties in the reporting period (2022), according to his contract and the Directors' Remuneration Policy 2022-2024 and after the corresponding verifications by the Nomination and Remuneration Committee, are as follows:

- Fixed remuneration: 1,508,000 euros gross (1,500,000 euros gross of fixed cash remuneration and 8,000 euros gross in kind).
- Short-term ordinary annual variable remuneration: 1,500,000 euros gross. The lowering of the cap on this bonus to 100% of the annual fixed remuneration has been taken into consideration here, assuming that the General Meeting will approve the lowering of that cap (at the same general meeting at which this Report is to be put to an advisory vote). Otherwise, the annual variable remuneration that would have corresponded to the Executive Chairman had that new cap not been applied, would be 1,931,719 euros gross.
- Deferred annual variable remuneration: 1,125,000 euros gross. A provision for this amount has been recognised in the annual accounts at 31 December 2022, as a provisional estimate of the deferred annual bonus corresponding to the Chairman of the Board (as executive Director and for the performance of executive duties) and it will be paid in 2024, provided that the Executive Chairman is still in the Group at that time, as explained earlier. It should be borne in mind that 25% of the variable remuneration corresponding to the three-year period was determined in 2022, the first year of the Deferred Annual Bonus Scheme 2022-2024.

In addition, during the reporting period (2022), the Executive Chairman received the sum of 1,058,191.51 euros gross as deferred annual variable remuneration for 2020, paid in 2022. A provision for that amount had been recognised in the 2020 accounts.

B.1.2. Explain any deviation during the year from the procedure established for application of the remuneration policy.

There were no deviations in 2022 from the procedure established for application of the Directors' Remuneration Policy 2022-2024, other than application of the reduced cap on the Executive Chairman's annual bonus, on the terms indicated hereinabove.

B.1.3. State whether any temporary exception to the remuneration policy has been applied and, if so, explain the exceptional circumstances giving rise to those exceptions, the specific components of the remuneration policy that were affected and the reasons why the company considered those exceptions necessary for the long-term interests and sustainability of the company overall or to guarantee its viability. Quantify the impact that the application of those exceptions has had on the remuneration of each director during the year.

No temporary exceptions to the Directors' Remuneration Policy 2022-2024 were applied during 2022.

B.2. Explain the different actions taken by the company regarding the remuneration system and how they have contributed to reducing excessive risk exposure, and align it with the long-term goals, values, and interests of the company, indicating what measures have been adopted to ensure that remuneration has accrued in consideration of the long-term results of the company, striking an appropriate balance between the non-variable and variable components of remuneration, what measures have been taken with respect to those categories of personnel whose professional activities have a significant impact on the company's risk profile, and what measures have been taken to avoid conflicts of interest, where necessary.

The Deferred Annual Variable Remuneration Scheme in place during the reporting period (2022), i.e. the one linked to the Strategic Plan 2022-2024, makes the payment of bonuses conditional upon meeting targets set each year and the beneficiary's continued employment in the Group at the date of payment established for those bonuses, except in cases of: (i) death or disability of the beneficiary or (ii) takeover in the Group or (iii) a similar corporate operation or any other extraordinary circumstance which may, in the board's opinion, materially affect the Scheme.

The general conditions of the Scheme include an adjustment clause whereby the Board of Directors of Ebro Foods, S.A. will adopt such resolutions as may be necessary to ensure that in any event or corporate operation or other extraordinary circumstances that might affect the calculation of deferred remuneration payable, the gross remuneration will be equivalent to the remuneration that would have been payable had that circumstance not existed.

The Scheme also includes a clawback clause whereby the Board of Directors of Ebro Foods, S.A. may require Directors to repay all or part of any deferred bonus paid under the Scheme when it considers such amounts to have been unduly paid, either because the amounts paid under the Scheme do not correspond to the

degree of fulfilment of the required targets, or because they were calculated on the basis of data subsequently proved to be misstated.

Finally, as indicated earlier, the Scheme is structured in such a way that the deferred annual bonus corresponding to any of the years within the Scheme will be paid 11 months after being determined (after checking the degree of fulfilment of the targets), so by the time they are paid, a reasonable time will have passed (approx. 14 months), enabling greater certainty as to the accuracy of the information used to calculate the bonus. The remuneration corresponding to members of the Scheme in 2022 will thus be paid in 2024, provided they are still employed in the Ebro Group.

B.3. Explain how the remuneration accrued and vested during the year complies with the provisions of the current remuneration policy and, in particular, how it contributes to the company's long-term sustainable profitability.

Describe the relationship between the remuneration received by the directors and the earnings or other short and long-term performance indicators of the company explaining, where appropriate, how any variations in the company's performance may have had a bearing on the variation in directors' remuneration, including any deferred remuneration, and how they contribute to the short and long-term results of the company.

As explained elsewhere in this Report, the remuneration of the Directors for their duties as such is set by the Annual General Meeting, so the General Meeting must assess the remuneration proposed in view of the performance of the Company and its Group.

The variable remuneration (both ordinary and deferred) of the Chairman of the Board as executive Director, for his executive duties, is tied to the development of the Group's business, being determined in view of the level of achievement of the targets set (linked to the future targets of the Group), as indicated in this Report and in the Directors' Remuneration Policy.

In the reporting year (2022), the Directors' Remuneration Policy 2022-2024 expressly contemplated both principles.

It should be noted in particular that the variable remuneration of the Executive Chairman (the only Director with executive duties) for his executive duties is tied to the achievement of quantitative and qualitative targets. This is designed to link his remuneration to the short and long-term development of the Company. So through achievement of the financial targets set for each year (either in the budget, for the annual variable remuneration, or in the Strategic Plan 2022-2024, for the remuneration received by virtue of his participation in the Deferred Annual Bonus Scheme), the remuneration of the Executive Chairman is tied to the evolution of the Group's results.

B.4. Report on the results of the advisory vote by the general meeting on the annual report on remuneration of the previous year, indicating the number of abstentions, blank votes and votes for and against.

	Number	% total
Votes cast	125,323,890	81.45
	Number	% votes cast
Votes against	16,319,794	13.02
Votes for	92,992,889	74.20
Blank votes	41,844	0.03
Abstentions	15,969,363	12.74

Comments

B.5. Explain how the fixed components accrued and vested during the year by the directors for their duties as such were determined, their relative proportion for each director and how they have varied in respect of the previous year.

As explained earlier, the fixed remuneration of the Directors for their duties as such is set by the Annual General Meeting, following assessment and a proposal by the Nomination and Remuneration Committee and the Board of Directors.

The proposal by the Nomination and Remuneration Committee and the Board of Directors generally takes into account the economic situation of the Group and the development of its business, as well as the number of Board members (being a collective remuneration for all the Directors for their duties as such).

Accordingly, the Annual General Meeting held on 29 June 2022 resolved to set the collective remuneration of all the Directors for their duties as such for 2021 at 2,850,000 euros p.a. gross.

With regard to the remuneration for 2022, the Board resolved on 27 February 2023 to table a motion at the Annual General Meeting in June 2023 to maintain the collective fixed remuneration for the Directors for their duties as such at 2,850,000 euros p.a. gross.

That sum was distributed among the individual Directors (for 2021) and will be distributed (for 2022) on the basis of the points system explained in section A.1.3 of this Report and in the Directors' Remuneration Policy 2022-2024.

B.6. Explain how the salaries accrued and vested by each of the executive directors for their management duties was determined in the reporting period and how they have varied in respect of the previous year.

In 2022 (the reporting period), the fixed cash remuneration of the Executive Chairman (the only Director with executive duties) for the performance of executive duties is specified in his contract. As indicated in the Directors' Remuneration Policy 2022-2024, the fixed cash remuneration for 2022 was 1,500,000 euros gross.

The amounts of variable remuneration in 2022 (both annual ordinary and deferred) are determined by the Nomination and Remuneration Committee, which checks the level of achievement of the targets to which that variable remuneration is tied and submits a proposal to the Board. In this regard, the variable remuneration corresponding to the Executive Chairman for 2022 were:

- 1,500,000 euros gross in annual variable remuneration (1,593,733 euros gross in 2021). It should be noted here, once again, that this variable remuneration was determined applying the new cap of 100% of his fixed remuneration in the event of over-achievement of the targets (150% cap in the previous year), assuming that the amendment to the Directors' Remuneration Policy 2022-2024 will be approved by the General Meeting at which this Report is to be put to an advisory vote; and

- 1,125,000 euros gross in deferred annual remuneration for 2022 (1,897,671 euros gross in 2021). A provision for this amount has been recognised in the annual accounts 2022 as a provisional estimate of the deferred annual bonus corresponding to the Chairman of the Board (as executive Director and for the performance of executive duties) and it will be paid in 2024. It should be borne in mind that in accordance with the Deferred Annual Bonus Scheme, 25% of the variable remuneration corresponding to the three-year period accrued in 2022, the first year of the Scheme.

In accordance with the Deferred Annual Bonus Scheme and the collection criteria applicable to the sums accruing thereunder, in 2022 the Executive Chairman received the sum accrued in 2020 for his participation in the previous Deferred Annual Bonus Scheme 2019-2021: 1,058,191.51 euros gross.

B.7. Explain the nature and main features of the variable components of the remuneration schemes accrued and vested during the reporting period.

In particular:

- a) Identify each of the remuneration schemes that determined the variable remunerations accrued by each of the directors during the reporting period, including information on the scope, date of approval, date of implementation, vesting conditions if any, accrual and effective periods, criteria used to assess performance and the effect they had on the setting of the variable amount accrued, as well as the measurement criteria used and the time necessary to be in a position to measure adequately all the conditions and criteria stipulated. Include a detailed explanation of the criteria and factors applied with regard to the required time and the methods for checking that the performance and any other requirements on which the accrual and vesting of each component of the variable remuneration was conditional were actually met.
- b) In the case of stock options and other financial instruments, the general features of each scheme shall include information on the conditions for acquiring unconditional rights (vesting) and exercising those options or financial instruments, including the price and time for exercise.
- c) Each of the directors and their category (executive directors, non-executive proprietary directors, non-executive independent directors and other non-executive directors) who are beneficiaries of remuneration systems or schemes that include variable remuneration.
- d) If applicable, provide information on any payment deferral periods established that have been applied and/or the periods for retaining/not disposing of shares or other financial instruments, if any.

Explain the short-term variable components of the remuneration schemes:

Variable remuneration (short and long-term) for the performance of executive duties corresponds exclusively to the Chairman of the Board, the only Director performing executive duties, on the terms set out elsewhere in this Report.

The ordinary annual variable remuneration established in the executive Director's contract is proportionate to the level of achievement of the targets set for each year by the Board of Directors, based on a proposal by the Nomination and Remuneration Committee. As established in the Directors' Remuneration Policy 2022-2024, accrual of the Executive Chairman's annual bonus for the reporting year (2022) is tied to the level of achievement of the Group's consolidated EBITDA target set in the 2022 budget. See in this regard section A.1.6 of this Report.

Once the results of the preceding year are available (normally in February of the following year) the Nomination and Remuneration Committee checks the level of achievement of the target, which is taken as the basis for determining the annual variable remuneration, if any, payable to the Executive Chairman.

The annual variable remuneration of the Executive Chairman is monetary.

Neither the Executive Chairman nor any Director participates in stock option schemes or similar schemes in respect of other financial instruments.

Explain the long-term variable components of the remuneration schemes:

Only the Executive Chairman, the only Director with executive duties, receives a long-term annual variable remuneration.

That long-term variable remuneration derives from the participation of the Executive Chairman, together with the senior executives of the Group, in the Deferred Annual Bonus Scheme (which is in turn tied to the three-year Strategic Plan in place from time to time).

The payment of bonuses is conditional upon meeting the targets set each year by the Remuneration Scheme and the beneficiary's continued employment in the Group at the date of payment established for those bonuses, except in cases of: (i) death or disability of the beneficiary or (ii) takeover in the Group or a similar corporate operation, or (iii) any other extraordinary circumstance which may, in the Board's opinion, materially affect the Scheme.

The targets to which the long-term bonus is tied are those identified in the Scheme for each year of the three-year period 2022-2024. A more detailed explanation is given in section A.1.6 of this Report.

Bonuses are paid 11 months after being determined (after checking the degree of achievement of the targets), so by the time they are paid, more than one year has passed since the end of the year to which the bonus corresponds.

Once the results of the preceding year are available, the Nomination and Remuneration Committee checks the degree of achievement of the quantitative targets taken as the basis for determining the remuneration corresponding to each year of the Scheme. The assessment by the Nomination and Remuneration Committee of the qualitative aspects considered to determine the long-term bonus is made following a report by the Strategy and Investment Committee.

B.8. Indicate whether certain variable components accrued have been adjusted downward after deferral of the payment of non-vested amounts, or repayment has been claimed after vesting and payment of those components, in view of information subsequently found to be inaccurate. State the amounts reduced or repaid by application of the malus and clawback clauses, why these clauses were enforced and the years to which they correspond.

No such circumstances have existed.

B.9. Explain the main features of the long-term savings schemes, the amount or equivalent annual cost of which is indicated in the tables in Section C, including retirement and any other survival benefit, wholly or partially financed by the company with internal or external funds, stating the type of scheme, whether it is defined-contribution or defined-benefit, the contingencies it covers, the conditions for the vesting of economic rights in favour of the directors and the compatibility thereof with any kind of termination benefit payable upon interruption of the contractual relationship between the company and the director.

There are no such schemes.

B.10. State any compensations or other kind of payment accrued and/or received by directors during the reporting period upon termination of their contracts, at the initiative of the company or the director, early or at the end of the specified term.

No compensation has been arranged or paid for termination of Directors' duties (to Directors for their duties as such or executive Directors for their executive duties).

B.11. State whether there have been any significant modifications in the contracts of senior executives or executive directors and explain those changes, if any. Explain the main terms and conditions of the new contracts signed with executive directors during the reporting period unless they have been explained in section A.1.

In the reporting year (2022), as resolved by the Board of Directors on 27 February 2023 at the proposal of the Nomination and Remuneration Committee (in response to a proposal submitted by the Executive Chairman), the annual variable remuneration of the Executive Chairman was capped at 100% of his fixed remuneration in the event of over-achievement of targets, as opposed to the 150% cap applicable prior to that, with effect from 1 January 2022.

That modification of the conditions applicable to the Executive Chairman's annual variable remuneration requires the consequent amendment of the Directors' Remuneration Policy 2022-2024, to indicate therein the lower cap for over-achievement. This amendment to the Policy will be laid before the Annual General Meeting at which this Report is to be put to an advisory vote and it is assumed in the drafting of this Report, as indicated elsewhere herein that it will be approved.

B.12. Explain any supplementary remuneration accrued by directors in consideration for services rendered other than those corresponding to their office as such.

As explained earlier, no supplementary remuneration is earned by the Directors (for their duties as such or for executive duties) in consideration for services rendered other than those corresponding to their office or, exclusively with regard to the Executive Chairman, to the performance of executive duties. However, as also mentioned earlier (see section A.1.12 of this Report), the Executive Chairman receives annual attendance fees as a Director of: (i) a Group Company, and (ii) an associate that is not part of the Group.

B.13. Explain any remuneration deriving from advances, loans or guarantees granted, indicating the interest rate, the essential terms and conditions and the amounts repaid, if any, as well as any obligations assumed on their behalf through guarantees.

Neither the Company nor any other companies in the Group have granted any loans, advances or guarantees to members of the board (to the Directors for their duties as such or the executive Directors for the performance of executive duties), or contracted any obligations on their behalf through guarantees or bonds.

B.14. Describe the remuneration in kind accrued by directors during the year, including a brief explanation of the nature of the different remuneration components.

As explained earlier (see sections A.1.4 and A.1.5 of this Report), only the Chairman of the Board, as the only executive Director with executive duties, receives remuneration in kind, consisting of the private use made of the company car allocated to him. The value of the remuneration in kind for the reporting year (2022), valued at 8,000 euros, is included within the fixed remuneration of the executive Director accrued in 2022.

In addition, the Company has a Flexible Remuneration Scheme, through which it is possible to design the composition of remuneration of the executives included in the Scheme (including the Chairman of the Board), so that they may receive part of that remuneration in the form of products and services previously selected by the Company. The value of those products and services is deducted from the gross salary of the executive, who is allocated in lieu the corresponding income in kind. These products and services include group medical insurance, housing rental, nursery, vehicle hire/lease and employee training.

Therefore, these items do not entail additional remuneration to that received in cash, since the amounts paid by the Company to the corresponding service providers are deducted from the beneficiary's cash remuneration.

B.15. Explain the remuneration accrued by the director by virtue of the payments made by the listed company to a third entity to which the director renders services, when those payments are intended to remunerate said director's services in that company.

No payments of this nature have been made.

B.16. Explain and provide details of the amounts accrued during the year in connection with any item of remuneration other than those listed above, of whatever nature and provenance within the group, including all benefits in whatsoever form, such as when it is considered a related party transaction or when it may distort the true and fair view of the total remuneration accrued by the director. The amount awarded or pending payment, the nature of the payment received and the reasons, where appropriate, why it has been considered not to form part of the director's remuneration, for their duties as such or for executive duties, and whether or not it has been considered appropriate to include it within the amounts accrued as "other items" in section C.

As explained earlier, there are no remunerations other than those listed above, without prejudice to the fees received by the Chairman of the Board as Director of Pastificio Lucio Garofalo, S.p.A (a subsidiary of the Ebro Foods Group), of 5,000 euros gross in 2022.

In 2022, the Chairman of the Board also received Directorship fees from Riso Scotti, S.p.A. in a sum of 5,200 euros gross. As indicated in Article A.1, point 12, above, Riso Scotti, S.p.A. is an associate and does not form part of the Ebro Foods Group.

C. DETAILS OF INDIVIDUAL REMUNERATION ACCRUED BY EACH DIRECTOR

Name	Type	Accrual period 2021
ANTONIO HERNÁNDEZ CALLEJAS	Executive Chairman	From 01/01/2022 to 31/12/2022
DEMETRIO CARCELLER ARCE	Proprietary Vice-Chairman	From 01/01/2022 to 31/12/2022
ALIMENTOS Y ACEITES, S.A.	Proprietary Director	From 01/01/2022 to 29/03/2022
BELÉN BARREIRO PÉREZ-PARDO	Independent Director	From 01/01/2022 to 31/12/2022
MARÍA CARCELLER ARCE	Proprietary Director	From 01/01/2022 to 31/12/2022
FERNANDO CASTELLÓ CLEMENTE	Independent Director	From 01/01/2022 to 31/12/2022
JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL	Proprietary Director	From 01/01/2022 to 31/12/2022
CORPORACIÓN FINANCIERA ALBA, S.A.	Proprietary Director	From 01/01/2022 to 31/12/2022
MERCEDES COSTA GARCÍA	Lead Independent Director	From 01/01/2022 to 31/12/2022
EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.	Proprietary Director	From 01/01/2022 to 31/12/2022
JAVIER FERNÁNDEZ ALONSO	Proprietary Director	From 01/01/2022 to 31/12/2022
GRUPO TRADIFÍN, S.L	Proprietary Director	From 01/01/2022 to 31/12/2022
HERCALIANZ INVESTING GROUP, S.L	Executive Director	From 01/01/2022 to 31/12/2022
MARC THOMAS MURTRA MILLAR	Independent Director	From 31/01/2022 to 31/12/2022
JORDI XUCLÀ COSTA	Proprietary Director	From 30/03/2022 to 31/12/2022

C.1. Complete the following tables regarding the individual remuneration of each of the directors (including the remuneration for executive duties) accrued during the financial year.

a) Remuneration accrued in the reporting company:

i) Remuneration in cash (thousand euros)

Name	Fixed remuneration	Attendance fees	Remuneration as members of board committees	Salary	Short-term variable remuneration	Long-term variable remuneration	Termination benefits	Other items	Total 2022	Total 2021

Comments

See Explanatory Note Two in section D of this Report regarding the classification of Herculanz Investing Group, S.L. as an executive Director.

With regard to the average remuneration of the employees the information established for the year 2018 contained in the computer files of the Company for that year is not adjusted to the criteria established in this Report and, therefore, is not comparable.

D. OTHER INFORMATION OF INTEREST

If there are any material aspects relating to directors' remuneration that could not be disclosed in other sections of this report but that are necessary to provide a more comprehensive and fully reasoned picture of the remuneration structure and practices for the company's directors, describe them briefly.

CONTINUATION OF SECTION A.1.1 OF THIS REPORT

The principles behind the Directors' Remuneration Policy 2022-2024 are set out in section 3 thereof. Based on those principle, in the Directors' Remuneration Policy 2022-2024, the Directors' remuneration for this year (2023) is structured as follows:

a) All the Directors, as such, receive the fixed remuneration established each year by the Annual General Meeting. The relevant proposal submitted by the Board of Directors to the Annual General Meeting will take account of the importance of the Company and its economic situation. Pursuant to Article 22 of the Articles of Association regarding Directors' remuneration, it is up to the Annual General Meeting to set the annual fixed sum to be received by all the Directors, for their duties as such. Then, following a report by the Nomination and Remuneration Committee, the Board of Directors establishes the individual remuneration of each Director for their duties as such, taking into account the positions held by the Directors on the Board of Directors, their membership of Board Committees and any other objective circumstances that the Board of Directors may consider appropriate, within the framework of the Articles of Association and the Remuneration Policy. The Board of Directors will also decide on the timing of payments. For this purpose, a points system has been established in the terms described hereinbelow.

The Directors also receive, for their duties as such, fees for attending the meetings of the Board and any Board Committees they are on. The amount of those fees is also set by the Annual General Meeting and remains in force until amended.

b) Non-executive Directors do not receive any variable remuneration based on the profits of the Company or Group.

c) The executive Directors (only the Executive Chairman for his executive duties), just like the other senior executives of the Group, also receive an annual remuneration for their executive duties according to the terms of their respective contracts. The remuneration structure of executive Directors (and other senior executives in the Group) includes the following components:

- annual fixed remuneration;
- short-term variable remuneration;
- deferred annual variable remuneration, linked to the Strategic Plan 2022-2024, as explained in this Report.

The fixed remuneration is the remuneration established in the corresponding contract signed between the Company and the executive Director. With regard to the variable remunerations, both short-term annual and deferred annual, the Nomination and Remuneration Committee rates each year the degree of achievement of the targets to which they are linked (established in the Remuneration Policy 2022-2024), taking account of any reports submitted by other Committees, and submits the corresponding proposal and report to the Board of Director in respect of the individual remuneration of the executive Director in that year. For this year (2023):

- The annual variable remuneration of the Executive Chairman (the only executive Director with executive duties) will be determined according to the level of achievement of the EBITDA (80%) and ROCE (20%) targets established in the consolidated annual budget 2023. Assuming that the proposed amendment to the Policy, to be laid before the same Annual General Meeting at which this Report is to be put to an advisory vote, is approved, that annual variable remuneration will be capped (in the event of over-achievement of targets) at 100% of the annual fixed remuneration.

- The deferred annual variable remuneration of the Executive Chairman will be determined according to the level of achievement of the EBITDA (80%) and EBITDA-CAPEX (20%) targets established for 2023 in the Group's consolidated Strategic Plan 2022-2024. In 2023, if the targets are achieved in the terms established in the Policy, a deferred annual bonus will accrue of up to 25% of the total remuneration subject to the Long-Term Incentive Plan, capped at 100% in the event of over-achievement of targets.

The current Directors' Remuneration Policy 2022-2024 does not contemplate the application of any temporary exceptions.

EXPLANATORY NOTE ONE, REGARDING THE CHANGES PRODUCED IN THE BOARD OF DIRECTORS IN 2022

The following changes were produced in the composition of the Board during 2022:

- On 31 January 2022, the Board resolved to appoint Marc Thomas Murtra Millar Director by the cooptation procedure to fill the vacancy produced by the resignation tendered by Mr Zorrero Camas. Mr Murtra Millar was also appointed member of the Executive Committee and the Audit, Control and Sustainability of the Company.

At the Annual General Meeting held on 29 June 2022, it was resolved to ratify the appointment by cooptation of the Director Marc Thomas Murtra Millar and the Board of Directors at its meeting held after the General Meeting was resolved to ratify Mr Murtra Millar's appointment as member of the Executive Committee and the Audit, Control and Sustainability.

On 23 November 2022, in view of a favourable report by the Nomination and Remuneration Committee, the Board resolved to appoint Marc Thomas Murtra Millar Chair of the Audit, Control and Sustainability Committee, replacing Mercedes Costa García, whose term as Chair of that Committee had expired, pursuant to section 529. quarterdecies.2 of the Corporate Enterprises Act.

- On 24 March 2022, the proprietary Director and significant shareholder Alimentos y Aceites, S.A. stepped down from the Board with effect as from 29 March 2022.

- On 30 March 2022, the Board of Directors resolved to appoint Jordi Xuclà Costa Director by the cooptation procedure to fill the vacancy produced by the resignation tendered by Alimentos y Aceites, S.A.

At the Annual General Meeting held on 29 June 2022, it was resolved to ratify the appointment by cooptation of the Director Jordi Xuclà Costa.

EXPLANATORY NOTE TWO, REGARDING THE CLASSIFICATION OF HERCALIANZ INVESTING GROUP, S.L. AS EXECUTIVE DIRECTOR

As mentioned throughout this Report, although Hercalianz Investing Group, S.L. is classified as an Executive Director, it has never performed executive duties in Ebro Foods, S.A. or any subsidiary of the Group, so has never received and does not receive any remuneration as such.

Hercalianz Investing Group, S.L. has been classified as an Executive Director (pursuant to section 212 bis of the Corporate Enterprises Act) because its representative on the Board of Directors of Ebro Foods, S.A. is an executive of a subsidiary of the Ebro Foods Group.

This annual remuneration report was approved by the board of directors of the company at its meeting on:

30/03/2023

State whether any directors voted against or abstained in connection with the approval of this Report.

- Yes
 No

Name of board member (s) who did not vote for approval of this report	Reasons (against, abstention, non-attendance)	Explain the reasons
ALIMENTOS Y ACEITES, S.A.	Abstention	Jordi Xuclà Costa, proprietary Director for Alimentos y Aceites, S.A. (a significant shareholder that was a Director until 29 March 2022), abstained in the Board vote on this Report, declaring that the vote to be cast by SEPI, as shareholder of Ebro Foods, S.A. is determined by the Board of Directors of SEPI (as controlling shareholder of Alimentos y Aceites, S.A.). Non-Financial Statement for the year ended December 31, 2022**

EBRO FOODS, S.A. AND SUBSIDIARIES

INDEPENDENT LIMITED ASSURANCE REPORT OF THE CONSOLIDATED NON-FINANCIAL STATEMENT

Translation of a report originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

To the Shareholders of Ebro Foods, S.A.:

Pursuant to article 49 of the Code of Commerce we have performed a verification, with a limited assurance scope, of the Consolidated Non-Financial Information Statement (hereinafter NFS) for the year ended December 31, 2022, of Ebro Foods, S.A. and subsidiaries (hereinafter, the Group), which is part of the Group's accompanying Consolidated Management Report.

The content of the Management Report includes additional information to that required by prevailing mercantile regulations in relation to non-financial information that has not been subject to our verification. In this regard, our assignment has been exclusively limited to the verification of the information shown in the Annex 4 "Index of contents required by Act 11/2018 of December 28" of the accompanying NFS.

Responsibility of the Administrators

The preparation of the NFS included in the Consolidated Management Report of Ebro Foods, S.A. and its content is the responsibility of the Administrators of Ebro Foods, S.A. The NFS was prepared in accordance with the content required by current commercial regulation and in conformity with the criteria outlined in the *Global Reporting Initiative Sustainability Reporting Standards* (GRI standards) selected, as well as other criteria described in accordance with that indicated for each subject in the Annex 4 "Index of contents required by Act 11/2018 of December 28" from the accompanying NFS.

The Administrators are also responsible for the design, implementation and maintenance of such internal control as they determine is necessary to enable the preparation of an NFS that is free from material misstatement, whether due to fraud or error.

They are further responsible for defining, implementing, adapting and maintaining the management systems from which the information necessary for the preparation of the NFS is obtained.

Our independence and quality management

We have complied with the independence and other ethics requirements of the International Code of Ethics for Accounting Professionals (including international standards on independence) issued by the International Standards Board on Ethics for Accounting Professionals (IESBA) which is based on the fundamental principles of integrity, professional objectivity, competence and diligence, confidentiality and professional behaviour.

Our firm applies current international quality standards and maintains, consequently, a quality system that includes policies and procedures related to compliance with ethical requirements, professional standards and legal provisions and applicable regulations.

The engagement team consisted of experts in the review of Non-Financial Information and, specifically, in information about economic, social and environmental performance.

Our responsibility

Our responsibility is to express our conclusions in an independent limited verification report based on the work performed. Our review has been performed in accordance with the requirements established in prevailing International Standard on Assurance Engagements 3000 "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" (ISAE 3000 Revised) issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC) and the guidelines for verifying Non-Financial Statement, issued by the Spanish Official Register of Auditors of Accounts (ICJCE).

The procedures carried out in a limited assurance engagement vary in nature and execution timing and are smaller in scope than reasonable assurance engagements, and therefore, the level of assurance provided is likewise lower.

Our work consisted in requesting information from Management and the various Group units participating in the preparation of the 2022 NFS, reviewing the process for gathering and validating the information included in the NFS, and applying certain analytical procedures and sampling review tests as described below:

- ▶ Meeting with Group personnel to know the business model, policies and management approaches applied, the main risks related to these matters and obtain the necessary information for our external review.
- ▶ Analyzing the scope, relevance and integrity of the content included in the NFS for the year 2022 based on the materiality analysis made by Ebro Foods, S.A. and described in section "Corporate social responsibility and sustainability model", considering the content required by prevailing mercantile regulations.
- ▶ Analyzing the processes for gathering and validating the data included in the 2022 Non-Financial Statement.
- ▶ Reviewing the information on the risks, policies and management approaches applied in relation to the material aspects included in the 2022 NFS.
- ▶ Checking, through tests, based on a selection of a sample, the information related to the content of the 2022 NFS and its correct compilation from the data provided by the information sources.
- ▶ Obtaining a representation letter from the Board of Directors and Management.

Paragraph of emphasis

Regulation (EU) 2020/852 of the European Parliament and the Council, June 18 2020, on the establishment of a framework to facilitate sustainable investments settles the obligation to disclose information on how and to what extent the company's activities are associated with economic activities that are considered aligned in relation to climate change mitigation and adaptation objectives for the first time for the financial year 2022, additionally to the information related to eligible activities required in financial year 2021. Consequently, comparative information about alignment has not been included in the accompanying Consolidated Management Report. Additionally, information has been included, for which the shareholders of Ebro Foods, S.A. have chosen to apply the criteria that, in their opinion, best enable compliance with the new obligation and which are defined within the chapter 3 "Corporate social responsibility and sustainability model" of the accompanying NFS. Our conclusion has not been modified in relation to this matter.

Conclusion

Based on the limited assurance procedures conducted and the evidence obtained, no matter has come to our attention that would cause us to believe that Ebro Foods, S.A. NFS for the year ended December 31, 2022 has not been prepared, in all material respects, in accordance with the contents required by prevailing company law and the criteria of the selected GRI standards, as well as other criteria, described as explained for each subject matter in the Annex 4 "Index of contents required by Act 11/2018 of December 28" of the Consolidated Management Report.

Use and distribution

This report has been prepared as required by current commercial regulation in Spain, thus it may not be suitable for any other purpose or jurisdiction.
