Translation of a report and financial statements originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

INDEPENDENT AUDIT REPORT ON THE FINANCIAL STATEMENTS

To the Shareholders of Ebro Foods, S.A.:

Report on the financial statements

We have audited the accompanying financial statements of Ebro Foods, S.A., which comprise the balance sheet at December 31, 2015, the income statement, the statement of changes in equity, the cash flow statement, and the notes thereto for the year then ended.

Directors' responsibility for the financial statements

The directors are responsible for the preparation of the accompanying financial statements so that they give a true and fair view of the equity and financial position and the results of Ebro Foods, S.A., in accordance with the regulatory framework for financial information applicable to the Entity in Spain, identified in Note 2 to the accompanying financial statements, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the accompanying financial statements based on our audit. We conducted our audit in accordance with prevailing audit regulations in Spain. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit requires performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying financial statements give a true and fair view, in all material respects, of the equity and financial position of Ebro Foods, S.A. at December 31, 2015, and its results and cash flow for the year then ended, in accordance with the applicable regulatory framework for financial information in Spain, and specifically the accounting principles and criteria contained therein.

Report on other legal and regulatory requirements

The accompanying 2015 management report contains such explanations as the directors consider appropriate concerning the situation of the Company, the evolution of its business and other matters; however, it is not an integral part of the financial statements. We have checked that the accounting information included in the aforementioned management report agrees with the 2015 financial statements. Our work as auditors is limited to verifying the management report in accordance with the scope mentioned in this paragraph, and does not include the review of information other than that obtained from the Company's accounting records.

ERNST & YOUNG, S.L.

EBRO FOODS, S.A. NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2015 (THOUSANDS OF EUROS)

1. CORPORATE INFORMATION

Ebro Foods, S.A., a Spanish public limited company (sociedad anónima), hereinafter, the Company, was created by the merger by absorption of Puleva S.A. into Azucarera Ebro Agrícolas S.A. on January 1, 2001. On the occasion of that transaction, Azucarera Ebro Agrícolas, S.A.'s name was changed to Ebro Puleva, S.A. Later, at the Annual General Meeting of June 1, 2010, its registered name was changed again to its current name: Ebro Foods, S.A.

The Company's current registered office is in Madrid (28046), at Paseo de la Castellana, 20. The Company's corporate object is to perform the following business activities in Spanish and foreign markets:

- a) The production, preparation, sale, research, export and import of all manner of food and dietary products for both human and animal consumption, in addition to energy food products, including their by-products and waste, and, in particular, rice, pasta, sauces and all manner of nutritional products.
- b) The production, exploitation and sale of all manner of food, soft and alcoholic beverages.
- c) The use of by-products and the provision of services or products of all types relating to the aforementioned activities, including refrigeration cabinets, ice, industrial gas, steam, cold and energy.
- **d)** The acquisition, lease, creation, installation, development and management of industrial, farming and livestock facilities in the food, nutrition and beverage (including alcohol) industries.
- e) The performance of projects and installation work and the provision of all manner of technical assistance to other companies in the aforementioned industries; the creation, development, protection and use of patents, trademarks and other assets susceptible to intellectual property protection.
- f) Staff training, computer programming or management, investment and monetization of resources, advertising and image, transport, distribution and sale and marketing activities that are ancillary or complementary to the aforementioned activities.

The activities comprising the corporate object may be carried on through the subscription or acquisition of shares or other equity interests in companies with an identical or similar corporate purpose.

Ebro Foods, S.A. is the parent of a consolidated group comprising it and its subsidiaries and associates with which it has separately presented consolidated financial statements for 2015, which were authorized for issue by the Board of Directors of Ebro Foods, S.A. on March 31, 2016. The 2014 consolidated financial statements were approved at the Annual General Meeting held by Ebro Foods, S.A. on June 3, 2015 and duly filed with Madrid's Companies Register.

This fact should be taken into consideration in assessing the working capital position typical of year-end in the separate annual financial statements of Ebro Foods, S.A., which, as the group's parent company, has the option of financing itself via dividends and additional bank borrowings, among other alternatives.

The key figures contained in the 2015 and 2014 consolidated financial statements, which were drawn up in accordance with Final Provision Eleven of Spanish Law 62/2003, of December 30, 2003, under the International Financial Reporting Standards approved by the European Commission, are replicated below:

	AT 12-3	1-2014	AT 12-3	1-2015 ·
TOTAL ASSETS		3,162,068		3,403,676
Equity:		1,873,805		1,992,916

Attributable to non-controlling interests	3,106		5,842	

Thousands of euros

2. BASIS OF PRESENTATION OF THE FINANCIAL STATEMENTS

The figures provided in these financial statements are presented in thousands of euros, unless otherwise indicated.

FINANCIAL REPORTING FRAMEWORK APPLICABLE TO THE COMPANY

The accompanying financial statements were authorized for issue by the directors in keeping with the financial reporting regulatory framework applicable to Company, namely:

- a) Spain's Code of Commerce and other company law
- b) The Spanish General Accounting Plan enacted by Royal Decree 1514/2007 and its sector-specific adaptations
- c) The binding rules issued by the ICAC (acronym in Spanish for the Audit and Accounting Institute) enacting the General Accounting Plan and its complementary rules and regulations
- d) Other applicable Spanish accounting regulations

FAIR PRESENTATION

The accompanying financial statements were prepared from the Company's accounting records in keeping with the prevailing applicable financial reporting framework and, specifically, the accounting principles and criteria contained therein, to present fairly the Company's equity and financial position at year-end and financial performance and cash flows during the year.

These financial statements have been authorized for issue by the Company's directors and will be submitted for shareholder approval at the Annual General Meeting at which they are expected to be ratified without modification. The 2014 financial statements were approved at the Annual General Meeting held on June 3, 2015.

COMPARATIVE INFORMATION

The information provided in these financial statements in respect of 2014 is presented to enable a reader comparison with the equivalent 2015 figures.

As required in the sole additional provision of the Resolution issued by the Spanish Audit and Accounting Institute (ICAC) on January 29, 2016 regarding the information to be disclosed in the financial statement notes in relation to the average term of payment to trade suppliers, the Company provides, in note 19 below, disclosures exclusively in respect of 2015; comparative information is not provided as the 2015 financial statements are deemed first-time statements, exclusively in relation to application of the principle of uniformity and the attendant prior-year disclosure requirement.

CRITICAL ISSUES REGARDING THE MEASUREMENT AND ESTIMATION OF UNCERTAINTY

The directors have prepared the Company's financial statements using estimates based on historical experience and other factors considered reasonable under the circumstances. The carrying amounts of assets and liabilities which are not readily apparent from other sources were established on the basis of these estimates. The Company reviews these estimates continually. However, given the uncertainty inherent in these estimates, there is a considerable risk that the carrying amounts of affected assets and liabilities may have to be significantly adjusted in the future should material changes occur in the assumptions, events or circumstances on which they were based.

In addition to other relevant information regarding the estimation of uncertainty at the reporting date, the key assumptions regarding the future that imply a considerable risk that the carrying amounts of assets and liabilities may require material adjustment in the next financial year, are as follows:

* Taxation

In accordance with prevailing tax legislation, tax returns cannot be considered final until they have been inspected by the tax authorities or until the four-year inspection period from the date of presentation of the respective returns has elapsed. The directors believe that no significant additional tax liabilities would arise for the Company in the event of a tax inspection (note 15).

Impairment of non-financial assets

The Company tests its non-financial assets for indications of impairment annually. Intangible assets that have an indefinite useful life are tested for impairment at least annually. All other non-financial assets are tested for impairment whenever there are indications that their carrying amount may not be recoverable (notes 5, 6 and 7) and are depreciated over their remaining estimated useful lives.

Deferred tax assets

Deferred tax assets are recognized on the basis of the Company's estimates regarding the probability of occurrence and level of future taxable profits (note 15).

Provisions

The Company recognizes provisions for liabilities in keeping with the accounting policy outlined in note 4.n below. The Company has made judgments and estimates as to the likelihood that the provisioned liabilities will materialize, as well as the corresponding amounts, and has recognized provisions when the liability is deemed probable, estimating the cost that would be generated by the obligating event (note 14).

Although these estimates were made on the basis of the best information available at year-end, events that take place in the future might make it necessary to change these estimates (upwards or downwards) in coming years. Changes in accounting estimates would be applied prospectively.

TRANSACTIONS CONCLUDED IN 2015 THAT AFFECT THE BASIS OF PRESENTATION

The Company did not undertake any transactions in 2015 that affect the presentation or comparability of these financial statements. The transactions undertaken in prior years requiring specific disclosures in subsequent reporting periods are outlined below:

a) Merger by absorption of Productos La Fallera, S.A.:

See 2003 financial statements

b) Dissolution of Azucarera Ebro Agrícolas Gestión de Patrimonio, S.L. (GDP) transferring all of its assets and liabilities to Ebro Foods, S.A.:

See 2003 financial statements

c) Non-monetary contribution to Ebro Financial Corporate Services S.L.:

See 2012 financial statements

a) Liquidation of Azucarera Energías, S.A. in December 2015:

The wholly-owned subsidiary, Azucarera Energías, S.A., was liquidated in December 2015. The net assets obtained in the wake of this entity's liquidation, coupled with the impairment provision recognized against this investment, gave rise to the recognition of a loss of 65 thousand euros in 2015 (note 8.a).

3. DISTRIBUTION OF PROFIT

	AMOUNT
Basis of distribution	
Unrestricted reserves	693,014
Profit for the year (as per income statement)	23,220
TOTAL	716,234
	Thousands of ouros

Thousands of euros

The distribution of profit proposed by the directors of Ebro Foods, S.A. at a meeting of the Board of Directors held on March 31, 2016 for submission for ratification at the upcoming Annual General Meeting is as follows:

The profit generated by the Ebro Foods Group in 2015 makes it possible, as in prior years, to propose the payment of a cash dividend, with a charge against unrestricted reserves and profit for the year, of 0.54 euros per share, payable in the course of 2016, in a total amount of 83,087 thousand euros

The dividend will be paid out in three instalments of 0.18 euros per share on April 1, June 29 and October 3, 2016.

LIMITATIONS ON THE DISTRIBUTION OF DIVIDENDS

The Company is obliged to transfer 10% of profit for the year to a legal reserve until this reserve reaches an amount equal to at least 20% of share capital. This reserve cannot be distributed to shareholders (note 12.c) unless it exceeds and only in the amount by which it exceeds this 20% threshold.

Once the legal and bylaw-stipulated requirements have been met, dividends may be distributed against profit for the year or freely distributable reserves so long as the value of equity is not lower than or would not fall below share capital as a result of the distribution. For these purposes, any profit recognized directly in equity may not be distributed either directly or indirectly. If prior-year losses were to reduce the Company's equity to below the amount of share capital, profit would have to be allocated to offset these losses.

4. RECOGNITION AND MEASUREMENT POLICIES

A) INTANGIBLE ASSETS

Intangible assets are initially measured at either acquisition or production cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition.

Following initial measurement, they are stated at cost less accumulated amortization and any impairment losses.

The Company assesses each intangible asset's useful life to determine whether it is finite or indefinite.

Intangible assets having finite useful lives are amortized on a straight-line basis over their remaining estimated useful lives, taking into account their residual value. Amortization methods and periods are reviewed at year-end and adjusted prospectively where applicable. Intangible assets are tested for impairment at least at year-end and are written down where applicable. Patents, licences and trademarks are amortized on a straight-line basis, generally four years, as is computer software.

Intangible assets with indefinite useful lives are not amortized but are tested for impairment at least annually (note 4.e). The assessment of these assets' indefinite useful life is also reviewed annually.

B) PROPERTY, PLANT AND EQUIPMENT

Items of property, plant and equipment are initially recognized at either acquisition or production cost. The cost of property, plant and equipment acquired in a business combination is the fair value of the assets at the acquisition date. Following initial recognition, they are carried at cost less accumulated depreciation and any impairment loss.

The cost of assets acquired or produced since January 1, 2008 that require more than one year to ready for use (qualifying assets) includes borrowing costs accrued prior to putting the assets to use whenever these expenses meet capitalization requirements.

Property, plant, and equipment likewise includes the initial estimate of the present value of asset dismantling or retirement obligations and other associated costs, such as the cost of restoring assets, when these obligations trigger the recognition of provisions.

Expenses for repairs which do not prolong the useful life of the assets, as well as maintenance expenses, are taken to the income statement in the year incurred. Expenses incurred for expansion or improvements which increase the productivity or prolong the useful life of these assets are capitalized as an increase in the carrying amount of the item.

Depreciation charges are recognized in the income statement. Assets are depreciated from when they are ready for their intended use. Items of property, plant and equipment are depreciated on a straight-line basis over their respective estimated useful lives, taking into consideration actual depreciation sustained through operation, usage and wear and tear, as follows:

DEPRECIATION RATES

Buildings	2.0% to 3.0%
Machinery, plant and tools	2.0% to 8.0%
Furniture and other fixtures	10.0% to 25.0%
Vehicles	5.5% to 16.0%

The Company reviews its material assets' residual values, useful lives and depreciation methods at each year-end and adjusts them prospectively where applicable.

C) INVESTMENT PROPERTIES

Investment properties comprise land and buildings that are leased to third parties or not being used for operating purposes. Buildings so classified are depreciated on a straight-line basis over an estimated useful life of 50 years.

The measurement criteria applicable to property, plant and equipment apply in full to investment properties. Transfers are made to (or from) investment property only when there is a change in use.

D) EXCHANGES OF ASSETS

Assets acquired in exchange for other assets are analyzed individually to determine whether the related transaction has commercial substance.

When the transaction has commercial substance, the asset received is measured at the fair value of the asset given up, plus any monetary compensation where applicable, except for transactions for which the evidence supporting the fair value of the asset received is better, in which case this measurement is taken. Any valuation differences arising upon derecognition of the asset given up are recognized in the income statement.

When the exchange does not have commercial substance or when the fair value of the assets exchanged cannot be reliably measured, the asset received is measured at the carrying amount of the asset given up, plus monetary consideration given, if any.

E) IMPAIRMENT OF NON-CURRENT AND NON-FINANCIAL ASSETS

The Company assesses whether there is any indication that a non-current, financial asset or cash-generating unit may be impaired at least at each reporting date. If any indication of impairment exists, and regardless of any such indications in the case of goodwill and intangible assets with indefinite useful lives, the directors estimate the assets' recoverable amounts.

The recoverable amount of its investment properties is the higher of fair value less costs to sell and value in use. When the carrying amount exceeds the recoverable amount, the asset is considered impaired.

Value in use is the present value of expected future cash flows, discounted using risk-free market rates, adjusted for the risks specific to the asset. For those assets that do not generate cash flows that are largely independent of those of other assets or groups of assets, the recoverable amount is determined for the cash-generating units to which the assets belong.

Impairment losses and any subsequent reversals are recognized in the income statement. Impairment losses are reversed only if the circumstances giving rise to them have ceased to exist. Goodwill impairment losses are not reversed. The reversal is limited to the carrying amount that would have been determined had no impairment loss been recognized for the asset.

F) LEASES

Leases are classified as finance leases when, based on the economic terms of the arrangement, substantially all the risks and rewards incidental to ownership of the leased item are transferred to the lessee. All other lease arrangements are classified as operating leases.

Company as lessee

Assets acquired under finance leases are classified as appropriate within property, plant and equipment and are measured at the lower of the fair value of the leased property and the present value of the minimum lease payments; the corresponding financial liability is recognized in the same amount. Lease payments are apportioned between finance charges and reduction of the lease liability. Leased assets are depreciated, impaired, and derecognized using the same criteria as apply to owned assets of a similar nature.

Operating lease payments are expensed in the income statement as they accrue.

Company as lessor

Rental income from operating leases is recognized in the income statement as accrued. Direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and are expensed over the term of the lease using the same criteria as are used to recognize lease income.

G) FINANCIAL ASSETS

1. Classification and measurement

1.1. Loans and receivables

The Company recognizes trade and non-trade receivables in this category, which includes financial assets with fixed or determinable payments not quoted on active markets which it expects to recover in full, except, where applicable, in cases of credit impairment.

Upon initial recognition in the balance sheet, these investments are recognized at fair value, which, unless there is evidence to the contrary, is the transaction price, deemed equivalent to the fair value of the consideration paid plus directly attributable transaction costs. Subsequent to initial recognition, these financial assets are measured at amortized cost.

Nevertheless, trade receivables that mature within less than one year from the reporting date with no contractual interest rate, as well as advances, loans to employees, deposits, dividends receivable and called-up payments on equity instruments, the amount of which is expected to be realized in the short term, are carried at nominal value both upon initial and subsequent measurement when the effect of not discounting the cash flows is not material.

1.2. Held-to-maturity investments

Held-to-maturity investments include debt instruments with fixed maturities and fixed or determinable payments traded on active markets which the Company has the positive intention and the ability to hold to maturity.

Upon initial recognition in the balance sheet, these investments are recognized at fair value, which, unless there is evidence to the contrary, is the transaction price, deemed equivalent to the fair value of the consideration paid plus directly attributable transaction costs.

Subsequent to initial recognition, these financial assets are measured at amortized cost.

1.3. Equity investments in group companies, jointly-controlled entities and associates

This category includes investments in companies over which the Company exercises control, joint control under bylaw stipulations or by contractual arrangement, or has significant influence. These investments are initially measured on the balance sheet at fair value, which is equivalent, absent indications to the contrary, to the transaction price, which is the fair value of the consideration given plus directly attributable costs, except in relation to non-monetary contributions to a group company in exchange for a business, in which instance the investment is measured at the carrying amount of the assets and liabilities comprising the business. The initially-recognized amount of an equity investment includes preferential subscription and similar rights acquired.

Subsequent to initial recognition, these financial assets are measured at cost, less any accumulated impairment losses.

When an investment is newly classified as an investment in a group company, jointly controlled entity or associate, cost is deemed to be the investment's recognized carrying amount, and previously recognized unrealized value adjustments are left in equity until the investment is either sold or impaired.

Where preferential subscription or similar rights are sold or separated for the purpose of exercising them, the cost of these rights decreases the carrying amount of the respective assets.

In the case of equity investments in group companies that give control over the subsidiary, the fees paid to legal advisors and other professionals in connection with the acquisition have been recognized directly in the income statement since January 1, 2010.

1.4. Financial assets held for trading

This category includes financial assets created or acquired for the purpose of obtaining a profit in the short term. At also includes derivatives not designated as hedging instruments for accounting purposes.

They are initially recognized at fair value which is equivalent to their transaction price, barring evidence to the contrary. Transaction costs that are directly attributable to their issuance are recognized in profit or loss.

The initially-recognized amount of an equity investment includes preferential subscription and similar rights acquired.

Subsequent to initial recognition, financial assets held for trading are carried at fair value without any deduction for transaction costs the Company may incur on sale or other disposal. Changes in fair value are recognized in profit or loss.

1.5. Available-for-sale financial assets

This category includes financial assets created or acquired for the purpose of obtaining a profit in the short term. It also includes derivatives not designated as hedging instruments for accounting purposes.

Upon initial recognition in the balance sheet, these investments are recognized at fair value, which, unless there is evidence to the contrary, is the transaction price, deemed equivalent to the fair value of the consideration paid plus directly attributable transaction costs. The initially-recognized amount of an equity investment includes preferential subscription and similar rights acquired.

After initial recognition, these assets are stated at fair value including any transaction costs relating to their sale. Changes in fair value are recognized directly in equity until the investment is derecognized or determined to be impaired, at which time the cumulative gain or loss previously deferred in equity is taken to the income statement. However, foreign exchange gains and losses on monetary assets denominated in foreign currency are recognized in the income statement.

Equity instruments whose fair value cannot be reliably determined are measured at cost, less any cumulative impairment.

Where preferential subscription or similar rights are sold or separated for the purpose of exercising them, the cost of these rights decreases the carrying amount of the respective assets.

1.6. Hedging derivatives

These are derivatives that qualify for hedge accounting.

Financial instruments that have been designated as hedging instruments or hedged items are measured as described in note 4.j.

2. Derecognition

Financial assets are derecognized when the contractual rights to the related cash flows have expired or when the assets have been transferred, provided that the risks and rewards incidental to ownership have been substantially transferred.

If the Company has neither substantially transferred nor retained the risks and rewards incidental to ownership of the financial asset, it is derecognized when control over the asset is relinquished. If control over the asset is retained, the Company continues to recognize it to the extent to which it is exposed to changes in the value of the transferred asset, i.e. to the extent of its continuing involvement, recognizing the associated liability as well.

The difference between the consideration received, net of attributable transaction costs, including any new financial asset obtained less any liability assumed, and the carrying amount of the asset transferred, plus any cumulative gain or loss recognized directly in equity, determines the gain or loss generated upon derecognition, and is included in the income statement for the year to which it relates.

The Company does not derecognize financial assets in respect of the sale of financial assets in which it has retained substantially the risks and rewards incidental to ownership, such as discounted bills, recourse factoring, disposals of financial assets under repurchase agreements at fixed prices or at the sale price plus interest, and securitizations of financial assets in which it retains subordinate financing or other types of guarantees which substantially absorb estimated losses. In these instances, it recognizes a financial liability at an amount equal to the consideration received.

3. Interest and dividend income generated by financial assets

Interest and dividends accrued on financial assets subsequent to their acquisition are recognized as income; specifically, dividends and finance income received from group companies are classified as revenue in the income statement. Interest is recognized using the effective interest rate method; dividends are recognized when the right to receive them is established.

To this end, financial assets are recognized separately upon initial measurement based on maturity, accrued explicit interest receivable at that date, and the dividends approved by the competent governing body up to the date the assets are acquired. Explicit interest refers to the contractual interest rate applied to the financial instrument.

In addition, when distributed dividends are derived unmistakably from profit generated prior to the date of acquisition, based on the conclusion that the amounts distributed exceed the profit generated by the investee since acquisition, the dividends are not recognized as revenue but rather as a decrease in the carrying amount of the investment.

H) IMPAIRMENT OF FINANCIAL ASSETS

The carrying amount of financial assets is adjusted against the income statement when there is objective evidence of an impairment loss.

To determine whether its financial assets may be impaired, the Company tests individual assets and portfolios of assets with similar risk traits for impairment.

Debt instruments

There is objective evidence that debt instruments (trade receivables, loans and debt securities) are impaired when an event has occurred after the initial recognition of the instrument that has an adverse impact on the related estimated future cash flows.

The Company designates debt instruments as impaired assets (doubtful exposures) when there is objective evidence of impairment, which refers basically to the existence of unpaid balances, contractual breaches, refinancing activity and/or other information evidencing the possibility that the total agreed-upon cash flows will not be collected on time, or at all.

For financial assets measured at amortized cost, impairment loss is measured as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the market rate prevailing upon initial recognition. For financial assets with floating interest rates, the effective interest rate at the reporting date is used.

For trade and other receivables, the Company considers balances past due by more than six months for which collection is uncertain, as well as balances owed by counterparties that have filed for creditor protection, to be doubtful assets.

Market value is used instead of the present value of estimated future cash flows in the case of quoted instruments, provided that this is considered a sufficiently reliable proxy for fair value.

The reversal of an impairment loss is recognized in the income statement. Such reversal is limited to the carrying amount of the financial asset that would have been recognized on the reversal date had no impairment loss been recognized.

Equity instruments

There is objective evidence that equity instruments are impaired when one or more events have occurred after initial recognition that indicate that the cost of the investment in equity instruments may not be recovered due to a prolonged or significant decline in fair value. Specifically, the Company considers that its equity instruments are impaired when their quoted value has decreased by 40% or for 18 months without having recovered their initial value.

In the case of equity instruments measured at fair value and included in the available-for-sale financial asset portfolio, impairment losses are measured as the difference between acquisition cost and fair value, less any previously recognized impairment losses. Unrealized capital losses deferred in equity are recognized immediately in profit or loss whenever it is deemed that such losses reflect a decline in fair value resulting from impairment. In the case of available-for-sale equity instruments, impairment losses give rise to a new cost basis for the impaired asset that provide the benchmark going forward for determining whether the investment has sustained additional permanent impairment and recognizing the related impairment losses. If, in a subsequent period, impairment losses are partially or totally reversed, a valuation adjustment is recognized for the related amount in equity.

In the case of equity instruments measured at cost and included in 'Available-for-sale financial assets' and 'Investments in group companies and associates', impairment loss is measured as the difference between the carrying amount of the financial asset and the recoverable amount, which is the greater of the asset's fair value, less costs to sell, and the present value of future cash flows derived from the investment. Unless better evidence is available, impairment of this type of asset is estimated based on the investee's equity adjusted for any unrealized capital gains existing on the measurement date. Impairment losses are recognized in the income statement and offset directly against the equity instrument.

For investments in group companies and associates, the reversal of an impairment loss is recognized in the income statement and is limited to the carrying amount of the investment that would have been recognized on the reversal date had the original impairment not occurred, whereas an impairment loss recognized in previous years on available-for-sale financial assets measured at cost cannot be reversed.

I) FINANCIAL LIABILITIES

1. Classification and measurement

1.1. Debts and payables

These instruments include financial liabilities generated by the purchase of goods and services in the ordinary course of the Company's business and non-trade payables that are not derivative instruments.

Upon initial recognition in the balance sheet, they are recognized at fair value, which, barring evidence to the contrary, is the transaction price, deemed equivalent to the fair value of the consideration received, adjusted by directly attributable transaction costs.

Subsequent to initial recognition, these financial liabilities are measured at amortized cost. Accrued interest is recognized in the income statement using the effective interest rate method.

Nevertheless, trade payables that mature within less than one year with no contractual interest rate, as well as called-up payments on shares, payment of which is scheduled in the short term, are carried at their nominal value when the effect of not discounting the cash flows is not significant.

1.2. Financial liabilities held for trading:

This category includes financial liabilities issued with the intention of buying them back in the near term and derivative instruments that have not been designated as hedging instruments. These financial assets are recognized and measured using the same criteria as apply to financial assets held for trading.

1.3. Hedging derivatives

These are derivatives that qualify for hedge accounting. Financial instruments that have been designated as hedging instruments or hedged items are measured as described in note 4.j below.

2. Derecognition

The Company derecognizes a financial liability when the obligation under the liability is extinguished.

When debt instruments are exchanged, insofar as their contractual terms are substantially different, the original financial liability is derecognized and the new financial liability is recognized. Financial liabilities whose contractual terms are substantially modified are treated in the same manner.

The difference between the carrying amount of the derecognized financial asset (or part of it) and the consideration paid, including any attributable transaction costs, which extends to any asset transferred other than cash and/or any liability assumed, is recognized in the income statement in the year to which it relates.

When debt instruments are exchanged for other instruments whose contractual terms are not substantially different, the original financial liability is not derecognized and the commissions paid are recognized as a correction to the carrying amount. The new amortized cost of the financial liability is determined by applying the effective interest rate, namely that which equates the carrying amount of the financial liability on the modification date to the cash flows to be paid as per the new terms.

J) HEDGE ACCOUNTING

The Company typically arranges fair value hedges in respect of its foreign currency-denominated accounts receivable and cash flow hedges on loans arranged at floating rates and also hedges its net investments in its US subsidiaries.

Transactions are only designated as hedges when they effectively eliminate any risk inherent to the hedged item or position throughout the duration of the hedge, which implies that, at the inception of the contract, the hedging item is highly effective (prospective effectiveness) and that there is sufficient evidence that the hedge will be effective throughout the life of the hedge (retrospective effectiveness).

The Company adequately documents its hedges, including how they are intended to achieve and measure effectiveness under current risk management policies.

To test its hedges for effectiveness, the Company verifies the actual results of the hedge, i.e., that the changes in the cash flows of the hedged item are offset by changes in the cash flows of its hedging instrument within a range of 80% and 125% throughout the life of the hedge, effectively delivering the forecasts established at inception.

If this correlation ceases to hold at any time, hedge accounting is discontinued and the hedges are reclassified as trading derivatives.

For measurement purposes, the Company classifies its hedges into three categories:

- Fair value hedges: These arrangements hedge the risk of variations in the fair value of accounts receivable as a result of changes in exchange rates. The changes generated by exchange differences in respect of both the hedging instrument and the hedged item are recognized in profit or loss.
- Cash flow hedges: These instruments hedge the risk of variations in cash flows attributable to changes in the interest rates borne on loans taken on. The Company uses interest rate swaps to exchange floating for fixed rates. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized temporarily in equity; the cumulative gain or loss is reclassified to profit or loss in the year or years in which the hedged transaction affects profit or loss.
- Hedges of net investments in foreign operations: These instruments hedge the foreign currency risk associated with the Company's net investments in its US subsidiaries. These hedges take the form of the dollar-denominated loans used to finance the acquisition of these businesses. The exchange gains and losses arising on both the hedging instrument and the US investments are recognized in profit or loss.

K) OWN SHARES

Own shares are recognized at the amount of consideration delivered; they are recognized in equity (as a deduction) when they are acquired and when they are sold or cancelled no gain or loss is recognized in the income statement. The costs incurred to trade in own shares are recognized directly in equity as a deduction from reserves.

L) CASH AND CASH EQUIVALENTS

This heading includes cash, current accounts, short-term deposits and purchases of assets under resale agreements that meet the following criteria:

- They are readily convertible to cash
- They mature within less than three months from the acquisition date
- The risk of change in value is insignificant
- They are part of the Company's standard cash management strategy

For cash flow statement purposes, occasional bank overdrafts used as part of the Company's cash management strategy are recognized as a decrease in cash and cash equivalents.

M) GRANTS

Grants are classified as non-repayable once the terms attaching to their award have been met. They are recognized directly in equity, net of the corresponding tax effect.

Repayable grants are recognized as liabilities by the Company until deemed non-repayable; no income is recorded until that point.

Grants received to finance specific expenses are recognized as income over the periods necessary to match them with the related costs which they are intended to compensate. Grants received to acquire property, plant and equipment are released to income in proportion to the related depreciation charges.

N) PROVISIONS AND CONTINGENCIES

Provisions are recognized in the balance sheet when the Company has a present obligation (legal or constructive, explicit or implicit), arising from past events, settlement of which is expected to result in an outflow of resources embodying economic benefits that can be measured reliably.

Provisions are measured at the present value of the best possible estimate of the amount needed to cancel the obligation or transfer it to a third party, recognizing the increase in the carrying amount of the provision due to the passage of time as borrowing cost. Provisions due to be settled within twelve months are not discounted if the impact of not doing so is not material. Provisions are reviewed at each reporting date and adjusted to reflect the best estimate of the liability at each review date.

O) NON-CURRENT EMPLOYEE BENEFIT LIABILITIES

Under the prevailing collective bargaining agreement and other non-binding agreements, the Company is obliged to make annual supplementary payments of various kinds and other bonuses for long service and retirement, where applicable, to its permanent employees upon retirement at the legally stipulated age or early retirement. At present, the Company only has these commitments with some of its current employees.

The provision recognized for long-service bonuses represents the present value, calculated using actuarial studies performed by independent experts, of the potential future payments to these employees.

The post-employment and similar obligations have been externalized as stipulated under prevailing legislation. Since externalizing this obligation, the Company is committed to making annual contributions to the externalized pension fund in an estimated amount that is not material in respect of the universe of employees affected.

In addition, the Company grants its employees certain voluntary retirement bonuses of undetermined amount. These bonuses, which are scantly material, are recognized as an expense when they are paid.

P) INCOME TAX EXPENSE

Income tax expense for the year is calculated as the sum of current tax resulting from applying the corresponding tax rate to taxable profit for the year, less any applicable tax credits, taking into account changes during the year in recognized deferred tax assets and liabilities. The corresponding tax expense is recognized in the income statement, except when it relates to transactions recognized directly in equity, in which case it is likewise recognized in equity, and when it relates to business combinations, in which case it is recognized with a charge or credit to goodwill.

Deferred income tax is recognized using the liability method on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts. The tax base of an asset or liability is the amount attributed to it for tax purposes.

The tax effect of temporary differences is included in 'Deferred tax assets' or 'Deferred tax liabilities' on the balance sheet, as applicable.

The Company recognizes deferred tax liabilities in respect of all taxable temporary differences, except as stipulated in prevailing legislation.

The Company recognizes deferred tax assets for all deductible temporary differences and the carryforward of unused tax credits and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, except as disallowed under prevailing legislation.

At each reporting date the Company reassesses recognized and unrecognized deferred taxes. Based on the outcome of this assessment, the Company derecognizes a previously recognized deferred tax asset if its recovery is no longer deemed probable, and recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate expected to apply in the period in which they reverse, as required by enacted tax laws, and in the manner in which it reasonably expects to recover or settle the deferred tax asset or liability, respectively.

Deferred tax assets and liabilities are not discounted and are classified as non-current assets or non-current liabilities, respectively.

Q) DISTINCTION BETWEEN CURRENT AND NON-CURRENT

A distinction is made between current and non-current assets and liabilities in the balance sheet. An item is classified as current if it is associated with the Company's normal operating cycle and its realization, sale or consumption is expected to occur within this cycle; falling beyond this scope, if its realization is expected to occur within twelve months of the reporting period; if it is held primarily for the purpose of trading; or if it is cash or a cash equivalent, so long as its use is not restricted for more than one year.

R) INCOME AND EXPENSE

Revenue and expenses are recognized in the income statement on an accruals basis, regardless of when actual payment or collection occurs.

Revenue from sales of goods and rendering of services

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of any discounts, price reductions or similar promotions the Company may grant, and, where relevant, net of the interest income arising from sales financing granted. Applicable indirect taxes on transactions which are reimbursed by third parties are not included.

Revenue is recognized based on the economic substance of the transaction and only when all of the following prerequisites have been met:

- a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods (regardless of when they are legally transferred)
- **b)** The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold
- c) The amount of revenue can be measured reliably
- d) It is probable that the economic benefits associated with the transaction will flow to the Company; and
- e) The costs incurred or to be incurred in respect of the transaction can be measured reliably

S) DISCONTINUED OPERATIONS

The income and expenses of discontinued operations are included in a single line item, net of the corresponding tax effect, under 'Profit/(loss) for the year from discontinued operations, net of income tax'. This heading also includes the after-tax gain or loss recognized upon measuring the assets or disposal groups constituting the discontinued operation at fair value less costs to sell.

T) FOREIGN CURRENCY TRANSACTIONS

The Company's functional and presentational currency is the euro.

Transactions in foreign currency are initially translated at the spot rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the spot rate prevailing at the balance sheet date. All exchange gains or losses arising from translation as well as those resulting from settlement of balance sheet items are recognized in the income statement in the year in which they arise.

Non-monetary items measured at historical cost are translated at the exchange rate prevailing on the date of the transaction. As an exception, as indicated in note 4.j above, valuation adjustments deriving from the impact of exchange rate movements on the Company's US subsidiaries are recognized by restating the value of these net investments with a credit or charge in profit or loss.

Non-monetary items measured at fair value are translated at the exchange rate prevailing when fair value is determined. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or loss is similarly recognized in equity; conversely, when the gain or loss is recognized in profit or loss, any exchange component is recognized in the income statement.

U) ENVIRONMENTAL ASSETS AND LIABILITIES

Expenses relating to decontamination and restoration work in contaminated areas, as well as the elimination of waste and other expenses incurred to comply with environmental legislation are expensed in the year to which they relate, unless they correspond to the purchase of assets for the purpose of long-standing use in its business operations whose main use is to minimize environmental damages and/or enhance environmental protection, in which case they are recognized in the corresponding heading within 'Property, plant and equipment' and are depreciated using the same criteria as other assets so classified.

V) SEVERANCE

Under prevailing legislation, the Company is obliged to pay severance to employees that are discontinued under certain circumstances. Termination benefits that can be reasonably estimated are recognized as an expense in the year in which the redundancy decision is taken.

X) RELATED-PARTY TRANSACTIONS

The Company conducts all related party transactions on an arm's length basis. In addition, its transfer prices are duly documented so that the Company's directors do not believe there is a significant risk of related liabilities going forward.

5. INTANGIBLE ASSETS

The reconciliation of the carrying amounts of the various items comprising intangible assets at the beginning and the end of 2015 and 2014 is as follows:

CARRYING AMOUNTS

	TRADEMARKS & Patents	COMPUTER Software	TOTAL
Balance at December 31, 2013	7,866	467	8,333
Balance at December 31, 2014	7,866	360	8,226

Transfers		:	0
BALANCE AT DECEMBER 31, 2015	(5,244)	(2,331)	(7,575)

At year-end 2015, the Company had patents and trademarks with an original cost of 1,648 thousand euros (year-end 2014: 1,648 thousand euros) and computer software with an original cost of 2,216 thousand euros (year-end 2014: 1,280 thousand euros) still in use that were fully amortized.

None of the Company's intangible assets is located outside Spain other than the Portuguese brand "Saludaes" and the Dutch brand "Lassie", acquired in 2011. The Company was not party to any firm commitments for the acquisition of intangible assets at either year-end.

There were no major movements in intangible assets in either reporting period.

In 2015, the Company recognized 217 thousand euros of amortization charges in respect of these intangible assets (2014: 296 thousand euros); it did not recognize any impairment losses on these assets in either reporting period.

The recoverable amount of these trademarks and brands was determined by calculating their value in use, using cash flow projections that are based on budgets that cover a five-year horizon and are then projected for another five years. The rates used to discount these assets' projected cash flows in 2015 were 6.5% in Netherlands (2014: 5.9%) and 8.3% in Portugal (7.8%), depending on the business market of each brand. Cash flows beyond the initial 5-year budget horizon were extrapolated using the corresponding units' medium to long-term growth rates, which are typically between 1.7% and 1.9% (1.4% - 1.5% in 2014), depending on the business.

With respect to the assumptions used to calculate these brands' value in use, management believes that no reasonably-possible change in the key assumptions used would cause their carrying amounts to significantly exceed their recoverable amounts, indicating the need to recognize additional impairment losses.

6. PROPERTY, PLANT AND EQUIPMENT

The reconciliation of the carrying amounts of the various items comprising property, plant and equipment at the beginning and the end of 2015 and 2014 is as follows:

CARRYING AMOUNTS

	LAND	BUILDINGS	PLANT AND Other PP&E	PP&E UNDER Construction & Prepayments	TOTAL

BALANCE AT DECEMBER 31, 2015	0	(966)	(4,340)	0	(5,306)

There were no movements in these assets of material amount in either reporting period.

According to the directors' estimates and projections, there are no indications that its property, plant or equipment may be impaired. The Company has taken out insurance policies to cover the carrying amount of its property, plant and equipment. The breakdown at year-end of the original cost of fully-depreciated items of property, plant and equipment still in use is shown in the next table:

	2014	2015
		:
Other fixtures, tools and furniture	219	605
Other items of PP&E	1,749	2,175

There were no firm commitments for the acquisition of material amounts of property, plant and equipment at either year-end. No material items of property, plant or equipment are located outside Spain.

OPERATING LEASES

The Company leases its head offices in Madrid under an agreement in force until April 6, 2018, and its Barcelona office, which it opened in 2009, under an agreement that terminates on December 1, 2018; it also leases its systems office space in Granada. These leases are rolled over automatically if neither party gives termination notice. There are no material contingent payments under these leases. Expenditure under operating leases totaled 1,171 thousand euros in 2015 (2014: 1,145 thousand euros). The future minimum payments under the Company's non-cancelable operating leases at December 31, 2015 break down as follows:

	12-31-2014	12-31-2015
Within one year Between one and five years More than five years	1,145 1,905 O	1,171 1,353 O
	3,050	2,524

7. INVESTMENT PROPERTIES

The reconciliation of the carrying amounts of the Company's investment properties at the beginning and the end of 2015 and 2014 is as follows:

CARRYING AMOUNTS

	LAND	BUILDINGS	TOTAL
Balance at December 31, 2013	7,276	4,805	12,081

There were no material changes in this heading in either reporting period.

None of the investment properties is located outside Spain. The original cost of fully-depreciated investment properties still in use was 81 thousand euros at both year-ends. The expenses associated with these properties related to their upkeep and the related depreciation charges. Maintenance expenses totaled 299 thousand euros in 2015 (2014: 337 thousand euros). All expenses are recognized in the income statement as accrued. The Company has no contractual obligations to acquire, build on or develop its investment properties or to repair, maintain or upgrade them.

The breakdown of the future minimum payments receivable under non-cancelable operating leases at yearend is as follows:

	12-31-2015
Within one year Between one and five years More than five years	122 195 O
	317

There are no restrictions on the realizability of the Company's investment properties or the remittance of income or proceeds of disposal.

8. NON-CURRENT INVESTMENTS IN GROUP COMPANIES AND ASSOCIATES

The reconciliation of the carrying amounts of the Company's investments at the beginning and the end of 2015 and 2014 is as follows:

ITEM

A) EQUITY INSTRUMENTS IN GROUP COMPANIES:

The main changes in each year are as follows:

IN 2015

- 1. An increase of 20,254 thousand euros: The original cost basis of the investment in Riviana Foods Inc. (acquisition cost) is 240,753 thousand euros. However, this financial asset is a designated hedged item; the hedging item, which is effective, is the loan taken on to fund the acquisition; accordingly, the changes in value arising between its original cost in US dollars and its euro equivalent give rise to adjustments in this cost basis. The corresponding adjustment in 2015 was an increase of 20,254 thousand euros, which was recognized as a gain in the income statement; the accumulated net gain at year-end stood at 23,004 thousand euros.
- 2. An increase of 17,316 thousand euros: The original cost basis of the investment in New World Past Co. (original acquisition cost) is 285,884 thousand euros. However, this financial asset is a designated hedged item; the hedging item, which is effective, is the loan taken on to fund the acquisition; accordingly, the changes in value arising between its original cost in US dollars and its euro equivalent give rise to adjustments in this cost basis. The corresponding adjustment in 2015 was an increase of 17,316 thousand euros, which was recognized as a gain in the income statement; the accumulated net gain at year-end stood at 19.667 thousand euros.
- **3.** A decrease of 3,048 thousand euros due to liquidation of the wholly-owned subsidiary, Azucarera Energías, S.A. The net assets obtained in the wake of this company's liquidation, coupled with the impairment provision recognized against this investment, gave rise to the recognition of an accounting loss of 65 thousand euros in 2015.
- **4.** A decrease of 869 thousand euros in the carrying amount of the investment in Semola, S.r.l. (see paragraph 7 below) due to the distribution of a dividend against reserves endowed prior to acquisition of this investment.

IN 2014

- 5 An increase of 21,000 thousand euros: the original cost basis of the investment in Riviana Foods Inc. (original acquisition cost) is 240,753 thousand euros. However, this financial asset is a designated hedged item; the hedging item, which is effective, is the loan taken on to fund the acquisition; accordingly, the changes in value arising between its original cost in US dollars and its euro equivalent gives rise to adjustments in this cost basis. The corresponding adjustment in 2014 was an increase of 21,000 thousand euros that was recognized as a gain in the income statement; the accumulated net gain at year-end stood at 2.750 thousand euros.
- 6. An increase of 17,954 thousand euros: the original cost basis of the investment in New World Past Co. (original acquisition cost) is 285,884 thousand euros. However, this financial asset is a designated hedged item; the hedging item, which is effective, is the loan taken on to fund the acquisition; accordingly, the changes in value arising between its original cost in US dollars and its euro equivalent gives rise to adjustments in this cost basis. The corresponding adjustment in 2014 was an increase of 17,954 thousand euros that was recognized as a gain in the income statement; the accumulated net gain at year-end stood at 2,351 thousand euros.

7. An increase of 63,455 thousand euros in the investment in Italiana Semola, S.r.l. due to the acquisition of 100% of its share capital: On June 18, 2014, Ebro Foods, S.A. acquired 52% of Italy's Garofalo through a wholly-owned subsidiary, Semola, S.r.l. This Italian company owns the Garofalo, Santa Lucia and Russo de Cicciano brands, among others, giving it a significant position in the premium dry pasta segment in Italy and other countries. The Company acquired a 52% interest, through Semola, S.r.l., for a total of 63,455 thousand euros, of which 58,255 thousand euros was paid in 2014, with the remaining 5,200 thousand euros paid on June 30, 2015. The Group financed the acquisition using a mix of internal funds and bank borrowings.

In addition, the Ebro Group has arranged two options with the other shareholder over the remaining 48%, granting the seller a put option (exercisable until May 2024) and the Ebro Group a call option (exercisable from June 2024 to May 2026). The price of these options will be determined as a function of Garofalo's average earnings metrics over a series of years, as well as other terms and conditions customary in arrangements of this nature. This put option contractually gives rise to a financial derivative for the next four years (until June 30, 2018), due to the existence of a minimum price guarantee during that period, which has been recognized as a non-current financial liability (note 9.2.b).

B) EQUITY INSTRUMENTS IN ASSOCIATES:

No changes in 2015. The 18,000 thousand euro investment corresponds to the acquisition in August 2013 of 25% of Italy's Riso Scotti S.p.A., the parent company of the Scotti Group. The Scotti Group is an Italian group specialized in the production and processing of rice. It is the leading maker of risotto rice in Italy and boasts a broad portfolio of products that it sells under the Scotti brand in more than 70 markets. This portfolio includes multiple value-added products (rice and soy milk, rice biscuits, rice oils, ready meals etc.) that represent a modern take on Italian cuisine and are targeted at the premium segment. The Company's 25% interest in the Scotti Group is accounted for as an investment in an associate.

C) NON-CURRENT LOANS TO GROUP COMPANIES:

The loan extended by the Company to Beira Terrace Soc. de Construçoes, Ltda., a 100%-owned Portuguese subsidiary, is the most significant item presented under non-current loans to group companies (note 17) at year-end; the balance receivable at December 31, 2015 stood at 251 thousand euros (year-end 2014: 199 thousand euros).

These loans don't have a fixed maturity and earn interest at 3-month Euribor plus 0.86% (0.9% in 2014).

D) IMPAIRMENT LOSSES:

The increases and decreases recognized in 2015 and 2014 correspond to impairment allowances on the Company's investments in Beira Terrace Soc. de Construções, Ltda., Ebro Germany, Gmbh., Dosbio, S.L. and Azucarera Energías, S.A.

The earnings of the companies shown in the table provided at the end of this note correspond to continuing operations.

None of the group companies is publicly traded other than Ebro Foods, S.A.

The Company has sent its investees the notifications required under the Spanish Corporate Enterprises Act.

The direct investments held by Ebro Foods, S.A. in group companies and associates at December 31, 2015 are:

AVAILABLE-FOR-SALE FINANCIAL ASSETS

1. Investment in Deoleo, S.A.

This investment was fully sold during the first half of 2014. The investment in Deoleo, S.A. was made in December 2010, in the amount of 47,756 thousand euros, when the Company acquired 95,510,218 of this entity's shares as part of a rights issue at a cost of 0.50 euros per share. This investment gave the Company an 8.272% ownership interest in Deoleo in the wake of equity issues undertaken in 2013.

This financial investment was carried at fair value and changes therein were recognized in equity insofar as the investment was neither impaired nor sold, at which time the fair value gains or losses would be reclassified to profit or loss.

This entire shareholding was sold down in a series of transactions during the first half of 2014 for an overall sum of 40,267 thousand euros. The pre-tax gain on the sale of this investment, which was recognized in the income statement under finance income in 2014, was 14,003 thousand euros (the reclassification of the pre-tax fair value gain recognized directly in equity in 2013 in the amount of 18,626 thousand less the loss generated on its sale in 2014 with respect to its carrying amount at year-end 2013).

2. Investment in Biosearch, S.A.

This financial investment is carried at fair value and changes therein are recognized in equity insofar as the investment is neither impaired nor sold, at which time the fair value gains or losses would be reclassified to profit or loss.

At year-end 2014, this investment corresponded to 1,801,000 shares of Biosearch, S.A., equivalent to a 3.121% ownership interest. At that date, this investment's fair value, based on its share price, was 693 thousand euros (0.385 euros per share).

The Company did not sell any shares of Biosearch, S.A. in 2015, so that at year-end, this investment continued to correspond to 1,801,000 shares of Biosearch, S.A. and a 3.121% ownership interest. At year-end 2015, the fair value of this investment, based on its share price, was 846 thousand euros, equivalent to 0.470 euros per share; in keeping with prevailing accounting standards, the increase in value from year-end 2014 was recognized directly in equity in the amount of 110 thousand euros (a 153 thousand euro pre-tax gain less the corresponding tax effect of 43 thousand euros).

LOANS AND RECEIVABLES	12-31-15	12-31-14
Non-current financial assets		
Loans to group companies (notes 8 & 17)	251	199
Loans to third parties	23,977	25,413
Long-term deposits	147	147
	24,375	25,759
Non-current financial assets		
Trade and other receivables (note 10)	10,017	9,673
Loans to third parties	1,436	905
	11,453	10,578
TOTAL	35,828	36,337

The balance of loans to third parties at both reporting dates corresponds mainly to the deferred portion of the purchase price for the Nomen brands under the agreement reached in 2012. This agreement was renegotiated in September to extend the collection term by a further two years and reduce the interest rate from 4.2% to 3.4%.

The non-current portion of this vendor loan is 23,977 thousand and the current portion, 1.436 thousand euros. This loan accrues interest at a rate of 3.4% and the last instalment is due in September 2027. The Nomen trademarks have been pledged as collateral to guarantee repayment of this loan.

Exchange differences recognized in profit or loss for the year

The exchange differences recognized in profit or loss in 2015 and 2014 for each financial asset category are broken down below:

EXCHANGE DIFFERENCES RECOGNIZED IN PROFIT OR LOSS

	LOANS AND Receivable			TRUMENTS Companies		ANS Ayable	TOTAL	
	2015	2014	2015	2014	2015	2014	2015	2014

a) Bank borrowings: See note 13.

b) Derivatives and other accounts payable

The breakdown of the financial liabilities included in this category is as follows:

	2015	2014
Non-current		
Derivatives	2,800	4,800
Deposits	12	12
	2,812	4,812
Current		
Derivatives	0	0
Trade and other payables	6,159	6,519
Other financial liabilities	58	5,258
	6,217	11,777

Thousands of euros

Non-current derivatives includes the value allocated to the contractual derivative implied by the put option granted over 48% of the Garofalo pasta group (note 8.a.7). And the most significant item under other current financial liabilities is the 5,200 thousand euro vendor loan from Semola, S.r.l. (the portion of the purchase price deferred until June 30, 2015).

c) Nature and extent of risks arising from financial instruments

The main objective of the Company's capital management policy is to guarantee a capital structure that complies with prevailing regulations in its group's operating markets. In addition, its capital management policy is designed to preserve its credit metrics and to maximize shareholder value.

The Company's business activities and operations expose it to financial risks including foreign currency and interest rate risk.

Interest rate risk: The Company is exposed to changes in market interest rates, mainly on account of its non-current payment obligations arranged at floating rates of interest. Its policy is to manage its borrowing costs by using a mix of fixed and variable rates. The goal is minimize the Company's exposure to this risk factor, to which end it tracks market rate trends exhaustively with the help of external experts.

It arranges interest-rate hedges as deemed necessary under which it agrees to swap, during specific periods, the difference between the amount of fixed and variable interest, calculated on the basis of a notional amount of principal agreed between the parties. These derivative or structured products are designed to hedge the underlying payment obligations.

Foreign currency risk: As a result of the investments made in the US, the carrying amounts of the Company's assets and liabilities are significantly exposed to changes in the USD / EUR exchange rate. The Company attempts to mitigate the impact of this structural exchange-rate risk by denominating its borrowings in US dollars. As a result, 61.3% of the Company's US investments are hedged in this manner.

At year-end 2015, non-current borrowings include two loans in an aggregate amount of 271 million US dollars (year-end 2014: 290 million euros) (note 13), while non-current borrowings from group companies include a loan of 124 million US dollars (year-end 2014: 105 million US dollars) (note 17), all of which have been designated as hedges of the Company's net investments in its US subsidiaries; they are used to hedge the Company's exposure to exchange rate risk on these investments. The gains and losses generated upon translation of these loans into euros are recognized in the income statement and exactly offset the exchange gains and losses recognized on the translation of these net investments into euros (notes 8.a & 9.1).

Liquidity risk: The Company manages the risk of a shortfall of short-term liquidity with a liquidity planning tool. This tool analyzes the maturity of the Company's financial assets and liabilities in conjunction with its operating cash flow projections. Ebro Foods, S.A. is the parent of a consolidated group comprising it and its subsidiaries and associates with which it separately presents consolidated financial statements. This fact should be taken into consideration in assessing the working capital position typical of year-end in the separate annual financial statements of Ebro Foods, S.A., which, as the group's parent company, has the option of financing itself via dividends, among other alternatives.

10. TRADE AND OTHER RECEIVABLES

The breakdown of trade and other receivables in 2015 and 2014 is as follows:

	12-31-15	12-31-14
Trade receivables Trade receivables from group companies and associates (note 17) Other receivables Receivable from employees	53 9,913 8 43	696 8,872 8 97
	10,017	9,673

Thousands of euros

Impairment allowances: The 'Trade receivables' balance in the table above is presented net of impairment losses. The Company did not recognize any new impairment losses against its trade receivables in 2015, nor did it use any existing provisions. In 2014 it recognized 0 thousand euros of allowances. The accumulated balance of impairment allowances was 24 thousand euros at both reporting dates.

All of the balances recognized under trade receivables are denominated in euros.

11. CASH AND CASH EQUIVALENTS

Cash equivalents are typically bank deposits with a maturity of three months or less at the time of their acquisition.

There are no restrictions on these balances.

12. CAPITAL AND RESERVES

a) Issued capital: The Company's share capital consisted of 153,865,392 fully subscribed and paid bearer shares with a par value of 0.60 euros each at both year-ends. All shares belong to the same class and carry identical rights.

The shareholders with direct or indirect interests of more than 3% in the capital of Ebro Foods, S.A. at December 31, 2015 (2014), based on information furnished to Spain's securities market regulatory, the CNMV, and to Ebro Foods, S.A., are as follows:

- Instituto Hispánico del Arroz, S.A.: direct holder of 13,790,336 shares (13,790,336), representing a 8.963% interest (8.963%) and indirect holder, through Hispafoods Invest, S.L., of 10,707,282 shares (10,702,282), representing a 6.959% interest (6.959%). In total this shareholder holds 24,497,618 shares (24,497,618), representing a 15.921% (15.921%) shareholding.
- Sociedad Anónima Damm: indirect holder, via Corporación Económica Damm, S.A., of 15,426,438 shares (15,426,438), representing a 10.026% interest (10.026%).
- * Sociedad Estatal de Participaciones Industriales: indirect holder, via Alimentos y Aceites, S.A., of 15,940,377 shares (15,940,377), representing a 10.36% interest (10.36%).
- * Corporación Financiera Alba: indirect holder, via Alba Participaciones, S.A., of 15,400,000 shares (15,400,000), representing a 10.009% interest (10.009%).
- Juan Luis Gómez-Trenor Fos: indirect holder, via Empresas Comerciales e Industriales Valencianas, S.L., of 10,924,443 shares (10,924,443), representing a 7.1% interest (7.1%).
- b) Share premium: The Consolidated Text of the Spanish Corporate Enterprises Act permits the use of the share premium account balance to increase share capital and provides no specific limitation with respect to its availability.
- c) Legal reserve: The companies that generate a profit are required to earmark 10% of net profit for the year to a legal reserve until such reserve is equivalent to 20% of share capital. The legal reserve cannot be distributed except in the event of dissolution but it can be used to offset losses insofar as other reserves are not available for this purpose and to increase capital by the amount that exceeds 10% of capital after the increase. The Company had fully endowed its legal reserve at both year-ends.

- **d) Voluntary reserves:** This reserve is unrestricted other than the limitations imposed under prevailing company law in respect of unamortized capitalized research and development costs.
- e) Revaluation reserve, Royal Decree-Law 7/1996 of June 7: As a result of the asset restatements made in the past by Sociedad General Azucarera de España, S.A. and Puleva S.A. under the scope of Royal Decree-Law 7/1996 of June 7, 1996, the Company recognized the corresponding revaluation reserves of 21,767 thousand euros; in the wake of the derecognitions of 2001 following the split-off of the sugar business and in 2003 following the dissolution of A. E. Gestion de Patrimonio, S.L., the remaining balance stands at 3,169 thousand euros (included under other reserves).

This balance can be used, without accruing taxes, to offset tax losses accumulated in prior, current and future tax periods and for the purpose of increasing share capital. Since April 1, 2007, this balance can be earmarked to unrestricted reserves to the extent that the monetary gain has been realized.

The monetary gain is deemed realized in respect of the corresponding depreciation charges recognized or when the restated asset items have been sold or derecognized for accounting purposes. If this balance were used in a manner other than that provided for in Royal Decree-Law 7/1996, it would be taxable.

f) Own shares: In 2015, the Company had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meetings held on June 15, 2011 and June 3, 2015 for a period of five years (as duly notified to the CNMV in keeping with prevailing legislation).

The Company did not hold any own shares as treasury stock at December 31, 2015.

In 2014, the Parent similarly had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meeting held on June 15, 2011. In 2014, the Company bought back 858,506 shares, sold 814,939 and delivered 24,104 own shares to employees. At December 31, 2014, the Company held 19,463 own shares as treasury stock, equivalent to 0.013% of share capital at that reporting date. Management had not established any specific purpose for these own shares at year-end 2014.

g) Dividends paid in 2015: Distribution of the dividends approved at the Annual General Meeting of June 3, 2015 at which the Company's shareholders ratified the motion to pay a cash dividend with a charge against unrestricted reserves and profit for 2014 of 0.66 euros per share (an ordinary dividend of 0.51 euros per share and a special dividend of 0.15 euros per share), payable in the course of 2015.

The ordinary dividend was paid out in three equal instalments of 0.17 euros per share on April 1, June 29 and October 2, 2015. The special dividend was paid out in a single instalment of 0.15 euros per share on December 22, 2015.

h) Valuation adjustments: See note 9.1.

13. BANK BORROWINGS

The breakdown of current and non-current bank borrowings (in thousands of euros) at both year-ends:

	2015	2015	2014	2014
	NON-CURRENT	CURRENT	NON-CURRENT	CURRENT
Bank loans arranged in euros	49,927	30,000	49,879	30,000
Bank loans arranged in US dollars	248,707	-	78,182	160,613
Credit facilities arranged in euros	-	15,581	-	142
Interest accrued but not due	=	306	-	369
TOTAL	298,634	45,887	128,061	191,124

The long-term bank loans denominated in US dollars were taken out to finance the investments in Riviana Inc (2004) and New Word Pasta Company (2006). These long-term loans are guaranteed by Group subsidiaries Herba Food, S.L., Herba Ricemills, S.L., Panzani SAS and Riviana Foods Inc. and correspond to:

- The bilateral loan agreement entered into in November 2006 and amended in April 2009, June 2010 and again in May 2015, in an initial amount of 190 million US dollars, reduced to 171 million US dollars in the wake of the last amendment. This loan is repayable in four six-monthly instalments of 42.75 million US dollars starting in May 2020. The annual rate of interest applicable to this dollar-denominated loan is benchmarked against 1-, 3-, 6- or 12-month LIBOR plus a market spread.
- A bilateral 3-year loan agreement arranged in June 2015, in the amount of 100 million US dollars, repayable at maturity. The annual rate of interest applicable to this dollar-denominated loan is benchmarked against 3- month LIBOR plus a market spread. This loan refinanced another bilateral loan arranged in November 2013, which was cancelled in 2015

In 2014, the Company arranged bilateral loans in the amount of 50 and 30 million euros on May 27 and July 1, respectively. These loans are denominated in euros and are repayable in a single bullet payment upon maturity. The 50 million euro loan matures on June 30, 2017. The 30 million euro loan originally fell due on June 25, 2015; however, the parties have availed of the option of agreeing up to two annual extensions to this facility's maturity. The annual rate of interest applicable to those loans is benchmarked against 3-month EURIBOR in the case of the 50 million euro loan and 12-month EURIBOR in the case of the 30 million euro loan, plus market spreads.

The Company is obliged to comply with a series of covenants, specifically a series of ratios calculated on basis of the consolidated financial statements of the group of which the Company is the parent, throughout the term of these loans. Any breach of these covenants would increase the related borrowing costs and in some cases would trigger an early repayment requirement. The Company was in compliance with all these covenants at both year-ends.

In addition, at year-end 2015, the Company had arranged and guaranteed credit facilities with an aggregate limit of 25 million euros (year-end 2014: 25 million euros), of which 15,581 thousand euros (142 thousand euros) had been drawn down. The average annual rate of interest on these borrowings, excluding the long-term loans, is 3-month EURIBOR plus a market spread of 0.90% (2014: 1.67%) on average.

In addition, the Company has extended sureties and other guarantees to third parties via banks totaling 125,368 thousand euros at year-end 2015 (114,355 thousand euros at year-end 2014) (note 16).

The maturity schedule for bank borrowings (at December 31, 2015):

Due 2016	30,000 thousand euros
Due 2017	49,927 thousand euros
Due 2018	91,639 thousand euros (100,000 thousand US\$)
Due 2020	78,534 thousand euros (85,500 thousand US\$)
Due 2021	78,534 thousand euros (85,500 thousand US\$)

14. NON-CURRENT PROVISIONS

The reconciliation of the provisions at the beginning and end of 2015 and 2014 is as follows:

NON-CURRENT PROVISIONS

	EMPLOYEE BENEFIT Obligations			ОТН			
	LONG- Service Bonuses	NON- Current Remuneration	TOTAL	BUSINESS Sale Reps & Warranties	TAX ASSESSMENTS	TOTAL	TOTAL

Thousands of euros

PROVISION FOR CONTINGENCIES - REPS AND WARRANTIES GRANTED IN CONNECTION WITH THE SALES OF THE SUGAR AND DAIRY BUSINESSES

The provisions recognized to cover the outcome of lawsuits related to the sales of the sugar business (sold in 2009) and the dairy business (sold in 2010) related to the reps and warranties extended to the buyers of these businesses under which an unfavorable ruling in these lawsuits would have the effect of reducing the sale-purchase prices for these business. Additions to this provision (or reversals thereof) imply an adjustment to the sale price and are accordingly recognized as a reduction (or increase) in profit in the year in which they are recognized.

These lawsuits had been substantially resolved by year-end 2013, so that the related provision stood at zero at that reporting date. However, in the course of 2014 a number of smaller-sized disputes came to light. Management determined it was necessary to recognize a provision in respect of certain of these cases in light of the possible outflow of resources in the future.

In addition, in August 2014, Grupo Lactalis Iberia, S.A. passed the proposed ruling ("Proposed Ruling") in respect of the disciplinary proceedings initiated by the investigative unit of Spain's anti-trust authority, the CNMC, against Spain's leading dairy transformation companies, including Puleva Food, S.L., in connection with alleged anti-competitive practices between 2003 and 2013, on to Ebro Foods, S.A. Ebro Foods, S.A. sold Puleva Food, S.L. to Grupo Lactalis Iberia, S.A. in 2010; the related share purchase agreement (the "SPA") included a liability regime covering future contingencies. Under this regime, Ebro Foods, S.A., as seller, could be held liable for any fine imposed on Puleva Food, S.L. with respect to developments taking place prior to the sale.

The Proposed Ruling qualifies the conduct investigated as a very serious infraction of article 62.4.a) of Spain's Anti-Trust Act and recommends that the Board of the CNMC hand down the fine contemplated in article 63 of this same piece of legislation. Grupo Lactalis Iberia, S.A. and Puleva Food, S.L., in keeping with the procedure agreed upon in the SPA, duly presented statements outlining their pleas against the Proposed Ruling, categorically denying the conduct charges therein.

The CNMC ruling issued by its Board on February 26, 2015 was received on March 3, 2015. It hands down a fine against Puleva Food, S.L. of 10,270 thousand euros. Based on the information currently available, Ebro Foods, S.A. believes it has solid arguments for defending its position in these lawsuits and has so stated in the appeal lodged before the corresponding judicial bodies in September 2015. However, it continues to classify likelihood of an outflow of resources embodying economic benefits as probable; accordingly, the related provision recognized in the 2015 financial statements is unchanged with respect to the amount provided for in 2014.

PROVISION FOR CONTINGENCIES - TAX ASSESSMENTS

See note 15.

PROVISION FOR LONG-SERVICE BONUSES

Some Ebro Foods, S.A. employees are entitled to receive long-service bonuses after 25 to 40 years' service from a fund managed internally by the Company. The provision recognized for long-service bonuses at year-end 2015 in the amount of 157 thousand euros (year-end 2014: 161 thousand euros) represents the present value, calculated using actuarial studies performed by independent experts, of the potential future payments to these employees. The key assumptions used in the most recent actuarial study with effect as of each reporting date are as follows:

- a) A discount rate of 2.13% (2014: 2.11%)
- b) Wage increases: compound annual growth of 3% (2013: 3%)
- c) Mortality and survival tables: PERM/F 2000 tables (new policies)

PROVISION FOR LONG-TERM REMUNERATION TO EXECUTIVES

See note 18. The provisions recognized in 2014 and 2015 correspond to the 2013-2015 bonus plan that will be settled between 2015 and 2017. The provisions utilized in 2015 also correspond to this Plan. However, the amounts utilized in 2014 correspond to the 2010-2012 plan, which was partially paid out in 2012 and 2013 and fully liquidated in 2014.

15. TAX MATTERS

The breakdown of taxes payable and receivable at year-end is as follows:

	12-31-15	12-31-14
Current		
Current tax assets	2,817	4,343
Other amounts receivable from public authorities	1,027	567
Current tax liabilities	0	0
Other payables to public authorities	(2,326)	(2,185)
	1,518	2,725
Non-current		
Deferred tax assets	8,492	8,938
Deferred tax liabilities	(31,677)	(30,573)
	(23,185)	(21,635)

Thousands of euros

Under prevailing legislation, tax returns may not be considered final until either they have been inspected by the tax authorities or until the inspection period has prescribed.

The Company has its books open to inspection since 2012 in respect of all applicable taxes. The Company's directors believe there is no need to provide for potential additional tax liabilities that could arise from differing interpretations of tax regulations.

15.1. The tax group that files its return under the consolidated tax regime is made up of:

Ebro Foods, S.A. (parent of the tax group), Ebro Financial Corporate Services, S.L., Network Meal Solutions, S.L., Fincas e Inversiones Ebro, S.A., Dosbio 2010, S.L., Arotz Foods, S.A., Herba Foods, S.L., Herba Ricemills, S.L and its subsidiaries, Herba Nutrición, S.L, Fallera Nutrición, S.L., Jiloca, S.A. and Azucarera Energías, S.A. (note that the latter subsidiary was liquidated in December 2015).

The tax inspection of the Spanish tax group in respect of 2008 to 2011, both inclusive, concluded in May 2014. The results of this inspection are shown below:

	ASSESSMENTS Uncontested	ASSESSMENTS Contested	TOTAL

TOTAL PAYMENTS	(6,257)	(3,135)	(3,122)	(6,257)

Thousands of euros

All of the assessments presented in the table above were settled (using financial criteria), with the exception of the fines, even though the assessments have been signed under protest. The assessments signed under protest have been appealed.

In addition, the tax group has also signed assessments handed down in connection with the deduction accredited and applied as warranted in relation to the 2008 Volvo Ocean Race under protest. The amount contested, which applies from 2008 to 2010, amounts to 3,021 thousand euros. In this instance, the balance has not been provided for as the assessments have been appealed and the likelihood of winning this claim is deemed high due to the precedent set by National High Court rulings in favor of other taxpayers bringing identical cases. Therefore, the directors believe that the risk that the outcome of this process will not favor the tax group is considered remote and will not entail an outflow of resources.

15.2 The reconciliation of net income and expense for both reporting periods to taxable income (tax loss) is set forth below:

TAX EXPENSE	20	15	2014		
	ACCOUNTING	TAX	ACCOUNTING	TAX	
PROFIT BEFORE TAX FROM CONTINUING OPERATIONS	18,657	18,657	39,180	39,180

Breakdown of tax expense (income)		
Current	(5,986)	(7,903)
Deferred	1,379	2,947
EFFECTIVE TAX EXPENSE (INCOME)	(4,607)	(4,956)

Thousands of euros

15.4 The breakdown of the temporary differences arising at Ebro Foods, S.A. in 2015 and 2014 is as follows:

TEMPORARY DIFFERENCES	2015	2014
Additions		
Additions to provision for long-term remuneration obligations	1.323	728
Additions to provision for long-service bonuses	7	32
Addition to impairment provisions on investments in group companies	0	3,409
Available-for-sale financial assets	153	0
30% of depreciation charges that are not deductible	0	269
Additions to provision for contingencies	0	1,240
TOTAL ADDITIONS	1,483	5,678
Decreases		
Goodwill amortization charges	401	401
Provisions for long-term remuneration obligations used	653	1,442
Temporary difference on account of goodwill amortization	4,045	4,045
Amortization of brands for tax purposes	312	313
Impairment provisions for investments in group companies used	11	0
Utilization of asset recognized for 30% of depreciation charges not deductible	535	0
Available-for-sale financial assets	0	19,174
TOTAL DECREASES	5,957	25,375
TOTAL NET ADDITIONS (DECREASES)	(4,474)	(19,697)

15.5 The breakdown of the permanent differences differences arising at Ebro Foods, S.A. in 2015 and 2014 is as follows:

PERMANENT DIFFERENCES	2015	2014
Additions		
Fines and penalties	0	9
Donations	611	494
Addition to impairment provisions on investments in group and other companies	2,653	0
Other non-deductible expenses	25	18
TOTAL ADDITIONS	3,289	521
Decreases		
Adjustments for dividends from tax group subsidiaries	30,960	55,850
Adjustments for dividends from foreign subsidiaries	2,867	347
Amortization of goodwill for tax purposes	22	23
Reversal of impairment provisions on investments in group and other companies	3,650	0
Non-taxable gains	899	0
TOTAL DECREASES	38,398	56,220
TOTAL NET ADDITIONS (DECREASES)	(35,109)	(55,699)

15.6 Given that Ebro Foods, S.A.'s taxable income was virtually zero in 2015, it did not apply any deductions last year. In 2015 it generated 317 thousand euros of tax credits, mainly corresponding to donations, for utilization in future years, in addition to the 7.3 million euros generated and unused in prior years (mainly deductions generated by the reinvestment of extraordinary gains).

In 2015 the Spanish tax group did not make any investments that qualify for proceed reinvestment tax relief so that it did not generate any new related tax credits. In each of the years between 2013 and 2006, both inclusive, it reinvested qualifying proceeds totaling 33.1, 5.0, 115.3, 57.3, 1.5, 16.2, 11.2 and 76.3 million euros, respectively. These reinvestments satisfied all of the requirements for qualifying for the related tax relief.

15.7 A reconciliation of Ebro Foods, S.A.'s deferred tax assets and liabilities is provided below:

	12-31-13	ADDITIONS	DE- Recognitions	TAX Assessments And Adj. In Respect of Prior Years	OTHER Changes	IMPACT Change in Tax rate	12-31-14	ADDITIONS	DE- Recognitions	OTHER Changes	IMPACT Change in Tax rate	12-31-15

Thousands of euros

OTHER CHANGES:

- a) The deferred tax liability reverted in 2014 in the amount of 7,140 thousand euros relates to the deferred tax charge recognized at year-end 2012 in connection with the sale of the Nomen and other less prominent brands. Under Additional Provision Four of the Consolidated Text of Spain's Corporate Income Tax Act, enacted by means of Royal Decree-Law 4/2004, of March 5, 2004, the gain obtained on the sale of assets arranged to comply with anti-trust requirements does not have to be added to taxable income if the proceeds from the sale are reinvested on the terms stipulated in article 42 of this same piece of legislation within three years from the date of sale. The related reinvestment commitment totaled 32.5 million euros. The acquisition of Garofalo in 2014 complied with this reinvestment commitment, to which end the associated deferred tax liability has been reversed.
- b) Under prevailing Spanish tax legislation, companies cannot recognize material amounts of deferred tax assets in respect of differences not expected to revert for more than 10 years. The recoverability of these assets is reassessed every year; in 2014 the Company wrote off 12,159 thousand euros of tax assets based on the assessment that the timing of their recoverability has changed and is now more than 10 years.

IMPACT OF THE REDUCTION IN THE STATUTORY INCOME TAX RATE IN SPAIN FROM 2015:

The corporate income tax rate applied in Spain until 2014 was 30%. The rate applicable in 2015 was 28% and will decline to 25% from 2016 on. The Group recognized the effects the reduction in the income tax rate in Spain will have on its various deferred taxes at both year-ends.

16. GUARANTEES EXTENDED

The Company had extended the following guarantees in the form of bank sureties at both reporting dates:

0045

....

	2015	2014
Guarantees extended via banks		
Provided to courts and other bodies in relation to claims and tax deferrals	13,302	3,033
Provided to third parties to guarantee fulfilment of obligations arising in the ordinary	770	770
course of business	770	770
Guarantees awarded directly by Ebro Foods, S.A.		
Guarantees given to banks to secure other companies' obligations	111,296	110,552

The guarantees extended to banks to secure other companies' obligations correspond mainly to the guarantees given by Ebro Foods, S.A. to its subsidiaries Herba Foods, S.L. (100%-directly owned), Ebro India, Ltda. (100%-directly owned), Pastificio Lucío Garofalo, S.r.l. (52%-directly-owned), Ebro Financial Corporate Services, S.L. (100%-directly owned), Mundiriz, Ltda. (100%-directly owned) and Panzani, SAS (100% directly owned) to secure their short-term and medium-term credit facilities.

17. BALANCES WITH GROUP COMPANIES AND ASSOCIATES

Note 8 lists Ebro Foods, S.A.'s subsidiaries and associates. Transactions with associates did not result in material balances at either year-end.

The main transactions performed by the Company with group companies and associates in 2015 and 2014 are shown below:

	20	15	2014		
	GROUP Companies	ASSOCIATES	GROUP Companies	ASSOCIATES	
External services Employee benefits expense Finance costs	(681) O (3,481)	0 0 0	(500) O (3,188)	0 0 0	
TOTAL PURCHASES AND EXPENSES	(4,162)	0	(3,688)	0

	199	8,872	0	(290,818)	(3,884)	(80)

All of these balances are denominated in euros, other than the balances payable to New World Pasta, Inc, Ebro de Costa Rica, S.A. and Ebro Riviana de Guatemala, S.A. which are denominated in US dollars.

The long-term loans payable do not carry any fixed maturity; accordingly, the Company has classified them as non-current as it does not expect to repay them in the short term. The balance payable to New World Pasta, Inc. has a face value of 124 million US dollars at year-end 2015 (year-end 2014: 105 million US dollars); this loan is a hedge of an investment in an asset denominated in this same currency (note 9.2.c). It carries interest at 3m LIBOR + 0,90 basis points.

The Company has a current business account arrangement with most of its subsidiaries under which it guarantees coverage of all of their financing needs and, as required, remuneration of their cash surpluses, all of which at market interest rates.

18. RELATED-PARTY DISCLOSURES

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. The Company has not extended or received other guarantees in respect of accounts receivable from or payable to its related parties.

The Company did not record any impairment of receivables relating to amounts owed by related parties in either reporting period. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

18.1 Transactions with significant shareholders (or parties related thereto) of Ebro Foods, S.A. (excluding directors)

Note 12 lists the companies that have a significant equity interest in Ebro Foods, S.A.

There were no transactions between Ebro Foods, S.A. and its significant shareholders other than dividend payments (excluding directors, for whom the related disclosures are provided in note 18.2) in either reporting period.

18.2 Transactions with directors and executives (or parties related thereto) of Ebro Foods, S.A.

Ebro Foods, S.A. carried out the following transactions with its directors and executives (or parties related to them) in 2015 and 2014 in addition to the dividend and remuneration transactions disclosed in notes 18.3 and 18.7 (amounts in thousands of euros):

NAME OR COMPANY NAME of the board membero	RELATIONSHIP	NAME OR COMPANY NAME of the linked parties	TYPE OF TRANSACTION	2015	2014
Hernández Callejas, Antonio	Family Relationship	Hernández González, Luis	Lease (expense)	37	37
Hernández Callejas, Antonio	Sociedad controlada	Cardenal llundain 4, S.L.	Lease (expense)	72	73

18.3 Other transactions with significant shareholders and directors/executives: dividends received from Ebro Foods, S.A.

Against the backdrop of the general dividend policy of Ebro Foods, S.A., the following amounts were paid in each reporting period (expressed in thousands of euros):

- * Dividends 2015 (2014):
 - Dividends paid to significant shareholders: 20,339 (15,361)
 - Dividends paid to directors and executives: 37,579,6 (26,194)

18.4 Related-party transactions

Ebro Foods, S.A. did not transact with other related parties in 2015.

18.5 Other disclosures

* Ebro Foods, S.A. held a 3.121% ownership interest in Biosearch, S.A. at December 31, 2015. This interest is recognized as an available-for-sale financial asset in the Company's financial statements.

Biosearch, S.A. is a listed company whose corporate purpose is analogous to that of Ebro Foods, S.A. and was part of the Ebro Group until January 2011.

Between January 1 and December 31, 2015, Ebro Foods, S.A. rendered services to Biosearch, S.A. in the amount of 21 thousand euros (2014: 42 thousand euros).

Ebro Foods, S.A. holds a 25% shareholding in Riso Scotti S.p.A. The investment in this associate is accounted for using the equity method.

Mr. Antonio Hernández Callejas, Chairman of Ebro Foods, S.A., is a director of Riso Scotti, S.p.A.

The next table itemizes the transactions entered into between Ebro Foods, S.A. and Riso Scotti S.p.A. in 2015 and 2014 (amounts in thousands of euros):

TYPE OF TRANSACTION	AMOUNT 2015 AMOUNT 2014		
Dividends received	337	0	
Rendering of services	5	2	

18.6 Fiduciary duties: conflicts of interest and non-compete duty

In keeping with article 229 of Spain's Corporate Enterprises Act, this section of this note replicates the information provided to the Company by its directors, or by their natural person representatives as warranted, in keeping with their fiduciary duties, regarding their interests and positions held in/at companies with the same, analogous or complementary core business as that of Ebro Foods, S.A. regardless of whether the former are part of the Ebro Foods Group.

- Instituto Hispánico del Arroz, S.A.:
 - 100% direct shareholding in the following Hisparroz group companies, holding the following positions: El Cobujón, S.A. (director), Dehesa Norte, S.A. (no position held), Mundiarroz, S.A. (director), Pesquerías Isla Mayor, S.A. (director), Australian Commodities, S.A. (director, acting joint and severally), Islasur, S.A. (director) and Porrío, S.A. (no position held).

It is hereby noted that Instituto Hispánico del Arroz, S.A. is a company devoted to a business considered analogous to the corporate purpose of Ebro Foods and that it holds a 15.921% ownership interest in the latter (a direct interest of 8.963% and an indirect interest of 6.959% via Hispafoods Invest, S.L., an indirectly wholly-owned subsidiary on whose board it is represented).

- Mr. Félix Hernández Callejas (the natural person representing Instituto Hispánico del Arroz, S.A. on the Company's Board):
 - Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. He is also the CEO of Instituto Hispánico del Arroz, S.A.
- Antonio Hernández Callejas:
 - Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. He does not hold any post at this company.
- Ms. Blanca Hernández Rodríguez (natural person representing Hispafoods Invest, S.A. on the Company's Board):
 - Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. She does not hold any position at this company.
 - Indirect shareholding of 32.3559% in Cabher 96, S.L. She does not hold any position at this company.

 It is hereby noted that Cabher 96, S.L. carries out a similar business activity to that constituting Ebro Foods, S.A.'s corporate purpose.

- * Dr. Rudolf-August Oetker:
 - Direct interest in Dr. August Oetker KG. of 12.5%. He is Chairman of the Advisory Board.

The directors of Ebro Foods, S.A. (or their natural person representatives, as warranted) did not perform any transactions with the Company outside of its ordinary course of business or other than on an arm's length basis in either reporting period.

The directors have not informed the Company of any direct or indirect potential conflicts of interest between them or their related parties and the Company other than those disclosed in this note.

18.7 Director and executive remuneration

Director remuneration. The remuneration accrued by the members of the Board of Directors of Ebro Foods, S.A. totaled 4,902 thousand euros in 2015 (2014: 5,556 thousand euros), broken down as follows (in thousands of euros):

DIRECTOR REMUNERATION AND OTHER BENEFITS	2015	2014
Type of remuneration		
Meeting attendance fees	322	297
Bylaw-stipulated profit-sharing	2,565	2,565
TOTAL DIRECTOR REMUNERATION	2,887	2,862
Wages, salaries and professional fees	2,015	2,694
Termination and other benefits	0	0
TOTAL EXECUTIVE DIRECTOR REMUNERATION	2,015	2,694
TOTAL REMUNERATION	4,902	5,556
Other benefits		
Life insurance and post-employment benefits	0	0

The Company's bylaws stipulate remuneration equivalent to a 2.5% share of net profit for the year provided that the required appropriations to the legal reserve have been made and the minimum shareholder dividend established in prevailing legislation has been declared (currently 4% of paid-in capital).

At a meeting held on February 24, 2016, the Board of Directors resolved, at the recommendation of its Nomination and Remuneration Committee:

- (i) to freeze by-law stipulated remuneration in 2015, implying no change whatsoever with respect to that of the last four years, specifically implying submission at the Annual General Meeting of a motion to pay a sum of 2,565 thousand euros, which is equivalent to 1.76% of consolidated profit for 2015 attributable to equity holders of the parent.
- (ii) to leave attendance fees at 1,600 euros per Board meeting and 800 euros for attendance at the meetings of its various committees.

The individual breakdown of director remuneration earned in 2015 (in thousands of euros) is provided below:

DIRECTOR

	BY-LAW Stipulated Emoluments	ATTENDANCE Fees	FIXED REMUNERATION For Performance of executive duties	VARIABLE REMUNERATION For Performance of executive duties	TOTAL
Hernández Callejas, Antonio	389	27	705	1,310	2,431
Carceller Arce, Demetrio	370	35	0	0	405
Alimentos y Aceites, S.A.	120	18	0	0	138
Castelló Clemente, Fernando	211	34	0	0	245
Comenge Sánchez-Real, José Ignacio	175	27	0	0	202
Empresas Comerciales e Industriales					
Valencianas, S.L	120	19	0	0	139
Hispafoods Invest, S.L	201	35	0	0	236
Instituto Hispánico del Arroz, S.A.	148	21	O (*)	O (*)	169
Nieto de la Cierva, José	269	27	0	0	296
Oetker, Rudolf-August	120	19	0	0	139
Ruiz-Gálvez Priego, Eugenio	163	27	0	0	190
Segurado García, José Antonio	279	33	0	0	312
TOTAL	2,565	322	705	1,310	4,902

(*) Although Instituto Hispánico del Arroz, S.A. is listed as an executive director, it does not perform either executive or management duties at Ebro Foods, S.A. or at any Group subsidiary and therefore does not receive any remuneration in this respect. Instituto Hispánico del Arroz, S.A. has been categorized as an executive director based on the fact that the natural person representing this entity on the Board of Directors of Ebro Foods, S.A. is an executive at a Group subsidiary (former article 212 bis of the Corporate Enterprises Act).

Elsewhere, in relation to the total remuneration earned by the Chairman of the Board of Directors for the performance of his executive duties in 2015, the 2015 financial statements recognize a provision of 485 thousand euros in respect of the provisional estimate of the amount corresponding to 2015 under the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Plan, which represents up to 50% of the deferred bonus entitlement expected to be accrued during the three-year period. This figure will be paid in 2017.

This bonus scheme is not tied to Ebro Foods' share price performance nor does it entitle its beneficiaries to the receipt of shares or any rights over such shares.

Elsewhere, none of the members of the Board of Directors benefits from complementary life insurance or pension cover. Moreover, the Company neither extended any form of credit or advances to the members of its Board of Directors nor assumed any obligations on their behalf under guarantees.

Executive remuneration. A total of 10 people were considered executives of Ebro Foods, S.A. at both year-ends; in 2015 these executives accrued aggregate remuneration (wages and salaries) of 2,061 thousand euros (2.189 thousand euros in 2014).

In 2015, the team of executives (excluding the Chairman of the Board of Directors) of Ebro Foods, S.A. covered by the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Business Plan were paid 128 thousand euros corresponding to 2013 (last year of the Plan), a figure representing up to 25% of the bonuses earned during the three-year term of the scheme that had been provisioned in the 2013.

Meanwhile, in relation to the team of executives (excluding the Chairman of the Board of Directors) of Ebro Foods, S.A. covered by the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Business Plan, the 2015 financial statements recognize a provision of 124 thousand euros in respect of the provisional estimate of the amount corresponding to 2015 under the scheme, which represents up to 50% of the deferred bonus entitlement expected to be accrued during the three-year period. This sum will be paid in 2017, in keeping with the plan rules.

The employment contracts of two executives include change of control clauses guaranteeing payments that exceed the amounts applicable under the Employees' Statute. The clauses initially stipulated in the contracts of another two executives provide for payments that are lower than those established in the Employees' Statute due to their length of service.

Note additionally that the figures reflect the remuneration of all of the executives of Ebro Foods, S.A. even though not all of them belong to senior management.

Lastly, it is noted for the record that Ebro Foods, S.A. has taken out civil liability insurance cover for its directors and executives; these policies cover all of its subsidiaries up to an annual claims cap of 45 million euros. The policies have an annual cost of 60 thousand euros, are effective until April 30, 2016 and are currently in the process of being renewed.

19. OTHER DISCLOSURES

A) FOREIGN-CURRENCY TRANSACTIONS

The Company usually transacts in euros, other than the dollar denominated borrowing arrangements described in notes 13 and 17.

B) WORKFORCE STRUCTURE

2014

	AT YEAR-END		AVERAGE	
	MEN	WOMEN	TOTAL	
Executives	9	3	12	
Middle management	15	10	25

C) AUDIT FEES

The fees paid for account auditing and other services to the Company's auditor, Ernst & Young, S.L., and entities related to the latter by means of control, joint ownership or joint management, in 2015 and 2014 were as follows:

- ❖ The fees corresponding to auditing services provided in 2015 amounted to 135 (2014: 135) thousand euros; those corresponding to other assurance services amounted to 41 (2014: 40) thousand euros.
- The fees for tax advisory and and/other services totaled 60 (2014: 220) thousand euros.

D) ENVIRONMENTAL DISCLOSURES

The activities carried on by the various Ebro Foods Group companies require investments to management and control their environmental risks.

Investments that increase the capacity of their facilities and machinery are capitalized and depreciated on a straight-line basis over their estimated useful life. Ebro Foods, S.A., in its capacity as the group's holding company, does not directly undertake this effort; rather its group companies make and incur the required environmental investments and expenditure.

The work performed on this front in recent years has been very broad but has focused above all on ensuring adequate control of wastewater discharges, combustion gas and dust emissions and inert solid and organic waste and rubbish generation.

The Company's directors believe there are no significant environmental protection or enhancement contingencies and therefore, have not deemed it necessary to record any related provision.

E) DISCLOSURES REGARDING AVERAGE SUPPLIER PAYMENT TERMS

The Company paid its suppliers at 15 days on average in 2015.

20. EVENTS AFTER THE REPORTING PERIOD

There have been no other significant events or developments between the end of the reporting period and the date of authorizing the accompanying financial statements for issue.

DIRECTORS' REPORT INDIVIDUAL 2015

(EXPRESSED IN THOUSANDS OF EUROS)

1. COMPANY SITUATION

Ebro Foods S.A. is the parent of the Ebro Foods Group, Spain's largest food group. Through its subsidiaries, it commands a presence in the rice and pasta markets in Europe and North America as well as a growing presence in other countries.

As a holding company, its overriding objective is to lead, coordinate and foster the development of the Group it heads up, whose strategy is articulated around the provision of healthy food solutions to consumers that enable it to differentiate its brands by means of innovation and new product and format development.

The Ebro Foods Group organizes its management around business segments that combine business activities and their geographic location. Its key business lines are the production and distribution of pasta and rice and their culinary derivatives and accompaniments. Geographically, it is structured into four major regions: the Americas, Spain, Europe & RoW.

Decision-making is spearheaded by the Board of Directors, which is ultimately responsible for defining the Company's general strategy and management guidelines. The Board delegates, certain tasks in its Executive Committee, including, notably, monitoring and oversight of delivery of the strategic and corporate development guidelines, while the Management Committee, on which the heads of the various business areas are represented, is tasked with monitoring and preparing the decisions taken at the management level.

The Annual Corporate Governance Report contains detailed information on the Company's ownership and governance structure.

The Management Report accompanying the consolidated financial statements provides detailed coverage of key trends in and the performance of the various segments and businesses that comprised the Ebro Food Group in 2015.

2. BUSINESS PERFORMANCE OF EBRO FOODS, S.A.

Ebro Foods, S.A.'s key sources of revenue are the dividends paid by its subsidiaries, the services it provides to these subsidiaries and certain real estate transactions. Its expenditure relates mainly to staff costs and the financial cost of the borrowings taken on in its capacity as parent of the Ebro Foods Group. In addition, depending on developments with respect to the value of its investments in its subsidiaries, it recognizes and reverses impairment provisions on its portfolio of investees as required. Recurring revenue and expenditure were flat year-on-year.

Operating profit amounted to 24,193 thousand euros, compared to 38,558 thousand in 2014. This decrease is mainly attributable to the revenue generated in 2014 by an extraordinary dividend paid out by one of the Company's subsidiaries.

Net finance expense amounted to 5,536 thousand euros, compared to net finance income of 622 thousand in 2014. The income recognized in 2014 included gains on the sale of investments (classified as available for sale) of 14,003 thousand euros less the 4,800 thousand euro loss triggered by the measurement at fair value of the call option over a 48% interest in the Garofalo group; in 2015, no gains were recognized on the sale of available-for-sale assets, while the remeasurement to fair value of the Garofalo call option implied a gain of 2,000 thousand euros.

Profit after tax accordingly amounted to 23,220 thousand euros, up from 42,731 thousand euros in 2014.

The most significant developments last year related to its activity as parent of the Ebro Foods Group were the following:

KEY INVESTMENTS AND EXITS CONCLUDED BY THE GROUP

Note 8 to the financial statements lists Ebro Foods, S.A.'s direct investments in group companies and associates. The main transactions coordinated by Ebro Foods, S.A. in 2015:

Investment in RiceSelect:

On June 1, 2015, Ebro Foods, S.A. acquired from RiceTec AG and RiceTec, Inc., through its US subsidiary, Riviana Foods Inc, the rice businesses carried on by the latter two companies in the US under the RiceSelect trademark. This transaction was structured as the acquisition of the RiceSelect trademark and the other assets associated with this business, including a factory in Alvin, Texas. Riviana Foods also took on 42 employees devoted to the rice business.

RiceSelect boast strong brand recognition in the Premium specialty rice segment (aromatic rice, risottos, organic rice, etc.); it is uniquely positioned in terms of image and products vis-a-vis consumers in a priority market for the Ebro Group: the US rice market. The value-added products sold under the RiceSelect brand, which are very well positioned in the retail sector, perfectly complement the Riviana portfolio and will enable the Group to step up its development in the fastest-growing segments of the US rice business.

The business was acquired for 40,731 thousand euros. Effective control of this business was assumed on June 1, 2015, which was also the date of its first-time consolidation. This business is estimated to have generated revenue during the annual reporting period of 28.3 million euros and profit during the year of 2.1 million euros.

Investment in Monterrat:

On September 30, 2015, having obtained the pertinent approval from the French anti-trust authority, Ebro Foods, S.A. acquired, through its subsidiary, Panzani, SAS, 100% of the equity of the French prepared fresh meal maker, Roland Monterrat.

With a headcount of 390 professionals, Roland Monterrat is an important player in the fresh meal segment in France: it is the leader in the pâté en croûte segment and a top player in the sandwich and croque-monsieur segments. This acquisition will boost the Ebro Group's growth in the fresh product arena and in other complementary business segments.

The transaction was structured as the acquisition of 100% of the target's shares. The acquisition price totaled 41,546 thousand euros (a 26,550 thousand euro net payment plus 14,996 thousand euros of assumed debt). The acquisition was financed using a mix of own funds and borrowings. Effective control of this business was assumed on October 1, 2015, which was also the date of its first-time consolidation. This business is estimated to have generated revenue during the annual reporting period of 54 million euros and profit during the year of 1.2 million euros.

Investment in Celnat (acquired at the end of January 2016):

Ebro Foods, through one of its French subsidiaries, acquired 100% of France's CELNAT, a pioneer in the organic food business and one of France's most important organic cereal producers, in January 2016.

CELNAT boasts a very strong position in the high-end organic food category and an excellent reputation in the specialist retail circles in which it makes 95% of its sales. Against this backdrop, the French sub-group has set up a new division, separate from its other business units, called Alimentation Santé; CELNAT and the rest of Ebro's activities in the organic food category will be grouped into this new division in order to boost the its positioning in the health food segment, raise the profile of the organic food category within the Group and position it strategically for tapping emerging food trends.

In 2015, CELNAT posted revenue of 22 million euros, 20% of which was generated outside France. The transaction price was 25,426 thousand euros and includes 1,426 thousand euros of net debt assumed by the Group. The Group took effective control of this business in January 2016, also the date of its first-time consolidation.

3. EMPLOYEE AND ENVIRONMENTAL DISCLOSURES

EMPLOYEES

Ebro Food's ultimate objective on the labor front is to foster mutually-beneficial labor relations, by making its employees feel vested in the organization, encouraging their career development, promoting equal opportunities and taking a zero-tolerance stance on discrimination and establishing, in a nutshell, a tranquil workplace climate.

Each of the Group companies is governed by the labor legislation prevailing in the countries in which they do business. In addition, the bigger subsidiaries have formulated their own human resource policies that regulate relations between management and employees. Above all of these policies, and notwithstanding the terms of the collective bargaining agreements of the various companies comprising the Ebro Foods Group, there is a corporate Code of Conduct designed not only to ensure the ethical and responsible conduct of the professionals of all Ebro Foods Group companies on the job but also to serve as a guide for defining employment policies and safeguards, workplace health and safety policy, training issues and the principles for guaranteeing the absence of discrimination and the promotion of diversity and equality in hiring decisions.

The key Ebro Foods, S.A. staff disclosures are provided in notes 18 and 19 of the accompanying financial statements.

ENVIRONMENT

Although the Company's business activities do not imply environmental consequences per se, one of Ebro Foods's basic management commitments is to provide its companies with the tools and measures needed to strike an optimal balance between their business activities and environmental protection. See note 19.d to the financial statements for additional information.

4. LIQUIDITY AND FINANCING

Ebro Foods, S.A. manages the Group's financing requirements in respect of strategic matters such as dividend policy and the Group's organic growth. To this end it relies on the cash generated by its subsidiaries which act as guarantors on the long-term loans taken on to facilitate this role.

The Management Report accompanying the consolidated financial statements provides an in-depth overview of the Group's liquidity and financial position.

5. BUSINESS RISK MANAGEMENT TARGETS AND POLICIES

Ebro Foods, in its capacity as the parent of a group of companies, is indirectly exposed to risks affecting its subsidiaries via the valuation of its investment portfolio and the amount of dividends it receives from them. The business activities performed by the Ebro Foods Group companies are carried out it an environment shaped by exogenous factors that could influence their business and financial performances.

These risks are mainly environmental, business, financial, borrowings, labor and technology related. These risks and the measures taken to identify, manage and mitigate them are described in detail in both the Management Report accompanying the consolidated financial statements and in the Group's Annual Corporate Governance Report.

On the basis of the main risks identified each year, management assesses the instruments in place for mitigating them and the main associated processes and controls.

FINANCIAL RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS

The main financial instruments used are bank loans, bank overdraft facilities, cash and short-term deposits. The overriding goal of use of these instruments is to expand the sources of financing available to the Group.

In the past, the Company has written derivatives to hedge interest and exchange rate risk. It is Company policy not to use financial instruments for speculative purposes.

The main risks arising from the financial instruments used are credit risk, cash flow interest rate risk, liquidity risk and foreign currency risk.

The Board of Directors reviews and establishes the policies put in place for managing each of these risks, while the Finance Department identifies and manages them with a view to minimizing or ring-fencing their potential impact on the Group's performance.

CREDIT RISK

Ebro Foods, S.A.'s exposure to credit risk is not significantly concentrated. Moreover, it deposits its cash and arranges its financial instruments with highly solvent and creditworthy financial institutions.

CASH FLOW INTEREST RATE RISK

The Company is exposed to changes in market interest rates, mainly on account of its non-current payment obligations arranged at floating rates of interest.

Its policy is to use a mix of fixed and variable rates. It seeks to achieve a balanced debt structure that minimizes borrowing costs while containing volatility. To this end it tracks interest rate trends with the help of external experts. Whenever deemed necessary, Ebro Foods, S.A. arranges interest rate derivatives.

FOREIGN CURRENCY RISK

As a result of the investments made in the US, the carrying amounts of the Company's assets and liabilities are significantly exposed to changes in the USD / EUR exchange rate. It has mitigated this structural exchange rate risk by denominating specific borrowings in this currency. In this manner, it has hedged the majority of its US investments.

Foreign currency risk also arises from the purchases and sales made by the various subsidiaries in currencies other than the functional currency. In this instance, the subsidiaries themselves arrange their own forward contracts or other exchange rate hedges, in keeping with Group policy.

LIQUIDITY RISK

Ebro Foods, S.A.'s objective is to maintain a balance between continuity of funding and flexibility through the use of renewable credit facilities, bank loans and short-term deposits.

6. EVENTS AFTER THE REPORTING PERIOD

There have been no other significant events or developments between the end of the reporting period and the date of authorizing the accompanying financial statements for issue.

7. BUSINESS OUTLOOK

Ebro Foods' financial performance going forward will depend on the dividends received from its subsidiaries, the gains recognized on properties deemed non-core and the finance costs incurred on the debt taken on to finance its assets.

The Company's directors believe that the dividends declared by its subsidiaries will be sufficient to enable Ebro Foods to fund an adequate shareholder remuneration policy.

8. R&D

R&D initiatives are shaped by the subsidiaries' strategic initiatives (to which end we refer the reader to the Management Report accompanying the consolidated financial statements).

9. OWN SHARE TRANSACTIONS

In 2015, the Parent had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meetings held on June 15, 2011 and June 3, 2015 for a period of five years (and duly notified to the CNMV in keeping with prevailing legislation). In 2015, the Company bought back 27,354 shares, sold 22,171 and delivered 24,646 own shares to employees. The Company did not hold any own shares as treasury stock at December 31, 2015

10. OTHER RELEVANT DISCLOSURES

DIVIDEND DISTRIBUTION

At the Annual General Meeting of June 3, 2015, the Company's shareholders ratified the motion to pay a cash dividend with a charge against unrestricted reserves of 0.66 euros per share (an ordinary dividend of 0.51 euros per share and a special dividend of 0.15 euros per share), payable in the course of 2015.

The ordinary dividend was paid out in three equal instalments of 0.17 euros per share on April 1, June 29 and October 2, 2015. The special dividend was paid out in a single instalment of 0.15 euros per share on December 22, 2015.

AVERAGE PAYMENT PERIOD

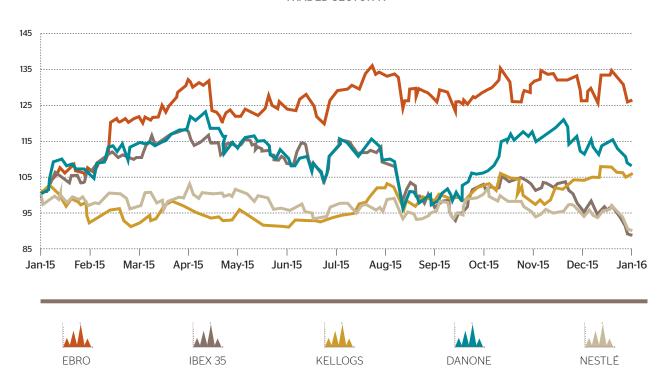

The Company paid its suppliers at 15 days on average in 2015.

A.9. Indicate the term and conditions of the authorisation granted by the General Meeting to the Board to buy or sell own shares

The Annual General Meeting of Shareholders held on second call on 3 June 2015 resolved, under item twelve on the agenda, to authorise the Board of Directors to buy back own shares and reduce the company's capital and to authorise subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in law.

a. Conditions of the authorisation

To authorise the board of directors, with the power to delegate, to buy back shares in Ebro Foods, S.A., directly or through its subsidiaries, by purchase, swap or under any other title and on one or several occasions, on the terms and conditions established in sections 146 et seq and sections 509 et seq of the Corporate Enterprises Act, and the following conditions::

- The par value of the shares purchased directly or indirectly, together with those already held by the company or its subsidiaries, shall not exceed 10% of the subscribed capital.
- The buyback, when added to the shares previously acquired by the company or any person acting in his own name but on behalf of the company and held in portfolio, shall not have the effect of reducing equity to below the amount of the capital plus the legal or restricted statutory reserves. For this purpose, equity shall be the amount considered such according to the principles for drawing up the annual accounts, less the amount of gains attributed directly thereto, plus the amount of uncalled subscribed capital and the par value and share premium of the subscribed capital recognised in liabilities.
- The shares thus acquired shall be fully paid up.
- The cap and floor values for buy-back shall be the market value of the shares on an official secondary market at the date of buy-back and a value equivalent to the par value of the own equity instruments acquired, respectively.

b. Contents of the authorisation

- To authorise the Board, by direct resolution or delegation to the Executive Committee, or by delegation to such person or persons as the Board may authorise for this purpose, to buy back own shares to hold them in its treasury stock, dispose of them or, as the case may be, put a motion at the General Meeting for their redemption, within the legal limits and complying with the conditions established in this resolution.

This authorisation is also extended to the possibility of buying back own shares for delivery, on one or several occasions, to the company or group employees, directly or following exercise of their option rights, pursuant to section 146.1(a), third paragraph, of the Corporate Enterprises Act..

It is also extended to acquisitions of shares in Ebro Foods, S.A. by its subsidiaries.

- To authorise the Board to reduce the capital in order to redeem the own equity instruments purchased by the company or other companies in its group against the capital (for their par value) and unrestricted reserves (for the cost of the acquisition in excess of that par value), by such amounts as it may deem fit from time to time and up to the maximum own shares held at any time.
- To delegate to the board to implement the aforesaid resolution to reduce the capital, which it may do on one or several occasions or declare it null and void, within a period not exceeding 5 years from the date of this General Meeting, taking such actions for this purpose as may be necessary or required by law.

The Board is especially authorised so that it may, within the times and limits indicated in this resolution, proceed to: (i) make or declare void the reduction of capital, naming if appropriate the specific date(s) of the transactions, taking account of any internal or external factors that may influence this decision; (ii) specify in each case the amount by which the capital is reduced; (iii) determine the destination of the amount of the reduction of capital; (iv) in each case adjust Articles 6 ("Capital") and 7 ("Shares") of the Articles of Association to reflect each new amount of capital and new number of shares; (v) apply in each case for delisting of the redeemed shares; and (vi) in general adopt such resolutions as may be considered necessary for redemption and the consequent reduction of capital, designating who is to put it on record

c. Term of the authorisation

The authorisation contemplated in this resolution is granted for a maximum of five years from the date of the General Meeting (3 June 2015) and covers all transactions in own equity instrument made hereunder, without requiring reiteration for each acquisition made. It also covers any provisions or earmarking of reserves made in accordance with the Corporate Enterprise Act.

The resolutions adopted at the Annual General Meeting of 3 June 2015 regarding treasury stock, reduction of capital and delegation to the Board rendered void in the unused amount those adopted in this regard at the Annual General Meeting held on 15 June 2011. They remain in force, not having been since revoked.

	The Corporate Governance chapter is structured in the following sub-sections:							

Regulations of the General Meeting
General Meeting of Shareholders: exercise of the right to information
General Shareholders' Meeting 2016
Board of Directors

- Regulations of the Board
- Annual Corporate Governance Report
- Remuneration of Directors
- Board Committees
- Internal Code of Market Conduct
- Shareholders' Forum

The contents of this chapter are structured and hierarchical, with a concise, explanatory title, to permit rapid, direct access to each section, in accordance with legal recommendations, at less than three clicks from the home page.

All these sections have been designed and prepared according to the principle of accessibility, aiming to enable fast location and download of the required information.

The corporate website offers all the information in this section in Spanish and English, and the information considered most important is also provided in French, Catalan, Euskera and Galician.

C. MANAGEMENT STRUCTURE OF THE COMPANY

C.1 Board of Directors

C.1.1 State the maximum and minimum numbers of directors stipulated in the articles of association:

Maximum number of directors	15
Minimum number of directors	7

C.1.2 Give details of the board members:

Name of director	Representative	Category of director	Position on Board	Date first appointment	Date latest appointment	Election procedure
JOSÉ ANTONIO SEGURADO GARCÍA		Independent	LEAD INDEPENDENT DIRECTOR	29/05/2012	04/06/2014	RESOLUTION PASSED AT AGM
DEMETRIO CARCELLER ARCE		Proprietary	VICE- CHAIRMAN	01/06/2010	04/06/2014	RESOLUTION PASSED AT AGM
EUGENIO RUIZ- GÁLVEZ PRIEGO		Other Non- Executive	DIRECTOR	25/07/2000	04/06/2014	RESOLUTION PASSED AT AGM
ANTONIO HERNÁNDEZ CALLEJAS		Executive	CHAIRMAN	24/01/2002	04/06/2014	RESOLUTION PASSED AT AGM
FERNANDO CASTELLÓ CLEMENTE		Independent	DIRECTOR	29/05/2012	04/06/2014	RESOLUTION PASSED AT AGM

Total number of proprietary directors	6
% of board	50.00%

NON-EXECUTIVE INDEPENDENT DIRECTORS

Name of Director

JOSÉ ANTONIO SEGURADO GARCÍA

Profile

Born in Barcelona. Graduate in Law and Economics. Insurance broker and entrepreneur. Chairman of SEFISA, AEF and AEIM. Joint founder of CEIM and CEOE. President of the Liberal Party and MP in the National Government in the III and IV Parliamentary Terms. Member of the Trilateral Commission. Director of Unión y Fénix, Acerinox, J.W.Thompson and Vusa. Currently Chairman of Segurado & Galobart, S.L. and of the Advisory Council of Alkora EBS, Correduría de Seguros, S.A., Honorary Chairman & Founder of CEIM and member of the Management Board of CEOE and on the Advisory Board of Coviran, S.C.A. Grand Cross of the Order of 2 May awarded by the Community of Madrid.

Name of Director

FERNANDO CASTELLÓ CLEMENTE

Profile

Born in Mollerusa (Lleida). Industrial Engineer and MBA (IESE). Lecturer at the School of Engineers and Architects of Fribourg (Switzerland). Has held several important executive and management positions in companies operating in the dairy sector and has extensive experience in the sector.

Currently Vice-Chairman of Merchpensión, S.A. and on the board of other consultancy and financial services companies.

Name of Director

JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL

Profile

Born in San Sebastián. Economist and graduate in International Banking. Extensive experience in the financial sector, director and executive positions in several financial institutions and insurance companies, such as Banco Hispano Americano, Mutua Madrileña and Axa Winterthur, among others. Chairman of Rexam Ibérica and Arbitraje Inversiones S.L.

Total number of independent directors	3
% of board	25.00%

State whether any director qualified as independent receives from the company or any other company in the same group any sum or gain other than directors' emoluments, or has or has had a business relationship with the company or any other company in its group during the past year, in his/her own name or as controlling shareholder, director or senior executive of a company which has or has had such a relationship.

None of the independent directors is in any of these circumstances.

If appropriate, include a reasoned statement by the board explaining why it considers that the director in question can perform his/her duties as an independent director.

OTHER NON-EXECUTIVE DIRECTORS

Name any other non-executive directors and explain why they cannot be considered proprietary or independent directors and their relationships, with the company or its executives or with the shareholders:

Name of Director

EUGENIO RUIZ-GÁLVEZ PRIEGO

Company, executive or shareholder with which he has a relationship: EBRO FOODS, S.A.

Reasons:

Eugenio Ruiz-Gálvez Priego is not a proprietary director because he does not hold a significant interest in the company or represent a significant shareholder; nor can he be considered an independent director since he has been a director of Ebro Foods, S.A. for more than 12 years in succession.

Total number of other non-executive directors	1
% of board	8.33%

Indicate any variations during the year in the type of each director:

C.1.4 Complete the following table with details of the number of female directors over the past 4 years and the type of female directors:

	Number of female directors			Female di	emale directors / total directors of each type (%)			
	2015	2014	2013	2012	2015 2014 2013			2012
Executive	0	0	0	0	0.00%	0.00%	0.00%	0.00%
Proprietary	2	2	2	1	28.57%	28.57%	28.57%	16.67%
Independent	0	0	1	1	0.00%	0.00%	25.00%	25.00%

Other non-executive	0	0	0	0	0.00%	0.00%	0.00%	0.00%
Total	2	2	3	2	16.67%	16.67%	23.08%	16.67%

C.1.5 Explain any measures taken to endeavour to include in the board a number of women to give a balanced composition of men and women directors.

Explanation of measures

No specific measures of this nature have been adopted, the principal criterion applied when selecting candidates to the board being that the selection process should avoid any kind of implicit bias that could involve discrimination on any grounds against any of the candidates.

This notwithstanding, with regard to the balanced presence of women on the board, the Policy for Selecting Candidates to be Directors (approved by the Board of Directors) upholds the following principles: (i) a diversity of expertise, experience and gender on the Board shall be sought; and (ii) in equal conditions, the candidate whose gender is least represented on the board at that time shall be chosen.

In addition, the aforesaid Policy for Selecting Candidates to be Directors expressly contemplated the target that by 2020 the gender least represented on the Board shall account for at least thirty per cent of all the Board members.

C.1.6 Explain any measures agreed by the nomination committee to ensure that the selection procedures are not implicitly biased against the selection of female directors and that a conscious effort is made to include women with the target profile among the candidates:

Explanation of measures

There are no specific measures, other than the principles and target indicated in point C.1.5 above.

If, despite the measures taken, if any, there are few or no female directors, explain the reasons that justify this situation:

Explanation of reasons

The number of female directors was reduced to two following the resignation of one independent director as of 1 December 2014.

That vacancy was not filled, but if and when it is filled, the principles included in the Policy for Selecting Candidates to be Directors, particularly those regarding the balance of genders on the board, will be taken into account.

C.1.6 bis Explain the conclusions of the nomination committee on checking compliance with the policy for selecting directors and, in particular, on how that policy is promoting the target that by the year 2020 the number of female directors should represent at least 30% of all the board members.

Explanation of conclusions

No directors were nominated or re-elected during 2015, so there was no need to apply any of the criteria for selecting candidates contemplated in the Policy for Selecting Directors established in the company. Therefore, the Nomination and Remuneration Committee was not called on to check compliance with that policy during the reporting period.

- C.1.7 Explain the form of representation on the board of shareholders with significant interests.
 - The directors nominated by Instituto Hispánico del Arroz, S.A. and appointed by the general meeting are Instituto Hispánico del Arroz, S.A., Hispafoods Invest, S.L. (also a significant shareholder of the company) and Antonio Hernández Callejas.
 - The director nominated by Sociedad Estatal de Participaciones Industriales and appointed by the general meeting is Alimentos y Aceites, S.A.
 - The directors nominated by Sociedad Anónima Damm and appointed by the general meeting are Demetrio Carceller Arce and Dr Rudolf-August Oetker.

- The director nominated by Corporación Financiera Alba, S.A. and appointed by the general meeting is José Nieto de la Cierva.
- The director nominated by Juan Luis Gómez-Trenor Fos and appointed by the general meeting is Empresas Comerciales e Industriales Valencianas, S.L.
- C.1.8 Explain, if appropriate, why proprietary directors have been appointed at the request of shareholders holding less than 3% of the capital:

State whether any formal requests for presence on the board have been rejected from shareholders holding interests equal to or greater than others at whose request proprietary directors have been appointed. If appropriate, explain why such requests were not met:

YES	П	NO	X
1 - 0		110	

- C.1.9 State whether any director has retired before the end of his/her term of office, whether said director explained the reasons for such decision to the Board and through what means, and if the explanations were sent in writing to the entire Board, explain below at least the reasons given by the director:
- C.1.10 Indicate the powers delegated to the Managing Director(s), if any:
- C.1.11 Name Board members, if any, who are also directors or executives of other companies in the same group as the listed company:

Name of director	Name of Group company	Position	Has executive duties?
ANTONIO HERNÁNDEZ CALLEJAS	VOGAN, LTD	DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	JOSEPH HEAP PROPERTY, LTD	DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	JOSEPH HEAP&SONS, LTD	DIRECTOR	YES

ANTONIO HERNÁNDEZ CALLEJAS	HERBA GERMANY, GMBH	JOINT & SEVERAL DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	PANZANI, S.A.S.	DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	S&B HERBA FOODS, LTD	DIRECTOR	YES
ANTONIO HERNÁNDEZ CALLEJAS	ARROZEIRAS MUNDIARROZ. S.A.	CHAIRMAN	YES

C.1.12 Name the company directors, if any, who are on the Boards of non-group companies listed on Spanish stock exchanges, insofar as the company has been notified:

Name of Director	Listed Company	Position
DEMETRIO CARCELLER ARCE	GAS NATURAL SDG, S.A.	DIRECTOR
DEMETRIO CARCELLER ARCE	SACYR, S.A.	VICE-CHAIRMAN 1
EUGENIO RUIZ-GÁLVEZ PRIEGO	PROSEGUR, COMPAÑÍA DE SEGURIDAD, S.A.	DIRECTOR
JOSÉ NIETO DE LA CIERVA	CORPORACIÓN FINANCIERA ALBA, S.A.	DIRECTOR
JOSÉ NIETO DE LA CIERVA	BANCA MARCH, S.A.	MANAGING DIRECTOR

C.1.13	•	where approp f directorships			ie compa	any has esta	blished rules or
		YES	X	NO			

Explanation of the rules

Article 32.2 of the Regulations of the Board establishes, in the "General Duties of Directors" that Directors shall dedicate to the company such attention and time as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the company.

C.1.14 Repealed.

C.1.15 Indicate the overall remuneration of the board:

Remuneration of the board (thousand euros)	4,907
Amount of the overall remuneration corresponding to the vested rights of current directors in pension schemes (thousand euros)	0
Amount of the overall remuneration corresponding to the vested rights of former directors in pension schemes (thousand euros)	4,907

C.1.16 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position
ANA MARÍA ANTEQUERA PARDO	MANAGER COMMUNICATIONS
LUIS PEÑA PAZOS	SECRETARY
LEONARDO ÁLVAREZ ARIAS	MANAGER I.T.
PABLO ALBENDEA SOLÍS	CHIEF OPERATING OFFICER
ALFONSO FUERTES BARRÓ	FINANCE MANAGER
GABRIEL SOLÍS PABLOS	TAX MANAGER
YOLANDA DE LA MORENA CEREZO	VICE-SECRETARY
JESÚS DE ZABALA BAZÁN	MANAGER INTERNAL AUDIT
MANUEL GONZÁLEZ DE LUNA	MANAGER INVESTOR RELATIONS AND FINANCIAL INSTITUTIONS
GLORIA RODRÍGUEZ PATA	CORPORATE ASSETS MANAGER

Total remuneration top management (thousand euro)	2,061
---	-------

C.1.17 Name any board members who are also on the boards of companies holding significant interests in the listed company and/or in companies of its group:

Name of director	Name of significant shareholder	Position
DEMETRIO CARCELLER ARCE	SOCIEDAD ANÓNIMA DAMM	CHAIRMAN
RUDOLF-AUGUST OETKER	SOCIEDAD ANÓNIMA DAMM	DIRECTOR
JOSÉ NIETO DE LA CIERVA	BANCA MARCH, S.A.	MANAGING DIRECTOR
JOSÉ NIETO DE LA CIERVA	BANCA INVERSIS, S.A.	CHAIRMAN
JOSÉ NIETO DE LA CIERVA	CORPORACIÓN FINANCIERA ALBA, S.A.	DIRECTOR

Describe the significant relationships of the board members with the controlling shareholders and/or companies in their group, other than as mentioned above:

Name of director

DEMETRIO CARCELLER ARCE

Name of significant shareholder SOCIEDAD ANÓNIMA DAMM

Description of relationship

Demetrio Carceller Arce has an indirect holding of 0.687% in Sociedad Anónima Damm

Name of director

ALIMENTOS Y ACEITES, S.A.

Name of significant shareholder

SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES

Description of relationship

Sociedad Estatal de Participaciones Industriales has a direct holding of 91.9625% in Alimentos y Aceites, S.A. and its company secretary and secretary of the board, Concepción Ordiz Fuertes, represents Alimentos y Aceites, S.A. on the board of Ebro Foods, S.A.

Name of director

EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.

Name of significant shareholder JUAN LUIS GÓMEZ-TRENOR FOS

Description of relationship

Juan Luis Gómez-Trenor Fos wholly owns Empresas Comerciales e Industriales Valencianas, S.L. and is Sole Director of the company.

C.1.18 State whether any modifications have been made during the year to the Regulations of the Board:

	Description	on of modifica	tions	
YES	X	NO		

On 29 April 2015 the Board approved modifications to the Regulations of the Board, mainly to adapt them to the amendments to the Corporate Enterprises Act made by Act 31/2014 of 3 December and adapt the contents to the new good governance recommendations and the new Articles of Association and Regulations of the General Meeting made in the wake of the aforesaid change in the law and laid before the General Meeting for approval on 3 June 2015.

The modifications made to the Regulations of the Board affected practically all the articles (either by altering the contents in some aspect or by moving them within the new structure of the Regulations). Those modifications are summed up below:

- The programmatic content or principles have been reduced considerably and now the Regulations contain more specific rules on the composition, positions, procedure and powers of the Board and its committees, the status of director and relations between the board and shareholders, market, auditors and senior executives.
- Those aspects of the new legislation that the Board considered should be reflected in the Regulations have been included, while avoiding the inclusion of imperative legal provisions (applicable regardless of whether or not they are reflected in regulations), so that the Regulations will be an operational, practical document.
- As a rule, they maintain the set-up and powers of the different bodies, positions and committees previously contemplated in the Regulations, completing them (as far as possible with referrals to current legislation) with the new legal provisions.
- In Chapter I, containing the general provisions, the changes were essentially to wording.
- In Chapter II, on the composition of the Board, the qualitative criteria of the composition were developed, mainly in accordance with the relevant good governance recommendations.
- In Chapter III, on duties and powers of the Board, it was indicated that they were included, and should be construed, within the framework of the imperative legal regulation on the powers of this body. In the same sense, a specific article was included on the possibility of delegating those duties which, by law, cannot be delegated, although in emergencies the delegated bodies may adopt decisions on business within the competence of the Board, in which case they must subsequently be ratified by the Board.
- In Chapter IV, on the structure of the Board, the provisions on the Chairman, Vice-Chairman, Managing Director and Secretary were adapted to the current legal provisions. Regulation of the Lead Independent Director was also included, essentially in the same terms as those set out in the Corporate Enterprises Act as amended by Act 31/2014.
- In Chapter V, on the procedures of the Board, minimum changes were made in the wake of the new legal provisions: reference to the periodical assessment of the Board, calling of Board meetings at the request of the Lead Independent Director and the limitations on representation on the Board.
- In Chapter VI, on Committees, the previous text of the Regulations was largely maintained, with any changes considered necessary in respect of the new legal provisions. It was opted to maintain the lists of

powers attributed to the Committees, although they must fit in with those of the different corporate bodies according to the current legislation.

- Chapter VII, on the status of Directors, suffered the greatest changes, mainly due to the major amendments to the Corporate Enterprises Act made by Act 31/2014 regarding directors' duties. The company has endeavoured to include in the Regulations the main aspects of those amendments (which are mandatory). The article on directors' remuneration was also altered, adjusting it to the new text of the Articles of Association on the matter (laid before the AGM on 3 June 2015 and approved), which was in turn adapted to the new legal provision (distinguishing between the remuneration of the directors as such and the remuneration of directors for executive duties performed).
- In Chapter VIII, on relationships between the board and shareholders, markets, auditors and senior management, the previously existing regulations were largely maintained, with certain changes in wording, mainly to adjust the regulations to the amended Act.
- The Final Provisions were eliminated, although they must nevertheless be observed. However, it was considered unnecessary to include them in the Regulations.
- C.1.19 Describe the procedures for selection, appointment, re-election, assessment and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

The procedures for selection, appointment, re-election, assessment and removal of the directors are regulated in the Articles of Association and the Regulations of the Board.

There is also now a Policy for Selecting Candidates to be Directors of Ebro Foods, S.A., which specifically and verifiably establishes the basic criteria and principles to be followed in the selection of candidates. The Policy is applicable in the appointment, ratification and re-election of directors by the General Meeting and any appointments made by the Board by cooptation in the event of a vacancy pre-term. In directors who are legal persons, the principles and criteria of the Policy must be observed in respect of the individuals representing them on the board.

The General Meeting is responsible for deciding on the number of directors the company is to have, within the minimum (7) and maximum (15) established in the Articles of Association, and for appointing or re-electing directors as proposed by the Board, subject to a favourable report by the Nomination and Remuneration Committee.

The Board may also appoint directors by cooptation, subject to a report by the Nomination and Remuneration Committee.

In any case, the initiative of the Board regarding the incorporation of members by no means detracts from the sovereign power of the General Meeting to appoint and remove directors, or from any potential exercise by shareholders of their right to proportional representation.

The persons nominated by the Board for appointment or re-appointment as directors must be persons of recognised repute, with adequate experience and expertise to be able to perform their duties.

As regards the role of the Nomination and Remuneration Committee in the appointment of directors, see the duties of this Committee in Explanatory Note Seven of section H herein.

Directors are appointed for a term of four years, after which they are eligible for re-election on one or several occasions for terms of an equal duration. This term of four years is counted from the date of the General Meeting at which they are appointed, or ratified when previously appointed by cooptation by the Board.

If vacancies arise during the term for which they were appointed, the Board may appoint shareholders to fill those vacancies up to the next general meeting. Directors' appointments shall end at the first general meeting held after expiry of their term or lapse of the time stipulated in law for holding the general meeting that is to approve the accounts of the previous year.

The appointment and re-election procedure shall be preceded by the corresponding reports from the Nomination and Remuneration Committee and the Board, on the terms stipulated in law.

The Board regularly rates the Board, Chairman and Committees on their efficiency and fulfilment of their obligations, requesting the corresponding reports from its Committees and, if considered necessary, proposing any modifications that may be appropriate to improve their performance.

Directors retire upon expiry of the term for which they were appointed and in all other events stipulated in law, the Articles of Association or the Regulations of the Board. They must tender their resignations to the Board and step down in the events established in Article 24 of the Regulations of the Board.

C.1.20 Explain to what extent the annual assessment of the board has given rise to major changes in its internal organisation and the procedures applicable to its activities.

Description of modifications

It has not given rise to any change.

C.1.20.bis Describe the process of assessment and the areas assessed by the board, assisted where necessary by an external consultant, on diversity in its composition and powers, the procedure and composition of its committees, the performance by the chairman of the board and CEO of the company and the performance and contribution of each director.

A) Process of self-assessment:

A self-assessment process is carried out every year on the Board, its Committees and the executive chairman of the company. That process is based on (i) a report prepared by the Nomination and Remuneration Committee for presentation to the Board, (ii) the activity reports of the Audit and Compliance Committee and the Nomination and Remuneration Committee, and (iii) the resolutions adopted by the Board of Directors in view of the foregoing.

B) Methods used:

The Board members complete a questionnaire rating certain aspects regarding the quality and efficiency of the Board procedures, the actions performed by the chairman of the board, who is at the same time the chief executive of the company, and the procedure of the Executive Committee and other Board Committees. They can also make other comments, should they deem fit, on the functioning of the Board, its Committees and the Executive Chairman.

C) Areas assessed:

- Composition of the Board and actions by the Directors: assessment on the quantitative and qualitative composition of the Board and their perception of the performance by other directors of their duties.
- Procedure of the Board: assessment of the functioning of the Board, frequency of meetings, procedure for calling meetings, transaction of business within the Board and powers of the Board.
- Chairman of the Board: assessment on the dedication and actions by the Chairman, both as such and in his capacity as chief executive of the company.
- Committees of the Board: assessment of the directors' perception, from the Board, of the role of the Board Committees and perception of the members of the Board Committees on their functioning.
- C.1.20.ter Describe, where appropriate, any business relations between the consultant or any company in its group with the company or any other company in its group.

No assistance was received from external consultants in the assessment of the Board, its Committees and its Chairman in 2015.

C.1.21 State the events in which directors are obliged to step down.

The retirement and resignation of directors are regulated in Article 31 of the Regulations of the Board:

- Directors must step down at the end of the term for which they were appointed and in all other events stipulated in law, the Articles of Association and the Regulations of the Board.
- Directors must also tender their resignations and step down in the following cases:
- a) When they are affected by one of the causes of incompatibility or disqualification established in law, the articles of association or the regulations.
- b) When they step down from the executive post to which their appointment as director was linked, when the shareholder they represent on the Board disposes of its shares in the company or reduces its interest to an extent requiring a reduction in the number of proprietary directors and, in general, whenever the reasons for their appointment disappear.
- c) When the Board, following a report by the Nomination and Remuneration Committee, considers that the Director has seriously defaulted his obligations or for reasons of corporate interest.

C.1.31 Are the separate and consolidated annual accounts submitted to the Board for approval previously certified?

YES □ NO ⊠

If yes, name the person(s) who certify the separate or consolidated annual accounts of the company before they are approved by the Board:

C.1.32 Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the separate and consolidated accounts laid before the General Meeting.

Relations with the auditors are expressly regulated in Article 43 of the Regulations of the Board.

The Board shall establish an objective, professional and continuous relationship with the external auditors of the company appointed by the general meeting, guaranteeing their independence and providing them with all the information they may require to perform their duties. This relationship and the relationship with the Internal Audit Manager shall be channelled through the Audit and Compliance Committee. Furthermore, the Board shall endeavour to draw up the Annual Accounts in such a way as to avoid a qualified Auditors' report.

Within the specific duties attributed to the board in certain areas, Article 9 of the Regulations establishes that the Board shall see that the separate and consolidated Annual Accounts and Directors' Reports give a true and fair view of the equity, financial position and results of the company, as stipulated in law, and each and all of the Directors shall have all the necessary information before signing the Annual Accounts.

Article 24.4 of the Regulations of the Board gives the Audit and Compliance Committee certain powers to ensure that the Annual Accounts are filed without a qualified auditors' report (see section C.2.4 of this Report).

Finally, there is a Risks Control and Management Policy established in the Group laying down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which the Company and other companies in its group are exposed.

As regards the control of financial reporting, the Group has procedures in place for checking and authorising financial reporting and a description of the financial reporting internal control system (FRICS), responsibility for which lies with the Economic and Finance Department, the Risks Committee, the economic and finance

departments of the different business units, the Audit and Compliance Committee and the Board. Financial information is checked and authorised up by the Economic and Finance Department of the Group on the basis of the information confirmed in the different business units. The information to be remitted to the market is supervised by the Audit and Compliance Committee and approved by the Board.

Board a Director?

YES □ NO ⊠

If the secretary is not a director, complete the following table:

Name of Secretary	Representative
LUIS PEÑA PAZOS	

C.1.34 Repealed.

C.1.35. Describe any mechanisms established by the company to preserve the independence of the auditor, financial analysts, investment banks and rating agencies.

A. With regard to the external auditors:

Both the Articles of Association and the Regulations of the Board vest in the Audit and Compliance Committee the power, among others, to contact the auditors and receive information on any issues that may jeopardise their independence, for examination by the Audit Committee, as well as any other issues relating to the auditing of accounts. The Committee shall also receive information from and exchange communications with the auditors in accordance with prevailing auditing standards and legislation, notwithstanding the ultimate responsibility of the Board, which, pursuant to Article 8.1.3.(a) of the Regulations of the Board is responsible for ensuring the independence and professional suitability of the External Auditor.

Article 43 of the Regulations of the Board addresses relations with the auditors, obliging the Board to establish an objective, professional, continuous relationship with the External Auditors of the Company appointed by the General Meeting, guaranteeing their independence and putting at their disposal all the information they may require to perform their duties. It further establishes that the aforesaid relationship with the External Auditors of the Company and the relationship with the Internal Audit Manager shall be conducted through the Audit and Compliance Committee.

Finally, Article 24.4 of the Regulations of the Board establish the following powers of the Audit and Compliance Committee in this respect:

- Supervise and promote the policies, procedures and systems used for drawing up and controlling the company's financial information, checking the services performed in this regard by the Internal Audit Department, the Financial Department and the Management Committee and making sure they are correctly distributed throughout the Group.
- Receive the information sent regularly to the Stock Exchange Councils, issue prospectuses and any public financial information offered by the Company and, in general, all information prepared for distribution among shareholders, ensuring the existence of internal control systems that guarantee the transparency and truth of the information.
- Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

In this respect, it shall also see that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. The Committee shall, through its Chairman, obtain information and collaboration from both the Internal Audit Manager and the external auditors to perform these duties.

- Establish regular contact with the external auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the external auditors in accordance with prevailing auditing standards and legislation.

- Be informed of the decisions adopted by the senior management according to recommendations made by the external auditors in connection with the audit.
- Ensure the independence of the external auditors and the existence of a discussion procedure enabling the external auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the external auditors and any supplementary services they may have provided.
- B. With regard to relations with analysts, investment banks and rating agencies:

The company has a Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors approved by the Board, and a shareholder and investor relations department, through which communications and information for investors in general are channelled.

Article 42 of the Regulations of the Board regulates the company's relations with shareholders and the markets in general, providing that the Board shall take such measures as may be necessary to enable participation by shareholders in general meetings and organise meetings to inform the shareholders and investors (particularly institutional investors) on the progress of the company and, where appropriate, its subsidiaries.

The Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors contemplates the following general principles applicable in this matter:

- Communication and relations with shareholders, institutional investors and proxy advisors shall be conducted in accordance with the principles of transparency, truth and permanent, adequate, timely reporting.
- The principle of non-discrimination and equal treatment is recognised for all shareholders who are in the same conditions and not affected by conflicts of interest or competence.
- The rights and legitimate interests of all shareholders shall be protected.
- Continuous, permanent communication with shareholders and investors shall be encouraged.
- Reporting and communication channels shall be established with shareholders and investors to ensure compliance with these principles.

The company's Audit and Compliance Committee is responsible for overseeing compliance with the rules and principles set out in the Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors. Accordingly, the manager of the investor relations and communication department has reported to the Audit Committee on the work done in this respect.

ANTONIO HERNÁNDEZ CALLEJAS	CHAIRMAN	Executive
JOSÉ NIETO DE LA CIERVA	MEMBER	Proprietary

% executive directors	25.00%
% proprietary directors	50.00%
% independent directors	25.00%
% other non-executive directors	0.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

The Executive Committee shall have no fewer than three nor more than seven members, including the Chairman and Vice-Chairman of the Board, who will form part of this Committee.

The Executive Committee shall be presided by the Chairman of the Board.

The Executive Committee shall generally hold one meeting a month. Its meetings may be attended by such members of the management, employees and advisers of the company as the Committee may deem fit. The powers of the Executive Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

State whether the composition of this committee reflects the participation in the Board of the different categories of director:

YES ⊠ NO □

AUDIT AND COMPLIANCE COMMITTEE

Name	Position	Туре
EUGENIO RUIZ-GÁLVEZ PRIEGO	MEMBER	Other non-executive
FERNANDO CASTELLÓ CLEMENTE	MEMBER	Independent

% proprietary directors	25.00%
% independent directors	50.00%
% other non-executive directors	25.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

This Committee has a minimum of three directors and a maximum of five.

All the members of this committee must be non-executive directors and at least two of them must be independent directors. One of the members must be appointed on account of his expertise and experience in accounting, auditing or both.

The Board shall appoint one of the independent directors on the Audit and Compliance Committee to chair that committee, subject to a report by the Nomination and Remuneration Committee. The Committee Chairman shall be replaced every four years and will become eligible for re-election one year after his retirement as such.

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The powers of the Audit and Compliance Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

Name the member of the audit committee who has been appointed on account of his expertise and experience in accounting, auditing or both and indicate the number of years that the chairman of this committee has held this position:

Name of director with experience	JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL

% proprietary directors	50.00%
% independent directors	50.00%
% other non-executive directors	0.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

This Committee has a minimum of three and a maximum of five non-executive directors, at least two of which must be independent directors. The members are appointed by the Board in accordance with the provisions of law, the Articles of Association and the Regulations of the Board.

The Board shall appoint one of the independent directors who are members of the committee to chair it, subject to a report by that Committee.

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The powers of the Nomination and Remuneration Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

- C.2.3 Repealed.
- C.2.4 Repealed.
- C.2.5 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each committee.

In general, Article 28 of the Articles of Association establishes the basic regulation of the Committees of the Board, contemplating the existence and composition of (i) the Executive Committee, (ii) the Audit and Compliance Committee and (iii) the Nomination and Remuneration Committee. It also refers to the Regulations of the Board regarding the possible existence of a Strategy and Investment Committee.

The Regulations of the Board regulate the Board committees in the following specific provisions:

- General provisions applicable to all the committees: Article 22

- Executive Committee, Article 23
- Audit and Compliance Committee, Article 24
- Nomination and Remuneration Committee, Article 25
- Strategy and Investment Committee, Article 26

The Regulations of the Board also contemplate in different articles powers of the different Committees of the Board in different areas (e.g. modification of the Regulations).

Both the Articles of Association and the Regulations of the Board are available for consultation on the company's website (www.ebrofoods.es) and the website of the National Securities Market Commission (www.cnmv.es).

See section C.1.8 of this report for the latest alterations to the Regulations of the Board.

Both the Audit and Compliance Committee and the Nomination and Remuneration Committee issue annual activity reports, which are submitted to the Board of Directors for its information and consideration within the assessment of the Board and its Committees. Those activity reports are made available for shareholders on the company's website (www.ebrofoods.es) coinciding with the call to the Annual General Meeting of Shareholders.

C.2.6 Repealed.

D. RELATED PARTY AND INTER-COMPANY TRANSACTIONS

D.1 Explain the procedure, if any, for approving related party and inter-company transactions.

Procedure for approving related party transactions

Apart from cases which, by law, require approval by the General Meeting, related party transactions are approved by the Board subject to a report by the Audit and Compliance Committee.

Article 24 of the Regulations of the Board establishes the power of the Audit and Compliance Committee to report to the Board prior to the adoption of any decisions on related party transactions submitted for its authorisation and to supervise and report to the Board on intragroup and related party transactions of the company or subsidiaries of the Group

With regard to related party transactions, Article 37.3 of the Regulations of the Board expressly establishes that other than in the cases in which this power is reserved by law to the General Meeting, any transactions made by the company or group companies with directors, controlling shareholders, other related parties or shareholders represented on the Board must be authorised by the Board.

This authorisation is not necessary when the transactions meet all of the following three conditions: (i) they are made under contracts with standard terms and conditions applied "en masse" to numerous clients; (ii) they are made at prices or rates established generally by the supplier of the goods or provider of the services in question. (iii) the amount thereof does not exceed 1% of the company's annual revenue. A general, prior authorisation by the Board for a line of transactions and their conditions, subject to a report by the Audit and Compliance Committee, will only be sufficient for bilateral or recurring transactions made in the normal course of the company's business. By exception, in cases where urgent action is necessary, related party transactions may be authorised by the Executive Committee, subject to subsequent ratification by the Board.

Finally, the company makes intragroup transactions on arm's length terms, documenting them according to the requirements of the laws (essentially tax laws) in place in each jurisdiction. This is one of the practices required by the Risk Control and Management Policy established in the Ebro Group.

D.2 List any transactions for a significant amount or object between the company and/or companies in its group and controlling shareholders of the company:

Name of significant shareholder	Name of company or group company	Relationship	Type of transaction	Amount (thousan d euro)
SOCIEDAD ANÓNIMA DAMM	HERBA RICEMILLS, S.L.U.	Contractual	Sale of goods (finished or otherwise)	1,036

D.5 State the amount of transactions made with other related parties.

130 (thousand euros).

D.

D.6 Describe the mechanisms established to detect, define and resolve possible conflicts of interest between the company and/or its group, and its directors, executives or controlling shareholders:

Apart from the powers of the General Meeting and the Board of Directors on conflicts of interest of the directors, under Article 24 of the Regulations of the Board, the Audit and Compliance Committee has the power to settle any conflicts of interest that may arise between the company or the group and its directors, executives, significant shareholders and listed subsidiaries, if any.

With regard to the directors, Article 36 of the Regulations of the Board provides that directors may not perform activities for their own or third party account that effectively or potentially compete with the company or which otherwise puts them in a permanent conflict of interest with the company; and Article 37.1 establishes the obligation of directors to take such measures as may be necessary to avoid falling into situations in which their interests, for their own or third party account, may conflict with the corporate interests and their duties to the company.

For this purpose, Article 38 of the Regulations stipulates that directors shall inform the Board of any direct or indirect conflict of interest that they or any of their related parties may have with the company. Furthermore, pursuant to Article 32.4 of the Regulations, directors shall abstain from participating in the corresponding debates and voting on resolutions or decisions in which they or any person related to them has a direct or indirect conflict of interest, except in the cases in which they are authorised by law to participate in the discussion and voting.

As far as executives of the Group are concerned, the Internal Code of Market Conduct stipulates in Rule 11 that any Relevant Persons (which includes Group executives) who are or may be in a conflict of interest shall Inform the Compliance Unit (reporting to the Audit and Compliance Committee) of their situation, abstain from participating in or

	100
	YES □ NO ⊠ Name any subsidiaries listed in Spain:
7	Is more than one company of the Group listed in Spain?
	Without prejudice to their obligation to inform, both the directors and the significant shareholders of the company are asked each year, when drawing up the Annual Accounts and preparing the Annual Corporate Governance Report, for confirmation of any transactions that they may have made with the company and/or other companies in the group, the engagement in activities similar or complementary to those included in the company's objects and that there have been no other conflicts of interest during the year.
	influencing any decisions on the matters affected by the conflict, act with freedom of judgement, loyalty to the Company and its shareholders and independently of their own interests and abstain from requesting or having access to any information or documentation related with the conflict of interest

Listed subsidiary

State whether the respective areas of business and possible business relationships between them have been precisely and publicly defined, as well as those of the listed subsidiary with other group companies:

Define any business relationships between the parent company and the listed subsidiary and between the latter and the other group companies

Describe the mechanisms in place to settle any possible conflicts of interest between the listed subsidiary and other companies in the group:

Mechanisms for solving possible conflicts of interest

E. RISK CONTROL AND MANAGEMENT SYSTEMS

E.1 Explain the scope of the company's Risk Management System, including tax risks.

As an integral part of the corporate policies passed by the Board, the Risk Control and Management Policy lays down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which the Company and other companies in its group are exposed.

Within this general framework, the integral, homogenous Risk Control and Management System is based on the preparation of a business risk map, through which, by pinpointing, assessing and grading of the risk management capacity, the risks are ranked from greater to lesser impact for the Group and by probability of occurrence. The risk map also identifies methods for mitigating or neutralising the risks detected.

The risk universe is structured in four main groups: compliance, operational, strategic and financial, and they are all subdivided into a large number of categories.

The risk classification process dynamically assesses both the inherent risk and the residual risk after application of the internal controls and action protocols established to mitigate them. These controls include preventive controls, adequate separation of duties, clear levels of authorisation and definition of policies and procedures. These controls can in turn be grouped into manual and automatic, made by data processing applications.

This model is both qualitative and quantitative and can be measured in the Group's results, for which purpose the risk level is considered acceptable or tolerable on a corporate level.

The Risk Control and Management System is dynamic, so the risks to be considered will vary according to the circumstances in which the Group's business is performed.

E.2 Name the corporate bodies responsible for preparing and implementing the Risk Management System, including tax risks.

In 2015, in the wake of the amendments to the Corporate Enterprises Act in December 2014 and the new recommendations included in the Code of Good Governance of Listed Companies in February 2015, the Group has bolstered its Risk (including tax risks) Control System and internal control of financial reporting, the main novelty being the creation of the Risks Committee, an internal committee reporting to the Audit and Compliance Committee, as the centrepiece of the control system.

Following those changes, the System for Control and Management of Risks, including tax risks, and control of financial reporting is based essentially on the following structure:

- The Board of Directors, as ultimately responsible, defines the policy for control and management of risks, including tax risks, and control of financial reporting. Article 17.3 of the Regulations of the Board provide that the Board shall receive information on the most important aspects of business management and any foreseeable risk situations for the Company and its subsidiaries, together with the actions proposed by the senior management in respect thereof.
- The Audit and Compliance Committee, through the Risks Committee, performs the duties of oversight and monitoring of the financial reporting and risk control systems, reporting regularly to the Board on any significant aspects arising in

these areas. It is responsible for supervising and promoting internal control of the company and the risk management systems and submitting recommendations to the Board on the risk control and management policy and possible mitigation measures in those areas.

- The Risks Committee, based on the policy established by the Board and under the supervision of and reporting to the Audit Committee, is specifically responsible for coordinating and monitoring the system for control and management of risks, including tax risks, and control of the Group's financial reporting. The Risks Committee also analyses and assesses the risks associated with new investments
- The Management Committees of the different units, on which the Chairman of the Board and the Chief Operating Office (COO) sit, assess the risks and mitigation measures.
- Risk officers in the different units. The Risks Committee nominates individuals in the major subsidiaries to monitor the systems for control and management of risks, including tax risks, and control of the financial reporting and reporting to the Committee.
- Internal Audit Department. Within the internal audits of the different subsidiaries, the Company's Internal Audit Department shall check that the testing and control of the financial reporting and risk management systems have been performed adequately in accordance with the indications by the Risks Committee.

E.3 Define the main risks, including tax risks, that could have a bearing on achievement of the company's business goals.

- · Operational risks:
- Food safety and environmental risks: Owing to the nature of the Group's business, aspects regarding food safety are a critical point to which the Group pays the utmost attention, as it is bound by a large number of laws and standards in each of the countries in which the Group's products are put on the market. Respect for the environment is another critical point for the Group, considering our industrial activity, with a large number of plants distributed mainly throughout Europe and the USA.
- Commodity supply risk: The availability of commodities in the quantity and quality required to meet our commitments to customers and the requirements of our brands is a key factor for our business both nationally (Spanish paddy rice) and internationally (semi-processed rice for the Group subsidiaries).
- Market risk (prices): Unexpected variations in the prices of our commodity supplies may seriously affect the profitability of our commercial transactions, in both the industrial and brand-based segments.
- Customer concentration risk: The concentration of customers, which can occur in both the industrial and retail segments, may lead to less favourable commercial terms for our sales and affect our credit risk.
- Technological risk. In our sector, one of the most important tools for competing with our rivals is based on constant technological innovation and searching for ways to adapt to consumers' desires. Consequently, "technological lag" is considered a possible risk.
- · Risks related with the environment and strategy:
- Environmental/climate risk: The effects of droughts, flooding and other weather perils in the countries where we source our supplies can cause problems of availability and unstable commodity prices, in both rice and durum wheat.
- Competition risk: In general, the pressure from white label brands is the main threat for maintaining our market shares.
- Reputational risk: This is the risk associated with changes of opinion resulting in a negative perception of the Group, its brands or products by customers, shareholders, suppliers, market analysts, etc., as they may adversely affect the Group's ability to maintain its commercial and financial relations.
- Changes in lifestyle: The proliferation of low carbohydrate diets or other food habits could alter consumers' perception of our products.
- Country or market risk. Owing to the international nature of the Group's activities, political and economic circumstances in the different countries in which we operate and other market variables, such as exchange rates, interest rates, costs of production, etc. may affect our business.
- Natural disasters, fires, etc.: As a major industrial group, a significant part of the assets on the Group's balance sheet corresponds to its factories, so any natural incidents (earthquakes, fires or similar) that may affect the integrity of the Group's plants are a business risk.

- · Compliance risks:
- Sectoral regulatory risk: The food industry is a sector subject to numerous regulations affecting export and import quotas, customs duties, intervention prices, etc., subject to the directives laid down in the Common Agricultural Policy (CAP). The Group's activity may also be affected by changes in legislation in the countries in which it sources raw materials or sells its products.
- General regulatory risk: These include risks of compliance with civil, commercial, criminal and good governance provisions. In the area of criminal risks, the Group has a Crime Prevention Model, monitored and controlled by the Compliance Unit.
- Tax risks: Any changes in the tax laws or the interpretation or application thereof by the competent authorities in the countries in which the Group operates could affect its earnings.
- Financial risks: This group includes foreign exchange, interest rate, liquidity and credit risks. The foreign exchange risk is particularly significant because the functional currency of the Group is the euro, but a considerable part of its commodity supply transactions are in US dollars and a very large part of the Group's investments are also in that currency.

E.4 State whether the company has a risk tolerance level, including one for tax risks.

Risks are measured by both inherent and residual risk. A scorecard is made each year of the principal ten risks to which the Group may be exposed (the TOP TEN), which are rated and measured as far as possible. If the economic consequences of a risk could cause a loss (or a loss of profit) of more than 5% of the consolidated EBITDA budgeted, or over 20% of the individual EBITDA of a business, it is considered a threat requiring corporate action.

In general, the heads of the different business units (the Management Committee of each unit) define the risks affecting their respective businesses, assess the possible economic impact of those risks and, according to the specific circumstances prevailing, establish whatever mitigation measures they deem fit. Without prejudice to the supervision by the Risks Committee and Audit Committee, the Management Committee of each unit implements and monitors the mitigation measures taken and assesses the results thereof.

This notwithstanding, when a threat is identified that requires action on a corporate level (as mentioned in the first paragraph above), the persons responsible for risk control and management in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit.

E.5 What risks, including tax risks, have occurred during the year?

The main risks that occurred during the reporting period were related with the supply of raw materials:

- There was a shortage in 2015 of domestic pearl rice stocks, which the Group uses in its brands. The problem stemmed from a small harvest the previous autumn and increased competition from other operators for supplies of this type of rice. The situation recurred with the new harvest and became a threat for the Group's brands. Measures were immediately put into place, consisting of international sourcing to find and obtain supplies of similar varieties. New controls over rice varieties have been established in the IT systems as a preventive measure, enabling the company to anticipate this type of situation according to sales budgets.
- The drought persisted in Texas for the fourth year in succession, with water levels in the reservoirs at all-time lows, preventing irrigation in traditional rice-growing areas and generating a small harvest, with a price spread over other sources. This has forced our Freeport plant in Texas to seek alternative sources of supply, which entail higher logistic costs, dragging down the profits of this plant. Riviana (the Group's US subsidiary) has had to move part of its Freeport production to another plant in Tennessee, where it is easier to obtain rice from Arkansas and Louisiana and minimise the cost structure of the plant.
- The 2014/2015 durum wheat harvest suffered several problems of quality and yield caused by weather factors that affected some of the principal producers (France, United States and Canada). As a result, prices soared in the last third of 2014, with a terrific impact on the cost of the Group's supplies. To cope with this, the Group's subsidiaries raised the prices of certain products and cut promotions after making a thorough study of product listings and customers. Controls were also stepped up on purchases and stock to enable the maximum possible flexibility in the face of expected changes in the market, which indeed occurred as from the new 2015/2016 harvest, when prices came down.

Other financial and competition risks also occurred:

- There was a sharp devaluation of the Canadian dollar in 2015, falling 23% against the American dollar. Part of the supplies of our subsidiary in Canada, Catelli, are made in US\$, with the consequent increase in the cost of its products. This increased cost was partly offset by raising the selling prices of the affected products and using alternative cover to guarantee the cash flows deriving from these transactions.
- A regional rival in the fresh pasta business in Canada has embarked on a very aggressive strategy, taking advantage of the start-up of a new plant enabling them to increase their production capacity. As a result of this increase in their activity, Olivieri (Canadian subsidiary of the Group) has lost part of its business with one of our customers in two provinces of Canada. This has also put extra pressure on selling prices and promotions in this segment. In response, Olivieri has increased the number of exclusive agreements and private label production agreements to guarantee an adequate volume of production in the medium term so as to ensure its medium and long-term profit and recover positions through innovation.

E.6 Explain the response and supervision plans for the main risks, including tax risks, to which the company is exposed.

The management committee in each subsidiary is responsible for monitoring the subsidiary's risk supervision system. Management committees usually meet monthly to analyse any risks that may have materialised and follow up the contingency plans and actions taken to mitigate them. Control and monitoring of the economic variables in each subsidiary against the corresponding budget also ensures the immediate detection of unforeseen risk situations. The subsidiaries with greatest weight within the Group, such as the North American subsidiaries, have "Crisis Management Plans" (CMP), which specify the main risks to which the company is exposed, the protocols for responding to them and the company officers responsible for implementation.

This notwithstanding, when a threat is identified that requires action on a corporate level (see section E.4), the persons responsible for risk control and management in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit.

The measures to control, reduce and, as the case may be, mitigate the risks are established according to the following basic criteria:

- They shall seek to neutralise the risk detected, maintaining coherence between the importance of the risk and the cost and means required to neutralise it.
- If neutralisation is not feasible, measures shall be designed to reduce the potential economic consequences, if possible to within tolerance levels.
- The management and control shall, as far as possible, forestall rather than remedy.
- The control mechanisms shall adequately separate management and oversight.
- The different people responsible for risk management shall coordinate their actions to be efficient, seeking the utmost integration between control systems.
- Maximum transparency shall be ensured in the identification and assessment of risks, specification and implementation of mitigation measures and assessment of the results of those measures.
- Compliance must be guaranteed with the internal reporting requirements to the bodies responsible for supervision and control

F FINANCIAL REPORTING INTERNAL RISK CONTROL AND MANAGEMENT SYSTEM (FRICS)

Describe the mechanisms comprising the financial reporting internal control and risk management systems (FRICS) of your company

F.1 Control environment

Report on at least the following, describing their principal features:

F.1.1 What bodies and/or duties are responsible for: (i) the existence and maintenance of an adequate and effective FRICS; (ii) its implementation; and (iii) its oversight?

As established in its Regulations, the Board of Directors is ultimately responsible for the existence, maintenance and oversight of an adequate, effective financial reporting internal control system (FRICS).

The Audit and Compliance Committee is responsible for: (i) supervising and promoting the procedures and systems used to prepare and control the company's financial reporting; (ii) checking any public financial reporting; and (iii) ensuring implementation of and compliance with the internal regulations and codes applicable to the risk control and management systems in relation to the financial reporting process.

The Management Committee is responsible for the design, implementation and functioning of the FRICS through the Group Finance Department and the Finance Departments of the different business units. The different general managements are responsible for effective implementation of these systems within their respective areas of activity. There are also officers responsible for the different processes documented within the FRICS, who must ensure that those processes are kept up to date, informing the Risks Committee, through the finance department and general management of the corresponding business unit, of any modifications or adaptations required.

The Risks Committee, reporting to the Audit and Compliance Committee, is specifically responsible for coordinating and monitoring the system for control and management of risks, including tax risks, and controlling the Group's financial reporting.

- F.1.2 State whether the following elements exist, especially in respect of the financial reporting process:
 - Departments and/or mechanisms responsible for: (i) designing and reviewing the
 organisational structure; (ii) clearly defining the lines of responsibility and authority, with an
 adequate distribution of tasks and duties; and (iii) ensuring that there are sufficient procedures
 for adequately informing the company.

As established in its Regulations, the board is responsible for defining the general strategy and guidelines for management of the company and encouraging and supervising the actions taken by the senior officers, establishing an organisational structure that will guarantee the utmost efficiency of the senior management and the management team in general.

According to the Regulations of the Board, the Nomination and Remuneration Committee is responsible for checking the criteria followed regarding the composition and structure of the board and for selecting candidates for the board. It also nominates the chairman, CEO or managing directors and secretary of the board and proposes the assignment of directors to the different board committees, the members of the Management Committee and any other advisory committees that the board may create.

In turn, under the policies approved by the Board, the Nomination and Remuneration Committee supervises the Senior Management of the group, both in appointments and removals and in assessing the senior executive remuneration and incentives policy.

Within each group company, the organisational structure of the units participating in the preparation of financial reporting depends on several factors, such as the volume of operations or type of business, but in all cases it corresponds to the need to cover the main duties of recording, preparing, checking and reporting the operations performed and the economic and financial position of the company. The executive directors and management of Ebro Foods participate actively in the management committees of the group's subsidiaries, thereby guaranteeing direct communication through the lines of responsibility and authority.

The senior management and the human resources departments of the Group and each of the subsidiaries are responsible for designing the organisational structure according to local needs, the most important subsidiaries having a formal definition through organisation charts, which include a description of the duties and responsibilities of the main areas participating in internal control of financial reporting.

The different job descriptions of positions and responsibilities are maintained by the human resources department of each subsidiary and the managements of all the subsidiaries, especially the financial managements, are informed of any new member of a subsidiary.

 Code of conduct, body responsible for its approval, degree of publicity and instruction, principles and values included (stating whether there is any specific mention of the recording of transactions and preparation of financial reporting), body responsible for analysing default and proposing corrective measures and penalties.

The Code of Conduct of the Ebro Group, an update of the earlier Codes of Ethics and Conduct of the Ebro Foods Group, was approved by the board on 25 November 2015 and all levels of the organisation were notified.

The Code of Conduct provides guidance on how to act in the Group's internal and external relationships, strengthening the values that distinguish us and establishing a basic reference to be followed by the Group.

The Code aims to:

- · Be a formal, institutional reference for personal and professional conduct.
- · Guarantee the responsible, ethical behaviour of all the Group's professionals in their work.
- Reduce the element of subjectivity in personal interpretations of moral and ethical principles.
- Create a standardisation tool to guarantee progressive implementation throughout the Group of the ten principles of the UN Global Compact.
- · Grow responsibly and committed to all our stakeholders.

As established in the Code of Conduct, the Group assumes a principle of conduct based on transparent reporting, consisting of an undertaking to report reliable financial, accounting or other information to the markets. Accordingly, the company's internal and external financial reporting will give a true and fair view of its real economic, financial and equity situation according to generally accepted accounting principles.

Employees formally sign the Code of Conduct when they join the workforce of practically any Group company and it has been distributed among all Group employees during the year.

The Code of Conduct is also published in the Intranet, where it can be consulted by any employee, and on the Group's website.

The Audit and Compliance Committee is responsible for monitoring and controlling application of the Code. It has a Compliance Unit, with sufficient initiative, autonomy and resources, which is responsible, among other duties, for assisting the Audit and Compliance Committee in the supervision of compliance, publication and interpretation of the Code of Conduct.

The Audit and Compliance Committee has an e-mail address to which any Group employee may send queries and suggestions regarding the interpretation of the Code of Conduct.

The Audit and Compliance Committee reports regularly to the Group's Board of Directors on any queries raised in respect of the interpretation and application of the Code of Conduct, how they have been solved and, where appropriate, the interpretation criteria followed.

The Code of Conduct provides that any violation or breach of the Code that is classified as a labour offence shall be penalised according to the labour laws, without prejudice to any other liability that the infringer may incur and the remedial measures that may be established by the different Group companies in pursuance of prevailing laws. On a Group level, the Audit and Compliance Committee, assisted by the Compliance Unit, shall receive reports of any violation of the Code of Conduct and act accordingly.

Whistleblowing channel, through which the audit committee can be informed of any financial
or accounting irregularities, any breaches of the code of conduct and irregular activities within
the organisation, indicating whether this channel is confidential.

As established in the Regulations of the Board, the Audit and Compliance Committee is formally responsible for implementing a confidential whistle-blowing channel accessible to all Group employees and defining a protocol for prioritising, processing, investigating and settling reports according to their importance and nature, especially any concerning possible financial or accounting misrepresentations.

For this purpose, the Ebro Group has established a whistle-blowing or reporting channel, through its Code of Conduct, through which any irregular conduct in financial, accounting or other areas and any breach of the code of conduct can be reported confidentially.

The Audit and Compliance Committee has a specific e-mail address through which any employees may report whatever conduct they may consider necessary and contact the Audit and Compliance Committee to inform on breaches of the code of conduct. Access to that e-mail account, technologically protected to prevent any unauthorised access, is limited exclusively to the Chairman of the Audit and Compliance Committee who, as an independent director, has no relationship with the management structure of the Group.

The Audit and Compliance Committee guarantees the confidentiality of the reports handled, according to a confidentiality commitment signed by all those involved in handling the reports and other precautions included in the "Report Handling Protocol". That protocol, approved by the Audit and Compliance Committee in 2012, establishes the procedure to be followed on receiving reports, regarding their processing, prioritising, solving and notification.

 Training programmes and regular updates for employees involved in the preparation and checking of financial information and evaluation by the FRICS, covering at least accounting and auditing standards, internal control and risk management.

The Ebro Group has a policy of making sure it has personnel with sufficient training and experience to perform the duties and responsibilities assigned to them. The Ebro employees involved in the preparation and checking of the financial information and FRICS evaluation participate in training and refresher courses regarding the laws and standards in place from time to time and good practices to guarantee the reliability of the financial information generated.

The Ebro Group also encourages and provides means and resources for its employees to keep their accounting knowledge up to date through the attendance of seminars, on-line information and other means and regular meetings are held with the external auditors to assess in advance the standards in place or those about to enter into force.

During the year the Ebro Group has focused its training for personnel involved in the preparation and checking of financial information and FRICS evaluation on the following aspects:

- Accounting updates
- Management and control of costs for business decision-making
- Training in the tax laws in different countries
- Financial reporting internal control system manual

In addition, the external auditors of the company and its group regularly attend the meetings of the Audit and Compliance Committee to give training on the principal novelties in accounting and auditing, especially those that have or may have a greater effect on the Group's accounts.

F.2 Measurement of risks in financial reporting

Report at least on:

- F.2.1 What are the main features of the risk identification process, including risks of error or fraud, in respect of:
 - Whether the process exists and is documented.

Within the risk control and management policy approved by the Board, the financial reporting internal control system is supervised by the Audit and Compliance Committee, assisted by the Risks Committee and the Group Finance Department.

The potential risk events that could affect the organisation are identified and assessed through the FRICS, pinpointing and assessing the risks corresponding to each line of business. Through this risk control and management system, the Ebro Group has drawn up a consolidated risk map by compiling and combining the risk maps of its major subsidiaries.

This process is coordinated by a group-level team, which manages and establishes the permitted tolerance to the risk and coordinates actions to align the measures addressing risks with the Group's global risk policy so that the exposure to risk assumed by the Ebro Group overall is known at all times.

Based on the results obtained, systems are devised for addressing risks and internal control, to keep the likelihood and impact of those risks on financial reporting within the tolerance levels, thereby providing reasonable certainty regarding achievement of the strategic business goals.

 Whether the process covers all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations); whether it is updated and how often. The Ebro Group has established a continuous improvement process to minimise the risks related with financial reporting, improving the design and effectiveness of existing controls.

For this purpose, it has a process identifying the risks affecting the reliability of financial reporting, based on and beginning with a definition of the scope, according to quantitative criteria of materiality in respect of the consolidated amounts and other qualitative criteria (error, fraud, uncommon transactions, etc.). Companies in the major business units or divisions that meet any of the afore-mentioned criteria and the material accounting items of each one are defined according to those criteria. Once the material items have been defined on a company level, the processes and sub-processes they affect are established, according to a relationship matrix.

For each of the sub-processes included within the scope, the inherent risks are identified and the checks made by the responsible persons to mitigate those risks are defined, setting this information down in a Risks-Controls Matrix. Those risks take account of all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations).

The financial reporting risks are identified in the Ebro Group's Risks-Controls Matrix and updated to take account of any changes in the scope of consolidation of the Group or development of its business and their reflection in the financial statements, making a comparative analysis every year of the variations in material processes and sub-processes to establish any risks that have not been previously identified.

The existence of a process for defining the scope of consolidation, taking into account, among
other aspects, the possible existence of complex corporate structures, base companies or
special purpose vehicles.

The Ebro Group has a documented process based on internal regulations that guarantees the correct identification of the scope of consolidation through an adequate separation of duties in the requesting, authorising, reporting and recording of any operation entailing the incorporation, merger, division, acquisition or sale of companies and any other corporate operation, directly involving the legal department and the board.

This process considers the possible existence of complex corporate structures, base companies or special purpose vehicles, among other means by establishing an adequate structure to separate the duties of requesting, authorising and reporting for any corporate operation within the Group. However, transactions or complex corporate structures that might entail off-balance sheet transactions which should be recorded within it are not identified at present.

 Whether the process takes into account the effects of other types of risk (operational, technological, financial, legal, reputational, environmental, etc.) insofar as they affect the financial statements.

The Risk Control and Management System of the Ebro Group is designed to identify potential risk events that might affect the organisation. At present there are four types of risks: Operating, Compliance, Strategic and Financial risks, and the conclusions are taken into account insofar as the risks may affect financial reporting. For this purpose, the Risks Committee acts as a unit of coordination and interrelation of the effect of the risks detected on the different areas (management, business, financial reporting, legal, reputational etc. risks).

• Which governing body of the company supervises the process.

While the Board has the power, which it may not delegate, to determine the policy for control and management of risks, including tax risks, and supervision of the FRICS, the Audit and Compliance Committee is responsible for supervising and promoting the procedures and systems used to prepare and control the company's financial reporting, and controlling the implementation of and compliance with the risk control and management systems, both in general and in respect of the financial reporting process.

F.3 Control activities

Inform whether the company has at least the following, describing their main features:

F.3.1 Procedures for checking and authorising financial information to be published on the stock markets and description of the FRICS, indicating who is responsible for these tasks and documentation describing the flows of activities and controls (including those checking for the risk of fraud) in the different types of transactions that may have a material effect on the financial statements, including the procedure for closing of accounts and the specific review of judgements, estimates, valuations and significant projections.

The priorities established within the Ebro Group include the quality and reliability of the financial information, both internal information for decision-making and external information published on the markets. The information to be provided by the different units is requested by the Group financial department, paying special attention to the processes of closing the accounts, consolidation, measurement of intangibles and areas subject to judgement and estimates.

The Ebro Group has procedures for checking and authorising the financial information and description of the FRICS, responsibility for which corresponds to the Financial Department, the Risks Committee, the Audit and Compliance Committee and the Board.

The Audit and Compliance Committee checks and analyses the financial statements and any other important financial information, as well as the principal judgements, estimates and projections included and discusses them with the corporate financial department and the internal and external auditors to confirm that the information is complete and the principles applied are consistent with those of the previous full-year accounts.

The procedure for checking and authorising the financial information corresponds to the Group financial department, based on the information checked and validated by the different units. The Audit and Compliance Committee supervises this information to be published on the market and it is approved by the Board.

The Group has implemented an improvement process to increase the documentation and make the generation of financial information and its subsequent supervision more effective and efficient.

The significant processes involved in the generation of the Group financial reporting are documented based on the COSO internal control model. The main processes documented are:

- Closing of Financial Statements and Reporting
- Consolidation
- Sales and Receivables
- Purchases and Payables
- Fixed Assets
- Inventories
- Payroll

The documentation outline is extended progressively, according to the materiality and the general criteria established in the Group's financial reporting internal control system.

The persons responsible for each of the documented processes in each subsidiary have been identified. They are responsible for keeping those processes up to date on an annual basis, reporting any modifications or adaptations to the Risks Committee through the Group's financial department.

Process documentation includes details of the flows and transactions and the financial reporting objectives and controls established to ensure they are met. It also contemplates the risks of error and/or fraud that might affect the financial reporting objectives. The documentation of flows of activities and controls that may have a material effect on the financial statements, including the accounts closing procedure, includes the preparation of narratives on the processes, flow charts and risk and control matrices. The controls identified are both preventive and detective, manual or automatic, describing also their frequency and associated information systems.

F.3.2 Internal control procedures and policies for the IT systems (including access security, track changes, operation, operating continuity and separation of duties) used for the significant processes of the company in the preparation and publication of financial information.

The Group has rules of action for managing financial information security. Those rules are applicable to the systems used to generate financial information and the IT Department is responsible for defining and proposing the security policies.

Within its policies and infrastructure management the Ebro Group has procedures to secure each of the following points:

i) Both physical and logical access are controlled to ensure that only authorised internal and external personnel can access the Ebro centres and systems. Ebro has several Data Centres, the main one in Spain where the company's critical systems are housed. The major subsidiaries also have local data centres. They all have their own infrastructure to guarantee adequate control of access to the installations. In small subsidiaries, the general rule is to have external service providers to provide that security. When external

service providers are used, the Ebro Group makes internal audits of the information systems and their architecture, including the security aspect.

Logical access control is secured with efficient management of access to our systems, whether internal or external, and through a user management coordinated with the human resources department and the company's group of managers. Ebro has user access control systems and workflow tools to guarantee interdepartmental integration and efficient updating of user status, regularly identifying those who no longer access the systems. Ebro Foods will shortly begin a global Duties Separation project, within its corporate risk control policy.

External access is guaranteed through specific users and controlled management. The necessary elements have also been provided on a network level to ensure that only authorised users and processes have access from outside.

- ii) The larger subsidiaries mainly use the ERP system called SAP. In all those cases, Ebro has procedures underpinned by systems in which production changes are systematically filtered and assessed, their life cycle managed, and disseminated after acceptance by specific users and impact analysis in the systems currently used in production.
- iii) The separation of duties is underpinned by the use of roles by groups of users, which allow access only to the information and transactions previously approved by the organisation. The modification or creation of new roles is backed by the same procedure that guarantees management of the user life cycle and is applicable to the major companies of the Ebro Group. Special attention is paid to separation in IT support processes to make sure that the tasks of development, sending to production and administration of the system are duly separated.
- iv) Ebro has internal tools which, combined with the user support departments and systems (Help Desks), guarantee the management and traceability of incidents in the IT systems. Programme changes are managed within that system, which is based on ITIL best practices and management.

The critical information systems are always housed in our data centres and there are individuals assigned to each one who are responsible for proactive monitoring of the automatic processes and proactive assessment of the yield and functioning of the systems.

Ebro has global contracts with security control tool providers, which guarantee the installation of such tools in all the computer and data processing equipment used in the company.

- v) Ebro has tools to guarantee the continuity of business support by its IT systems in the event of a fatal error or system crash. There are backup systems and policies in its data centres that guarantee access to information and systems in case of a crash. The use of tape or disk backups and replicating the information in several computers with subsequent triangular distribution are habitual procedures for making incremental or complete backup copies. The current systems allow recovery of the information up to the specific time of the fatal error or system crash.
- F.3.3 Internal control procedures and policies to oversee the management of outsourced activities and any aspects of valuation, calculation or measurement commissioned to independent experts, which may have a material impact on the financial statements

In general, the Ebro Group manages all activities that may have a material impact on the reliability of the financial statements directly using internal resources to avoid outsourcing. There are very few outsourced activities and the procedures and controls of those activities are regulated in the contracts signed with the service providers in question.

The valuation, calculation or measurement activities commissioned by the Ebro Group to independent experts are mainly concerned with the appraisal of properties, actuarial studies of commitments to employees and impairment testing of intangibles.

Only service providers of internationally recognised standing are used for these valuation reports, making sure that they are not affected by any circumstance or event that could compromise their independence.

The reports obtained from these firms are submitted to internal review to check that the most significant assumptions and hypotheses used are correct and that they comply with the International Valuation Standards (IVS) and International Financial Reporting Standards (IFRS). Furthermore, the valuation processes and the hypotheses and assumptions used by independent experts are reported to and considered by the external auditors of the company and its group.

F.4 Information and communication

Inform whether the company has at least the following, describing their main features:

F.4.1 A specific department responsible for defining the accounting policies and keeping them up to date (accounting policy department or division) and solving queries or conflicts deriving from their interpretation, maintaining fluent communication with those responsible for operations in the organisation, as well as an updated accounting policy manual distributed among the units through which the company operates.

The Ebro Group has adequate procedures and mechanisms to put the applicable criteria across to the employees involved in the preparation of financial information and the IT systems used in that preparation. This is done through the Management Control Unit and the Corporate Financial Department, whose powers include the following, among others:

- Define, administer, update and report on the Group's accounting policies, in compliance with the applicable accounting standards and rules of consolidation for the preparation and presentation of financial information to be disclosed.
- Prepare, update and report on the Accounting Policy Manual to be applied by all financial units in the Group. This manual is updated annually.
- Settle any queries or conflicts regarding the interpretation and application of the accounting policies, maintaining fluent communication with those responsible for these operations in the organisation.
- Define and create templates, formats and criteria to be used for preparing and reporting the financial information. All financial information distributed on the markets is prepared by consolidating the reports of the different business units, prepared using mechanisms for data input, preparation and presentation that are homogenous for the entire Group. These mechanisms are designed to enable compliance with the standards applicable to the principal financial statements, including accounting criteria, valuation rules and presentation formats and embrace not only the balance sheet, profit and loss account, statement of changes in equity and statement of cash flows, but also the obtaining of other information that is necessary to prepare the notes to the financial statements.
- F.4.2 Mechanisms for collecting and preparing financial information with homogenous formats, applied and used by all business units in the company or group, valid for the main financial statements and notes, and the information given on the FRICS

The Group's financial information is prepared using a process of aggregating separate financial statements at source for subsequent consolidation according to the applicable accounting and consolidation standards, to obtain the consolidated financial information to be presented monthly to the Board and published on the markets

The process of aggregation and consolidation of the Group's financial statements is based on homogenous, common format templates that include different tables and reports to be completed. They also have automatic internal controls to check the integrity and reasonability of the data input.

These templates are validated each month by a financial manager in each subsidiary before sending them for checking and consolidation. To complete the automatic checks, those data and the estimation, valuation and calculation principles used to obtain them, as well as the accounts closing procedure, are checked by the financial manager at each level of aggregation and consolidation until the Ebro Group consolidated financial information is obtained, prepared and checked by the corporate financial department.

The Ebro Group has established a reporting system for the Financial Reporting Internal Control System, which is available in the Group for all the subsidiaries included within the scope of the FRICS. Through that reporting, the management of the parent coordinates maintenance of the system in the rest of the subsidiaries annually through the assignment of persons responsible for their maintenance and updating in the event of any significant change to be taken into consideration in the documentation. Finally, if any weaknesses are detected in the financial reporting internal control system, the subsidiaries are notified of the necessary action plans and they are monitored by management of the parent.

F.5 Supervision of the functioning of the system

Inform on at least the following, describing their main features:

F.5.1 The FRICS supervisory activities performed by the Audit Committee and whether the company has an internal audit department responsible, among its duties, for assisting the committee in its supervision of the internal control system, including the financial reporting internal control system (FRICS). Inform also on the scope of the FRICS appraisal made during the year and the procedure through which the department or body responsible for the appraisal informs on the outcome, whether the company has an action plan defining any possible corrective measures and whether their impact on the financial information has been considered.

The board is ultimately responsible for the existence, maintenance and supervision of an adequate, effective financial reporting internal control system. Among the duties defined in the Regulations of the Board, the Audit and Compliance Committee assists and supports the board in its supervision of the accounting and financial information, the internal and external audit services and corporate governance.

The Audit and Compliance Committee must see that the internal audit procedures, the internal control systems in general, including the risk management control system and in particular the financial reporting internal control system, are adequate; ensure that the external auditor and manager of the internal audit department are selected on the basis of objective, professional qualifications, guaranteeing their independence in the performance of their duties; report to the board on any related party transactions submitted for its consideration; control any possible conflicts of interest; and, in general, make sure that all the company's information and reporting, particular financial, complies with the principle of truth and maximum transparency for shareholders and markets.

The internal audit department has submitted its annual working plan to the Audit and Compliance Committee and reported directly to said committee on any incidents detected in the performance of that work, proposing the corresponding action plan defining any necessary corrective measures; and at the end of each year, it has submitted an activity report.

The results of checks made by the internal audit department and any incidents detected have been reported to the Audit and Compliance Committee. Moreover, the action plan devised for remedying those incidents has been sent to both the person responsible for remedying them and the Audit and Compliance Committee.

7.5.2 Inform on whether the company has a discussion procedure whereby the auditor (according to the provisions of the auditing standards), the internal audit department and other experts can inform the senior management and audit committee or company directors of any significant weaknesses detected in internal control during the auditing or checking of the annual accounts or any other processes commissioned to them. Indicate also whether the company has an action plan to remedy or mitigate the weaknesses observed.

The Audit and Compliance Committee has a stable, professional relationship with the external auditors and the main companies in its group, strictly respecting their independence. That relationship favours communication and discussion of any internal control weaknesses pinpointed during the auditing of annual accounts or any other audit work commissioned to them.

In this regard, the Audit and Compliance Committee receives information from the external auditor at least every six months on the audit plan and outcome of its performance, and checks that the senior management heeds the auditor's recommendations.

In addition, as established in the Regulations of the Board, it is responsible for overseeing the Internal Audit Services, being informed on the financial reporting process and internal control systems.

During 2015, the External Auditor attended 5 meetings of the Audit and Compliance Committee and the Internal Auditor has attended 9 meetings.

F.6 Other significant information

N/A

F.7 External auditor's report

Inform on:

7.7.1 Whether the FRICS information sent to the markets was checked by the external auditor, in which case the company should include the corresponding report in an annex. If not, why not.

The report by the external auditor is appended.

G EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE **RECOMMENDATIONS**

	Indicate the degree of compliance by the company with the recommendations of the Unified Good Governance Code.
	If any recommendation is not followed or is only partly followed, include a detailed explanation of the reasons so that shareholders, investors and the market in general have sufficient information to assess the company's actions. General explanations are not acceptable.
l.	The Articles of Association of listed companies should not limit the maximum number of votes that may be cast by an individual shareholder or impose other restrictions hampering takeover of the company via the market acquisition of its shares. Complies X Explanation
2.	When both the parent company and a subsidiary are listed, they should both publish a document specifying exactly:
	a) The types of activity they are respectively engaged in and any business dealings between them, and between the listed subsidiary and other group companies;
	b) The mechanisms in place to solve any conflicts of interest.
	Complies Partial compliance Explanation Not applicable X
3.	During the annual general meeting, to supplement the written distribution of the annual corporate governance report, the chairman of the board should inform the shareholders orally, in sufficient detail, of the most important aspects of the company's corporate governance, especially:
	a) Any changes made since the previous annual general meeting.
	b) The specific reasons why the company does not follow any of the recommendations of the Code of Corporate Governance and the alternative rules applied, if any.
	Complies X Partial compliance Explanation
ŀ.	The company should define and promote a policy of communication and contacts with shareholder, institutional investors and proxy advisors that fully respects the laws against market abuse and gives similar treatment to shareholders who are in the same position.
	And the company should publish that policy on its website, including information on how it has been implemented, naming those responsible for such implementation.
	Complies X Partial compliance Explanation
5.	The board should not table a motion at the general meeting for delegating powers to issue shares or convertible securities excluding the preferential subscription right in a sum of more than 20% of the capital at the time of the

securities excluding the preferential subscription right in a sum of more than 20% of the capital at the time of the delegation.

ш	OTHER	INFORM	ATION	OF INTEDEST					

- 1. If you consider there to be any important aspects regarding the corporate governance practices applied by your company or other companies in the group that have not been mentioned in this report, but which should be included to obtain more complete, reasoned information on the corporate governance practices and structure in the company or group, describe them below and give a brief explanation.
- 2. This section may be used to include any other information, clarification or qualification relating to the previous sections of the report, provided it is relevant and not repetitive.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

The company may also state whether it has voluntarily applied any international, sector-based or other codes of ethical principles or good practices. If so, it should name the code in question and the date of its accession.

EXPLANATORY NOTE ONE, CONCERNING THE CURRENT COMPOSITION OF THE BOARD OF DIRECTORS AND THE PROPORTIONS OF MEMBERS IN THE DIFFERENT CATEGORIES OF DIRECTORS

- With regard to the presence of female directors and the numbers of independent directors, it is put on record that:
- (i) The company bears both aspects in mind for filling the vacancy produced on the resignation as of 1 December 2014 of an independent director.
- (ii) The director classified as "other non-executive" was appointed director and member of the Audit and Compliance Committee on account of his personal and professional qualities. He performs his duties unconditioned by relations with the company or its group, controlling shareholders or executives. Therefore, this director performs his duties in the Board and Audit and Compliance Committee just like any other independent director, although he cannot be classified as such because he has been on the board for more than 12 years in succession.
- As regards the classification of Instituto Hispánico del Arroz, S.A. as an executive director:
- (i) Instituto Hispánico del Arroz, S.A. does not perform executive or management duties in Ebro Foods, S.A. or any subsidiary of the Group and, therefore, receives no remuneration for such duties.
- (ii) Instituto Hispánico del Arroz, S.A. has been classified as an executive director because its individual representative on the board of directors of Ebro Foods, S.A. (see section 212 bis of the Corporate Enterprises Act) is an executive of one of the Group's subsidiaries.
- (iii) Instituto Hispánico del Arroz, S.A. holds the position of director because it is the largest shareholder of the company, with a total interest, direct and indirect, of 15.92%. Instituto Hispánico del Arroz, S.A. will continue to be a director of Ebro Foods, S.A. during such time as it is a significant shareholder, regardless of who its personal representative is and the executive position that said representative may hold within the Group.

EXPLANATORY NOTE TWO, ON SECTION A.4

Instituto Hispánico del Arroz, S.A. and Hispánods Invest, S.L. are directors and also significant shareholders of the company (see percentage shareholdings indicated in A.3) and the relationships contemplated in the explanatory note on section C.1.17 exist between them.

EXPLANATORY NOTE THREE, ON SECTION A.5

Relationships between the companies of the Ebro Foods Group and the controlling shareholders, excluding those who are directors, are explained in section A.5.

See sections D.2 and D.3 of this Report.

EXPLANATORY NOTE FOUR, ON SECTION B.4

As indicated in the information contained in the attendance list of the AGM incorporated in the notarial minutes issued thereof, the figures on attendance in person and by proxy set out in section B.4 of this report include the percentages of postal and electronic votes.

EXPLANATORY NOTE FIVE, ON SECTION C.1.16

- The total amount indicated in section C.1.16 includes the remuneration of all the company executives, even though they do not all have senior management employment relations on the terms stipulated in law.
- In 2015 a sum of €128,000 was distributed among all executives (except the Chairman of the Board) of Ebro Foods, S.A. included in the Deferred Annual Bonus Scheme linked to the Group's Strategic Plan 2013-2015, corresponding to 2013. This sum represents 25% of the Deferred Annual Variable Remuneration for the three-year period and was provided for in the 2013 accounts.
- A provision has been recognised in the 2015 accounts of €124,000 as the provisional estimate of the sum corresponding to 2015 to be distributed among all executives (except the Chairman of the Board) included in the Deferred Annual Bonus Scheme linked to the Group's Strategic Plan 2013-2015. This sum represents 50% of the Deferred Annual Variable Remuneration for that three-year period and, in accordance with the terms of that Scheme, will be paid in 2017.
- Finally, these Deferred Annual Bonus Schemes are not indexed to the value of the company share and the beneficiaries do not receive any shares or rights thereover.

- The contracts of two executives contemplate termination benefits in the event of termination or takeover, in a sum exceeding that payable under the applicable labour laws. For other executives, the benefits initially established are lower than the indemnity established in the Workers' Statute, owing to their accumulated seniority.

EXPLANATORY NOTE SIX, ON SECTION C.1.17

- Instituto Hispánico del Arroz, S.A. and Hispánicods Invest, S.L. are directors and controlling shareholders of Ebro Foods, S.A. Instituto Hispánico del Arroz, S.A. holds 100% of the capital of Hispánicods Invest, S.L. (direct interest of 51.62% and indirect interest of 48.38%) and is director of that company.
- Antonio Hernández Callejas has a direct interest of 16.666% in Instituto Hispánico del Arroz, S.A. and an indirect interest of 16.666% in Hispafoods Invest, S.L. Therefore, Antonio Hernández Callejas has an indirect interest in Ebro Foods, S.A. through the 15.921% interest held directly and indirectly in this company by Instituto Hispánico del Arroz, S.A. Antonio Hernández Callejas does not hold any office in those companies.
- Félix Hernández Callejas and Blanca Hernández Rodríguez, representatives of Instituto Hispánico del Arroz, S.A. and Hispafoods Invest, S.L., respectively, each have a direct interest of 16.666% in Instituto Hispánico del Arroz, S.A. and an indirect interest of 16.666% in Hispafoods Invest, S.L. Therefore, Félix Hernández Callejas and Blanca Hernández Rodríguez each have an indirect interest in Ebro Foods, S.A. through the 15.921% interest held directly and indirectly in this company by Instituto Hispánico del Arroz, S.A. Félix Hernández Callejas is Managing Director of Instituto Hispánico del Arroz, S.A. and does not hold any office in Hispafoods Invest, S.L. Blanca Hernández Rodríguez does not hold any office in either of those companies.
- Demetrio Carceller Arce has an indirect interest in Ebro Foods, S.A. through the 10.03% interest held indirectly in this company by Sociedad Anónima Damm through Corporación Económica Damm, S.A.

EXPLANATORY NOTE SEVEN, ON SECTION C.2.1

- The name of the audit committee in the company is "Audit and Compliance Committee" and the name of the nomination and remuneration committee is "Nomination and Remuneration Committee".
- All the members of the Audit and Compliance Committee were appointed on account of their expertise and experience in accounting and auditing, including Hispafoods Invest, S.L., which was elected on the basis of the expertise of its representative in these matters.
- The duties of the different Board Committees as established in the Regulations of the Board are set out below, without prejudice to those they have by law:

DUTIES OF THE EXECUTIVE COMMITTEE:

Notwithstanding the specifications of the Board in the resolution to delegate powers and the powers of the Board that may not be delegated, the Executive Committee has the following powers:

- a) Adopt resolutions corresponding to the powers delegated to it by the Board of Directors.
- b) Monitor and supervise the normal management of the company, ensuring adequate coordination with subsidiaries in the common interests of the latter and the company.
- c) Study and propose to the Board of Directors the guidelines defining business strategy, supervising their implementation.
- d) Debate and inform the Board on any issues corresponding to the following matters, regardless of whether or not they have been delegated by the Board:
- Separate and consolidated annual budget of the company, itemising the provisions corresponding to each core business.
- Monthly monitoring of the financial management, deviations from the budget and proposed remedial measures, if necessary.
- Significant financial investments and investments in property, plant and equipment and the corresponding economic justification.
- Alliances and agreements with other companies which, by virtue of their amount or nature, are important for the company.
- Financial transactions of a material economic significance for the company.
- Programme of medium-term actions.
- Assessment of the achievement of objectives by the different operating units of the company.
- Monitoring and assessment of the subsidiaries in respect of the matters contemplated in this sub-section d).
- e) Adopt resolutions corresponding to the buy-back and disposal of treasury stock by the Company, in accordance with the authorisation, if any, granted by the General Meeting. A Director may be designated to execute and formalise the

decisions to buy or sell own shares, supervising and, if appropriate, authorising any resolutions that may be adopted by subsidiaries to buy and sell their own shares or shares in the Company, whenever such authorisation is required by law.

DUTIES OF THE AUDIT AND COMPLIANCE COMMITTEE:

The Audit and Compliance Committee shall have the following powers, in addition to those assigned to it by law, regulations or the Articles of Association:

- a) Supervise and promote internal control of the company and the risk management systems and submit recommendations to the Board for a decision on the risk management and control policy, including tax risks, specifying at least:
- The types of risk to which the company is exposed.
- The risk level that the company considers acceptable.
- The measures for mitigating the impact of identified risks, should they actually occur.
- The control and reporting systems used to control and manage those risks.
- b) Supervise and promote the policies, procedures and systems used for drawing up and controlling the company's financial information, checking the services performed in this regard by the Internal Audit Department, the Financial Department and the Management Committee and making sure they are correctly distributed throughout the Group.
- c) Receive the information sent regularly to the Stock Exchange Councils, issue prospectuses and any public financial information offered by the Company and, in general, all information prepared for distribution among shareholders, ensuring the existence of internal control systems that guarantee the transparency and truth of the information.
- d) Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

In this respect, it shall also see that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. The Committee shall, through its Chairman, obtain information and collaboration from both the Internal Audit Manager and the External Auditors to perform these duties.

- e) Establish regular contact with the External Auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the External Auditors in accordance with prevailing auditing standards and legislation.
- f) Be informed of the decisions adopted by the senior management according to recommendations made by the External Auditors in connection with the audit.
- g) Report to the Board prior to the adoption of any decisions on related party transactions submitted for its authorisation.
- h) Implement a confidential whistle-blowing channel accessible to all Group employees and a protocol for establishing priority, processing, investigating and solving any issues reported through that channel according to their importance and nature, paying special attention to those involving possible falsehood or misrepresentation in financial or accounting documents and possible fraud.
- i) Supervise compliance with the internal codes of conduct and rules of corporate governance. In particular, oversee the implementation of and compliance with the internal regulations and codes applicable to the risk management and control systems in general and the financial reporting process in particular.
- j) Submit to the Board, to be tabled at the General Meeting, proposals for the selection, appointment, re-appointment and replacement of the company's External Auditors and their terms of contract, the scope of their commission and the renewal or revocation of their engagement. The Committee shall ensure the independence of the External Auditors and the existence of a discussion procedure enabling the External Auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the External Auditors and any supplementary services they may have provided. It shall also inform the Board on the proposal submitted to the Board by the Company Chairman regarding the appointment of the Internal Audit Manager, who shall report directly to the Chairman of the Board.
- k) Supervise and report to the Board on intragroup and related party transactions of the company or subsidiaries and settle any conflicts of interest that may arise between the company or the group and its directors, executives, significant shareholders and listed subsidiaries, if any.
- I) The Audit and Compliance Committee shall also report to the General Meeting on any issues raised by shareholders concerning matters within its competence.

DUTIES OF THE NOMINATION AND REMUNERATION COMMITTEE:

In addition to any other powers corresponding to it by law or the Articles of Association, the Committee shall study, issue reports and submit proposals for the Board, at its request, on the following matters:

- a) Definition and, where appropriate, revision of the criteria to be followed for the composition and structure of the Board and selection of candidates to join the Board, informing always prior to the appointment of a Director by cooptation or the submission to the General Meeting of any proposal regarding the appointment or removal of Directors.
- b) Appointment of the Chairman, and Vice-Chairman if any, of the Board, Managing Director(s), Lead Independent Director and the Secretary, and Vice-Secretary if any, of the Board; appointment of Directors to the Committees of the Board; and appointment and possible dismissal of senior executives and their termination benefit clauses.
- c) Position of the Company regarding the appointment and removal of board members in subsidiaries.
- d) Proposal of directors' emoluments, according to the system of remuneration established in the Articles of Association and the executive directors' relationship with the Company. The Committee shall also inform in advance on any resolution or proposal of the Board on the remuneration of directors and executives indexed to the value of the shares in the Company or its subsidiaries or consisting of the delivery of shares in the Company or its subsidiaries or the granting of options thereover.
- e) Supervision of the senior management remuneration and incentives policy, obtaining information and reporting on the criteria followed by the Company's subsidiaries in this respect.
- f) Assessment of the principles of the management training, promotion and selection policy in the parent company and, where appropriate, in its subsidiaries.
- g) Examination and organisation, as deemed adequate, of the succession of the Chairman and chief executive and, if appropriate, submission of proposals to the Board to ensure that such succession is made in an orderly, well-planned manner.
- h) Preparation and proposal of the Annual Report on Directors' Remuneration and the Directors' remuneration policy in accordance with the laws and regulations in place from time to time.
- i) Setting targets for the representation of the least represented gender on the Board and issue guidelines on how to achieve them.

DUTIES OF THE STRATEGY AND INVESTMENT COMMITTEE:

The Committee shall study, issue reports and submit proposals for the Board on the following matters:

- a) Setting of targets for growth, yield and market share.
- b) Strategic development plans, new investments and restructuring processes.
- c) Coordination with subsidiaries in the matters contemplated in paragraphs (a) and (b) above, for the common interests and benefit of the Company and its subsidiaries.
- The activities performed by the different Board Committees in 2015 are indicated below:

ACTIONS PERFORMED BY THE EXECUTIVE COMMITTEE:

- Several investments, divestments and sales of assets were valued.
- Strategic decisions to be adopted in respect of the different businesses were assessed.

ACTIONS PERFORMED BY THE AUDIT AND COMPLIANCE COMMITTEE:

- The Committee checked and resolved to pass a favourable report to the board on the periodical financial reporting for H2 of 2014 and on Q1, H1 and Q3 of 2015.
- The Committee checked and resolved to pass a favourable report to the board on the review and modification of periodical public reporting on 2014, which had previously been checked and approved by the Board, following the resolution passed by the CNMV in the dairy inquiry, in view of which that review of the previously approved financial information was considered advisable on the terms reported to the market.
- The related party transactions and situations of potential conflict of interest corresponding to 2014 were checked, resolving to submit a favourable report to the board on those transactions and situations, and on the authorisation for them to be made in 2015.
- The committee checked and agreed to issue a favourable report to the Board on the separate and consolidated annual accounts and directors' report for the year ended 31 December 2014. During the review, the external auditors of the company and its group (EY) submitted its draft unqualified auditors' report.
- The draft report by the auditors on the FRICS (financial reporting internal control system) 2014 was reviewed.
- The external audit of the separate and consolidated annual accounts 2014 was monitored.
- After the corresponding review, a favourable report was issued on the independence of the auditors.
- The Internal Audit Plan for 2015, presented by the Chief Audit Officer, was approved.
- The operation and use of the whistle-blowing channel in 2014 was reviewed.
- The information on related party transactions and situations of potential conflict of interest and the information on risk control included in the Annual Corporate Governance Report 2014 was checked, resolving to submit a favourable report to the board.
- The activity report of the Committee for 2014 was issued and submitted to the board.

- The committee studied and submitted a favourable report to the board on the modification of the Regulations of the
- The committee studied the presentation given by the external auditors (EY) of the letter of recommendations regarding internal control processes, analysing the alternatives submitted by the internal audit department in respect of the implementation of measures to optimise the internal control system.
- The external auditors (EY) ran a training session on new aspects on accounting and auditing; in particular, they explained (i) the novelties introduced in the Corporate Enterprises Act by the reform of December 2014 and the new good governance recommendations affecting the Committee; and (ii) the parliamentary initiatives concerning auditing.
- The report prepared by the Internal Audit Department on different subsidiaries of the Group, within the Internal Audit Plan 2015, was examined.
- The external auditors (EY) ran a training session on IFRS 15 (revenue recognition), with special emphasis on how it might affect the Group's accounting.
- The proposed fees of the external auditors (EY) for auditing of the 2015 accounts was analysed and a report submitted to the board.
- The committee was informed on the work being done in respect of the control and management of risks, including tax risks, and financial reporting internal control systems, particularly the measures taken to strengthen the control structure in accordance with the good governance recommendations.
- The committee was informed on the review and update in progress of the crime prevention model.
- The general policies affecting the powers of the committee were checked and a favourable report was submitted to the board
- The amendment to the Internal Code of Market Conduct and the Code of Conduct proposed within the review of the crime prevention model were checked and a favourable report was submitted to the board.
- The proposal for the distribution of dividends against the 2015 accounts (payable in 2016) was assessed and a favourable report was submitted to the board, on the terms subsequently approved by the board and announced to the market on 22 December 2015.
- The committee attended the presentation given by the head of the shareholder and investor relations department, within the committee's duty to supervise the general policies of the company.

ACTIONS PERFORMED BY THE NOMINATION AND REMUNERATION COMMITTEE:

- The new aspects introduced in the Corporate Enterprises Act by Act 31/2014 of 3 December affecting the composition and duties of the Committee, the board and other committees were analysed, in order to assess and report to the board on the resolutions, if any, that should be adopted to adapt to the new legislation.
- The committee studied and reported favourably to the board on the appointment of the Lead Independent Director.
- The Committee studied and agreed to issue a favourable report to the Board on the Remuneration Policy for Company Directors and Executives of the Parent and Group for 2014-2015.
- The Committee studied and agreed to issue a favourable report to the Board on the conditions of termination of a group executive in Portugal.
- It was resolved to recommend the board to pay the second instalment of the share in profits corresponding to 2014.
- The Committee agreed to recommend the Board, with a favourable report, to approve the Report on Directors' Remuneration for 2014, to be put to an advisory vote at the AGM as a separate item on the agenda.
- The report on the assessment of the Board, its Chairman and Committees in 2014 was prepared, to be submitted to the Board of Directors.
- The Nomination and Remuneration Committee Report 2014 was prepared, to be submitted to the Board of Directors.
- The Committee studied and agreed to issue a favourable report to the Board on the information included in the Annual Corporate Governance Report 2014 on remuneration and categories of directors. In this regard, it was also resolved, in the light of the latest amendment to the Corporate Enterprises Act, to classify the directors into categories in order to adopt any resolutions that may be necessary for 2015.
- The Committee studied and agreed to issue a favourable report to the Board on the modifications to the Regulations of the Board.
- It was resolved to propose to the Board, with a favourable report, payment of (i) the final share in profits corresponding to 2014, once foreseeably approved at the annual general meeting, and (ii) the first instalment of the share in profits corresponding to 2015
- Within the framework of the review of categories of directors, it was resolved to propose to the Board, with a favourable report, a change of category of the director Instituto Hispánico del Arroz, S.A., from proprietary director director
- It was resolved to propose to the Board, with a favourable report, approval of the employee Share Delivery Plan 2015.
- The Committee studied and issued a favourable report to the Board on the general policies affecting the powers of the Committee.
- The Committee studied and issued a favourable report to the Board on the terms of contract of two Group executives in foreign subsidiaries.

ACTIONS PERFORMED BY THE STRATEGY AND INVESTMENT COMMITTEE:

- Preliminary work was done on the Ebro Foods Group Strategic Plan 2016-2018.

EXPLANATORY NOTE EIGHT, ON SECTION D.3

The gross amount of dividends of Ebro Foods, S.A. for 2015 received by all the executives listed in section C.1.16 totalled €16 thousand.

EXPLANATORY NOTE NINE, ON SECTION D.5

During 2015, the Ebro Group concluded two transactions with related parties with an overall value of €130 thousand.

More precisely, the subsidiary Herba Ricemills, S.L.U. effected the following transactions with two companies controlled indirectly by the individual representing the director Hispafoods Invest, S.L., María Blanca Hernández Rodríguez:

- Purchase of goods (finished or otherwise) from Cabher 96, S.L. for €121 thousand.
- Receipt of services (expense) from Real Club de Golf de Sevilla, S.L. for €9 thousand.

EXPLANATORY NOTE TEN, CONCERNING RECOMMENDATION 60 IN SECTION G

The auditors' report contains no qualification of any nature so the situation contemplated in Recommendation 60 has not existed and, consequently, no decision has been made in this regard.

EXPLANATORY NOTE ELEVEN

- Ebro Foods, S.A. had an interest of 3.121% in Biosearch, S.A. at 31 December 2015. This interest is recognised in the Ebro Group accounts as "Available-for-sale financial assets".

Biosearch, S.A. is a listed company engaged in activities similar to the objects of Ebro Foods, S.A. and was part of the Ebro Group until January 2011.

The transactions made between 1 January and 31 December 2015 between Biosearch, S.A. and different companies of the Ebro Foods Group are indicated below:

- Herba Ricemills, S.L.U., purchase of goods (finished or otherwise) for €8 thousand
- Herba Ricemills, S.L.U., lease (income) for €26 thousand
- Ebro Foods, S.A., services rendered (income) for €21 thousand
- Ebro Roods, S.A. has an interest of 25% in Riso Scotti S.p.A. This is an associate consolidated by the equity method.

The transactions made in 2015 between Riso Scotti and a subsidiary of the Ebro Foods Group are indicated below:

- Herba Ricemills, S.L.U., purchase of goods (finished or otherwise) for €200 thousand
- Herba Ricemills, S.L.U., sale of goods (finished or otherwise) for €355 thousand
- Herba Ricemills, S.L.U., services rendered (income) for €9 thousand
- Ebro Foods, S.A., services rendered (income) for €5 thousand
- Ebro Foods, S.A., dividends received for €337 thousand

ETHICAL PRINCIPLES AND CODES VOLUNTARILY APPLIED BY EBRO FOODS, S.A. AND YEAR OF ACCESSION:

- United Nations Global Compact 2001
- Project of the Spanish Commercial Coding Association (AECOC) against food waste, "Don't waste food, use it" 2012
- Advisory Committee of the United Nations Development Programme (UNDP) to boost the Sustainable Development Goals (SDG) 2015
- Sustainable Agriculture Initiative (SAI) Platform 2015
- SERES Foundation 2015

AUDIT REPORT ON THE "DISCLOSURES REGARDING THE INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) SYSTEM" OF EBRO FOODS, S.A. FOR 2015

Dear Directors of Ebro Foods, S.A.,

As per the request made by the Board of Directors of EBRO FOODS, S.A. (hereinafter, the Company) and our proposal letter of February 1, 2016, we have applied certain procedures in relation to the accompanying "ICFR disclosures" of EBRO FOODS, S.A. for 2015, which summarize the Company's internal control procedures in respect of its annual reporting exercise.

The Board of Directors is responsible for taking the opportune measures to reasonably assure the implementation, maintenance and supervision of an adequate internal control system, making improvements to this system and preparing the contents of the ICFR disclosures required in section F) of the accompanying Annual Corporate Governance Report.

Against this backdrop, it is important to note that, regardless of the quality of design and effective functioning of the ICFR system adopted by the company in respect of is annual financial reporting effort, the later can only provide reasonable but not absolute assurance regarding the objectives pursued, due to the limitations intrinsic to any internal control system.

In the course of our financial statement audit work and in keeping with Spain's Technical Auditing Standards, the sole purpose of our assessment of the Company's internal controls was to enable us to establish the scope, nature and timing of the Company's financial statement audit procedures. Accordingly, our internal control assessment, performed in connection with the financial statement audit, was not sufficiently broad in scope to enable us to issue a specific opinion on the effectiveness of the internal controls over the annual financial disclosures that the Company is required to present.

For the purpose of issuing this report, we have only carried out the specific procedures described below, as indicated in the Procedures for external audit reviews of an entity's ICFR disclosures contained in the Internal Control over Financial Reporting in Listed Companies report published by Span's securities market regulator, the CNMV (and available on its website), which establishes the procedures to be performed, the scope thereof and the contents of this report. Given that the products resulting from these procedures is at any rate limited in scope and substantially more limited than an audit or review of the internal control system, we do not express any opinion on the effectiveness of the system or on its design as effective functioning in respect of the Company's 2015 financial reporting disclosures, as described in the accompanying f ICFR disclosures. As a results, had we performed additional procedures to those stipulated in the above mentioned that the Company is required to present, other matter might have come to our attention that would have been reported to you.

Furthermore, given that this special assignment neither constitutes a financial statement audit nor is subject to the Consolidated Text of Spain's Financial Statement Audit Act, enacted by means of Royal Decree- Law 1/2011, of July 1, 2011, we do not express an audit opinion in the terms provided for in that piece of legislation.

The procedures performed are itemized below:

- 1. Read and understand the information prepared by the Entity in relation to the ICFR which is provided in the Director's Report disclosure- and assess whether such information addresses all the required information which will follow the minimum content detailed in Section F, relating to the description of the ICFR, as per the IAGC model established by CNMV Circular no 7/2015 dated December 22, 2015.
- 2. Questioning of personnel responsible for drawing up the information detailed in item 1 above: (i) to obtain an understanding of the process that goes into drawing up the information; (ii) to obtain information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) to obtain information on whether the control procedures described are in place and functioning.
- 3. Reviewing the explanatory documents supporting the information detailed in item 1, including documents directly made available to those responsible for describing ICFR system. The documentation to be reviewed may include reports prepared for the audit committee by internal audit, senior management and other internal or external specialist.
- 4. Comparing the information detailed in item 1 above with their knowledge of the Company's ICFR obtained through the external audit procedures applied during the annual audit.
- 5. Reading of the minutes taken at meetings of the board of directors, audit committee and other committees of the Company to evaluate the consistency between the ICFR business transacted and the information detailed in item 1 above.
- 6. Obtaining a management representation letter in connection with the work performed, signed by those responsible for preparing and formulating the information detailed in item 1 above.

The specific procedures carried out in respect of the Company's ICFR disclosures did not reveal any inconsistencies or incidents that could affect such disclosures

This report was prepared exclusively within the framework of the requirements established by article 540 of the consolidated text of the Corporate Enterprises Act and by Circular $n^{\circ}7/2015$ dated December 22, 2015 of the Spanish National Securities Market Commission related to the description of the ICFR in the Annual Corporate Governance Report.

AUDITORS' Control C

Ernst & Young, S.L. Torre Picasso Plaza Pablo Ruiz Picasso, 1 28020 Madrid Tel.: 902 365 45 Fax.: 915 727 30 ev.com

Translation of a report and consolidated financial statements originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

INDEPENDENT AUDIT REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of Ebro Foods, S.A.:

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Ebro Foods, S.A. (the parent company) and its subsidiaries (the Group), which comprise consolidated statement of financial position at December 31, 2015, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity, the consolidated cash flow statement, and the notes thereto for the year then ended.

Directors' responsibility for the consolidated financial statements

The directors of the parent company are responsible for the preparation of the accompanying consolidated financial statements so that they give a true and fair view of the consolidated equity and consolidated financial position and the consolidated results of Ebro Foods S.A. and its subsidiaries, in accordance with International Financial Reporting Standards, as adopted by the European Union, and other provisions in the regulatory framework applicable to the Group in Spain, and for such internal control as they determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the accompanying consolidated financial statements based on our audit. We conducted our audit in accordance with prevailing audit regulations in Spain. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit requires performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation of consolidated financial stateents by the directors of the parent company in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements give a true and fair view, in all material respects, of the consolidated equity and consolidated financial position of Ebro Foods, S.A. and its subsidiaries at December 31, 2015, and its consolidated results and consolidated cash flow for the year then ended, in accordance with International Financial Reporting Standards, as adopted by the European Union, and other provisions in the regulatory framework for financial information applicable in Spain.

Report on other legal and regulatory requirements

The accompanying consolidated 2015 management report contains such explanations as the directors of the parent company consider appropriate concerning the situation of the Group, the evolution of its business and other matters; however, it is not an integral part of the consolidated financial statements. We have checked that the accounting information included in the aforementioned consolidated management report agrees with the 2015 consolidated financial statements. Our work as auditors is limited to verifying the consolidated management report in accordance with the scope mentioned in this paragraph, and does not include the review of information other than that obtained from the accounting records of Ebro Foods, S.A. and its subsidiaries.

(Signed on the original in Spanish)

David Ruiz-Roso Moyano

EBRO FOODS, S.A. CONSOLIDATED GROUP CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR

ENDED DECEMBER 31, 2015 (THOUSANDS OF EUROS)

1. GROUP INFORMATION

Ebro Foods, S.A., a Spanish public limited company (sociedad anónima), hereinafter the Parent or the Company, was created by the merger by absorption of Puleva S.A. into Azucarera Ebro Agrícolas S.A. on January 1, 2001. On the occasion of that transaction, Azucarera Ebro Agrícolas, S.A.'s name was changed to Ebro Puleva, S.A. Later, at the Annual General Meeting of June 1, 2010, its registered name was changed again to its current name: Ebro Foods, S.A.

The Company's current registered office is in Madrid (28046), at Paseo de la Castellana, 20.

The corporate object of its consolidated group (hereinafter, the Ebro Foods Group, the Ebro Group or the Group) is to perform the following business activities in Spanish and foreign markets:

- a) The production, preparation, sale, research, export and import of all manner of food and dietary products for both human and animal consumption, in addition to energy food products, including their by-products and waste, and, in particular, rice, pasta, sauces and all manner of nutritional products.
- b) The production, exploitation and sale of all manner of food, soft and alcoholic beverages.
- c) The use of by-products and the provision of services or products of all types relating to the aforementioned activities, including refrigeration cabinets, ice, industrial gas, steam, cold and energy.
- **d)** The acquisition, lease, creation, installation, development and management of industrial, farming and livestock facilities in the food, nutrition and beverage (including alcohol) industries.
- e) The performance of projects and installation work and the provision of all manner of technical assistance to other companies in the aforementioned industries; the creation, development, protection and use of patents, trademarks and other assets susceptible to intellectual property protection.
- f) Staff training, computer programming or management, investment and monetization of resources, advertising and image, transport, distribution and sale and marketing activities that are ancillary or complementary to the aforementioned activities.

The activities comprising the Group's corporate object may be carried on through the subscription or acquisition of shares or other equity interests in companies with an identical or similar corporate purpose.

The Group currently operates in Spain and internationally. The revenue breakdown by geographic market is provided with the segment reporting disclosures (note 6).

The 2014 consolidated financial statements were approved at the Annual General Meeting held by Ebro Foods, S.A. on June 3, 2015 and duly filed with Madrid's Companies Register.

The distribution of profit of the Parent Company proposed by the directors of Ebro Foods, S.A. at a meeting of the Board of Directors on March 31, 2016 for submission for ratification at the upcoming Annual General Meeting is as follows:

Amounts relating only to the Parent's separate financial statements

	AMOUNT
Basis of distribution Unrestricted reserves Profit for the year (as per income statement)	693,014 23,220
TOTAL	716,234

Thousands of euros

The profit generated by the Ebro Foods Group in 2015 makes it possible, as in prior years, to propose the payment of a cash dividend, with a charge against unrestricted reserves and profit for the year of 0.54 euros per share, payable in the course of 2016, in a total amount of 83,088 thousand euros.

The dividend will be paid out in three equal instalments of 0.18 euros per share on April 1, June 29 and October 3, 2016.

LIMITATIONS ON THE DISTRIBUTION OF DIVIDENDS

Ebro Foods, S.A. is obliged to transfer 10% of profit for the year to a legal reserve until this reserve reaches an amount equal to at least 20% of share capital. This reserve cannot be distributed to shareholders unless it exceeds and only in the amount by which it exceeds this 20% threshold.

Once the legal and bylaw-stipulated requirements have been met, dividends may be distributed against profit for the year or freely distributable reserves so long as the value of equity is not lower than or would not fall below share capital as a result of the distribution. For these purposes, any profit recognized directly in equity may not be distributed either directly or indirectly. If prior-year losses were to reduce the Company's equity to below the amount of share capital, profit would have to be allocated to offset these losses.

2. BASIS OF PREPARATION AND COMPARABILITY OF THE INFORMATION INCLUDED IN THE CONSOLIDATED FINANCIAL STATEMENTS

These consolidated financial statements are presented in thousands of euros (unless expressly stated otherwise). The euro is the Ebro Foods Group's functional currency. Transactions performed in other currencies are translated into euros following the accounting policies outlined in note 3.

A) BASIS OF PREPARATION

1. General accounting policies

The consolidated financial statements were prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, in conformity with Regulation (EC) no. 1606/2002 of the European Parliament and of the Council.

The consolidated financial statements for the year ended December 31, 2015, which were authorized for issue by the Parent's directors on March 31, 2016, are pending approval by its shareholders at the Annual General Meeting; however, they are expected to be approved without modification. (Similarly, at the reporting date, the 2015 financial statements of Ebro Foods, S.A. and of its subsidiaries and associates had still to be ratified by their respective shareholders at the corresponding Annual General Meetings).

These financial statements have been prepared using the general historical cost measurement basis, except where the occasional IFRS requires performance of the corresponding revaluations.

2. Use of estimates and assumptions

 $The Parent's \ directors \ are \ responsible \ for the \ information \ included \ in \ these \ consolidated \ financial \ statements.$

In preparing the accompanying consolidated financial statements, they have relied on occasion on estimates made by the management of the various Group companies in order to measure certain of the assets, liabilities, income, expenses and commitments recognized therein. Essentially, these estimates refer to:

- Measurement of the recoverable amounts of assets and goodwill for impairment testing purposes.
- The assumptions used in the actuarial calculation of pension and similar liabilities and obligations.
- The useful lives of property, plant and equipment and intangible assets.
- The assumptions used to calculate the fair value of financial instruments and put options.
- * The probability of occurrence and amount of liabilities of uncertain amounts and/or contingent liabilities.
- The recoverability of deferred tax assets.

Although these estimates were made on the basis of the best information available at the date of authorizing these consolidated financial statements for issue regarding the facts analyzed, future events could make it necessary to revise these estimates (upwards or downwards) in coming years. Changes in accounting estimates would be applied prospectively, recognizing the effects of the changes in estimates in the related consolidated financial statements.

3. Materiality assessment

These consolidated financial statements omit information and disclosures that do not require detailed breakdown on account of their qualitative importance and were not deemed material in accordance with the relative materiality or significance concept defined in the IFRS Conceptual Framework, considering the consolidated financial statements of the Ebro Group as a whole.

B) COMPARATIVE INFORMATION

For comparative purposes, the Group presents, in addition to the figures for the year ended December 31, 2015, for each item in the consolidated balance sheet, consolidated income statement, consolidated statement of cash flows, consolidated statement of changes in equity, consolidated statement of comprehensive income and notes to the consolidated financial statements, the figures for the year ended December 31, 2014.

No other significant changes were made to the prior-year figures in order to make them comparable year-on-year.

C) CHANGES IN THE SCOPE OF CONSOLIDATION

Notes 4 and 5 detail the main changes affecting the consolidation scope in 2015 and 2014, outlining the corresponding consequences in terms of accounting methods used.

3. SIGNIFICANT ACCOUNTING POLICIES

The most significant accounting policies applied in the preparation of these consolidated financial statements are set out below:

A) BASIS OF CONSOLIDATION

Subsidiaries

All of the companies over which the Group has control are fully consolidated in these financial statements. Control is the power to affect an investee's returns through the ability to direct its relevant activities.

When the Group acquires a business, that business's assets, liabilities and contingent liabilities acquired are measured at their acquisition-date fair values. The difference between the cost of the business combination and the fair value of the net assets acquired is recognized as goodwill if positive and as a gain on a bargain purchase in the income statement if negative. The results of companies acquired during the year are consolidated from the effective date of acquisition.

Non-controlling interests are determined at the acquisition date at their percentage interest in the fair value of the acquiree's recognized assets and liabilities or at their proportionate share of the fair value of the acquired business, i.e., including their share of goodwill.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All material intra-group balances relating to transactions between members of the Group are eliminated in full on consolidation.

Investments in associates and joint ventures

The Group's investments in associates (companies over which it has significant interest but not control) and joint ventures are accounted for using the equity method. Under the equity method, an investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date, adjusted for impairment charges as necessary. The Group's share of the results of operations of its associates or joint ventures is recognized, net of the related tax effect, in the consolidated income statement or consolidated statement of other comprehensive income, as warranted.

B) FOREIGN CURRENCY TRANSLATION: RESULTS AND FINANCIAL POSITION OF FOREIGN OPERATIONS

The Group companies' individual financial statements are expressed in each company's functional currency.

On consolidation, their assets and liabilities are translated into euros using the year-end exchange rate; income statement items are translated at the average exchange rate for the period; while share capital, share premium and reserve accounts are translated using the historical exchange rate. The exchange differences arising on translation for consolidation purposes of investments in foreign subsidiaries and associates are recognized in equity under "Translation differences".

If there are non-controlling interests in these subsidiaries, the translation differences are recognized under "Non-controlling interests" within equity.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the reporting date.

On disposal of an investment in a foreign subsidiary or associate, the translation differences relating to that particular foreign operation, deferred in equity until the transaction date, are recognized in profit or loss.

C) FOREIGN CURRENCY

Each Group company translates its transactions in foreign currencies to its respective functional currency using the rate prevailing on the transaction date. Differences arising on settlement of these transactions or translation of monetary assets and liabilities denominated in currencies other than each Group company's functional currency are recognized in profit or loss.

D) CASH AND CASH EQUIVALENTS

Cash and cash equivalents are mainly certificates of deposits, short-term deposits, short-term marketable securities, short-term government bonds and other money market assets with a maturity of three months or less, and bank deposits with a maturity of more than three months from the date of acquisition but immediately drawable without incurring any kind of penalty. These assets are valued at acquisition cost, which is deemed a fair approximation of their realizable amount.

E) PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTIES

Items of property, plant and equipment and investment properties are stated at the lower of:

- Acquisition (or production) cost, net of accumulated depreciation and accumulated impairment losses, if any.
- * Their recoverable amount, i.e. the amount that will be recovered via the cash-generating units to which they belong or via their sale, capital appreciation or a combination of the two.

For items of property, plant and equipment and investment properties acquired in business combinations, acquisition cost equates to their fair value on the date that the Group obtained control, determined using appraisals carried out by independent experts, as detailed in section a) above.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is its carrying amount on the date of the change in use.

If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

In the event that management detects indications that these assets may be impaired, the corresponding impairment losses are recognized.

Borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost of the asset until such assets are commissioned. Extension, upgrade or improvement costs that represent an increase in productivity, capacity or efficiency or an extension in the useful life of assets are capitalized as an increase in the cost of the corresponding assets. Upkeep and maintenance costs are expensed in the year they are incurred.

Items of property, plant and equipment are depreciated on a straight-line basis over their respective useful lives, taking into consideration actual depreciation sustained through operation, usage and wear and tear, as follows. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end.

DEPRECIATION RATES

Е	Buildings and other structures	1.0% to 3.0%
F	lant and machinery	2.0% to 20%
(Other fixtures, tools and furniture	8% to 25%
-	other items of PP&E	5.5% to 25%

Assets acquired under finance lease agreements, i.e., when the Group assumes substantially all the risks and rewards incidental to ownership, are capitalized, recognizing the present value of the total lease liability in tandem. Lease payments are apportioned between finance charges and principal (reduction of the lease liability) so as to achieve a constant rate of interest on the remaining balance of the liability. Leased assets are depreciated on a straight-line basis over the useful life of the assets, using the rates shown above. Operating lease payments are recognized as an operating expense in the income statement on a straight-line basis over the lease term.

F) INTANGIBLE ASSETS (EXCLUDING GOODWILL AND GREENHOUSE GAS EMISSION ALLOWANCES)

Intangible assets are recognized at their acquisition or production cost, which is reviewed continually and written down for impairment, as warranted, as described in note 3.h) below. Intangible assets with finite lives are amortized; their residual values, amortization periods and amortization methods are reviewed annually. The assets included under this heading are the following:

- Development costs: The costs incurred in specific projects for the development of new projects for sale or internal use that are reasonably certain to be recovered, are capitalized and amortized on a straight-line basis over the period of expected future benefit from its date of completion.
 - Recovery is reasonably regarded as assured when it is considered technically feasible and the Group has the ability and intention to complete the asset and use it or sell it and it is expected to generate future economic benefits.
- * Patents, trademarks and licenses: Capitalized development expenditure is recognized under this heading when the corresponding patent or similar protection is obtained. This heading also includes new trademarks or brand names acquired from third parties (recognized at their acquisition cost) and those acquired in business combinations (recognized at their fair value on the date control is obtained). Based on an analysis of all the relevant factors, the Group has determined that there is no foreseeable limit to the period of time for which its most significant trademarks will generate cash inflows for the Group, which is why it has classified them as intangible assets with indefinite useful lives. Nevertheless, it reviews its trademarks' indefinite useful life assessment every year.

Those that are amortized over their estimated useful life, which varies between 10 and 20 years.

Computer software: Computer software includes the amounts paid for title to or the right to use computer programs and the costs incurred to develop software in-house, only to the extent that the software is expected to be used over several years. Software is amortized on a straight-line basis over its useful life, which is usually around three years.

Software maintenance expenses are expensed in the year incurred.

G) GOODWILL

Goodwill is the excess of the consideration transferred in exchange for control of a business and the acquisition-date fair value of the share of the net assets acquired, including the portion attributable to non-controlling interests, as detailed above. The excess acquisition price that corresponds to investments in associates is recognized in the consolidated balance sheet within 'Investments in associates', while any corresponding impairment losses are recognized under 'Share of profit of associates' in the consolidated income statement.

When the price of a business combination includes contingent consideration, the acquisition price includes the present value of such contingent consideration.

Goodwill is not amortized but is tested for impairment annually. Any impairment of goodwill indicated by such tests is recognized immediately in profit or loss and cannot be reversed in subsequent years.

Similarly, gains from a bargain purchase are recognized in the consolidated income statement once the Group has confirmed the fair value of the net assets acquired.

Whenever the Group disposes of a subsidiary or associate to which goodwill has been allocated, the amount of such goodwill is included in the carrying amount in order to determine the gain or loss on disposal.

Where goodwill forms part of a cash generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill derecognized under these circumstances is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

H) IMPAIRMENT OF NON-FINANCIAL ASSETS

The Group tests its assets for impairment every year.

If its impairment tests indicate that that an asset's recoverable amount is less than its carrying amount, the asset is written down to its recoverable amount by recognizing an impairment loss in the consolidated income statement. An asset's recoverable amount is the higher of its realizable value and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using an appropriate discount rate.

If an asset being tested for impairment does not generate cash inflows that are largely independent of those from other assets or groups of assets, the impairment test is performed in respect of the group of assets to which it belongs (cash-generating unit or CGU).

The recoverable value of intangible assets with indefinite useful lives is reassessed annually (annual impairment test) or whenever there are indications that such assets may be impaired. The reversal of an asset impairment loss is recognized in the consolidated income statement.

I) NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Non-current assets classified as held for sale and discontinued operations are measured at the lower of their acquisition cost and fair value less costs of disposal.

Assets are classified into this category when their carrying amount is expected to be realized through a sale transaction, rather than through continuing use, the asset is available for immediate sale in its present condition and the sale is expected to qualify for recognition as a completed sale within one year.

J) FINANCIAL ASSETS

Financial assets are recognized (and derecognized) on the effective transaction or trade date; they are initially recognized at fair value, which generally coincides with their acquisition cost, adjusted for transaction costs as warranted.

Investments

Investments are classified as:

- Held-to-maturity financial assets: those with fixed or determinable payments and fixed maturity. The Group must have the positive intention and ability to hold these assets to maturity. This heading primarily includes short-term deposits and grants. After initial recognition they are measured at amortized cost.
- * Financial assets at fair value through profit or loss: assets held for trading, i.e, with the objective of generating a profit from short-term fluctuations in price or the dealer's margin. After initial recognition they are measured at fair value to the extent this can be determined reliably. Net changes in these assets' fair value are presented in the consolidated income statement.
- Available-for-sale financial assets: this category includes debt securities and equity instruments issued by other companies that have not been classified in any of the preceding categories. These assets are measured as follows:
 - At fair value, when this can be determined reliably by means of its quoted price, recent benchmark transaction prices or the present value of its discounted cash flows.
 - Unrealized fair value gains or losses are recognized in equity until the investment is derecognized, at which time the cumulative gain or loss recognized equity is reclassified to profit or loss.
 - If fair value is less than acquisition cost and there is objective evidence that the asset has become impaired and this impairment is not considered temporary, the difference is recognized directly in the consolidated income statement.
 - In the event of unlisted securities, whose fair value cannot always be determined reliably, these assets are measured at their acquisition cost, less any impairment losses.

At year-end 2015, the fair value of the Group's available-for-sale financial assets was determined by reference to (unadjusted) quoted prices in active markets, meaning Level 1 of the fair value hierarchy established under IFRS 7.

No financial assets were reclassified between the above financial asset categories in either 2015 or 2014.

Other loans and credit facilities

Non-trade loans and credit facilities, whether current or non-current, are recognized at the amounts granted (amortized cost). The interest collected on these loans is accrued as interest income using the effective interest rate method.

Non-trade loans and credit facilities are not usually discounted to their present value.

K) TRADE AND OTHER RECEIVABLES

Trade and other receivables are recognized at their face value, which coincides with their amortized cost. Impairment losses are estimated and recognized to provide for the risk of non-payment.

The balance corresponding to discounted bills is recognized through maturity under both trade and other receivables and bank borrowings (current financial liabilities).

L) INVENTORIES

Inventories are measured at weighted average acquisition or production cost. The acquisition price includes the amount stated on the invoice plus all additional costs incurred until the goods are stored in the warehouse.

Production cost is determined by adding to the cost of acquiring raw materials and other consumables, manufacturing costs directly attributable to the product and the corresponding portion of indirect costs attributable to the product in question, to the extent such costs are incurred in the manufacturing period. If the selling price less estimated costs of completion and the estimated costs necessary to make the sale are less that the costs indicated above, the inventories are written down for impairment.

M) DEFERRED INCOME - GRANTS

The grants received by the Group are accounted for as follows:

- a. Non-repayable grants related to assets: grants are measured at the amount awarded and reclassified to profit and loss on a straight-line basis over a period of 10 years, which is roughly equivalent to the average period during which the assets financed by such grants are depreciated. They are presented on the liability side of the consolidated balance sheet.
- **b.** Grants related to income: when a grant relates to an expense item, it is recognized as income in the period that the costs it is intended to compensate are expensed.

N) PENSION COMMITMENTS AND SIMILAR OBLIGATIONS

The Group manages several defined benefit and defined contribution pension plans. The cost of providing benefits under defined benefit plans is determined using the projected unit credit method.

The defined benefit commitment is calculated by independent actuarial experts annually for the most significant plans and regularly for the rest. The actuarial assumptions used to calculate the Group's obligations depend on each country's economic situation.

The various funds may be funded through an external fund or through internal provisions.

For defined benefit plans funded externally, any deficit in the fair value of the plan assets with respect to the present value of the obligation as a result of actuarial gains or losses is recognized directly in equity net of the related tax effect, and any changes in past service costs are recognized in profit or loss. A gain is only recognized in the consolidated balance sheet in respect of a surplus to the extent that it represents a future economic benefit, in the form of refunds from the plan or a reduction in future contributions.

Actuarial gains and losses arise mainly as a result of changes in actuarial assumptions or differences between estimated and actual variables.

In the case of defined benefit plans, the actuarial cost charged to the consolidated income statement is the sum of the current service cost, interest cost, the expected return on any plan assets and the past service cost, while any material actuarial gains and losses are recognized directly in retained earnings within equity.

Contributions to defined contribution plans are charged to the consolidated income statement when they are made.

Pursuant to the prevailing collective bargaining agreement and other non-binding agreements, Ebro Foods, S.A. (mainly) is obliged to pay bonuses for long service to certain of its permanent employees upon retirement at the legally-stipulated age or early retirement.

In accordance with the prevailing collective bargaining agreements and other non-binding agreements, the Riviana and the NWP subgroups and certain European Group companies (mainly) are obliged to make annual supplementary payments of various kinds and other bonuses for long service and retirement, where applicable, to certain of their permanent employees upon retirement at the legally-stipulated age or early retirement.

The provision recognized represents the present value, calculated by means of actuarial studies, most of which performed by independent experts, of the future payment obligations of the companies concerned to their former and current employees in connection with the aforementioned retirement bonus obligations, net of the present value of the financial assets in which the related funds are invested. These plans are managed independently by a Management Committee made up of employees, executives and third parties.

In addition, certain Group companies grant their employees certain voluntary retirement bonuses of undetermined amount. These bonuses, which are scantly material, are recognized as an expense when they are paid. The other Group companies do not have similar obligations or have obligations that are scantly material.

O) OTHER PROVISIONS

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

They are measured at the year-end estimate of the amounts (at their present value) that will be required to discharge probable or certain liabilities arising as a result of lawsuits or other outstanding obligations.

If an outflow of resources is considered possible but not probable, the Group does not recognize a provision but discloses the nature of such contingent liability in the notes to the annual financial statements.

Restructuring provisions are recognized only when the Group has a constructive obligation, which exists when a detailed formal plan identifies the business concerned, the locations affected, the function and number of employees who will be compensated for terminating their services, a detailed estimate of the associated costs, and when the plan will be implemented, and a valid expectation has been raised among those affected that the restructuring will be carried out because the plan has started to be implemented or because the main features of the plan have been announced to those affected by it. These provisions are estimated on the basis of their economic substance and not just their legal form.

P) FINANCIAL LIABILITIES - LOANS AND BORROWINGS

Loans and borrowings are classified by maturity: those maturing within less than twelve months from the reporting date are classified as current liabilities and those maturing within more than twelve months are classified as non-current liabilities.

All loans and borrowings are initially recognized at their original cost less associated arrangement costs. Subsequent to initial recognition they are measured at amortized cost. The interest generated by borrowings and all associated costs are recognized in the consolidated income statement using the effective interest rate method.

Q) INCOME TAX

Current tax expense is recognized in the consolidated income statement, except for current income tax relating to items recognized directly in equity, the tax effect of which is recognized in equity.

Deferred tax is provided using the liability method. Under this method, deferred tax assets and liabilities are recognized on the basis of the temporary differences between the carrying amounts of the assets or liabilities and their tax bases and are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities that arise from items recognized in equity are directly credited to or charged against equity. Deferred tax assets and unused tax credits are recognized to the extent that it is probable that sufficient taxable profit will be available to allow the benefit to be utilized and they are written down if this expectation changes. Deferred tax liabilities associated with investments in subsidiaries and associates are not recognized unless the Parent has the power to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

R) DERIVATIVE FINANCIAL INSTRUMENTS

The Group uses certain financial derivatives to manage its exposure to fluctuations in interest rates and exchange rates. All of these derivatives are measured at fair value, regardless of whether or not they are designated as hedges, their fair value being their market value in the case of listed instruments and valuations based on options or discounted cash flow analysis in the case of unlisted instruments. The following criteria are used for recognition purposes:

- Cash flow hedges: the gains and losses derived from the restatement to fair value at the reporting date of derivatives designated as hedges, to the extent effective, are recognized directly in equity (net of tax) until the committed or forecast transaction is realized, at which point they are reclassified to profit or loss.
 - Gains and losses on ineffective hedges are recognized directly in profit or loss.
- Hedges of a net investment in a foreign operation: the gains and losses derived from the measurement at fair value of these investments in respect of the portion of the hedge deemed effective are recognized, net of tax, directly in equity under 'Translation differences' and are reclassified to profit or loss when the hedged investment is disposed of. Gains and losses on ineffective hedges are recognized directly in profit or loss.
- * Accounting treatment for financial instruments not designated as hedges or not qualifying for hedge accounting: The gains and losses arising from the restatement to fair value of these financial instruments are recognized directly in the consolidated income statement.

S) REVENUE RECOGNITION

Revenue and expenses are recognized on an accrual basis. Revenue is the gross inflow of economic benefits during the period arising in the course of the Group's ordinary activities insofar as those inflows result in increases in equity, other than increases relating to contributions from equity participants, and the benefits can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable.

Revenue from services is only recognized when the outcome of a transaction involving the rendering of services can be estimated reliably and is recognized by reference to the stage of completion of the transaction at the end of the reporting period.

Revenue includes only the gross inflows of economic benefits received and receivable by the Group on its own account; amounts collected on behalf of third parties, such as in an agency relationship, are not recognized as revenue.

When goods or services are exchanged or swapped for goods or services which are of a similar nature and value, the exchange is not regarded as a transaction which generates revenue.

The Group recognizes non-financial asset purchase or sale agreements settled at the net amount in cash or through some other financial instrument at their net amount. Agreements entered into and held for the purpose of receiving or delivering such non-financial assets are recognized in accordance with the contractual terms of the purchase, sale or expected usage requirements.

Interest income is recognized using the effective interest method, by reference to the principal outstanding and the applicable effective interest rate.

T) ENVIRONMENTAL DISCLOSURES

Expenditure incurred under initiatives taken or that have to be undertaken to manage the environmental effects of the Group's business operations and that deriving from environmental commitments are considered environmental expenses.

Capitalized assets acquired or produced by the Group for the purpose of long-lasting use in its business operations whose main use is to minimize environmental damages and/or enhance environmental protection, including assets intended to make the Group's operations less contaminating, are considered environmental assets. These assets are accounted for using the same criteria as for items of property, plant and equipment.

U) GREENHOUSE GAS EMISSION ALLOWANCES

The Group recognizes its greenhouse gas emission allowances as intangible assets with an infinite useful life. Allowances received for free under the various national allocation plans are measured at their fair value at the time of receipt and a deferred income balance is recognized in the same amount.

Since 2013 the Group is no longer obliged to meet allowance requirements and will therefore not be allocated additional free allowances.

V) OWN SHARES

Own equity instruments that are reacquired (own shares or treasury shares) are deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

W) NEW AND AMENDED STANDARDS AND INTERPRETATIONS

The measurement standards (accounting policies) applied in preparing the accompanying consolidated financial statements are consistent with those used to prepare the 2014 consolidated financial statements with the exception of the following new and amended standards and interpretations:

- 1. Standards and amendments published by the International Accounting Standards Board (IASB) and adopted by the European Union for application in Europe for annual periods beginning on or after January 1, 2015:
 - CINIIF 21 Levies
 - Annual Improvements, 2011-2013 Cycle

Adoption of these new and amended standards and interpretations has not had a material impact on the Group's financial position, performance or disclosures. The Group has not early adopted any new or amended standard that has been published but whose application is not yet mandatory.

2. As of the date of authorizing the accompanying consolidated financial statements, the following new and amended standards and interpretations have been published and are effective for annual periods after December 31, 2015:

The most significant standards and interpretations published by the International Accounting Standard Board (IASB) but not yet effective in the European Union because their date of effectiveness is subsequent to the reporting date, are the following:

NEW OR AMENDED STANDARD OR INTERPRETATION	DATE OF APPLICATION BY THE EU
Amendments to IAS 19 Defined contribution plans: employee contributions	February 1, 2015
Annual Improvements to IFRS, 2010-2012 Cycle	February 1, 2015
Amendments to IAS 16 and IAS 38 Acceptable methods of depreciation and amortization	January 1, 2016
Amendments to IFRS 11 Accounting for acquisitions of interests in joint operations	January 1, 2016
Amendments to IAS 16 and IAS 41 <i>Bearer plants</i> .	January 1, 2016
Annual Improvements to IFRS, 2012-2014 Cycle	January 1, 2016
Amendments to IAS 1 <i>Disclosure initiative</i>	January 1, 2016

Adoption of these new and amended standards and interpretations will not have a material impact on the Group's financial position, performance or disclosures. The Group has not early adopted any new or amended standard that has been published and whose application is not yet mandatory.

In addition, as of the date of authorizing the accompanying consolidated financial statements for issue, the following new and amended standards and interpretations were pending adoption by the European Union. None of these standards has been early adopted by the Group.

NEW OR AMENDED STANDARD OR INTERPRETATION	DATE OF ADOPTION BY THE EU
IFRS 9 Financial instruments	Pending
IFRS 14 Regulatory deferral accounts	Pending
IFRS 15 Revenue from contracts with customers	Pending
IFRS 16 <i>Leases</i>	Pending
Amendments to IFRS 10 and IAS 28 Sale or contributions of assets between an investor and its associate or joint venture	Pending
Amendments to IFRS 10, IFRS 12 and IAS 28 Investment entities: Applying the consolidation exception	Pending
Amendments to IAS 7 <i>Statement of cash flows</i>	Pending
Amendments to IAS 12 <i>Income taxes</i>	Pending

The Group is currently analyzing the impact of application of these new and amended standards and interpretations that have been published but whose application is not yet compulsory.

Azucarera Energías, S.A.	Other	100%	Liquidation of this company	

Acquisition of a new rice business, "Rice Select", in the US

On June 1, 2015, Ebro Foods, S.A. acquired from RiceTec AG and RiceTec, Inc., through its US subsidiary, Riviana Foods Inc, the rice businesses carried on by the latter two companies in the US under the "RiceSelect" trademark. The transaction was structured as net asset acquisition. In addition to the RiceSelect trademark, the scope of the acquisition encompassed the other business assets, including a factory in Alvin, Texas. Riviana Foods also took on 42 employees devoted to the rice business.

RiceSelect boast strong brand recognition in the Premium specialty rice segment (aromatic rice, risottos, organic rice, etc.); it is uniquely positioned in terms of image and products vis-a-vis consumers in a priority market for the Ebro Group: the US rice market. The value-added products sold under the RiceSelect brand, which are very well positioned in the retail sector, perfectly complement the Riviana portfolio and will enable the Group to step up its development in the fastest-growing segments of the US rice business.

The business was acquired for 40,731 thousand euros. The acquisition was financed from own funds. The date on which the Group took effective control of this business - and the date of its first-time consolidation - was June 1, 2015. The goodwill generated as a result of this business combination is deductible for tax purposes.

Acquisition of the Monterrat, SAS Group in France

On September 30, 2015, having obtained the pertinent approval from the French anti-trust authority, Ebro Foods, S.A. acquired, through its subsidiary, Panzani, SAS, 100% of the equity of the French prepared fresh meal maker, Roland Monterrat.

With a headcount of 390 professionals, Roland Monterrat is an important player in the fresh meal segment in France: it is the leader in the Pâté en croûte segment and a top player in the sandwich and croque-monsieur segments. This acquisition will boost the Ebro Group's growth in the fresh product arena and in other complementary business segments.

The transaction was structured as the acquisition of 100% of the target's shares. The acquisition price totaled 41,546 thousand euros (a 26,550 thousand euro net payment plus 14,996 thousand euros of assumed debt). The acquisition was financed using a mix of own funds and borrowings. The date on which the Group took effective control of this business - and the date of its first-time consolidation - was October 1, 2015. The goodwill generated as a result of this business combination is not deductible for tax purposes.

The preliminary assessment of the fair value of the net assets acquired in both transactions is as follows:

	RICESI	LECT	MONTERRAT		
	DATE OF	DATE OF FIRST-TIME CONSOLIDATION		N TOTAL	
	06-01	-2015	10-01-2015

Thousands of euros

(a) Estimate as if the businesses has been acquired on January 1, 2015 $\,$

The goodwill generated represents the future economic benefits the Ebro Group expects to obtain as a result, mainly, of the synergies implied by integration of this business into its supply, logistics, industrial, sales and human resources platforms.

The Group is still in the process of valuing and analyzing the various assets in order to determine the definitive fair value of the net assets acquired as of the date of first-time consolidation by the Ebro Group. Accordingly, the amounts recognized in respect of these business combinations have been determined only provisionally (initial accounting incomplete).

There were no other significant changes in the Group's consolidation scope in 2015.

The most significant changes in the Group's consolidation scope in 2014 are outlined below:

Acquisition of Italian pasta business Garofalo

The Ebro Group acquired 52% of Italian pasta group, Garofalo, on June 18, 2014. This Italian company owns the Garofalo, Santa Lucia and Russo de Cicciano brands, among others, giving it a significant position in the premium dry pasta segment in Italy and other countries.

The Group acquired a 52% interest for 63,455 thousand euros; it paid 58,255 thousand euros in 2014 and the remaining 5,200 thousand euros in 2015. The Group financed the acquisition using a mix of internal funds and bank borrowings. The Group took effective control of the Garofalo Group on June 30, 2014, which was also the date of first-time consolidation of this entity.

In addition, the Group has arranged two options with the other shareholder over the remaining 48%, granting the seller a put option (exercisable until May 2024) and the Ebro Group a call option (exercisable from June 2024 to May 2026). The price of these options will be determined as a function of Garofalo's average earnings metrics over a series of years, as well as other terms and conditions customary in arrangements of this nature. At December 31, 2015, these options, which are recognized under non-current financial liabilities, were valued at 61,550 thousand euros (59,112 thousand euros at year-end 2014) (note 22).

The consolidated balance sheet of the Garofalo Group at June 30 2014 is replicated below:

There were no other significant changes in the Group's consolidation scope in 2014.

6. SEGMENT REPORTING

The operating segments are organized and managed separately by products and services; each segment represents a strategic business unit that offers different products and services different markets. Accordingly, the Group's segment reporting disclosures are articulated around its business segments, as the Group's risks and returns are shaped primarily by differences in the products and services provided.

Against this backdrop, the Ebro Foods is divided into the following business segments and/or activities:

- Rice business
- Pasta business
- Other businesses and/or activities

The Group structures its segment reporting disclosures around these businesses and/or activities. The financial information relating to these business segments is presented in the table provided at the end of this note.

RICE BUSINESS

Herba Group: this group specializes in rice. It has established itself as Europe's leading rice group and one of the world's most importance players; it boasts an extensive and modern manufacturing base and sales network, engaging in business dealings in more than 70 markets.

It is the leading European player in rice retailing, the food service segment and in the supply of rice, rice derivatives and ingredients for industrial purposes. It follows a multi-brand strategy underpinned by a deep portfolio of successful brands that boast strong recognition in their operating markets. These high-profile brands include: SOS, La Fallera, La Cigala, Saludades, Lassie, Reis fit, Rix fis, Oryza, Bosto, Riceland, Risella, Peacock y Phoenix.

The table below summarizes the Group's market shares in its main retail markets:

COUNTRY	BY VOLUME	BY VALUE	RANKING
Spain	22.4%	33.6%	#1
Portugal	16.2%	18.6%	#1
Germany	9.2%	16.7%	#2
Belgium	22.0%	28.6%	#2
Netherlands	22.7%	29.9%	#1

In parallel it supplies rice to Europe's leading food sector players:

- Beverage industries
- Industrial rice companies
- * Baby food: cereals, baby food, etc.
- Pre-cooked dishes: non-refrigerated, dehydrated, frozen, etc.
- Animal and pet food

Riviana Group: This is the unit specialized in the rice business in the US, specifically through Riviana Inc, the largest rice company in the US with rice processing and production facilities in Tennessee, Texas and Arkansas.

Riviana is the leading rice retailer in the US and boasts a variety of brands including Mahatma and Minute, leaders in the traditional and instant & microwaveable rice segments, respectively.

In 2015, the Group acquired the RiceSelect brand, thereby consolidating Riviana's presence in the specialty rice segment (aromatic rice, risottos, organic rice, etc.). The target boasts unique brand and product recognition.

The Group's overall market share in the US retail segment is 22.4% by volume; its footprint extends to growth segments such as aromatic and microwaveable rice.

This subgroup also has a solid international presence in markets with long-standing trade ties with the US, such as Mexico, several Caribbean nations and the Middle East, the latter through the Abu Bint brand, which is the leader in the par-boiled rice segment in Saudi Arabia (56.8% share by volume).

PASTA BUSINESS

Panzani Group: This is the Group unit specialized in the pasta and sauces business. France's Panzani is the leading player in the dry pasta, fresh products, rice, semolina and sauce segments in France.

The sauce and fresh products line is a premium customer proposition and a segment in which Panzani is the undisputed leader in France. Its brands, Panzani and Lustucru, command 32.3% and 39.4% of the market by volume, respectively.

The fresh products line includes fresh pastas, pan-fry products, new risotto sauces, ready-to-eat fresh dishes and new potato-based fresh specialties. It represents a growth segment and a launch pad for the Group's R&D effort. The acquisition of Roland Monterrat reinforces the Group's presence in this market as the target specializes in fresh dishes, sandwiches, *pâté en croûte* and *croque-monsieurs*.

Panzani sells rice under two brands: Lustucru, devoted to conventional and quick-cook rice, and Taureau Ailé, specialized in exotic rices and the number-one player in this segment in France with a market share of 20.6% by sales volumes. Panzani sells semolina products under the Regia and Ferrero brands, which lead the market by sales volumes.

It is also the market leader in Belgium and the Czech Republic with shares of 9.7% and 15.4%, respectively, and exports pasta and semolina products, particularly to northern Africa and other French-speaking markets.

Garofalo Group: The Ebro Group acquired 52% of Italy's Pasta Garofalo on June 18, 2014.

Pastificio Lucio Garofalo is steeped in over two hundred years of history and marries tradition and innovation in the premium pasta business. It is based in Gragnano (at the back of the Bay of Naples), the region considered the cradle of pasta on account of its special microclimate. It owns the Garofalo and Santa Lucia trademarks, among others.

This company has etched out a growth story during the past 15 years, transforming from a small-sized local player into a leader in the Italian premium dry pasta segment (share of 4.8% by volume and 7.3% by value). Its brands are sold in most European markets and the US and its Santa Lucía brand is a best-selling pasta brand in eastern Africa.

New World Pasta Group: a leading player in the dry pasta segment in the US and Canada. Its manufacturing base encompasses Montreal (Quebec), Fresno (California), Saint Louis (Missouri) and Winchester (Virginia). It follows a multi-brand strategy: its brands are strongly entrenched in their local markets; this company also commands an important presence in the health and well-being segments, in which is markets its products under the Healthy Harvest, Smart Taste, Garden Delight trademarks and Gluten Free.

New World Pasta boasts an extensive range of complementary and solid brands, including: Ronzoni, Skinner, Prince, American Beauty, San Giorgio, Creamette and No Yolks in the US, and Catelli, Lancia and Ronzoni in Canada. It's market share (by volume) in the US and Canada is of 19.4% and 34,0%, respectively. Towards the end of 2013 it added Olivieri to this portfolio, a fresh pasta brand with a market share in Canada of 45.9%.

OTHER BUSINESSES AND/OR ACTIVITIES

The most notable activity in this category:

Asset management:

This unit manages the Group's property that is not used in the core businesses (investment properties). Its goal is to centrally control all of the Group's properties with a view to remaining abreast of their status, reducing costs and selling off those not used for industrial purposes after taking action to maximize their valuation prior to monetization.

Criteria used to allocate amounts to reportable segments

The restructuring effort and initiatives undertaken by the Group in recent years have enabled it to scale each of its main business segments separately, thereby facilitating their management, decision-making and financial control. Accordingly, the allocation of consolidated expenses, income, assets and liabilities among the segments derives from the amounts that belong directly to each. It has not been necessary to establish criteria for allocating shared expenses and income or shared assets and liabilities among segments.

Against this backdrop, although the non-financial fixed assets and liabilities and working capital structure dovetail with the needs of each business or activity, the financial structure shown by segment is determined by internal financial management criteria in keeping with appropriate and necessary centralization and coordination at the Group level.

Inter-segment transactions

Although not material in relation to the total consolidated figures, inter-segment transactions have been eliminated for the purpose of determining the reportable segments' revenue, expenses and profits. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties. Inter-segment transactions are eliminated on consolidation.

6.1 GEOGRAPHIC INFORMATION

The geographic information is provided on the basis of the Group's assets. Revenue from external customers is based on the the geographic location of the customers. The detailed descriptions of each of the Group's business segment provided above indicates the geographic areas in which each operates. A summary of the businesses and/or activities carried out by the Group by geographic areas is provided below:

- Spain Herba's rice business.
- * Rest of Europe essentially the businesses of Herba, Panzani (with Monterrat) and Garofalo.
- USA the Riviana (with RiceSelect), American Rice, NWP and Olivieri businesses.
- Rest of world essentially the rice business of Herba and some of the exports of Panzani, American Rice and Garofalo.

The breakdown of assets and revenue provided by geographic market below for continuing operations, without considering the place where the goods are produced, is provided in the next table:

Thousands of euros

7. DISCONTINUED OPERATIONS

At year-end 2015, the Group did not have significant amounts of non-current assets held for sale. No operations were classified as discontinued operations in 2015.

In the first half of 2014, following the sale at the end of December 2013 of the German dry pasta business (Birkel), the buyer of this business presented certain claims. In order to resolve the controversy between the two parties, in early July 2014, the purchase agreement (signed in December 2013) was amended; the most notable changes were a reduction in the sale price of 3,400 thousand euros and a new timeline for settlement of the deferred portion of the purchase price. The accounting impact of this amendment was recognized in 2014: specifically, the Group recognized a pre-tax loss of 3,123 thousand euros and a tax effect of 900 thousand euros, implying an after-tax loss of 2,223 thousand euros.

8. OTHER INCOME AND EXPENSE

8.1 OTHER OPERATING INCOME

	2015	2014
		:
Government grants (related to income and grants)	845	1,266
Other operating income	9,062	11,906
Gains on disposal of non-current assets	388	398
Gains on disposal of investment properties	5,844	7,078
Reversal of non-current asset impairment provisions	844	828
Other income	1,034	5,455
Reversal of provisions recognized in connection with business sale reps and warranties	0	1,583
Reversal of provisions for other lawsuits	356	3,297
Other less significant ítems	678	575
	18,017	26,931

Other income includes the following less-recurring items in 2015:

- ❖ A gain of 388 thousand euros recognized on the sale of items of property, plant and equipment.
- Income from the reversal of impairment provisions recognized on items of property, plant and equipment in the amount of 844 thousand euros (note 10).
- A gain of 5,844 thousand euros on the sale of investment properties (one property owned by one of the Group's British companies and another in Houston USA).
- Income from the reversal of provisions for pensions in the amount of 85 thousand euros and income from the reversal of provisions for lawsuits of 271 thousand euros.
- The rest of other operating income relates to grants and minor other operating items.

Other income includes the following less-recurring items in 2014:

A gain of 236 thousand euros recognized on the sale of items of property, plant and equipment and a gain of 162 thousand euros on the sale of greenhouse gas emission allowances.

- A gain of 7,078 thousand euros obtained on the sale of investment properties (part of the site of the former Houston factory and the land in the agricultural estate of Group subsidiary South LaForche - 50%-owned by the Riviana Group - which had been previously dissolved in favor of its shareholders).
- Income generated by the reversal of provisions for lawsuits ruled in favor of the Group of 2,921 thousand euros, the reversal of provisions for pensions of 376 thousand euros and other dispute-related income in the amount of 1,583 thousand euros.
- Income generated by the partial reversal of an impairment provision recognized on one of the US pasta brands in the amount of 828 thousand euros, thanks to that brand's subsequent revaluation.

The rest of other operating income relates to grants and sundry other operating items.

8.2 OTHER OPERATING EXPENSES

	2015	2014
External expenditure	(370,973)	(313,285)
Advertising expenditure	(87,717)	(72,414)
Research and development expenses	(1,768)	(1,548)
Taxes/levies other than corporate income tax	(12,121)	(11,051)
Losses on the sale of non-current assets and impairment provisions	(438)	(5,401)
Other provisions and charges recognized	(11,609)	(18,223)
Provisions for lawsuits and disputes	(1,642)	(10,395)
Industrial and logistics restructuring charges	(7,100)	(5,415)
New business and investment acquisition costs	(1,515)	(1,374)
Other less significant ítems	(1,352)	(1,039)
	(484,626)	(421,922)

Other operating expenses include the following less-recurring items in 2015:

- * A loss of 438 thousand euros recognized on the derecognition or sale of several pieces of industrial equipment and plant.
- Expenses and additions to provisions totaling 1,642 thousand euros as a result of certain contingencies and lawsuits in process.
- Industrial and logistics restructuring costs at several centers totaling 7,100 thousand euros. This figure includes the cost of termination benefits, logistical restructuring of warehouses and other associated costs.
- * Expenses incurred in acquiring new businesses and investments not eligible for capitalization in the amount of 1,515 thousand euros.

Other operating expenses include the following less-recurring items in 2014:

- * A loss of 1,278 thousand euros recognized on the derecognition or sale of several pieces of industrial equipment, items of plant and software.
- ❖ An impairment loss of 1,246 thousand euros recognized on industrial assets at the rice factory in Egypt.
- ❖ An impairment loss of 881 thousand euros recognized on a rice brand in Germany.
- Impairment losses recognized on certain Spanish investment properties in the amount of 1,994 thousand euros.

- Expenses and additions to provisions totaling 10,395 thousand euros as a result of certain contingencies and lawsuits in process.
- Industrial and logistics restructuring costs at several centers totaling 5,415 thousand euros. This includes the cost of redundancies, expenses in respect of factories closed in prior years and logistical restructuring at warehouses.
- * Expenses incurred in acquiring new businesses and investments not eligible for capitalization in the amount of 1,374 thousand euros.

8.3 FINANCE INCOME AND COSTS

	2015	2014
Finance costs		
Third-party borrowings	(7,082)	(8,031)

MOVEMENTS IN 2015

The most significant movements under this heading in 2015:

- An increase of 3,055 thousand euros in relation to new intangible assets, mainly software purchases.
- ❖ An increase of 12,870 thousand euros due to exchange gains.
- ❖ A decrease of 4,292 thousand euros on account of amortization charges for the year. There were no movements under the impairment provisions account.
- ❖ An increase of 20,745 thousand euros due to business combinations.
- In 2015, the Group also derecognized intangible assets with a carrying amount of 15 thousand euros and transferred assets with a carrying amount of 123 thousand euros.

MOVEMENTS IN 2014

The most significant movements under this heading in 2014:

- An increase of 1,669 thousand euros in relation to new intangible assets, mainly software purchases.
- ❖ An increase of 26,687 thousand euros due to exchange gains.
- Decreases of 4,383 thousand euros due to amortization charges, an impairment provision of 881 thousand euros on a rice brand in Germany and an increase of 828 thousand euros due to the reversal of an impairment provision previously recognized against a US pasta brand.
- ❖ An increase of 35,197 thousand euros due to business combinations.
- In 2014 the Group also derecognized intangible assets with a carrying amount of 482 thousand euros.

TRADEMARKS

The trademarks and patents included within intangible assets were either acquired directly or via business combinations. Virtually all of these assets have been assessed as having an indefinite useful life and have been valued using the cost model.

The Group tested its most significant brands for impairment in 2015 and 2014 (these tests were mostly performed by independent experts - Duff & Phelps American Appraisal), as a result of which exercise the following brand-related carrying amounts were allocated to the following cash-generating units:

Other indefinite-liv	ed trademarks and patents		2,598	(1,986)	612	4		(521)	97	2,634	(2,442)	192
			435,950	(10,967)	424,983	20,716	0	(521)	12,835	469,475	(11,462)	458,013

At year-end 2015, there are three trademarks with an original aggregate cost of 25,721 thousand euros (year-end 2014: 25,240 thousand euros) that have been written down for impairment by 9,020 thousand euros in total (year-end 2014: 8,981 thousand euros).

The recoverable amount of these trademarks, was determined using cash flow projections that are typically derived from budgets that cover a five-year horizon and are then projected for another five years (using the "royalty relief" method).

The rates used to discount these assets' projected cash flows in 2015 range between 7.2 and 7.9% in Canada and the US (2014: 6.9 - 7.1%); 6.6% in France (5.9%); 7.5% in Spain (6.8%); 7.3% in Italy and 8.3% in Portugal (7.8%), depending on the business market of each brand or cash-generating unit. Cash flows beyond the initial 5-year budget horizon were extrapolated using the corresponding units' medium to long-term growth rates, which are typically between 1.3% and 2.4% (0.0% - 2.0%), depending on the business.

With respect to the assumptions used to calculate these trademarks' value in use, management believes that no reasonably-possible change in the key assumptions used would cause their carrying amounts to exceed their recoverable amounts, with the exception of those already deemed impaired. More specifically, neither a 10% increase in the discount rates nor a 10% variation in the royalty rates used would trigger significant impairment charges.

10. PROPERTY, PLANT AND EQUIPMENT

The reconciliation of the carrying amount of the Group's property, plant and equipment at the beginning and end of 2015 and 2014, detailing the depreciation and impairment provisions recognized and movements recorded in each year, is provided below (in thousands of euros):

The Group's policy is to take out all the insurance policies deemed necessary to cover risks that could affect these assets.

Additions under 'PP&E under construction' include the amounts corresponding to projects related to the production of new product ranges and, in general, the upgrade of the quality of the Group's industrial processes, products and its assets' environmental performance.

Note that in relation to certain investments made by the various Group companies in 2014 and prior years, the Group obtained grants, the amounts of which are disclosed in note 19.

No material items of property, plant or equipment are not used for business purposes.

MOVEMENTS IN 2015

The most significant movements under this heading in 2015:

- ❖ An increase of 22,484 thousand euros due to exchange gains.
- ❖ A decrease of 64,050 thousand euros on account of depreciation charges for the year.
- Additions of 79,112 thousand related to capital expenditure, essentially investments in technical upgrades and new facilities at the Group's factories.
- An increase of 37,466 thousand euros due to business combinations (note 5).
- In 2015, the Group also derecognized assets with a carrying amount of 461 thousand euros.
- An increase of 844 thousand euros on account of the reversal of asset impairment charges (note 8.1).

MOVEMENTS IN 2014

During 2014, the most significant movements under this heading in 2014:

- ❖ An increase of 27,539 thousand euros due to exchange gains.
- A decrease of 55,560 thousand euros on account of depreciation charges for the year.

- * Additions of 66,800 thousand related to capital expenditure, essentially investments in technical upgrades and new facilities at the Group's factories.
- ❖ An increase of 64,395 thousand euros due to business combinations.
- In 2014, the Group also derecognized assets with a carrying amount of 1,730 thousand euros.
- A decrease of 1,246 thousand euros on account of asset impairment charges for the year.

In 2015, the Group recognized 64,050 thousand euros of depreciation charges in respect of its property, plant and equipment (2014: 55,560 thousand euros) and 0 (2014: 1,246 thousand euros) of impairment losses on these assets in its consolidated income statement.

The derecognition of items of property, plant and equipment in 2015 generated losses, on the one hand, of 438 thousand euros (2014: 1,278 thousand euros) and gains of 388 thousand euros (2014: 236 thousand euros), on the other.

11. INVESTMENT PROPERTIES

The reconciliation of the carrying amount of the Group's investment properties at the beginning and end of 2015 and 2014, detailing the depreciation and impairment provisions recognized and movements recorded in each year, is provided below (in thousands of euros):

CARRYING AMOUNTS

	LAND	BUILDINGS	TOTAL
Balance at December 31, 2013	24,364	8,775	33,139
Balance at December 31, 2014	24,072	6,760	30,832
Balance at December 31, 2015	23,941	5,986	29,927

BALANCE AT DECEMBER 31, 2015	24,525	15,781	40,306	(584)	(9,795)	(10,379)

The depreciation charge recognized in 2015 amounted to 67 thousand euros (2014: 68 thousand euros), while the impairment provisions recognized totaled zero thousand euros (2014: 1,994).

The most significant movements in 2015 correspond to the sale of properties by two Group companies (note 8.1).

The most significant movements under this heading in 2014 included the additions arising from the dissolution of Group associate South LaForche and its subsequent sale, the sale of part of the site of the former factory in Houston (US) and impairment provisions recognized on certain investment properties in Spain.

There are no restrictions on the realizability of the Group's investment properties or the remittance of income or proceeds of disposal.

Investment properties are initially recognized at their acquisition cost. The investment properties with the most significant fair values correspond to the sites on which dismantled factories were located and some unoccupied buildings in Spain and Portugal and another in Houston (US).

These properties' fair values represent the values at which the assets can be exchanged on the date of valuation between knowledgeable, willing parties in an arm's length transaction, in keeping with the International Valuation Standards.

In determining their fair value, the properties are valued individually and separately and not as part of a portfolio of properties. In some instances, the Group used the benchmark valuations provided by independent appraisers (updated internally as warranted), while in others it used comparable valuation methodology to reflect the market paradigm and the prices at which assets with similar characteristics are being transacted, adjusting as needed for changes in economic circumstances arising since the comparable transaction dates. This effort is coordinated by the Asset Management Unit which, as indicated in note 6 above, is the business unit tasked with management and control of all of the properties that are not used in the Group's core business activities (investment properties), its remit being to remain abreast of their status, reduce costs and sell off those not used for industrial purposes after taking action to maximize their valuation prior to monetization. Against this backdrop, the inputs used to determine these properties' fair value should be deemed level 3 for IFRS fair value hierarchy purposes.

The fair value of the Group's investment properties at year-end 2015 was an estimated 87 million euros (year-end 2014: 97 million euros).

12. FINANCIAL ASSETS

The breakdown of this balance sheet heading at year-end 2015 and 2014 (in thousands of euros) is as follows:

	12-31-2015			12-31-2014			
	TOTAL	NON-CURRENT	CURRENT	TOTAL	NON-CURRENT	CURRENT	
Assets held for trading	1,715	1,715	0	1,700	1,700	0

AVAILABLE-FOR-SALE FINANCIAL ASSETS

1. Investment in Deoleo, S.A.

This investment was fully sold during the first half of 2014. The investment in Deoleo Corporación, S.A. was made in December 2010, in the amount of 47,756 thousand euros, when the Company acquired 95,510,218 of this entity's shares as part of a rights issue at a cost of 0.50 euros per share. This investment gave the Group an 8.272% ownership interest in Deoleo in the wake of equity issues undertaken in 2013.

This financial investment was carried at fair value and changes therein were recognized in equity insofar as the investment was neither impaired nor sold, at which time the fair value gains or losses would be reclassified to profit or loss.

This entire shareholding was sold down in a series of transactions during the first half of 2014 for an overall sum of 40,267 thousand euros. The pre-tax gain on the sale of this investment, which was recognized in the consolidated income statement under finance income in 2014, was 14,003 thousand euros (the reclassification of the pre-tax fair value gain recognized directly in equity in 2013 in the amount of 18,626 thousand less the loss generated on its sale in 2014 with respect to its carrying amount at year-end 2013).

2. Investment in Biosearch, S.A.

This financial investment is carried at fair value and changes therein are recognized in equity insofar as the investment is neither impaired nor sold, at which time the fair value gains or losses would be reclassified to profit or loss.

At year-end 2014, this investment corresponded to 1,801,000 shares of Biosearch, S.A., equivalent to a 3.121% ownership interest. At that date, this investment's fair value, based on its share price, was 693 thousand euros (0.385 euros per share).

The Group did not sell any shares of Biosearch, S.A. in 2015, so that at year-end, this investment continued to correspond to 1,801,000 shares of Biosearch, S.A. and a 3.121% ownership interest. At year-end 2014, the fair value of this investment, based on its share price, was 846 thousand euros, equivalent to 0.470 euros per share; in keeping with prevailing accounting standards, this increase in value from year-end 2014 was recognized directly in equity in the amount of 110 thousand euros (a 153 thousand euro gross profit less the corresponding tax effect of 43 thousand euros).

LOANS TO THIRD PARTIES

The year-on-year decrease in the balance of "loans to third parties" in 2015 is the result of repayments collected in accordance with the loan schedules, as detailed below. The outstanding balance relates primarily to:

- The deferred portion of the purchase price due from the sale of the Nomen brand under the agreement reached in 2012; this agreement was renegotiated in September 2014 to extend the collection term by a further two years and reduce the interest rate from 4.2% to 3.4%. The non-current portion of this vendor loan is 23,977 thousand and the current portion, 1,436 thousand euros. This loan accrues interest at a rate of 3.4% and the last instalment is due in September 2027. The Nomen trademarks have been pledged as collateral to guarantee repayment of this loan.
- The deferred portion of the purchase price for the assets of the German pasta business under the terms of the agreement reached in December 2013 and as amended in July 2014; this non-current portion of this vendor loan is 8,816 thousand euros and the current portion, 1,809 thousand euros. This loan accrues interest (between explicit and implicit interest) at a rate of 2.80%. The first instalment of the long-term tranche is due on March 31, 2017; it will be repaid in quarterly instalments from then until June 30, 2021. The trademarks sold have been pledged as collateral against the vendor loan and would be returned to the seller in the event of non-payment.

Of this heading, 35,880 thousand (year-end 2014: 38,382 thousand euros) is denominated in euros and 1,012 thousand euros (850 thousand euros) is denominated in US dollars.

The maturity schedule for these non-current loans is:, 3,685 thousand euros in 2017, 3,742 thousand euros in 2018, 3,990 thousand euros in 2019, 4,058 thousand euros in 2020 and the remaining 18,165 thousand euros in 2021 and beyond.

13. INVESTMENTS IN ASSOCIATES

The movements under this heading in 2015 and 2014 (in thousands of euros) are shown below:

ASSOCIATE

		INCREASES INVESTMENT		DIVIDENDS Paid	PROFIT For the Year	EXCHANGE Differences		BALANCE AT 31-12-15

There was no significant movement under this heading in 2015. The most significant change in 2014 was the dissolution of South LaForche, an associate of the Riviana Group.

The associates of Riviana Foods, Inc. do not have material amounts of assets, income, borrowings or employees. The Ebro Foods Group has not extended guarantees of material amount to any of its associates.

The most significant figures for the Scotti Group, using estimated financial statements at December 31, 2015, are as follows:

	12-31-14	12-31-15
		:
Trademarks, other intangible assets and goodwill	46,799	46,557

The Group undertook several business combinations in 2015 and 2014. Note 5 outlines these transactions in detail. Other significant movements in 2015 and 2014 include increases due to exchange gains on goodwill allocated mainly to the Group's US and Canadian subsidiaries and the impairment loss recognized against the American Rice (ARI) business, as detailed below.

The goodwill balances were generated by business combinations. These asset were tested for impairment in 2015 and 2014 (by an independent expert, American Appraisal); the resulting values were allocated to the cash-generating units or groups of cash-generating units indicated in the table above.

To test these assets for impairment, the Group calculated the value in use of each cash-generating unit by discounting the associated cash flows, generally projected for a period of five years, and their terminal value, in turn calculated by projecting the last year's cash flows by a perpetuity growth rate. The cash flow projections were based on historical information and the best estimates of the managers of each CGU. The resulting CGU fair values were additionally cross-checked using comparable multiple methodology.

The growth rates used to extrapolate the cash flow projections beyond the projection horizon and the discount rates applied to the cash flow projections for the most important CGUs in 2015 (2014) were:

- ❖ In the European rice and pasta businesses, a discount rate of 6.0% on average (2014: 5.0%) and a perpetuity growth rate of between 1.7% and 2% (1.0% 1.3%) were used. In Spain, the discount rate used was 6.5% (5.8%) and the growth rate applied was 1.5% (1.3%). In Italy, the discount and growth rates were 6.3% and 1.3%, respectively.
- ❖ In the US rice and pasta businesses, a discount rate of 6.9% on average (6.1%) and a perpetuity growth rate of between 2.1% and 2.4% (0.4 2.0%) were used.

The key assumptions used to value each CGU include the average rate of sales revenue growth modeled, the compound average annual rate of growth in EBITDA, the trend in working capital expressed as a number of days of sales and average annual capital expenditure, modeled as a percentage of projected EBITDA.

As for the assumptions used to calculate the recoverable amount of the various CGUs to which goodwill has been assigned, management believes that no reasonably-possible change in the key assumptions used would cause their carrying amounts to exceed their recoverable amounts. More specifically, neither a 20% increase in the discount rates nor a 20% variation in the growth rates used would trigger significant impairment charges. This sensitivity analysis is applicable to all of the CGUs itemized in the table above, with the exception of the "ARI Group (US)" CGU, whose goodwill has been written down in full, as outlined below.

Elsewhere, as noted in the 2014 consolidated financial statements, the profitability of the "ARI Group (US)" CGU declined very significantly in 2013 and 2014, due to the impact on raw material and manufacturing costs of the ongoing drought in the Texas region. This, coupled with an increase in the discount rate applied (6.0% in 2013 and 6.9% in 2014), implied, as of year-end 2014, the need to recognize an additional impairment loss against this CGU's goodwill in the amount of 11,148 thousand euros, leaving goodwill at this CGU of 3,430 thousand euros as of that reporting date. In 2015, management decided to write down the rest of this goodwill balance for impairment: accordingly, the 2015 consolidated income statement recognizes an impairment loss of 3,430 thousand euros in this respect.

In addition, in 2015, the Group recognized a 600 thousand euro impairment loss against the goodwill allocated to its subsidiary, Azucarera Energías, S.A., which was dissolved and liquidated in 2015.

15. INVENTORIES

The breakdown of inventories at year-end 2015 and 2014 (in thousands of euros):

ITEM	12-31-15	12-31-14
		•
Goods held for resale	12,924	17,252
Raw materials	201,765	191,972
Consumables and replacement parts	7,047	9,032
Containers	28,616	27,430
Work in progress	22,158	15,516
Finished godos	150,800	148,315
By-products and waste	3,334	3,312
Prepayments to suppliers	19,334	19,712
TOTAL GROSS CARRYING AMOUNT OF INVENTORIES	445,978	432,541
Inventory impairment provision	(7,399)	(4,434)
TOTAL CARRYING AMOUNT OF INVENTORIES	438,579	428,107

At year-end 2015, a portion of the balance of prepayments to suppliers, specifically 18,123 thousand euros (year-end 2014: 17,978 thousand euros) corresponds to payments made to rice-growers and rice-suppliers; in this respect, the Group has entered into firm commitments for the purchase of rice from rice growers, cooperatives and exporters totaling 79,135 thousand euros (year-end 2014: 88,462 thousand euros). In addition, the Group has entered into raw material purchase commitments in the US, Canada, France and Italy totaling 117,284 thousand euros (year-end 2014: 124,066 thousand euros).

The net provision for inventory impairment recognized in 2015 was 5,736 thousand euros (2014: 2,909 thousand euros), while 3,024 thousand euros of previously recognized provisions were utilized (3,357 thousand euros); exchange losses on inventories amounted to 253 thousand euros (265 thousand euros in 2014).

16. TRADE AND OTHER RECEIVABLES

The breakdown of this heading at year-end 2015 and 2014 (in thousands of euros):

ITEM	12-31-15	12-31-14
Due from customers	372,823	349,117
Due from associates	563	1,054
Sundry accounts receivable	8,237	5,896
Provisions for impairment	(7,559)	(8,673)
TOTAL	374,064	347,394

For terms and conditions relating to related-party receivables, refer to note 27. Trade receivables are non-interest bearing and are generally on terms of 30 to 85 days. As at December 31, 2015, the ageing analysis of trade receivables is as follows:

AGEING ANALYSIS

	GROSS CARRYING Amount	PROVISION FOR IMPAIRMENT	CARRYING Amount
Less than 3 months	363,258	(1,254)	362,004
Between 3 and 6 months	4,378	(998)	3,380
Between 6 and 12 months	1,703	(1,105)	598
Between 12 and 18 months	408	(408)	0
Between 18 and 24 months	408	(408)	0
Over 24 months	2,668	(2,668)	0
TOTAL	372,823	(6,841)	365,982

No material amounts of trade and other receivables were past due at year-end and not impaired.

In 2015, the Group recognized net provisions for the impairment of trade and other receivables of 1,370 thousand euros (2014: 715 thousand euros), utilized 3,103 thousand euros (2014: 612 thousand euros), added 348 thousand euros as a result of business combinations and recognized exchange losses on receivables of 271 thousand euros (287 thousand euros).

17. CASH AND SHORT-TERM DEPOSITS

The breakdown of this heading at year-end 2015 and 2014 (in thousands of euros):

ITEM	12-31-15	12-31-14
Cash on hand and at banks Short-term deposits and cash equivalents	206,994 4,644	191,477 802
TOTAL	211,638	192,279

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates. The fair value of the Group's cash and cash equivalents was 211,638 thousand euros at year-end 2015 (192,279 thousand euros at year-end 2014). Throughout the year the Group companies invested their occasional cash surpluses in repos and equivalent securities in order to generate a return on these balances. All of these investments are denominated in euros, other than a small balance denominated in US dollars. The average annual return earned on these investments in 2015 was around 1.00% (1.75%).

18. SHARE CAPITAL, RESERVES, EARNINGS PER SHARE AND DIVIDENDS

18.1 CAPITAL AND RESERVES

Share capital

The Company's share capital consists of 153,865,392 fully subscribed and paid bearer shares with a par value of 0.60 euros each. Its shares are listed on the Spanish stock exchanges.

The shareholders with direct or indirect interests of more than 3% in the capital of Ebro Foods, S.A. at December 31, 2015 (2014), based on information furnished to Spain's securities market regulatory, the CNMV, and to Ebro Foods, S.A., are as follows:

- Instituto Hispánico del Arroz, S.A.: direct holder of 13,790,336 shares (13,790,336), representing a 8.963% interest (8.963%) and indirect holder, through Hispafoods Invest, S.L., of 10,707,282 shares (10,702,282), representing a 6.959% interest (6.959%). In total this shareholder holds 24,497,618 shares (24,497,618), representing a 15.921% (15.921%) shareholding.
- Sociedad Anónima Damm: indirect holder, via Corporación Económica Damm, S.A., of 15,426,438 shares (15,426,438), representing a 10.026% interest (10.026%).
- Sociedad Estatal de Participaciones Industriales: indirect holder, via Alimentos y Aceites, S.A., of 15,940,377 shares (15,940,377), representing a 10.36% interest (10.36%).
- Corporación Financiera Alba: indirect holder, via Alba Participaciones, S.A., of 15,400,000 shares (15,400,000), representing a 10.009% interest (10.009%).
- Juan Luis Gómez-Trenor Fos: indirect holder, via Empresas Comerciales e Industriales Valencianas, S.L., of 10,924,443 shares (10,924,443), representing a 7.1% interest (7.1%).

Share premium

As for the share premium, the Consolidated Text of the Spanish Corporate Enterprises Act permits the use of the share premium account balance to increase share capital and provides no specific limitation with respect to its availability. Virtually all of the share premium account was distributed in 2009 by means of the distribution on an in-kind special dividend paid in own shares.

Restricted reserves

Spanish enterprises that generate a profit are required to earmark 10% of net profit for the year to a legal reserve until such reserve is equivalent to 20% of share capital. The Legal Reserve cannot be distributed except in the event of dissolution but it can be used to offset losses insofar as other reserves are not available for this purpose, and to increase capital by the amount that exceeds 10% of capital after the increase. The Parent had fully endowed its legal reserve at both year-ends.

As for the restrictions on the reserves of the Group's subsidiaries, it is worth noting the existence of legal reserves at the Spanish subsidiaries and some of the international subsidiaries totaling approximately 20.4 million euros (20.2 million euros at year-end 2014) that are subject to the same regime as the Parent's legal reserve, as detailed above. The portion of such reserves arising on consolidation is included under retained earnings.

Consolidated retained earnings includes 38,531 thousand euros (year-end 2014: 38,531 thousand euros) corresponding to Herba Foods S.L. In addition, certain foreign subsidiaries have retained earnings which have not been distributed since consolidated within the Ebro Group. In both instances, the distribution of such retained earnings is contingent upon payment of the corresponding income tax or withholdings. Note that the taxable event - income tax or withholdings - would accrue whenever such distribution is ratified, something not expected to occur in the short or medium term.

Translation differences - foreign exchange translation differences reserve

The foreign exchange translation differences reserve is used to recognize the exchange differences arising from the translation of the financial statements of foreign subsidiaries. It is also used to recognize hedges of net investments in these entities.

The breakdown of translation differences at year-end 2015 and 2014 by company (in thousands of euros) is provided below:

	12-31-15	12-31-14
Herba companies	5,414	222
RIVIANA Group (US)	36,798	3,057
ARI Group (US)	29,370	16,528
NWP Group (US)	41,784	20,424
Ebro Alimentación Mexico	(57)	(25)
Garofalo Group (Italy) - International business	26	18
TOTAL	113,335	40,224

Own shares

In 2015, the Parent had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meetings held on June 15, 2011 and June 3, 2015 for a period of five years (as duly notified to the CNMV in keeping with prevailing legislation). In 2015, the Company bought back 27,354 shares, sold 22,171 and delivered 24,646 own shares to employees. The Company did not hold any own shares as treasury stock at December 31, 2015.

In 2014, the Parent similarly had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meeting held on June 15, 2011 for a period of five years (as duly notified to the CNMV in keeping with prevailing legislation). In 2014, the Company bought back 858,506 shares, sold 814,939 and delivered 24,104 own shares to employees. At December 31, 2014, the Company held 19,463 own shares as treasury stock, equivalent to 0.013% of share capital at that reporting date. Management had not established any specific purpose for these own shares at year-end 2014.

18.2 EARNINGS PER SHARE

Basic EPS amounts are calculated by dividing the profit for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to ordinary equity holders of the parent(after adjusting for interest on the non-cumulative redeemable and convertible preference shares, of which Ebro Foods, S.A. did not have any at either year-end) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares (Ebro Foods, S.A. did not have any dilutive potential ordinary shares at either year-end).

The following table reflects the income and share data used in the basic and diluted EPS computations:

	12-31-15	12-31-14
Profit from continuing operations attributable to ordinary equity holders of the parent	144,846	148,236
Loss from discontinued operations attributable to ordinary equity holders of the parent	0	(2,223)
Profit attributable to ordinary equity holders of the parent	144,846	146,013
Interest on non-cumulative convertible and redeemable preference shares	0	0
Profit attributable to ordinary equity holders of the parent adjusted for the effect of	144.846	146.013
dilution (non-cumulative convertible and redeemable preference shares)	144,040	140,013

	2015	2014
	THOUSANDS	THOUSANDS
Weighted average number of ordinary shares for basic EPS (*)	153,883	153,787
Effects of dilution from:		
Share options	0	0
Redeemable preference shares	0	0
Weighted average number of ordinary shares adjusted for the effect of dilution	153,883	153,787

^(*) Takes into account the weighted average effect of changes in treasury share transactions during the year.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorization of these financial statements.

18.3 DIVIDENDS

Distribution of the dividends approved at the Annual General Meeting of June 3, 2015 at which the Company's shareholders ratified the motion to pay a cash dividend with a charge against unrestricted reserves of 0.66 euros per share (an ordinary dividend of 0.51 euros per share and a special dividend of 0.15 euros per share), payable in the course of 2015. The ordinary dividend was paid out in three equal instalments of 0.17 euros per share on April 1, June 29 and October 2, 2015. The special dividend was paid out in a single instalment of 0.15 euros per share on December 22, 2015.

DIVIDENDS DECLARED, PAID AND PROPOSED	2015	2014
Dividends paid:		
Final dividend paid in 2014: 0.51 euros (2013: 0.50 euros)	78,472	76,932
Special 2014 dividend paid in 2015: 0.15 euros	23,079	0
	101,551	76,932
Proposed dividend subject to approval at the Annual General Meeting		
(not recognized as a liability at year-end)		•
2015 dividend proposal: 0.54 euros (2014: 0.66 euros)	83,088	101,551
	83,088	101,551

19. DEFERRED INCOME

This heading essentially includes grants relating to assets, greenhouse gas emission allowances received (ceasing in 2013) and other items of deferred income that are not individually material. The movements under this heading in 2015 and 2014:

	GOVERNMENT Grants		EMISSION Allowances		OTHER DEFERRED INCOME		TOTAL	
	12-31-15	12-31-15 12-31-14 12		12-31-14	12-31-15	12-31-14	12-31-15	12-31-14
OPENING BALANCE	3,402	824	73	203	934	1,021	4,409	2,048
Additions due to business combinations	0	3,072	0	0	0	0	0	3,072
Decreases due to disposals	0	0	0	0	0	0	0	0
Grants received	381	17	0	0	0	0	381	17
Additions due to GHG allowances	0	0	0	0	0	0	0	0
Other increases/decreases	53	119	(10)	(130)	(27)	(206)	16	(217)
Translation differences	5	14	0	0	107	119	112	133
Reclassified to profit or loss from continuing operations	(500)	(644)	0	0	0	0	(500)	(644)
CLOSING BALANCE	3,341	3,402	63	73	1,014	934	4,418	4,409

The year-end balances mainly comprise government grants relating to assets awarded to various Group companies in relation to certain fixed asset investment projects (to date these companies have satisfied all the conditions attached to their grant).

The breakdown of grants by maturity is as follows:

GRANTS RELATING TO ASSETS

	PENDING RELEASE TO PROFIT OR LOSS			
	< 1 YEAR	2-5 YEARS	> 5 YEARS	TOTAL
Breakdown of closing balance by maturity	270	972	2,099	3,341

20. PROVISIONS FOR PENSIONS (POST-EMPLOYMENT BENEFITS) AND SIMILAR OBLIGATIONS

The reconciliation of the opening and closing balances under this heading (in thousands of euros) is as follows:

	12-31-15	12-31-14
	TOTAL	TOTAL
OPENING BALANCE	42,144	35,931
Translation differences	1,661	889

Panzani Group (France)				Yes (a)	Yes (a)	
Monterrat (Francia)				Yes (a)		
Boost (Herba) (Belgium)	Yes (c) 2007	Yes (c) 2006				Yes (a)
BPB (Belgium)						Yes (a)
Mundiriso (Herba) (Italy)						Yes (a)
Herba Bangkok and Ebro India						Yes (a)
Garofalo (Italy)						Yes (a)
Euryza (Herba) (Germany)		Yes (a)				
S&B Group (Herba) (UK)	Yes (d)	Yes (d)				
Ebro Group (Germany)		Yes (a)		Yes (a)		
Lassie Group (Netherlands)	Yes (e)	Yes (e)				
Herba Ricemills (Spain)	<u> </u>			Yes (a)		

⁽a) Obligations not externalized. Managed and provided for in-house. Except for Garofalo (Italy), which has externalized a portion of its obligations.

The next section outlines the most significant obligations on the basis of their relative materiality with respect to the overall obligation and/or because their specific circumstances warrant their individual disclosure.

20.1 RETIREMENT BONUSES AND SIMILAR OBLIGATIONS

The breakdown by company or business is as follows:

	12-31-15	12-31-14
Panzani France Group (Panzani)	14,326	13,954
Herba Rice Group (Herba)	1,077	923
Garofalo (Italy)	529	703
Riviana American Group (Riviana)	558	494
Ebro Group (Germany)	189	189
Ebro Foods, S.A.	157	161
Other minor obligations	120	167
SUBTOTAL	16,956	16,591

20.1.1 Ebro Foods, S.A.

The balance at year-end 2015 in respect of Ebro Foods, S.A. totals 157 thousand euros (year-end 2014: 161 thousand euros) and corresponds to the provision for the potential obligation to provide long-service bonuses to some of its employees. The Group is not legally required to externalize this obligation. The expense recognized in this respect was 7 thousand euros in 2015 (2014: 61 thousand euros).

⁽b) These obligations are managed externally. The administration, management and investment decision-making with respect to these assets are performed by a committee that is independent from the Company's management.

⁽c) These became defined contribution obligations in 2007.

⁽d) Obligations to current employees were switched to a defined contribution benefit arrangement in 2007, while former employees continue to receive a defined benefit scheme.

⁽e) These became defined contribution obligations in 2014.

20.1.2 Panzani Group companies

The Panzani Group companies have obligations to their employees, mainly in respect of retirement bonuses (provisions of 12,759 and 12,825 thousand euros at year-end 2015 and 2014, respectively) and long-service bonuses (provisions of 1,567 - including the portion in respect of Monterrat, consolidated for the first time in 2015 - and 1,129 thousand euros at year-end 2015 and 2014, respectively). These provisions were recognized based on actuarial calculations performed internally. The related net expenditure recognized in 2015 amounted to 797 thousand euros having credited 455 thousand euros directly in equity as actuarial gains (in 2014 the Group recognized expenditure of 2,571 thousand, 1,427 thousand euros of which was charged directly against equity as actuarial losses). These provisions are funded in-house, albeit not by specific assets. The interest rate applied in 2015 was 2% (1.50% in 2014). The increase in this provision in 2014 was mainly due to the impact of the updated discount rate applied (with respect to that applied in 2013).

20.1.3 Herba Group companies

The collectives bargaining agreements applicable at the subsidiaries in Italy, Belgium, Thailand and India include termination benefit obligations (voluntary or otherwise) for their employees. These provisions were recognized based on actuarial calculations performed internally in some instances and externally in others. The related provision at year-end 2015 amounted to 813 thousand euros (851 thousand euros at year-end 2014). Expenditure in 2015 was 70 thousand euros (2014: 174 thousand euros).

In addition, some Herba Group subsidiaries (S&B Herba in the UK, Boost in Germany, Danrice in Denmark, TBA Suntra UK and Grupo Ebro Netherland from 2014) have defined contribution pension plans for some of their employees under which they make an annual contribution based on a percentage of qualifying employees' salaries. Expenditure in 2015 was 1,401 thousand euros (2014: 1,135 thousand euros).

Lastly, in keeping with the rice sector's collective bargaining agreement, Herba Ricemills, S.L. has retirement bonus obligations that have been externalized under an insurance policy; the related provision at year end 2015 was 264 thousand euros (72 thousand euros at year-end 2014). The related expenditure recognized in 2015 amounted to 201 thousand euros (2014: 37 thousand euros), of which 136 thousand euros (2014: nil) was charged directly against equity as actuarial losses.

20.1.4 Garofalo (Italy)

The applicable collective bargaining agreement includes termination benefit obligations (voluntary or otherwise) for employees. This obligation was externalized in 2008; the provision for the obligation funded internally and accrued until the date of externalization continues to be recognized through settlement. The provision is updated annually on the basis of external actuarial calculations. The related provision at year-end 2015 amounts to 529 thousand euros (703 thousand euros at year-end 2014). The discounting of this provision implied a finance cost of 11 thousand euros in 2015 (2014: 10 thousand euros), actuarial gains credited directly to equity of 31 thousand euros (actuarial losses charged against equity of 91 thousand euros in 2014) and payments totaling 154 thousand euros (2014: 41 thousand euros). The expense recognized in 2015 in respect of the obligation externalized since 2008 amounted to 371 thousand euros (2014: 285 thousand euros).

20.1.5 Ebro Group (Germany)

This company's business was sold to third parties at the end of 2013 and all its employees' contracts were transferred to the buyer. Accordingly the provisions were set up and recognized for accounting purposes for the services accrued by those employees until December 31, 2013. In addition to the defined benefit obligations detailed below, these former Birkel Group companies accrued retirement bonus benefits until December 31, 2013 (giving rise to a provision of 189 thousand euros at both year-ends). This provision was recognized based on actuarial calculations performed in-house. This provision is funded in-house, albeit not by specific assets.

20.1.6 Riviana Foods, Inc. and NWP, Inc.

In addition to the defined benefit obligations detailed below, the Riviana and NWP companies offer their US employees voluntary contribution plans. These companies match their employees' contributions. Total expenditure in connection with these plans was 1,628 thousand euros in 2015 (2014: 1,505 thousand euros).

20.2 PENSION AND OTHER DEFINED BENEFIT OBLIGATIONS

The breakdown by company:

	12-31-15			•		
	PENSION Commitments	OTHER Commitments	TOTAL	PENSION Commitments	OTHER Commitments	TOTAL

Expected return on plan assets	4.35%	3,97%	3.95%	3.75%	2.2% - 4%	2% - 3.6%

In general these obligations relate to pension plans for most of the employees of the Riviana Group and the NWP Group and for certain employees of the European subsidiaries. At the S&B Group, these obligations now only correspond to former employees (the obligations in respect of current employees were transferred to defined contribution arrangements from January 1, 2006). The Riviana Group has not been adding new employees to this defined benefit scheme since February 2006. And at the Canadian subsidiary of the NWP Group (dry pasta division), the pension plan was liquidated by settling the benefits accrued by employees with effect until December 31, 2009.

In the case of the Riviana Group and the NWP Group, the other commitments relate to health insurance, prescription drug plans and life insurance provided to just some of their employees.

$21.1 \quad \text{PROVISIONS COVERING THE OUTCOME OF LAWSUITS RELATED TO THE SALES OF THE SUGAR AND DAIRY BUSINESSES \\$

The provisions recognized to cover the outcome of lawsuits related to the sales of the sugar business (sold in 2009) and the dairy business (sold in 2010) related to the reps and warranties extended to the buyers of these businesses under which an unfavorable ruling in these lawsuits would have the effect of reducing the sale-purchase prices for these business. Additions to this provision (or reversals thereof) imply an adjustment to the sale price and are accordingly recognized as a reduction (or increase) in profit in the year in which they are recognized. These lawsuits had been substantially resolved by year-end 2013, so that the related provision stood at zero.

In addition, in August 2014, Grupo Lactalis Iberia, S.A. passed the proposed ruling ("Proposed Ruling") in respect of the disciplinary proceedings initiated by the investigative unit of Spain's anti-trust authority, the CNMC, against Spain's leading dairy transformation companies, including Puleva Food, S.L., in connection with alleged anti-competitive practices between 2003 and 2013, on to Ebro Foods, S.A. Ebro Foods, S.A. sold Puleva Food, S.L. to Grupo Lactalis Iberia, S.A. in 2010; the related share purchase agreement (the "SPA") included a liability regime covering future contingencies. Under this regime, Ebro Foods, S.A., as seller, could be held liable for any fine imposed on Puleva Food, S.L. with respect to developments taking place prior to the sale.

The Proposed Ruling qualifies the conduct investigated as a very serious infraction of article 62.4.a) of Spain's Anti-Trust Act and recommends that the Board of the CNMC hand down the fine contemplated in article 63 of this same piece of legislation. Grupo Lactalis Iberia, S.A. and Puleva Food, S.L., in keeping with the procedure agreed upon in the SPA, duly presented statements outlining their pleas against the Proposed Ruling, categorically denying the conduct charges therein.

The CNMC ruling issued by its Board on February 26, 2015 was received on March 3, 2015. It hands down a fine against Puleva Food, S.L. of 10,270 thousand euros. Based on the information currently available, Ebro Foods, S.A. believes it has solid arguments for defending its position in these lawsuits and has so stated in the appeal lodged before the corresponding judicial bodies in September 2015. However, it continues to classify likelihood of an outflow of resources embodying economic benefits as probable; accordingly, the related provision recognized in the 2015 financial statements is unchanged with respect to the amount provided for in 2014.

21.2 STATUS OF OTHER LAWSUITS AND DISPUTES

In addition to the lawsuits outlined in section 21.1 above, at year-end 2015, the Group has recognized provisions for other lawsuits and disputes in the amount of 3,563 thousand euros (year-end 2014:1,633 thousand euros).

These provisions relate to court proceedings underway and other claims; in the directors' opinion, after taking appropriate legal advice from its in-house and external counsel, the outcome of these legal claims will not give rise to any significant liabilities beyond the amounts provided at year-end.

The breakdown of the maximum liability under these legal claims (items 21.1 and 21.2 above) is shown below (in thousands of euros):

	12-31-15	12-31-14
Tax and customs assessments signed under protest Judicial review contingencies Other claims and lawsuits	1,538 10,687 645	2,805 9,899 O
	12,870	12,704

22. FINANCIAL LIABILITIES

The breakdown of the items comprising financial liabilities (in thousands of euros) is provided in the table below:

FINANCIAL LIABILITIES

	12-3	1-15	12-31-14		
	NON-CURRENT	CURRENT	NON-CURRENT	CURRENT	
Bank loans	368,777	80	198,779	190,750	
Bank credit facilities		197,488		124,275	
Other financial liabilities	69,977	3,409	68,324	16,519	
Borrowings from associates	0	0	0	0	
Financial guarantees and deposits received	57	0	65	1	
TOTAL FINANCIAL LIABILITIES	438,811	200,977	267,168	331,545	

The breakdown of the Group's bank borrowings by business segment or company and the corresponding maturities (in thousands of euros):

BREAKDOWN OF BANK BORROWINGS BY SEGMENT OR COMPANY

	12-31-14	12-31-15	2017	2018	2019	2020	BEYOND
Of Ebro Foods, S.A	178,040	348,613	99,906	91,639	0	78,534	78,534
Of Herba Group	3,083	4,187	815	932	905	503	1,032

Of other companies	50	48					
CURRENT BANK BORROWINGS	315,025	197,568					
TOTAL BANK BORROWINGS	513,804	566,345					

The breakdown of the above borrowings by currency of denomination is as follows:

CURRENCY	12-31-15	12-31-14
EUR (euro)	285,676	242,297
USD (US dollar)	267,549	241,553
INR (Indian rupee)	10,997	23,614
EGP (Egyptian pound)	2,077	2,750
THB (Thailand baht)	0	619
HUF (Hungarian forint)	46	2,971
Others	0	0
TOTAL	566,345	513,804

The long-term bank loans denominated in US dollars were taken out to finance the investments in Riviana Inc (2004) and New Word Pasta Company (2006). These long-term loans are guaranteed by Group subsidiaries Herba Food, S.L., Herba Ricemills, S.L., Panzani SAS and Riviana Foods Inc. and correspond to:

- The bilateral loan agreement entered into in November 2006 and amended in April 2009, June 2010 and again in May 2015, in an initial amount of 190 million US dollars, reduced to 171 million US dollars in the wake of the last amendment. This loan is repayable in four six-monthly instalments of 42.75 million US dollars starting in May 2020. The annual rate of interest applicable to this dollar-denominated loan is benchmarked against 1-, 3-, 6- or 12-month LIBOR plus a market spread.
- A bilateral 3-year loan agreement arranged in June 2015, in the amount of 100 million US dollars, repayable at maturity. The annual rate of interest applicable to this dollar-denominated loan is benchmarked against 3-month LIBOR plus a market spread. This loan refinanced another bilateral loan arranged in November 2013, which was cancelled in 2015.

In 2014, the Group arranged two bilateral loans in the amounts of 50 and 30 million euros on May 27 and July 1, respectively. Both loans are denominated in euros and are repayable in a single bullet payment upon maturity. The 50 million euro loan matures on June 30, 2017. The 30 million euro loan originally fell due on June 25, 2015; however, the parties have availed of the option of agreeing up to two annual extensions to this facility's maturity. The annual rate of interest applicable to those loans is benchmarked against 3-month EURIBOR in the case of the 50 million euro loan and 12-month EURIBOR in the case of the 30 million euro loan, plus market spreads.

Lastly, on July 10, 2014, a 50 million euro loan was arranged with a bank; this facility is repayable in a single bullet payment on July 10, 2017. The annual rate of interest applicable to this loan is 3-month EURIBOR plus a market spread.

As for the rest of the Group's bank borrowings, at year-end 2015 the various companies had arranged unsecured credit facilities with an aggregate limit of 320 million euros (year-end 2014: 275 million euros), of which 167 million euros (124 million euros) had been drawn down.

The Panzani Group's credit facilities (with a drawdown limit at both year-ends of 80 million euros) are secured by its accounts receivable. Part of The Garofalo Group's credit facilities are secured by a mortgage over its factory and site in Italy for up to 62.7 million euros.

The Group also had the following reverse factoring, receivable discounting, and trade finance lines and had issued the following sureties and other bank guarantees at year-end:

CREDIT FACILITIES ARRANGED

AT DECEMBER 31, 2015	AMOUNT	AMOUNT	TOTAL
	Drawn Down	Undrawn	Limit
Reverse factoring, receivable discounting and trade finance	711	14,381	15,092
Bank guarantee lines (note 26)	42,270	73,188	115,458
CONSOLIDATED GROUP TOTAL	42,981	87,569	130,550

CREDIT FACILITIES ARRANGED

AT DECEMBER 31, 2014	AMOUNT	AMOUNT	TOTAL
	Drawn Down	Undrawn	Limit
Reverse factoring, receivable discounting and trade finance	9,138	39,570	5,000
Bank guarantee lines	26,853	109,982	110,151
CONSOLIDATED GROUP TOTAL	35,991	149,552	115,151

The average rate of interest accrued on current loans in 2015 was 1.0% (2014: 2.0%).

The bank loans require compliance with a series of covenants, specifically a series of ratios calculated on the basis of the consolidated financial statements of the Ebro Foods Group, throughout the term of the loans. Any breach of these covenants would increase the related borrowing costs and in some cases would trigger an early repayment requirement. The Group was in compliance with these covenants at both year-ends.

The breakdown of other financial liabilities at year-end:

BREAKDOWN OF OTHER FINANCIAL LIABILITIES

	12-3	12-31-15		1-14
	NON-CURRENT	CURRENT	NON-CURRENT	CURRENT
Garofalo: put option granted over 48% - note 5	61,550	0	59,112	0
Garofalo: deferred purchase price for 52% - note 5	0	0	0	5,200
Garofalo: financing provided by non-financial entities	5,750	1,114	5,902	393
TBA Group: put option granted over 50% - note 4	0	0	0	9,498
Other financial liabilities	2,677	2,295	3,310	1,428
TOTAL FINANCIAL LIABILITIES	69,977	3,409	68,324	16,519

23. OTHER NON-FINANCIAL LIABILITIES

These relate to various payables that are not material on an individual basis.

24. TRADE AND OTHER PAYABLES

Set out below are the movements in this heading:

	12-31-15	12-31-14
Trade accounts payable	312,373	285,470
Other accounts payable	38,374	30,015
Employee benefits payable	47,504	38,933
Payable to associates	163	500
TOTAL	398,414	354,918

Trade payables are non-interest bearing and are normally settled on 60-80 day terms. Other payables are also non-interest bearing and have an average term of three months; they mainly correspond to payables related to the purchase of items of property, plant and equipment, the grant of trade discounts and rebates, and advertising and marketing initiatives.

25. TAX MATTERS

Year-end balances receivable from and payable to the tax authorities (in thousands of euros):

	TAXES RECEIVABLE		TAX PA	YABLES
	12-31-15	12-31-14	12-31-15	12-31-14
VAT and personal income tax	28,953	27,277	(8,662)	(9,747)
Social security	183	209	(1,510)	(1,486)
Grants pending collection	405	745		
Other public authorities	1,657	236	(2,634)	(2,512)
TOTAL TAXES RECEIVABLE/PAYABLE	31,198	28,467	(12,806)	(13,745)
INCOME TAX - TAX PAYABLE/REFUNDABLE	18,536	19,109	(11,777)	(12,951)

Certain Group companies file consolidated tax returns in keeping with applicable tax and other legislation prevailing in each country. The companies that file under a consolidated tax regime are: most of the Spanish companies (Spanish tax group), the Riviana Group (US), the Panzani Group (France), the NWP Group (US) with its Canadian subsidiary, and, since 2012, the Group companies resident in Germany and the Netherlands for tax purposes.

The statutory corporate income tax rates vary from one country to another, most notably (on account of their relative materiality): Spain at 28% (30% in 2014 and 25% in 2016 and beyond), France at 38%, the US at 37.5%, Germany at 30% and the Netherlands at 25.5% and Italy at 27.5%. The table provided later on in this note presents the impact of the national rates other than 28% (benchmark Spanish rate) under the dedicated line item, "Effect of differing tax rates (taxable income)".

Certain extraordinary developments occurred in 2014 which need to be considered in analyzing the Group's tax expense in 2015 compared to that of 2014. The major components of income tax expense for the years ended December 31, 2015 and 2014 are:

	2015	2014
Income tax expense for the year	82,099	84,245
a) Impact of change in income tax rate in Spain from 2015	(25)	(4,206)
b) Impact of the inspection of the Spanish tax group in respect of 2008 to 2011	0	2,656
c) Deferred tax liabilities contingent upon reinvestment obligations	0	(7,140)
d) Reversal of deferred taxes due to compliance with tax obligations	(3,040)	(11,148)
TOTAL	79,034	64,407

Thousands of euros

- a) Impacts deriving from the reduction in the statutory income tax rate in Spain in 2014 and from 2015: The corporate income tax rate applied in Spain until 2014 was 30%. This rate has been cut to 28% in 2015 and 25% from 2016 on. The Group recognized the effects that the reduction in income tax rate in Spain will have on its various deferred taxes at both year-end.
- b) The tax inspection of the Spanish tax group in respect of 2008 to 2011, both inclusive, concluded in May 2014. All of the assessments raised were paid (using financial criteria), with the exception of the fines, even though the assessments have been signed under protest. The assessments signed under protest have been appealed.
 - In addition, the Group also signed assessments handed down in connection with the deduction accredited and applied as warranted in relation to the "2008 Volvo Ocean Race" under protest. The amount contested, which applies from 2008 to 2010, amounts to 3,021 thousand euros. In this instance, the balance has not been provided for as the assessments will be appealed and the likelihood of winning this claim is considered deemed high due to the precedent set by National High Court rulings in favor of other taxpayers bringing identical cases. Therefore, the directors believe that the risk that the outcome of this process will not favor the tax group is considered remote and will not entail an outflow of resources.
- c) The deferred tax liability reverted in 2014 relates to the deferred tax charge recognized at year-end 2012 in connection with the sale of the Nomen and other less prominent brands. Under Additional Provision Four of the Consolidated Text of Spain's Corporate Income Tax Act, enacted by means of Royal Decree-Law 4/2004, of March 5, 2004, the gain obtained on the sale of assets arranged to comply with anti-trust requirements does not have to be added to taxable income if the proceeds from the sale are reinvested on the terms stipulated in article 42 of this same piece of legislation within three years from the date of sale. The related reinvestment commitment totaled 32.5 million euros. The acquisition of Italian group Garofalo in 2014 complied with this reinvestment commitment, to which end the associated deferred tax liability was reversed in 2014.
- **d)** The NWP Group (US) had tax credits that it utilized in 2010, contingent upon compliance with certain tax obligations. Having met these obligations, either through compliance or prescription, the deferred tax liability recognized to cover this potential commitment was reversed in 2014 and 2015.

The breakdown of the tax expense accrued by the consolidated Group in 2015 and 2014 (in thousands of euros) is provided below:

	12-3	12-31-15		1-14
	ACCOUNTING	TAX	ACCOUNTING	TAX

Inspection assessments and fines	0	2,656
	69,530	42,719

TAX EXPENSE, RECOGNIZED DIRECTLY IN EQUITY

	12-31-15	12-31-14
Expense related to changes in subsidiaries' capital	0	0
Change in fair value of financial assets	51	(5,751)
Change due to actuarial gains/(losses)	(162)	(3,351)
	(111)	(9,102)

Net gains/(losses) on hedges of net investments recognized in translation differences' refers to the effect of the exchange differences recognized directly in equity under translation differences in connection with the natural hedge provided on the investments in Riviana and NWP by the dollar-denominated loans.

Total expense for tax purposes less the withholdings and payments on account made during the year yields the amount of tax payable to the tax authorities in respect of current income tax.

The most significant temporary differences in 2015 and 2014:

- An increase of 37,659 thousand euros (38,954 thousand euros in 2014) due to net exchange gains derived from the US dollar-denominated loans hedging net investments.
- * An increase of 479 thousand euros (27,672 thousand euros in 2014) due to the tax effect of the remeasurement to fair value of available-for-sale financial assets and the actuarial gains on pension obligations recognized directly in equity.
- * An increase of zero thousand euros (2014: 3,000 thousand euros) due to the impact of the sale of discontinued operations.
- A decrease of zero thousand euros (increase of 19,174 thousand euros in 2014) due to the tax effect of the remeasurement to fair value of available-for-sale financial assets up to the limit of the impairment losses deducted for tax purposes in prior years.
- ❖ A decrease of 4,446 thousand euros in both years due to the amortization for tax purposes of the goodwill arising on the acquisition of foreign companies.
- A decrease of 24,559 thousand euros (14,982 thousand euros in 2014) in relation to temporary differences at NWP, mainly due to the amortization for tax purposes of brands and other assets, and the recognition in different periods for accounting versus tax purposes of items in provision and accrual accounts.
- * A decrease of 5,287 thousand euros (13,008 thousand euros in 2014) in relation to temporary differences at Riviana, mainly due to the amortization for tax purposes of brands and other assets, and the recognition in different periods for accounting versus tax purposes of items in provision and accrual accounts.
- A decrease of 4,933 thousand euros (2,969 thousand euros in 2014) in relation to temporary differences at the Herba Group, mainly due to the amortization for tax purposes of brands and other assets, accelerated depreciation regimes in Spain and the recognition in different periods for accounting versus tax purposes of items in provision accounts.
- An increase of 213 thousand euros (decrease of 2,245 thousand euros in 2014) in relation to temporary differences at the Panzani Group, due mainly to movements under provisions, partially offset by property, plant and equipment depreciation charges.

- An increase of 7,104 thousand euros (decrease of 7,800 thousand euros in 2014) in consolidation adjustments due due different accounting criteria applied in preparing the separate versus the consolidated annual financial statements.
- A net increase of 1,644 thousand euros (2014: 1,079 thousand euros), mainly in relation to other companies, due to the origination and/or utilization for tax purposes of provisions recognized and/or reversed during the year, the recognition and/or reversal of impairment losses on non-financial assets and other contingencies cancelled and financial assets that were or were not eligible for deduction during the year.

The Group companies' permanent differences relate basically to amounts equivalent to tax that do not compute for income tax calculation purposes, the effect of expenses that are not deductible in determining tax profit, the deductibility for tax purposes of losses on non-current financial assets and the reversal of certain provisions that were not deductible for tax purposes when they were recognized in prior years.

The Group did not apply significant amounts of unused tax assets in 2015 due to the lack of sufficient taxable income. These tax credits mainly derive from new product development efforts, charitable donation deductions, deductions under double taxations treaties and tax relief on the reinvestment of gains generated by asset sales (still-unused credits generated prior to 2014).

Until and including 2014 it was possible to certify deductions in respect of reinvestments; these deductions were eliminated in 2015. Between 2012 and 2006, both inclusive, the Group reinvested qualifying proceeds totaling 33.1, 5.0, 115.3, 57.3, 1.5, 16.2, 11.2 and 76.3 million euros, respectively. These reinvestments satisfied all of the requirements for qualifying for the related tax relief.

The reconciliation of the opening and closing deferred tax balances (in thousands of euros) is provided below:

	12-31-15		12-31-14	
	ASSETS	LIABILITIES	ASSETS	LIABILITIES
OPENING BALANCE	55,871	(245,956)	55,455	(239,879)
Transfers	10,885	(10,885)	(32)	32
Translation differences	2,868	(14,655)	2,585	(16,380)
Business combinations	484	(7,322)	636	(20,760)
Disposals/derecognitions	0	0	0	0
Charged / credited in income statement	2,354	(2,686)	(3,210)	(2,257)
Charged / credited to equity	407	(92)	2,889	5,963
Restatements	1,432	(140)	(2,452)	27,325
CLOSING BALANCE	74,301	(281,736)	55,871	(245,956)

The breakdown of deferred taxes into their most significant components at year-end is provided in the next table:

	12-31-15		12-31-14	
	DEFERRED TAX		DEFER	RED TAX
	ASSETS	LIABILITIES	ASSETS	LIABILITIES
Property, plant and equipment	4,554	(96,433)	4,614	(88,278)
Investment properties	2,809	0	2,809	0
Goodwill	3,613	(36,444)	3,725	(30,534)
Other intangible assets	1,608	(146,960)	1,831	(123,445)
Inventories	2,897	(624)	1,789	(424)
Receivables and accruals (assets)	1,139	(914)	990	(654)
Pensions and similar obligations	6,978	(406)	6,486	(21)
Other non-current provisions	6,963	(386)	8,328	(1,405)
Payables and accruals (liabilities)	16,935	1,525	9,816	1,469
Unused tax credits and tax losses	16,048	(404)	15,508	(282)
Accrual of tax credits	0	(600)	0	(3,683)
Changes in value of AFS financial assets	90	(90)	(25)	25
Provisions and gains on tax group investments	10,667	0	0	1,276
TOTAL	74,301	(281,736)	55,871	(245,956)

At year-end 2015, the Group companies had around 42 million euros of unused tax losses (45 million euros at year-end 2014) that it can offset against taxable profit over the next 15 years.

The Spanish tax group has its books open to inspection from 2012 in respect of all applicable taxes. The other Group companies have their books open to inspection in respect of the taxes and years applicable under local tax legislation insofar as not already inspected, in most instances from 2010 or 2011. The directors believe there is no need to provide for potential additional tax liabilities that could arise from differing interpretations of tax regulations.

26. COMMITMENTS AND CONTINGENCIES

OPERATING LEASE COMMITMENTS - GROUP AS LESSEE

The Group has entered into operating leases on certain vehicles, items of machinery, warehouses and offices. These leases have terms of between three and five years; the lease agreements do not have lease renewal clauses with the exception of the lease on the site of one of the factories in the US, which can be extended by a term of 20 years, and the lease on one of the factories in Canada, with a term of 10 years. These leases do not impose any restrictions on the lessees. Future minimum rentals payable under non-cancelable operating leases at December 31 (in thousands of euros) are as follows:

	12-31-15	12-31-14
Within one year After one year but not more than five years More than five years	20,441 56,856 12,656	16,992 44,526 2,944
TOTAL	89,953	64,462

OPERATING LEASE COMMITMENTS - GROUP AS LESSOR

The Group has entered into operating leases on several properties within its investment property portfolio. These non-cancelable leases have remaining terms of between three and five years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions. Future minimum rentals receivable under non-cancelable operating leases at December 31 (in thousands of euros) are as follows:

	12-31-15	12-31-14
Within one year After one year but not more than five years More than five years	959 2,731 3,472	940 2,701 332
TOTAL	7,162	3,973

CAPITAL COMMITMENTS

Capital expenditure contracted for (machinery purchases and upgrades) at the end of the reporting period but not yet incurred totaled 27,400 thousand euros (13,350 thousand euros at year-end 2014).

INVESTMENT COMMITMENTS

In 2011 the Ebro Group acquired 50% of Grupo TBA Suntra B.V. and 75% of TBA Suntra UK from one of their two shareholders. In addition, it signed an agreement with the other shareholder for the future acquisition of the remaining 50% of Grupo Suntra B.V and the remaining 25% of TBA Suntra UK. The agreement was structured as a put option written by the shareholder such that the latter can oblige the Ebro Group to acquire the remaining interests in these companies. The parties also signed a shareholder agreement that gives control of the Suntra Group to the Ebro Group. The other shareholder executed its put option in January 2015.

At present, the Ebro Group owns 100% of these companies. However, it has committed to sell the above-mentioned shareholders around 20% of the Ingredients business, which is currently being restructured and will include the Group's European companies devoted to this line of business, among which the companies itemized above, among others.

- In May 2013, the Group entered into an agreement with the shareholders of Germany's Keck Spezialitaten, Gmbh (Keck) for its acquisition. In order to structure the acquisition, the Group incorporated a new, wholly-owned German company called Ebro Frost, Gmbh to which 100% of the shares of Keck and 100% of the shares of Danrice, A.S. (Danrice was a wholly-owned Group subsidiary at the time) were contributed. In the wake of these contributions, Ebro Frost, Gmbh. was held 55% by the Ebro Group and 45% by the shareholders of Keck.
 - From January 1, 2019, the shareholders of Keck have the option of requiring the Ebro Group to acquire their 45% interest in Ebro Frost, Gmbh at a variable price that will be set as a function of its earnings performance during the prior three years.
- The Ebro Group acquired 52% of Italy's Pasta Garofalo on June 18, 2014. The Group acquired a 52% interest for 63,455 thousand euros, of which it paid 58,255 thousand euros in 2014 and the remaining 5,200 thousand euros in 2015. The Group took effective control of the Garofalo Group on June 30, 2014, which was also the date of this investee's first-time consolidation.

In addition, the Group has arranged two options with the other shareholder over the remaining 48%, granting the seller a put option (exercisable until May 2024) and the Ebro Group a call option (exercisable from June 2024 to May 2026). The price of these options will be determined as a function of Garofalo's average earnings metrics over a series of years, as well as other terms and conditions customary in arrangements of this nature. At December 31, 2015, these options, which are recognized under non-current financial liabilities, were valued at 61,550 thousand euros (note 22).

INVENTORY COMMITMENTS

See the disclosures provided in note 15.

LEGAL CLAIMS AND DISPUTE GUARANTEES

See the disclosures provided in note 21.

GUARANTEES

The guarantees provided in the form of bank guarantees at the end of each reporting period:

	12-31-15	12-31-14
Bank guarantees: provided to courts and other bodies in relation to claims and tax deferrals (note 21)	13,354	3,110
Bank guarantees: provided to Spain's Agricultural Guarantee Fund (FEGA), customs authorities and third parties to guarantee fulfilment of obligations arising in the ordinary course of business	15,984	21,611
Other bank guarantees:	12,932	2,132
Provided to banks to guarantee performance of other affiliated or third-party groups	0	0
TOTAL	42,270	26,853

Other bank guarantees includes the guarantee provided by a bank on behalf of the Group for the acquisition in 2016 of certain warehouses in France for 12 million euros.

Note, lastly, that the Panzani Group's credit facilities (with a drawdown limit at year-end 2015 of 80 million euros and 90 million euros at year-end 2014) are secured by its accounts receivable. The Garofalo Group's credit facilities, with a drawdown limit of 62.7 million euros, are secured by a mortgage over its factory and site in Italy (note 22).

27. RELATED-PARTY DISCLOSURES

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash.

The Group did not record any impairment of receivables relating to amounts owed by related parties in either reporting period. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

27.1 TRANSACTIONS WITH SIGNIFICANT SHAREHOLDERS (OR PARTIES RELATED THERETO) OF EBRO FOODS, S.A. (EXCLUDING DIRECTORS)

Note 18.1 lists shareholders that have a significant equity interest in Ebro Foods, S.A. (parent of the Ebro Foods Group).

A summary of the transactions, excluding dividends, between any Ebro Foods Group company and these significant shareholders (other than the directors, whose transactions are disclosed separately in note 27.2) is provided below (in thousands of euros):

SIGNIFICANT Shareholder	EBRO FOODS GROUP Company	NATURE OF THE Relationship	TYPE OF TRANSACTION	2015	2014
Sociedad Anónima DAMM (Estrella de Levante, S.A.)	Herba Ricemills, S.L.U.	Contractual	Sale of goods (finished and in-progress)	1,036	700
Sociedad Anónima DAMM (Cía Cervecera Damm, S.A.)	Herba Ricemills, S.L.U.	Contractual	Sale of goods (finished and in-progress)	3,985	3,627

27.2 TRANSACTIONS WITH DIRECTORS AND EXECUTIVES (OR PARTIES RELATED THERETO) OF EBRO FOODS, S.A.

A summary of the transactions entered into, other than dividends and remuneration, with the directors, executives and related parties of Ebro Foods, S.A. is provided below (in thousands of euros):

$27.3\ \ OTHER\ TRANSACTIONS\ WITH\ SIGNIFICANT\ SHAREHOLDERS\ AND\ DIRECTORS/EXECUTIVES:\ DIVIDENDS\ RECEIVED\ FROM\ EBRO\ FOODS,\ S.A.$

Against the backdrop of the general dividend policy of Ebro Foods, S.A., the following amounts were paid in each reporting period (expressed in thousands of euros):

Dividends 2015 (2014):

- Dividends paid to significant shareholders: 20,339 (15,361)
- Dividends paid to directors and executives: 37,579,6 (26,194)

27.4 TRANSACTIONS UNDERTAKEN WITH OTHER EBRO GROUP COMPANIES THAT ARE NOT ELIMINATED IN THE CONSOLIDATED FINANCIAL STATEMENTS AND WHOSE PURPOSE OR TERMS FALL OUTSIDE THE GROUP'S ORDINARY COURSE OF BUSINESS:

There were no related-party transactions of this type in either reporting period.

27.5 RELATED-PARTY TRANSACTIONS

The note summarizes the transactions performed in 2015 and 2014 between the Ebro Group and other related parties (amounts in thousands of euros):

- Purchase of goods (finished and work-in-progress) in the amount of 121 thousand euros (2014:110 thousand euros) by Herba Ricemills, S.L.U. (an Ebro Group subsidiary) from Cabher 96, S.L. (a company controlled indirectly by Ms. María Blanca Hernández Rodríguez, the natural person who represents Hispafoods, S.L. on the Board of Directors of Ebro Foods, S.A.)
- Receipt of services in the amount of 9 thousand euros (2014: 18 thousand euros) by Herba Ricemills, S.L.U. (an Ebro Group company) from Real Club de Golf de Sevilla, S.L. (a company controlled indirectly by Ms. María Blanca Hernández Rodríguez).

27.6 OTHER DISCLOSURES

* Ebro Foods, S.A. held a 3.121% ownership interest in Biosearch, S.A. at December 31, 2015. This interest is recognized as an available-for-sale financial asset in the Group's consolidated financial statements.

Biosearch, S.A. is a listed company whose corporate purpose is analogous to that of Ebro Foods, S.A. and was part of the Group until January 2011.

The next table itemizes the transactions entered into between Biosearch, S.A. and various Ebro Foods Group companies in both reporting periods (in thousands of euros):

GROUP COMPANY WITH WHICH BIOSEARCH Transacted	TYPE OF TRANSACTION	2015	2014
Herba Ricemills, S.L.U.	Purchase of goods (finished and in-progress)	8	0
Herba Ricemills, S.L.U.	Lease (income)	26	26
Dosbio 2010, S.L.U.	Lease (expense)	0	7
Ebro Foods, S.A.	Rendering of services	21	42

- Ebro Foods, S.A. holds a 25% shareholding in Riso Scotti S.p.A. The investment in this associate is accounted for using the equity method.
 - Mr. Antonio Hernández Callejas, Chairman of Ebro Foods, S.A., is a director of Riso Scotti, S.p.A.

The next table itemizes the transactions entered into between Riso Scotti and Ebro Group companies in 2015 and 2014 (amounts in thousands of euros):

EBRO GROUP COMPANY WHICH PERFORMED THE TRANSACTION WITH RISO SCOTTI	TYPE OF TRANSACTION	AMOUNT 2015	AMOUNT 2014
Herba Ricemills, S.L.U.	Sale of goods (finished and in-progress)	355	1
Herba Ricemills, S.L.U.	Rendering of services	9	6
Herba Ricemills, S.L.U.	Purchase of goods (finished and in-progress)	200	62
Herba Ricemills, S.L.U.	Services received	0	1
Ebro Foods, S.A.	Dividends received	337	0
Ebro Foods, S.A.	Rendering of services	5	2

27.7 FIDUCIARY DUTIES: CONFLICTS OF INTEREST AND NON-COMPETE DUTY

In keeping with article 229 of Spain's Corporate Enterprises Act, this section of this note replicates the information provided by the Parent's directors, or by their natural person representatives as warranted, in keeping with their fiduciary duties, to the Company regarding the interests and positions held in/at companies with the same, analogous or complementary core business as that of Ebro Foods, S.A. that are not part of the Ebro Foods Group.

Instituto Hispánico del Arroz, S.A.:

- 100% direct shareholding in the following Hisparroz group companies, holding the following positions: El Cobujón, S.A. (director), Dehesa Norte, S.A. (no position held), Mundiarroz, S.A. (director), Pesquerías Isla Mayor, S.A. (director), Australian Commodities, S.A. (director, acting joint and severally), Islasur, S.A. (director) and Porrío, S.A. (no position held).
- It is hereby noted that Instituto Hispánico del Arroz, S.A. is a company devoted to a business considered analogous to the corporate purpose of Ebro Foods, S.A. and that it holds a 15.921% ownership interest in the latter (a direct interest of 8.963% and an indirect interest of 6.959% via Hispafoods Invest, S.L., an indirectly wholly-owned subsidiary on whose board it is represented).

Mr. Félix Hernández Callejas (the natural person representing Instituto Hispánico del Arroz, S.A. on the Company's Board):

Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. He is also the CEO of Instituto Hispánico del Arroz, S.A.

Mr. Antonio Hernández Callejas:

Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. He does not hold any post at this company.

Ms. Blanca Hernández Rodríguez (natural person representing Hispafoods Invest, S.A. on the Company's Board):

 Direct interest in Instituto Hispánico del Arroz, S.A. of 16.666%. She does not hold any position at this company. Indirect shareholding of 32.3559% in Cabher 96, S.L. She does not hold any position at this company.
It is hereby noted that Cabher 96, S.L. carries out a similar business activity to that constituting Ebro Foods, S.A.'s corporate purpose.

Dr. Rudolf-August Oetker:

Direct interest in Dr. August Oetker KG. of 12.5%. He is Chairman of the Advisory Board.

The directors of Ebro Foods, S.A. (or their natural person representatives, as warranted) did not perform any transactions with Ebro Foods Group companies outside their ordinary course of business or other than on an arm's length basis in either reporting period.

The directors have not informed the Company of any direct or indirect potential conflicts of interest between them or their related parties and the Company other than those disclosed in this note.

27.8 DIRECTOR AND EXECUTIVE REMUNERATION

Director remuneration. The remuneration accrued by the members of the Board of Directors of Ebro Foods, S.A. totaled 4,907 thousand euros in 2015 (2014: 5,561 thousand euros), broken down as follows (in thousands of euros):

DIRECTOR REMUNERATION AND OTHER BENEFITS	2015	2014
TYPE OF REMUNERATION		
Meeting attendance fees	327	302
Bylaw-stipulated profit-sharing	2,565	2,565
TOTAL DIRECTOR REMUNERATION	2,892	2,867
Wages, salaries and professional fees	2,015	2,694
Termination and other benefits	0	0
TOTAL EXECUTIVE DIRECTOR REMUNERATION	2,015	2,694
TOTAL REMUNERATION	4,907	5,561
OTHER BENEFITS		
Life insurance and post-employment benefits	0	0

The Company's bylaws stipulate remuneration equivalent to a 2.5% share of net profit for the year provided that the required appropriations to the legal reserve have been made and the minimum shareholder dividend established in prevailing legislation has been declared (currently 4% of paid-in capital).

At a meeting held on February 24, 2016, the Board of Directors resolved, at the recommendation of its Nomination and Remuneration Committee:

- (i) to freeze by-law stipulated remuneration in 2015, implying no change whatsoever with respect to that of the last four years, specifically implying submission at the Annual General Meeting of a motion to pay a sum of 2,565 thousand euros, which is equivalent to 1.76% of consolidated profit for 2015 attributable to equity holders of the parent.
- (ii) to leave attendance fees at 1,600 euros per Board meeting and 800 euros for attendance at the meetings of its various committees.

The individual breakdown of director remuneration earned in 2015 (in thousands of euros) is provided below:

DIRECTOR

	BYLAW- Stipulated Emoluments	ATTENDANCE FEES	FIXED REMUNERATION For Performance of executive duties	VARIABLE REMUNERATION For Performance Of Executive Duties	TOTAL
Hernández Callejas, Antonio	389	32	705	1,310	2,436
Carceller Arce, Demetrio	370	35	0	0	405
Alimentos y Aceites, S.A	120	18	0	0	138
Castelló Clemente, Fernando	211	34	0	0	245
Comenge Sánchez-Real, José Ignacio	175	27	0	0	202
Empresas Comerciales e Industriales Valencianas, S.L	120	19	0	0	139
Hispafoods Invest, S.L	201	35	0	0	236
Instituto Hispánico del Arroz, S.A	148	21	(*)	O (*)	169
Nieto de la Cierva, José	269	27	0	0	296
Oetker, Rudolf-August	120	19	0	0	139
Ruiz-Gálvez Priego, Eugenio	163	27	0	0	190
Segurado García, José Antonio	279	33	0	0	312
TOTAL	2,565	327	705	1,310	4,907

^(*) Although Instituto Hispánico del Arroz, S.A. is listed as an executive director, it does not perform either executive or management duties at Ebro Foods, S.A. or at any Group subsidiary and therefore does not receive any remuneration in this respect. Instituto Hispánico del Arroz, S.A. has been categorized as an executive director based on the fact that the natural person representing this entity on the Board of Directors of Ebro Foods, S.A. is an executive at a Group subsidiary (former article 212 bis of the Corporate Enterprises Act).

It is hereby noted that the director remuneration itemized in this note includes the attendance fees received by the Chairman of the Board of Directors of Ebro Foods, S.A., Mr. Antonio Hernández Callejas, in his capacity as director of Pastificio Lucio Garofalo, S.p.A. (an Ebro Foods Group company) in the amount of 5 thousand euros in both reporting periods.

It is further noted that in both reporting periods, the Chairman of the Board of Directors received the sum of 5,200 euros in the form of attendance fees for performance of his duties as director of Riso Scotti, S.p.A. (an associate; see note 27.6).

Of the total variable remuneration earned by the Chairman of the Board of Directors for performance of executive duties in 2015, 524 thousand euros correspond to the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Business Plan in respect of 2013. This sum represented up to 25% of the deferred bonus entitlement accrued over the term of the three-year scheme, which was provided for in the 2013 financial statements and settled in 2015.

Elsewhere, in relation to the total remuneration earned by the Chairman of the Board of Directors for the performance of his executive duties in 2015, the 2015 financial statements recognize a provision of 485 thousand euros in respect of the provisional estimate of the amount corresponding to 2015 under the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Plan, which represents up to 50% of the deferred bonus entitlement expected to be accrued during the three-year period. This figure will be paid in 2017.

These bonus schemes are not tied to Ebro Foods' share price performance nor do they entitle their beneficiaries to the receipt of shares or any rights over such shares.

Elsewhere, none of the members of the Board of Directors benefits from complementary life insurance or pension cover. Moreover, the Company neither extended any form of credit or advances to the members of its Board of Directors nor assumed any obligations on their behalf under guarantees.

Executive remuneration. A total of 10 people were considered executives of Ebro Foods, S.A. at both year-ends; in 2015 these executives accrued aggregate remuneration (wages and salaries) of 2,061 thousand euros (2,189 thousand euros in 2014).

In 2015, the team of executives (excluding the Chairman of the Board of Directors) of Ebro Foods, S.A. covered by the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Business Plan were paid 128 thousand euros corresponding to 2013, a figure representing until a 25% of the bonuses earned during the three-year term of the scheme that had been provisioned in the 2013 financial statements.

Meanwhile, in relation to the team of executives (excluding the Chairman of the Board of Directors) of Ebro Foods, S.A. covered by the Deferred Annual Bonus Scheme tied to the Group's 2013-2015 Business Plan, the 2015 financial statements recognize a provision of 124 thousand euros in respect of the provisional estimate of the amount corresponding to 2015 under the scheme, which represents until a 50% of the deferred bonus entitlement expected to be accrued during the three-year period. This sum will be paid in 2017, in keeping with the plan rules.

The employment contracts of two executives include change of control clauses guaranteeing payments that exceed the amounts applicable under the Employees' Statute. The clauses initially stipulated in the contracts of other executives provide for payments that are lower than those established in the Employees' Statute due to their length of service.

Note lastly that the figures reflect the remuneration of all of the executives of Ebro Foods, S.A. even though not all of them belong to senior management.

Lastly, Ebro Foods, S.A. has taken out civil liability insurance cover for its directors and executives; these policies cover all of its subsidiaries up to an annual claims cap of 45 million euros. The policies have an annual cost of 60 thousand euros, are effective until April 30, 2016 and are currently in the process of being renewed.

28. RISK MANAGEMENT TARGETS AND POLICIES AND USE OF FINANCIAL INSTRUMENTS

The primary objective of the Group's risk management policy is to safeguard the value of its assets and facilitate its sustainable growth by configuring an optimal capital structure tailored to the legislation in force in the countries in which it operates. In addition, its capital management policy is designed to preserve its credit metrics and to maximize shareholder value.

Risk management strategy encompasses key business performance indicators such as earnings, leverage, capital expenditure and business strategy with a view to enabling the Company to take substantiated decisions in order to deliver the above-mentioned objectives. The attached Group Management Report and Corporate Governance Report provide additional information on the key business risks.

CAPITAL MANAGEMENT

The overriding objective of the Group's capital management is to safeguard the business's sustainability and maximize shareholder value. To this end it contemplates:

- The cost of capital, in keeping with industry calculation standards, with a view to combining debt and equity to optimize this cost.
- A leverage ratio that makes it possible to obtain and maintain the targeted credit ratings and ensure shortand long-term financing for the Group's projects.

The right combination of debt and equity, in order to optimize the cost of capital, enables adequate shareholder remuneration, business continuity and growth of the Ebro Food Group's business model.

Note that the Group is subject to certain capital requirements under certain long-term loan agreements and that is in compliance with these covenants (note 22).

In recent years, the Group has been concentrating its activities around key businesses by means of strategic acquisitions, while keeping leverage low.

		CONSOLIDATED								
NET DEBT	2013	2014	2014/2013	2015	2015/2014					
Equity	1,705,757	1,849,485	8.4%	1,966,259	6.3%					
Net debt	338,291	405,617	19.9%	426,280	5.1%					
Average net debt	260,820	333,178	27.7%	424,940	27.5%

Leverage (avge. debt) (1)	15.3%	18.0%	17.8%	21.6%	20.0%					
EBITDA	282,392	287,251	1.7%	314,724	9.6%					
Coverage	1.20	1.41		1,35						

Thousands of euros

(1) Ratio of average net interest-bearing debt to equity (excluding non-controlling interests)

Leverage increased significantly in 2013 and 2014 due to the acquisitions of strategic businesses in Italy and Canada. In 2015, leverage rose slightly due to the trend in the dollar and the acquisition of organic and fresh food businesses in France; however, it fell in terms of debt-to-EBITDA coverage and leverage calculated using year-end rather than average debt levels. Management believes that leverage remains well within the Group's comfort zone.

Note that leverage and cash flow generation are impacted to a significant degree by dollar exchange rate trends, as described next.

FINANCIAL RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS

The main financial instruments used by the Group are bank loans, bank overdraft facilities, equity instruments, cash and short-term deposits. In addition, the Group has other financial assets and liabilities such as trade accounts receivable and payable.

These financial instruments expose the Group to market risks via variability in interest rates, exchange rates and in the fair value of certain financial instruments. They also expose it to liquidity and credit risk.

The financial instruments that are used to hedge these risks may or may not qualify for designation as accounting hedges (cash flow or fair value hedges, depending on the nature of the hedged item).

In order to manage the foreign currency and interest rate risks arising in the course of the Group's operations and, from time to time, potential movements in the prices of certain raw materials (gas), the Group uses derivative (mainly interest or exchange rate forward sale-purchase contracts and put/call options) and non-derivative (currency-denominated borrowings) financial instruments in order to minimize or ring-fence them.

These hedges are arranged as a function of:

- Prevailing market conditions;
- Evolving management objectives; and
- The specific characteristics of the transactions giving rise to the financial risk being hedged.

The accounting policies used to measure these financial instruments are described in note 3 above.

The Board of Directors and senior management team review and establish the risk management policies applying to each and every one of these risks. The Board has delegated the development and oversight of the enterprise risk management system in its Audit Committee and the Risk Committee.

Cash flow interest rate risk

This risk arises from borrowings denominated in euros or foreign currencies and arranged at floating rates of interest due to the risk that the cash flows associated with debt service payments will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

The Group manages this risk by having a balanced portfolio of fixed and variable rate borrowings. The Group's policy is to minimize exposure to this risk, to which end it continually monitors market conditions with the support of external experts in order to arrange new instruments or change the terms of existing instruments in order to minimize exposure to variability in the cash flows or fair value of its financial instruments.

Management has performed sensitivity analysis with respect to the impact of 50 basis point fluctuations in interest rates on the Group's rate-sensitive financial assets and liabilities with an impact on earnings: the estimated impact on profit in 2015 of such a change would be 2.5 million euros (1.9 million euros in 2014). The year-on-year increase reflects the trend in average borrowings as well as the fact that a significant portion of the Group's borrowings is denominated in US dollars, so that the year-on-year analysis reflects the trend in this currency with respect to the euro.

The main assumptions used to perform this sensitivity analysis are as follows:

- * The analysis only models the impact on financial instruments susceptible to significant changes in the event of upward or downward movements in interest rates.
- The only input varied is the rate of interest, with all other variables held constant in the model.

FLUCTUATION IN INTEREST RATES

	2015						114	
Income/(expense)	(0.50%)	(0.25%)	0.25%	0.50%	(0.50%)	(0.25%)	0.25%	0.50%
Profit before tax	2,463	1,232	(1,232)	(2,463)	1,916	958	(958)	(1,916)

Foreign currency risk

Foreign currency risk is the risk that the future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency) and its net investments in foreign subsidiaries.

As a result of significant investments in the US, the carrying amounts of the Group's assets and liabilities are significantly exposed to changes in the USD / EUR exchange rate.

The overriding objective of exchange rate risk management is to offset (at least partially) potential valuation losses on assets denominated in currencies other than the euro with savings, albeit smaller in magnitude, on liabilities denominated in the same currencies.

The Group attempts to mitigate the impact of its structural exchange rate risk by securing some of its loans in US dollars so that a very significant portion of its investments in the US are hedged naturally.

Other borrowings at December 31, 2015 include two loans totaling 271 million US dollars (three loans totaling 290 million US dollars at year-end 2014) (note 22) that have been designated as hedges of net investments in the Group's US subsidiaries and are used to hedge its exposure to US dollar foreign exchange rate risk on these investments. The gains or losses on retranslation of these borrowings into euros are recognized in equity in order to offset any gains or losses on the translation of the net investments in these subsidiaries.

The Group is also exposed to foreign exchange rate risk on account of its transactions. This risk arises from the purchases and sales made by the business units in currencies other than the functional currency. In the case of significant transactions, the Group's policy is to use foreign exchange forward contracts to eliminate or minimize the related exchange rate risk.

Against this backdrop, certain Group companies in the rice (Herba, S&B Herba and TBA Sundra) and pasta segments (Panzani and Garofalo) hold foreign currency future contracts or options (locking in exchange rates) in order to mitigate their transaction-related exposures. These transactions are arranged to minimize currency risk but have not been designated as hedges for accounting purposes. The contracts outstanding at year-end:

CURRENCY

		BALANCE	
	2015 2014		
USD	123,017	118,587	
CZK	40,000	21,000	
EUR	14,051	16,873	
GBP	15,655	9,249	
ТНВ	371,343	703,393	

Thousands of euros

The following assumptions were used to model the sensitivity of the Group's assets and liabilities to changes in exchange rates:

• The analysis only models the impact on financial instruments susceptible to significant changes in the event of fluctuations in exchange rates.

- * Borrowings designated as effective hedges of net investments are excluded from this analysis.
- * The only input varied is the rate of exchange, with all other variables held constant in the model.

The sensitivity analysis provided below should be understood as the Group's maximum exposure at a given point in time; in reality, the Group always hedges business transactions denominated in a currency to which management wants to mitigate exposure; however, these transactions do not quality for hedge accounting on account of the complexity of matching flow timing.

Price risk in respect of other financial assets and liabilities

Certain of the Group's financial assets and liabilities expose it to price risk. The most significant exposure derives from the valuation of the put-call option over 48% of the shares of the Garofalo Group (note 5) and the shares of Biosearch, S.A., which are classified as available-for-sale financial assets in the consolidated balance sheet at December 31, 2015 (note 12).

Liquidity risk

The Group's objective is to match its cash flow generation capabilities with its debt servicing and refinancing requirements. The Group aims to maintain a balance between continuity of funding and flexibility through the use of renewable credit facilities, bank loans with scope for grace periods to align them with the returns on the underlying assets and forward purchase contracts.

Note 22 analyzes the Group's borrowings at year-end 2015 by maturity.

Credit (counterparty risk)

This is the risk that a counterparty will not meet its contractual obligations, generating a financial loss for the Group.

This risk is mitigated by means of careful selection of transactions and counterparty banks based on credit ratings and the negotiation of sufficient guarantees to mitigate this risk.

The Group has always taken a conservative approach to business transactions; it has risk committees that continually review limits, open positions and automated system alerts. As a result, the Group's trade credit non-performance ratio has been historically low. In addition, the sales and collections management departments work in a coordinated manner. Counterparties are selected on the basis of the credit ratings awarded by the credit insurance providers with which the Group works, these policies ultimately serving as guarantees. The Group's high level of geographic diversification results in a low level of customer credit risk concentration.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The table below breaks down the Group's financial assets and liabilities at December 31, 2015 (in thousands of euros) other than its accounts payable and receivable or its cash and cash equivalents whose carrying amounts are deemed a reasonable approximation of their fair value. The carrying amounts shown in the table below are not materially different from these instruments' fair value.

FINANCIAL ASSETS

	CARRYING AMOUNT
	12-31-2015
Financial assets	
Loans	33,640
Equity instruments	26,608
Other instruments	2,061
TOTAL NON-CURRENT	62,309
Loans	3,252
Other instruments	1,882
Derivatives	2,392
TOTAL CURRENT	7,526
Financial liabilities	
Loans and credit facilities	368,777
Other financial liabilities	70,034
TOTAL NON-CURRENT	438,811
Loans and credit facilities	197,568
Other financial liabilities	3,409
Derivatives	579
TOTAL CURRENT	201,556

FINANCIAL ASSETS AND LIABILITIES MEASURED AT FAIR VALUE: FAIR VALUE HIERARCHY

All of the financial instruments measured at fair value are classified into one of the following levels depending on the inputs used to value them:

- Level 1. Use of quoted prices in active markets of identical assets and liabilities (without any adjustment)
- Level 2. Use of directly or indirectly observable inputs (other than level 1 quoted prices)
- Level 3. Use of unobservable inputs

	12-31-2015	LEVEL 1	LEVEL 2	LEVEL 3
Financial assets Equity instruments Derivatives	846 2,392	846 -	- 2.392	-
Financial liabilities Other financial liabilities Derivatives	62,981 579	- -	- 579	62,981 -

Level 1 basically includes the valuation of equity interests classified as available for sale. Level 3 reflects the liability recognized under IAS 39 in connection with the shareholdings pending acquisition in Herba Ingredients (TBA Suntra) and the Garofalo Group.

The Group does not hold any financial instruments whose fair value cannot be reliably measured. No instruments were transferred between the various fair value hierarchy levels in the course of 2014.

29. ENVIRONMENTAL DISCLOSURES

The productive processes used at the Group's various factories, in both the rice and the pasta divisions, are relatively simple agricultural food processes that do not have a major impact on the environment and entail minimum risk of accidental contamination. The most significant environmental aspects pertaining to the Group can be categorized as follows:

- Greenhouse gas emissions: essentially the emission of particles related to the manipulation of cereals (rice and wheat) and gases produced in the combustion processes used to produce vapor and dry raw materials. The fuel most widely used is natural gas.
- * Productive processes: essentially mechanic and hydrothermal, these processes require the use of very few chemical products, and in very small amounts. Most of these products are used to clean equipment and sanitize raw materials and are relatively safe for the environment.
- * Water consumption: the Group uses relatively little water in its manufacturing processes (most of its products are dry products), so that the volume of wastewater produced is also small. Moreover, the wastewater generated is relatively uncontaminated as the water consumed is used basically to produce vapor, as a refrigerant or as an ingredient in finished products.
- Waste generation and management: the Group generates minimum amounts of waste, including both non-hazardous (mainly ingredient and auxiliary material packaging) and hazardous (maintenance operations) waste.

To minimize its environmental footprint, Ebro Foods builds environmental protection into its business development and deploys the tools, measures and resources needed to guarantee protection at its subsidiaries. More specifically, the Group's environmental policy is articulated around three lines of initiative:

- Ensuring that its companies comply with applicable environmental legislation in carrying out their business activities by means of the rollout of in-house management systems and monitoring of prevailing legislation in this arena.
- Minimizing the environmental impact of its business operations by searching for eco-efficient solutions and continually rolling out initiatives designed to reduce its emissions and waste generation and to optimize consumption of water, energy and packaging materials.
- * Suitably and safely managing all its waste, fostering recycling and reuse. Using recycled and/or environmentally-friendly raw materials whenever possible.
- * Rolling out environmental employee training and awareness programs.

In parallel, the Ebro Foods Group intervenes in the rest of its value chain by controlling the environmental performance of its industrial suppliers by means of internal and/or external audits and helping them to enhance their environmental management practices as appropriate.

The Group is also working actively on researching and promoting environmentally-sustainable farming practices for use in the production of its agricultural raw materials; the focus of this effort is currently on rice. This work is taking the form of in-house initiatives and ad-hoc collaborations with stakeholders and sector associations.

In 2015, the Group joined the *Sustainable Agriculture Initiative Platform* (SAI Platform), an industry initiative that brings together the key food players worldwide with the goal of attaining sustainable agricultural standards from an environmental and social standpoint. Within this initiative, alongside other sector members, a specific rice-growing taskforce has been set up to develop sustainable practices based on a common industry standard (mainly at the international level) and foster its implementation in the rice-growing regions from which this raw material is sourced.

Fuller information on the Group's environmental performance in 2015 can be found in its Annual Sustainability Report.

In addition, in order to guarantee compliance with the packaging and packaging waste reduction, recycling and recovery objectives laid down in Spanish Law 11/97, of April 24, 1997, the Group's Spanish subsidiary Herba is a member of Ecoembalajes España, S.A. (Ecoembes), whose mission is to design and develop systems oriented towards collecting, sorting and recovering used packaging and packaging waste. Ecoembes uses the concept known as the Green Dot (the symbol featured on the packaging) to certify that the product's packager has paid a certain amount of money for each item of packaging it places on the market.

In tandem, both the European rice subsidiaries and Ebro Foods' head offices have entered into agreements with entities akin to Ecoembes for the destruction of paper and other materials. These agreements allow then not only to comply with data protection legislation but also to guarantee the sustainable management of this documentation through recycling commitments.

Lastly, various Group companies have arranged civil liability insurance that covers third-party damages caused by a sudden and unintentional spill. Management believes that this policy adequately covers any potential risk in this respect. To date the Group has not been party to any material environmental-related claims; on the other hand it can claim a positive record on the basis of the results of audits and inspections and the lack of any pleas in respect of its integrated environmental permit processes, etc.

30. FEES PAID TO AUDITORS

External services in the consolidated income statement include the fees paid to the auditors of the consolidated financial statements.

The fees paid for account auditing and other services to the Company's auditor, Ernst & Young, S.L., and entities related to the latter by means of control, joint ownership or joint management, in 2015 and 2014 were as follows:

- The fees corresponding to auditing services provided in 2015 amounted to 1,450 (2014: 1,123) thousand euros; those corresponding to other assurance services amounted to 124 (2014: 95) thousand euros.
- The fees for tax advisory and and/other services totaled 196 (2014: 303) thousand euros.

31. EVENTS AFTER THE REPORTING PERIOD

In early 2016, the Ebro Group sold its rice businesses in Puerto Rico and the US Virgin Islands, which it operated under several brands (El Mago, Sello Rojo and Cinta Azul), to CC1 Grain, LLC of Puerto Rico. The transaction price was 12 million US dollars. The sale generated a pre-tax gain for the Group of around 9 million euros (using an exchange rate of USD/EUR 1.08). This gain will be recognized in the Group's 2016 consolidated financial statements. This disposal marks the Ebro Group's exit from the rice business under the brands sold in Puerto Rico and the US Virgin Islands and was driven by the fact that the characteristics of these markets (where rice products are seen as more of a commodity product) do not fit with the Ebro Group's strategy of focusing on value-added products.

Elsewhere, after the reporting date, the Ebro Group, through one of its French subsidiaries, acquired 100% of France's CELNAT, a pioneer in the organic food business and one of France's most important organic cereal producers. CELNAT boasts a very strong position in the high-end organic food category and an excellent reputation in the specialist retail circles in which it makes 95% of its sales. In 2015, CELNAT posted revenue of 22 million euros, 20% of which was generated outside France. The transaction price was 25,426 thousand euros and includes 1,426 thousand euros of net debt assumed by the Group. The Group took effective control of this business in January 2016, also the date of its first-time consolidation.

There have been no other significant events or developments between the end of the reporting period and the date of authorizing the accompanying financial statements for issue.

DIRECTORS' REPORT CONSOLIDATED 2015

(EXPRESSED IN THOUSANDS OF EUROS)

1. COMPANY SITUATION

ORGANIZATIONAL STRUCTURE AND BUSINESS MODEL

The Ebro Foods Group is Spain's largest food company. Through its subsidiaries, it commands a presence in the rice and pasta markets in Europe and North America as well as a growing presence in other countries.

The Group has decentralized certain areas of each business's management with a view to focusing on the business while maintaining a lean and dynamic structure that prioritizes performance, cohesion and market knowledge over a personality-driven culture.

The Ebro Foods Group articulates its management around business segments that combine business activities and their geographic location. The two core business lines are:

- The rice business: the production and distribution of rice and its culinary derivatives and accompaniments. It consists of industrial and branding activities, with the Group pursuing a multi-brand model. Its geographic footprint extends to Europe, the Mediterranean basin, India and Thailand (via the Herba Group companies) and North and Central America, the Caribbean and Middle East (via the Riviana Group and its subsidiary, American Rice or ARI)
- * Pasta business: the production and marketing of dry and fresh pasts, sauces, semolina products, their culinary derivatives and accompaniments, carried out by the New World Pasta Group in the US, the Panzani Group and the Garofalo Group (rest of world).

Decision-making is spearheaded by the Board of Directors, which is ultimately responsible for defining the Group's general strategy and management guidelines. The Board delegates, certain tasks in its Executive Committee, including, notably, monitoring and oversight of delivery of the strategic and corporate development guidelines, while the Management Committee, on which the heads of the various business areas are represented, is tasked with monitoring and preparing the decisions taken at the management level.

The Annual Corporate Governance Report contains detailed information on the Group's ownership and governance structure.

Production of the products sold by the Group relies heavily on the use of rice and durum wheat, although new grains such as quinoa and other ancient grains are gradually being added to the mix.

Rice is the most widely-consumed grain in the world; however, as some of the world's largest producers consume more than they produce (China, Philippines and Indonesia), the global rice trade is smaller than that of other grains and cereals. The sources of the rice sold by Ebro vary depending on the type of grain and quality/abundance of rice harvests. Supply sources can be grouped into three major regions which produce different varieties of rice: the US, southern Europe and Southeast Asia.

Pasta is produced from a variety of wheat that is high in protein called durum wheat. Durum wheat is produced in a far smaller geographic expanse and has a much smaller market than other varieties of wheat, essentially those used to make flour. Ebro mainly sources its durum wheat in the US, Canada and southern Europe (France, Spain and Italy).

It purchases from farmers, cooperatives and milling companies that provide the basic raw material used in the productive process, the required milling and/or transformation being carried out at the Group's factories. The processes performed differ depending on the product's end use and range from cleaning, milling, polishing and basic extrusion to more complex processes such as pre-cooking, cooking and freezing.

Note 6 to the consolidated financial statements (Segment reporting) overviews the key activities, brands and market shares of each reportable segment.

STRATEGIC OBJECTIVES

The Group's strategic objective is to be a benchmark player in the rice and pasta markets and in segments of relevance to both areas such as meal solutions. It also aims to achieve a meaningful position in a highly global market and to spearhead innovation in its leading geographies, these ambitions trickling over to related products such as value-added legumes and noodles.

In order to deliver these strategic objectives, the Group taps a series of growth levers it deems key to increasing the value of the business, as enshrined in the various three-year business plans:

- Organic and M&A-led growth in large and established markets and, in parallel, the search for opportunities in high growth potential developing markets.
 - Penetration of new markets and product categories with a strategic focus on new fresh products (aperitifs, chips, omelettes, sandwiches, prepared dishes) and new and more value-added ingredient ranges.
 - Development of products that offer a fuller culinary experience by adding new formats (maxi-cups, etc.), flavours (cup and sauce ranges) and meal solutions (pan-fried rices and pasta dishes, SOS dishes, etc.)
 - Significant positioning in the healthy and organic food segments by leveraging new concepts based on ancient grains, gluten-free foods, quinoa, etc. Here it is worth highlighting the acquisition of Celnat, SAS, a specialist in premium organic products which will be integrated into an independent division to be called Alimentation Santé.
 - Leadership in mature markets by focusing strategically on product quality. Expansion and leadership of the premium products category. Development of the Garofalo brand.

- Expanded geographic footprint and rounding out of the product/country matrix:
- Search for business opportunities in mature markets with business profiles similar to that of the Group and specialist players in niche segments (RiceSelect, Monterrat, Cerlat) that enable the Group take a qualitative step forward in its strategy of shifting away from its generalist positioning to positioning as a multi-specialist (individual solutions).
- Entry into new business niches in existing markets (India, Middle East, Eastern Europe and Africa).
- Expansion of success formulae into markets in which Ebro is already present (fresh products).
- Product differentiation and innovation. The Ebro Foods Group's product development strategy is structured around two articulating lines of initiative:
 - Research, development and innovation (R&D). The Group has four proprietary R&D centers. Its investment policy is designed to allow the crystallization of new ideas and consumer needs into tangible customer solutions.
 - The Group aims to have the leading brands in its respective segments, to which end it supports them with the required advertising budgets.
- Low risk exposure. The business has been marked by growing raw material price volatility in recent years, coupled with accelerating changes in consumer trends. The Ebro Group faces these challenges through firm strategic commitments to both change and sustainability. To this end it seeks balanced sources of recurring income (markets, currencies), low leverage in order to withstand financial turbulence, new sources of supply and the establishment of long-term relationships with its stakeholders (customers, suppliers, directors, employees, society).

2. BUSINESS PERFORMANCE AND RESULTS

BUSINESS ENVIRONMENT

The economic recovery gathered momentum in the eurozone in 2015 even though year-on-year GDP growth did not rise above 1.5%. The recovery is being driven by growth in domestic demand (growth in new car registrations of 11%) fueled by expansive monetary policy (with interest rates at close to zero, giving small and medium sized enterprises a breather on the financing front) and oil prices at a 10-year low, freeing up consumer and corporate spending power. Despite the improvement, evident in higher employment levels and consumer confidence readings, the end of the year was clouded by several sources of political instability (Brexit, political instability in certain EU member states) and social crises (refugee crisis, population ageing), which, coupled with the issues affecting the emerging markets, could hamper growth.

The US economy expanded the healthy momentum of the prior two years: with annual GDP growth of 2.5% (the highest level since the start of the crisis) and an unemployment rate of around 5%, it continues to outpace most developed nations. This performance is primarily attributable to internal demand, as consumers have shrugged off the doubts lingering in prior years, while disposable income continues to rise gradually (although income distribution issues continue to present a source of tension). The Federal Reserve's rate hike marked the start of rate normalization and should not have an adverse effect on the global economy other than on exports affected by the dollar's appreciation and emerging market weakness.

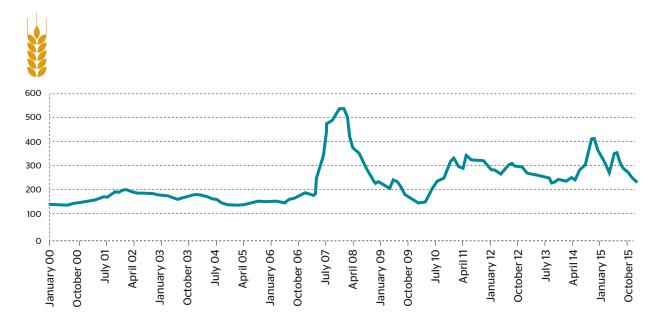

As noted in last year's report, the years of uncertainty and high levels of unemployment have taken their toll, affecting consumer spending patterns. Generally speaking, the consumer has become more cautious: shoppers are buying less, buying cheaper and have traded down to high-quality private label brands or compellingly-priced brand name products; in parallel they have started to look for fresh, gourmet and organic products that offer good value for money. Other trends of note include the growth in neighborhood supermarkets and the advent of new players (online) on the distribution side of the business. All of these trends reinforce the need to offer a pleasant and health-conscious shopping experience while continuing to respect tight budgets.

Lastly, spending habits are also being shaped by demographic trends such as population ageing, smaller family units and new ways of cooking and eating (to order, from vending machines, snacking instead of sitting down, etc.). Inevitably, food companies must also take stock of the unstoppable growth in internet penetration and capabilities; shoppers can readily compare prices and product characteristics and we are seeing a proliferation of robotic-style applications (driverless cars, drones, etc.) with the power to similarly change how we shop for and eat our food. Gradually (traditional consumers continue to dominate), producers will have to adapt and specialize their ranges, while distributors will be forced to offer a different shopping experience.

As was the case across the board in the commodities markets, the grain markets were marked last year by expectations of record inventory levels; prices were stable or if anything lower. The global agricultural commodities index corrected for the fourth year running, having peaked in 2011, and the global ratios tracking the percentage of stocks in relation to annual consumption (stocks-to-use ratios) of the main grains (corn, wheat, rice) remained well above the average for the last 10 years.

Last year, we presented the following chart depicting the trend in durum wheat prices and illustrating the growing volatility of a uniquely tight market.

DURUM WHEAT PRICES €/TM

Source: The Ebro Foods Group

Last year, prices fell from close to ≤ 400 /MT at the start of the year to ≤ 280 /MT as the new harvest approached. In June came news of a potentially smaller harvest in Europe due to the drop in spring rainfall, triggering a fresh price rally which did not however last for long; prices ended the year back down at around ≤ 265 /MT.

Global rice production narrowed by 0.5% on the whole in 2015, affected by adverse weather conditions ("El Niño"), as well as apathy in the face of widespread low prices. Meanwhile, global trade corrected by 2% from record levels in 2014, driven by a slight slowdown in demand. Global rice prices continued to trend lower throughout the year, albeit affecting certain aromatic rice grains disproportionately.

In North America, the 2014/15 harvest was very abundant and prices remained low. However, the 2015/16 harvest is smaller and of lower quality, resulting in a higher cost of sales for the Group in the last quarter of the year.

GROUP FINANCIAL PERFORMANCE

The Group's key financial indicators are presented below:

CONSOLIDATED FIGURES

	2013	2014	2014-2013	2015	2015-2014	TAMI 2015-2013

Revenue rose by 16.1% year-on-year driven by significant volume growth, exchange-rate effects related to the trend in the dollar of an estimated 181 million euros and acquisition-led growth of 105 million euros.

The breakdown of revenue and the year-on-year trend by business line and geographic market is as follows:

BUSINESS SEGMENTS

GEOGRAPHIC MARKET

EBITDA rose by 9.6%, shaped by a 8.3 million euro contribution by new businesses and a positive impact of 23 million euros via exchange rate trends. The Group's earnings performance was particularly strong in the rice business, in which it posted record levels of profitability; 2015 was a tough year in the pasta business, however, due to durum wheat price volatility and the need to pass through the increase in supply costs (an estimated increase of 54 million euros) in the first half of the year.

The EBITDA margin narrowed to 12.8%. The drop in average profitability is entirely attributable to the pasta business, where margins narrowed on the back of higher raw material costs, partially offset by volume growth, and ongoing margin dilution by the fresh pasta business in Canada and the US; this business is in the process of being relaunched and continues to resent below-average margins.

Profit for the year from continuing operations narrowed by 0.4% despite the growth in recurring profit due to a combination of effects originating in 2014: a positive impact via a reduction in non-recurring expenses (in 2014, the Group recognized an impairment loss against the goodwill allocated to the ARI cash-generating unit (American Rice) of 11.1 million euros); a negative impact due to the recognition in 2014 of a one-off financial gain on the sale of the Group's interest in Deoleo (14.0 million euros); and, lastly, the changes in income tax expense (note 25 of the consolidated financial statements).

The **ROCE** declined to 15.6%, driven entirely by the decline in the profitability of the US and Canadian pasta business.

The after-tax loss from discontinued operations includes the net gain or sale generated by businesses sold and their operating results until the transaction dates. In this instance the amounts shown in prior years correspond to the German pasta business and the loss generated by its sale, as detailed in note 7 of the consolidated financial statements.

ANALYSIS OF THE GROUP'S BALANCE SHEET

The trend in the Group's balance sheet in the last three years evidences the business combinations completed during this period: The Garofalo Group (June 2014), the RiceSelect assets (June 2015) and Roland Monterrat (September 2015). The main movements related to the accounting treatment of these business combinations (additions to property, plant and equipment, intangible assets, goodwill, net current assets and borrowings) and the impact of the trend in the US dollar on subsidiary balance sheets denominated in this currency (both years). Both movements have the effect of increasing assets: an increase due to the first-time consolidation of new assets and an increase of 10% in 2015 and 12% in 2014 in the assets and liabilities denominated in dollars due to their translation at year-end rates (which accounted for roughly half of consolidated assets at year-end).

Other noteworthy changes include the sale of certain non-operating assets classified as investment properties in the US and UK and the sale of the shares in Deoleo in 2014 (which had been classified under finance assets).

Other assets and other liabilities mainly comprise deferred taxes (this heading increased due to business combinations), provisions for pension obligations and provisions for charges (notes 10 and 19 of the consolidated financial statements).

Thousands of euros

In order to properly understand the Group's working capital requirement and borrowings, note that the factor with the biggest impact on these headings is the volume and measurement of inventories. Inventory volumes are sharply cyclical, moving in tandem with rice and wheat harvests, particularly the rice harvest in the northern hemisphere, which is where the Group buys the most rice from growers and cooperatives and where the inventory cycle is longest. More specifically, inventory volumes are at their lowest at the end of the rice season (end of summer) and at their highest at the end of the year, the start of the next season.

RICE BUSINESS

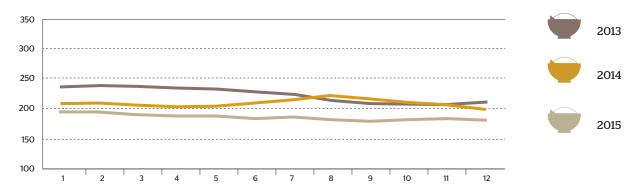

RICE BUSINESS

	2013	2014	2014-2013	2015	2015-2014	CAGR 2015-2013

Thousands of euros

As indicated in the section addressing the business environment, the market was broadly stable in terms of prices; although global production and inventory levels fell slightly, they remained close to long-run highs.

IPO RICE PRICE INDEX

In the US, the 2014/15 harvest was very strong (\pm 10% vs. 2013/14), driving a reduction in the US l/g price gap with respect to other markets and enabling growth in exports. However, this year's long grain harvest is less abundant (and poorer quality) due to reduced acreage planted and a lower yield, creating an element of price uncertainty. There have been no major changes in the short and medium grain varieties: ample stocksto-use ratios continue to push prices lower.

US HARVEST PRICES

	15-16 (*)	14-15	13-14
Average price	12.5-13.3	13.4	16.3
Long grain	11-11.6	11.9	15.4
Medium grain	16.1-16.9	18.3	19.2

\$/cwt

(*) August-July (Source: USDA)

Nor were there significant changes with respect to rice sourced from other markets, with prices stable or lower in long grain rice from Asia and stable in the aromatic varieties. In Thailand and India, major rice exporters, the 2015/16 harvest in progress is also smaller; however, the former is carrying over stocks equivalent to at least three harvests and although these stocks are of questionable quality they serve as a buffer for price-setting purposes. The downward trend in the price of rice grown in Asia, coupled with below-average yields for the past two harvests in Europe, where prices are high, has left European-sourced rice relatively uncompetitive.

Revenue growth in this business was driven by volume growth and the trend in the US dollar, as prices were flat or slightly lower, in line with raw material payments at source. Highlights:

- Consolidation of the ingredients business which is driving a substitution effect: traditional, basic products are increasingly being displaced by value-added products at the premium end of the value chain; this business registered growth of 15%.
- The gradual replacement of the traditional product range by those launched in recent years, particularly the Sabroz and Vasitos ranges, which registered year-on-year volume growth of 11.6% and 19.6%, respectively, in Spain, enabling the Group to defend its market share and sales by value.
- * Riviana performed really well in the US across all products and markets. This brand is the market leader with a share of 22.3% by volume in a market growing at an annual rate of 2.9% (Nielsen XAOC 52-week scantrack).
- ARI American Rice also performed well: thanks to a relative improvement in US long grain prices and despite the scarcity of product from Texas, this unit competed with its Abu Bint brand in the Middle East on a more competitive footing.

EBITDA increased by 18.9% year-on-year. Growth in EBITDA outpaced topline growth, implying margin expansion (13.7% in 2015 vs. 13.1% in 2014). In addition to topline growth, an astute purchasing policy enabled modest growth in margins. The advertising spend was increased by a significant 9 million euros, virtually all of which earmarked to the US in order to leverage the Group's excellent market positioning.

Riviana continued to hit new profit records, generating 107 million US dollars of EBITDA, of which only a small sum corresponds to the first-time acquisition of RiceSelect (1.4 million US dollars), a transaction which expands the Group's product catalogue, adding local aromatic, organic, ancient grain and couscous varieties. Profitability also improved at ARI despite persistent issues with Texas-grown rice which are undermining profitability at the factory in Freeport.

In Europe, the market environment remains highly complex. On the distribution side of the business, the retailers continue to consolidate (three retailers are merging in France, Ahold & Delhaize are joining forces in a Belgian-Dutch tie-up and in Germany, Edeka and Rewe continue to consolidate that market) and although there are signs of a potential let-up, promotional activity remains intense and the price gap between private-label and manufacturer brands remains significant.

To tackle this situation, the Ebro Group remained strongly committed to innovation and brand support; this strategy enabled growth in the Netherlands, Portugal and Finland and maintenance of existing positions in Belgium and Germany. Surmounting the challenges, the Group defended EBITDA despite a slight increase in advertising spend (+1.7 million euros).

By market, the EBITDA contribution to the non-US rice business was as follows:

	2013	2014	%	2015	%
Spain	31.474	28.539	38.9%	23.191	32.2%
Europe	33,454	40,873	55.7%	41,307	52.2 <i>%</i> 57.4%
Other	2,100	3,916	5.3%	7,522	10.4%
TOTAL EBITDA	67.028	73,328	100.0%	72.020	100.0%

It is worth highlighting the growth in 'Other markets', thanks to full recovery of the Puerto Rican business, which, after years of hard work to enable its monetization, was sold in January 2016 (see Events after the reporting period), as well as business growth in India. In Spain, the Group defended its position by supplanting the traditional segments invaded by the private label brands with new product ranges (most notably Sabroz and Vasitos); profitability in this market fell, however, due to a less competitive national harvest relative to rice grown overseas in the last two years.

ROCE in the rice business rose sharply thanks to growth in the profitability of the US business, including the impairment losses recognized against ARI assets in 2014.

The most important investments undertaken in this business (Capex) related to a new frozen products warehouse (1.6 million euros), a new flour and ingredients line (2.9 million euros), expansion of the Group's facilities in India (1.8 million euros), expansion of the factories in Amsterdam and Antwerp (2 million euros), completion of the work to expand the mill in Algemesí (2.5 million euros) and ongoing work to install a new gluten-free pasta production line in Memphis (7.3 million euros); note that the line being built in Memphis will serve the Pasta Area.

Thousands of euros

During the second half of 2014, durum wheat prices rallied, peaking at over \leq 400/ MT in November. From there, with the 2015/16 harvest in sight and in view of the promising outlook for producer nations, restraint took hold again and prices began to trend lower, ending 2015 at \leq 265/TM, albeit not without first evidencing the volatility which has characterized this market in recent years.

The warm spring in European producer nations prompted fears of insufficient irrigation and a second consecutive year of poor harvests. These fears did not materialize, however; the French harvest was good (+18%) and prices trended lower for the rest of the year, with stocks at reasonable levels.

DURUM WHEAT PRICES, €/TONNE

Revenue rose by 19% year-on-year, mostly due to the pass-through to sales prices of the growth in raw material costs, the impact of dollar appreciation on the US pasta business, consolidation for the full 12 months of Garofalo (72 million euros) and the first-time consolidation of Roland Monterrat (19 million euros; 3 months).

By geography:

- In France, dry pasta sales registered growth of 4.6% to put the Group's share of the retail sector at 37.1% by volume; note that this sector contracted by 1.5% as a whole. The growth in sales and market share similarly extended to the fresh pasta segment (+2.3% sales; 39.4% market share). Much of this growth is being driven by innovation, notable among which the new dry pasta products with fresh pasta qualities (sales volume: 1,300 tonnes) and growth of 22% in sales of pan-fry gnocchi products, a category in which the range was further increased.
- Garofalo posted an excellent performance. It is the clear leader in the Italian premium pasta market (a growing segment, in contrast to the overall market, which contracted by 4.5%), registering growth of 4.8% by volume and 7.3% by value. Garofalo products are now being distributed in France, Germany and the Netherlands through Ebro's sales network.
- US: a shrinking market (-2.0% by volume). The year got off to a bad start as the spike in raw material costs exacerbated tension in a market rife with price competition and promotional offers. Moreover, the healthy pasta segment (which encompasses wholegrain pasta, high-fiber pasta, vegetable pasta, low-calorie pasta and gluten-free pasta) in which Ebro is strongly positioned also suffered. Despite overhauling the healthy pasta product line with the production of new gluten-free products and products based on quinoa and other ancient grains, it wasn't until the end of the year that sales began to rebound, leaving New World Pasta's market share at 19.4%.
- Canada: the dry pasta market contracted by volume (-4%) but registered growth by value (9%) as a result of the pass-through of higher wheat prices to end prices. As in the US, consumption of healthy pasta trended lower in all categories except for the gluten-free niche. Group subsidiary Catelli Foods continues to lead the market with a share of 34.0% by volume. The fresh pasta segment registered growth by volume and value of 3.2% and 4.3%, respectively, and Olivieri defended its leadership with a market share of 45.9%, despite intensifying competition from manufacturer and retailer brands alike.

EBITDA increased by 1.6% to leave it virtually flat over a three-year period, despite the positive contribution by Garofalo, which contributed 17.4 million euros in 2015 (vs. 7.4 million euros in 2H14). The increase in raw material costs is estimated at 54 million euros, substantially eroding this unit's profitability, particularly in the US where it is harder to pass higher costs through to end prices. The advertising spend was 6.2 million euros higher, due to consolidation of Garofalo's activities for the full year.

France's EBITDA contribution increased slightly to 87.8 million (Roland Monterrat, which was consolidated for the last quarter, contributed 1.7 million euros), despite the pressure exerted via high procurement costs, driven by growth in sales volumes and a compelling sales leadership strategy which mitigated the adverse impact of higher product costs.

The negative note was struck by New World Pasta whose profitability diminished due to the decline in sales volumes in the healthy pasta segment which resulted in a less favorable business mix, compounded by difficulties in passing on higher raw material costs due to intense price competition. The 23% devaluation of the Canadian dollar also hurt this business as roughly 25% of this sub-group's income is generated in this currency (Catelli).

The fresh pasta products and sauces marketed under the Olivieri trademark encountered difficulties as the competition was very aggressive on the back of capacity additions. As a result, Olivieri's business with one of its customers suffered in two Canadian provinces, while promotional pressure intensified across the segment as a whole. Olivieri responded to these challenges by increasing exclusivity and private label production agreements in a bid to lock in sufficient production volumes to ensure profitability in the medium to long term while it focuses its efforts on innovation-led growth, process enhancement and brand overhaul under the scope of its five-year Business Plan.

ROCE in the pasta business declined to 16.1% on the back of reduced profitability in the US and Canadian units.

Capex was concentrated at the factory level. Specifically, the Group added capacity and drove productivity gains in fresh products in Communay (vicinity of Lyon) (8.5 million euros, to put investment to date at 31.5 million euros); bought equipment to increase capacity at the dry pasta factories in Europe (5.5 million euros); rolled out the SAP production module for fresh products (1 million euros); invested to increase productivity at the semolina plants (2.4 million euros); added a new short pasta packaging line in St. Louis (US) (1.4 million euros) and a packaging machine in Winchester (US) (1 million euros); and set up a new fresh pasta line in Hamilton (Canada) (1.9 million euros).

${\tt STAFF\,MATTERS\,AND\,ENVIRONMENTAL\,DISCLOSURES}$

Employees

One of the most important sources of value creation at the Ebro Group is its more than 5,700 professionals. A close-knit team of talented professionals aligned with the organization's strategy. Through the various subsidiaries' HR departments, the Group strives to motivate them, offer them rewarding work and nurture their professional skills and knowledge.

The Group's ultimate objective on the labor front is to foster mutually-beneficial labor relations, make its employees feel vested in the organization, encourage their career development, promote equal opportunities and adopt and enforce a zero-tolerance stance on discrimination.

The Group's policy is to decentralize staff management as this enables close contract and familiarity with its people. There are HR managers for each of the Group's most important companies and each has the ability to implement policies tailored for the specific characteristics of their respective business markets.

These policies not only include general guidelines for regulating company-employee relations but also encompass specific occupational health and safety, training and education, diversity and equal opportunities and equal pay guidelines and policies. The subsidiaries with reduced staff levels (predominantly sales companies with less than 10 employees) are governed by the labor laws in effect in the countries in which they work.

Above all of these guidelines, and notwithstanding the terms of the above-listed specific policies, is the Corporate Code of Conduct which stipulates not only ethical and responsible professional conduct on the part of the people working at of all of the Group's companies but also serves as a guide for defining minimum policy targets and job guarantees, specifically:

- Workplace health and safety.
- Training and career development for all employees.

- * The Group's pledge to guarantee zero discrimination, diversity and equal job opportunities (this commitment includes aspects related to gender equality, the employment of people with differing abilities and promotion of different cultures).
- * The freedom of association.
- Compliance with collective bargaining rights.

Note 8.4 of the consolidated financial statements breaks down the Group's headcount by job category. The following is a snapshot of the Group's workforce using diversity indicators prepared in accordance with the Global Reporting Initiative (the G4 Guidelines):

	MEN	WOMEN
Principal ratios by gender (employees)	70.55%	29.45%
Age range 30-50 years	53.45%	47.57%
Average years old	12.13	11.11
% Permanent contracts (including At will)	87.70%	85.33%
% Executives and middle managers	13.52%	15.12%
Rotation of personnel	17.50%	10.38%
New Recruitments	70.54%	29.46%
% Training	68.95%	60.74%
% Disability	2.25%	1.49%

The Group's commitment to employment is illustrated in the following staff turnover tables which break the figures down by gender and reason for departure:

TYPE OF ROTATION	MEN	WOMEN
New hires	1025	428
Voluntary departures	147	175
Layoffs	172	67
Reriement	51	21
Permanent disability	9	4
Death	9	5

	MEN	WOMEN
Net employment creation	646	160
Rotation of personnel	17.50%	10.38%

In terms of **workplace health and safety**, 89.72% of the Group's total workforce is represented by official health & safety committees. In 2015, the Group provided 22,340 hours of health and safety training at a cost of 677 thousand euros and invested 2.3 million euros in safety equipment.

Lastly, the commitment to employee **training and career development** materialized in the provision of staff training courses at a cost of 1.95 million euros in which approximately 67% of the workforce participated (over 117,700 training hours). The main subjects covered by these training initiatives were quality and environmental management, languages, computer skills, health and safety, production and maintenance, sales and marketing skills development and finance. The average number of training hours provided by job category is broken down in the next table:

JOB CATEGORY	MEN	WOMEN
Executives	13,53	28,35
Middle Management	24,86	22,18
Clerical staff	27,43	16,63
Assistants	8,4	12,38
Sales staff	9,17	7,43
Other	24,92	22,04
TOTAL	23,66	19,73

ENVIRONMENTAL MANAGEMENT

Regarding the Group's sustainability policies, one of the Ebro Foods Group's basic management commitments is to provide its companies with the tools and measures needed to strike the optimal balance between their business activities and environmental protection. For more information, go to note 29 of the consolidated financial statements and the Ebro Food Group's Annual Sustainability Report.

3. LIQUIDITY AND FINANCING

The Group's finance department attempts to configure a capital structure that permits credit ratio stability while providing business flexibility in the short and long term.

The finance structure is articulated around long-term borrowings that fund the major investments and are generally denominated in the same currency as the investments in order to achieve a natural currency hedge. The rest of the Group's financing is arranged on a short-term basis and takes the form of credit facilities that cover shifting working capital requirements. All this financing is arranged in accordance with the Group's short- and long-term growth plans, which are crystallized in its annual budgets, budget revisions and multi-year business plans.

The breakdown of the Group's financial liabilities and the capital requirements embedded in certain long-term loan agreements are detailed in note 22 to the consolidated financial statements.

CAPITAL EXPENDITURE

Acquisition-led growth (asset and business acquisitions)

The biggest investments made by the Group in 2015 were the acquisitions of the RiceSelect assets for 44.7 million US dollars and of Roland Monterrat for 26.5 million euros plus debt. The latter was financed using a mix of own funds and third-party loans.

Organic growth

The Group underpins its pursuit of growth and innovation with a capex policy that in recent years has entailed the overhaul of its instant rice and fresh pasta productive capacity. Capex (cash outflows) during the past three years:

YEAR

	AMOUNT
2013	61,308
2014	67,123
2015	81,466

Thousands of euros

Since 2013, investment in innovation has been concentrated strategically around the Fresh Pasta Plan and physically around the Lyon region, the aim of which is to increase capacity for the production of these products. In the rice business, capital expenditure has been mainly earmarked to the rice-based ingredients project, capacity additions in frozen products and investment in a gluten-free pasta line between 2014 and 2015 (11.5 and 8 million US dollars, respectively) at the Memphis factory in order to cater to growth in this segment.

FINANCIAL POSITION

The Group is very satisfied with its leverage position.

	CONSOLIDATED				
NET DEBT	2013	2014	2014/2013	2015	2015/2014
Equity	1,705,757	1,849,485	8.4%	1,966,259	6.3%
Net debt	338,291	405,617	19.9%	426,280	5.1%
Average net debt	260,82	333,178	27.7%	424,940	27.5%
Leverage	19.8%	21.9%	10.6%	21.7%	(1,1%)
Leverage (average net debt)	15.3%	18.0%	17.8%	21.6%	20.0%
EBITDA	282,392	287,251	1.7%	314,724	9.6%
Coverage	1,20	1,41		1,35	

Thousands of euros

(1) Ratio of average net debt (interest-bearing) over equity (excluding NCI)

Despite the acquisitions of organic and fresh meal businesses in France and the increase in the euro-equivalent balance of borrowings on account of trends in the dollar, the currency in which a portion of the Group's debt is denominated (a declining portion on account of the US businesses' compelling cash flow generation capabilities), the leverage and coverage ratios improved, leaving the Group with significant wherewithal to continue to invest in organic and acquisition-led growth.

Note that 59 million euros of borrowings relate to the recognition for accounting purposes of the call option over the remaining 48% of the Garofalo Group. For accounting purposes, this unexercised option has been recognized as an increase in financial borrowings. The changes in borrowings (without factoring in the debt assumed pursuant to acquisitions, that recognized in the process of accounting for call and put options such as that described above and the impact of exchange rate movements) were shaped by the following sources and uses of cash:

	CONSOLIDATED				
	2013	2014	2014-2013	2015	2015-2014
Cash from operating activities	161,118	211,275	31.1%	254,140	20.3%
Cash used in investing activities	(163,961)	(60,193)	(63.3%)	(146,847)	144.0%
Cash used in share-based transactions	(92,319)	(76,833)	(16.8%)	(102,833)	33.8%
FREE CASH FLOW	(95,162)	74,249		4,460	

Thousands of euros

Free cash flow generation rose once again on the back of a general business improvement which translated into earnings growth. With respect to prior years, it is worth noting that in 2013 the working capital requirement implied by the new factory in India and the need to hedge certain rice-related sourcing risks eroded operating cash flow by around 30 million euros. 2014 was marked by a return to normality in the rice business whereas the increase in durum wheat purchase prices did not significantly erode cash flow from operations via growth in inventories as this inventory cycle is shorter and was offset by other changes in payment and collection terms.

The other major movements correspond to:

- Investing activities. Capital expenditure, as outlined above, the purchase and/or sale of various businesses in recent years (acquisitions of Olivieri and Scotti in 2013; the acquisition of Garofalo and exit from Deoleo in 2014; and the acquisitions of RiceSelect and Roland Monterrat in 2015).
- Share-based transactions. Dividend payment (special dividends in 2013 and 2015) and trading in own shares (sale of treasury shares in 2012).

4. RISK MANAGEMENT TARGETS AND POLICIES AND USE OF FINANCIAL INSTRUMENTS

The Risk Control and Management Policy is a core component of the corporate policies approved by the Board of Directors. It establishes the basic principles and general framework governing control and management of the business risks, including tax-related risks and the framework for internal control over financial reporting, faced by the Company and its Group companies.

This general framework translates into a standardized enterprise risk control and management system which is inspired by the conceptual framework embodied in the Internal Control Integrated Framework of the "Committee of Sponsoring Organizations of the Treadway Commission" (COSO); it is, accordingly, based on a business risk mapping process designed to identify, assess and score the Group's ability to manage the various risks, prioritizing them in terms of impact and probability of occurrence. The universe of risks is categorized into four main groups: compliance, operational, strategic and financial/reporting.

The risk categorization process assesses, dynamically, both inherent risks and residual risk after application of the internal controls and protocols put in place to mitigate them. Within these controls, it is worth highlighting the existence of preventative measures, the adequate segregation of duties, well-defined clearance limits and specific policies and procedures.

The enterprise risk model is qualitative and quantitative: the impact of the identified risks on the Group's results can be measured, to which end it is articulated around defined risk tolerance thresholds at the corporate level.

The main risks addressed in the model are:

OPERATIONAL RISKS

Food safety. Given the nature of its business, food safety matters are a critical issue to which the Group pays the utmost attention; these issues are governed by a host of regulations and laws in the many countries in which its products are sold.

The Group's policy is underpinned by compliance with prevailing legislation, to which end it has defined, developed and implemented a quality, environmental and food safety model which has been certified in accordance with the UNE-EN-ISO 9001:2000/8 (Food Safety System Certification), UNE-EN-ISO 14001:2004 (Environmental Management) and ISO 22000:2005 systems.

The food safety programs are based on oversight of protocols designed to ensure identification of certain critical points (called Hazard Analysis and Critical Control Points or HACCP) in or order to minimize residual risk.

The main control points are grouped as follows:

- Physical points: controls to detect alien materials or the presence of metals.
- Chemical points: detection of chemical substances or the presence of allergens.
- Biological points: detection of the presence of salmonella and other pathogens.

Most food handling processes are certified by the IFS (International Featured Standards) food safety standard and the pasta factories in the US have certified compliance with the Global Food Safety Initiative (GFSI).

* Raw material supply risk. The availability of raw materials in sufficient quantities and of the quality needed to satisfy the Group's commitments to its customers and continue to underpin brand positioning is a key business success factor.

To mitigate this risk, the Group has opted to strategically diversify and lock in supply sources by means of agreements from season to season with some of the leading raw material suppliers (of rice and wheat durum); it has also opened branches in some of the main rice exporting nations.

* Risk associated with commodity price volatility. Unexpected changes in raw material supply prices can have a material adverse impact on the profitability of the Group's business via its manufacturing operations and it brand retailing efforts. This risk is concentrated in the prices of the various varieties of rice and durum wheat, although the Group is also exposed to variability in the prices of packaging materials and oil derivatives.

This risk is managed via:

a) Early identification of potential supply problems or gluts in certain grains or varieties which could expose stocks to price variability. The buyer departments track the markets continually and issue alerts to the managers of the various businesses to enable them to manage the related risks.

- **b)** The Group locks in volumes at fixed medium-term prices when the market is propitious to these kinds of agreements and sales transactions can be negotiated that will generate stable margins throughout the corresponding periods.
- c) It also seeks disintermediation in the markets for local or exotic varieties, shortening the value chain.
- **d)** Lastly, the Ebro Foods Group strategically differentiates its finished products and this helps it pass volatility in raw material costs efficiently through to the end consumer.
- Customer concentration risk. This risk factor affects the industrial and retail segments alike (although in the latter instance the end consumer of the products made by the Group are the individuals who eat its foods, the retailers are concentrating - boosting their purchase bargaining power - year after year). This risk factor can result in less favorable sales terms and conditions, heightened credit risk and even the loss of certain sales.

The Group's geographic diversification helps to mitigate this risk factor as its customers vary by country and for now the retailers' attempts at international expansion have met with limited success.

In parallel, each company has a sales risk committee which allocates risk tolerance thresholds and a strategy for enforcing these thresholds. These levels in turn reflect overall business strategy.

The risk of potentially falling behind on technology development. One of the Group's most important tools when it comes to tackling the competition is to differentiate and update its products, a strategy underpinned by constant technological innovation and an unwavering effort to adapt its range to consumer demands and wishes.

As described further on in this report, the Group's R&D strategy is a cornerstone of its business strategy. Its R&D departments work in close collaboration with the sales & marketing departments to mitigate this risk.

RISKS RELATED TO THE ENVIRONMENT AND STRATEGY:

Environmental and natural risks. The effects of droughts and floods in the rice- and wheat-growing countries from which the Group sources its raw materials can cause availability issues and price volatility. These natural risks can also affect consumers in conflict areas and could even affect the Group's assets in these markets.

Once again the key to mitigating these risks is to diversify raw material sourcing, as well as the markets the Group's products are targeted at. In addition, the Group has articulated a flexible manufacturing structure with facilities on four continents, minimizing the impact of potential local problems. The Group has current insurance policies covering all its factories and facilities which would mitigate the damages arising from any such incident.

Competition risk. The Group does most of its business in developed and mature markets in which it competes with other multinational enterprises and a good number of local players. In addition, in these markets the retailers have developed their own private label brands which exert extra pressure on the Group's products.

This risk is managed by:

a) Comprehensive analysis of competitor moves and the fine-tuning of pricing and promotional policy in response to the prevailing market situation.

- **b)** Product differentiation by innovating on formats, range and quality, all with an unwavering customer focus.
- **c)** Repositioning in potential high-growth categories by means or organic business development or acquisitions which meet the criteria stipulated in the corporate investment policy.
- Reputation risk. The risk associated with a potential shift in opinion crystallizing in a negative perception of the Group, its brands or its products by customers, shareholders, suppliers, market analysts or other stakeholders with an adverse effect on the Group's ability to maintain its customary relations (commercial, financial, labor, etc.) with these stakeholders.

To tackle this risk, the Group has established an internal code of conduct designed to guarantee ethical and responsible conduct throughout the organization by all its staff and the professionals or institutions it engages with in the course of its business activities.

The Group's brands, along with its people, are its most valuable intangible asset, and are accordingly subjected to constant assessment in which different marketing management, food health and safety, compliance and IP protection considerations converge.

- Shifting lifestyles. New diets such as low-carb diets and other food habits could change how consumers perceive our products.
 - The initiatives pursued to mitigate these risks entail assessment of consumer patterns, fine-tuning of the Group's product range in response to market trends, as well as active participation in forums propitious to disseminating the health virtues of its products.
- Country or market risk. The international nature of the Group's activities exposes its business operations to the political and economic circumstances prevailing in the various countries in which is does business, as well as other market variables, such as exchange rates, interest rates, production costs, etc.

COMPLIANCE RISK

- Sector regulations. The food manufacturing industry is subject to multiple regulations, which affect export and import quotas and tariffs, intervention prices, etc., all framed by the European Common Agricultural Policy (CAP). In addition, the Group's activities could be affected by regulatory changes in the countries from which it sources its raw materials or to which it sells its products.
 - To address this risk, the Group is represented in, voices its views in and follows a number of legal and regulatory forums via a team of prestigious professionals who work to ensure enforcement and compliance.
- General regulations. This category encompasses compliance risk with respect to civil law, company law, criminal law and good governance regulations and recommendations. In terms of criminal risk, the Group has a crime prevention model which is monitored and controlled by the Compliance Department, which reports to the Audit and Control Committee.
- * Tax risk. Potential changes in tax legislation or its interpretation or application by the competent authorities across the Group's business marks could have an adverse effect on its performance.

FINANCIAL RISK

In the course of its ordinary business operations, the Group is exposed to certain financial risks associated with its financial assets and liabilities, particularly its bank loans, overdrafts, equity instruments, cash and cash equivalents. In addition, the Group has other financial assets and liabilities such as trade accounts receivable and payable.

These financial instruments are exposed to market risk as a result of movements in interest rates (instruments carrying floating rates), exchange rates (those denominated in currencies other than the euro), changes in their fair value, liquidity risk (the inability to monetize assets within reasonable timeframes or at reasonable amounts) and credit risk (counterparty risk).

The Board of Directors, with the assistance of its advisory and decision-making committees, reviews and establishes the policies for managing each of these risks.

A description of these risks and the mitigating measures taken is provided in note 28 of the consolidated financial statements.

5. EVENTS AFTER THE REPORTING PERIOD

In early 2016, the Ebro Group sold its rice businesses in Puerto Rico and the US Virgin Islands, which it operated under several brands ("El Mago", "Sello Rojo" and "Cinta Azul"), to CC1 Grain, LLC of Puerto Rico. The transaction price was 12 million US dollars. The sale generated a pre-tax gain for the Group of around 9 million euros (using an exchange rate of USD/EUR 1.08). This gain will be recognized in the Group's 2016 consolidated financial statements. This disposal marks the Ebro Group's exit from the rice business under the brands sold in Puerto Rico and the US Virgin Islands and was driven by the fact that the characteristics of these markets (where rice products are seen as more of a commodity product) do not fit with the Ebro Group's strategy of focusing on value-added products.

Elsewhere, after the reporting date, the Ebro Group, through one of its French subsidiaries, acquired 100% of France's CELNAT, a pioneer in the organic food business and one of France's most important organic cereal producers. CELNAT boasts a very strong position in the high-end organic food category and an excellent reputation in the specialist retail circles in which it makes 95% of its sales. In 2015, CELNAT posted revenue of 22 million euros, 20% of which was generated outside France. The transaction price was 25,426 thousand euros and includes 1,426 thousand euros of net debt assumed by the Group. The Group took effective control of this business in January 2016, also the date of its first-time consolidation.

There have been no other significant events or developments between the end of the reporting period and the date of authorizing the accompanying financial statements for issue.

6. GROUP OUTLOOK

Despite the episode of volatility gripping the financial markets towards the end of 2015 and start of 2016, most indicators remain positive, with employment and GDP trending higher in most developed economies. Although there are question marks about the outlook for certain emerging markets of growing importance to the global economy (China, Brazil, Russia) and oil prices are surprisingly low, these concerns are not expected to significantly dampen the overall outlook, barring unforeseen situations of political uncertainty.

The outlook for the rice market is for continued stability insofar as the initial fears associated with the "El Niño" phenomenon have not materialized. Although the 2015/16 harvest is down somewhat in some exporter markets (Thailand), generally high stock levels are propping up prices. The European varieties remain relatively less competitive, while the US long grain harvest is a little smaller and poorer in quality, driving a slight uptick in prices during the last quarter of 2015 to a level at which they have since stabilized.

No major developments are anticipated on the durum wheat front: stocks remain high and this commodity was trading at under €250/MT in March 2016. For now the outlook for the upcoming harvest is promising: planted acreage in Canada is up slightly; the outlook for the May harvest (the first of the season) in Mexico is good; while some of the main importers of this cereal have pared back their presence in the market due to budget restrictions.

RICE BUSINESS

The outlook for consumption trends in 2016 is for growth in the value-added varieties such as aromatic, organic and ready-to-serve (RTS) products, while traditional products are expected to stagnate or even contract somewhat so that the overall category should remain largely flat in value terms (mix in shift). Uncertainty is greater in terms of the outlook for costs and the price gap with respect to international prices. The spike in rice prices towards the end of 2015 on the back of shrinking Asian production could stem exports by the major cooperatives and exert pressure on the domestic market, particularly industrial sales.

At the Freeport (Texas) factory, the local summer harvest was smaller than in prior years (already affected by drought), which will result in a loss of competitiveness during the first half of the year; however, the reservoirs have since recovered so that the new harvest should be significantly better (2H16). We don't anticipate significant change in the Abu Bint brand business which is conducted from this factory.

The product launches planned for 2016 include an extensive range of organic rice products, new individual cup servings and new RTS products with quinoa, to which end the Group has earmarked a 10% higher advertising spend.

In Europe and the rest of the world, margins related with long grain products are expected to widen on the back of the downward pressure on this variety exerted by the drop in international prices. The RTS range is also expected to be very strong in these markets (+20%), driven by the launch of new ranges called Salud and Mi Chef. The Group is forging full steam ahead with development of its ingredients line: it is exploring the scope for expanding its existing facilities and analyzing expansion of its local rice and pasta operations in India.

PASTA BUSINESS

After a challenging year, prevailing durum wheat prices should set solid foundations for a recovery in profitability throughout the year. The outlook is for slight growth in sales underpinned by volume stability (versus contraction in 2015), improvements in the distribution of some of the Group's brands and renewed growth in the healthy pasta segment, the cause of so many problems in the last couple of years.

Growth in the healthy pasta product range will be propped up by consolidation of distribution for a full 12 months of the Healthy Harvest ancient grain products (wholegrain flour reformulated with other nutritional cereals), growth in the gluten-free segment and the new Supergreens range.

This effort will be underpinned by a significant advertising spend (anticipated increase of 9 million US dollars) and the commissioning at the end of 2015 of the gluten-free factory, which will translate into increased capacity and flexibility in this growing product category, as well as lower sales costs.

Oliveri, meanwhile, will have completed in 2016 revision of its filled fresh pasta recipes and will market a new portfolio of five simple pasta and gnocchi recipes and nine sauce recipes which should drive volume growth, in spite of prevailing competitive pressure. The Group has been investing to boost productivity and this effort will intensify in 2016. Much remains to be done to deliver the targets set in this organization's business plan but little by little they are being achieved.

In Europe, the strategic goal is to defend the organic growth attained in prior years, ensure a dominant position in the premium pasta segment spearheaded by the Garofalo brand, build a noteworthy presence in the health and organic products segment and develop positioning in the fresh products market. This effort will be driven largely by the recent acquisitions in France of Roland Monterrat, an expert in fresh products, and of Celnat (in January 2016), a specialist in organic grains and cereals; Celnet sells its products in 75% of France's 2,000 health food stores (Biocoop, La Vie Claire, Satoriz, etc.) and generates 20% of its sales abroad.

7. R&D ACTIVITY

The Ebro Foods Group has always been a front-runner in terms of new consumer trends and an international benchmark in the research and development of products applied to the food sector. Aware that R&D is essential to the Group's quality and differentiation strategy, it remained unwaveringly committed to innovation in 2015.

In total, R&D expenditure totaled 4.9 million euros in 2015 (3 million euros of which funded internally and 1.9 million euros, externally).

Capitalized development costs amounted to 12 million euros, most of which corresponded to gluten-free products and the fresh pasta segment (9.8 million euros on aggregate), with the rest earmarked mainly to new manufacturing processes and/or product treatments.

The Group has articulated its R&D engine around research centers located in France, the US and Spain. These centers and their main projects in 2015 were:

- 1. CEREC, located in St. Genis Laval (France), with 10 employees, focuses on the fresh pasta, potato, ready-cooked fresh meals and sauce segments of the pasta business. In 2015, it concentrated on expansion of its gourmet premium sauce range, repositioning of the premium Triglioni fresh pasta range and assistance with expansion of the Croque Monsieur concept following the acquisition of Roland Monterrat.
- 2. CRECERPAL, located in Marseilles, with eight professionals at the raw material analytical laboratory plus an assistant PhD, centers its research effort on developments in the durum wheat category: dry pasta, couscous and new food transformation technology applied to the food industry. In 2015, it continued to work on new uses for durum wheat flour for batters, breads and baked goods; improvements in mill productivity; and the launch and expansion of the range of dry pastas with fresh pasta qualities and gluten-free pasta products.
- 3. The US center, with five employees who work to develop new products, processes and technologies and adapt them for the US rice and pasta divisions. Last year its efforts focused on rounding out the development and launch of the gluten-free range (linguini, lasagna); initiatives designed to boost efficiency and productivity of oven-ready and fiber-rich pastas by means of new and reformulated processes; validation vis-a-vis the US authorities (the FDA) of several grain varieties and new formulations for the "Ready To Serve" cup range; and the reformulation of certain multi-grain and gluten-free products.
- **4.** Centers associated with the Herba Group in Moncada (Valencia) and the San José de la Rinconada plant, with 26 employees devoted to the development of new and/or improved product and technologies and to the provision of technical assistance with rice technology for the fast food and catering distribution channels. The most important project underway at this center is the development of a line of functional flours and rice-, cereal- and legume-based ingredients, such as low GI and fast-cooking flours.

8. OWN SHARE TRANSACTIONS

In 2015, the Parent had the power to buy back and sell own shares under the scope of the authorization granted at the Annual General Meetings held on June 15, 2011 and June 3, 2015 for a period of five years (as duly notified to the CNMV in keeping with prevailing legislation). In 2015, the Company bought back 27,354 shares, sold 22,171 and delivered 24,646 own shares to employees. The Company did not hold any own shares as treasury stock at December 31, 2015.

9. OTHER RELEVANT DISCLOSURES

AVERAGE PAYMENT PERIOD

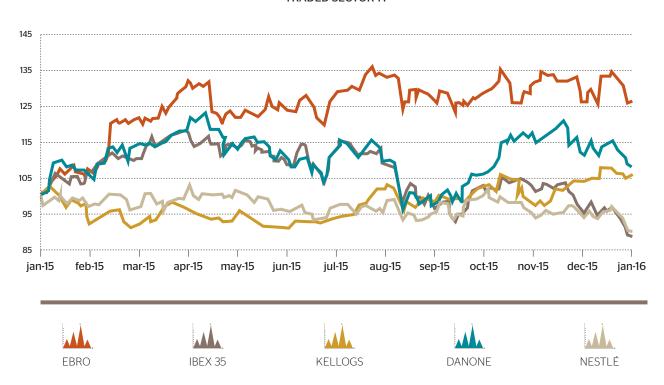

As required under the Spanish Corporate Enterprises Act, it is hereby noted that the average payment period of the companies domiciled in Spain was 25 days in 2015 and 26 days in 2014, within the deadlines stipulated in supplier payment legislation. Calculations made in accordance with the ICAC (Spanish Accounting and Audit Institute) Resolution.

	2015
Days	
Average supplier payment term	25
Paid transactions ratio	25
Ratio de operaciones pendientes de pago	21
Amount	
Total amount of payments made	266,064
Total amount pending payment	43,452

Thousands of euros

SHARE PRICE PERFORMANCE

TRADED SECTOR 1Y

The Company's shares outperformed the benchmark Spanish blue-chip index (the IBEX) and other comparable peers in the food sector in 2015.

DIVIDEND DISTRIBUTION

At the Annual General Meeting of June 3, 2015, the Company's shareholders ratified the motion to pay a cash dividend with a charge against unrestricted reserves of 0.66 euros per share (an ordinary dividend of 0.51 euros per share and a special dividend of 0.15 euros per share), payable in the course of 2015.

The ordinary dividend was paid out in three equal instalments of 0.17 euros per share on April 1, June 29 and October 2, 2015. The special dividend was paid out in a single instalment of 0.15 euros per share on December 22, 2015.

Alternative performance indicators

In keeping with the guidelines provided by the European Securities and Markets Authority (ESMA), there follows a description of the main alternative performance indicators used in this report.

These indicators are used frequently and consistently by the Group to explain its business performance and their definitions have not changed.

EBITDA. Earnings before interest, tax, depreciation and amortization and before earnings considered extraordinary or non-recurring (essentially gains or losses deriving from transactions involving the Group's fixed assets, industrial restructuring charges, provisions for or settlements from lawsuits, etc.).

Net debt. Interest-bearing financial liabilities, the amount of shareholdings subject to put/call options qualifying as financial liabilities and dividends accrued and pending payment, if any, less cash and cash equivalents.

Capital expenditure (Capex). Payments for investments in productive fixed assets.

ROCE. A measure of the return on assets calculated as average earnings before interest, tax and non-recurring earnings for a given period divided by average capital employed during that same period.

Leverage. A measure of creditworthiness calculated as the ratio of net debt to equity.

Debt coverage ratio. A measure of the entity's ability to service its net debt from earnings measured as the ratio of net debt to EBITDA.

ANNEX 1

Describe any significant variations during the year, according to the provisions of Royal Decree 1362/2007:

Explain the significant variations

A.9. Indicate the term and conditions of the authorisation granted by the General Meeting to the Board to buy or sell own shares

The Annual General Meeting of Shareholders held on second call on 3 June 2015 resolved, under item twelve on the agenda, to authorise the Board of Directors to buy back own shares and reduce the company's capital and to authorise subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in law.

a. Conditions of the authorisation

To authorise the board of directors, with the power to delegate, to buy back shares in Ebro Foods, S.A., directly or through its subsidiaries, by purchase, swap or under any other title and on one or several occasions, on the terms and conditions established in sections 146 et seq and sections 509 et seq of the Corporate Enterprises Act, and the following conditions::

- The par value of the shares purchased directly or indirectly, together with those already held by the company or its subsidiaries, shall not exceed 10% of the subscribed capital.
- The buyback, when added to the shares previously acquired by the company or any person acting in his own name but on behalf of the company and held in portfolio, shall not have the effect of reducing equity to below the amount of the capital plus the legal or restricted statutory reserves. For this purpose, equity shall be the amount considered such according to the principles for drawing up the annual accounts, less the amount of gains attributed directly thereto, plus the amount of uncalled subscribed capital and the par value and share premium of the subscribed capital recognised in liabilities.
- The shares thus acquired shall be fully paid up.
- The cap and floor values for buy-back shall be the market value of the shares on an official secondary market at the date of buy-back and a value equivalent to the par value of the own equity instruments acquired, respectively.

b. Contents of the authorisation

- To authorise the Board, by direct resolution or delegation to the Executive Committee, or by delegation to such person or persons as the Board may authorise for this purpose, to buy back own shares to hold them in its treasury stock, dispose of them or, as the case may be, put a motion at the General Meeting for their redemption, within the legal limits and complying with the conditions established in this resolution.

This authorisation is also extended to the possibility of buying back own shares for delivery, on one or several occasions, to the company or group employees, directly or following exercise of their option rights, pursuant to section 146.1(a), third paragraph, of the Corporate Enterprises Act..

It is also extended to acquisitions of shares in Ebro Foods, S.A. by its subsidiaries.

- To authorise the Board to reduce the capital in order to redeem the own equity instruments purchased by the company or other companies in its group against the capital (for their par value) and unrestricted reserves (for the cost of the acquisition in excess of that par value), by such amounts as it may deem fit from time to time and up to the maximum own shares held at any time.
- To delegate to the board to implement the aforesaid resolution to reduce the capital, which it may do on one or several occasions or declare it null and void, within a period not exceeding 5 years from the date of this General Meeting, taking such actions for this purpose as may be necessary or required by law.

The Board is especially authorised so that it may, within the times and limits indicated in this resolution, proceed to: (i) make or declare void the reduction of capital, naming if appropriate the specific date(s) of the transactions, taking account of any internal or external factors that may influence this decision; (ii) specify in each case the amount by which the capital is reduced; (iii) determine the destination of the amount of the reduction of capital; (iv) in each case adjust Articles 6 ("Capital") and 7 ("Shares") of the Articles of Association to reflect each new amount of capital and new number of shares; (v) apply in each case for delisting of the redeemed shares; and (vi) in general adopt such resolutions as may be considered necessary for redemption and the consequent reduction of capital, designating who is to put it on

c. Term of the authorisation

The authorisation contemplated in this resolution is granted for a maximum of five years from the date of the General Meeting (3 June 2015) and covers all transactions in own equity instrument made hereunder, without requiring reiteration for each acquisition made. It also covers any provisions or earmarking of reserves made in accordance with the Corporate Enterprise Act.

The resolutions adopted at the Annual General Meeting of 3 June 2015 regarding treasury stock, reduction of capital and delegation to the Board rendered void in the unused amount those adopted in this regard at the Annual General Meeting held on 15 June 2011. They remain in force, not having been since revoked.

The Corporate Governance chapter is structured in the following sub-sections:

- Regulations of the General Meeting
 General Meeting of Shareholders: exercise of the right to information
 General Shareholders' Meeting 2016
 Board of Directors

- Regulations of the Board
- Annual Corporate Governance Report
- Remuneration of Directors
- Board Committees
- Internal Code of Market Conduct
- Shareholders' Forum

The contents of this chapter are structured and hierarchical, with a concise, explanatory title, to permit rapid, direct access to each section, in accordance with legal recommendations, at less than three clicks from the home page.

All these sections have been designed and prepared according to the principle of accessibility, aiming to enable fast location and download of the required information.

The corporate website offers all the information in this section in Spanish and English, and the information considered most important is also provided in French, Catalan, Euskera and Galician.

C. MANAGEMENT STRUCTURE OF THE COMPANY

C.1 Board of Directors

C.1.1 State the maximum and minimum numbers of directors stipulated in the articles of association:

Maximum number of directors	15
Minimum number of directors	7

Total number of proprietary directors	6
% of board	50.00%

NON-EXECUTIVE INDEPENDENT DIRECTORS

Name of Director

JOSÉ ANTONIO SEGURADO GARCÍA

Profile

Born in Barcelona. Graduate in Law and Economics. Insurance broker and entrepreneur. Chairman of SEFISA, AEF and AEIM. Joint founder of CEIM and CEOE. President of the Liberal Party and MP in the National Government in the III and IV Parliamentary Terms. Member of the Trilateral Commission. Director of Unión y Fénix, Acerinox, J.W.Thompson and Vusa. Currently Chairman of Segurado & Galobart, S.L. and of the Advisory Council of Alkora EBS, Correduría de Seguros, S.A., Honorary Chairman & Founder of CEIM and member of the Management Board of CEOE and on the Advisory Board of Coviran, S.C.A. Grand Cross of the Order of 2 May awarded by the Community of Madrid.

Name of Director

FERNANDO CASTELLÓ CLEMENTE

Profile

Born in Mollerusa (Lleida). Industrial Engineer and MBA (IESE). Lecturer at the School of Engineers and Architects of Fribourg (Switzerland). Has held several important executive and management positions in companies operating in the dairy sector and has extensive experience in the sector.

Currently Vice-Chairman of Merchpensión, S.A. and on the board of other consultancy and financial services companies.

Name of Director

JOSÉ IGNACIO COMENGE SÁNCHEZ-REAL

Profile

Born in San Sebastián. Economist and graduate in International Banking. Extensive experience in the financial sector, director and executive positions in several financial institutions and insurance companies, such as Banco Hispano Americano, Mutua Madrileña and Axa Winterthur, among others. Chairman of Rexam Ibérica and Arbitraje Inversiones S.L.

Total number of independent directors	3
% of board	25.00%

State whether any director qualified as independent receives from the company or any other company in the same group any sum or gain other than directors' emoluments, or has or has had a business relationship with the company or any other company in its group during the past year, in his/her own name or as controlling shareholder, director or senior executive of a company which has or has had such a relationship.

None of the independent directors is in any of these circumstances.

If appropriate, include a reasoned statement by the board explaining why it considers that the director in question can perform his/her duties as an independent director.

OTHER NON-EXECUTIVE DIRECTORS

Name any other non-executive directors and explain why they cannot be considered proprietary or independent directors and their relationships, with the company or its executives or with the shareholders:

Name of Director

EUGENIO RUIZ-GÁLVEZ PRIEGO

Company, executive or shareholder with which he has a relationship: EBRO FOODS, S.A.

Reasons:

Eugenio Ruiz-Gálvez Priego is not a proprietary director because he does not hold a significant interest in the company or represent a significant shareholder; nor can he be considered an independent director since he has been a director of Ebro Foods, S.A. for more than 12 years in succession

Total number of other non-executive directors	1
% of board	8.33%

Indicate any variations during the year in the type of each director:

C.1.4 Complete the following table with details of the number of female directors over the past 4 years and the type of female directors:

	Number of female directors			Female directors / total directors of each type (%)				
	2015	2014	2013	2012	2015 2014 2013 2012			
Executive	0	0	0	0	0.00%	0.00%	0.00%	0.00%
Proprietary	2	2	2	1	28.57% 28.57% 28.57%		16.67%	
Independent	0	0	1	1	0.00%	0.00%	25.00%	25.00%

Other non-executive	0	0	0	0	0.00%	0.00%	0.00%	0.00%
Total	2	2	3	2	16.67%	16.67%	23.08%	16.67%

C.1.5 Explain any measures taken to endeavour to include in the board a number of women to give a balanced composition of men and women directors.

Explanation of measures

No specific measures of this nature have been adopted, the principal criterion applied when selecting candidates to the board being that the selection process should avoid any kind of implicit bias that could involve discrimination on any grounds against any of the candidates.

This notwithstanding, with regard to the balanced presence of women on the board, the Policy for Selecting Candidates to be Directors (approved by the Board of Directors) upholds the following principles: (i) a diversity of expertise, experience and gender on the Board shall be sought; and (ii) in equal conditions, the candidate whose gender is least represented on the board at that time shall be chosen.

In addition, the aforesaid Policy for Selecting Candidates to be Directors expressly contemplated the target that by 2020 the gender least represented on the Board shall account for at least thirty per cent of all the Board members.

C.1.6 Explain any measures agreed by the nomination committee to ensure that the selection procedures are not implicitly biased against the selection of female directors and that a conscious effort is made to include women with the target profile among the candidates:

Explanation of measures

There are no specific measures, other than the principles and target indicated in point C.1.5 above.

If, despite the measures taken, if any, there are few or no female directors, explain the reasons that justify this situation:

Explanation of reasons

The number of female directors was reduced to two following the resignation of one independent director as of 1 December 2014.

That vacancy was not filled, but if and when it is filled, the principles included in the Policy for Selecting Candidates to be Directors, particularly those regarding the balance of genders on the board, will be taken into account.

C.1.6 bis Explain the conclusions of the nomination committee on checking compliance with the policy for selecting directors and, in particular, on how that policy is promoting the target that by the year 2020 the number of female directors should represent at least 30% of all the board members.

Explanation of conclusions

No directors were nominated or re-elected during 2015, so there was no need to apply any of the criteria for selecting candidates contemplated in the Policy for Selecting Directors established in the company. Therefore, the Nomination and Remuneration Committee was not called on to check compliance with that policy during the reporting period.

- C.1.7 Explain the form of representation on the board of shareholders with significant interests.
 - The directors nominated by Instituto Hispánico del Arroz, S.A. and appointed by the general meeting are Instituto Hispánico del Arroz, S.A., Hispafoods Invest, S.L. (also a significant shareholder of the company) and Antonio Hernández Callejas.
 - The director nominated by Sociedad Estatal de Participaciones Industriales and appointed by the general meeting is Alimentos y Aceites, S.A.
 - The directors nominated by Sociedad Anónima Damm and appointed by the general meeting are Demetrio Carceller Arce and Dr Rudolf-August Oetker.

- The director nominated by Corporación Financiera Alba, S.A. and appointed by the general meeting is José Nieto de la Cierva.
- The director nominated by Juan Luis Gómez-Trenor Fos and appointed by the general meeting is Empresas Comerciales e Industriales Valencianas, S.L.
- C.1.8 Explain, if appropriate, why proprietary directors have been appointed at the request of shareholders holding less than 3% of the capital:

State whether any formal requests for presence on the board have been rejected from shareholders holding interests equal to or greater than others at whose request proprietary directors have been appointed. If appropriate, explain why such requests were not met:

YES	П	NO	X
		110	

- C.1.9 State whether any director has retired before the end of his/her term of office, whether said director explained the reasons for such decision to the Board and through what means, and if the explanations were sent in writing to the entire Board, explain below at least the reasons given by the director:
- C.1.10 Indicate the powers delegated to the Managing Director(s), if any:
- C.1.11 Name Board members, if any, who are also directors or executives of other companies in the same group as the listed company:

Name of director	Name of Group company	Position	Has executive duties?
ANTONIO HERNÁNDEZ CALLEJAS	VOGAN, LTD	DIRECTOR	YES

JOSÉ NIETO DE LA CIERVA	BANCA MARCH, S.A.	MANAGING DIRECTOR

C.1.13	,	where approprof f directorships			e compa	ny has estal	blished rules on
		YES	X	NO			

Explanation of the rules

Article 32.2 of the Regulations of the Board establishes, in the "General Duties of Directors" that Directors shall dedicate to the company such attention and time as may be necessary to guarantee the effective and adequate fulfilment of each and all of the duties corresponding to their position. Consequently, the maximum number of other directorships they may hold will be such as to ensure that they are able at all times to meet each and all of their obligations to the company.

C.1.14 Repealed.

C.1.15 Indicate the overall remuneration of the board:

Remuneration of the board (thousand euros)	4,907
Amount of the overall remuneration corresponding to the vested rights of current directors in pension schemes (thousand euros)	0
Amount of the overall remuneration corresponding to the vested rights of former directors in pension schemes (thousand euros)	4,907

C.1.16 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position
ANA MARÍA ANTEQUERA PARDO	MANAGER COMMUNICATIONS
LUIS PEÑA PAZOS	SECRETARY
LEONARDO ÁLVAREZ ARIAS	MANAGER I.T.
PABLO ALBENDEA SOLÍS	CHIEF OPERATING OFFICER
ALFONSO FUERTES BARRÓ	FINANCE MANAGER
GABRIEL SOLÍS PABLOS	TAX MANAGER
YOLANDA DE LA MORENA CEREZO	VICE-SECRETARY
JESÚS DE ZABALA BAZÁN	MANAGER INTERNAL AUDIT
MANUEL GONZÁLEZ DE LUNA	MANAGER INVESTOR RELATIONS AND FINANCIAL INSTITUTIONS
GLORIA RODRÍGUEZ PATA	CORPORATE ASSETS MANAGER

Total remuneration top management (thousand euro)	2,061
---	-------

C.1.17 Name any board members who are also on the boards of companies holding significant interests in the listed company and/or in companies of its group:

Name of director	Name of significant shareholder	Position
DEMETRIO CARCELLER ARCE	SOCIEDAD ANÓNIMA DAMM	CHAIRMAN
RUDOLF-AUGUST OETKER	SOCIEDAD ANÓNIMA DAMM	DIRECTOR
JOSÉ NIETO DE LA CIERVA	BANCA MARCH, S.A.	MANAGING DIRECTOR
JOSÉ NIETO DE LA CIERVA	BANCA INVERSIS, S.A.	CHAIRMAN
JOSÉ NIETO DE LA CIERVA	CORPORACIÓN FINANCIERA ALBA, S.A.	DIRECTOR

Describe the significant relationships of the board members with the controlling shareholders and/or companies in their group, other than as mentioned above:

Name of director

DEMETRIO CARCELLER ARCE

Name of significant shareholder SOCIEDAD ANÓNIMA DAMM

Description of relationship

Demetrio Carceller Arce has an indirect holding of 0.687% in Sociedad Anónima Damm

Name of director

ALIMENTOS Y ACEITES, S.A.

Name of significant shareholder

SOCIEDAD ESTATAL DE PARTICIPACIONES INDUSTRIALES

Description of relationship

Sociedad Estatal de Participaciones Industriales has a direct holding of 91.9625% in Alimentos y Aceites, S.A. and its company secretary and secretary of the board, Concepción Ordiz Fuertes, represents Alimentos y Aceites, S.A. on the board of Ebro Foods, S.A.

Name of director

EMPRESAS COMERCIALES E INDUSTRIALES VALENCIANAS, S.L.

Name of significant shareholder JUAN LUIS GÓMEZ-TRENOR FOS

Description of relationship

Juan Luis Gómez-Trenor Fos wholly owns Empresas Comerciales e Industriales Valencianas, S.L. and is Sole Director of the company.

C.1.18 State whether any modifications have been made during the year to the Regulations of the Board:

On 29 April 2015 the Board approved modifications to the Regulations of the Board, mainly to adapt them to the amendments to the Corporate Enterprises Act made by Act 31/2014 of 3 December and adapt the contents to the new good governance recommendations and the new Articles of Association and Regulations of the General Meeting made in the wake of the aforesaid change in the law and laid before the General Meeting for approval on 3 June 2015.

The modifications made to the Regulations of the Board affected practically all the articles (either by altering the contents in some aspect or by moving them within the new structure of the Regulations). Those modifications are summed up below:

- The programmatic content or principles have been reduced considerably and now the Regulations contain more specific rules on the composition, positions, procedure and powers of the Board and its committees, the status of director and relations between the board and shareholders, market, auditors and senior executives.
- Those aspects of the new legislation that the Board considered should be reflected in the Regulations have been included, while avoiding the inclusion of imperative legal provisions (applicable regardless of whether or not they are reflected in regulations), so that the Regulations will be an operational, practical document.
- As a rule, they maintain the set-up and powers of the different bodies, positions and committees previously contemplated in the Regulations, completing them (as far as possible with referrals to current legislation) with the new legal provisions.
- In Chapter I, containing the general provisions, the changes were essentially to wording.
- In Chapter II, on the composition of the Board, the qualitative criteria of the composition were developed, mainly in accordance with the relevant good governance recommendations.
- In Chapter III, on duties and powers of the Board, it was indicated that they were included, and should be construed, within the framework of the imperative legal regulation on the powers of this body. In the same sense, a specific article was included on the possibility of delegating those duties which, by law, cannot be delegated, although in emergencies the delegated bodies may adopt decisions on business within the competence of the Board, in which case they must subsequently be ratified by the Board.
- In Chapter IV, on the structure of the Board, the provisions on the Chairman, Vice-Chairman, Managing Director and Secretary were adapted to the current legal provisions. Regulation of the Lead Independent Director was also included, essentially in the same terms as those set out in the Corporate Enterprises Act as amended by Act 31/2014.
- In Chapter V, on the procedures of the Board, minimum changes were made in the wake of the new legal provisions: reference to the periodical assessment of the Board, calling of Board meetings at the request of the Lead Independent Director and the limitations on representation on the Board.
- In Chapter VI, on Committees, the previous text of the Regulations was largely maintained, with any changes considered necessary in respect of the new legal provisions. It was opted to maintain the lists of

powers attributed to the Committees, although they must fit in with those of the different corporate bodies according to the current legislation.

- Chapter VII, on the status of Directors, suffered the greatest changes, mainly due to the major amendments to the Corporate Enterprises Act made by Act 31/2014 regarding directors' duties. The company has endeavoured to include in the Regulations the main aspects of those amendments (which are mandatory). The article on directors' remuneration was also altered, adjusting it to the new text of the Articles of Association on the matter (laid before the AGM on 3 June 2015 and approved), which was in turn adapted to the new legal provision (distinguishing between the remuneration of the directors as such and the remuneration of directors for executive duties performed).
- In Chapter VIII, on relationships between the board and shareholders, markets, auditors and senior management, the previously existing regulations were largely maintained, with certain changes in wording, mainly to adjust the regulations to the amended Act.
- The Final Provisions were eliminated, although they must nevertheless be observed. However, it was considered unnecessary to include them in the Regulations.
- C.1.19 Describe the procedures for selection, appointment, re-election, assessment and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

The procedures for selection, appointment, re-election, assessment and removal of the directors are regulated in the Articles of Association and the Regulations of the Board.

There is also now a Policy for Selecting Candidates to be Directors of Ebro Foods, S.A., which specifically and verifiably establishes the basic criteria and principles to be followed in the selection of candidates. The Policy is applicable in the appointment, ratification and re-election of directors by the General Meeting and any appointments made by the Board by cooptation in the event of a vacancy pre-term. In directors who are legal persons, the principles and criteria of the Policy must be observed in respect of the individuals representing them on the board.

The General Meeting is responsible for deciding on the number of directors the company is to have, within the minimum (7) and maximum (15) established in the Articles of Association, and for appointing or re-electing directors as proposed by the Board, subject to a favourable report by the Nomination and Remuneration Committee.

The Board may also appoint directors by cooptation, subject to a report by the Nomination and Remuneration Committee.

In any case, the initiative of the Board regarding the incorporation of members by no means detracts from the sovereign power of the General Meeting to appoint and remove directors, or from any potential exercise by shareholders of their right to proportional representation.

The persons nominated by the Board for appointment or re-appointment as directors must be persons of recognised repute, with adequate experience and expertise to be able to perform their duties.

As regards the role of the Nomination and Remuneration Committee in the appointment of directors, see the duties of this Committee in Explanatory Note Seven of section H herein.

Directors are appointed for a term of four years, after which they are eligible for re-election on one or several occasions for terms of an equal duration. This term of four years is counted from the date of the General Meeting at which they are appointed, or ratified when previously appointed by cooptation by the Board.

If vacancies arise during the term for which they were appointed, the Board may appoint shareholders to fill those vacancies up to the next general meeting. Directors' appointments shall end at the first general meeting held after expiry of their term or lapse of the time stipulated in law for holding the general meeting that is to approve the accounts of the previous year.

The appointment and re-election procedure shall be preceded by the corresponding reports from the Nomination and Remuneration Committee and the Board, on the terms stipulated in law.

The Board regularly rates the Board, Chairman and Committees on their efficiency and fulfilment of their obligations, requesting the corresponding reports from its Committees and, if considered necessary, proposing any modifications that may be appropriate to improve their performance.

Directors retire upon expiry of the term for which they were appointed and in all other events stipulated in law, the Articles of Association or the Regulations of the Board. They must tender their resignations to the Board and step down in the events established in Article 24 of the Regulations of the Board.

C.1.20 Explain to what extent the annual assessment of the board has given rise to major changes in its internal organisation and the procedures applicable to its activities.

Description of modifications

It has not given rise to any change.

C.1.20.bis Describe the process of assessment and the areas assessed by the board, assisted where necessary by an external consultant, on diversity in its composition and powers, the procedure and composition of its committees, the performance by the chairman of the board and CEO of the company and the performance and contribution of each director.

A) Process of self-assessment:

A self-assessment process is carried out every year on the Board, its Committees and the executive chairman of the company. That process is based on (i) a report prepared by the Nomination and Remuneration Committee for presentation to the Board, (ii) the activity reports of the Audit and Compliance Committee and the Nomination and Remuneration Committee, and (iii) the resolutions adopted by the Board of Directors in view of the foregoing.

B) Methods used:

The Board members complete a questionnaire rating certain aspects regarding the quality and efficiency of the Board procedures, the actions performed by the chairman of the board, who is at the same time the chief executive of the company, and the procedure of the Executive Committee and other Board Committees. They can also make other comments, should they deem fit, on the functioning of the Board, its Committees and the Executive Chairman.

C) Areas assessed:

- Composition of the Board and actions by the Directors: assessment on the quantitative and qualitative composition of the Board and their perception of the performance by other directors of their duties.
- Procedure of the Board: assessment of the functioning of the Board, frequency of meetings, procedure for calling meetings, transaction of business within the Board and powers of the Board.
- Chairman of the Board: assessment on the dedication and actions by the Chairman, both as such and in his capacity as chief executive of the company.
- Committees of the Board: assessment of the directors' perception, from the Board, of the role of the Board Committees and perception of the members of the Board Committees on their functioning.
- C.1.20.ter Describe, where appropriate, any business relations between the consultant or any company in its group with the company or any other company in its group.

No assistance was received from external consultants in the assessment of the Board, its Committees and its Chairman in 2015.

C.1.21 State the events in which directors are obliged to step down.

The retirement and resignation of directors are regulated in Article 31 of the Regulations of the Board:

- Directors must step down at the end of the term for which they were appointed and in all other events stipulated in law, the Articles of Association and the Regulations of the Board.
- Directors must also tender their resignations and step down in the following cases:
- a) When they are affected by one of the causes of incompatibility or disqualification established in law, the articles of association or the regulations.
- b) When they step down from the executive post to which their appointment as director was linked, when the shareholder they represent on the Board disposes of its shares in the company or reduces its interest to an extent requiring a reduction in the number of proprietary directors and, in general, whenever the reasons for their appointment disappear.
- c) When the Board, following a report by the Nomination and Remuneration Committee, considers that the Director has seriously defaulted his obligations or for reasons of corporate interest.

% attendance over total votes during the year	98.61%

C.1.31 Are the separate and consolidated annual accounts submitted to the Board for approval previously certified?

YES □ NO ⊠

If yes, name the person(s) who certify the separate or consolidated annual accounts of the company before they are approved by the Board:

C.1.32 Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the separate and consolidated accounts laid before the General Meeting.

Relations with the auditors are expressly regulated in Article 43 of the Regulations of the Board.

The Board shall establish an objective, professional and continuous relationship with the external auditors of the company appointed by the general meeting, guaranteeing their independence and providing them with all the information they may require to perform their duties. This relationship and the relationship with the Internal Audit Manager shall be channelled through the Audit and Compliance Committee. Furthermore, the Board shall endeavour to draw up the Annual Accounts in such a way as to avoid a qualified Auditors' report.

Within the specific duties attributed to the board in certain areas, Article 9 of the Regulations establishes that the Board shall see that the separate and consolidated Annual Accounts and Directors' Reports give a true and fair view of the equity, financial position and results of the company, as stipulated in law, and each and all of the Directors shall have all the necessary information before signing the Annual Accounts.

Article 24.4 of the Regulations of the Board gives the Audit and Compliance Committee certain powers to ensure that the Annual Accounts are filed without a qualified auditors' report (see section C.2.4 of this Report).

Finally, there is a Risks Control and Management Policy established in the Group laying down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which the Company and other companies in its group are exposed.

As regards the control of financial reporting, the Group has procedures in place for checking and authorising financial reporting and a description of the financial reporting internal control system (FRICS), responsibility for which lies with the Economic and Finance Department, the Risks Committee, the economic and finance

departments of the different business units, the Audit and Compliance Committee and the Board. Financial information is checked and authorised up by the Economic and Finance Department of the Group on the basis of the information confirmed in the different business units. The information to be remitted to the market is supervised by the Audit and Compliance Committee and approved by the Board.

C.1.33 Is the Secretary of	the Board a Director?
----------------------------	-----------------------

YES □ NO ⊠

If the secretary is not a director, complete the following table:

Name of Secretary	Representative
LUIS PEÑA PAZOS	

C.1.34 Repealed.

C.1.35. Describe any mechanisms established by the company to preserve the independence of the auditor, financial analysts, investment banks and rating agencies.

A. With regard to the external auditors:

Both the Articles of Association and the Regulations of the Board vest in the Audit and Compliance Committee the power, among others, to contact the auditors and receive information on any issues that may jeopardise their independence, for examination by the Audit Committee, as well as any other issues relating to the auditing of accounts. The Committee shall also receive information from and exchange communications with the auditors in accordance with prevailing auditing standards and legislation, notwithstanding the ultimate responsibility of the Board, which, pursuant to Article 8.1.3.(a) of the Regulations of the Board is responsible for ensuring the independence and professional suitability of the External Auditor.

Article 43 of the Regulations of the Board addresses relations with the auditors, obliging the Board to establish an objective, professional, continuous relationship with the External Auditors of the Company appointed by the General Meeting, guaranteeing their independence and putting at their disposal all the information they may require to perform their duties. It further establishes that the aforesaid relationship with the External Auditors of the Company and the relationship with the Internal Audit Manager shall be conducted through the Audit and Compliance Committee.

Finally, Article 24.4 of the Regulations of the Board establish the following powers of the Audit and Compliance Committee in this respect:

- Supervise and promote the policies, procedures and systems used for drawing up and controlling the company's financial information, checking the services performed in this regard by the Internal Audit Department, the Financial Department and the Management Committee and making sure they are correctly distributed throughout the Group.
- Receive the information sent regularly to the Stock Exchange Councils, issue prospectuses and any public financial information offered by the Company and, in general, all information prepared for distribution among shareholders, ensuring the existence of internal control systems that guarantee the transparency and truth of the information.
- Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

In this respect, it shall also see that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. The Committee shall, through its Chairman, obtain information and collaboration from both the Internal Audit Manager and the external auditors to perform these duties.

- Establish regular contact with the external auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the external auditors in accordance with prevailing auditing standards and legislation.

- Be informed of the decisions adopted by the senior management according to recommendations made by the external auditors in connection with the audit.
- Ensure the independence of the external auditors and the existence of a discussion procedure enabling the external auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the external auditors and any supplementary services they may have provided.
- B. With regard to relations with analysts, investment banks and rating agencies:

The company has a Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors approved by the Board, and a shareholder and investor relations department, through which communications and information for investors in general are channelled.

Article 42 of the Regulations of the Board regulates the company's relations with shareholders and the markets in general, providing that the Board shall take such measures as may be necessary to enable participation by shareholders in general meetings and organise meetings to inform the shareholders and investors (particularly institutional investors) on the progress of the company and, where appropriate, its subsidiaries.

The Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors contemplates the following general principles applicable in this matter:

- Communication and relations with shareholders, institutional investors and proxy advisors shall be conducted in accordance with the principles of transparency, truth and permanent, adequate, timely reporting.
- The principle of non-discrimination and equal treatment is recognised for all shareholders who are in the same conditions and not affected by conflicts of interest or competence.
- The rights and legitimate interests of all shareholders shall be protected.
- Continuous, permanent communication with shareholders and investors shall be encouraged.
- Reporting and communication channels shall be established with shareholders and investors to ensure compliance with these principles.

The company's Audit and Compliance Committee is responsible for overseeing compliance with the rules and principles set out in the Policy on Communication and Relations with Shareholders, Institutional Investors and Proxy Advisors. Accordingly, the manager of the investor relations and communication department has reported to the Audit Committee on the work done in this respect.

ANTONIO HERNÁNDEZ CALLEJAS	CHAIRMAN	Executive
JOSÉ NIETO DE LA CIERVA	MEMBER	Proprietary

% executive directors	25.00%
% proprietary directors	50.00%
% independent directors	25.00%
% other non-executive directors	0.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

The Executive Committee shall have no fewer than three nor more than seven members, including the Chairman and Vice-Chairman of the Board, who will form part of this Committee.

The Executive Committee shall be presided by the Chairman of the Board.

The Executive Committee shall generally hold one meeting a month. Its meetings may be attended by such members of the management, employees and advisers of the company as the Committee may deem fit. The powers of the Executive Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

State whether the composition of this committee reflects the participation in the Board of the different categories of director:

	YES	$\overline{\mathbf{X}}$	NO	
--	-----	-------------------------	----	--

AUDIT AND COMPLIANCE COMMITTEE

Name	Position	Туре
EUGENIO RUIZ-GÁLVEZ PRIEGO	MEMBER	Other non-executive
FERNANDO CASTELLÓ CLEMENTE	MEMBER	Independent

% independent directors	50.00%
% other non-executive directors	25.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

This Committee has a minimum of three directors and a maximum of five.

All the members of this committee must be non-executive directors and at least two of them must be independent directors. One of the members must be appointed on account of his expertise and experience in accounting, auditing or both.

The Board shall appoint one of the independent directors on the Audit and Compliance Committee to chair that committee, subject to a report by the Nomination and Remuneration Committee. The Committee Chairman shall be replaced every four years and will become eligible for re-election one year after his retirement as such.

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The powers of the Audit and Compliance Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

Name the member of the audit committee who has been appointed on account of his expertise and experience in accounting, auditing or both and indicate the number of years that the chairman of this committee has held this position:

% independent directors	50.00%
% other non-executive directors	0.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

This Committee has a minimum of three and a maximum of five non-executive directors, at least two of which must be independent directors. The members are appointed by the Board in accordance with the provisions of law, the Articles of Association and the Regulations of the Board.

The Board shall appoint one of the independent directors who are members of the committee to chair it, subject to a report by that Committee.

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The powers of the Nomination and Remuneration Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

STRATEGY AND INVESTMENT COMMITTEE

Name	Position	Туре
DEMETRIO CARCELLER ARCE	CHAIRMAN	Proprietary
ANTONIO HERNÁNDEZ CALLEJAS	MEMBER	Executive
JOSÉ NIETO DE LA CIERVA	MEMBER	Proprietary
INSTITUTO HISPÁNICO DEL ARROZ, S.A.	MEMBER	Executive

% executive directors	50.00%
% proprietary directors	50.00%
% independent directors	0.00%
% other non-executive directors	0.00%

Explain the duties attributed to this committee, describe the procedures and rules of organisation and procedure and summarise its most important actions during the year.

This Committee has a minimum of three and a maximum of five directors, including a Chairman, appointed by the Board subject to a report by the Nomination and Remuneration Committee

Meetings are held when called by its Chairman, or at the request of two of its members and at least once every three months. It shall also meet whenever so required by law or when the Board requests the issuance of reports, submission of proposals or adoption of resolutions within the scope of its duties.

The powers of the Strategy and Investment Committee and its actions during 2015 are set out in Explanatory Note Seven in section H of this report.

C.2.2 Complete the following table with information on the number of female directors on the board committees over the past four years:

	Number of female directors							
	2015		2014		2013		2012	
	No.	%	No.	%	No.	%	No.	%
EXECUTIVE COMMITTEE	0	0.00%	0	0.00%	0	0.00%	0	0.00%

NOMINATION AND REMUNERATION COMMITTEE	1	25.00%	1	25.00%	2	40.00%	2	40.00%
STRATEGY AND INVESTMENT COMMITTEE	0	0.00%	0	0.00%	0	0.00%	0	0.00%

- C.2.3 Repealed.
- C.2.4 Repealed.
- C.2.5 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each committee.

In general, Article 28 of the Articles of Association establishes the basic regulation of the Committees of the Board, contemplating the existence and composition of (i) the Executive Committee, (ii) the Audit and Compliance Committee and (iii) the Nomination and Remuneration Committee. It also refers to the Regulations of the Board regarding the possible existence of a Strategy and Investment Committee.

The Regulations of the Board regulate the Board committees in the following specific provisions:

- General provisions applicable to all the committees: Article 22

- Executive Committee, Article 23
- Audit and Compliance Committee, Article 24
- Nomination and Remuneration Committee, Article 25
- Strategy and Investment Committee, Article 26

The Regulations of the Board also contemplate in different articles powers of the different Committees of the Board in different areas (e.g. modification of the Regulations).

Both the Articles of Association and the Regulations of the Board are available for consultation on the company's website (www.ebrofoods.es) and the website of the National Securities Market Commission (www.cnmv.es).

See section C.1.8 of this report for the latest alterations to the Regulations of the Board.

Both the Audit and Compliance Committee and the Nomination and Remuneration Committee issue annual activity reports, which are submitted to the Board of Directors for its information and consideration within the assessment of the Board and its Committees. Those activity reports are made available for shareholders on the company's website (www.ebrofoods.es) coinciding with the call to the Annual General Meeting of Shareholders.

C.2.6 Repealed.

D. RELATED PARTY AND INTER-COMPANY TRANSACTIONS

D.1 Explain the procedure, if any, for approving related party and inter-company transactions.

Procedure for approving related party transactions

Apart from cases which, by law, require approval by the General Meeting, related party transactions are approved by the Board subject to a report by the Audit and Compliance Committee.

Article 24 of the Regulations of the Board establishes the power of the Audit and Compliance Committee to report to the Board prior to the adoption of any decisions on related party transactions submitted for its authorisation and to supervise and report to the Board on intragroup and related party transactions of the company or subsidiaries of the Group

With regard to related party transactions, Article 37.3 of the Regulations of the Board expressly establishes that other than in the cases in which this power is reserved by law to the General Meeting, any transactions made by the company or group companies with directors, controlling shareholders, other related parties or shareholders represented on the Board must be authorised by the Board.

This authorisation is not necessary when the transactions meet all of the following three conditions: (i) they are made under contracts with standard terms and conditions applied "en masse" to numerous clients; (ii) they are made at prices or rates established generally by the supplier of the goods or provider of the services in question. (iii) the amount thereof does not exceed 1% of the company's annual revenue. A general, prior authorisation by the Board for a line of transactions and their conditions, subject to a report by the Audit and Compliance Committee, will only be sufficient for bilateral or recurring transactions made in the normal course of the company's business. By exception, in cases where urgent action is necessary, related party transactions may be authorised by the Executive Committee, subject to subsequent ratification by the Board.

Finally, the company makes intragroup transactions on arm's length terms, documenting them according to the requirements of the laws (essentially tax laws) in place in each jurisdiction. This is one of the practices required by the Risk Control and Management Policy established in the Ebro Group.

D.2 List any transactions for a significant amount or object between the company and/or companies in its group and controlling shareholders of the company:

Name of significant shareholder	Name of company or group company	Relationship	Type of transaction	Amount (thousan d euro)
SOCIEDAD ANÓNIMA DAMM	HERBA RICEMILLS, S.L.U.	Contractual	Sale of goods (finished or otherwise)	1,036

Report any significant transactions with other companies in the group that are not eliminated in the consolidated financial statements and which do not, by virtue of their object or terms, correspond to the normal business of the Company:

In any case, inform on any inter-company transaction with companies established in countries or territories considered tax havens:

D.5 State the amount of transactions made with other related parties.

130 (thousand euros).

D.

D.6 Describe the mechanisms established to detect, define and resolve possible conflicts of interest between the company and/or its group, and its directors, executives or controlling shareholders:

Apart from the powers of the General Meeting and the Board of Directors on conflicts of interest of the directors, under Article 24 of the Regulations of the Board, the Audit and Compliance Committee has the power to settle any conflicts of interest that may arise between the company or the group and its directors, executives, significant shareholders and listed subsidiaries, if any.

With regard to the directors, Article 36 of the Regulations of the Board provides that directors may not perform activities for their own or third party account that effectively or potentially compete with the company or which otherwise puts them in a permanent conflict of interest with the company; and Article 37.1 establishes the obligation of directors to take such measures as may be necessary to avoid falling into situations in which their interests, for their own or third party account, may conflict with the corporate interests and their duties to the company.

For this purpose, Article 38 of the Regulations stipulates that directors shall inform the Board of any direct or indirect conflict of interest that they or any of their related parties may have with the company. Furthermore, pursuant to Article 32.4 of the Regulations, directors shall abstain from participating in the corresponding debates and voting on resolutions or decisions in which they or any person related to them has a direct or indirect conflict of interest, except in the cases in which they are authorised by law to participate in the discussion and voting.

As far as executives of the Group are concerned, the Internal Code of Market Conduct stipulates in Rule 11 that any Relevant Persons (which includes Group executives) who are or may be in a conflict of interest shall Inform the Compliance Unit (reporting to the Audit and Compliance Committee) of their situation, abstain from participating in or

	influencing any decisions on the matters affected by the conflict, act with freedom of judgement, loyalty to the Company and its shareholders and independently of their own interests and abstain from requesting or having access to any information or documentation related with the conflict of interest
	Without prejudice to their obligation to inform, both the directors and the significant shareholders of the company as asked each year, when drawing up the Annual Accounts and preparing the Annual Corporate Governance Report, for confirmation of any transactions that they may have made with the company and/or other companies in the group, the engagement in activities similar or complementary to those included in the company's objects and that there have been on other conflicts of interest during the year.
7	Is more than one company of the Group listed in Spain?
	YES □ NO ⊠
	Name any subsidiaries listed in Spain:

Listed subsidiary

State whether the respective areas of business and possible business relationships between them have been precisely and publicly defined, as well as those of the listed subsidiary with other group companies;

Define any business relationships between the parent company and the listed subsidiary and between the latter and the other group companies

Describe the mechanisms in place to settle any possible conflicts of interest between the listed subsidiary and other companies in the group:

Mechanisms for solving possible conflicts of interest

E. RISK CONTROL AND MANAGEMENT SYSTEMS

E.1 Explain the scope of the company's Risk Management System, including tax risks.

As an integral part of the corporate policies passed by the Board, the Risk Control and Management Policy lays down the basic principles and the general framework for control and management of the business risks, including tax risks, and internal control of financial reporting to which the Company and other companies in its group are exposed.

Within this general framework, the integral, homogenous Risk Control and Management System is based on the preparation of a business risk map, through which, by pinpointing, assessing and grading of the risk management capacity, the risks are ranked from greater to lesser impact for the Group and by probability of occurrence. The risk map also identifies methods for mitigating or neutralising the risks detected.

The risk universe is structured in four main groups: compliance, operational, strategic and financial, and they are all subdivided into a large number of categories.

The risk classification process dynamically assesses both the inherent risk and the residual risk after application of the internal controls and action protocols established to mitigate them. These controls include preventive controls, adequate separation of duties, clear levels of authorisation and definition of policies and procedures. These controls can in turn be grouped into manual and automatic, made by data processing applications.

This model is both qualitative and quantitative and can be measured in the Group's results, for which purpose the risk level is considered acceptable or tolerable on a corporate level.

The Risk Control and Management System is dynamic, so the risks to be considered will vary according to the circumstances in which the Group's business is performed.

E.2 Name the corporate bodies responsible for preparing and implementing the Risk Management System, including tax risks.

In 2015, in the wake of the amendments to the Corporate Enterprises Act in December 2014 and the new recommendations included in the Code of Good Governance of Listed Companies in February 2015, the Group has bolstered its Risk (including tax risks) Control System and internal control of financial reporting, the main novelty being the creation of the Risks Committee, an internal committee reporting to the Audit and Compliance Committee, as the centrepiece of the control system.

Following those changes, the System for Control and Management of Risks, including tax risks, and control of financial reporting is based essentially on the following structure:

- The Board of Directors, as ultimately responsible, defines the policy for control and management of risks, including tax risks, and control of financial reporting. Article 17.3 of the Regulations of the Board provide that the Board shall receive information on the most important aspects of business management and any foreseeable risk situations for the Company and its subsidiaries, together with the actions proposed by the senior management in respect thereof.
- The Audit and Compliance Committee, through the Risks Committee, performs the duties of oversight and monitoring of the financial reporting and risk control systems, reporting regularly to the Board on any significant aspects arising in

these areas. It is responsible for supervising and promoting internal control of the company and the risk management systems and submitting recommendations to the Board on the risk control and management policy and possible mitigation measures in those areas.

- The Risks Committee, based on the policy established by the Board and under the supervision of and reporting to the Audit Committee, is specifically responsible for coordinating and monitoring the system for control and management of risks, including tax risks, and control of the Group's financial reporting. The Risks Committee also analyses and assesses the risks associated with new investments
- The Management Committees of the different units, on which the Chairman of the Board and the Chief Operating Office (COO) sit, assess the risks and mitigation measures.
- Risk officers in the different units. The Risks Committee nominates individuals in the major subsidiaries to monitor the systems for control and management of risks, including tax risks, and control of the financial reporting and reporting to the Committee.
- Internal Audit Department. Within the internal audits of the different subsidiaries, the Company's Internal Audit Department shall check that the testing and control of the financial reporting and risk management systems have been performed adequately in accordance with the indications by the Risks Committee.

E.3 Define the main risks, including tax risks, that could have a bearing on achievement of the company's business goals.

- · Operational risks:
- Food safety and environmental risks: Owing to the nature of the Group's business, aspects regarding food safety are a critical point to which the Group pays the utmost attention, as it is bound by a large number of laws and standards in each of the countries in which the Group's products are put on the market. Respect for the environment is another critical point for the Group, considering our industrial activity, with a large number of plants distributed mainly throughout Europe and the USA.
- Commodity supply risk: The availability of commodities in the quantity and quality required to meet our commitments to customers and the requirements of our brands is a key factor for our business both nationally (Spanish paddy rice) and internationally (semi-processed rice for the Group subsidiaries).
- Market risk (prices): Unexpected variations in the prices of our commodity supplies may seriously affect the profitability of our commercial transactions, in both the industrial and brand-based segments.
- Customer concentration risk: The concentration of customers, which can occur in both the industrial and retail segments, may lead to less favourable commercial terms for our sales and affect our credit risk.
- Technological risk. In our sector, one of the most important tools for competing with our rivals is based on constant technological innovation and searching for ways to adapt to consumers' desires. Consequently, "technological lag" is considered a possible risk.
- · Risks related with the environment and strategy:
- Environmental/climate risk: The effects of droughts, flooding and other weather perils in the countries where we source our supplies can cause problems of availability and unstable commodity prices, in both rice and durum wheat.
- Competition risk: In general, the pressure from white label brands is the main threat for maintaining our market shares.
- Reputational risk: This is the risk associated with changes of opinion resulting in a negative perception of the Group, its brands or products by customers, shareholders, suppliers, market analysts, etc., as they may adversely affect the Group's ability to maintain its commercial and financial relations.
- Changes in lifestyle: The proliferation of low carbohydrate diets or other food habits could alter consumers' perception of our products.
- Country or market risk. Owing to the international nature of the Group's activities, political and economic circumstances in the different countries in which we operate and other market variables, such as exchange rates, interest rates, costs of production, etc. may affect our business.
- Natural disasters, fires, etc.: As a major industrial group, a significant part of the assets on the Group's balance sheet corresponds to its factories, so any natural incidents (earthquakes, fires or similar) that may affect the integrity of the Group's plants are a business risk.

- · Compliance risks:
- Sectoral regulatory risk: The food industry is a sector subject to numerous regulations affecting export and import quotas, customs duties, intervention prices, etc., subject to the directives laid down in the Common Agricultural Policy (CAP). The Group's activity may also be affected by changes in legislation in the countries in which it sources raw materials or sells its products.
- General regulatory risk: These include risks of compliance with civil, commercial, criminal and good governance provisions. In the area of criminal risks, the Group has a Crime Prevention Model, monitored and controlled by the Compliance Unit.
- Tax risks: Any changes in the tax laws or the interpretation or application thereof by the competent authorities in the countries in which the Group operates could affect its earnings.
- Financial risks: This group includes foreign exchange, interest rate, liquidity and credit risks. The foreign exchange risk is particularly significant because the functional currency of the Group is the euro, but a considerable part of its commodity supply transactions are in US dollars and a very large part of the Group's investments are also in that currency.

E.4 State whether the company has a risk tolerance level, including one for tax risks.

Risks are measured by both inherent and residual risk. A scorecard is made each year of the principal ten risks to which the Group may be exposed (the TOP TEN), which are rated and measured as far as possible. If the economic consequences of a risk could cause a loss (or a loss of profit) of more than 5% of the consolidated EBITDA budgeted, or over 20% of the individual EBITDA of a business, it is considered a threat requiring corporate action.

In general, the heads of the different business units (the Management Committee of each unit) define the risks affecting their respective businesses, assess the possible economic impact of those risks and, according to the specific circumstances prevailing, establish whatever mitigation measures they deem fit. Without prejudice to the supervision by the Risks Committee and Audit Committee, the Management Committee of each unit implements and monitors the mitigation measures taken and assesses the results thereof.

This notwithstanding, when a threat is identified that requires action on a corporate level (as mentioned in the first paragraph above), the persons responsible for risk control and management in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit.

E.5 What risks, including tax risks, have occurred during the year?

The main risks that occurred during the reporting period were related with the supply of raw materials:

- There was a shortage in 2015 of domestic pearl rice stocks, which the Group uses in its brands. The problem stemmed from a small harvest the previous autumn and increased competition from other operators for supplies of this type of rice. The situation recurred with the new harvest and became a threat for the Group's brands. Measures were immediately put into place, consisting of international sourcing to find and obtain supplies of similar varieties. New controls over rice varieties have been established in the IT systems as a preventive measure, enabling the company to anticipate this type of situation according to sales budgets.
- The drought persisted in Texas for the fourth year in succession, with water levels in the reservoirs at all-time lows, preventing irrigation in traditional rice-growing areas and generating a small harvest, with a price spread over other sources. This has forced our Freeport plant in Texas to seek alternative sources of supply, which entail higher logistic costs, dragging down the profits of this plant. Riviana (the Group's US subsidiary) has had to move part of its Freeport production to another plant in Tennessee, where it is easier to obtain rice from Arkansas and Louisiana and minimise the cost structure of the plant.
- The 2014/2015 durum wheat harvest suffered several problems of quality and yield caused by weather factors that affected some of the principal producers (France, United States and Canada). As a result, prices soared in the last third of 2014, with a terrific impact on the cost of the Group's supplies. To cope with this, the Group's subsidiaries raised the prices of certain products and cut promotions after making a thorough study of product listings and customers. Controls were also stepped up on purchases and stock to enable the maximum possible flexibility in the face of expected changes in the market, which indeed occurred as from the new 2015/2016 harvest, when prices came down.

Other financial and competition risks also occurred:

- There was a sharp devaluation of the Canadian dollar in 2015, falling 23% against the American dollar. Part of the supplies of our subsidiary in Canada, Catelli, are made in US\$, with the consequent increase in the cost of its products. This increased cost was partly offset by raising the selling prices of the affected products and using alternative cover to guarantee the cash flows deriving from these transactions.
- A regional rival in the fresh pasta business in Canada has embarked on a very aggressive strategy, taking advantage of the start-up of a new plant enabling them to increase their production capacity. As a result of this increase in their activity, Olivieri (Canadian subsidiary of the Group) has lost part of its business with one of our customers in two provinces of Canada. This has also put extra pressure on selling prices and promotions in this segment. In response, Olivieri has increased the number of exclusive agreements and private label production agreements to guarantee an adequate volume of production in the medium term so as to ensure its medium and long-term profit and recover positions through innovation.

E.6 Explain the response and supervision plans for the main risks, including tax risks, to which the company is exposed.

The management committee in each subsidiary is responsible for monitoring the subsidiary's risk supervision system. Management committees usually meet monthly to analyse any risks that may have materialised and follow up the contingency plans and actions taken to mitigate them. Control and monitoring of the economic variables in each subsidiary against the corresponding budget also ensures the immediate detection of unforeseen risk situations. The subsidiaries with greatest weight within the Group, such as the North American subsidiaries, have "Crisis Management Plans" (CMP), which specify the main risks to which the company is exposed, the protocols for responding to them and the company officers responsible for implementation.

This notwithstanding, when a threat is identified that requires action on a corporate level (see section E.4), the persons responsible for risk control and management in the corresponding unit inform the Risks Committee of the situation, proposing such mitigation measures as may be considered adequate. The Risks Committee assesses the situation and the sufficiency and suitability of the proposed mitigation measures, supplementing them with additional measures should it deem fit.

The measures to control, reduce and, as the case may be, mitigate the risks are established according to the following basic criteria:

- They shall seek to neutralise the risk detected, maintaining coherence between the importance of the risk and the cost and means required to neutralise it.
- If neutralisation is not feasible, measures shall be designed to reduce the potential economic consequences, if possible to within tolerance levels.
- The management and control shall, as far as possible, forestall rather than remedy.
- The control mechanisms shall adequately separate management and oversight.
- The different people responsible for risk management shall coordinate their actions to be efficient, seeking the utmost integration between control systems.
- Maximum transparency shall be ensured in the identification and assessment of risks, specification and implementation of mitigation measures and assessment of the results of those measures.
- Compliance must be guaranteed with the internal reporting requirements to the bodies responsible for supervision and control

F FINANCIAL REPORTING INTERNAL RISK CONTROL AND MANAGEMENT SYSTEM (FRICS)

Describe the mechanisms comprising the financial reporting internal control and risk management systems (FRICS) of your company

F.1 Control environment

Report on at least the following, describing their principal features:

F.1.1 What bodies and/or duties are responsible for: (i) the existence and maintenance of an adequate and effective FRICS; (ii) its implementation; and (iii) its oversight?

As established in its Regulations, the Board of Directors is ultimately responsible for the existence, maintenance and oversight of an adequate, effective financial reporting internal control system (FRICS).

The Audit and Compliance Committee is responsible for: (i) supervising and promoting the procedures and systems used to prepare and control the company's financial reporting; (ii) checking any public financial reporting; and (iii) ensuring implementation of and compliance with the internal regulations and codes applicable to the risk control and management systems in relation to the financial reporting process.

The Management Committee is responsible for the design, implementation and functioning of the FRICS through the Group Finance Department and the Finance Departments of the different business units. The different general managements are responsible for effective implementation of these systems within their respective areas of activity. There are also officers responsible for the different processes documented within the FRICS, who must ensure that those processes are kept up to date, informing the Risks Committee, through the finance department and general management of the corresponding business unit, of any modifications or adaptations required.

The Risks Committee, reporting to the Audit and Compliance Committee, is specifically responsible for coordinating and monitoring the system for control and management of risks, including tax risks, and controlling the Group's financial reporting.

- F.1.2 State whether the following elements exist, especially in respect of the financial reporting process:
 - Departments and/or mechanisms responsible for: (i) designing and reviewing the
 organisational structure; (ii) clearly defining the lines of responsibility and authority, with an
 adequate distribution of tasks and duties; and (iii) ensuring that there are sufficient procedures
 for adequately informing the company.

As established in its Regulations, the board is responsible for defining the general strategy and guidelines for management of the company and encouraging and supervising the actions taken by the senior officers, establishing an organisational structure that will guarantee the utmost efficiency of the senior management and the management team in general.

According to the Regulations of the Board, the Nomination and Remuneration Committee is responsible for checking the criteria followed regarding the composition and structure of the board and for selecting candidates for the board. It also nominates the chairman, CEO or managing directors and secretary of the board and proposes the assignment of directors to the different board committees, the members of the Management Committee and any other advisory committees that the board may create.

In turn, under the policies approved by the Board, the Nomination and Remuneration Committee supervises the Senior Management of the group, both in appointments and removals and in assessing the senior executive remuneration and incentives policy.

Within each group company, the organisational structure of the units participating in the preparation of financial reporting depends on several factors, such as the volume of operations or type of business, but in all cases it corresponds to the need to cover the main duties of recording, preparing, checking and reporting the operations performed and the economic and financial position of the company. The executive directors and management of Ebro Foods participate actively in the management committees of the group's subsidiaries, thereby guaranteeing direct communication through the lines of responsibility and authority.

The senior management and the human resources departments of the Group and each of the subsidiaries are responsible for designing the organisational structure according to local needs, the most important subsidiaries having a formal definition through organisation charts, which include a description of the duties and responsibilities of the main areas participating in internal control of financial reporting.

The different job descriptions of positions and responsibilities are maintained by the human resources department of each subsidiary and the managements of all the subsidiaries, especially the financial managements, are informed of any new member of a subsidiary.

 Code of conduct, body responsible for its approval, degree of publicity and instruction, principles and values included (stating whether there is any specific mention of the recording of transactions and preparation of financial reporting), body responsible for analysing default and proposing corrective measures and penalties.

The Code of Conduct of the Ebro Group, an update of the earlier Codes of Ethics and Conduct of the Ebro Foods Group, was approved by the board on 25 November 2015 and all levels of the organisation were notified.

The Code of Conduct provides guidance on how to act in the Group's internal and external relationships, strengthening the values that distinguish us and establishing a basic reference to be followed by the Group.

The Code aims to:

- · Be a formal, institutional reference for personal and professional conduct.
- · Guarantee the responsible, ethical behaviour of all the Group's professionals in their work.
- · Reduce the element of subjectivity in personal interpretations of moral and ethical principles.
- Create a standardisation tool to guarantee progressive implementation throughout the Group of the ten principles of the UN Global Compact.
- · Grow responsibly and committed to all our stakeholders.

As established in the Code of Conduct, the Group assumes a principle of conduct based on transparent reporting, consisting of an undertaking to report reliable financial, accounting or other information to the markets. Accordingly, the company's internal and external financial reporting will give a true and fair view of its real economic, financial and equity situation according to generally accepted accounting principles.

Employees formally sign the Code of Conduct when they join the workforce of practically any Group company and it has been distributed among all Group employees during the year.

The Code of Conduct is also published in the Intranet, where it can be consulted by any employee, and on the Group's website.

The Audit and Compliance Committee is responsible for monitoring and controlling application of the Code. It has a Compliance Unit, with sufficient initiative, autonomy and resources, which is responsible, among other duties, for assisting the Audit and Compliance Committee in the supervision of compliance, publication and interpretation of the Code of Conduct.

The Audit and Compliance Committee has an e-mail address to which any Group employee may send queries and suggestions regarding the interpretation of the Code of Conduct.

The Audit and Compliance Committee reports regularly to the Group's Board of Directors on any queries raised in respect of the interpretation and application of the Code of Conduct, how they have been solved and, where appropriate, the interpretation criteria followed.

The Code of Conduct provides that any violation or breach of the Code that is classified as a labour offence shall be penalised according to the labour laws, without prejudice to any other liability that the infringer may incur and the remedial measures that may be established by the different Group companies in pursuance of prevailing laws. On a Group level, the Audit and Compliance Committee, assisted by the Compliance Unit, shall receive reports of any violation of the Code of Conduct and act accordingly.

Whistleblowing channel, through which the audit committee can be informed of any financial
or accounting irregularities, any breaches of the code of conduct and irregular activities within
the organisation, indicating whether this channel is confidential.

As established in the Regulations of the Board, the Audit and Compliance Committee is formally responsible for implementing a confidential whistle-blowing channel accessible to all Group employees and defining a protocol for prioritising, processing, investigating and settling reports according to their importance and nature, especially any concerning possible financial or accounting misrepresentations.

For this purpose, the Ebro Group has established a whistle-blowing or reporting channel, through its Code of Conduct, through which any irregular conduct in financial, accounting or other areas and any breach of the code of conduct can be reported confidentially.

The Audit and Compliance Committee has a specific e-mail address through which any employees may report whatever conduct they may consider necessary and contact the Audit and Compliance Committee to inform on breaches of the code of conduct. Access to that e-mail account, technologically protected to prevent any unauthorised access, is limited exclusively to the Chairman of the Audit and Compliance Committee who, as an independent director, has no relationship with the management structure of the Group.

The Audit and Compliance Committee guarantees the confidentiality of the reports handled, according to a confidentiality commitment signed by all those involved in handling the reports and other precautions included in the "Report Handling Protocol". That protocol, approved by the Audit and Compliance Committee in 2012, establishes the procedure to be followed on receiving reports, regarding their processing, prioritising, solving and notification.

 Training programmes and regular updates for employees involved in the preparation and checking of financial information and evaluation by the FRICS, covering at least accounting and auditing standards, internal control and risk management.

The Ebro Group has a policy of making sure it has personnel with sufficient training and experience to perform the duties and responsibilities assigned to them. The Ebro employees involved in the preparation and checking of the financial information and FRICS evaluation participate in training and refresher courses regarding the laws and standards in place from time to time and good practices to guarantee the reliability of the financial information generated.

The Ebro Group also encourages and provides means and resources for its employees to keep their accounting knowledge up to date through the attendance of seminars, on-line information and other means and regular meetings are held with the external auditors to assess in advance the standards in place or those about to enter into force.

During the year the Ebro Group has focused its training for personnel involved in the preparation and checking of financial information and FRICS evaluation on the following aspects:

- Accounting updates
- Management and control of costs for business decision-making
- Training in the tax laws in different countries
- Financial reporting internal control system manual

In addition, the external auditors of the company and its group regularly attend the meetings of the Audit and Compliance Committee to give training on the principal novelties in accounting and auditing, especially those that have or may have a greater effect on the Group's accounts.

F.2 Measurement of risks in financial reporting

Report at least on:

- F.2.1 What are the main features of the risk identification process, including risks of error or fraud, in respect of:
 - Whether the process exists and is documented.

Within the risk control and management policy approved by the Board, the financial reporting internal control system is supervised by the Audit and Compliance Committee, assisted by the Risks Committee and the Group Finance Department.

The potential risk events that could affect the organisation are identified and assessed through the FRICS, pinpointing and assessing the risks corresponding to each line of business. Through this risk control and management system, the Ebro Group has drawn up a consolidated risk map by compiling and combining the risk maps of its major subsidiaries.

This process is coordinated by a group-level team, which manages and establishes the permitted tolerance to the risk and coordinates actions to align the measures addressing risks with the Group's global risk policy so that the exposure to risk assumed by the Ebro Group overall is known at all times.

Based on the results obtained, systems are devised for addressing risks and internal control, to keep the likelihood and impact of those risks on financial reporting within the tolerance levels, thereby providing reasonable certainty regarding achievement of the strategic business goals.

 Whether the process covers all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations); whether it is updated and how often. The Ebro Group has established a continuous improvement process to minimise the risks related with financial reporting, improving the design and effectiveness of existing controls.

For this purpose, it has a process identifying the risks affecting the reliability of financial reporting, based on and beginning with a definition of the scope, according to quantitative criteria of materiality in respect of the consolidated amounts and other qualitative criteria (error, fraud, uncommon transactions, etc.). Companies in the major business units or divisions that meet any of the afore-mentioned criteria and the material accounting items of each one are defined according to those criteria. Once the material items have been defined on a company level, the processes and sub-processes they affect are established, according to a relationship matrix.

For each of the sub-processes included within the scope, the inherent risks are identified and the checks made by the responsible persons to mitigate those risks are defined, setting this information down in a Risks-Controls Matrix. Those risks take account of all the financial reporting objectives (existence and occurrence; integrity; measurement; presentation, breakdown and comparison; and rights and obligations).

The financial reporting risks are identified in the Ebro Group's Risks-Controls Matrix and updated to take account of any changes in the scope of consolidation of the Group or development of its business and their reflection in the financial statements, making a comparative analysis every year of the variations in material processes and sub-processes to establish any risks that have not been previously identified.

The existence of a process for defining the scope of consolidation, taking into account, among
other aspects, the possible existence of complex corporate structures, base companies or
special purpose vehicles.

The Ebro Group has a documented process based on internal regulations that guarantees the correct identification of the scope of consolidation through an adequate separation of duties in the requesting, authorising, reporting and recording of any operation entailing the incorporation, merger, division, acquisition or sale of companies and any other corporate operation, directly involving the legal department and the board.

This process considers the possible existence of complex corporate structures, base companies or special purpose vehicles, among other means by establishing an adequate structure to separate the duties of requesting, authorising and reporting for any corporate operation within the Group. However, transactions or complex corporate structures that might entail off-balance sheet transactions which should be recorded within it are not identified at present.

 Whether the process takes into account the effects of other types of risk (operational, technological, financial, legal, reputational, environmental, etc.) insofar as they affect the financial statements.

The Risk Control and Management System of the Ebro Group is designed to identify potential risk events that might affect the organisation. At present there are four types of risks: Operating, Compliance, Strategic and Financial risks, and the conclusions are taken into account insofar as the risks may affect financial reporting. For this purpose, the Risks Committee acts as a unit of coordination and interrelation of the effect of the risks detected on the different areas (management, business, financial reporting, legal, reputational etc. risks).

• Which governing body of the company supervises the process.

While the Board has the power, which it may not delegate, to determine the policy for control and management of risks, including tax risks, and supervision of the FRICS, the Audit and Compliance Committee is responsible for supervising and promoting the procedures and systems used to prepare and control the company's financial reporting, and controlling the implementation of and compliance with the risk control and management systems, both in general and in respect of the financial reporting process.

F.3 Control activities

Inform whether the company has at least the following, describing their main features:

F.3.1 Procedures for checking and authorising financial information to be published on the stock markets and description of the FRICS, indicating who is responsible for these tasks and documentation describing the flows of activities and controls (including those checking for the risk of fraud) in the different types of transactions that may have a material effect on the financial statements, including the procedure for closing of accounts and the specific review of judgements, estimates, valuations and significant projections.

The priorities established within the Ebro Group include the quality and reliability of the financial information, both internal information for decision-making and external information published on the markets. The information to be provided by the different units is requested by the Group financial department, paying special attention to the processes of closing the accounts, consolidation, measurement of intangibles and areas subject to judgement and estimates.

The Ebro Group has procedures for checking and authorising the financial information and description of the FRICS, responsibility for which corresponds to the Financial Department, the Risks Committee, the Audit and Compliance Committee and the Board.

The Audit and Compliance Committee checks and analyses the financial statements and any other important financial information, as well as the principal judgements, estimates and projections included and discusses them with the corporate financial department and the internal and external auditors to confirm that the information is complete and the principles applied are consistent with those of the previous full-year accounts.

The procedure for checking and authorising the financial information corresponds to the Group financial department, based on the information checked and validated by the different units. The Audit and Compliance Committee supervises this information to be published on the market and it is approved by the Board.

The Group has implemented an improvement process to increase the documentation and make the generation of financial information and its subsequent supervision more effective and efficient.

The significant processes involved in the generation of the Group financial reporting are documented based on the COSO internal control model. The main processes documented are:

- Closing of Financial Statements and Reporting
- Consolidation
- Sales and Receivables
- Purchases and Payables
- Fixed Assets
- Inventories
- Payroll

The documentation outline is extended progressively, according to the materiality and the general criteria established in the Group's financial reporting internal control system.

The persons responsible for each of the documented processes in each subsidiary have been identified. They are responsible for keeping those processes up to date on an annual basis, reporting any modifications or adaptations to the Risks Committee through the Group's financial department.

Process documentation includes details of the flows and transactions and the financial reporting objectives and controls established to ensure they are met. It also contemplates the risks of error and/or fraud that might affect the financial reporting objectives. The documentation of flows of activities and controls that may have a material effect on the financial statements, including the accounts closing procedure, includes the preparation of narratives on the processes, flow charts and risk and control matrices. The controls identified are both preventive and detective, manual or automatic, describing also their frequency and associated information systems.

F.3.2 Internal control procedures and policies for the IT systems (including access security, track changes, operation, operating continuity and separation of duties) used for the significant processes of the company in the preparation and publication of financial information.

The Group has rules of action for managing financial information security. Those rules are applicable to the systems used to generate financial information and the IT Department is responsible for defining and proposing the security policies.

Within its policies and infrastructure management the Ebro Group has procedures to secure each of the following points:

i) Both physical and logical access are controlled to ensure that only authorised internal and external personnel can access the Ebro centres and systems. Ebro has several Data Centres, the main one in Spain where the company's critical systems are housed. The major subsidiaries also have local data centres. They all have their own infrastructure to guarantee adequate control of access to the installations. In small subsidiaries, the general rule is to have external service providers to provide that security. When external

service providers are used, the Ebro Group makes internal audits of the information systems and their architecture, including the security aspect.

Logical access control is secured with efficient management of access to our systems, whether internal or external, and through a user management coordinated with the human resources department and the company's group of managers. Ebro has user access control systems and workflow tools to guarantee interdepartmental integration and efficient updating of user status, regularly identifying those who no longer access the systems. Ebro Foods will shortly begin a global Duties Separation project, within its corporate risk control policy.

External access is guaranteed through specific users and controlled management. The necessary elements have also been provided on a network level to ensure that only authorised users and processes have access from outside.

- ii) The larger subsidiaries mainly use the ERP system called SAP. In all those cases, Ebro has procedures underpinned by systems in which production changes are systematically filtered and assessed, their life cycle managed, and disseminated after acceptance by specific users and impact analysis in the systems currently used in production.
- iii) The separation of duties is underpinned by the use of roles by groups of users, which allow access only to the information and transactions previously approved by the organisation. The modification or creation of new roles is backed by the same procedure that guarantees management of the user life cycle and is applicable to the major companies of the Ebro Group. Special attention is paid to separation in IT support processes to make sure that the tasks of development, sending to production and administration of the system are duly separated.
- iv) Ebro has internal tools which, combined with the user support departments and systems (Help Desks), guarantee the management and traceability of incidents in the IT systems. Programme changes are managed within that system, which is based on ITIL best practices and management.

The critical information systems are always housed in our data centres and there are individuals assigned to each one who are responsible for proactive monitoring of the automatic processes and proactive assessment of the yield and functioning of the systems.

Ebro has global contracts with security control tool providers, which guarantee the installation of such tools in all the computer and data processing equipment used in the company.

- v) Ebro has tools to guarantee the continuity of business support by its IT systems in the event of a fatal error or system crash. There are backup systems and policies in its data centres that guarantee access to information and systems in case of a crash. The use of tape or disk backups and replicating the information in several computers with subsequent triangular distribution are habitual procedures for making incremental or complete backup copies. The current systems allow recovery of the information up to the specific time of the fatal error or system crash.
- F.3.3 Internal control procedures and policies to oversee the management of outsourced activities and any aspects of valuation, calculation or measurement commissioned to independent experts, which may have a material impact on the financial statements

In general, the Ebro Group manages all activities that may have a material impact on the reliability of the financial statements directly using internal resources to avoid outsourcing. There are very few outsourced activities and the procedures and controls of those activities are regulated in the contracts signed with the service providers in question.

The valuation, calculation or measurement activities commissioned by the Ebro Group to independent experts are mainly concerned with the appraisal of properties, actuarial studies of commitments to employees and impairment testing of intangibles.

Only service providers of internationally recognised standing are used for these valuation reports, making sure that they are not affected by any circumstance or event that could compromise their independence.

The reports obtained from these firms are submitted to internal review to check that the most significant assumptions and hypotheses used are correct and that they comply with the International Valuation Standards (IVS) and International Financial Reporting Standards (IFRS). Furthermore, the valuation processes and the hypotheses and assumptions used by independent experts are reported to and considered by the external auditors of the company and its group.

F.4 Information and communication

Inform whether the company has at least the following, describing their main features:

F.4.1 A specific department responsible for defining the accounting policies and keeping them up to date (accounting policy department or division) and solving queries or conflicts deriving from their interpretation, maintaining fluent communication with those responsible for operations in the organisation, as well as an updated accounting policy manual distributed among the units through which the company operates.

The Ebro Group has adequate procedures and mechanisms to put the applicable criteria across to the employees involved in the preparation of financial information and the IT systems used in that preparation. This is done through the Management Control Unit and the Corporate Financial Department, whose powers include the following, among others:

- Define, administer, update and report on the Group's accounting policies, in compliance with the applicable accounting standards and rules of consolidation for the preparation and presentation of financial information to be disclosed.
- Prepare, update and report on the Accounting Policy Manual to be applied by all financial units in the Group. This manual is updated annually.
- Settle any queries or conflicts regarding the interpretation and application of the accounting policies, maintaining fluent communication with those responsible for these operations in the organisation.
- Define and create templates, formats and criteria to be used for preparing and reporting the financial information. All financial information distributed on the markets is prepared by consolidating the reports of the different business units, prepared using mechanisms for data input, preparation and presentation that are homogenous for the entire Group. These mechanisms are designed to enable compliance with the standards applicable to the principal financial statements, including accounting criteria, valuation rules and presentation formats and embrace not only the balance sheet, profit and loss account, statement of changes in equity and statement of cash flows, but also the obtaining of other information that is necessary to prepare the notes to the financial statements.
- F.4.2 Mechanisms for collecting and preparing financial information with homogenous formats, applied and used by all business units in the company or group, valid for the main financial statements and notes, and the information given on the FRICS

The Group's financial information is prepared using a process of aggregating separate financial statements at source for subsequent consolidation according to the applicable accounting and consolidation standards, to obtain the consolidated financial information to be presented monthly to the Board and published on the markets

The process of aggregation and consolidation of the Group's financial statements is based on homogenous, common format templates that include different tables and reports to be completed. They also have automatic internal controls to check the integrity and reasonability of the data input.

These templates are validated each month by a financial manager in each subsidiary before sending them for checking and consolidation. To complete the automatic checks, those data and the estimation, valuation and calculation principles used to obtain them, as well as the accounts closing procedure, are checked by the financial manager at each level of aggregation and consolidation until the Ebro Group consolidated financial information is obtained, prepared and checked by the corporate financial department.

The Ebro Group has established a reporting system for the Financial Reporting Internal Control System, which is available in the Group for all the subsidiaries included within the scope of the FRICS. Through that reporting, the management of the parent coordinates maintenance of the system in the rest of the subsidiaries annually through the assignment of persons responsible for their maintenance and updating in the event of any significant change to be taken into consideration in the documentation. Finally, if any weaknesses are detected in the financial reporting internal control system, the subsidiaries are notified of the necessary action plans and they are monitored by management of the parent.

F.5 Supervision of the functioning of the system

Inform on at least the following, describing their main features:

F.5.1 The FRICS supervisory activities performed by the Audit Committee and whether the company has an internal audit department responsible, among its duties, for assisting the committee in its supervision of the internal control system, including the financial reporting internal control system (FRICS). Inform also on the scope of the FRICS appraisal made during the year and the procedure through which the department or body responsible for the appraisal informs on the outcome, whether the company has an action plan defining any possible corrective measures and whether their impact on the financial information has been considered.

The board is ultimately responsible for the existence, maintenance and supervision of an adequate, effective financial reporting internal control system. Among the duties defined in the Regulations of the Board, the Audit and Compliance Committee assists and supports the board in its supervision of the accounting and financial information, the internal and external audit services and corporate governance.

The Audit and Compliance Committee must see that the internal audit procedures, the internal control systems in general, including the risk management control system and in particular the financial reporting internal control system, are adequate; ensure that the external auditor and manager of the internal audit department are selected on the basis of objective, professional qualifications, guaranteeing their independence in the performance of their duties; report to the board on any related party transactions submitted for its consideration; control any possible conflicts of interest; and, in general, make sure that all the company's information and reporting, particular financial, complies with the principle of truth and maximum transparency for shareholders and markets.

The internal audit department has submitted its annual working plan to the Audit and Compliance Committee and reported directly to said committee on any incidents detected in the performance of that work, proposing the corresponding action plan defining any necessary corrective measures; and at the end of each year, it has submitted an activity report.

The results of checks made by the internal audit department and any incidents detected have been reported to the Audit and Compliance Committee. Moreover, the action plan devised for remedying those incidents has been sent to both the person responsible for remedying them and the Audit and Compliance Committee.

7.5.2 Inform on whether the company has a discussion procedure whereby the auditor (according to the provisions of the auditing standards), the internal audit department and other experts can inform the senior management and audit committee or company directors of any significant weaknesses detected in internal control during the auditing or checking of the annual accounts or any other processes commissioned to them. Indicate also whether the company has an action plan to remedy or mitigate the weaknesses observed.

The Audit and Compliance Committee has a stable, professional relationship with the external auditors and the main companies in its group, strictly respecting their independence. That relationship favours communication and discussion of any internal control weaknesses pinpointed during the auditing of annual accounts or any other audit work commissioned to them.

In this regard, the Audit and Compliance Committee receives information from the external auditor at least every six months on the audit plan and outcome of its performance, and checks that the senior management heeds the auditor's recommendations.

In addition, as established in the Regulations of the Board, it is responsible for overseeing the Internal Audit Services, being informed on the financial reporting process and internal control systems.

During 2015, the External Auditor attended 5 meetings of the Audit and Compliance Committee and the Internal Auditor has attended 9 meetings.

F.6 Other significant information

N/A

F.7 External auditor's report

Inform on:

7.7.1 Whether the FRICS information sent to the markets was checked by the external auditor, in which case the company should include the corresponding report in an annex. If not, why not.

The report by the external auditor is appended.

G EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS

	Indicate the degree of compliance by the company with the recommendations of the Unified Good Governance Code.
	If any recommendation is not followed or is only partly followed, include a detailed explanation of the reasons so that shareholders, investors and the market in general have sufficient information to assess the company's actions. General explanations are not acceptable.
١.	The Articles of Association of listed companies should not limit the maximum number of votes that may be cast by an individual shareholder or impose other restrictions hampering takeover of the company via the market acquisition of its shares. Complies X Explanation
2.	When both the parent company and a subsidiary are listed, they should both publish a document specifying exactly:
	a) The types of activity they are respectively engaged in and any business dealings between them, and between the listed subsidiary and other group companies;
	b) The mechanisms in place to solve any conflicts of interest.
	Complies Partial compliance Explanation Not applicable X
3.	During the annual general meeting, to supplement the written distribution of the annual corporate governance report, the chairman of the board should inform the shareholders orally, in sufficient detail, of the most important aspects of the company's corporate governance, especially:
	a) Any changes made since the previous annual general meeting.
	b) The specific reasons why the company does not follow any of the recommendations of the Code of Corporate Governance and the alternative rules applied, if any.
	Complies X Partial compliance Explanation
١.	The company should define and promote a policy of communication and contacts with shareholder, institutional investors and proxy advisors that fully respects the laws against market abuse and gives similar treatment to shareholders who are in the same position.
	And the company should publish that policy on its website, including information on how it has been implemented naming those responsible for such implementation.
	Complies X Partial compliance Explanation
5.	The board should not table a motion at the general meeting for delegating powers to issue shares or convertible

securities excluding the preferential subscription right in a sum of more than 20% of the capital at the time of the delegation.

Н	OTHER	RINFORM	ATION	OF INTEREST					

- 1. If you consider there to be any important aspects regarding the corporate governance practices applied by your company or other companies in the group that have not been mentioned in this report, but which should be included to obtain more complete, reasoned information on the corporate governance practices and structure in the company or group, describe them below and give a brief explanation.
- 2. This section may be used to include any other information, clarification or qualification relating to the previous sections of the report, provided it is relevant and not repetitive.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

The company may also state whether it has voluntarily applied any international, sector-based or other codes of ethical principles or good practices. If so, it should name the code in question and the date of its accession.

EXPLANATORY NOTE ONE, CONCERNING THE CURRENT COMPOSITION OF THE BOARD OF DIRECTORS AND THE PROPORTIONS OF MEMBERS IN THE DIFFERENT CATEGORIES OF DIRECTORS

- With regard to the presence of female directors and the numbers of independent directors, it is put on record that:
- (i) The company bears both aspects in mind for filling the vacancy produced on the resignation as of 1 December 2014 of an independent director.
- (ii) The director classified as "other non-executive" was appointed director and member of the Audit and Compliance Committee on account of his personal and professional qualities. He performs his duties unconditioned by relations with the company or its group, controlling shareholders or executives. Therefore, this director performs his duties in the Board and Audit and Compliance Committee just like any other independent director, although he cannot be classified as such because he has been on the board for more than 12 years in succession.
- As regards the classification of Instituto Hispánico del Arroz, S.A. as an executive director:
- (i) Instituto Hispánico del Arroz, S.A. does not perform executive or management duties in Ebro Foods, S.A. or any subsidiary of the Group and, therefore, receives no remuneration for such duties.
- (ii) Instituto Hispánico del Arroz, S.A. has been classified as an executive director because its individual representative on the board of directors of Ebro Foods, S.A. (see section 212 bis of the Corporate Enterprises Act) is an executive of one of the Group's subsidiaries.
- (iii) Instituto Hispánico del Arroz, S.A. holds the position of director because it is the largest shareholder of the company, with a total interest, direct and indirect, of 15.92%. Instituto Hispánico del Arroz, S.A. will continue to be a director of Ebro Foods, S.A. during such time as it is a significant shareholder, regardless of who its personal representative is and the executive position that said representative may hold within the Group.

EXPLANATORY NOTE TWO, ON SECTION A.4

Instituto Hispánico del Arroz, S.A. and Hispánods Invest, S.L. are directors and also significant shareholders of the company (see percentage shareholdings indicated in A.3) and the relationships contemplated in the explanatory note on section C.1.17 exist between them.

EXPLANATORY NOTE THREE, ON SECTION A.5

Relationships between the companies of the Ebro Foods Group and the controlling shareholders, excluding those who are directors, are explained in section A.5.

See sections D.2 and D.3 of this Report.

EXPLANATORY NOTE FOUR, ON SECTION B.4

As indicated in the information contained in the attendance list of the AGM incorporated in the notarial minutes issued thereof, the figures on attendance in person and by proxy set out in section B.4 of this report include the percentages of postal and electronic votes.

EXPLANATORY NOTE FIVE, ON SECTION C.1.16

- The total amount indicated in section C.1.16 includes the remuneration of all the company executives, even though they do not all have senior management employment relations on the terms stipulated in law.
- In 2015 a sum of €128,000 was distributed among all executives (except the Chairman of the Board) of Ebro Foods, S.A. included in the Deferred Annual Bonus Scheme linked to the Group's Strategic Plan 2013-2015, corresponding to 2013. This sum represents 25% of the Deferred Annual Variable Remuneration for the three-year period and was provided for in the 2013 accounts.
- A provision has been recognised in the 2015 accounts of €124,000 as the provisional estimate of the sum corresponding to 2015 to be distributed among all executives (except the Chairman of the Board) included in the Deferred Annual Bonus Scheme linked to the Group's Strategic Plan 2013-2015. This sum represents 50% of the Deferred Annual Variable Remuneration for that three-year period and, in accordance with the terms of that Scheme, will be paid in 2017.
- Finally, these Deferred Annual Bonus Schemes are not indexed to the value of the company share and the beneficiaries do not receive any shares or rights thereover.

- The contracts of two executives contemplate termination benefits in the event of termination or takeover, in a sum exceeding that payable under the applicable labour laws. For other executives, the benefits initially established are lower than the indemnity established in the Workers' Statute, owing to their accumulated seniority.

EXPLANATORY NOTE SIX, ON SECTION C.1.17

- Instituto Hispánico del Arroz, S.A. and Hispánicods Invest, S.L. are directors and controlling shareholders of Ebro Foods, S.A. Instituto Hispánico del Arroz, S.A. holds 100% of the capital of Hispánicods Invest, S.L. (direct interest of 51.62% and indirect interest of 48.38%) and is director of that company.
- Antonio Hernández Callejas has a direct interest of 16.666% in Instituto Hispánico del Arroz, S.A. and an indirect interest of 16.666% in Hispafoods Invest, S.L. Therefore, Antonio Hernández Callejas has an indirect interest in Ebro Foods, S.A. through the 15.921% interest held directly and indirectly in this company by Instituto Hispánico del Arroz, S.A. Antonio Hernández Callejas does not hold any office in those companies.
- Félix Hernández Callejas and Blanca Hernández Rodríguez, representatives of Instituto Hispánico del Arroz, S.A. and Hispafoods Invest, S.L., respectively, each have a direct interest of 16.666% in Instituto Hispánico del Arroz, S.A. and an indirect interest of 16.666% in Hispafoods Invest, S.L. Therefore, Félix Hernández Callejas and Blanca Hernández Rodríguez each have an indirect interest in Ebro Foods, S.A. through the 15.921% interest held directly and indirectly in this company by Instituto Hispánico del Arroz, S.A. Félix Hernández Callejas is Managing Director of Instituto Hispánico del Arroz, S.A. and does not hold any office in Hispafoods Invest, S.L. Blanca Hernández Rodríguez does not hold any office in either of those companies.
- Demetrio Carceller Arce has an indirect interest in Ebro Foods, S.A. through the 10.03% interest held indirectly in this company by Sociedad Anónima Damm through Corporación Económica Damm, S.A.

EXPLANATORY NOTE SEVEN, ON SECTION C.2.1

- The name of the audit committee in the company is "Audit and Compliance Committee" and the name of the nomination and remuneration committee is "Nomination and Remuneration Committee".
- All the members of the Audit and Compliance Committee were appointed on account of their expertise and experience in accounting and auditing, including Hispafoods Invest, S.L., which was elected on the basis of the expertise of its representative in these matters.
- The duties of the different Board Committees as established in the Regulations of the Board are set out below, without prejudice to those they have by law:

DUTIES OF THE EXECUTIVE COMMITTEE:

Notwithstanding the specifications of the Board in the resolution to delegate powers and the powers of the Board that may not be delegated, the Executive Committee has the following powers:

- a) Adopt resolutions corresponding to the powers delegated to it by the Board of Directors.
- b) Monitor and supervise the normal management of the company, ensuring adequate coordination with subsidiaries in the common interests of the latter and the company.
- c) Study and propose to the Board of Directors the guidelines defining business strategy, supervising their implementation.
- d) Debate and inform the Board on any issues corresponding to the following matters, regardless of whether or not they have been delegated by the Board:
- Separate and consolidated annual budget of the company, itemising the provisions corresponding to each core business.
- Monthly monitoring of the financial management, deviations from the budget and proposed remedial measures, if necessary.
- Significant financial investments and investments in property, plant and equipment and the corresponding economic justification.
- Alliances and agreements with other companies which, by virtue of their amount or nature, are important for the company.
- Financial transactions of a material economic significance for the company.
- Programme of medium-term actions.
- Assessment of the achievement of objectives by the different operating units of the company.
- Monitoring and assessment of the subsidiaries in respect of the matters contemplated in this sub-section d).
- e) Adopt resolutions corresponding to the buy-back and disposal of treasury stock by the Company, in accordance with the authorisation, if any, granted by the General Meeting. A Director may be designated to execute and formalise the

decisions to buy or sell own shares, supervising and, if appropriate, authorising any resolutions that may be adopted by subsidiaries to buy and sell their own shares or shares in the Company, whenever such authorisation is required by law.

DUTIES OF THE AUDIT AND COMPLIANCE COMMITTEE:

The Audit and Compliance Committee shall have the following powers, in addition to those assigned to it by law, regulations or the Articles of Association:

- a) Supervise and promote internal control of the company and the risk management systems and submit recommendations to the Board for a decision on the risk management and control policy, including tax risks, specifying at least:
- The types of risk to which the company is exposed.
- The risk level that the company considers acceptable.
- The measures for mitigating the impact of identified risks, should they actually occur.
- The control and reporting systems used to control and manage those risks.
- b) Supervise and promote the policies, procedures and systems used for drawing up and controlling the company's financial information, checking the services performed in this regard by the Internal Audit Department, the Financial Department and the Management Committee and making sure they are correctly distributed throughout the Group.
- c) Receive the information sent regularly to the Stock Exchange Councils, issue prospectuses and any public financial information offered by the Company and, in general, all information prepared for distribution among shareholders, ensuring the existence of internal control systems that guarantee the transparency and truth of the information.
- d) Ensure that (i) the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be authorised for issue in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company and make sure that any interim financial statements are drawn up according to the same accounting principles as the annual accounts, considering the possibility of asking the external auditors to make a limited audit if necessary; and (ii) the Board of Directors endeavours to submit the annual accounts to the General Meeting with an unqualified auditors' report.

In this respect, it shall also see that the internal control systems are adequate and effective in respect of the accounting practices and principles used for drawing up the company's annual accounts, supervising the policies and procedures established to ensure due compliance with applicable legal provisions and internal regulations. The Committee shall, through its Chairman, obtain information and collaboration from both the Internal Audit Manager and the External Auditors to perform these duties.

- e) Establish regular contact with the External Auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the External Auditors in accordance with prevailing auditing standards and legislation.
- f) Be informed of the decisions adopted by the senior management according to recommendations made by the External Auditors in connection with the audit.
- g) Report to the Board prior to the adoption of any decisions on related party transactions submitted for its authorisation.
- h) Implement a confidential whistle-blowing channel accessible to all Group employees and a protocol for establishing priority, processing, investigating and solving any issues reported through that channel according to their importance and nature, paying special attention to those involving possible falsehood or misrepresentation in financial or accounting documents and possible fraud.
- i) Supervise compliance with the internal codes of conduct and rules of corporate governance. In particular, oversee the implementation of and compliance with the internal regulations and codes applicable to the risk management and control systems in general and the financial reporting process in particular.
- j) Submit to the Board, to be tabled at the General Meeting, proposals for the selection, appointment, re-appointment and replacement of the company's External Auditors and their terms of contract, the scope of their commission and the renewal or revocation of their engagement. The Committee shall ensure the independence of the External Auditors and the existence of a discussion procedure enabling the External Auditors, the Internal Audit Department and any other expert to inform the company of any significant weaknesses in its internal control detected while checking the annual accounts or any other processes in which they have worked. The Committee shall issue an annual report, prior to issuance of the auditor's report, expressing an opinion on the independence of the External Auditors and any supplementary services they may have provided. It shall also inform the Board on the proposal submitted to the Board by the Company Chairman regarding the appointment of the Internal Audit Manager, who shall report directly to the Chairman of the Board.
- k) Supervise and report to the Board on intragroup and related party transactions of the company or subsidiaries and settle any conflicts of interest that may arise between the company or the group and its directors, executives, significant shareholders and listed subsidiaries, if any.
- I) The Audit and Compliance Committee shall also report to the General Meeting on any issues raised by shareholders concerning matters within its competence.

DUTIES OF THE NOMINATION AND REMUNERATION COMMITTEE:

In addition to any other powers corresponding to it by law or the Articles of Association, the Committee shall study, issue reports and submit proposals for the Board, at its request, on the following matters:

- a) Definition and, where appropriate, revision of the criteria to be followed for the composition and structure of the Board and selection of candidates to join the Board, informing always prior to the appointment of a Director by cooptation or the submission to the General Meeting of any proposal regarding the appointment or removal of Directors.
- b) Appointment of the Chairman, and Vice-Chairman if any, of the Board, Managing Director(s), Lead Independent Director and the Secretary, and Vice-Secretary if any, of the Board; appointment of Directors to the Committees of the Board; and appointment and possible dismissal of senior executives and their termination benefit clauses.
- c) Position of the Company regarding the appointment and removal of board members in subsidiaries.
- d) Proposal of directors' emoluments, according to the system of remuneration established in the Articles of Association and the executive directors' relationship with the Company. The Committee shall also inform in advance on any resolution or proposal of the Board on the remuneration of directors and executives indexed to the value of the shares in the Company or its subsidiaries or consisting of the delivery of shares in the Company or its subsidiaries or the granting of options thereover.
- e) Supervision of the senior management remuneration and incentives policy, obtaining information and reporting on the criteria followed by the Company's subsidiaries in this respect.
- f) Assessment of the principles of the management training, promotion and selection policy in the parent company and, where appropriate, in its subsidiaries.
- g) Examination and organisation, as deemed adequate, of the succession of the Chairman and chief executive and, if appropriate, submission of proposals to the Board to ensure that such succession is made in an orderly, well-planned manner.
- h) Preparation and proposal of the Annual Report on Directors' Remuneration and the Directors' remuneration policy in accordance with the laws and regulations in place from time to time.
- i) Setting targets for the representation of the least represented gender on the Board and issue guidelines on how to achieve them.

DUTIES OF THE STRATEGY AND INVESTMENT COMMITTEE:

The Committee shall study, issue reports and submit proposals for the Board on the following matters:

- a) Setting of targets for growth, yield and market share.
- b) Strategic development plans, new investments and restructuring processes.
- c) Coordination with subsidiaries in the matters contemplated in paragraphs (a) and (b) above, for the common interests and benefit of the Company and its subsidiaries.
- The activities performed by the different Board Committees in 2015 are indicated below:

ACTIONS PERFORMED BY THE EXECUTIVE COMMITTEE:

- Several investments, divestments and sales of assets were valued.
- Strategic decisions to be adopted in respect of the different businesses were assessed.

ACTIONS PERFORMED BY THE AUDIT AND COMPLIANCE COMMITTEE:

- The Committee checked and resolved to pass a favourable report to the board on the periodical financial reporting for H2 of 2014 and on Q1, H1 and Q3 of 2015.
- The Committee checked and resolved to pass a favourable report to the board on the review and modification of periodical public reporting on 2014, which had previously been checked and approved by the Board, following the resolution passed by the CNMV in the dairy inquiry, in view of which that review of the previously approved financial information was considered advisable on the terms reported to the market.
- The related party transactions and situations of potential conflict of interest corresponding to 2014 were checked, resolving to submit a favourable report to the board on those transactions and situations, and on the authorisation for them to be made in 2015.
- The committee checked and agreed to issue a favourable report to the Board on the separate and consolidated annual accounts and directors' report for the year ended 31 December 2014. During the review, the external auditors of the company and its group (EY) submitted its draft unqualified auditors' report.
- The draft report by the auditors on the FRICS (financial reporting internal control system) 2014 was reviewed.
- The external audit of the separate and consolidated annual accounts 2014 was monitored.
- After the corresponding review, a favourable report was issued on the independence of the auditors.
- The Internal Audit Plan for 2015, presented by the Chief Audit Officer, was approved.
- The operation and use of the whistle-blowing channel in 2014 was reviewed.
- The information on related party transactions and situations of potential conflict of interest and the information on risk control included in the Annual Corporate Governance Report 2014 was checked, resolving to submit a favourable report to the board.
- The activity report of the Committee for 2014 was issued and submitted to the board.

- The committee studied and submitted a favourable report to the board on the modification of the Regulations of the
- The committee studied the presentation given by the external auditors (EY) of the letter of recommendations regarding internal control processes, analysing the alternatives submitted by the internal audit department in respect of the implementation of measures to optimise the internal control system.
- The external auditors (EY) ran a training session on new aspects on accounting and auditing; in particular, they explained (i) the novelties introduced in the Corporate Enterprises Act by the reform of December 2014 and the new good governance recommendations affecting the Committee; and (ii) the parliamentary initiatives concerning auditing.
- The report prepared by the Internal Audit Department on different subsidiaries of the Group, within the Internal Audit Plan 2015, was examined.
- The external auditors (EY) ran a training session on IFRS 15 (revenue recognition), with special emphasis on how it might affect the Group's accounting.
- The proposed fees of the external auditors (EY) for auditing of the 2015 accounts was analysed and a report submitted to the board.
- The committee was informed on the work being done in respect of the control and management of risks, including tax risks, and financial reporting internal control systems, particularly the measures taken to strengthen the control structure in accordance with the good governance recommendations.
- The committee was informed on the review and update in progress of the crime prevention model.
- The general policies affecting the powers of the committee were checked and a favourable report was submitted to the board
- The amendment to the Internal Code of Market Conduct and the Code of Conduct proposed within the review of the crime prevention model were checked and a favourable report was submitted to the board.
- The proposal for the distribution of dividends against the 2015 accounts (payable in 2016) was assessed and a favourable report was submitted to the board, on the terms subsequently approved by the board and announced to the market on 22 December 2015.
- The committee attended the presentation given by the head of the shareholder and investor relations department, within the committee's duty to supervise the general policies of the company.

ACTIONS PERFORMED BY THE NOMINATION AND REMUNERATION COMMITTEE:

- The new aspects introduced in the Corporate Enterprises Act by Act 31/2014 of 3 December affecting the composition and duties of the Committee, the board and other committees were analysed, in order to assess and report to the board on the resolutions, if any, that should be adopted to adapt to the new legislation.
- The committee studied and reported favourably to the board on the appointment of the Lead Independent Director.
- The Committee studied and agreed to issue a favourable report to the Board on the Remuneration Policy for Company Directors and Executives of the Parent and Group for 2014-2015.
- The Committee studied and agreed to issue a favourable report to the Board on the conditions of termination of a group executive in Portugal.
- It was resolved to recommend the board to pay the second instalment of the share in profits corresponding to 2014.
- The Committee agreed to recommend the Board, with a favourable report, to approve the Report on Directors' Remuneration for 2014, to be put to an advisory vote at the AGM as a separate item on the agenda.
- The report on the assessment of the Board, its Chairman and Committees in 2014 was prepared, to be submitted to the Board of Directors.
- The Nomination and Remuneration Committee Report 2014 was prepared, to be submitted to the Board of Directors.
- The Committee studied and agreed to issue a favourable report to the Board on the information included in the Annual Corporate Governance Report 2014 on remuneration and categories of directors. In this regard, it was also resolved, in the light of the latest amendment to the Corporate Enterprises Act, to classify the directors into categories in order to adopt any resolutions that may be necessary for 2015.
- The Committee studied and agreed to issue a favourable report to the Board on the modifications to the Regulations of the Board.
- It was resolved to propose to the Board, with a favourable report, payment of (i) the final share in profits corresponding to 2014, once foreseeably approved at the annual general meeting, and (ii) the first instalment of the share in profits corresponding to 2015
- Within the framework of the review of categories of directors, it was resolved to propose to the Board, with a favourable report, a change of category of the director Instituto Hispánico del Arroz, S.A., from proprietary director director
- It was resolved to propose to the Board, with a favourable report, approval of the employee Share Delivery Plan 2015.
- The Committee studied and issued a favourable report to the Board on the general policies affecting the powers of the Committee.
- The Committee studied and issued a favourable report to the Board on the terms of contract of two Group executives in foreign subsidiaries.

ACTIONS PERFORMED BY THE STRATEGY AND INVESTMENT COMMITTEE:

- Preliminary work was done on the Ebro Foods Group Strategic Plan 2016-2018.

EXPLANATORY NOTE EIGHT, ON SECTION D.3

The gross amount of dividends of Ebro Foods, S.A. for 2015 received by all the executives listed in section C.1.16 totalled €16 thousand.

EXPLANATORY NOTE NINE, ON SECTION D.5

During 2015, the Ebro Group concluded two transactions with related parties with an overall value of €130 thousand.

More precisely, the subsidiary Herba Ricemills, S.L.U. effected the following transactions with two companies controlled indirectly by the individual representing the director Hispafoods Invest, S.L., María Blanca Hernández Rodríguez:

- Purchase of goods (finished or otherwise) from Cabher 96, S.L. for €121 thousand.
- Receipt of services (expense) from Real Club de Golf de Sevilla, S.L. for €9 thousand.

EXPLANATORY NOTE TEN, CONCERNING RECOMMENDATION 60 IN SECTION G

The auditors' report contains no qualification of any nature so the situation contemplated in Recommendation 60 has not existed and, consequently, no decision has been made in this regard.

EXPLANATORY NOTE ELEVEN

- Ebro Foods, S.A. had an interest of 3.121% in Biosearch, S.A. at 31 December 2015. This interest is recognised in the Ebro Group accounts as "Available-for-sale financial assets".

Biosearch, S.A. is a listed company engaged in activities similar to the objects of Ebro Foods, S.A. and was part of the Ebro Group until January 2011.

The transactions made between 1 January and 31 December 2015 between Biosearch, S.A. and different companies of the Ebro Foods Group are indicated below:

- Herba Ricemills, S.L.U., purchase of goods (finished or otherwise) for €8 thousand
- Herba Ricemills, S.L.U., lease (income) for €26 thousand
- Ebro Foods, S.A., services rendered (income) for €21 thousand
- Ebro Roods, S.A. has an interest of 25% in Riso Scotti S.p.A. This is an associate consolidated by the equity method.

The transactions made in 2015 between Riso Scotti and a subsidiary of the Ebro Foods Group are indicated below:

- Herba Ricemills, S.L.U., purchase of goods (finished or otherwise) for €200 thousand
- Herba Ricemills, S.L.U., sale of goods (finished or otherwise) for €355 thousand
- Herba Ricemills, S.L.U., services rendered (income) for €9 thousand
- Ebro Foods, S.A., services rendered (income) for €5 thousand
- Ebro Foods, S.A., dividends received for €337 thousand

ETHICAL PRINCIPLES AND CODES VOLUNTARILY APPLIED BY EBRO FOODS, S.A. AND YEAR OF ACCESSION:

- United Nations Global Compact 2001
- Project of the Spanish Commercial Coding Association (AECOC) against food waste, "Don't waste food, use it" 2012
- Advisory Committee of the United Nations Development Programme (UNDP) to boost the Sustainable Development Goals (SDG) 2015
- Sustainable Agriculture Initiative (SAI) Platform 2015
- SERES Foundation 2015

AUDIT REPORT ON THE "DISCLOSURES REGARDING THE INTERNAL CONTROL OVER FINANCIAL REPORTING (ICFR) SYSTEM" OF EBRO FOODS, S.A. FOR 2015

Dear Directors of Ebro Foods, S.A.,

As per the request made by the Board of Directors of EBRO FOODS, S.A. (hereinafter, the Company) and our proposal letter of February 1, 2016, we have applied certain procedures in relation to the accompanying "ICFR disclosures" of EBRO FOODS, S.A. for 2015, which summarize the Company's internal control procedures in respect of its annual reporting exercise.

The Board of Directors is responsible for taking the opportune measures to reasonably assure the implementation, maintenance and supervision of an adequate internal control system, making improvements to this system and preparing the contents of the ICFR disclosures required in section F) of the accompanying Annual Corporate Governance Report.

Against this backdrop, it is important to note that, regardless of the quality of design and effective functioning of the ICFR system adopted by the company in respect of is annual financial reporting effort, the later can only provide reasonable but not absolute assurance regarding the objectives pursued, due to the limitations intrinsic to any internal control system.

In the course of our financial statement audit work and in keeping with Spain's Technical Auditing Standards, the sole purpose of our assessment of the Company's internal controls was to enable us to establish the scope, nature and timing of the Company's financial statement audit procedures. Accordingly, our internal control assessment, performed in connection with the financial statement audit, was not sufficiently broad in scope to enable us to issue a specific opinion on the effectiveness of the internal controls over the annual financial disclosures that the Company is required to present.

For the purpose of issuing this report, we have only carried out the specific procedures described below, as indicated in the Procedures for external audit reviews of an entity's ICFR disclosures contained in the Internal Control over Financial Reporting in Listed Companies report published by Span's securities market regulator, the CNMV (and available on its website), which establishes the procedures to be performed, the scope thereof and the contents of this report. Given that the products resulting from these procedures is at any rate limited in scope and substantially more limited than an audit or review of the internal control system, we do not express any opinion on the effectiveness of the system or on its design as effective functioning in respect of the Company's 2015 financial reporting disclosures, as described in the accompanying f ICFR disclosures. As a results, had we performed additional procedures to those stipulated in the above mentioned that the Company is required to present, other matter might have come to our attention that would have been reported to you.

Furthermore, given that this special assignment neither constitutes a financial statement audit nor is subject to the Consolidated Text of Spain's Financial Statement Audit Act, enacted by means of Royal Decree- Law 1/2011, of July 1, 2011, we do not express an audit opinion in the terms provided for in that piece of legislation.

The procedures performed are itemized below:

- 1. Read and understand the information prepared by the Entity in relation to the ICFR which is provided in the Director's Report disclosure- and assess whether such information addresses all the required information which will follow the minimum content detailed in Section F, relating to the description of the ICFR, as per the IAGC model established by CNMV Circular no 7/2015 dated December 22, 2015.
- 2. Questioning of personnel responsible for drawing up the information detailed in item 1 above: (i) to obtain an understanding of the process that goes into drawing up the information; (ii) to obtain information that permits an evaluation of whether the terminology used complies with the framework definitions; and (iii) to obtain information on whether the control procedures described are in place and functioning.
- 3. Reviewing the explanatory documents supporting the information detailed in item 1, including documents directly made available to those responsible for describing ICFR system. The documentation to be reviewed may include reports prepared for the audit committee by internal audit, senior management and other internal or external specialist.
- 4. Comparing the information detailed in item 1 above with their knowledge of the Company's ICFR obtained through the external audit procedures applied during the annual audit.
- 5. Reading of the minutes taken at meetings of the board of directors, audit committee and other committees of the Company to evaluate the consistency between the ICFR business transacted and the information detailed in item 1 above.
- 6. Obtaining a management representation letter in connection with the work performed, signed by those responsible for preparing and formulating the information detailed in item 1 above.

The specific procedures carried out in respect of the Company's ICFR disclosures did not reveal any inconsistencies or incidents that could affect such disclosures

This report was prepared exclusively within the framework of the requirements established by article 540 of the consolidated text of the Corporate Enterprises Act and by Circular $n^{\circ}7/2015$ dated December 22, 2015 of the Spanish National Securities Market Commission related to the description of the ICFR in the Annual Corporate Governance Report.

DISCLAIMER

DISCLAIMER BY THE DIRECTORS OF EBRO FOODS, S.A. REGARDING THE CONTENTS OF THE ANNUAL FINANCIAL REPORT 2015

The members of the Board of Directors of Ebro Foods, S.A. (the "Company") declare that, to the best of their knowledge and belief, the company's Annual Financial Report 2015 containing the separate and consolidated annual accounts and directors' reports has been prepared in accordance with the applicable accounting principles and gives a true and fair view of the equity, financial position and earnings of the issuer and the companies in its consolidated group overall and that the directors' report includes an accurate analysis of the business development and results and the position of the issuer and consolidated companies overall, together with a description of the main risks and uncertainties to which they are exposed.

This declaration is made in respect of the separate and consolidated annual accounts of Ebro Foods, S.A. for 2015, as authorised for issue by the Board of Directors of the company on the thirty-first of March twenty sixteen.

Madrid, 31 March 2016
