CHAIRMAN'S STATEMENT

Antonio Hernández Callejas

DEAR SHAREHOLDERS

Once again it is a pleasure for me to present the policies and actions developed by the Group to contribute as efficiently as possible to the sustainable growth of our company and meet the commitments we have undertaken to all our stakeholders.

In this fourth Sustainability Report we update and expand on the information presented last year, with a view to progressively presenting more extensive and more detailed information for our stakeholders, making all our activities more transparent.

It has been drawn up in accordance with the guidelines and recommendations made by the Spanish Global Compact Association (ASEPAM) and includes most of the details of environmental and human resources information recommended by the new indicators established in the G3 Sustainability Reporting Guidelines published by the *Global Reporting Initiative* (GRI).

In addition to this Report, having signed the United Nations Global Compact (<http://www.unglobalcompact.org>) and being members of the Spanish Global Compact Association (ASEPAM), in 2009 we presented our Progress Report for the previous year, a document describing the progress made by Ebro Puleva in implementing the ten principles upheld by the Global Compact.

We continued to base our sustainable growth in 2009 on transparent management, fulfilment of the good governance recommendations, respect for and conservation of the environment, promotion of social and cultural initiatives, dedication to consumers, quality employment, responsible management of human resources and, in short, a large number of actions within our Group's commitment to achieving a better society.

With regard to environmental management, we invested three and a half million euro, 54% more than in 2008, in making improvements to minimise the environmental impact of our business activities.

In the area of social action, we have continued working through the Ebro Puleva Foundation on cooperation programmes to assist development in third-world countries such as Malawi, Sierra Leone, Kenya, Cambodia and Uganda. This year, too, in view of the economic situation, we stepped up our food donation programme. We have contributed different Group products to the Spanish Federation of Food Banks (FESBAL) with a market value of around one million euro. Our subsidiaries Riviana and New World Pasta took similar initiatives in

the USA and Canada; between the two they donated rice and pasta products to several local food banks with a value of 1,305,000 dollars. The Foundation also continued its work of promoting initiatives to improve the social integration of certain groups at risk of marginalization and to assist and enhance the social and economic progress of underprivileged groups in the parts of Spain where the Group is most firmly established.

In our business responsibility, we have been committed to our customers and consumers at all times and in all our actions, endeavouring to offer them differentiated, healthy food based on strict quality and safety standards through constant health-biased research and innovation. Along these lines, we have launched new products enriched with different nutrients such as fibre, calcium or vitamins, with significant health benefits, while promoting different healthy eating campaigns, obtaining further certificates in Food Safety and Quality, such as those obtained by our subsidiary Arrozeiras Mundiarroz in Portugal, and working on the Pronaos project, scientific research aiming to develop a generation of functional foods that contribute towards weight control and the prevention of obesity.

As for human resources, we have continued working on the professional furtherance of our employees through training schemes, providing over 89,000 hours of training during the year. The health and safety of our employees is considered vital in all the Group companies. Accordingly, around one million euro was spent in 2009 on hazard prevention, providing training for employees and informing on accident rates and the causes and solutions.

In short, during 2009 we continued to demonstrate our concern for socially responsible management and to define the structures, guidelines and processes that will enable us to maintain a sustainable growth, while at the same time showing our stakeholders the transparency of our business model.

Code of Conduct

INTRODUCTION

This Code of Conduct is a step forward along the road on which Ebro Puleva set out in 2003 when it approved the first Code of Ethics regulating the relations between the company and its principal stakeholders (a term commonly used to refer to all persons and groups, in addition to the shareholders, who are in any way related with the company). The Code also shows the firm commitment acquired by the Group on signing the UN Global Compact (<http://www.pactomundial.org>) to fully implementing the ten principles of conduct and action promoted on Human Rights, Environment, Labour Standards and Anti-Corruption. On signing the Global Compact, Ebro Puleva undertook to progressively develop initiatives to enable the full implementation of these ten principles in our management, while at the same time informing our employees and the society of the progress we are making.

In this sense, and with a view to creating a standardisation tool to guarantee compliance, the provisions of this Code of Conduct regulate the events contemplated in the ten principles, namely:

1. Businesses should support and respect the protection of internationally proclaimed human rights, within their area of influence.
2. Businesses should make sure that they are not complicit in human rights abuses.
3. Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining.
4. Businesses should uphold the elimination of all forms of forced and compulsory labour.
5. Businesses should uphold the effective abolition of child labour.
6. Businesses should uphold the elimination of discrimination in respect of employment and occupation.
7. Businesses should support a precautionary approach to environmental challenges.
8. Businesses should undertake initiatives to promote greater environmental responsibility.
9. Businesses should encourage the development and diffusion of environmentally friendly technologies.
10. Businesses should work against all forms of corruption, including extortion and bribery.

SCOPE OF APPLICATION

This Code sets out the principles and standards defining the Group's conduct to guarantee a correct development of its relations with its principal stakeholders: shareholders, employees, customers, suppliers and the society.

The Code is applicable to all the companies in the Ebro Puleva Group, binding on all their employees and extensive to any individuals or undertakings related with the Group whenever this may be necessary to ensure full compliance with the principles set out in the UN Global Compact.

Within the framework of relationships with the workforce, the Code regulates both the obligations of the organisation to its employees and the obligation of the latter to comply with the aforesaid principles, as members of the Group.

This Code also lays down the minimum guidelines to be observed by each of the persons to which it is applicable, regardless of whether there are additional legal provisions or smaller legal requirements in place in the country in which each one is based.

Our employees are the most valuable strategic asset we have to achieve success in all our activities; we have got to where we are today thanks to their organisation, enthusiasm and identification with the Group's business culture and with their cooperation we will continue making satisfactory progress in our business project.

Our Human Resources Policy is based on the following foundations:

- Occupational hazard prevention
- Management and development of talent
- Creation of stable, quality employment
- Implementation of pay policies based on criteria of individual recognition and furtherance
- Participation in management

By virtue of our concern for creating stable, quality employment, 88% of the total workforce have non-term contracts. Moreover, true to our policy of professional and personal furtherance, we promoted 117 employees within the different divisions of the Group. As a result, we have a high degree of staff loyalty, with an average seniority in the company of 11 years.

As regards the ratio of men to women, the percentage of male employees is 75.4%, against 24.6% female employees. The vast majority of the male employees, 68.8%, work in the Group's manufacturing plants, compared to 42.4% of the female employees. In contrast, 34% of the women work in auxiliary and administrative positions, against 11.7% of the men. The proportions of men and women in middle management and executive positions are very balanced, with a slightly higher percentage of female employees: 11% of men and 14% of women are in middle management, while 3.1% of men and 3.5% of women hold executive positions.

Access to employment by disabled persons

One of the focal points of the Ebro Puleva Social Responsibility Policy is to incorporate disabled persons in employment. The Group has a total of 68 disabled persons on its payroll, in its different business areas.

In Spain, in pursuance of the Social Integration of the Disabled Act, there are 15 disabled persons on the payroll of Herba Nutrición. In addition, to ensure total compliance with this Act, the subsidiaries Puleva Food, Biosearch (formerly Puleva Biotech) and Herba Ricemills have collaborated in different programmes to assist in the training and integration of these workers in society and employment through the Ebro Puleva Foundation for a value of €268,832.67, and directly with other entities, such as Intgraf, Afanias or Aprocor, with €33,972.47.

Occupational Hazard Prevention

The health and safety of our employees is an essential aspect of industrial relations in all the Ebro Puleva companies. Around one million euro was spent in 2009 on different hazard prevention actions, training employees and increasing the publicity of accident rates, causes and solutions.

Our diversification strategy and the strong internationalisation that the company has been undergoing in recent years bring with them new challenges requiring a dynamic training policy, through which our professionals continue to enhance the skills and expertise they need for positions with greater duties and responsibilities. Training is also a key factor in our internal promotion culture, which requires flexible, multi-disciplinary profiles capable of extrapolating to the Group the knowledge acquired in different companies and divisions. This policy enriches and boosts the multicultural nature of our organisation.

During 2009, we invested over a million euro in an ambitious training plan of more than 89,000 hours, to further the personal and professional development of 59% of our workforce.

The main subject matters included in the Training Plan were related with:

- Quality and environment
- Tax and legal affairs
- Languages
- Information technology
- Occupational hazard prevention and safety at work
- Management
- Market development
- Accounting
- Development of commercial and marketing skills

Welfare benefits

One of our main goals is to create stable, quality employment. Accordingly, our subsidiaries offer a broad range of welfare benefits, including, as appropriate, private medical insurances, life, accident and disability insurance, saving and retirement schemes, medical grants, meal and educational aids, study grants, etc.

Pay policy

Some thirty executives in different Ebro Puleva companies in Spain and more than three hundred in our foreign subsidiaries are included in a variable remuneration scheme which bases the variable part of their annual salary on a number of collective (of the Group overall and the different business units) and job-specific objectives.

In addition, over a hundred employees benefit in Spain from the payment-in-kind programme, whereby taxation of their salaries can be optimised through the receipt of certain benefits, such as medical insurance, company car, computers, nursery service or housing rent. This pay policy includes the delivery of shares in Ebro Puleva, S.A.: under current tax laws employees may receive up to 12,000 euro in company shares without considering them remuneration for the purpose of personal income tax. During 2009, 34 employees from different Group companies received shares in the company for an overall sum of 303,586.56 euro.

Commitment to our customers

We have from the outset endeavoured to combine our economic growth and development with meeting our customers' and consumers' needs. These needs are not static but are constantly changing, so we have to permanently adapt all our production and commercial processes and constantly renew and broaden our product portfolio.

To secure fulfilment of these objectives, we have, on the one hand, a stringent Food Safety and Quality Policy and, on the other, a permanent commitment to health research and innovation. Through the former, we meet the interests and expectations of our consumers under strict quality and safety standards, and through the second, we offer them differentiated, healthy food.

During 2009 we made further progress in the implementation of high excellence standards in Food Safety and Quality, raising the requirements in the product specifications, traceability, factory approvals by clients and enhanced customer service. We also expanded our portfolio with new healthy products, keeping up with the changing needs of our consumers. Our active collaboration with the Ministry of Health also continued in the fight against obesity, running several campaigns and activities designed to encourage healthy lifestyles, weight control and prevention of obesity.

FOOD SAFETY AND QUALITY POLICY

This policy is based on the permanently integrated action of our entire organisation to achieve continuous improvement of our company, especially in the following aspects:

1. Definition, development and implementation of a Food Safety and Quality System complying with the requirements of Standard UNE-EN-ISO 9001:2000 (or similar, depending on the country in which the respective company operates), certified by an ENAC authorised body.
2. Training and awareness of all company employees in the aspects of food safety and quality management required by their work and our organisation.
3. Setting and revising of quality targets to enable continuous improvement in this area, providing the necessary financial and operational resources.
4. Monitoring of the objectives and performance of preventive and remedial actions required from time to time by prevailing circumstances.
5. Encouragement of the company's suppliers to adopt similar principles to those set out above, cooperating with them to put them into practice.
6. Adoption of approval measures and quality programmes arranged with customers to ensure their satisfaction.
7. Achievement of the objectives set and principles mentioned above, making regular internal and external audits of the food safety and quality system.

IMPLEMENTATION OF FOOD SAFETY AND QUALITY CONTROL SYSTEMS

We use the most advanced quality control systems to guarantee the quality and safety of the food we offer our consumers:

- **Good Manufacturing Practices (GMP):** contemplating good practices for the handling, packaging, storage and carriage of fresh products.
- **Hazard Analysis and Critical Control Point (HACCP):** a system for identification and control of the possible problems that may come to light during the design and production processes.
- **Quality Assurance Standards:** such as the standards established by the International Organisation for Standardization (ISO 9001:2000), the International Food Standard (IFS) standards, which, structured in line with ISO 9001:2000, are one of the highest distinctions in Food Safety in all distribution sectors in Europe, the BRC (British Retail Consortium) certification, one of the internationally most widespread models for distributors and large retail outlets to rate their brand product suppliers, and finally, the Danish DS standard (Danish HACCP Code), for developing an HACCP system in the food industry and in the manufacturing of packing and packaging for food products. The effectiveness of these programmes is regularly assessed by independent experts.

Two new ISO certifications were obtained in 2009 for the Arrozeiras Mundiarroz plant in Coruche (Portugal).

Our US companies (Riviana and New World Pasta) follow the recommendations specifically applicable in the USA. Both their factories and their logistics centres are inspected regularly by external bodies such as the American Institute of Baking (AIB), Food Protection Agency (FPA) and Food Sanitation Institute (FSI). Both companies also comply with the directives of the US Bioterrorism Act and have established leading edge security systems in their factories.

CUSTOMER SERVICES

Two important aspects of the Ebro Puleva philosophy are our total vocation to customer service and our awareness that each customer is unique. Customers are the basis of our growth and their full attention and service is perceived as the road to be followed to secure constant improvement. Accordingly, our customer services section must essentially listen to their complaints and suggestions, duly respond to all their queries and questions and guarantee fulfilment of their rights, with the prime objective of securing their total satisfaction.

The packaging of all the Ebro Puleva Group products provide consumers with information on their nutritional properties, along with the physical address of the company and, where appropriate, its web site, e-mail and telephone number.

The different customer services departments collect data and generate information for the quality system. Demands are met by telephone or e-mail, according to the details given by the customer. A case file is opened for each incident and reported internally to the Quality Department, which checks and monitors the relevant quality system in case of error, and takes the necessary measures to offer a solution.

As a rule, we follow up all claims by telephone to check the consumer satisfaction.

We regularly make a statistical monitoring of all complaints and proposals for improvement made by our consumers, discussing them at the different Management Committee meetings held every month within each company.

CAMPAIGNS AND ACTIVITIES TO ENCOURAGE HEALTHY LIFESTYLES

Considering our firm commitment to consumers and permanent vocation of service to consumers, one of our main objectives is to offer consumers food that will have a positive effect on improving their health and well-being, an offer which we supplement with the publication of studies and with campaigns to encourage healthy lifestyles. Accordingly, in addition to the intense work on innovation and research for the development of new products, all the Group companies promote initiatives in their respective countries to make people aware of the importance of a balanced diet and inform them of the beneficial effects that certain nutrients can give them at different times of their lives.

In Spain, Ebro Puleva's commitment to the "NAOS Strategy" (Nutrition, Physical Exercise and Prevention of Obesity), a programme promoted by the Spanish Ministry of Health with the aim of improving eating habits and encouraging all citizens to take regular exercise, stressing the prevention of obesity among babies and children, is put into practice by each of the Group companies when developing their respective product portfolios.

One of our particularly important projects in this regard is Pronaos, a research programme investigating genetic, molecular and nutritional factors that regulate the body weight control systems, with a view to developing a new generation of functional foods that contribute towards weight control and the prevention of obesity. This project is led by our subsidiary Puleva Biotech, with the participation of 15 companies in the food and technology sectors and 39 public research bodies and technological centres.

Pronaos is backed by a Scientific Committee of Experts, which provides permanent supervision and counselling from a scientific point of view, consisting of Dr. Ángel Gil, Professor of Biochemistry and Molecular Biology at the University of Granada; Dr. Luis Serra, Professor of Public Health at the University of Las Palmas de Gran Canaria; Dr. Andreu Palou, Professor of Biochemistry and Molecular Biology at the University of the Balearic Islands; Dr. Basilio Moreno, Head of the Endocrinology Service at the Hospital 12 de Octubre in Madrid; and Dr. Luis Moreno, lecturer in Public Health at the University of Zaragoza.

Pronaos is the most ambitious project in Spain so far in terms of both scientific research and economic importance. With an overall budget of €27.2 million, the Ministry of Science and Innovation, through the CENIT programme, provides approximately €13 million and the remainder is funded by the sixteen companies involved in the project, spending 25% of the total financing of the programme on activities performed in collaboration with public research bodies.

In addition, Puleva strengthens this commitment through sponsorship of different societies and associations, such as the Familial Hypercholesterolaemia Foundation, the Hispanic Foundation for Osteoporosis and Metabolic Diseases, the Spanish Nutrition Foundation, the National Infant Dietary Association and the Granada Association of Heart Patients, and with the organisation of numerous activities designed to provide information on healthy lifestyles favourable to health care and that reduce the risk of certain diseases.

Commitment to the environment

Ebro Puleva has always been committed to maintaining the greatest possible balance between the performance of its activities and protection of the environment. Aware that sustainable growth is not possible without that commitment, it has an integral policy of respect for the environment, aiming to recognise, control and minimise environmental impact.

This environmental policy is based on the integrated action of all those involved in the company organisation and essentially contemplates the following aspects:

- Definition, development and implementation of an Environmental Management System complying with the requirements of Standard UNE-EN-ISO 14001:2004, or where appropriate the implementation of environmental management practices to improve its production practices.
- Modernisation of material resources enabling the company to prevent and minimise their consumption, emissions and harmful environmental effects.
- Training and awareness of all the company's employees in the environmental aspects required by their work and our organisation.
- Setting of environmental targets to enable continuous improvement in this area, providing the necessary financial and operational resources.
- Encouragement of the company's suppliers to adopt similar principles to those set out above, cooperating with them to put them into practice.
- Guaranteed achievement of the targets set, compliance with the legal requirements and principles mentioned above, making regular internal and external audits of the Environmental Management System.

In 2009, Ebro Puleva continued developing an advanced environmental policy with a view to achieving its sustainable development within a context of constant improvement and prevention. The Group invested three and a half million euro, 54% more than in 2008, in implementing enhancements to minimise its impact on the environment.

Total expenditure in environmental management activities (euro)	3,516,091
Expenditure on R+D+I focused on preservation of the environment (euro)	404,372.00

Apart from this, all the Group companies developed internal environmental training programmes, involving their employees in actions that could lead to greater savings in the consumption of water, energy and other resources. The different environmental training and awareness courses accounted for 0.5% of the total investment in environmental management activities.

(Ecoembes), a non-profit company whose mission is to design and develop systems for selective collection and recovery of used packaging and packaging waste. Ecoembes uses the concept known as "Punto Verde" (green spot) (which symbol appears on the packaging) to show that the packager of the product has paid a sum of money for each container or other form of packaging put on the market.

The European rice companies and the head offices of Ebro Puleva have also signed an agreement with companies similar to Ecoembes for the destruction of paper and other data carriers. Commitment to society: activities of the Ebro Puleva Foundation

Among its priority objectives, Ebro Puleva aims to participate in initiatives that contribute towards the well-being of society, promote the socioeconomic development of the geographical areas in which it operates and, in short, improve people's quality of life, especially in the more vulnerable sectors.

The development of this social commitment is channelled mainly through the Ebro Puleva Foundation, through which the Group promotes and participates in solidarity initiatives to further the development and equal opportunities of the less favoured segments of society, in Spain and other countries.

The Foundation was set up in Granada on 9 June 1998 and is recorded under no. 376 in the Register of Foundations kept by the Ministry of Culture. It is governed by its Bylaws and the provisions of the Foundations Act 50/2002 of 26 December and other applicable legislation.

Since 2006, in an effort to ensure that the entities with which it collaborated upheld the same values of altruism, transparency and integrity as the Ebro Puleva Foundation, it signed a collaboration agreement with Fundación Lealtad, an independent non-profit institution that analyses and assesses NGOs on the basis of nine principles of transparency and good practices. These principles are:

1. Principle of procedure and regulation of the governing body.
2. Principle of clarity and publicising of the corporate purpose.
3. Principle of planning and monitoring of the activity.
4. Principle of communication and true and fair view in reporting.
5. Principle of transparency in financing.
6. Principle of plurality in financing.
7. Principle of control in the use of funds.
8. Principle of presentation of the annual accounts and fulfilment of legal obligations.
9. Principle of promotion of voluntary aid.

The confidence given by Fundación Lealtad is essential to ensure the success of our participation in certain projects and the promotion of new initiatives within the Group.

The Foundation essentially acts in four different areas: donation of food, integration of the disabled into society and employment, cooperation for development in the third world and promotion of projects enabling socioeconomic development of the geographical areas in which the Group operates.

1. FOOD DONATION PROGRAMMES

As leader of the food sector, one of the main channels of action of the Foundation is to donate food products from the Group's different businesses. To guarantee adequate distribution of such products among the most needy, the Foundation has signed a collaboration agreement with the Spanish Federation of Food Banks (FESBAL) to manage and distribute the products donated by Ebro Puleva among the provincial food banks.

Food banks are non-profit volunteer organisations aiming to obtain and make use of food, forwarding products to welfare centres and, through them, to the needy. The Food Banks of Spain set up the Spanish Federation of Food Banks (FESBAL) in 1996 to coordinate and direct their representation and relations with the central government and international bodies, state-owned undertakings and other NGOs. FESBAL also facilitates rapprochement and exchanges among food banks, prepares statistics and common advertising and offers its members legal and administrative counselling.

FESBAL channels most of the requests for food submitted to any of the Ebro Puleva companies in Spain. In 2009, the Foundation made donations of Group products, which, if put on the market, would have had a value of 977,000 euro. Our subsidiaries Riviana and New World Pasta in the USA and Canada have developed a similar initiative, donating their rice and pasta products to several local food banks. Last year, the two companies made donations valued at 1,305,000 dollars.

The Ebro Puleva Foundation also continued financing the Workshops for Improvement of Transparency and Good Management Practices run by Fundación Lealtad, an initiative in which 12-15 food banks in Cantabria participated to implement the principles of transparency and good practices in their management.

2. PROGRAMMES TO INTEGRATE THE DISABLED IN SOCIETY AND EMPLOYMENT

Full personal autonomy, the integral creation of jobs and integration of disabled persons in employment form one of the mainstays of Ebro Puleva's social responsibility policy. The Group contracts the services of occupational centres where the disabled work and promotes and finances through the Foundation projects to provide vocational training for the disabled and achieve their full integration in society.

In 2009, the Foundation collaborated actively in projects promoted by the Prodis Foundation, the Auxilia Foundation, the Madrid Down Syndrome Foundations, the Juan XXII Foundation, the Mater et Magistra Association and the Madre Coraje Association, among others.

Some of these programmes are described below:

- **"Transition to adult and working life":** run by Cáritas in Seville through the San Pelayo Trust, aiming at the integration in society and employment of 16 young disabled through a number of activities designed to develop their professional and personal skills and boost their learning processes.
- **"Building of a multidisciplinary centre":** by the Jerez Cedown Association, the aim of this new centre is to make possible and facilitate experiences that will help pupils with the Down Syndrome to lead a normal life, providing all kinds of workshops and vocational training modules designed to generate new services and economic resources for the Association, such as greenhouses and vegetable gardens, courtyard for celebrations or an indoor swimming pool.
- **"For a better life: Mum, I'm leaving home":** run by the Mater et Magistra Association in Seville, this programme consists of the creation of two sheltered homes with capacity for a total of 20 mentally disabled persons with a medium-high level of dependence, aged between 30 and 45. The purpose of this project is to encourage personal independence through a system of community life and improve the quality of life of these individuals.
- **"Alteration and fitting-out of the Orobal Centre for the Disabled":** set up by the Orobal Association in Tenerife, the aim of this centre is to provide vocational training for the physically and mentally disabled.
- **"Occupational workshops with the disabled":** promoted by the Auxilia Foundation in Seville, this project seeks the full integration in society of the physically disabled and patients with long-term illnesses, through physiotherapy, speech therapy and psychology.

- **“Occupational Centre”**: set up by the Local Council Foundation for the Disabled of the La Rinconada Town Council (Seville), aiming to foster the integration in society and employment of the mentally disabled through the learning of a trade, for which a total of 44 users receive a “motivating salary”.
- **“Stela”**: run by the Madrid Down Syndrome Foundation; we collaborated for the fourth year in succession with this project, which aims to incorporate disabled persons in society and employment in three stages: a job training scheme, on-the-job training and, finally, monitoring in employment. It is based on the method of assisted employment, a structured, systematic system of training on the job, which enables the intellectually disabled to acquire the skills, abilities and knowledge required by their jobs.
- **“Prodis Foundation Occupational Centre”**: for the training of 180 young mentally disabled persons.

3. COOPERATION PROJECTS FOR DEVELOPMENT IN THE THIRD WORLD

The fight against poverty in the third world and contribution to development of a sustainable model, especially on the African continent, is another of the channels of action of the Ebro Puleva Foundation. According to FAO figures, in the poorest countries of Africa, 69% of the population earn their living in agriculture, but only 7% of their agricultural land has irrigation and only 4% of the African renewable resources are exploited. Moreover, the consumption of fertilizers on that continent is barely 9 kg per hectare, compared to 206 kg/ha in industrialised countries. In this regard and considering the Group's close relationship with the world of agriculture, the Foundation directs its efforts mainly at promoting and implementing educational initiatives for the development of agriculture, under the premise that the communities benefitting from these measures will be responsible for developing the different phases of the project and will thereby become self-sufficient.

To achieve this commitment, the Foundation works closely with the NGO Africa Direct, a charity-assistance foundation aiming to cooperate for the development and well-being of the least favoured populations in the African countries, promoting the sustainable development of their own services. It consists exclusively of volunteers, who work on-site supporting the local communities, and applies 100% of the funds raised to development projects in African countries.

In 2009, in view of the excellent results obtained in earlier years, the Ebro Puleva Foundation maintained its participation in cooperation programmes in Alinafe, Eritrea, Sierra Leone, Kenya and Uganda.

In Sierra Leone, led by Chema Caballero, the Foundation extended the financing of an agricultural programme through the purchase of seeds and farming tools and implements with a view to improving the yield of the land and the training and attraction of young people to farming, in an effort to halt the drift of young people from the country to the large towns and cities. The project also supports the reintegration into society of child-soldiers.

In Eritrea, we continued collaborating with the Agronomy Institute in Hagaz, which aims to provide free training in agriculture to peasants in the lower plains extending towards Sudan, with a view to achieving self-sufficiency in food through the cultivation of their own land.

In Malawi, the Foundation continued to finance the building of a farm for storing harvests in Kapiri and Abwenzi, enabling families to store their surplus, preserving them for times of shortage.

In Alinafe, a community hospital situated in Malawi which combines different medical, agricultural and educational activities, the Foundation has participated in the building of stables and a yard for farm animals, to be looked after by the disabled individuals in that community.

In Kenya, a project has begun to build the Pholot dam in the region of Dol Dol, so that the community will have access to stored rainwater. This will improve the quality of life in the hygiene and health of the beneficiaries while boosting their social and economic development.

In addition to the work done in collaboration with Africa Direct, the Foundation collaborated during 2009 with Sauce, an NGO promoted by Kike Figaredo for the installation of a farm in Cambodia to guarantee supplies for two homes for deprived children and young people in the regions of Battambang and Taken.

4. COMMITMENT TO THE SOCIOECONOMIC DEVELOPMENT OF THE GEOGRAPHICAL AREAS IN WHICH THE GROUP OPERATES

Socioeconomic development of the areas in which the Group operates is one of the principal goals of Ebro Puleva's social commitment. The Foundation is especially diligent in supporting social and welfare organisations and projects that aim to improve the quality of life of children, the elderly and segments of the population at the risk of social exclusion, as well as equal opportunities for the disabled.

This social action is channelled mainly through the financing of projects organised by local entities, which have a first-hand knowledge of the needs of each area and devote all their resources to putting those initiatives into operation.

In 2009, the Foundation collaborated with different entities in Granada, Seville, Jerez de la Frontera, Madrid, etc., for example with: Proyecto Hombre, Balía Foundation, Madre Coraje NGO, Semilla Association, etc.

Some of these projects are described below:

- **"Educational project for children in Tetuan"**: promoted by the Balía Foundation in Madrid, this programme aims at social and educational inclusion and consists mainly of providing educational support for 25 children aged 5-7 from broken families living in poverty, with a view to avoiding subsequent failure at school.
- **"Acogida"**: run by the Semilla Foundation in Madrid to secure the integration of young people in Villaverde in society and employment. It is an educational project aimed at young people who opt to commence their vocational training within the Association and is completed with a period of pre-vocational training and occupational specialisation in the Cooking and Catering School or the Computing School of the NGO. The last stage is the incorporation of these young people in employment.
- **"Child's Play"**: promoted by the Parish of St. Paul's in Jerez, aimed at boys and girls aged 6-14, offering them an education in values, with the monitors as a supplementary or alternative reference for what they have in and around their homes, boosting the children's self confidence and helping them learn to live with their peers, getting them more involved in the Parish and stimulating their social and religious awareness..
- **"The Way of St. James hiking group"**: an educational and therapeutic programme run by the Proyecto Hombre Association in Granada for the rehabilitation and reintegration of young and adult drug addicts into society and employment.

Information on all the projects in which the Ebro Puleva Foundation participated in 2009 can be found on its web site: <http://www.fundacionebropuleva.es/>

Although its principal goal is to start up social development projects, the Ebro Puleva Foundation has also dedicated part of its resources in 2009 to the promotion of educational and cultural activities. In this regard, it continued as patron of the Royal Association of Friends of the Reina Sofía National Art Gallery (Madrid) and sponsored the V Cycle of Bach Cantatas by the choir and orchestra of the Royal Chapel of Madrid.

5. CORPORATE VOLUNTEERS

During 2009 the Foundation started up its first corporate volunteer initiatives in Spain, involving employees in the Group in Ebro Puleva's commitment to society and putting them in touch with the reality of some of the entities with which the Foundation cooperates.

On 31 October, within the events of the Third Company Solidarity Day organised jointly by the NGO International Cooperation and Antena 3 Foundation, the Ebro Puleva Foundation held its first corporate volunteers day in the Madrid Food Bank. More than 40% of the company employees in Madrid participated in this solidarity initiative, which consisted of helping the volunteers of that entity to distribute food among more than 20 beneficiary entities of the Food Bank and cooperating in the cleaning of the installations. A similar day was held the following month with the participation of numerous employees from our rice subsidiary in Seville.

A.9. Indicate the term and conditions of the authorisation granted by the General Meeting to the Board to buy or sell own shares

The Annual General Meeting of Shareholders held on second call on 29 April 2009 resolved, under item eight on the agenda, to authorise the Board of Directors to buy back own shares and to authorise subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in section 75 and Supplementary Provision One, point 2 of the current (recast) Corporations Act.

a. Conditions of the authorisation

- Authorisation to the Board of Directors to buy back own shares and to authorisation of subsidiaries to acquire shares in the parent company, by purchase or on any other payment basis, subject to the limits and other requisites stipulated in section 75 and Supplementary Provision One, point 2 of the current (recast) Corporations Act, as indicated below:

- The par value of the shares acquired, when added to the par value of any shares already held by the company and its subsidiaries, may not at any time exceed 5% of the capital.
- The company must be able to fund the reserve stipulated in section 79.3 of the current Corporations Act without reducing its capital or any of its reserves restricted by law or its bylaws.
- The shares acquired must be fully paid up.
- The minimum and maximum price of the acquisition must be equivalent to the par value of the own shares bought back and their market price on an official secondary market, respectively, at the time of purchase.

b. Contents of the authorisation

- Authorisation of the Board to buy back own shares, by virtue of a direct decision or through delegation to the Executive Committee or such person or persons as the Board may authorise for this purpose, to hold those shares as treasury stock, dispose of them or, as the case may be, redeem them reducing the capital, in pursuance of the delegation made below, subject to the limits stipulated in law and the conditions established in this resolution. The authorisation is extended to the possibility of buying back own shares for delivery directly to employees or directors of the company or its group, as alternative remuneration to monetary remuneration, provided this does not raise the total income received by those groups.
- Authorisation of the Board to reduce the capital in order to redeem own shares acquired by the company or any of the companies in its group, against the capital (for their par value) and unappropriated reserves (for the amount of their acquisition in excess of that par value), in such amounts as may be deemed fit from time to time, up to the maximum of the own shares held from time to time.
- Delegation to the Board to execute the resolution to reduce the capital, so that it may do so on one or several occasions or decline to do so, within a period not exceeding 18 months from the date of this General Meeting, taking whatsoever actions as may be necessary for this purpose or required by prevailing legislation.

c. Term of the authorisation

- The authorisation is granted for a maximum of eighteen months from the date of the General Meeting and covers all dealings in own shares effected on the terms and conditions stated herein, without having to be repeated for each acquisition, and any funding or allocation of reserves made in pursuance of the Corporations Act.

This authorisation rendered null and void the authorisation granted to the Board at the General Meeting held on 9 June 2008.

B.1.14. Explain the process for establishing the remuneration of the Board members and the relevant articles of the Bylaws

Process for establishing directors' emoluments and the relevant articles of the bylaws
The current Article 22 of the Bylaws establishes the following process for directors' emoluments: When approving the company's accounts for the previous year, the general meeting shall set aside for the directors a share of 2.5% of the consolidated profits attributable to the company, although this sum may only be taken from the company's net profit for the year and after meeting the legal reserve requirements, setting aside for the shareholders the minimum dividend established in prevailing legislation and meeting all and any other priority assignments required by law. The directors may waive this remuneration, in full or in part, when drawing up the accounts. The board shall distribute the aforesaid sum among its members, annually and at its discretion, according to the duties assumed by each director on the board. The directors shall also be entitled to a fee for attending meetings of the corporate bodies, the amount of which shall be established every year by the general meeting.

Directors with executive duties in the company shall, regardless of the nature of their legal relationship with the latter, be entitled to remuneration for the performance of such duties, the amount of which shall be decided each year at the Annual General Meeting. This remuneration may contemplate welfare payments to cover any public/private pension schemes and insurance systems considered necessary or retirement from office.

On 26 February 2010, as proposed by the Nomination and Remuneration Committee, the Board resolved to increase the statutory share of the Chairman and non-executive directors for 2009 by 13.5% (equivalent to the year-on-year growth in the consolidated EBITDA in 2009) to 2,332,231 euro and, consequently, to submit a proposal to the General Meeting to apply 1.32% of the consolidated net profit attributable to the company in 2009.

As regards the distribution of the share in profits among the different members of the Board according to the duties assumed by each of the directors on the board and its different committees, the scale applicable for 2009, after the latest review by the Board upon recommendation by the Nomination and Remuneration Committee, is as follows:

- Member of the Board of Directors: 1 point
- Chairman of the Board: 1 point
- Vice-Chairman of the Board: 0.5 points
- Member of the Executive Committee: 1 point
- Committees other than the Executive Committee:
 - Member of the Committee: 0.2 points
 - Chairman of the Committee: 0.05 points per meeting
 - Committee members: 0.03 points per meeting

The Board also resolved on 26 February 2010, upon recommendation by the Nomination and Remuneration Committee, to increase the attendance fees for board meetings from 1,400 euro to 1,600 euro and the attendance fees for the different committees from 700 euro to 800 euro.

B.1.18. State whether any modifications have been made during the year to the Regulations of the Board:

NO

B.1.19. Describe the procedures for appointment, re-election, assessment and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

The procedures for appointment, re-election and removal of the directors are regulated in Articles 19 and 20 of the Bylaws, and Articles 5, 21, 22, 23 and 24 of the Regulations of the Board.

The General Meeting is responsible for deciding on the number of directors the company is to have, within the minimum (7) and maximum (15) established in the Bylaws, and for appointing or re-electing directors as proposed by the Board, subject to a favourable report by the Nomination and Remuneration Committee.

The Board may appoint directors by cooptation, upon recommendation by the Chairman and subject to a report by the Nomination and Remuneration Committee. The initiative of the Board regarding the incorporation of members by no means detracts from the sovereign power of the General Meeting to appoint and remove directors, or from any potential exercise by shareholders of their right to proportional representation.

The persons nominated by the Board for appointment or re-appointment as directors must be persons of recognised standing, with adequate experience and expertise to be able to perform their duties.

As regards the role of the Nomination and Remuneration Committee in the appointment of directors, see the duties of this Committee in section B.2.3 of this Report.

Since the alteration of the Bylaws approved in 2006, Directors are appointed for a term of four years (previously 5 years), after which they are eligible for re-election on one or several occasions for terms of an equal duration. This term of four years is counted from the date of the General Meeting at which they are appointed, or ratified when previously appointed by cooptation by the Board.

If vacancies arise during the term for which they were appointed, the Board may appoint shareholders to fill those vacancies up to the next general meeting. Directors' appointments shall end at the first general meeting held after expiry of their term or lapse of the time stipulated in law for holding the general meeting that is to approve the accounts of the previous year.

The Board regularly rates the Directors on their efficiency and fulfilment of their obligations, requesting the corresponding reports from its Committees, and if considered necessary it may propose any modifications that may be appropriate to improve their performance.

Directors retire upon expiry of the term for which they were appointed and in all other events stipulated in the Corporations Act, the Bylaws or the Regulations of the Board. They must tender their resignations to the Board and step down in the events established in Article 24 of the Regulations of the Board.

B.1.20. Indicate the events in which directors are obliged to retire.

The retirement and resignation of directors are regulated in Article 24 of the Regulations of the Board:

- Directors must step down at the end of the term for which they were appointed and in all other events stipulated in law, the Bylaws and the Regulations of the Board.

- Directors must also tender their resignations and step down in the following cases:

a) When they are affected by one of the causes of incompatibility or disqualification established in law, the bylaws or these regulations.

b) When they step down from the executive post to which their appointment as director was linked, when the shareholder they represent on the Board disposes of its shares in the company or reduces its interest to an extent requiring a reduction in the number of proprietary directors and, in general, whenever the reasons for their appointment disappear.

c) When the Board, following a report by the Nomination and Remuneration Committee, considers that the Director has seriously defaulted his obligations or for reasons of corporate interest.

The Board of Directors shall propose to the General Meeting of Shareholders that a Director be removed if one of the circumstances described above occurs and the Director fails to tender his resignation.

B.1.21. Explain whether the Chairman of the Board is the highest executive of the company. If so, state what measures have been adopted to limit the risks of any single person having unfettered powers:

YES

Measures for limiting risks
With a view to establishing corrective measures in the bylaws to prevent excessive concentration of power in the Chairman when he is also the most senior executive of the company, Article 25 of the Bylaws creates the figure of a Vice-Chairman appointed from among the non-executive directors to boost the management supervision and control duties. In accordance with this provision, the current Vice-Chairman of the Board, José Barreiro Seoane, is an independent director and performs the aforesaid duties.

Indicate and if appropriate explain whether rules have been established authorising one of the independent directors to request the calling of a board meeting or the inclusion of new items on the agenda, to coordinate and echo the concerns of non-executive directors and to direct the assessment by the board.

YES

Explanation of the rules
The Regulations of the Board specify the events in which directors may request the calling of a board meeting or inclusion of items on the agenda; this power is not limited to independent directors. Article 9.2 of the Regulations establishes that one-third of the board members may, no less than six days prior to the scheduled date of the Board meeting, request the inclusion of any items they believe ought to be transacted. Article 9.5 of the Regulations states that the board may discuss and resolve on issues included on the agenda and any others that all the directors present and represented agree to transact. Article 25.2.b) stipulates that Directors shall also request meetings of the corporate bodies to which they belong whenever they consider this necessary in the interests of the Company, proposing whatever items they think should be included on the agenda. Finally, Article 33.1 provides that if the Chairman of the Board is also the chief executive of the company, a Vice-Chairman must be appointed from among the non-executive directors with the power to request the calling of a board meeting or the inclusion of new items on the agenda, who may organise meetings to coordinate non-executive directors and will direct the Chairman performance rating.

B.1.22. Are special majorities differing from those stipulated in law required for any type of decision?:

NO

Explain how resolutions are adopted on the Board, indicating at least the quorum and the majorities required for adopting resolutions:

Description of the resolution:

Resolutions delegating powers to the Executive Committee and Managing Director, or CEO, and appointing directors to those positions.

Quorum	%

B.1.26. Do the Bylaws or Regulations of the Board establish a limited term of office for independent directors?

-----------------------------------	---

B.1.27. If the number of female directors is small or non-existent, explain why and the initiative taken to remedy that situation.

Explanation of reasons and initiatives
Board members are appointed regardless of candidates' sex so there is no positive or negative discrimination of any nature in the election of directors.

Explanation of reasons and initiatives
María Blanca Hernández Rodríguez was appointed director in 2006.

In particular, indicate whether the Nomination and Remuneration Committee has established procedures to ensure that the selection procedures are not implicitly biased against the selection of female directors and deliberately search for candidates with the required profile:

NO

B.1.28. Are there any formal procedures for the delegation of votes at Board meetings? If so, include a brief description.

Both the Bylaws (Article 24) and the Regulations of the Board (Article 10) contemplate the possibility of directors attending Board meetings through a duly authorised proxy.

The proxy must be made in writing especially for each board meeting, in favour of another director.

The represented director may issue specific instructions on how to vote on any or all of the items on the agenda.

B.1.29. State the number of meetings held by the Board of Directors during the year, indicating, if appropriate, how many times the Board has met without the Chairman:

Number of board meetings	12
Number of board meetings held without the chairman	0

Number of meetings held by the different Committees of the Board:

Number of meetings of the Executive Committee	7

Number of absences of directors during the year	0
% absences to total votes during the year	0.000

B.1.31. Are the separate and consolidated annual accounts submitted to the Board for approval previously certified?

NO

If so, name the person(s) who certify the separate or consolidated annual accounts of the company before they are approved by the Board:

B.1.32. Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the separate and consolidated accounts laid before the General Meeting.

Relations with the auditors are expressly regulated in Article 19 of the Regulations of the Board, which stipulates in section 2 that the Board shall endeavour to draw up the Annual Accounts in such a way as to avoid a qualified Auditors' report.

Within the specific duties attributed to the board in certain areas, Article 7.1 of the Regulations establishes that the Board shall see that the separate and consolidated Annual Accounts and Directors' Reports give a true and fair view of the equity, financial position and results of the company, as stipulated in law, and each and all of the Directors shall have all the necessary information before signing the Annual Accounts.

Article 13.3 of the Regulations of the Board gives the Audit and Compliance Committee certain powers to ensure that the Annual Accounts are filed without a qualified auditors' report (see section B.2.3).

B.1.33. Is the Secretary of the Board a Director?

NO

B.1.34. Explain the procedure for appointment and removal of the Secretary of the Board, indicating whether the Nomination Committee has issued a report for such appointment and removal and whether they were approved by the full board.

Appointment and removal procedure
The Secretary of the Board may or may not be a director, is appointed by the Board upon recommendation by the Nomination and Remuneration Committee, after ensuring that his/her professional profile is adequate to guarantee the best performance of the duties corresponding to this position by law, the bylaws and regulations of the board.

Appointment and removal procedure
The company has not established any procedure for removal of the Secretary of the Board other than that stipulated in law, although Article 24.3 of the Regulations of the Board submits the Secretary, regardless of whether or not he/she is also a director, to the same obligations as the directors of explaining to all the Board members the reasons for retirement or resignation prior to the end of his/her term of office.

Does the Nomination Committee issue a report on the appointment?	YES
Does the Nomination Committee issue a report on the removal?	YES
Does the full Board approve the appointment?	YES
Does the full Board approve the removal?	YES

Is the Secretary of the Board responsible especially for overseeing compliance with the recommendations on good governance?

YES

Comments
Article 36.2 of the Regulations of the Board provides that in addition to the duties assigned by law and the bylaws, the Secretary of the Board shall, in particular: a) Ensure that the Board's actions: - Conform to the text and spirit of the laws and statutory instruments, including those approved by the watchdogs. - Conform to the company Bylaws and the Regulations of the General Meeting, the Board and any other regulations the company may have. - Take account of the recommendations on good governance accepted by the company. b) Keep all company documents, duly record the proceedings of meetings in the corresponding minute books and certify the resolutions of those corporate bodies of which he/she is Secretary. c) Channel, generally, the Company's relations with Directors in all matters concerning the functioning of the Board and the Committees he/she is on, following the instructions of the respective Chairman. d) Implement and facilitate exercise by the Directors of their right to information on the terms stipulated in these Regulations.

B.1.35. Describe any mechanisms established by the company to preserve the independence of the auditor, financial analysts, investment banks and rating agencies.

Both the Bylaws and the Regulations of the Board vest in the Audit and Compliance Committee the power, among others, to contact the auditors and receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, and receive information from and exchange communications with the auditors in accordance with prevailing auditing standards and legislation.

Article 19 of the Regulations of the Board addresses relations with the auditors, obliging the Board to establish an objective, professional, continuous relationship with the External Auditors of the Company appointed by the General Meeting, guaranteeing their independence and putting at their disposal all the information they may require to perform their duties. It further establishes that the aforesaid relationship with the External Auditors of the Company and the relationship with the Internal Audit Manager shall be conducted through the Audit and Compliance Committee.

Finally, Article 28.2 of the Bylaws and Article 13.3 of the Regulations of the Board establish the following powers of the Audit and Compliance Committee in this respect:

- Ensure that the systems used for preparing the separate and consolidated Annual Accounts and Directors' Report submitted to the Board to be drawn up in accordance with current legislation give a true and fair view of the equity, financial position and results of the Company, ensuring also that interim accounts are drawn up according to the same accounting principles as the annual accounts, considering the possibility, if appropriate, of requiring the external auditors to make a limited audit thereof.

- Have contacts with the Auditors to receive information on any issues that may jeopardise their independence, and any other issues relating to the auditing of accounts, receiving information from and exchanging communications with the Auditors in accordance with prevailing auditing standards and legislation.

Considering the circumstances of the specific case, the Chairman may (i) deny or authorise the proposal in a communication sent through the Secretary of the Board, who shall, provided the proposal is authorised, contract the expert in question; and (ii) put the proposal to the Board, which may refuse to finance the counselling if it considers it unnecessary for discharging the duties commissioned, or out of proportion with the importance of the matter, or if it considers that the technical assistance requested could be adequately provided by Company employees.

The procedure for informing directors is regulated in Article 30.1 of the Regulations of the Board, which provides that whenever so required in the performance of their duties, directors shall have the fullest powers to obtain information on any corporate affairs, obtaining such documents, records, background information or other elements as they may require in this respect. This right to information is extended to subsidiaries. It informs in advance on the appointment of a director by cooptation or the submission of any proposals to the general meeting regarding the appointment or removal of directors. b) Appointment of the Chairman, Vice-Chairman, Managing Director if any, General Manager and Company Secretary, and assignment of the directors to the Executive Committee, the Audit and Compliance Committee and the Strategy and Investment Committee, and appointment of the members of the Management Committee and such other advisory committees as the Board may create, as well as the appointment and possible removal of senior officers and their contractual clauses regarding severance pay. c) Position of the company on the appointment and removal of members of the governing bodies of its subsidiaries. d) Proposal of directors' emoluments, in accordance with the rules on remuneration established in the Bylaws and the relations of executive directors with the company. EXECUTIVE COMMITTEE

Brief description

In addition to the Chairman and the Vice-Chairman, other Directors may sit on the Executive Committee, up to a maximum of seven members, with the composition stipulated in the Bylaws. All the members of this Committee are appointed by the Board, which also specifies what powers are delegated to it, in accordance with the Bylaws and the Regulations of the Board, requiring votes in favour of at least two-thirds of the Board members to carry the relevant resolutions. Save otherwise resolved by the Board, all the powers of the Board that may be delegated according to law, the Bylaws and the Regulations are deemed delegated to this Committee on its creation, subject to the limits established from time to time in the recommendations on good corporate governance. The Chairman and Secretary of the Board hold the corresponding positions on the Executive Committee. The Executive Committee generally meets once a month. Its meetings may be attended by such members of management, employees and advisers of the company as the Committee may deem fit. Without prejudice to the autonomy of decision of the Executive Committee in respect of the delegated powers, its resolutions being fully valid and effective without ratification by the Board, whenever circumstances so require, in the opinion of the Chairman or three members of the Committee, the resolutions adopted by the Executive Committee are submitted to the Board for ratification. This is also the case in matters which the Board has delegated the Committee to study, while reserving for itself the ultimate decision, in which case the Executive Committee merely submits the corresponding proposal to the Board. At the request of any of its members, the Directors will be informed at the first Board meeting following any meeting of the Executive Committee of all resolutions adopted by the latter since the previous Board meeting. Directors are granted access to the minutes of Executive Committee meetings whenever they so request of the Secretary of the Board. The Executive Committee has the following powers: a) Adopt resolutions corresponding to the powers delegated to it by the Board of Directors. b) Monitor and supervise the overall and day-to-day management of the Company, ensuring adequate coordination with the subsidiaries in the common interests of the latter and the company. c) Study and propose the guidelines defining the business strategy, supervising its implementation. d) Discuss and report to the Board on any matters related with the following business, regardless of whether or not they have been delegated by the Board: - Individual and consolidated annual budget of the company, specifying the amounts budgeted for each core business. - Monthly monitoring of the economic management, deviations from the budget and proposals for remedial measures, if necessary. - Significant material or financial investments and their corresponding economic justification. - Alliances and agreements with companies considered important for the company, by virtue of their amount or nature. - Financial transactions of economic importance for the company. - Programme of medium-term activities. - Assessment of the achievement of objectives by the different operating units of the company. - Monitoring and assessment of the aspects contemplated in d) in the subsidiaries. e) Adopt resolutions corresponding to the acquisition and disposal of treasury stock by the Company, in accordance with the authorisation granted by the General Meeting. A particular director may be appointed to execute and process decisions to buy or sell own shares, overseeing and, where necessary, authorising, provided it is lawful, any agreements that may be made by subsidiaries for the acquisition and disposal of own shares or shares in the company.

C.6. Explain the mechanisms established to detect, define and resolve possible conflicts of interest between the company and/or its group, and its directors, executives or controlling shareholders.

The Audit and Compliance Committee ensures that the internal audit procedures and internal control systems are adequate and informs the Board on the related-party transactions submitted for its consideration and control of any possible conflicts of interest.

Under Article 28 of the Bylaws, the Audit Committee has, among others, the power to ensure that transactions between the company and its subsidiaries or between these companies and directors and controlling shareholders are made on arm's length terms and respecting the principle of equal treatment, thus controlling any conflicts of interest that may arise in these related-party transactions.

Under Article 6 of the Regulations of the Board, the Board is competent, once a favourable report has been issued by the Audit and Compliance Committee, to authorise any related-party transactions between the company or group companies and directors, controlling shareholders or shareholders represented on the board. This authorisation is not necessary when the transactions meet all of the following three conditions:

- If the transactions are made under contracts with standard terms and conditions applied globally to many clients.
- If the transactions are made at prices or rates established generally by the supplier of the good or service in question.
- If the amount of the transaction is no more than 1% of the annual income of the company.

Article 22 of the Regulations of the Board establishes the following prohibitions and disqualifications, among others, for directors:

- Holding positions or duties of representation, management, counselling or rendering of services in rival companies or the holding or performance of such positions, duties or services in companies having a controlling stake in rival companies.
- Attendance and participation in the discussions of any of the corporate bodies concerning business in which the director personally, or a member of his/her family has an interest or a company in which the director has an executive position or a significant shareholding.
- Direct or indirect participation in related-party transactions with the company or other group companies without previously informing the Board and seeking its approval, except in the cases contemplated in Article 6.5 of these Regulations.

The article also bars from the board anyone who, personally or through an intermediary, holds office in or is a representative of or is otherwise related to companies that are habitual clients or suppliers of goods and services of the company, whenever this condition may give rise to a conflict or clash of interest with the Company or its subsidiaries; in such cases the Chairman shall be informed of the situation and request a report from the Audit and Compliance Committee. Financial institutions providing financial services for the company are excluded from the foregoing. Nor may anyone related through family, professional or commercial ties to executive directors or other senior officers of the Company be members of the Board unless, after informing the Chairman of this situation, a report is issued by the Audit and Compliance Committee excluding the specific case from this prohibition.

C.7. Is more than one company of the Group listed in Spain?

YES

Name the listed subsidiaries:

Listed subsidiary
PULEVA BIOTECH, S.A.

State whether the respective areas of activity and possible business relations between them have been publicly defined, and those of the listed subsidiary with the other group companies:

YES

Define any business relations between the parent company and the listed subsidiary, and between the latter and other group companies
Details are set out below of the significant transactions involving a transfer of resources made during 2009 between the Puleva Biotech Group and the following companies wholly-owned by its controlling shareholder, Ebro Puleva, S.A.: Puleva Food, S.L.U., Herba Ricemills, S.L.U., Boost Nutrition C.V. and Fundación Ebro Puleva. There is a theoretical possibility of a conflict of interest deriving from the fact that the shareholders of Puleva Biotech, S.A. , which is also a listed company, do not entirely coincide with those of its parent company Ebro Puleva, S.A. It is, therefore, essential that the terms of contract in all business relations between the different companies of the Ebro Puleva group and the Puleva Biotech Group are made strictly on arm's length terms, to avoid any detriment to the minority shareholders of either company, which are not represented on the boards of the contracting companies and, consequently, do not participate in the decision-making process. During 2009, Puleva Biotech, S.A. and Española de I+D, S.A. continued working with the companies in the Ebro Puleva Group named above under different contracts signed with them: 1. Relations between Puleva Food S.L.U. and Puleva Biotech, S.A. During 2009, Puleva Biotech S.A. has provided R+D+I services for Puleva Food S.L.U. in 2008 by virtue of a number of project-specific contracts signed between the two companies, under the master agreement signed in 2001 for these counselling services. The different projects come within the following areas:

- Nutritional and clinical evaluation
- Development of new packaging technologies
- Development of new products
- Food safety and quality guarantee
- Product reformulation and authorisation of ingredients

In addition, during 2009 Puleva Food, S.L.U. purchased functional fats (omega3) EPA and DHA in a volume of 242,810 kg, produced at the plant operated by Puleva Biotech, S.A. in Granada. It also purchased 2,350 kg of isoflavones produced at the Puleva Biotech Talayuela plant (Cáceres).

The net turnover on goods and services supplied by Puleva Biotech, S.A. to Puleva Food, S.L.U. in 2009 is 5,662 thousand euro, of which 2,793 thousand euro correspond to sales of goods and 2,869 thousand euro to the rendering of services.

2. Relations between Herba Ricemills, S.L.U. and Puleva Biotech, S.A.

The commercial relationship between Herba Ricemills and the Puleva Biotech Group is structured through the development of a global R+D+I project called "Research and Technological Development in the Cereals and Derivatives sector: Scientific and Technological bases and the new range of enhanced starch foods" (Cereals Project). The corresponding consortium agreement was signed on 22 February 2007, establishing that Herba, as Project Leader, would bear all the expenses and investments made by the collaborating undertakings in the development and performance of the Project, increased by the corresponding industrial profit. This agreement continued to regulate the contractual relationships between the two companies during 2008 and up to 31 December 2009.

This consortium agreement was made subject to obtaining the economic aid requested from the Andalusian Technological Corporation (CTA), which was granted by virtue of a decision of 8 May 2007.

Herba has paid 50% of the contribution made by Puleva Biotech to the CTA throughout the duration of the Project.

In 2009, Puleva Biotech, S.A. invoiced Herba Ricemills, S.L. 583 thousand euro for the expenses incurred in the Cereals Project, adding the agreed 10% industrial margin and 125 thousand euro corresponding to half of the contribution to the CTA that Puleva Biotech, S.A. made during the year.

Puleva Biotech, S.A. also provided quality analysis services to Herba Ricemills S.L.U. during 2009 for the value of 22 thousand euro and sold its products for a total amount of 3 thousand euro.

3. Relations between Herba Ricemills, S.L.U. and Española de I+D, S.A. (subsidiary of Puleva Biotech, S.A.)

By virtue of the Consortium Agreement for the R+D+I Project signed on 22 February 2007 and presented to the Andalusian Technological Corporation and the Andalusian Innovation and Development Agency, and by virtue of the Rider of Operating Conditions to that Consortium Agreement for the R+D+I Project approved by the Andalusian Technological Corporation, signed on 24 September 2007, Española de I+D, S.A. provides work, resources and research and development services to the Project, according to the scientific and technical specifications and manpower requirements stipulated in the agreement, encompassed within the activity comprising its objects.

Herba Ricemills, S.L.U., as leader of the Consortium and Coordinator of the Cereals Project, bears all the expenses incurred in the development and performance of that Project, within the margins established as budgets subject to incentive by the CTA in its decision of 8 May 2007.

During 2009, Española de I+D, S.A. provided services to Herba Ricemills, S.L.U. for a value of 820 thousand euro.

4. Others

During 2009, Puleva Biotech, S.A. invoiced 3 thousand euro to Boost Nutrition C.V. for quality analysis services.

Puleva Food, S.L.U and Ebro Puleva, S.A. have signed current account agreements earning interest on arm's length terms on the balances deriving from any assignment or loan of cash between these companies and Puleva Biotech, S.A. Puleva Biotech, S.A. paid Puleva Food, S.L.U. financial expenses of 323 thousand euro for this interest in 2009.

Puleva Food, S.L.U. supplies certain goods and services to Puleva Biotech, S.A., such as lease of the commercial offices and industrial buildings for the normal performance of its business, certain industrial supplies, counselling and administration services, etc. The total cost for Puleva Biotech, S.A. of all these items during 2009 was 730 thousand euro.

Puleva Biotech, S.A. also received services from the parent company Ebro Puleva, S.A. during 2009 for the value of 2 thousand euro.

Puleva Biotech, S.A. made a donation of 28 thousand euro to the Ebro Puleva Foundation in 2009 as an alternative measure to the obligation to reserve 2% of employment in the company for disabled workers, pursuant to the Disabled Persons Integration Act.

5. Conclusions

The sales of goods and rendering of services made by the Puleva Biotech Group to above-mentioned companies in the Ebro Puleva Group during 2009 represent 38% of its net turnover.

Indicate the mechanisms in place for solving possible conflicts of interest between the listed company and other companies in the group:

Mechanisms for solving possible conflicts of interest

In its bylaws and regulations the company has commissioned the Audit and Compliance Committee, among other duties, to control any conflicts of interest that may arise.

The Bylaws authorise the Audit and Compliance Committee to ensure that all transactions between the company and its subsidiaries, or between those companies and directors and controlling shareholders, are made on arm's length terms and respect the principle of equal treatment, thus controlling any conflict of interest that may arise in related-party transactions.

The Regulations of the Board establish that the Audit and Compliance Committee should report to the Board on any related-party transactions submitted to it for its consideration and on the control of any possible conflicts of interest.

See in this regard section C.6 of this Report.

D. RISK CONTROL

D.1. General description of the risk policy of the company and/or its group, including details and assessment of the risks covered by the system, together with proof that those systems adapt to the profile of each type of risk.

Guided by the conceptual framework of the “Committee of Sponsoring Organizations of the Treadway Commission” (COSO) report on internal control, the Ebro Puleva Group has established systems for risk identification, assessment, management and information.

The ultimate purpose of these risk control systems is to defend the interests of our shareholders, customers, employees and social environment. At the said time, they provide a sustained guarantee of the corporate reputation and financial strength of the Ebro Puleva Group.

These risk control systems cover all the activities performed by the Group, consisting essentially of the agro-industrial rice, pasta and dairy businesses. The risks covered by these systems affect food quality, environmental, business, credit (or counterparty), regulatory, social and political, financial (exposure to exchange rate fluctuations) occupational and technological issues.

The Group is a pioneer within its sector in the development and furtherance of R+D, environmental and food quality, and internal audit.

The Group has environmental and food quality, commercial or counterparty risk, occupational hazard prevention and research & development committees, which are responsible for preventing and mitigating the risks.

In addition, all investment projects incorporate a risk analysis, to enable their economic and strategic assessment prior to decision-making. Decisions are adopted by the corresponding body according to the limits established, the largest projects requiring approval by the Board.

Finally, the Group is also exposed to another two types of risk: regulatory risk, subject to the guidelines established in the Common Agricultural Policy (CAP) and country or market risk. These risks have been reduced over recent years, through a firm policy of business and geographical diversification, increasing our presence in Europe, America (United States), Asia (Thailand and India) and Africa (Egypt and Morocco).

D.2. Have any of the different types of risk (operating, technological, financial, legal, reputational, tax...) affecting the company and/or its group materialised during the year?

YES

If so, indicate the underlying circumstances and whether the control systems worked.

Risk materialised during the year

Normal risks in the performance of the Ebro Puleva Group activities.

Underlying circumstances

Normal course of Group business.

Functioning of the control systems

The prevention and control systems of those risks worked properly.

D.3. Is there a Committee or other governing body responsible for establishing and supervising the control systems?

YES

If so, describe its duties:

Name of committee or body

Audit and Compliance Committee

Description of duties

Analyse and assess the principal risks to which the Group may be exposed and the systems established for their management and control.

D.4. Identification and description of processes for compliance with the different regulations affecting the company and/or its group.

The Group has a set of internal rules and procedures for its different activities, which are fully in keeping with the applicable legal provisions.

The reports of the Group's Internal Audit Department are prepared by experts independent from the business management and the department reports to the management bodies of the Group subsidiaries and the Audit and Compliance Committee of the parent company, Ebro Puleva, S.A., on its conclusions and recommendations so that any remedies required may be taken and any necessary improvements implemented.

The board has also published a code of conduct and a corporate governance policy, by virtue of which we have been ahead of the legal requirements established from time to time.

E. GENERAL MEETING

E.1. Indicate the quorums for General Meetings established in the Bylaws and the differences, if any, in respect of the minimums stipulated in the Corporations Act.

YES

	% quorum differing from that stipulated in the Corporations Act s. 102 for ordinary resolutions	% quorum differing from that stipulated in the Corporations Act s. 103 for special resolutions
Quorum required on 1st call	50.000	60.000
Quorum required on 2nd call	25.000	30.000

Description of the differences
The bylaws establish a higher quorum than that stipulated in the Corporations Act s. 102, for both the first call (50% against the legal quorum of 25%) and the second call (25% according to the bylaws, while the Corporations Act does not stipulate a required minimum). For the special resolutions contemplated in the Corporations Act s. 103, the Bylaws require the attendance of shareholders present or represented, on first call, holding at least 60% of the voting capital, compared to the 50% required by law, and 30% on second call, against the 25% required by law.

E.2. Are there any differences in respect of the system stipulated in the Corporations Act for adopting corporate resolutions? If so, explain.

NO

What differences exist in respect of the system stipulated in the Corporations Act?

E.3. Describe any shareholders' rights in respect of General Meetings differing from those established in the Corporations Act.

The Regulations of the General Meeting contain, and develop, in the articles indicated below, all the shareholders' rights in respect of general meetings stipulated in the Corporations Act, thus complying with the rules and recommendations for good governance:

- Shareholders' right to information is exhaustively regulated in Articles 5 and 6.
- Shareholders' right to attend and be represented by proxies is regulated in Article 7.

- Call the shareholders to order when their contributions are clearly made to filibuster or upset the normal course of the general meeting.

ITEM FOUR ON THE AGENDA

- To ratify the sale of the sugar business to Associated British Foods (ABF), owner of 100% of British Sugar, as resolved by the Board of Directors of Ebro Puleva, S.A., on the following terms:

- ABF will buy the sugar business for a debt-free price of €385 million. The debt to be deducted will be as at the date of closing the transaction. The price includes 100% of the share in Azucarera Ebro, S.L. and the value of the sugar brands owned by Ebro Puleva, S.A.

- Ebro Puleva will receive sums to be determined, initially estimated at approximately €141 million, corresponding to compensations, mainly from the restructuring funds contemplated in the CMO sugar reform.

- The agreement also contemplates incorporation by Ebro Puleva, S.A. in its property assets, through two wholly-owned subsidiaries in its group, of more than 200 hectares of land with different planning ratings from Azucarera Ebro, S.L., with an estimated value of €42 million.

The transaction will foreseeably be made, provided it is approved by the European anti-trust authorities, within the first half of 2009.

This resolution was approved by a majority of 99.940% of the voting capital present and represented.

ITEM FIVE ON THE AGENDA

A) To approve, pursuant to Article 34 of the Bylaws, an extraordinary dividend in kind consisting of distributing own shares from the treasury stock against the share premium recorded under liabilities on the balance sheet as at 31 December 2008 (€34,334,000), using up the entire amount thereof, up to the number of treasury shares held at the date of the AGM.

This dividend in kind was approved on the following terms:

- The Reference Value and average closing price of the Ebro Puleva, S.A. share in the electronic continuous trading system (SIBE) in Spain over the last twenty sessions prior to the date of the AGM, is set at 9.43 euro per share.

- The maximum number of shares to be delivered is 3,640,827 shares.

- The exact ratio for distribution is one new share for every 40.73 existing shares.

- The shares will be delivered on 12 May 2009 (Delivery Date), provided the sale of the sugar business is completed as planned on 30 April 2009 (Determination Date).

- BARCLAYS BANK, tax no. A47001946, with registered office at Plaza de Colón no. 1, Madrid, is named agent bank.

- All those recorded in the accounting records of the shares participating in the securities clearing and settlement system of Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A. (IBERCLEAR) as holders of shares in Ebro Puleva, S.A. at the close of the stock markets on the Determination Date will be entitled to receive this dividend in kind. The shares will be delivered on the aforesaid Delivery Date through the systems and mechanisms established by IBERCLEAR.

- In order to effect this operation, the Agent Bank, BARCLAYS BANK, Plaza de Colón no. 1, Madrid, will coordinate and carry out with IBERCLEAR and its members such actions and operations as may be necessary or purely convenient to distribute the dividend contemplated in this agreement, pursuant to the procedure and on the terms established herein and any others that may be decided by the board of directors of Ebro Puleva, S.A.

- This notwithstanding, a mechanism is established to facilitate this operation for shareholders who, at the Determination Date, hold a number of shares that exceeds or does not reach the multiple established as the exact ratio for delivery. The shares exceeding that multiple in the first case or falling short of the multiple in the second case, shall be called "Surplus" or "Odd lot".

(i) On the Delivery Date, Ebro Puleva, S.A. will deliver to the qualifying shareholders, through IBERCLEAR and its members, the whole numbers of shares corresponding to them by virtue of the exact ratio for delivery approved.

(ii) Since, by application of the exact ratio for delivery mentioned above, surpluses will not be entitled to a whole share in Ebro Puleva, S.A. but only to a fraction of a share, an odd lot settlement system will be established for each and every shareholder without requiring express instructions from the latter. This system contemplates the settlement of odd lots by means of payment of cash in a sum equivalent to the value of the odd lot, in lieu of the corresponding fraction of share.

(iii) For this purpose, the value of odd lots will be calculated according to the Reference Value, such that the amount payable by the Agent Bank for each odd lot will be equal to the result of multiplying the Reference Value by the fraction of a multiple represented by the odd lot, rounding the result off to the nearest euro cent.

(iv) The Agent Bank appointed by Ebro Puleva, S.A. will keep the treasury shares that would have corresponded to the afore-mentioned odd lots and may dispose of them after completion of the operation.

- Any charges or commissions that could legally be charged by the members of IBERCLEAR or depositaries on the distribution will be paid by Ebro Puleva, S.A., but the company will not pay any charges or commissions accruing after transfer of the shares distributed as dividend in kind.

- This dividend includes the proportional allotment that would correspond to the shares held as treasury stock.

- The board of directors is expressly vested, with the express power to delegate to the Executive Committee or such director or directors as it may deem fit or such other person as the board may appoint, with all the powers required to execute this resolution, including development of the procedure established and such powers as may be necessary or convenient to conclude any formalities and other actions that may be required to conclude this operation.

This resolution was approved by a majority of 99.986% of the voting capital present and represented.

B) To approve an extraordinary dividend payable in cash against unappropriated reserves of 0.36 euro per share outstanding (in addition to the ordinary dividend), payable in three payments of 0.12 euro each during 2009, coinciding with the dates of the last 3 payments of the ordinary dividend (2 July, 2 October and 22 December), in a total sum of 55,391,000 euro. This dividend includes the proportional allotment that would correspond to the shares held as treasury stock.

This resolution was approved by a majority of 99.986% of the voting capital present and represented.

The effectiveness of both resolutions and, therefore, the payment of both extraordinary dividends, are conditional upon fulfilment of the condition precedent of conclusion and completion of the sale of the sugar business ratified by the AGM under item four on the agenda.

ITEM SIX ON THE AGENDA

This resolution was approved by a majority of 99.986% of the voting capital present and represented.

ITEM EIGHT ON THE AGENDA

- To authorise the Board to buy back own shares and authorise subsidiaries to acquire shares in the parent company, by purchase or any other transaction for value, subject to the limits and requisites established in section 75 and Supplementary Provision One.2 of the current Corporations Act, as follows:

- The par value of the shares thus acquired, when added to those already held by the company or its subsidiaries, shall not exceed 5% of the capital at any time.

- After making the acquisition, the company shall be able to fund the reserve stipulated in section 79.3 of the Corporations Act without reducing the capital, the legal reserve or any undistributable reserves established in the bylaws.

- The shares thus acquired shall be fully paid up.

- The minimum and maximum price or consideration for the acquisition shall be the equivalent of the par value of the own shares purchased and their price on an official secondary market at the time of purchase, respectively.

By virtue of this authorisation, the Board may, by direct resolution or by delegation to the Executive Committee or to such person or persons as the Board may authorise for this purpose, buy back own shares to hold them as treasury stock, dispose of them or, as the case may be, redeem them, reducing the capital accordingly, under the delegation made below, within the limits established in law and in fulfilment of the conditions stipulated in this resolution. This authorisation is also extended to the possibility of acquiring own shares to be delivered directly to employees or executives of the company or its group, as an alternative to monetary remuneration; this will by no means imply an increase in the total remuneration received by such employees or executives.

The authorisation contemplated in this resolution is granted for no more than eighteen months from the date of this Annual General Meeting and covers all treasury stock transactions made on the terms stipulated herein, without having to be reiterated for each purchase or acquisition, and all transfers to or earmarking of reserves made in pursuance of the Corporations Act. The authorisation granted to the Board to buy back own shares subject to the limits and requisites established in section 75 of the current Corporations Act, approved at the Annual General Meeting held on 9 June 2008, is hereby rendered null and void.

- To reduce the capital to redeem the company shares acquired by Ebro Puleva or other companies in its Group, against the capital (for the par value) and unappropriated reserves (for the amount of the acquisition in excess of such par value), by such amounts as may be deemed fit from time to time, up to the maximum number of own shares held at any time.

- To delegate to the Board the power to execute this resolution to reduce the capital, which it may do on one or several occasions, or to render it null and void, within a period not exceeding 18 months from the date of this AGM, doing whatsoever may be required by law for this purpose.

The Board is especially authorised, within the times and limits established in this resolution, to: (i) reduce the capital or otherwise, establishing the specific date or dates of the operations, as the case may be, taking account of any internal and external factors affecting the decision; (ii) state in each case the amount of the reduction of capital; (iii) adapt Articles 6 and 7 of the Bylaws in each case to reflect the new amount of capital and the new number of share; (iv) apply in each case for delisting of the redeemed shares; and (v) in general, adopt such resolutions as may be deemed fit to redeem the shares and reduce the capital accordingly, appointing individuals to do whatsoever may be necessary.

This resolution was approved by a majority of 99.782% of the voting capital present and represented.

ITEM NINE ON THE AGENDA

- To delegate to the Board, in pursuance of the Corporations Act s. 153.1.b), the power to increase the capital on one or several occasions, in such amount as it may decide up to a maximum of 50% of the issued capital at the date of this authorisation, within a period not exceeding five years and without previously consulting the General Meeting. Any such capital increases shall be made by means of monetary contributions and the issuance of new ordinary voting shares, with or without a share premium.

This delegation shall subsist on its own terms until the end of the five-year period established or until rendered void by the General Meeting, even though the directors may change and without prejudice to the possible decision by the general meeting, subsequent to this delegation, to make one or several capital increases.

This resolution renders void the corresponding resolution adopted at the AGM on 5 April 2006, which has not been executed by the board.

- To further delegate to the board the power to freely offer any shares not subscribed within the preferential subscription period or periods, if granted, and to stipulate that in the event of incomplete subscription the capital will be increased by the amount of the subscriptions made, pursuant to section 161.1 of the Corporations Act.

- To authorise the board to exclude the preferential subscription right pursuant to section 159.2 of the Corporations Act in any issues of shares made under this delegation, although this power will be limited to a maximum of 20% of the company's issued capital as of the date of this authorisation.

- To delegate to the board the power to alter Articles 6 and 7 of the Bylaws regarding the capital and shares whenever such alterations are due to a resolution adopted by the board in execution of the powers vested in it at this general meeting to increase the capital and exclude the preferential subscription right.

- To authorise the board to apply for admission to trading of any shares that may be issued by virtue of the foregoing resolutions on the national stock exchanges on which the Ebro Puleva shares are listed at the time of making each capital increase, complying at all times with the applicable legal provisions.

This resolution was approved by a majority of 99.428% of the voting capital present and represented.

ITEM TEN ON THE AGENDA

- To expressly authorise the Board, with the fullest powers necessary, to make one or several financial contributions to Fundación Ebro Puleva over forthcoming years, up to and not exceeding the sum of four hundred and fifty thousand euro (€450,000), without prejudice to similar authorisations granted by the General Meeting in previous years for the Board to donate funds to Fundación Ebro Puleva.

This resolution was approved by a majority of 99.985% of the voting capital present and represented.

ITEM ELEVEN ON THE AGENDA

- To expressly authorise the Chairman, Secretary and Vice-Secretary of the Board, as extensively as may be required by law, so that any one of them, acting individually and with his/her sole signature, may execute, register and report each and all of the resolutions adopted at this General Meeting, supplement, develop and remedy those resolutions, deliver them and have them entered in the Trade Register or in the registers of any competent public or private authorities, execute and remedy all kinds of public or private instruments and, in general, take whatsoever action or actions as may be necessary.

This resolution was approved by a majority of 99.997% of the voting capital present and represented.

E.9. State the number of shares required to attend General Meetings, indicating whether any restrictions are established in the bylaws.

YES

Number of shares required to attend general meeting	100
---	-----

E.10. Describe and justify the company's policies on proxy votes at General Meetings.

Proxy votes are regulated in Article 7 of the Regulations of the General Meeting.

Any shareholder entitled to attend may be represented at general meetings by another person. The proxy shall be made in writing especially for each general meeting or, as the case may be, through distance communication means in accordance with the appropriate provisions of these Regulations and especially for each general meeting. This right to representation is without prejudice to the legal provisions established for family representation and the granting of general powers of attorney.

In any case, whether the proxy is voluntary or required by law, no shareholder may have more than one representative at any general meeting.

Proxies may be revoked at any time. Personal attendance at the general meeting by the represented shareholder shall have the effect of revoking the proxy.

In cases of public requests for representation, the document establishing the power of attorney shall contain or annex the agenda, together with the request for instructions to exercise the voting right and indications of how the representative will vote if no specific instructions are issued. Such public request shall be deemed to exist whenever any one person represents more than three shareholders.

The proxy may also include any points which, although not included on the agenda in the notice of call, are likely to be dispatched at the meeting, being so permitted by law.

If there are no voting instructions because the General Meeting is going to resolve on issues which, by law, do not need to be included on the agenda, the representative shall cast the vote howsoever he may consider his principal's interests best favoured.

If the represented shareholder has issued instructions, the representative may only vote otherwise in circumstances of which the shareholder was unaware at the time of issuing the instructions and when the represented shareholder's interests are in jeopardy.

In the last two cases, the proxy shall inform the represented shareholder forthwith, in writing, explaining the reasons for his vote.

E.11. Is the company aware of the policies of institutional investors regarding their participation or otherwise in company decisions?

NO

E.12. Address and access to the corporate governance contents on the company's web site.

Ebro Puleva's corporate web site <http://www.ebropuleva.com> is set up as a vehicle of continuous, up-to-date information for shareholders, investors and the financial market in general.

In this respect, the home page includes a specific section, called "Information for shareholders and investors", which contains all the information required under the applicable legal provisions.

This section includes, pursuant to current legislation, the chapter on Corporate Governance. The specific address of this chapter is:

F. EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the degree of compliance by the company with existing corporate governance recommendations. In the event of non-compliance with any recommendations, explain the recommendations, standards, practices or principles applied by the company.

1. The Bylaws of listed companies should not limit the maximum number of votes that may be cast by an individual shareholder or impose other restrictions hampering takeover of the company via the market acquisition of its shares.

See sections A.9, B.1.22, B.1.23, E.1 and E.2

Complies

2. When both the parent company and a subsidiary are listed, they should both publish a document specifying exactly:
 - a) The types of activity they are respectively engaged in and any business dealings between them, and between the listed subsidiary and other group companies;
 - b) The mechanisms in place to solve any conflicts of interest.

See sections C.4 and C.7

Complies

3. Although not expressly required in company law, any operations involving a structural alteration of the company should be submitted to the General Meeting for approval, especially the following:
 - a) Conversion of listed companies into holdings, through spin-off of "subsidiarisation", or reallocating to subsidiaries of core activities thereunto performed by the company, even though the latter may retain full ownership of its subsidiaries;
 - b) Acquisition or disposal of key operating assets, if this involves an effective alteration of its objects;
 - c) Any operations producing effects equivalent to liquidation of the company.

Complies

4. Detailed proposals of the resolutions to be adopted at a General Meeting, including the information contemplated in Recommendation 28, should be published simultaneously with the notice of call to the General Meeting.

Explanation

- The proposed resolution to appoint new auditors for Ebro Puleva, S.A. and its consolidated group corresponding to item seven on the agenda of the annual general meeting was decided by the board after publication of the notice of call to the AGEM.

- Since at the time of calling to the AGM it was impossible to determine exactly certain aspects of the extraordinary dividend in kind consisting of the delivery of shares from the treasury stock, contemplated in item five on the agenda for the AGM (specifically, the reference value, maximum number of shares to be delivered, exact ratio for delivery, date of delivery of the shares and appointment of agent), they had to be proposed by the board after publication of the notice of call.

5. Substantially independent items shall be voted separately at General Meetings to enable shareholders to express their preferences separately. This rule is particularly applicable:
- a) To the appointment or ratification of directors, which should be voted individually;
 - b) In the case of Bylaw alterations, to each article or substantially independent group of articles.

See section E.8

Complies

6. Companies should allow split votes, so that financial intermediaries on record as shareholders but acting on behalf of different clients can vote according to the latter's instructions.

See section E.4

Complies

7. The Board should perform its duties with unity in proposal and independent criteria, affording all shareholders the same treatment and guided by corporate interests, which shall mean maximising the value of the company over time.

It shall also ensure that the company complies with the applicable laws and regulations in its relations with stakeholders; fulfils its contracts and obligations in good faith; respects good customs and practice in the sectors and territories in which it operates; and upholds any other social responsibility principles that it may have subscribed to voluntarily.

Complies

8. The Board should undertake, as its principal mission, to approve the company's strategy and the organisation required to put it into practice, and to oversee and ensure that Management meets the targets marked out and respects the objects and corporate interest of the company. For this purpose, the full Board shall approve the following:

a) General policies and strategies of the Company, particularly:

- i) The strategic or business plan, management objectives and annual budgets;
- ii) Investment and financing policy;
- iii) Definition of the structure of the corporate group;
- iv) Corporate governance policy;
- v) Corporate social responsibility policy;
- vi) Policy on the remuneration and performance assessment of senior officers;
- vii) Risk management and control policy and the regular monitoring of internal information and control systems;
- viii) The dividend policy and treasury stock policy, particularly regarding limits.

See sections B.1.10, B.1.13, B.1.14 and D.3

b) The following decisions:

i) Upon recommendation by the chief executive, the appointment and possible removal of senior officers, and corresponding severance clauses.

See section B.1.14

ii) Directors' emoluments and, for executive directors, supplementary remuneration for their executive duties and any other terms and conditions to be included in their contracts.

See section B.1.14

iii) The financial information that listed companies are obliged to disclose periodically.

iv) Any investments or transactions considered strategic by virtue of their amount or special characteristics, unless approval corresponds to the General Meeting;

v) Creation or acquisition of shares in special purpose vehicles or companies domiciled in countries or territories considered tax havens, and any transactions or operations of a similar nature which could, by virtue of their complex structure, impair the group's transparency.

c) Transactions between the company and its directors, significant shareholders or shareholders with representatives on the Board, or persons related thereto ("related-party transactions"). However, this authorisation will not be necessary for related-party transactions that meet all of the following three conditions:

1. Made under contracts with standard terms and conditions applied across the board to large numbers of clients;
2. Made at the general prices or rates established by the person supplying the good or service;
3. Made for a sum not exceeding 1% of the company's annual earnings.

The Board is recommended to make approval of related-party transactions dependent on a favourable report by the Audit Committee, or such other committee as may be assigned this duty. Apart from not exercising or delegating their vote, the affected Directors shall leave the room during the corresponding discussion and voting by the Board.

It is recommended that these competences of the Board be non-delegable, except those contemplated in paragraphs b) and c), which may be adopted by the Executive Committee in an emergency, subject to subsequent ratification by the full Board.

See sections C.1 and C.6

Complies

9. The Board should have an adequate size to secure efficient, participative performance of its duties. The recommended size is between five and fifteen members.

See section B.1.1

Complies

10. Non-executive proprietary and independent directors should have an ample majority on the board, while the number of executive directors should be kept to a minimum, taking account of their equity ownership and the complexity of the corporate group.

See sections A.2, A.3, B.1.3 and B.1.14

Complies

11. If any non-executive director cannot be considered proprietary or independent, the company should explain this circumstance and the director's ties with the company or its executives, or with its shareholders.

See section B.1.3

Not applicable

12. Among the non-executive directors, the ratio of proprietary to independent directors should reflect the proportion between capital represented and not represented on the Board.

This strictly proportional distribution may be relaxed so that proprietary directors have a greater weight than that corresponding to the total percentage of capital they represent:

1. In companies with a high capitalisation with few or no shareholdings considered significant by law, but in which certain shareholders have interests with a high absolute value.

2. In companies with a plurality of unrelated shareholders represented on the Board.

See sections B.1.3, A.2 and A.3

Complies

13. The total number of Independent Directors should represent at least one-third of the total Directors.

See section B.1.3

Explanation

There are 4 independent directors, representing 28.571% of the total board members.

The company considers that the current composition of the board (2 executive directors, 7 proprietary directors, 4 independent directors and one director classified as "others") reflects the composition of the shareholding body and that for the time being it is not necessary to appoint another independent director, owing to the very small difference in respect of the recommended percentage.

14. The Board should explain the nature of each Director at the General Meeting at which an appointment is to be made or ratified. The type of director should be confirmed or altered, as the case may be, in the Annual Corporate Governance Report, following verification by the Nomination Committee. The reasons why Proprietary Directors have been appointed at the request of shareholders with an interest of less than 5% in the capital shall be explained in that Report, as well as the reasons, where appropriate, for not meeting formal requests for presence on the Board from shareholders with an interest equal or greater than others at whose request proprietary directors have been appointed.

See sections B.1.3 and B.1.4

Complies

15. When there are few or no female directors, the Board should explain the reasons for this situation and the steps taken to correct it. In particular, when vacancies arise on the Board, the Nomination Committee should ensure that:

- a) There is no hidden bias against women candidates in the selection procedures;
- b) The company makes a conscious effort to include women with the target profile among the candidates.

See sections B.1.2, B.1.27 and B.2.3

Explanation

Board members are appointed regardless of candidates' sex, so there is no positive or negative discrimination of any nature in the election of directors.

María Blanca Hernández Rodríguez was appointed director in 2006.

16. Just grounds are deemed to exist when the director has acted in breach of his duties or when he or she falls into any of the circumstances described in point III.5, definitions, of this Code.

The removal of independent directors may also be proposed as a result of takeover bids, mergers or similar corporate operations producing a change in the capital structure of the company, whenever those changes in the structure of the Board correspond to the principle of proportionality established in Recommendation 12.

See sections B.1.2, B.1.5 and B.1.26

Not Applicable

39. In the case of variable remuneration, the pay policies should establish such precautions as may be necessary to ensure that such remuneration is related to the professional performance of its beneficiaries, not merely deriving from general trends on the markets or in the company's sector of business or other similar circumstances.

 - vi) Compensation received as director of other group companies;
 - vii) Remuneration received by executive directors as payment for their senior management duties;
 - viii) Any sums paid other than those listed above, regardless of the nature or the group company paying them, especially when it may be considered a related-party transaction or omission would distort the true and fair view of the total remuneration received by the director.
- b) Breakdown for each director of any deliveries of shares, stock options or whatsoever other instrument linked to the value of the company's share, specifying:
 - i) Number of shares or options granted during the year and conditions for exercising the options;

- b) Check internal control and risk management systems on a regular basis to ensure that the principal risks are adequately identified, managed and disclosed.
- c) Oversee the independence and effectiveness of the internal audit department; propose the nomination, appointment, reappointment and removal of the chief audit officer; propose the budget for this department; receive periodical information on its activities; and check that the top management heeds the conclusions and recommendations set out in its reports.
- d) Establish and supervise a "whistle-blowing" procedure so employees can confidentially and, if considered appropriate, anonymously report any potentially important irregularities they may observe in the company's conduct., especially in financial and accounting aspects.

2. In connection with the external auditor:

- a) Submit proposals to the Board on the nomination, appointment, reappointment and replacement of the external auditor and its terms of engagement.
- b) Receive regular information from the external auditor on the audit plan and findings and make sure the senior management acts on its recommendations.

See section B.1.38

Complies

54. The majority of the members of the Nomination Committee – or Nomination and Remuneration Committee if there is just one – should be independent directors.

See section B.2.1

Explanation

The Nomination and Remuneration Committee currently consists of three proprietary and two independent directors.

The board appointed the non-executive directors it considered most suitable as members of this Committee, in view of their expertise, skills and experience and the duties of the Nomination and Remuneration Committee. Its current composition (3 proprietary and 2 independent directors, one of whom is the chairman) has a similar structure to that of the board and enables this Committee to perform its duties adequately.

55. Apart from the duties specified in preceding Recommendations, the Nomination Committee should:

- a) Assess the expertise, knowledge and experience of Board members; define the duties and skills required of candidates to fill vacancies; and determine the time and dedication considered necessary for them to adequately perform their duties.
- b) Study or organise as appropriate the succession of the Chairman or Chief Executive Officer and, if necessary, make recommendations to the Board to secure an orderly, well-planned handover.

- c) Report on any appointments and removals of senior officers proposed by the Chief Executive Officer.

G. OTHER INFORMATION OF INTEREST

If you consider there to be an important principle or aspect regarding the corporate governance practices applied by your company that have not been mentioned in this report, indicate them below and explain the contents.

EXPLANATORY NOTE ONE, CONCERNING SECTION A.5.

For relations between the Ebro Puleva companies and their significant shareholders, see section C.2 of this report.

EXPLANATORY NOTE TWO, CONCERNING SECTION B.1.3.

Félix Hernández Callejas is General Manager of Herba Ricemills, S.L.U., a wholly-owned subsidiary of Ebro Puleva, S.A.

EXPLANATORY NOTE THREE, CONCERNING SECTION B.1.4.

No requests for presence on the board were made during 2009 by shareholders with interests equal to or greater than others at whose request, had it been made, proprietary directors would have been appointed.

EXPLANATORY NOTE FOUR, CONCERNING SECTION B.1.7.

María Blanca Hernández Rodríguez is also Chairman of the Board of Trustees of the Ebro Puleva Foundation.

EXPLANATORY NOTE FIVE, CONCERNING SECTION B.1.11.

- Explanations concerning paragraphs a) and b) of this section:

Of the total variable remuneration of the executive directors of Ebro Puleva, S.A. (€4,216 thousand), €3,380 thousand correspond to the Multi-Year Incentive Scheme for executives under the Ebro Puleva Group Strategic Plan for the period 2007-2009.

Of the total variable remuneration of the company directors for being on the boards of other group companies (€1,460 thousand), €1,246 thousand correspond to the Multi-Year Incentive Scheme for executives under the Ebro Puleva Group Strategic Plan for the period 2007-2009.

Provisions were made for this in the annual accounts of 2007 and 2008, with a cumulative total of €4,114 thousand, of which €2,261 thousand corresponded to directors performing executive duties.

- Explanations concerning the following pay items and other benefits reflected in section B.1.11:

1. Bylaw provisions: share in profits stipulated in Article 22 of the Bylaws. See section B.1.14 of this Report.
2. Pension Funds and Schemes. Contributions: it is not actually a pension fund & scheme, but a Retirement System.

EXPLANATORY NOTE SIX, CONCERNING SECTION B.1.12.

Of the total remuneration of the senior management (€2,741 thousand), €624 thousand correspond to the Multi-Year Incentive Scheme for executives under the Ebro Puleva Group Strategic Plan. Provisions were made for this in the annual accounts of 2007 and 2008, with a cumulative total of €4,114 thousand, of which €331 thousand corresponded to members of the top management of Ebro Puleva, S.A.

EXPLANATORY NOTE SEVEN, CONCERNING SECTION B.1.13.

The Chairman, Antonio Hernández Callejas, informed the board in 2006 of his total, irrevocable waiver of the golden handshake clause originally established in his contract, consisting of a net compensation equivalent to the gross annual salary of two years.

The General Manager, Jaime Carbó Fernández, and the Secretary, Miguel Angel Pérez Álvarez, also waived the golden handshake clauses originally established in their respective contracts, consisting of a net compensation equivalent to the gross annual salary of two years. The board resolved in both cases to substitute a compensation in the event of removal from office or change of control of the company equivalent in net terms to the amount that would correspond to them applying the current regime established in the Workers' Statute. The reference to net terms is deemed made for the sole purpose of calculating the compensation and does not alter the tax obligations corresponding to each taxpayer by law. In any case, the results of this calculation may not exceed a sum equivalent to two years of the respective fixed annual remuneration.

As regards the remaining executives of Ebro Puleva, S.A., the contracts of two executives contemplate guarantee clauses in the event of dismissal or takeover, equivalent to between one and two years' salary.

The clauses initially established for other executives are below the compensation established in the Workers' Statute, owing to their accumulated seniority.

EXPLANATORY NOTE EIGHT, CONCERNING SECTION B.1.21.

Any of the directors, not only independent directors, may request the calling of a board meeting or inclusion of new items on the agenda.

EXPLANATORY NOTE NINE, CONCERNING SECTION B.1.40.

- Antonio Hernández Callejas, Félix Hernández Callejas and María Blanca Hernández Rodríguez hold an indirect interest in Ebro Puleva, S.A. through the 15.720% interest held in the company by Instituto Hispánico del Arroz, S.A., directly and through Hispafoods Invest, S.L.

- Juan Domingo Ortega Martínez has an indirect interest in Quesos Forlasa, S.A., through his 60.84% stake in Forlasa Alimentación, S.L., which in turn wholly owns Quesos Forlasa, S.A.

See sections A.3 and C.5 of this Report.

EXPLANATORY NOTE TEN, CONCERNING SECTION B.2.1.

The Audit Committee of Ebro Puleva, S.A. is called the Audit and Compliance Committee.

EXPLANATORY NOTE ELEVEN, CONCERNING SECTIONS C.2, C.3 AND C.4.

Report on the Directors' Remuneration Policy 2009

Board of Directors of Ebro Puleva, S.A.

1. INTRODUCTION

Recommendation 40 of the Unified Code of Good Governance of Listed Companies establishes the convenience for the Board to submit a report on the directors' remuneration policy to an advisory vote at the General Shareholders' Meeting, as a separate item on the agenda.

The Sustainable Economy Bill currently going through Parliament contemplates converting that recommendation into a legal obligation for listed companies.

This report complies with that recommendation, making the Ebro Puleva remuneration policy 2009 transparent and putting it at shareholders' disposal as from the date of call to the forthcoming Annual General Meeting.

2. APPLICABLE INTERNAL REGULATIONS

Directors' emoluments are regulated in Article 22 of the Bylaws, making a distinction between the share in the profits and attendance fees, payable generally to all board members, and the remuneration corresponding specifically to the executive directors, payable in cash or in kind (shares, contributions to pension schemes, etc.):

■ **"Article 22: Directors' emoluments.**

When approving the company's accounts for the previous year, the general meeting shall set aside for the directors a share of two and a half per cent (2.5%) of the consolidated profits attributable to the company, although this sum may only be taken from the net profit for the year of the company and after meeting the legal reserve requirements, setting aside for the shareholders the minimum dividend established in prevailing legislation and meeting all and any other priority assignments required by law. The directors may waive this remuneration, in full or in part, when drawing up the accounts. The board shall distribute the aforesaid sum among its members, annually and at its discretion, according to the duties assumed by each director on the board.

The directors shall also be entitled to a fee for attending meetings of the corporate bodies of the company, the amount of which shall be established every year by the general meeting.

Directors with executive duties in the company shall, regardless of the nature of their legal relationship with the latter, be entitled to remuneration for the performance of such duties, the amount of which shall be decided for each year at the Annual General Meeting. This remuneration may contemplate welfare payments to cover any public/private pension schemes and insurance systems considered necessary or retirement from office.

The board may establish the mandatory or voluntary application by directors of all or part of the remunerations contemplated in the preceding paragraphs to the purchase of shares in the company, and may also establish an obligation to keep the shares thus purchased for a specified time.

If executive directors waive their share in the profits, as contemplated in the first paragraph of this article, the sums that would correspond to them as a share in the profits of the company shall not be distributed among the remaining directors."

The Regulations of the Board stipulate in Article 14.3 that the Nomination and Remuneration Committee shall "study, issue reports and submit proposals for the Board on the following matters:

...

d) Proposal of directors' emoluments, according to the system of remuneration established in the Bylaws and the relationship of the executive directors with the Company. The Committee shall also inform in advance on any resolution or proposal of the Board on the remuneration of directors and executives indexed to the value of the shares in the Company or its subsidiaries or consisting of the delivery of shares in the Company or its subsidiaries or the granting of options thereof.

...

f) Supervision of the Top Management remuneration and incentives policy, obtaining information and reporting on the criteria followed by the Company's subsidiaries in this respect."

3. REMUNERATION POLICY FOR 2009

3.1 Share in profits

On 26 February 2010, the Board of Directors of Ebro Puleva decided to propose at the AGM increasing the share in profits corresponding to the directors in accordance with the bylaws by 13.5% (equivalent to the year-on-year growth in the consolidated EBITDA 2009), to €2,332,231), which is equivalent to proposing the application of a 1.32% share in the consolidated profit attributed to the company in 2009.

3.2. Attendance fees for board and committee meetings

The Board also decided to maintain attendance fees at 1,400 euro for Ebro Puleva board meetings and 700 euro for the different committee meetings (giving a total of €277,900 in 2009).

The fees for attending board meetings in the subsidiary Puleva Biotech were also set at 700 euro, giving a sum of €14,000 in 2009 for the directors of Ebro Puleva, S.A. who are also directors of that subsidiary.

No attendance fees are paid for board meetings in the other Group subsidiaries.

The aggregate sum of all attendance fees received by the directors of Ebro Puleva, S.A. in 2009 was €300,000.

On 26 February 2010, the Board of Directors resolved to propose an increase in attendance fees, which had been frozen since February 2005. The fees for attending board meetings would thus be raised from €1,400 to €1,600 and the fees for attending meetings of the different committees would be raised from €700 to €800.

3.3. Executive directors

The executive directors work under contract with the following common features:

- Term of contract: indefinite.
- Notice: four months.
- Severance pay in the event of dismissal or takeover: although they were initially established in the contracts, the following changes were made in 2006:
 - The Chairman, Antonio Hernández Callejas, informed the board of his total, irrevocable waiver of the golden handshake clause originally established in his contract, consisting of a net compensation equivalent to the gross annual salary of two years.
 - The General Manager, Jaime Carbó Fernández, also waived the golden handshake clause originally established in his contract, consisting of a net compensation equivalent to the gross annual salary of two years. The board resolved to substitute a compensation in the event of removal from office or change of control of the company equivalent in net terms to the amount that would correspond to him applying the current regime established in the Workers' Statute. The reference to net terms is deemed made for the sole purpose of calculating the compensation and does not alter the tax obligations corresponding to each taxpayer by law. In any case, the results of this calculation may not exceed a sum equivalent to two years of the respective fixed annual remuneration.

Directors performing executive duties were paid the following sums during 2009:

- Fixed remuneration: €1,649,698
- Variable remuneration: After examining the degree to which the set objectives were met (50% corresponding to EBIT and 50% to the average working capital, both weighted at 100% in consolidated terms for directors with executive duties in the parent companies and 20% consolidated and 80% company for directors with executive duties in a subsidiary), the Board approved the sum of €1,021,041.
- One member of the Board with executive duties is also the beneficiary, according to the terms of his contract, of a supplementary life and retirement insurance policy in an annual sum of €52,120.

3.5. Incentive Scheme linked to fulfilment of the Ebro Puleva Group Strategic Plan 2007-2009

Of the total remuneration of the executive directors (€7,298 thousand), €4,626 thousand correspond to the Multi-Year Incentive Scheme under the Ebro Puleva Group Strategic Plan, of which €600 thousand was paid in advance during 2009, in accordance with the Regulations of the Plan, upon sale of the sugar business.

Upon recommendation by the Nomination and Remuneration Committee, in 2006 the Board approved an incentive scheme for its executives consisting of the possibility of receiving a given sum of money linked to the achievement of a number of objectives established in the company's Strategic Plan for 2007-2009. The senior officers of the Ebro Puleva Group, including executive directors, are among the possible beneficiaries of the scheme. The sum indicated is calculated according to the degree of achievement of the targets for EBITDA, EVA and certain qualitative objectives established in the Group Strategic Plan for 2007-2009.

Total cumulative provisions of €4,206 thousand were recognised in the consolidated annual accounts 2007 and 2008 as a provisional estimate of the sums payable under the Multi-Year Incentive Scheme for those years, based on the profits recorded in 2007 and 2008. These provisions, for both executive directors and senior executives of the companies in the Ebro Puleva Group included in the Scheme, were recorded against the final settlement made in 2009 for the three-year period, in accordance with the terms set out in the preceding paragraph.

This scheme is not indexed to the value of the Ebro Puleva share, nor does it involve any receipt by beneficiaries of shares or other rights thereover.

3.6. Other information

The company has not granted any loans or advances to any Board members, nor does it have any obligations under guarantees or bonds furnished on their behalf.

In general, none of the remunerations currently existing in favour of the Board members involves or contemplates the delivery of shares in the company or its subsidiaries.

The only exception to this is the Ebro Puleva Executive Share Delivery Scheme approved by the Board on 29 October 2009, under which Jaime Carbó Fernández received shares in Ebro Puleva, S.A. for a value of €11,982.68, although this does not represent an effective increase in his remuneration, since according to the conditions of the Scheme and the terms authorised at the AGM on 29 April 2009, the same sum has been deducted from his monetary remuneration.

Finally, the company received counselling from Garrigues Human Capital Services when preparing the Incentive Scheme linked to fulfilment of the Ebro Puleva Strategic Plan 2007-2009. No other external consultants have provided any assistance in respect of the subject matter of this report.

4. REMUNERATION POLICY FOR FUTURE YEARS
